Such goods must be intended for re-exportation within a specified period after having undergone manufacturing, processing or repair; and
 - (b) "outward processing" means customs procedures under which certain goods, which are in free circulation in a customs territory, may be temporarily exported for manufacturing, processing or repair abroad and then re-imported with total or partial exemption from customs duties.

ARTICLE 2.12

1. Except as otherwise provided in this Agreement, no Party shall adopt or maintain any prohibition or restriction on the importation of any good of another Party or the exportation or sale for export of any good destined for another Party, except in accordance with Article XI (General Elimination of Quantitative Restrictions) of GATT 1994 and its interpretative notes. To this end, Article XI of GATT 1994 and its interpretive notes are incorporated into and made part of this Agreement *mutatis mutandis*. For greater certainty, the scope of this Article includes trade in remanufactured goods.
2. A Party shall not adopt or maintain export and import price requirements, except as permitted in enforcement of countervailing and anti-dumping duty orders and undertakings.

To the extent possible, the Party shall do so at least 21 days before the new procedure or modification takes effect.
4. A Party shall be deemed to be in compliance with paragraph 3 with respect to a new or modified import licensing procedure if it notifies that procedure to the WTO Committee on Import Licensing provided for in Article 4 of the Import Licensing Agreement, including the information specified in Article 5(2) of the Import Licensing Agreement.
5. At the request of another Party, a Party shall promptly provide any relevant information, including the information specified in Article 5(2) of the Import Licensing Agreement, with regard to any import licensing procedures that it intends to adopt, or that it maintains, or to modifications to existing licensing procedures.

ARTICLE 2.14

Export Licensing

1. Each Party shall consider the application of other appropriate measures to achieve an administrative purpose before seeking to adopt or maintain export licensing procedures.

3. Within 60 days after the date of entry into force, or earlier provisional application, of this Agreement, each Party shall notify the other Parties of its existing export licensing procedures. Each Party shall notify to the other Parties any new export licensing procedures and any modifications to existing export licensing procedures, within 60 days of their publication.  - (i) any exemptions or exceptions that replace the requirement to obtain an export licence, and how to request or use those exemptions or exceptions.
5. For greater certainty, nothing in this Article requires a Party to grant an export licence, or prevents a Party from adopting, maintaining or implementing an export control regime and sanctions regime, or from

implementing its obligations or commitments under United Nations Security Council Resolutions and the Arms Trade Treaty, as well as multilateral non-proliferation regimes and export control arrangements including the Wassenaar Arrangement on Export Controls for Conventional Arms and Dual-Use Goods and Technologies, the Australia Group, the Nuclear Suppliers Group, and the Missile Technology Control Regime.

1. No Party shall apply a customs duty to a good, regardless of its origin, that re-enters the Party after that good has been temporarily exported for repair or alteration from that Party to another Party from which the good was exported, regardless of whether that repair or alteration has increased the value of the good or could have been performed in the Party from which the good was exported for repair or alteration.
2. Paragraph 1 does not apply to any materials used in the repair or alteration which were in a duty suspended state at the time of the repair or alteration unless a payment equivalent to the duty suspended has subsequently been made.
3. No Party shall apply customs duties to a good, regardless of origin, imported temporarily from the customs territory of another Party for repair or alteration.

2. If a Party adopts or maintains import and export prohibitions or restrictions on used goods on the basis that they are used goods, it shall not apply those measures to remanufactured goods.

ARTICLE 2.17

Data Sharing on Preference Utilisation

1. For the purpose of monitoring the functioning of this Agreement and calculating preference utilisation rates, the Parties shall annually exchange import statistics starting one year after the entry into force of this Agreement.
2. The exchange of import statistics shall cover data pertaining to the most recent year available, including value and, where applicable, volume, at the tariff line level for imports of goods of each other Party benefitting from preferential duty treatment under this Agreement and those that received non-preferential treatment.

ARTICLE 2.18

Review Clause

1. In the interests of supporting their trade in agricultural and fisheries products, the Parties shall endeavour to find appropriate solutions to any difficulties in their trade in agricultural and fisheries products.
2. On the request of a Party, the Parties agree to consult on further liberalisation of trade between them in agricultural and fisheries products, including by way of a review of the conditions of trade in agricultural and fisheries products every five years.
3. In light of these reviews and of the Parties' respective agricultural and fisheries policies, the Parties will meet to discuss reducing any type of obstacles to trade in the agricultural and fisheries sector, on a balanced and mutually beneficial basis.

- (f) enhancing international cooperation and coordination in relevant multilateral fora on trade facilitation and on matters of common interest, including tariff classification, customs valuation and origin, with a view to establishing, if possible, common positions, and reviewing relevant international initiatives in order to identify further areas where joint action could contribute to their common objectives;

SECTION 2.2
TECHNICAL BARRIERS TO TRADE

ARTICLE 2.21

Objective

The objective of this Section is to facilitate trade in goods between the Parties by preventing, identifying and eliminating unnecessary technical barriers to trade.

ARTICLE 2.22

Scope

1. This Section applies to the preparation, adoption and application of all standards, technical regulations and conformity assessment procedures, which may affect trade in goods between the Parties.
2. This Section does not apply to:
 - (a) purchasing specifications prepared by governmental bodies for production or consumption requirements of such bodies; or
 - (b) sanitary and phytosanitary (SPS) measures that fall within scope of Section 2.3 (Sanitary and Phytosanitary Measures).
3. The Annexes to this Section apply, in respect of products within their scope, in addition to this Section. Any provision in an Annex to this Section that an international standard or body or organisation is to be considered or recognised as relevant, does not prevent a standard developed by any other body or organisation from being considered to be a relevant international standard pursuant to paragraphs 4 and 5 of Article 2.24 (Technical Regulations).
4. The Parties acknowledge that Iceland and Norway, following their obligations under the Agreement on the European Economic Area, signed in Porto on 2 May 1992 (EEA Agreement), adopt European Union (EU) technical regulations and conformity assessment procedures into their national legislations. Such adopted EU measures are referred to here and in paragraph 5 as harmonised technical regulations and conformity assessment procedures. Whereas non-harmonised technical regulations and conformity assessment procedures are prepared and reviewed at national level, the substance of harmonised technical regulations and conformity assessment procedures are prepared and reviewed by the EU.

5. With respect to harmonised technical regulations and conformity assessment procedures, it is understood that, where relevant, obligations under Articles 2.24 (Technical Regulations), 2.26 (Conformity Assessment) and 2.27 (Transparency) are considered fulfilled by Iceland and Norway when the European Union has fulfilled its identical commitments in accordance with the Trade and Cooperation Agreement between the European Union and the European Atomic Energy Community, of the one part, and the United Kingdom of Great Britain and Northern Ireland, of the other part, signed in London and Brussels on 30 December 2020 (UK-EU TCA), except where Iceland and Norway have a discretion in how any EU technical regulations and conformity assessment procedures are to be implemented in their national law.

ARTICLE 2.23

Relationship with the TBT Agreement

1. Articles 2 to 9 of, and Annexes 1 and 3 to, the WTO Agreement on Technical Barriers to Trade (TBT Agreement) are incorporated into and made part of this Agreement *mutatis mutandis*.
2. Terms referred to in this Section and in the Annexes to this Section shall have the same meaning as they have in the TBT Agreement.

ARTICLE 2.24

Technical Regulations

1. Each Party shall carry out impact assessments of planned technical regulations in accordance with its respective rules and procedures. The rules and procedures referred to in this paragraph and in paragraph 8 may provide for exceptions.
2. Each Party shall assess the available regulatory and non-regulatory alternatives to the proposed technical regulation that may fulfil the Party's legitimate objectives, in accordance with Article 2.2 of the TBT Agreement.
3. Each Party shall use relevant international standards as a basis for its technical regulations except when it can demonstrate that such international standards would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued.
4. International standards developed by the International Organization for Standardization (ISO), International Electrotechnical Commission (IEC), International Telecommunication Union (ITU) and Codex Alimentarius Commission (Codex) shall be the relevant international standards within the

meaning of Articles 2 and 5 of the TBT Agreement and Annex 3 to the TBT Agreement.

5. A standard developed by other international organisations may also be considered a relevant international standard within the meaning of Articles 2 and 5 of the TBT Agreement and Annex 3 to the TBT Agreement, provided that:
 - (a) it has been developed by a standardising body which seeks to establish consensus either:
 - (i) among national delegations of the participating WTO Members representing all the national standardising bodies in their territory that have adopted, or expect to adopt, standards for the subject matter to which the international standardisation activity relates; or
 - (ii) among governmental bodies of participating WTO Members; and
 - (b) it has been developed in accordance with the Decision of the WTO Committee on Technical Barriers to Trade on Principles for the Development of International Standards, Guides and Recommendations with relation to Articles 2 and 5 of the TBT Agreement and Annex 3 to the TBT Agreement.³
6. Where a Party does not use international standards as a basis for a technical regulation, on request of another Party, it shall identify any substantial deviation from the relevant international standard, explain the reasons why such standards were judged inappropriate or ineffective for the objective pursued, and provide the scientific or technical evidence on which that assessment was based.
7. Each Party shall review its technical regulations in accordance with its respective rules and procedures to increase the convergence of those technical regulations with relevant international standards, taking into account, *inter alia*, any new developments in the relevant international standards or any changes in the circumstances that have given rise to divergence from any relevant international standards.
8. In accordance with its respective rules and procedures and without prejudice to Chapter 11 (Good Regulatory Practices and Regulatory Cooperation), when developing a major technical regulation which may have a significant effect on trade, each Party shall ensure that procedures exist that allow persons to express their opinion in a public consultation, except where urgent problems of safety, health, environment or national security arise or threaten to arise. Each Party shall allow persons of another Party to

³ G/TBT/9, 13 November 2000, Annex 4.

participate in such consultations on terms that are no less favourable than those accorded to its own nationals, and shall make the results of those consultations public.

ARTICLE 2.25

Standards

1. Each Party shall encourage the standardising bodies established in that Party, as well as the regional standardising bodies of which a Party or the standardising bodies established in the Party are members:
 - (a) to participate, within the limits of their resources, in the preparation of international standards by relevant international standardising bodies;
 - (b) to use relevant international standards as a basis for the standards they develop, except where such international standards would be ineffective or inappropriate, for example because of an insufficient level of protection, fundamental climatic or geographical factors or fundamental technological problems;
 - (c) to avoid duplications of, or overlaps with, the work of international standardising bodies;
 - (d) to review national and regional standards that are not based on relevant international standards at regular intervals, with a view to increasing the convergence of those standards with relevant international standards;
 - (e) to cooperate with the relevant standardising bodies of another Party in international standardisation activities, including through cooperation in the international standardising bodies or at regional level;
 - (f) to foster bilateral cooperation with the standardising bodies of another Party; and
 - (g) to exchange information between standardising bodies.
2. The Parties shall exchange information on:
 - (a) their respective use of standards in support of technical regulations; and
 - (b) their respective standardisation processes, and the extent to which they use international, regional or sub-regional standards as a basis for their national standards.
3. Where standards are rendered mandatory in a draft technical regulation or conformity assessment procedure, through incorporation or reference, the

transparency obligations set out in Article 2.27 (Transparency) of this Agreement and in Articles 2 or 5 of the TBT Agreement shall apply.

