[redacted]

I have spoken to [redacted] and he is happy for the documents to be shared with your EC colleagues.

We have a suite of these Amenity Action Plans for sites in London and we tend to update these quarterly when we meet with the GLA and the Boroughs to discuss progress. I will ask [redacted] to forward these on when we do the next round.

Regarding the Horn Lane meetings I think it is fair to say the local pressure group and MP (Angie Bray) are happier that the sites have improved but they still want more to be done. I am not sure how realistic this is as the traffic sources are considerable being on two main arterial routes plus the ongoing Crossrail work. That said we are committed to support [redacted] and his team at Ealing wherever we can.

Kind regards,

[redacted]

Thanks for these documents they are very helpful. Are they publically available at all? I ask because we might want to provide them to the European Commission as part of demonstrating the actions that are being taken in relation to these sites even though the associated monitoring stations are not part of what we report to them.

Also if you provide regular updates in relation to this and other London sites of interest I would appreciate being put on any mailing list for these (should one exist of course).

I notice that the Horn Lane doc refers to regular meetings with local residents. If EA attends those are you able to give a flavour of the mood of those meetings now? Eg do local residents and the MP give the sense that they think action is being taken and progress being made?

Thanks again Regards

Hello [redacted]

I have attached copies of the updated Amenity Action Plans for [redacted] Horn Lane.

Looking at Horn Lane, we are pretty confident that the waste sites are no longer significantly causing the failures of air quality. The Crossrail project is causing occasional complaints and we pass them on the the relevant bodies to act upon. Both the EA regulated waste sites are relatively quiet due to tonnage restrictions we have imposed or the market.

[redacted]

If you would like any further information please don't hesitate to give me a call.

Kind regards,

Hello

Would you have an update on EA activities in relation to Horn Lane ? We have the latest information on exceedences and note that Horn Lane particularly has seen dramatic reductions but it would be useful to have an update on progress and anything else if you have it. mentioned that you had been providing updates on the situation? I have a copy of the Action Plan you proposed for Horn Lane about a year or so ago (attached) If you are able to provide any updates to these that would be much appreciated.

<<Horn Lane Action Plan for Article 5 rev.pdf>>

Thanks in advance
