Hi [redacted]

Yes, we are expecting to see you here tomorrow!

I'm going to Tunis, so we can discuss that too

[redacted]

Just to confirm looking forward to seeing you both tomorrow at 1100. If I look like getting significantly delayed I will ring.

You will be aware that I circulated the LAG with a sitrep last week.

I attach a note produced for internal use by the FACE Ammunition Working Group, covering a recent Berlin conference and providing a brief on surrounding issues etc.

On another topic, I shall be going to Tunis next week for the Council of Europe IKTT conference – and will be catching up on the CMS meeting. Who will be going from Defra – it would be helpful to have a link (compare notes).

Best wishes

Many thanks. 11.00 a.m. will be fine for me.

I shall give thought to precise content/ground to cover – and will be in touch beforehand.

Best wishes and thank you for your time.

[redacted]

Thanks. Shall we make it 21st May? Temple Quay House would indeed be easiest for [redacted] and I, if you are content to travel? Please let me know what would be a convenient starting time for you and I shall book us a room.

It will indeed be helpful to get an update from the horse's mouth, so to speak! Happy to be guided by you in terms of any agenda.

Best wishes

Dear [redacted]

Many thanks for your reply. I would welcome the chance to provide you at first hand with a brief and to compare notes. I can do any of 16, 17 … 20, 21 and 24th May. (Early June is a non-starter for me as I shall be out of the country.)

Please don't worry about my (or the Group's) independence – having to live and work with some fairly forceful pressures is part of this job. And this particular meeting is at my request as I undertook to make a progress report at this time.

And I presume it would be easiest for you at Temple Quay House?

Kind regards – we can discuss content and detail nearer the time.

Dear [redacted]

Thank you for your email. You are correct, I have recently taken over responsibility for birds policy from [redacted], who has moved on to another area within Defra.

I am happy to meet to discuss your concerns regarding timescales, direction etc of the LAG. I am also quite conscious that the LAG is an independent group, and that this independence is vital to maintaining the inviolability of the Group's work/recommendations. I would not wish to endanger this by being seen to be hurrying the LAG towards conclusions it may not be ready to make.
Nevertheless, considering the change of hands on our end, a meeting to discuss progress would seem to be timely.

As I am still continuing to pick up areas of this work, I'd prefer it if we could find a date when [redacted] could join us. Week's commencing 13th and 20th May look to be best in the short term, or the first 3 weeks in June.

Best wishes

I understand (see below) that you should now be my first port of call. Is that correct – and not [redacted]?

I would very much welcome the chance to meet up and had been chasing [redacted] for a meeting. My progress report is overdue and it would be helpful to ensure we are on the same wavelength.

Kind regards

[redacted]

PS I left your severe weather consultation question to [redacted] and [redacted] (though personally I think it would be damaging for BASC to lose that authority and make sure everything works properly even though personalities change. The fact of it being used infrequently reinforces the need (in my view).

[redacted]

You left me a message – I no longer cover this area. I have copied [redacted] who is your first port of call for this work?

Hope you are well!

Best Wishes,

[redacted]