ARTICLE 2.26

Conformity Assessment

1. Article 2.24 (Technical Regulations) concerning the preparation, adoption and application of technical regulations shall also apply to conformity assessment procedures, *mutatis mutandis*.
2. Where a Party requires conformity assessment as a positive assurance that a product conforms with a technical regulation, it shall:
 - (a) select conformity assessment procedures that are proportionate to the risks involved, as determined on the basis of a risk-assessment;
 - (b) consider as proof of compliance with technical regulations the use of a supplier's declaration of conformity, i.e. a declaration of conformity issued by the manufacturer on the sole responsibility of the manufacturer without a mandatory third-party assessment, as assurance of conformity among the options for showing compliance with technical regulations; and
 - (c) where requested by another Party, provide information on the criteria used to select the conformity assessment procedures for specific products.
3. Where a Party requires third party conformity assessment as a positive assurance that a product conforms with a technical regulation and it has not reserved this task to a government authority as specified in paragraph 4, it shall:
 - (a) use accreditation, as appropriate, as a means to demonstrate technical competence to qualify conformity assessment bodies. Without prejudice to its right to establish requirements for conformity assessment bodies, each Party recognises the valuable role that accreditation operated with authority derived from government and on a non-commercial basis can play in the qualification of conformity assessment bodies;
 - (b) use relevant international standards for accreditation and conformity assessment;
 - (c) encourage accreditation bodies and conformity assessment bodies located in that Party to join any relevant functioning international agreements or arrangements for harmonisation or facilitation of acceptance of conformity assessment results;

- (d) if two or more conformity assessment bodies are authorised by a Party to carry out conformity assessment procedures required for placing a product on the market, ensure that economic operators have a choice amongst the conformity assessment bodies designated by the authorities of a Party for a particular product or set of products;
 - (e) ensure that conformity assessment bodies are independent of manufacturers, importers and economic operators in general and that there are no conflicts of interest between accreditation bodies and conformity assessment bodies;
 - (f) allow conformity assessment bodies to use subcontractors to perform testing or inspections in relation to the conformity assessment, including subcontractors located in another Party, and may require subcontractors to meet the same requirements the conformity assessment body must meet to perform such testing or inspections itself; and
 - (g) publish on a single website a list of the bodies that it has designated to perform such conformity assessment and the relevant information on the scope of designation of each such body.
4. Nothing in this Article shall preclude a Party from requiring that conformity assessment in relation to specific products is performed by its specified government authorities. If a Party requires that conformity assessment is performed by its specified government authorities, that Party shall:
- (a) limit the conformity assessment fees to the approximate cost of the services rendered and, at the request of an applicant for conformity assessment, explain how any fees it imposes for that conformity assessment are limited to the approximate cost of services rendered; and
 - (b) make publicly available the conformity assessment fees.
5. Notwithstanding paragraphs 2 to 4, each Party shall accept a supplier's declaration of conformity as proof of compliance with its technical regulations in those product areas where it does so on the date of entry into force of this Agreement.
6. Each Party shall publish and maintain a list of the product areas referred to in paragraph 5 for information purposes, together with the references to the applicable technical regulations.
7. Notwithstanding paragraph 5, each Party may introduce requirements for the mandatory third party testing or certification of the product areas referred to in that paragraph, provided that such requirements are justified on grounds of legitimate objectives and are proportionate to the purpose of giving the importing Party adequate confidence that products conform with

the applicable technical regulations or standards, taking account of the risks that non-conformity would create.

8. A Party proposing to introduce the conformity assessment procedures referred to in paragraph 7 shall notify the other Parties at an early stage and shall take the comments of the other Parties into account in devising any such conformity assessment procedures.

ARTICLE 2.27

Transparency

1. Except where urgent problems of safety, health, environmental protection or national security arise or threaten to arise, each Party shall allow the other Parties to provide written comments on notified proposed technical regulations and conformity assessment procedures within a period of at least 60 days from the date of the transmission of the notification of such regulations or procedures to the WTO Central Registry of Notifications. A Party shall give positive consideration to a reasonable request to extend that comment period.
2. Each Party shall provide the electronic version of the full notified text together with the notification. In the event that the notified text is not in one of the official WTO languages, the notifying Party shall provide a detailed and comprehensive description of the content of the measure in the WTO notification format.
3. If a Party receives written comments on its proposed technical regulation or conformity assessment procedure from another Party, it shall:
 - (a) if requested by the Party concerned, discuss the written comments with the participation of its competent regulatory authority, at a time when they can be taken into account; and
 - (b) reply in writing to the comments no later than the date of publication of the technical regulation or conformity assessment procedure.
4. Each Party shall endeavour to publish on a website its responses to the comments it receives following the notification referred to in paragraph 1 no later than on the date of publication of the adopted technical regulation or conformity assessment procedure.
5. Each Party shall, where requested by another Party, provide information regarding the objectives of, legal basis for and rationale for, any technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.

6. Each Party shall ensure that the technical regulations and conformity assessment procedures it has adopted are published on a website that is accessible free of charge.
7. Each Party shall provide information on the adoption and the entry into force of technical regulations or conformity assessment procedures and the adopted final texts through an addendum to the original notification to the WTO.
8. Each Party shall allow a reasonable interval between the publication of technical regulations and their entry into force, in order to allow time for the economic operators of the other Parties to adapt.
9. A Party shall give positive consideration to a reasonable request from another Party received prior to the end of the comment period set out in paragraph 1 to extend the period of time between the adoption of the technical regulation and its entry into force, except where the delay would be ineffective in fulfilling the legitimate objectives pursued.
10. Each Party shall ensure that the enquiry point established in accordance with Article 10 of the TBT Agreement provides information and answers in one of the official WTO languages to reasonable enquiries from the other Parties or from interested persons of the other Parties regarding adopted technical regulations and conformity assessment procedures.

ARTICLE 2.28

Marking and Labelling

1. The technical regulations of a Party may include or exclusively address mandatory marking or labelling requirements. In such cases, the principles of Article 2.2 of the TBT Agreement apply to these technical regulations.
2. Where a Party requires mandatory marking or labelling of products, all of the following conditions shall apply:
 - (a) it shall only require information which is relevant for consumers or users of the product or information that indicates that the product conforms to the mandatory technical requirements;
 - (b) it shall not require any prior approval, registration or certification of the labels or markings of products, nor any fee disbursement, as a precondition for placing on its market products that otherwise comply with its mandatory technical requirements unless it is necessary in view of legitimate objectives;
 - (c) where the Party requires the use of a unique identification number by economic operators, it shall issue such a number to the economic

operators of another Party without undue delay and on a non-discriminatory basis;

- (d) unless the information listed in points (i), (ii) or (iii) would be misleading, contradictory or confusing in relation to the information that the importing Party requires with respect to the goods, the importing Party shall permit:
 - (i) information in other languages in addition to the language required in the importing Party of the goods;
 - (ii) internationally-accepted nomenclatures, pictograms, symbols or graphics; and
 - (iii) additional information to that required in the importing Party of the goods;
- (e) it shall accept that labelling, including supplementary labelling or corrections to labelling, take place in customs warehouses or other designated areas in the country of import as an alternative to labelling in the country of origin, unless such labelling is required for reasons of public health or safety or required for products – other than food, feed and seeds – consisting of or containing genetically modified organisms;
- (f) unless it considers that legitimate objectives may be undermined, it shall endeavour to accept the use of non-permanent or detachable labels, or marking or labelling in the accompanying documentation, rather than requiring labels or marking to be physically attached to the product; and
- (g) paragraph 2 does not apply for tobacco products, nicotine products and related products.

ARTICLE 2.29

Cooperation on Market Surveillance and Non-Food Product Safety and Compliance

1. The Parties recognise the importance of cooperation on market surveillance, compliance and the safety of non-food products for the facilitation of trade and for the protection of consumers and other users, and the importance of building mutual trust based on shared information.
2. To guarantee the independent and impartial functioning of market surveillance, the Parties shall ensure:
 - (a) the separation of market surveillance functions from conformity assessment functions; and

- (b) the absence of any interests that would affect the impartiality of market surveillance authorities in the performance of their control or supervision of economic operators.
- 3. The Parties shall cooperate and exchange information in the area of non-food product safety and compliance, which may include in particular the following:
 - (a) market surveillance and enforcement activities and measures;
 - (b) risk assessment methods and product testing;
 - (c) coordinated product recalls or other similar actions;
 - (d) scientific, technical and regulatory matters in order to improve non-food product safety and compliance;
 - (e) emerging issues of significant health and safety relevance;
 - (f) standardisation-related activities;
 - (g) exchanges of officials.
- 4. The Parties may establish arrangements on the regular exchange of information, including the exchange of information by electronic means, regarding measures taken on non-compliant non-food products.
- 5. Each Party shall use the information obtained pursuant to paragraphs 3 and 4 for the sole purpose of protecting consumers, health, safety or the environment.
- 6. Each Party shall treat the information obtained pursuant to paragraphs 3 and 4 as confidential. This provision shall not prevent disclosure of such information which may be required under national law.
- 7. The arrangements referred to in paragraph 4 shall specify the type of information to be exchanged, the modalities for the exchange and the application of confidentiality and personal data protection rules.
- 8. For the purposes of this Article, “market surveillance” means activities conducted and measures taken by market surveillance and enforcement authorities, including activities conducted and measures taken in cooperation with economic operators, on the basis of procedures of a Party to enable that Party to monitor or address safety of products and their compliance with the requirements set out in its laws and regulations.
- 9. Each Party shall ensure that any measure taken by its market surveillance or enforcement authorities to withdraw or recall from its market or to prohibit or restrict the making available on its market of a product imported from another Party, for reasons related to non-compliance with the applicable

legislation, is proportionate, states the exact grounds on which the measure is based and is communicated without delay to the relevant economic operator.

ARTICLE 2.30

Technical Discussions

1. If a Party considers that a draft or proposed technical regulation or conformity assessment procedure of another Party might have a significant effect on trade between the Parties, it may request technical discussions on the matter. The request shall be made in writing to the Party concerned and shall identify:
 - (a) the measure at issue;
 - (b) the provisions of this Section or of an Annex to this Section to which the concerns relate; and
 - (c) the reasons for the request, including a description of the requesting Party's concerns regarding the measure.
2. A Party shall deliver its request to the contact point of the Party concerned designated pursuant to Article 2.32 (Contact Points).
3. At the request of a Party, the Parties shall meet to discuss the concerns raised in the request, in person or via videoconference or teleconference, within 60 days of the date of the request and shall endeavour to resolve the matter as expeditiously as possible. If a requesting Party believes that the matter is urgent, it may request that any meeting take place within a shorter time frame. In such cases, the responding Party shall give positive consideration to such a request.

ARTICLE 2.31

Cooperation

1. The Parties shall cooperate in the field of technical regulations, standards and conformity assessment procedures, where it is in their mutual interest, and without prejudice to the autonomy of their own respective decision-making and legal orders. The Sub-Committee on Technical Barriers to Trade may exchange views with respect to the cooperation activities carried out under this Article or the Annexes to this Section.
2. For the purposes of paragraph 1, the Parties shall seek to identify, develop and promote cooperation activities of mutual interest. These activities may in particular relate to:

- (a) the exchange of information, experience and data related to technical regulations, standards and conformity assessment procedures;
- (b) ensuring efficient interaction and cooperation of their respective regulatory authorities at international, regional or national level;
- (c) exchanging information, to the extent possible, about international agreements and arrangements regarding technical barriers to trade to which one or all Parties are party; and
- (d) establishment of or participation in trade facilitating initiatives.

ARTICLE 2.32

Contact Points

1. Upon the entry into force of this Agreement, each Party shall designate a contact point for the implementation of this Section and shall notify the other Parties of the contact details for the contact point, including information regarding the relevant officials. The Parties shall promptly notify each other of any change of those contact details.
2. The contact point shall provide any information or explanation requested by the contact point of the other Parties in relation to the implementation of this Section within a reasonable period of time and, if possible, within 60 days of the date of receipt of the request.

ARTICLE 2.33

Sub-Committee on Technical Barriers to Trade

1. The Parties hereby establish a Sub-Committee on Technical Barriers to Trade which shall supervise the implementation and operation of this Section and the Annexes to it and shall promptly clarify and address, where possible, any issue raised by a Party relating to the development, adoption or application of technical regulations, standards and conformity assessment procedures under this Section or the TBT Agreement.
2. The Sub-Committee on Technical Barriers to Trade shall without undue delay review this Section and related annexes in light of relevant developments under the UK-EU TCA. In such reviews, the Parties shall endeavour to agree on recommendations for alignment of this Section with the Technical Barriers to Trade Chapter and related annexes under the TCA. Such recommendations for amendments shall be submitted to the Joint Committee.

3. The Sub-Committee on Technical Barriers to Trade may establish, if necessary, to achieve the objectives of this Section, ad hoc technical working groups to deal with specific issues or sectors.
4. The Sub-Committee on Technical Barriers to Trade shall meet on request of a Party, and no later than five years after the entry into force of this Agreement, and thereafter on request by a Party.

