Dear Mr Stewart
I am emailing to say that I think it is a wonderful idea to put a tax on anything disposable that is non-biodegradable, including coffee cups.
We now have the technology and businesses in place to produce biodegradable alternatives and options like a cup for life can also be promoted.
I rarely support Tory policies but I have to give your government credit for the carrier bag tax which is unpopular only with tabloids who are always looking for something to moan about.
People would soon get used to this. No one needs to drink coffee or tea in a throw away cup. Please do not allow a sensible policy to be over-turned by the moaning press.
Regards
[REDACTED]
