Role State - MOD Form 706(H)

1. The MOD Form 706(H) is used to record the Role state of the aircraft, provision is made to record 28 changes of role state. When raising a new form enter the Aircraft Serial Number and the next page number in sequence. After ensuring that the first block of the new form shows the current aircraft state, the old form can be removed and disposed of in accordance with the instructions on MOD Form 799/1.

2. The fitting and removal of role equipment is to be recorded on a Maintenance Work Order. The task supervisor is to complete the next block of the MOD Form 706(H) to show the current role state of the aircraft. More than one block may be used if required and old blocks ruled through.