2. A Party shall not use SPS measures to create unjustified barriers to trade.
3. Regarding trade-related SPS procedures and approvals established under this Section, each Party shall ensure that these procedures and approvals, and related SPS measures:
 - (a) are initiated and completed without undue delay;
 - (b) do not include unnecessary, scientifically and technically unjustified or unduly burdensome information requests that might delay access to another Party's market;
 - (c) are not applied in a manner which would constitute arbitrary or unjustifiable discrimination against another Party or parts of another Party where identical or similar SPS conditions exist; and
 - (d) are proportionate to the risks identified and not more trade restrictive than necessary to achieve the importing Party's appropriate level of protection.
4. A Party shall not use the procedures and approvals referred to in paragraph 3, or any requests for additional information, to delay access to their markets without scientific and technical justification.
5. Each Party shall ensure that any administrative procedure it requires concerning the import conditions on food safety, animal health or plant health is not more burdensome or trade restrictive than necessary to give the importing Party adequate confidence that these conditions are met. Each Party shall ensure that the negative effects on trade of any administrative procedures are kept to a minimum and that the clearance processes remain simple and expeditious while meeting the importing Party's conditions.

6. The importing Party shall not put in place any additional administrative system or procedure that unnecessarily hampers trade.

ARTICLE 2.39

Specific Provisions and Arrangements concerning Sanitary and Phytosanitary Matters

Annex XIII (Provisions and Arrangements Concerning Sanitary and Phytosanitary Matters) contains specific provisions and arrangements concerning sanitary and phytosanitary matters.

ARTICLE 2.40

The terms and basis of any such incorporation shall be agreed between the Parties and subject to their respective domestic legal requirements.
3. This Article shall not apply to Iceland in respect of sanitary measures in relation to trade in live animals, other than fish and aquaculture animals, and animal products such as ova, semen and embryos.

ARTICLE 2.41

SPS Sub-Committee on the sanitary matters which are to be the subject of cooperation, and the nature and extent of such cooperation.

ARTICLE 2.42

Transparency and Exchange of Information

1. Each Party shall pursue transparency as regards SPS measures applicable to trade and shall for those purposes undertake the following actions:

Recognition of Plant Pest Status and Regional Conditions

1. The Parties shall recognise the concepts of Pest Free Areas, Pest Free Places of Production, and Pest Free Production Sites as well as areas of low pest prevalence as specified in the IPPC International Standards for Phytosanitary Measures (ISPMs), which the Parties agree to apply in the trade between them, in accordance with the SPS Agreement, including the Guidelines to further the practical implementation of Article 6 of the SPS Agreement (WTO/SPS Committee Decision G/SPS/48), and the relevant ISPMs.
2. When determining Pest Free Areas, Pest Free Places of Production, Pest Free Production Sites and areas of low pest prevalence, whether for the first time or after an outbreak of a plant pest, the importing Party shall base its own determination of the plant health status of the exporting Party or parts thereof on the information provided by the exporting Party in accordance with the SPS Agreement and ISPMs, and take into consideration the determination made by the exporting Party.
3. The exporting Party shall communicate Pest Free Areas, Pest Free Places of Production, Pest Free Production Sites and areas of low pest prevalence to the other Parties and, upon request, provide an explanation and supporting data as provided for in the relevant ISPMs or otherwise deemed appropriate.
4. Without undue delay following the receipt of the information referred to in paragraph 2, the importing Party may raise an explicit objection, request additional information or consultation, or require verification. The importing Party shall assess any additional information without undue delay following its receipt.
5. Unless the importing Party raises an objection, requests additional information or consultation, or requires verification without undue delay following the receipt of the information referred to in paragraph 2, the recognition of the determination of the Pest Free Areas, Pest Free Places of Production, Pest Free Production Sites and/or areas of low pest prevalence of the exporting Party shall be understood as accepted by the importing Party.
6. After finalisation of the procedure established in this Article, if the importing Party takes the decision to approve the requested Pest Free Areas, Pest Free Places of Production, Pest Free Production Sites and/or areas of low pest prevalence then it shall allow trade on that basis, without undue delay.
7. In the event that the importing Party does not approve the requested Pest Free Areas, Pest Free Places of Production, Pest Free Production Sites and/or areas of low pest prevalence, it shall notify its decision to the

exporting Party and explain the reasons for the rejection and, upon request, hold consultations.

8. If consultations are requested by the importing Party or the exporting Party, they shall be conducted in accordance with paragraph 2 of Article 2.44 (Notification and Consultation).
9. Any verification the importing Party may require shall be carried out taking into account the biology of the pest and the crop concerned.
10. The phytosanitary requirements of the importing Party shall be established taking into consideration the phytosanitary status in the exporting Party and, if required by the importing Party, the result of a Pest Risk Analysis (PRA). The PRA shall be carried out in accordance with the relevant ISPM. The risk analysis shall take into account available scientific and technical information.
11. When establishing or maintaining phytosanitary measures, the importing Party shall take into account Pest Free Areas, Pest Free Places of Production, Pest Free Production sites, and areas of low pest prevalence.

Each Party shall:

- (a) ensure the facilitation and effective control of transshipment operations and transit movements through that Party;
- (b) endeavour to promote and implement regional transit arrangements with a view to facilitating trade;
- (c) ensure cooperation and coordination between all concerned authorities and agencies in that Party to facilitate traffic in transit; and
- (d) allow goods intended for import to be moved within that Party under customs control from a customs office of entry to another customs office in the Party from where the goods would be released or cleared.

ARTICLE 2.65

Post-Clearance Audit

1. With a view to expediting the release of goods, each Party shall:
 - (a) adopt or maintain post-clearance audit to ensure compliance with customs and other related law;
 - (b) conduct post-clearance audits in a risk-based manner, which may include appropriate selectivity criteria;
 - (c) conduct post-clearance audits in a transparent manner. Where an audit is conducted and conclusive results have been achieved the Party shall, without delay, notify the person whose record is audited of the results, the reasons for the results and the audited person's rights and obligations; and
 - (d) wherever practicable, use the result of post-clearance audits in applying risk management.
2. The Parties acknowledge that the information obtained in a post-clearance audit may be used in further administrative or judicial proceedings.

ARTICLE 2.66

The Parties:

- (a) agree that their respective customs provisions and procedures shall not require the mandatory use of customs brokers;
- (b) shall publish measures on the use of customs brokers; and
- (c) shall apply transparent, non-discriminatory and proportionate rules if and when licensing customs brokers.

ARTICLE 2.67

Competent Customs Offices

1. Each Party shall determine the location and competence of its customs offices.
2. Each Party shall ensure that reasonable and appropriate official opening hours are fixed for those offices, taking into account the nature of the traffic

and of the goods and the customs procedures under which they are to be placed, so that the flow of traffic is neither hindered nor distorted.

ARTICLE 2.68

Border Agency Cooperation

Each Party shall ensure that its authorities and agencies involved in border and other import and export controls cooperate and coordinate its procedures in order to facilitate trade.

ARTICLE 2.69

Confidentiality

1. Each Party shall maintain, in conformity with its law, the confidentiality of information collected as part of its customs processes and shall protect that information from use or disclosure that could prejudice the competitive position of the trader to whom the confidential information relates. If the Party receiving or obtaining the information is required by its law to disclose the information, that Party shall notify the person or Party who provided that information.
2. Each Party shall ensure that the confidential information collected as part of its customs processes shall not be used or disclosed for purposes other than the administration and enforcement of customs matters or as otherwise provided for under the Party's law, except with the permission of the person or Party who provided the confidential information.
3. Notwithstanding paragraph 2, a Party may allow information collected as part of its customs processes to be used and disclosed in any administrative, judicial, or quasi-judicial proceedings instituted for failure to comply with customs related law. A Party shall notify the person or Party who provided the information in advance of such use.
4. If confidential information is used or disclosed other than in accordance with this Article, the Party concerned shall address the incident, in accordance with its law or procedures, and review or update its processes and safeguards, as appropriate, to prevent a reoccurrence.
5. The Parties shall exchange information on their respective law for the purpose of facilitating the operation and application of paragraph 2.

SECTION 2.5

TRADE REMEDIES

GENERAL PROVISIONS

ARTICLE 2.70

Dispute Settlement

Except for paragraph 1 of Article 2.73 (Lesser Duty Rule and Public Interest), Chapter 16 (Dispute Settlement) shall not apply to this Section.

ANTI-DUMPING AND COUNTERVAILING MEASURES

ARTICLE 2.71

General Provisions

1. The Parties shall endeavour to refrain from initiating anti-dumping procedures against each other.
2. Notwithstanding paragraph 1 of this Article, the Parties reaffirm their rights and obligations under Article VI of GATT 1994, the Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994 (Anti-Dumping Agreement) and the SCM Agreement.

ARTICLE 2.72

Investigations

1. After receipt by a Party's investigating authority of a properly documented application for an anti-dumping or a countervailing investigation with respect to imports from another Party, and, before initiating an investigation, the Party shall provide written notification to the Party concerned of its receipt of the application.
2. Before initiating a countervailing investigation, the Party shall also afford the Party concerned a meeting to consult with its investigating authority regarding the application.

3. Provided it does not unnecessarily delay the conduct of the investigation, each interested party in an anti-dumping or countervailing investigation¹² shall be granted a full opportunity to defend its interests.
4. Each Party shall ensure, before a final determination is made, full disclosure of the essential facts under consideration which form the basis for the decision as to whether to apply definitive measures. The full disclosure of essential facts is without prejudice to the requirements to confidentiality referred to in Article 6.5 of the Anti-Dumping Agreement and Article 12.4 of the SCM Agreement. Such disclosure shall be made in writing and should take place in sufficient time for interested parties to defend their interests.
5. A Party proposing to take a countervailing measure shall, upon request, consult with the Party concerned as far in advance of applying a measure as practicable, with the view of reviewing the information arising from the investigation and exchanging views on the proposed measure.
6. The disclosure of the essential facts, which is made in accordance with paragraph 3, shall contain in particular:
 - (a) in the case of an anti-dumping investigation, the margins of dumping established, a sufficiently detailed explanation of the basis and methodology upon which normal values and export prices were established and of the methodology used in the comparison of the normal values and export prices, including any adjustments;
 - (b) in the case of a countervailing duty investigation, the determination of countervailable subsidisation, including sufficient details on the calculation of the amount and methodology followed to determine the existence of subsidisation;
 - (c) in the case of an anti-dumping investigation, information relevant to the determination of injury, including information concerning the volume of the dumped imports and the effect of the dumped imports on prices in the domestic market for like products, the detailed methodology used in the calculation of price undercutting, the consequent impact of the dumped imports on the domestic industry, and the demonstration of a causal relationship including the examination of factors other than the dumped imports as referred to in Article 3.5 of the Anti-Dumping Agreement; and
 - (d) in the case of a countervailing duty investigation, information relevant to the determination of injury, including information on the volume of the subsidised imports and the effect of the subsidised imports on prices in the domestic market for like products, the

¹² For the purpose of this Article, interested parties shall be defined as set out in Article 6.11 of the Anti-Dumping Agreement and Article 12.9 of the SCM Agreement.

consequent impact of the subsidised imports on the domestic industry, and the demonstration of a causal relationship including the examination of factors other than the subsidised imports as referred to in Article 15.5 of the SCM Agreement.

7. In cases in which an investigating authority of a Party intends to make use of the facts available pursuant to Article 6.8 of the Anti-Dumping Agreement or Article 12.7 of the SCM Agreement, the investigating authority shall inform the interested party concerned of its intentions and give a clear indication of the reasons which may lead to the use of the facts available. If, after having been given the opportunity to provide further explanations within a reasonable time period, the explanations given by the interested party concerned are considered by the investigating authority as not being satisfactory, the disclosure of essential facts shall contain a clear indication of the facts available that the investigating authority has used instead.

ARTICLE 2.73

Lesser Duty Rule and Public Interest

1. If a Party decides to impose an anti-dumping or a countervailing duty, the Party shall apply the “lesser duty” rule by determining a duty which is less than the dumping margin or amount of subsidy, when such lesser duty would be adequate to remove the injury to the domestic industry.
2. Each Party’s investigating authority shall consider information provided in accordance with the Party’s law as to whether imposing an anti-dumping or a countervailing duty would not be in the public interest.

SAFEGUARD MEASURES

ARTICLE 2.74

General Provisions and Transparency

1. The Parties reaffirm their rights and obligations concerning global safeguard measures under Article XIX of GATT 1994 and the Agreement on Safeguards.
2. At the request of the Party concerned, the Party intending to take safeguard measures shall provide immediately ad hoc written notification of all pertinent information on the initiation of a safeguard investigation, the provisional findings, and the final findings of the investigation.
3. When imposing safeguard measures, the Parties shall endeavour to impose them in a way that least affects bilateral trade.

