This is a draft paper for discussion. It does not necessarily represent the views of the Committee.

CC/2014/14

COMMITTEE ON CARCINOGENICITY OF CHEMICALS IN FOOD, CONSUMER PRODUCTS AND THE ENVIRONMENT

Alcohol and cancer risk: Draft feedback on reports provided to the CMOs' review of alcohol guidelines (Reserved business)

1. Members should note that the information presented in the annexes for this item is reserved, as it discusses pre-publication results which are not for wider circulation, and are reminded that the whole paper will be discussed in reserved business at the meeting.

2. At the COC meetings in November 2013 and March 2014, the Committee discussed the draft and final reports provided to the CMOs' Oversight Group, and agreed that feedback should be prepared which could be provided during the consultation phase of the CMOs' work if not before. Annex A to this paper provides the draft feedback based on the reserved minutes of discussions in November and March. It is likely that further material from the CMOs' review will come to the Committee either before or during the consultation and the draft feedback will be revisited as necessary

Questions for the Committee

i). Are Members happy with the overall structure and contents of the draft feedback in Annex A?

ii). Do Members have any specific comments or suggestions for changes to the draft feedback in Annex A?
