

**ENVIRONMENT AGENCY
WATER RESOURCES ACT 1991
NOTICE OF GRANT OF A DROUGHT ORDER**

TAKE NOTICE that due to the threat of a serious deficiency of supplies of water for compensation flows in Holme Styes Reservoir at Hade Edge, Holmfirth (National Grid Reference: SE 13968 05664) caused by an exceptional shortage of rain, the Environment Agency ("the Agency") applied to the Secretary of State for the Department for Environment, Food and Rural Affairs for a drought order under Section 73 of the Water Resources Act 1991, which was granted on 11th August 2022 and came into effect on 15th August 2022.

The drought order, which will apply up to 14th February 2023, allows the Agency to reduce the compensation flows required from Holme Styes Reservoir under Licence Serial No. NE/027/0010/010 (dated 14th April 2020) in a staged manner to a flow of 0.99 MI/day to the River Ribble during the period of operation of the order.

The order, as granted, allows the Agency to continue to provide a compensation flow to meet the needs of the respective downstream environments whilst preserving stocks in the reservoir to support such environmental needs.

The drought order entitled The Environment Agency (Holme Styes Reservoir) Drought Order 2022 is available to view on the Agency's website at, www.gov.uk/government/collections/abstracting-or-impounding-water-notices-of-applications-made or on the Government Legislation website at, www.legislation.gov.uk/ukxi/2022/902/contents/made

Anyone may inspect the drought order, until 26th August 2022. Inspection is free of charge and available during normal working hours at:-