SERVICES AND INVESTMENT

Scope

1. This Chapter does not apply to:
 - (a) activities performed in the exercise of governmental authority; and
 - (b) audio-visual services.
2. This Chapter does not apply to any measure of a Party with respect to procurement by a Party.
3. Except for Article 3.10 (Performance Requirements), this Chapter does not apply to subsidies or grants provided by a Party, including government-supported loans, guarantees and insurances.
4. This Chapter does not apply to measures affecting natural persons of a Party seeking access to the employment market of another Party, nor to measures regarding nationality or citizenship, residence or employment on a permanent basis.
5. This Chapter shall not prevent a Party from applying measures to regulate the entry of natural persons into, or their temporary stay in, the Party, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that such measures are not applied in such a manner as to nullify or impair the benefits accruing to another Party under the terms of this Chapter.¹³
6. This Chapter does not apply to air services, including domestic and international air transportation services, whether scheduled or non-scheduled, or to related services in support of air services, other than the following:

¹³ The sole fact of requiring a visa for natural persons of a Party shall not be regarded as nullifying or impairing benefits accrued under this Chapter.

- (a) repair or maintenance services on an aircraft or a part thereof during which the aircraft or the part is withdrawn from service, excluding so-called line maintenance;
 - (b) selling and marketing of air transport services;
 - (c) computer reservation system services;
 - (d) specialty air services;¹⁴
 - (e) airport operation services; and
 - (f) ground handling services.
7. In the event of any inconsistency between this Chapter and a bilateral, plurilateral or multilateral air services agreement to which the United Kingdom and one or more EEA EFTA States are party, the air services agreement shall prevail in determining the rights and obligations of those Parties that are party to that air services agreement.
8. If the United Kingdom and one or more EEA EFTA States have the same obligations under this Agreement and a bilateral, plurilateral or multilateral air services agreement, those Parties may invoke the dispute settlement procedures of this Agreement only after any dispute settlement procedures in the other agreement have been exhausted.

- (a) a non-Party or a person of a non-Party owns or controls the legal person; and
- (b) the denying Party adopts or maintains a measure with respect to the non-Party or the person of the non-Party which is related to the maintenance of international peace and security, including the protection of human rights, and prohibits transactions with that legal person or covered enterprise, or which would be violated or circumvented if the benefits of this Chapter or Chapter 5 (Capital Movements, Payments and Transfers) were accorded to that legal person or its covered enterprise.

SECTION 3.2
INVESTMENT LIBERALISATION

ARTICLE 3.5

Scope

This Section shall apply to measures of a Party affecting the establishment of an enterprise to perform economic activities and the operation of such an enterprise by:

- (a) investors of another Party;
- (b) covered enterprises; and
- (c) with respect to Article 3.10 (Performance Requirements), all enterprises in the Party which adopts or maintains the measure.

ARTICLE 3.6

Market Access

A Party shall not adopt or maintain with respect to establishment of an enterprise by an investor of another Party or by a covered enterprise, or operation of a covered enterprise, a measure, whether it applies to the Party as a whole or to any division thereof, that:

- (a) imposes limitations on:¹⁷
 - (i) the number of enterprises that may carry out a specific economic activity whether in the form of numerical quotas, monopolies, exclusive suppliers or the requirement of an economic needs test;
 - (ii) the total value of transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of operations or the total quantity of output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;

¹⁷ Subparagraphs (a) (i), (ii) and (iii) do not cover measures taken in order to limit the production of an agricultural good.

- (iv) the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment; or
 - (v) the total number of natural persons that may be employed in a particular sector or that an enterprise may employ and who are necessary for, and directly related to, the performance of an economic activity, in the form of numerical quotas or the requirement of an economic needs test; or
- (b) restricts or requires a specific type of legal entity or joint venture through which an investor of another Party may perform an economic activity.

ARTICLE 3.7

National Treatment

Each Party shall accord to investors of another Party and to covered enterprises treatment no less favourable than the treatment it accords, in like situations, to its own investors and to their enterprises with respect to the establishment or operation in that Party.

ARTICLE 3.8

Most-Favoured-Nation Treatment

1. Each Party shall accord to investors of another Party and to covered enterprises treatment no less favourable than that it accords, in like situations, to investors of a non-Party and to their enterprises, with respect to establishment or operation in that Party.¹⁸
2. Paragraph 1 shall not be construed as obliging a Party to extend to investors of another Party or to covered enterprises the benefit of any treatment resulting from measures providing for recognition, including the recognition of the standards or criteria for the authorisation, licensing, or certification of a natural person or enterprise to carry out an economic activity, or the recognition of prudential measures as referred to in paragraph 3 of the GATS Annex on Financial Services.
3. For greater certainty, the “treatment” referred to in paragraph 1 does not include investor-to-state dispute settlement procedures provided for in other international agreements.

¹⁸ For greater certainty, this paragraph does not cover treatment accorded by the United Kingdom to investors (and to their enterprises) of territories for whose international relations the United Kingdom is responsible.

4. For greater certainty, the existence of substantive provisions in other international agreements concluded by a Party with a non-Party, or the mere formal transposition of those provisions into domestic law to the extent that it is necessary in order to incorporate them into the domestic legal order, do not in themselves constitute the “treatment” referred to in paragraph 1. Measures of a Party pursuant to those provisions may constitute such treatment and thus give rise to a breach of this Article.

ARTICLE 3.9

Senior Management and Boards of Directors

A Party shall not require a covered enterprise to appoint to senior management or board of director positions natural persons of a particular nationality or who are resident in the Party.

ARTICLE 3.10

Performance Requirements

1. A Party shall not, in connection with the establishment or operation of any enterprise in that Party, impose or enforce any requirement or enforce any commitment or undertaking:¹⁹
 - (a) to export a given level or percentage of goods or services;
 - (b) to achieve a given level or percentage of domestic content;
 - (c) to purchase, use or accord a preference to goods produced or services supplied in that Party, or to purchase goods or services from a person in that Party;
 - (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with that enterprise;
 - (e) to restrict sales of goods or services in that Party that the enterprise produces or supplies by relating those sales in any way to the volume or value of its exports or foreign exchange inflows;
 - (f) to restrict exportation or sale for export;
 - (g) to transfer technology, a production process or other proprietary knowledge to a person in that Party;

¹⁹ For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 2 does not constitute a requirement or a commitment or undertaking for the purpose of paragraph 1.

- (h) to locate the regional or world headquarters of an enterprise in that Party;
- (i) to hire a given number or percentage of natural persons of that Party;
- (j) to achieve a given level or value of research and development in that Party;
- (k) to supply one or more of the goods produced or services supplied by such enterprise to a specific region or to the world market exclusively from that Party; or
- (l) to adopt:
 - (i) a rate or amount of royalty below a certain level; or
 - (ii) a given duration of the term of a licence contract;²⁰

with regard to any licence contract in existence at the time the requirement is imposed or enforced, or any commitment or undertaking is enforced, or with regard to any future licence contract freely entered into between the enterprise and a natural or legal person or any other entity in that Party, if the requirement is imposed or enforced or the commitment or undertaking is enforced, in a manner that constitutes a direct interference with that licence contract by an exercise of a non-judicial governmental authority of Party.²¹

2. A Party shall not, in connection with the establishment or operation of any enterprise in that Party, make the receipt or continued receipt of an advantage conditional upon compliance with any requirement:
 - (a) to achieve a given level or percentage of domestic content;
 - (b) to purchase, use or accord a preference to goods produced or services supplied in that Party, or to purchase goods or services from a person in its territory;
 - (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with that enterprise;
 - (d) to restrict sales of goods or services in that Party that the enterprise produces or supplies by relating those sales in any way to the volume or value of its exports or foreign exchange inflows; or

²⁰ A “licence contract” referred to in this subparagraph means any contract concerning the licensing of technology, a production process, or other proprietary knowledge.

²¹ For greater certainty, subparagraph (l) does not apply when the licence contract is concluded between the enterprise and a Party.

- (e) to restrict exportation or sale for export.
3. For greater certainty, nothing in paragraph 1 shall be construed as preventing the enforcement by a Party of an undertaking voluntarily given²² by a person in relation to a takeover or merger.
 4. Nothing in paragraph 2 shall be construed as preventing a Party, in connection with the establishment or operation of any enterprise in that Party, from making the receipt or continued receipt or an advantage conditional upon compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in that Party.
 5. Subparagraphs 1(a) to (c) and 2(a) and (b) do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programmes.
 6. Subparagraphs 1(g) and (l) do not apply when:
 - (a) the requirement is imposed or enforced, or the commitment or undertaking is enforced, by a court or administrative tribunal, or by a competition authority pursuant to a Party's competition law; or
 - (b) a Party authorises the use of an intellectual property right in accordance with Article 31 or Article 31*bis* of the TRIPS Agreement, or adopts or maintains measures requiring the disclosure of data or proprietary information that fall within the scope of, and are consistent with, paragraph 3 of Article 39 of the TRIPS Agreement.
 7. Subparagraph 1(l) does not apply if the requirement is imposed or enforced, or the commitment or undertaking is enforced, by a tribunal as equitable remuneration under the Party's copyright laws.
 8. Subparagraphs 2(a) and (b) do not apply to requirements imposed or enforced by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.
 9. This Article is without prejudice to the obligations of a Party under the Agreement on Trade-Related Investment Measures set out in Annex 1A to the WTO Agreement.
 10. For greater certainty, this Article does not preclude the enforcement of any requirement, commitment or undertaking between private parties, if a Party did not impose the requirement, commitment or undertaking.

²² An "undertaking voluntarily given" means that it is not required by a Party as a condition of the approval of the takeover or merger.

ARTICLE 3.11

Investment and Sustainable Development

1. The Parties recognise the importance of environmental protection in connection with the establishment and operation of enterprises and reaffirm the Parties' rights and obligations relating to the protection of the environment, including climate change, provided for in this Agreement.
2. The Parties recognise the importance of encouraging the adherence to responsible business practices by covered enterprises and reaffirm the Parties' obligations in this regard, as set out in Article 13.11 (Responsible Business Conduct) of Chapter 13 (Trade and Sustainable Development).

ARTICLE 3.12

Non-Conforming Measures

1. Articles 3.6 (Market Access), 3.7 (National Treatment), 3.8 (Most-Favoured-Nation Treatment), 3.9 (Senior Management and Boards of Directors) and 3.10 (Performance Requirements) do not apply to:
 - (a) an existing non-conforming measure that is maintained by a Party at the level of:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex XVI (Existing Measures);
 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex XVI (Existing Measures); or
 - (iii) a local government;
 - (b) the continuation or prompt renewal of a non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to a non-conforming measure referred to in subparagraph (a) to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Articles 3.6 (Market Access), 3.7 (National Treatment), 3.8 (Most-Favoured-Nation Treatment), 3.9 (Senior Management and Boards of Directors) or 3.10 (Performance Requirements).
2. Articles 3.6 (Market Access), 3.7 (National Treatment), 3.8 (Most-Favoured-Nation Treatment), 3.9 (Senior Management and Boards of Directors) and 3.10 (Performance Requirements) do not apply to a measure of a Party that is consistent with the reservations, conditions or

qualifications specified with respect to a sector, subsector or activity, as set out by that Party in its Schedule to Annex XVII (Future Measures).

3. In respect of intellectual property rights, a Party may derogate from subparagraph 1(g) of Article 3.10 (Performance Requirements) and Articles 3.7 (National Treatment) and 3.8 (Most-Favoured-Nation Treatment) if permitted by the TRIPS Agreement, including any amendments to the TRIPS Agreement in force for all Parties, and waivers to the TRIPS Agreement adopted pursuant to Article IX of the WTO Agreement.
4. Notwithstanding Articles 3.7 (National Treatment) and 3.8 (Most-Favoured-Nation Treatment), a Party may require an investor of another Party, or its covered enterprise, to provide information concerning that enterprise for informational or statistical purposes, provided that those requests are reasonable and not unduly burdensome. The Party shall protect confidential business information from any disclosure that would prejudice the competitive position of the investor or the covered enterprise. This paragraph does not prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

SECTION 3.3
CROSS-BORDER TRADE IN SERVICES

ARTICLE 3.13

Scope

This Section shall apply to measures of a Party affecting cross-border trade in services by service suppliers of another Party. Such measures include:

- (a) the production, distribution, marketing, sale or delivery of a service;
- (b) the purchase or use of, or payment for, a service;
- (c) the access to and use of, in connection with the supply of a service, services which are required by a Party to be offered to the public generally; and
- (d) the provision of a bond or other form of financial security as a condition for the supply of a service.

