Subject: Taxing Coffee Cups

Dear Mr Stewart

I live on a country lane [REDACTED] . When I walk down the lane I am struck by the amount of fast food packaging that motorists and their passengers chuck out of their windows onto the lane. McDonalds and KFC packages predominate. Your suggestion that disposable coffee cups be taxed is an excellent idea but I suggest that it is extended to all fast food packaging. The money raised to be given to Parish Councils so that they can organise litter picks.

Kind Regards

[REDACTED]
