[redacted]

Thank you both for coming and I hope you found it useful. i'm sure that if there are points that you feel might be more aptly phrased [redacted] would appreciate hearing unattributably.

Best regards

Thank you for these . [redacted] and I will read the final version of the comments, but as we were at the meeting as observers and are not official members of the LAG, we don't think it is appropriate for us to feed comments in to the minutes.

I have copied in [redacted] to this email who I *think* may have booked a room for the meeting on 19th Dec already. If not, I'll ask our new EO [redacted] to look in to it early next week. If we are unable to find anything in London, we will look to book a room in Bristol as I know [redacted] was keen for the meeting to be held on 'neutral territory', so to speak.

Best wishes
[redacted]