ARTICLE 3.14

Market Access

A Party shall not adopt or maintain, a measure, whether it applies to the Party as a whole or to any division thereof, that:

- (a) imposes a limitation on:
 - (i) the number of services suppliers, whether in the form of a numerical quota, monopoly, exclusive service suppliers or the requirement of an economic needs test;
 - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of service operations or on the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;²³ or

²³ Subparagraph (a)(iii) does not cover measures adopted or maintained by a Party which limits inputs for the supply of services.

- (b) restricts or requires a specific type of legal entity or joint venture through which a service supplier may supply a service.

ARTICLE 3.15

Local Presence

A Party shall not require a service supplier of another Party to establish or maintain an enterprise, or to be resident, in that Party as a condition for the cross-border supply of a service.

ARTICLE 3.16

National Treatment

1. Each Party shall accord to services and service suppliers of another Party treatment no less favourable than that it accords to its own like services and service suppliers.
2. A Party may meet the requirement of paragraph 1 by according to services and service suppliers of another Party, either formally identical treatment or formally different treatment to that it accords to its own like services and service suppliers.
3. Formally identical or formally different treatment shall be considered to be less favourable if it modifies the conditions of competition in favour of services or service suppliers of the Party compared to like services or service suppliers of another Party.
4. Nothing in this Article shall be construed as requiring a Party to compensate for any inherent competitive disadvantage which results from the foreign character of the relevant services or service suppliers.

ARTICLE 3.17

Most-Favoured-Nation Treatment

1. Each Party shall accord to services and service suppliers of another Party treatment no less favourable than that it accords to like services and service suppliers of a non-Party.²⁴

²⁴ For greater certainty, this paragraph does not cover treatment accorded by the United Kingdom to services and service suppliers of territories for whose international relations the United Kingdom is responsible.

2. Paragraph 1 shall not be construed as obliging a Party to extend to services and service suppliers of another Party the benefit of any treatment resulting from measures providing for recognition, including of the standards or criteria for the authorisation, licencing, or certification of a natural person or enterprise to carry out an economic activity, or of prudential measures as referred to in paragraph 3 of the GATS Annex on Financial Services.
3. For greater certainty, the existence of substantive provisions in other international agreements concluded by a Party with a non-Party, or mere formal transposition of those provisions into domestic law to the extent that it is necessary in order to incorporate them into the domestic legal order, do not in themselves constitute the “treatment” referred to in paragraph 1. Measures of a Party pursuant to those provisions may constitute such treatment and thus give rise to a breach of this Article.

ARTICLE 3.18

Non-Conforming Measures

1. Article 3.14 (Market Access), Article 3.15 (Local Presence), Article 3.16 (National Treatment), and Article 3.17 (Most-Favoured-Nation Treatment) do not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex XVI (Existing Measures);
 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex XVI (Existing Measures); or
 - (iii) a local level of government;
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a), to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 3.14 (Market Access), Article 3.15 (Local Presence), Article 3.16 (National Treatment) or Article 3.17 (Most-Favoured-Nation Treatment).
2. Article 3.14 (Market Access), Article 3.15 (Local Presence), Article 3.16 (National Treatment), and Article 3.17 (Most-Favoured-Nation Treatment) do not apply to any measure of a Party that is consistent with the reservations, conditions or qualifications specified with respect to sectors, sub-sectors or activities, as set out by that Party in its Schedule to Annex XVII (Future Measures).

SECTION 3.4

ENTRY AND TEMPORARY STAY OF NATURAL PERSONS

ARTICLE 3.19

General Provisions and Scope

1. This Section reflects the preferential trade relationship between the Parties as well as the desire of the Parties to facilitate entry and temporary stay of natural persons for business purposes on a reciprocal basis, and to ensure transparency of the process.
2. This Section applies to measures by a Party affecting entry into that Party by natural persons of another Party, who are business visitors for establishment purposes, intra-corporate transferees, contractual service suppliers, independent professionals and short-term business visitors and to measures affecting their business activities during their temporary stay in the former Party.
3. To the extent that commitments are not undertaken in this Section, all requirements provided for in the law of a Party regarding the entry and temporary stay shall continue to apply, including rules concerning the length of stay.
4. Notwithstanding the provisions of this Section, all requirements provided for in the law of a Party regarding work and social security measures shall continue to apply, including rules concerning minimum wages and collective wage agreements.
5. Commitments on the entry and temporary stay of natural persons for business purposes do not apply in cases where the intent or effect of the entry and temporary stay is to interfere with or otherwise affect the outcome of any labour or management dispute or negotiation, or the employment of any natural person who is involved in such a dispute or negotiation.
6. This Section does not apply to measures:
 - (a) affecting natural persons of a Party seeking access to the employment market of another Party; or
 - (b) regarding nationality or citizenship, residence or employment on a permanent basis.
7. This Section shall not prevent a Party from applying measures to regulate the entry of natural persons into, or their temporary stay in, the Party, including those measures necessary to protect the integrity of, and to ensure the orderly movement of natural persons across, its borders, provided that

such measures are not applied in such a manner as to nullify or impair the benefits accruing to another Party under the terms of this Section.²⁵

8. This Section, Annex XVIII (Business Visitors for Establishment Purposes, Intra-Corporate Transferees, and Short-Term Business Visitors) and Annex XIX (Contractual Service Suppliers and Independent Professionals) only apply to a Party's territory described in subparagraph (1)(a) of Article 1.2 (Territorial Application) of Chapter 1 (General Provisions).

ARTICLE 3.21

General Obligations

1. A Party shall grant the entry and temporary stay to natural persons of another Party for business purposes in accordance with this Section, and Annex XVIII (Business Visitors for Establishment Purposes, Intra-Corporate Transferees, and Short-Term Business Visitors) and Annex XIX (Contractual Service Suppliers and Independent Professionals), provided that those persons comply with the immigration law of the former Party applicable to the entry and temporary stay.
2. Each Party shall apply its measures relating to the provisions of this Section consistently with the desire of the Parties set out in paragraph 1 of Article 3.19 (General Provisions and Scope), and, in particular, shall apply those measures so as to avoid unduly impairing or delaying trade in goods or services, or establishment or operation under this Agreement.

ARTICLE 3.22

Application Procedures

1. The measures taken by each Party to facilitate and expedite procedures related to the entry and temporary stay of natural persons of another Party for business purposes shall be consistent with Annex XVIII (Business Visitors for Establishment Purposes, Intra-Corporate Transferees, and Short-Term Business Visitors), Annex XIX (Contractual Service Suppliers and Independent Professionals) and this Article.

²⁸ In assessing such expertise or knowledge, the Parties will consider abilities that are unusual and different from those generally found in a particular industry and that cannot be easily transferred to another natural person in the short-term. Those abilities would have been obtained through specific academic, or equivalent, qualifications or extensive experience within the enterprise.

2. The Parties should ensure that the processing of applications for entry and temporary stay pursuant to their respective commitments in this Agreement follows good administrative practice. To that effect:
 - (a) the Parties shall ensure that fees charged by competent authorities for the processing of applications for the entry and temporary stay do not unduly impair or delay trade in goods or services or establishment or operation under this Agreement;
 - (b) subject to the competent authorities' discretion, documents required from the applicant for applications for the grant of entry and temporary stay of short-term visitors for business purposes should be commensurate with the purpose for which they are collected;
 - (c) if the competent authorities of a Party require additional information from the applicant in order to process the application, they shall endeavour to notify, without undue delay, the applicant of the required additional information;

 - (e) each Party shall endeavour to accept and process applications in electronic format; and
 - (f) each Party shall, to the extent practicable, ensure that relevant application forms, guidance, eligibility requirements, costs and processing times are accessible through a single online portal.
3. To the extent practicable, the competent authorities of a Party shall adopt a decision on an application for entry and temporary stay of a natural person of a category outlined in paragraph 2 of Article 3.19 (General Provisions and Scope), or a renewal of it, and shall notify the decision to the applicant in writing, in accordance with the notification procedures under the relevant Party's law, as soon as possible but not later than 90 days after the date on which a complete application was submitted. Where it is not practicable for a decision to be made within 90 days, they shall endeavour to make the decision within a reasonable time thereafter.
4. Where information or documentation for the application is incomplete, and additional information is required to process the application, the competent authorities shall endeavour to notify the applicant without undue delay of the additional information that is required and set a reasonable deadline for

providing it. The period referred to in paragraph 3 shall be suspended until the competent authorities have received the required additional information.

ARTICLE 3.23

Cooperation on Return and Readmissions

The Parties acknowledge that the enhanced movement of natural persons following from Article 3.22 (Application Procedures) requires full cooperation from the relevant Parties to support the return and readmission of natural persons staying in a Party in contravention of its law for entry and temporary stay.

ARTICLE 3.24

Transparency

1. A Party shall make publicly available information relating to the entry and temporary stay by natural persons of another Party, referred to in paragraph 2 of Article 3.19 (General Provisions and Scope).
2. The information referred to in paragraph 1 shall include, where applicable, the following information:

3. SECTION 3.5
REGULATORY FRAMEWORK
SUB-SECTION 3.5.1
DOMESTIC REGULATION

ARTICLE 3.30

Scope

1. Subject to paragraph 2, this Sub-Section applies to measures of a Party relating to licensing requirements and procedures, qualification requirements and procedures, formalities, and technical standards that affect:
 - (a) cross-border trade in services;
 - (b) establishment or operation; or
 - (c) the supply of a service through the presence of a natural person of a Party in another Party of categories of natural persons as defined in Article 3.19 (General Provisions and Scope) and Article 3.20 (Definitions) of Section 3.4 (Entry and Temporary Stay of Natural Persons).

As far as measures relating to technical standards are concerned, this Sub-Section only applies to measures that affect trade in services. For the purposes of this Sub-Section, the term “technical standards” does not include regulatory or implementing technical standards for financial services.

2. This Sub-Section does not apply to licensing requirements and procedures, qualification requirements and procedures, technical standards and formalities pursuant to a measure:
 - (a) that does not conform with Article 3.6 (Market Access) or Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation) and is referred to in subparagraphs 1(a) to (c) of Article 3.12 (Non-Conforming Measures) of Section 3.2 (Investment Liberalisation), or with Article 3.14 (Market Access) or Article 3.15 (Local Presence) or Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services) and is referred to in subparagraphs 1(a) to (c) of Article 3.18 (Non-Conforming Measures) of Section 3.3 (Cross-Border Trade in Services), or with Article 3.25 (Business Visitors for Establishment Purposes and Intra-Corporate Transferees) or Article 3.26 (Contractual Service Suppliers and Independent Professionals) or

Article 3.27 (Short-Term Business Visitors) and is referred to in Article 3.28 (Non-Conforming Measures) of Section 3.4 (Entry and Temporary Stay of Natural Persons); or

- (b) referred to in paragraph 2 of Article 3.12 (Non-Conforming Measures) of Section 3.2 (Investment Liberalisation) or paragraph 2 of Article 3.18 (Non-Conforming Measures) of Section 3.3 (Cross-Border Trade in Services).

ARTICLE 3.31

Definitions

For the purposes of this Sub-Section:

- (a) “authorisation” means the permission to pursue the activities set out in subparagraphs 1(a) to (c) of Article 3.30 (Scope) resulting from a procedure a natural or legal person must adhere to in order to demonstrate compliance with licensing requirements, qualification requirements, technical standards or formalities for the purposes of obtaining, maintaining or renewing that permission; and
- (b) “competent authority” means a central, regional or local government or authority or non-governmental body in the exercise of powers delegated by central, regional or local governments or authorities, which is entitled to take a decision concerning the authorisation referred to in subparagraph (a).

ARTICLE 3.32

Submission of Applications

Each Party shall, to the extent practicable, avoid requiring an applicant to approach more than one competent authority for each application for authorisation. If an activity for which authorisation is requested is within the jurisdiction of multiple competent authorities, multiple applications for authorisation may be required.

ARTICLE 3.33

Application Timeframes

If a Party requires authorisation, it shall ensure that its competent authorities, to the extent practicable, permit the submission of an application for authorisation at any time throughout the year. If a specific time period for applying exists, the Party shall ensure that its competent authorities allow a reasonable period of time for the submission of an application.

