POLREP

POLREP 01/2019 SITREP No1
None

Classification:	**A**. Confirmed
Date & Time:	**B**. 142356UTC Jan 2019
Position:	**C**. 50 50.48N 001 19.88W Fawley Oil Terminal berth No.2. Unknown amount of light Hydraulic oil extending 500 metres South East from the oil terminal approximately 100 metres in width.
Tide, Wind:	**D**. HW Southampton 142239UTC. Tide: 142 1.2 knots. Wind: Calm.
Weather:	**E**. Weather: Fog. Sea: Smooth
Characteristics (of pollution):	**F**. Light Lube Oil
Source & Cause:	**G**. Split Pipe at the Terminal
Vessels in the Area:	**H**. N/A
Photographs:	**J**. No
Remedial Action:	**K**. Esso Fawley are currently attempting to boom the spill with tugs. Southampton VTS have declared it a tier 1 spill and have called in OSRL to assist.
Forecast (likely effect):	**L**. Estimated to hit Calshot Castle and the spit by 0200 and possibly spread out up as far as Ashlett Creek if the spit contains the spill. Should that not be the case the spill will only extend 500m metres south of Calshot Spit by Low water when it will return on itself possibly affecting the Eastern side of Calshot Beach
Names:	**M**. None
Other Information:	**N**. None
Results of Sample:	**O**. N/A
Results of Photo Analysis:	**P**. None
Results of Enquiries:	**Q**. None
Results of Models:	**R**. See Para L