ARTICLE 3.34

Electronic Applications and Acceptance of Copies

1. If a Party requires authorisation, it shall ensure that its competent authorities:
 - (a) to the extent possible, provide for applications to be completed by electronic means, including from within another Party; and
 - (b) accept copies of documents that are authenticated in accordance with the Party's law, in place of original documents, unless the competent authorities require original documents to protect the integrity of the authorisation process.

ARTICLE 3.35

Processing of Applications

1. If a Party requires authorisation, it shall ensure that its competent authorities:
 - (a) process applications throughout the year. Where this is not possible, this information should be made public in advance, to the extent feasible;
 - (b) at the request of the applicant, confirm in writing³³ that an application has been received;
 - (c) to the extent practicable, provide a fixed or indicative timeframe for processing all applications. That timeframe shall be reasonable, to the extent practicable;
 - (d) where the fixed timeframe under subparagraph (c) has been provided, notify applicants of any extensions of that timeframe;
 - (e) at the request of the applicant, provide without undue delay information concerning the status of the application;
 - (f) to the extent practicable, ascertain, without undue delay, the completeness of an application for processing under the Party's laws and regulations;
 - (g) if they consider an application complete for processing under the Party's laws and regulations, within a reasonable period of time after the submission of the application, ensure that:

³³ "In writing" may include in electronic form.

- (i) where applicable, the processing of the application is completed within the stated timeframe; and
 - (ii) the applicant is informed of the decision concerning the application³⁴, to the extent possible in writing;
- (h) if they consider an application incomplete for processing under the Party's laws and regulations, ensure that they, to the extent practicable:
- (i) inform the applicant that the application is incomplete;
 - (ii) at the request of the applicant, identify the additional information required to complete the application or otherwise provide guidance on why the application is considered incomplete; and
 - (iii) provide the applicant with the opportunity³⁵ to correct any deficiencies.

However, if it is reasonable to reject the application due to incompleteness, competent authorities shall ensure that they inform the applicant within a reasonable period of time; and

- (i) if an application is rejected, either upon their own initiative or upon request of the applicant, inform the applicant of the reasons for rejection and of the timeframe for an appeal against that decision, and, if applicable, the procedures for resubmission of an application. An applicant shall not be prevented from submitting another application³⁶ solely on the basis of a previously rejected application.
2. The Parties shall ensure that their competent authorities grant an authorisation as soon as it is established, in light of an appropriate examination, that the applicant meets the conditions for obtaining it.
3. The Parties shall ensure that their competent authorities ensure that authorisation, once granted, enters into effect without undue delay, subject to the applicable terms and conditions.³⁷

³⁴ Competent authorities may meet this requirement by informing an applicant in advance, in writing, including through a published measure, that a lack of response after a specified period of time from the date of submission of the application indicates acceptance of the application.

³⁵ Such opportunity does not require a competent authority to provide extensions of deadlines.

³⁶ Competent authorities may require that the content of such an application has been revised.

³⁷ Competent authorities are not responsible for delays due to reasons outside their competence.

ARTICLE 3.36

Fees

1. For all the activities listed under subparagraphs 1(a) to (c) of Article 3.30 (Scope), each Party shall ensure that the authorisation fees³⁸ charged by its competent authorities are reasonable and transparent and do not in themselves restrict the pursuit of those activities and, to the extent practicable, are payable by electronic means.
2. With regard to financial services, each Party shall ensure that its competent authorities, with respect to authorisation fees that they charge, provide applicants with a schedule of fees or information on how fee amounts are determined, and do not use the fees as a means of avoiding the Party's commitments or obligations.

ARTICLE 3.37

Assessment of Qualifications

If a Party requires an examination to assess the qualifications of an applicant for authorisation, it shall ensure that its competent authorities schedule that examination at reasonably frequent intervals and provide a reasonable period of time to enable applicants to request to take the examination. To the extent practicable, each Party shall ensure that its competent authorities accept requests in electronic format to take those examinations and shall consider the use of electronic means in other aspects of the examination processes.

ARTICLE 3.38

Publication and Information Available

1. If a Party requires authorisation, it shall promptly publish³⁹ the information necessary for persons pursuing or seeking to pursue the activities referred to in subparagraphs 1(a) to (c) of Article 3.30 (Scope) for which the authorisation is required to comply with the requirements, formalities, technical standards and procedures for obtaining, maintaining, amending and renewing that authorisation. This information shall include, to the extent it exists:
 - (a) the licensing and qualification requirements, procedures and formalities;

³⁸ Authorisation fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service provision.

³⁹ For the purposes of this Article, "publish" means to include in an official publication, such as an official journal, or an official website.

- (b) contact information of relevant competent authorities;
 - (c) authorisation fees;
 - (d) applicable technical standards;
 - (e) procedures for appeal or review of decisions concerning applications;
 - (f) procedures for monitoring or enforcing compliance with the terms and conditions of licences or qualifications;
 - (g) opportunities for public involvement, such as through hearings or comments;
 - (h) fixed or indicative timeframes for the processing of an application; and
 - (i) guidance on accessing public registers and databases on providers and services.
2. The Parties shall consolidate electronic publications into a single online portal or otherwise ensure that competent authorities make them easily accessible through alternative electronic means.
 3. Each Party shall require each of its competent authorities to respond to any request for information or assistance.

ARTICLE 3.39

Technical Standards

Each Party shall encourage its competent authorities, when adopting technical standards, to adopt technical standards developed through open and transparent processes, and shall encourage any body, including relevant international organisations⁴⁰ designated to develop technical standards, to use open and transparent processes.

ARTICLE 3.40

Conditions for Authorisation

1. Each Party shall ensure that measures relating to authorisation are based on criteria which preclude the competent authorities from exercising their power of assessment in an arbitrary manner.

⁴⁰ The term “relevant international organisations” refers to international bodies whose membership is open to the relevant bodies of the Parties.

2. The criteria⁴¹ referred to in paragraph 1 shall be:
 - (a) objective;
 - (b) transparent;
 - (c) clear;
 - (d) impartial;
 - (e) made public in advance, to the extent practicable; and
 - (f) easily accessible.

3. If a Party adopts or maintains a measure relating to authorisation, it shall ensure that:
 - (a) the competent authority concerned processes applications, and reaches and administers its decisions objectively and impartially and in a manner independent of the undue influence of any person carrying out the economic activity for which authorisation is required;
 - (b) the procedures themselves do not prevent fulfilment of the requirements; and
 - (c) those measures do not discriminate between men and women.⁴²

⁴¹ Such criteria may include, but are not limited to, competence and the ability to supply a service or pursue an economic activity, including to do so in a manner consistent with the Party's regulatory requirements, such as health and environmental requirements. Competent authorities may assess the weight to be given to each criterion.

⁴² Differential treatment that is reasonable and objective, and aims to achieve a legitimate purpose, and adoption by the Party of temporary special measures aimed at accelerating de facto equality between men and women, shall not be considered discrimination for the purposes of this subparagraph.

ARTICLE 3.41

Review Procedures for Administrative Decisions

Each Party shall maintain judicial, arbitral or administrative tribunals or procedures which provide, at the request of an affected investor or service supplier of another Party, for a prompt review of, and where justified, appropriate remedies for, administrative decisions⁴³ that affect the pursuit of an activity referred to in subparagraphs 1(a) to (c) of Article 3.30 (Scope). Where these procedures are not independent of the competent authority entrusted with the administrative decision concerned, the Party shall ensure that the procedures in fact provide for an objective and impartial review.

ARTICLE 3.42

Opportunity to Comment Before Entry into Force

1. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party⁴⁴ shall publish in advance:
 - (a) any laws or regulations of general application it proposes to adopt; or
 - (b) documents that provide sufficient details about that possible new law or regulation to allow another Party to assess whether and how their interests might be significantly affected.
2. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party is encouraged to apply paragraph 1 to procedures and administrative rulings of general application it proposes to adopt.
3. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party shall provide the other Parties with a reasonable opportunity to comment on those proposed measures or documents published under paragraphs 1 or 2.

⁴³ For the purposes of this Article, “administrative decisions” means a decision or action with legal effect and covers the failure to take an administrative decision or take such action when that is so required by a Party’s law.

⁴⁴ The Parties understand that paragraphs 1 to 4 recognise that each Party may have different systems to consult interested persons on certain measures before they are adopted, and that the alternatives set out in subparagraphs 1(a) and (b) reflect different legal systems.

4. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party shall consider comments received under paragraph 3.⁴⁵
5. In publishing the law or regulation referred to in subparagraph 1(a), or in advance of such publication, to the extent practicable and in a manner consistent with its legal system for adopting measures, a Party is encouraged to explain the purpose and rationale of the law or regulation.
6. Each Party shall, to the extent practicable, endeavour to allow reasonable time between publication of the text of the law or regulation referred to in subparagraph 1(a) and the date on which service suppliers must comply with the law or regulation.

ARTICLE 3.43

Regulatory Cooperation

1. To promote further services liberalisation, the Parties shall:
 - (a) consider cooperating on regulatory issues of mutual interest by:
 - (i) discussing regulatory approaches that underpin their criteria for authorisation;
 - (ii) sharing best-practices and expertise;
 - (iii) participating in international dialogues; and
 - (iv) sharing trade-related information.
 - (b) endeavour to encourage their competent authorities to consider cooperating with competent authorities of another Party on regulatory issues of mutual interest by the same means provided in subparagraphs (a)(i) to (iv).
2. This Article shall not apply with respect to financial services.

⁴⁵ This provision is without prejudice to the final decision of a Party that adopts or maintains any measure for authorisation for the supply of a service.

2. A Party may determine the institutional and juridical form⁴⁶ through which the new financial service may be supplied and may require authorisation or its renewal for the supply of the service from the relevant regulator. Where such authorisation is required, a decision shall be made within a reasonable period of time, and the authorisation or its renewal may only be refused for prudential reasons, including if such prudential reasons arise out of the Party’s international obligations.
3. 3. Notwithstanding paragraph 1 of this Article and paragraph 1 of Article 4.11 (Cross-Border Data Flows) of Chapter 4 (Digital Trade), each Party has the right to require that information of a financial service supplier is used, stored or processed in that Party where it is not able to ensure access to data required for the purposes of financial regulation and supervision. Before imposing such requirements on the financial service supplier of another Party with respect to use, storage or processing of financial information in that Party, the Party or its financial regulators shall endeavour to consult that other Party or its financial regulators and, as far as practicable, provide the financial service supplier with a reasonable opportunity to remediate any lack of access to information.
4. For greater certainty, nothing in this Article shall prevent a Party from adopting or maintaining measures in accordance with paragraph 2 of Article 4.12 (Protection of Personal Data and Privacy) of Chapter 4 (Digital Trade).

ARTICLE 3.48

 - (b) the maintenance of the safety, soundness, integrity, or financial responsibility of a financial service supplier; or
 - (c) ensuring the integrity and stability of the Party's financial system.

⁴⁷ For greater certainty, this shall not prevent a Party from adopting or maintaining measures for prudential reasons in relation to branches established in that Party by legal persons in another Party.

2. Where such measures do not conform with the provisions of this Agreement, they shall not be used as a means of avoiding the Party's commitments or obligations under this Agreement.

2. A Party that accords recognition of prudential measures under paragraph 1 shall provide adequate opportunity to another Party to demonstrate that circumstances exist in which there are or would be equivalent regulation,

⁴⁸ For greater certainty, nothing in Article 3.8 (Most-Favoured-Nation Treatment) of Section 3.2 (Investment Liberalisation) and Article 3.17 (Most-Favoured-Nation Treatment) of Section 3.3 (Cross-Border Trade in Services) shall be construed to require a Party to accord recognition to prudential measures of another Party.

- 4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to ensure the security and confidentiality of communications, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.
- 5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks and services other than as necessary:
 - (a) to safeguard the public service responsibilities of suppliers of public telecommunications networks or services, in particular their ability to make their services available; or
 - (b) to protect the technical integrity of public telecommunications networks or services.

ARTICLE 3.58

Access to Major Suppliers' Essential Facilities

Each Party shall ensure that a major supplier in that Party grants access to its essential facilities to suppliers of telecommunications networks or services on reasonable, transparent and non-discriminatory terms and conditions for the purpose of providing public telecommunications services, except when this is not necessary to achieve effective competition on the basis of the facts collected and the assessment of market conditions conducted by the Party's telecommunications regulatory authority. The major supplier's essential facilities may include, *inter alia*, network elements, leased circuit services and associated facilities.

ARTICLE 3.59

Interconnection

Each Party shall ensure that a supplier of public telecommunications networks or services has the right and, when requested by another supplier of public telecommunications networks or services, the obligation to negotiate interconnection for the purpose of providing public telecommunications networks or services.

ARTICLE 3.60

Interconnection with Major Suppliers

1. Each Party shall ensure that a major supplier of public telecommunications networks or services in that Party provides interconnection:
 - (a) at any technically feasible point in the major supplier's network;
 - (b) under non-discriminatory terms and conditions (including as regards rates, technical standards, specifications, quality and maintenance) and of a quality no less favourable than that provided for the major supplier's own like services, or for like services of its subsidiaries or other affiliates;
 - (c) on a timely basis, and on terms, conditions (including technical standards and specifications) and rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier does not need to pay for network components or facilities that it does not require for the service to be provided; and

- (d) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.
2. Each Party shall ensure that major suppliers in that Party make publicly available, as appropriate:
 - (a) a reference interconnection offer or other standard interconnection offer containing the rates, terms and conditions that the major supplier offers generally to suppliers of public telecommunications services; or
 - (b) the terms and conditions of an interconnection agreement in effect.
3. Each Party shall make publicly available the applicable procedures for interconnection negotiations with a major supplier in that Party.

ARTICLE 3.61

Number Portability

Each Party shall ensure that suppliers of public telecommunications services provide number portability on a timely basis, without impairment of quality, reliability or convenience, and on reasonable and non-discriminatory terms and conditions.

ARTICLE 3.62

Scarce Resources

1. Each Party shall ensure that the allocation and granting of rights of use of scarce resources, including radio spectrum, numbers and rights of way, is carried out in an open, objective, timely, transparent, non-discriminatory and proportionate manner and in pursuit of general interest objectives, including the promotion of competition. Procedures, and conditions and obligations attached to rights of use, shall be based on objective, transparent, non-discriminatory and proportionate criteria.
2. Each Party shall make publicly available the current use of allocated frequency bands, but detailed identification of radio spectrum allocated for specific government uses is not required.
3. Each Party may rely on market-based approaches, such as bidding procedures, to assign spectrum for commercial use.

Accordingly, each Party retains the right to establish and apply spectrum and frequency management measures that may have the effect of limiting the number of suppliers of telecommunications services, provided that it does so in a manner consistent with this Agreement. This includes the ability to allocate frequency bands taking into account current and future needs and spectrum availability.

ARTICLE 3.63

Competitive Safeguards on Major Suppliers

1. Each Party shall adopt or maintain appropriate measures for the purpose of preventing suppliers of public telecommunications networks or services that, alone or together, are a major supplier from engaging in or continuing anticompetitive practices.
2. The anticompetitive practices referred to in paragraph 1 include:
 - (a) engaging in anticompetitive cross-subsidisation;
 - (b) using information obtained from competitors with anticompetitive results; and
 - (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

ARTICLE 3.64

Treatment by Major Suppliers

Each Party shall provide its telecommunications regulatory authority with the power to require, if appropriate, that a major supplier in that Party accords suppliers of public telecommunications networks or services of another Party treatment no less favourable than the major supplier accords, in like situations, to its subsidiaries or affiliates regarding:

- (a) the availability, provisioning, rates or quality of like telecommunications services; and
- (b) the availability of technical interfaces necessary for interconnection.

ARTICLE 3.65

Telecommunications Regulatory Authority

1. Each Party shall ensure that its telecommunications regulatory authority is legally distinct from, and functionally independent to any supplier of telecommunications networks, equipment and services. With a view to ensuring the independence and impartiality of telecommunications regulatory bodies, each Party shall ensure that its telecommunications regulatory authority does not hold a financial interest or maintain an operating or management role in any supplier of public telecommunications services, networks or equipment. A Party that retains ownership or control of suppliers of telecommunications networks or services shall ensure effective structural separation of the regulatory function from activities associated with ownership or control.
2. Each Party shall ensure that regulatory decisions and procedures of its telecommunications regulatory authority or other competent authority are impartial with respect to all market participants.
3. Each Party shall ensure that its telecommunications regulatory authority acts independently and does not seek or take instructions from any other body in relation to the exercise of the tasks assigned to it under the Party's law to enforce the obligations set out in this Sub-Section concerning obligations relating to that Party's telecommunications service suppliers.⁴⁹
4. Each Party shall ensure that the telecommunications regulatory authority has the regulatory power, as well as adequate financial and human resources, to carry out the tasks assigned to it to enforce the obligations set out in this Sub-Section. Such power shall be exercised transparently and in a timely manner.
5. Each Party shall provide its telecommunications regulatory authority with the power to ensure that suppliers of telecommunications networks or services provide it, promptly on request, with all the information, including financial information, which is necessary to enable it to carry out its tasks in accordance with this Sub-Section. Information requested shall be treated in accordance with the Party's requirements of confidentiality.
6. Each Party shall ensure that a user or supplier of telecommunications networks or services affected by a decision of the Party's telecommunications regulatory authority has a right to appeal before an appeal body that is independent of the telecommunications regulatory authority and of the user or supplier affected by the decision. Pending the outcome of the appeal, the decision of the telecommunications regulatory

⁴⁹ For greater certainty, this paragraph shall not apply to measures of a Party allocating and assigning spectrum and managing frequency referred to in paragraph 4 of Article 3.62 (Scarce Resources).

authority shall stand, unless interim measures are granted in accordance with the Party's law.

7. Each Party shall ensure that:
 - (a) its telecommunications regulatory authority reports annually, *inter alia*, on the state of the electronic communications market, on the decisions they issue, on their human and financial resources and how those resources are attributed, as well as on future plans; and
 - (b) the report referred to in subparagraph (a) is made publicly available.

ARTICLE 3.66

Authorisation to Provide Telecommunications Networks or Services

1. Each Party shall permit the provision of telecommunications networks or telecommunications services without a prior formal authorisation.
2. Each Party shall make publicly available all the criteria, applicable procedures and terms and conditions under which suppliers are permitted to provide telecommunications networks or telecommunications services.
3. Each Party shall ensure that:
 - (a) any authorisation criteria and applicable procedures are as simple as possible, objective, transparent, non-discriminatory and proportionate; and
 - (b) any obligations and conditions imposed on or associated with an authorisation are non-discriminatory, transparent, proportionate and related to the services or networks provided.
4. Each Party shall ensure that an applicant for an authorisation receives in writing the reasons for the denial or revocation of the authorisation, or the imposition of supplier-specific conditions. In such cases, an applicant shall have a right of appeal before an appeal body.
5. Each Party shall ensure that administrative fees imposed on suppliers are objective, transparent, non-discriminatory and commensurate with the administrative costs reasonably incurred in the management, control and enforcement of the obligations set out in this Sub-Section. Administrative fees do not include payments for rights to use scarce resources and mandated contributions to universal service provision.

ARTICLE 3.67

Transparency

To the extent not already provided for in this Agreement, each Party shall make each of the following, to the extent it exists, publicly available:

- (a) the responsibilities of its telecommunications regulatory authority in an easily accessible and clear form;
- (b) those measures it adopts or maintains relating to public telecommunications networks or services, including:
 - (i) regulations of its telecommunications regulatory authority, together with the basis for these regulations;
 - (ii) tariffs and other terms and conditions of services, except in circumstances otherwise provided for in its laws, regulations and decisions of its telecommunications regulatory authority;
 - (iii) specifications of technical interfaces;
 - (iv) conditions for attaching terminal or other equipment to the public telecommunications networks; and
 - (v) notification, permit, registration or licensing requirements; and
- (c) information on bodies responsible for preparing, amending and adopting standards-related measures.

ARTICLE 3.68

Universal Service Obligation

1. Each Party has the right to define the kind of universal service obligation it wishes to maintain.
2. Each Party shall administer any universal service obligation that it maintains in a manner that is transparent, non-discriminatory and neutral with respect to competition. Each Party shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined. Universal service obligations defined according to these principles shall not be regarded per se as anticompetitive.
3. Each Party shall ensure that procedures for the designation of universal service suppliers are open to all suppliers of public telecommunications networks or services. The designation shall be made through an efficient, transparent and non-discriminatory mechanism.

4. If a Party decides to compensate a universal service supplier, it shall ensure that such compensation does not exceed the needs directly attributable to the universal service obligation, as determined through a competitive process or a determination of net costs.

ARTICLE 3.69

International Mobile Roaming Services⁵⁰

1. The Parties recognise the importance of international mobile roaming services for enhancing consumer welfare and promoting the growth of trade between the Parties.
2. With a view to facilitating surcharge-free international mobile roaming for end-users of each Party, the maximum rates that a supplier of public telecommunications services of a Party may levy on a supplier of public telecommunications services of another Party for the provision of wholesale international mobile roaming services (IMRS Rates) shall be the IMRS rates specified in Annex XX.
3. The Sub-Committee on Services and Investment shall, within a reasonable period of time, make a recommendation to the Joint Committee concerning the adoption, by amending Annex XX, of the IMRS rates the Sub-Committee on Services and Investment considers appropriate, provided that those rates are:

CHAPTER 6
GOVERNMENT PROCUREMENT

ARTICLE 6.1

Scope and Coverage

1. The provisions of the WTO Revised Agreement on Government Procurement (2012) (GPA), specified in Appendix 1 to Annex XXI (Government Procurement) to this Agreement, including the Annexes of each Party to Appendix 1 to the GPA, are hereby incorporated into and made part of this Agreement, *mutatis mutandis*.
2. For the purposes of this Chapter, “covered procurement” means procurement to which Article II of the GPA applies and, in addition, procurement listed in Appendix 2 to Annex XXI (Government Procurement) to this Agreement.
3. With regard to covered procurement, each Party shall apply, *mutatis mutandis*, the provisions of the GPA specified in Appendix 1 to Annex XXI (Government Procurement) to this Agreement, on a bilateral basis, to suppliers, goods or services of another Party. Each Party shall also apply, with regard to covered procurement, the provisions on value of thresholds in Appendix 5 to Annex XXI (Government Procurement).

ARTICLE 6.2

Additional Disciplines

In addition to the provisions referred to under Article 6.1 (Scope and Coverage), the Parties shall apply the provisions in Articles 6.3 (Use of Electronic Means); 6.4 (Electronic Publication of Procurement Notices); 6.5 (Supporting Evidence); 6.6 (Conditions for Participation); 6.7 (Registration Systems and Qualification Procedures); 6.8 (Selective Tendering); 6.9 (Abnormally Low Prices); 6.10 (Facilitating Participation of Small and Medium-Sized Enterprises (SME)); 6.11 (Environmental, Social and Labour Considerations); 6.12 (Modifications and Rectifications of Market Access Commitments); 6.13 (Modifications); 6.14 (Rectifications) and 6.15 (Further Negotiations).

ARTICLE 6.3

Use of Electronic Means

1. Each Party shall ensure that its procuring entities conduct covered procurement by electronic means to the widest extent practicable.

2. A procuring entity is considered as conducting covered procurement by electronic means if the entity uses electronic means of information and communication for:
 - (a) the publication of notices and tender documentation in procurement procedures; and
 - (b) the submission of requests to participate and the submission of tenders.
3. Except for specific situations, such electronic means of information and communication shall be non-discriminatory, generally available and interoperable with the information and communication technology products in general use and shall not restrict access to the procurement procedure.
4. Each Party shall ensure that its procuring entities receive and process electronic invoices in accordance with its law.

ARTICLE 6.4

Electronic Publication of Procurement Notices

1. With regard to covered procurement, all procurement notices including notices of intended procurement, summary notices, notices of planned procurement and contract award notices shall be directly accessible by electronic means, free of charge, through a single point of access on the internet.
2. Each Party shall publish notices in accordance with Appendix 3 to Annex XXI (Government Procurement).

ARTICLE 6.5

Supporting Evidence

Each Party shall ensure that at the time of submission of requests to participate or at the time of submission of tenders, procuring entities do not require suppliers to submit all or part of the supporting evidence that they are not in one of the situations in which a supplier may be excluded and that they fulfil the conditions for participation unless this is necessary to ensure the proper conduct of the procurement.

ARTICLE 6.6

Conditions for Participation

Each Party shall ensure that where its procuring entities require a supplier, as a condition for participation in a covered procurement, to demonstrate prior experience they do not require that the supplier has such experience in that Party.

ARTICLE 6.7

Registration Systems and Qualification Procedures

A Party that maintains a supplier registration system shall ensure that interested suppliers may request registration at any time. Any interested supplier having made a request shall be informed within a reasonable period of time of the decision to grant or reject this request.

ARTICLE 6.8

Selective Tendering

Each Party shall ensure that where a procuring entity uses a selective tendering procedure, the procuring entity addresses invitations to submit a tender to a number of suppliers that is sufficient to ensure genuine competition without affecting the operational efficiency of the procurement system.

ARTICLE 6.9

Abnormally Low Prices

Further to paragraph 6 of Article XV of the GPA, if a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may also verify with the supplier whether the price takes into account the grant of subsidies.

ARTICLE 6.10

Facilitating Participation of Small and Medium-Sized Enterprises (SMEs)

1. The Parties recognise the important contribution of SMEs to economic growth and employment and the importance of facilitating their participation in government procurement.
2. If a Party maintains a measure that provides preferential treatment for SMEs, the Party shall ensure that the measure, including the criteria for

eligibility, is transparent and non-discriminatory against suppliers from the other Parties.

3. If available, a Party shall, upon request of another Party, provide information regarding its measures aimed at promoting, encouraging and facilitating the participation of SMEs in government procurement. The Parties' contact points are listed in Appendix 4 to Annex XXI (Government Procurement).
4. With a view to facilitating participation by SMEs in government procurement, each Party shall, to the extent possible, and if appropriate:
 - (a) provide comprehensive procurement-related information in a single electronic portal;
 - (b) endeavour to make all tender documentation available free of charge;
 - (c) conduct procurement by electronic means or through other new information and communication technologies; and
 - (d) consider the size, design, and structure of the procurement.

ARTICLE 6.11

Environmental, Social and Labour Considerations

Each Party shall:

- (a) allow procuring entities to take into account environmental, labour and social considerations throughout the procurement procedure, provided they are non-discriminatory and are not applied in a discriminatory manner; and
- (b) take appropriate measures to ensure compliance with its obligations under environmental, social and labour law, including those established under Chapter 13 (Trade and Sustainable Development).

ARTICLE 6.12

Modifications and Rectifications of Market Access Commitments

Each Party may modify or rectify its market access commitments in Appendix 2 to Annex XXI (Government Procurement) in accordance with the procedures set out in Articles 6.13 (Modifications) and 6.14 (Rectifications).

ARTICLE 6.13

Modifications

1. A Party intending to modify Appendix 2 to Annex XXI (Government Procurement), shall:
 - (a) notify the other Parties in writing; and
 - (b) include in the notification a proposal for appropriate compensatory adjustments to the other Parties to maintain a level of market access commitments comparable to that existing prior to the modification.
2. Notwithstanding point (b) of paragraph 1, a Party is not required to provide compensatory adjustments to the other Parties if the proposed modification covers a procuring entity over which the Party has effectively eliminated its control or influence in respect of covered procurement.
3. A Party's control or influence over the covered procurement of procuring entities is presumed to be effectively eliminated if the procuring entity is exposed to competition in markets to which access is not restricted.
4. Any other Party may object to the modification referred to in point (a) of paragraph 1 if it disputes that:
 - (a) a compensatory adjustment proposed under point (b) of paragraph 1 is adequate to maintain a comparable level of mutually agreed market access commitments; or
 - (b) the modification covers a procuring entity over which the Party has effectively eliminated its control or influence as provided for in paragraph 2.
5. A Party shall object in writing within 45 days of receipt of the notification referred to in point (a) of paragraph 1 or that Party will be deemed to have accepted the compensatory adjustment or modification, including for the purposes of Chapter 16 (Dispute Settlement).

ARTICLE 6.14

Rectifications

1. A Party intending to rectify Appendix 2 to Annex XXI (Government Procurement) shall notify the other Parties in writing.
2. The following changes to an Appendix to Annex XXI (Government Procurement) shall be considered a rectification, provided that they do not affect the mutually agreed market access commitments provided for in this Chapter:

- (a) a change in the name of a procuring entity;
 - (b) a merger of two or more procuring entities listed within that Sub-Section; and
 - (c) the separation of a procuring entity listed in that Sub-Section into two or more procuring entities that are added to the procuring entities listed in the same Sub-Section.
3. A Party may notify the other Parties of an objection to a proposed rectification within 45 days from having received the notification. A Party submitting an objection shall set out the reasons for considering the proposed rectification not as a change provided for in paragraph 1, and describe the effect of the proposed rectification on the mutually agreed market access commitments provided for in this Chapter. If no such objection is submitted in writing within 45 days after having received the notification, the other Parties shall be deemed to have agreed to the proposed rectification.

ARTICLE 6.15

Further Negotiations

In case a Party in the future offers additional benefits with regard to its respective government procurement market access coverage agreed under this Chapter to a non-party, it shall agree, upon request of another Party, to enter into negotiations with a view to extending coverage under this Chapter on a reciprocal basis.

ARTICLE 7.6

National Treatment

1.  - (a) necessary to secure compliance with the Party’s laws or regulations which are not inconsistent with this Chapter; or
 - (b) not applied in a manner which would constitute a disguised restriction on trade.
4. Paragraph 1 does not apply to procedures provided in multilateral agreements concluded under the auspices of WIPO relating to the acquisition or maintenance of intellectual property rights.

2. Each Party shall ensure that the single equitable remuneration is shared between the relevant performers and phonogram producers. 3. Each Party may grant more extensive rights, as regards the broadcasting and communication to the public of phonograms published for commercial purposes, to performers and producers of phonograms.

ARTICLE 7.12

In the absence of a lawful publication, if the phonogram has been lawfully communicated to the public during this time, the term of protection shall be 70 years from such act of communication. Each Party may provide for effective measures in order to ensure that the profit generated during the 20 years of protection beyond 50 years is shared fairly between the performers and the producers of phonograms.
7. The terms laid down in this Article shall be counted from the first of January of the year following the year of the event which gives rise to them.
8. Each Party may provide for longer terms of protection than those provided for in this Article.

ARTICLE 7.13

Resale Right

1. Each Party shall provide, for the benefit of the author of an original work of graphic or plastic art, a resale right, to be defined as an inalienable right, which cannot be waived, even in advance, to receive a royalty based on the sale price obtained for any resale of the work, subsequent to the first transfer of the work by the author.
2. The right referred to in paragraph 1 shall apply to all acts of resale involving as sellers, buyers or intermediaries art market professionals, such as salesrooms, art galleries and, in general, any dealers in works of art.

ARTICLE 7.14

2. The Parties shall promote the transparency of collective management organisations, in particular regarding the rights revenue they collect, the deductions they apply to the rights revenue they collect, the use of the rights revenue collected, the distribution policy and their repertoire.
3. The Parties shall endeavour to facilitate arrangements between their respective collective management organisations on non-discriminatory treatment of right holders whose rights these organisations manage under representation agreements.
4. The Parties shall cooperate to support the collective management organisations established in the Parties and representing another collective management organisation established in another Party by way of a representation agreement with a view to ensuring that they accurately, regularly and diligently pay amounts owed to the represented collective management organisations and provide the represented collective management organisation with the information on the amount of rights revenue collected on its behalf and any deductions made to that rights revenue.

ARTICLE 7.15

Exceptions and Limitations

Each Party shall confine limitations or exceptions to the rights set out in Articles 7.7 (Authors) to 7.11 (Broadcasting and Communication to the Public of Phonograms Published for Commercial Purposes) to certain special cases which do not conflict with a normal exploitation of the work or other subject-matter and do not unreasonably prejudice the legitimate interests of the right holders.

ARTICLE 7.16

Protection of Technological Measures

1. Each Party shall provide adequate legal protection against the circumvention of any effective technological measures, which the person concerned carries out in the knowledge, or with reasonable grounds to know, that he or she is pursuing that objective. Each Party may provide for a specific regime for legal protection of technological measures used to protect computer programmes.
2. Each Party shall provide adequate legal protection against the manufacture, import, distribution, sale, rental, advertisement for sale or rental, or possession for commercial purposes of devices, products or components or the provision of services which:
 - (a) are promoted, advertised or marketed for the purpose of circumvention of;
 - (b) have only a limited commercially significant purpose or use other than to circumvent; or
 - (c) are primarily designed, produced, adapted or performed for the purpose of enabling or facilitating the circumvention of, any effective technological measures.
3. For the purposes of this Sub-Section, “technological measures” means any technology, device or component that, in the normal course of its operation, is designed to prevent or restrict acts, in respect of works or other subject-matter, which are not authorised by the right holder of any copyright or related right covered by this Sub-Section. Technological measures shall be deemed “effective” where the use of a protected work or other subject matter is controlled by the right holders through application of an access control or protection process, such as encryption, scrambling or other transformation of the work or other subject-matter or a copy control mechanism, which achieves the protection objective.
4. Notwithstanding the legal protection provided for in paragraph 1, each Party may take appropriate measures, as necessary, to ensure that the adequate legal protection against the circumvention of effective technological measures provided for in accordance with this Article does not prevent beneficiaries of exceptions or limitations provided for in accordance with Article 7.15 (Exceptions and Limitations) from enjoying such exceptions or limitations.

ARTICLE 7.17

Obligations Concerning Rights Management Information

1. Each Party shall provide adequate legal protection against any person knowingly performing without authority any of the following acts:
 - (a) the removal or alteration of any electronic rights-management information; and
 - (b) the distribution, importation for distribution, broadcasting, communication or making available to the public of works or other subject-matter protected pursuant to this Sub-Section from which electronic rights-management information has been removed or altered without authority.
2. If such person knows, or has reasonable grounds to know, that by so doing he or she is inducing, enabling, facilitating or concealing an infringement of any copyright or any related rights as provided by the law of a Party.
3. For the purposes of this Article, “rights-management information” means any information provided by right holders which identifies the work or other subject-matter referred to in this Article, the author or any other right holder, or information about the terms and conditions of use of the work or other subject-matter, and any numbers or codes that represent such information.
4. Paragraph 2 applies if any of these items of information is associated with a copy of, or appears in connection with the communication to the public of, a work or other subject-matter referred to in this Article.

SUB-SECTION 7.2.2

TRADE MARKS

ARTICLE 7.18

Trade Mark Classification

Each Party shall maintain a trade mark classification system that is consistent with the Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks of 15 June 1957, as amended and revised.

ARTICLE 7.19

Signs of Which a Registered Trade Mark May Consist

A trade mark may consist of any signs, in particular words, including personal names, or designs, letters, numerals, colours, the shape of goods or of the packaging of goods, or sounds, or any combination of such signs, provided that such signs are capable of:

- (a) distinguishing the goods or services of one undertaking from those of other undertakings; and
- (b) being represented on the respective trade mark registers of each Party, in a manner which enables the competent authorities and the public to determine the clear and precise subject matter of the protection afforded to its proprietor.

ARTICLE 7.20

Rights Conferred by a Registered Trade Mark

1. Each Party shall provide that the registration of a trade mark confers on the proprietor exclusive rights therein. The proprietor shall be entitled to prevent all third parties that do not have the proprietor's consent from using in the course of trade in relation to goods or services:
 - (a) any sign which is identical with the registered trade mark in relation to goods or services which are identical with those for which the trade mark is registered;
 - (b) any sign where, because of its identity with, or similarity to, the registered trade mark and the identity or similarity of the goods or services covered by this trade mark and the sign, there exists a likelihood of confusion on the part of the public, including the

likelihood of association between the sign and the registered trade mark; or

- (c) any sign which is identical with, or similar to, the trade mark (irrespective of whether it is used in relation to goods or services which are identical with, similar to, or not similar to, those for which the trade mark is registered) where the trade mark has a reputation in the relevant Party and where use of that sign without due cause takes unfair advantage of, or is detrimental to, the distinctive character or the repute of the trade mark.
2. The rights described above shall not prejudice any existing prior rights, nor shall they affect the possibility of a Party making rights available on the basis of use.
3. If the reproduction of a trade mark in a dictionary, encyclopedia or similar reference work, in print or electronic form, gives the impression that it constitutes the generic name of the goods or services for which the trade mark is registered, the publisher of the work shall, at the request in writing of the proprietor of the trade mark, ensure that the reproduction of the trade mark is, without delay, and in the case of works in printed form at the latest in the next edition of the publication, accompanied by an indication that it is a registered trade mark.

ARTICLE 7.21

Registration Procedure

1. Each Party shall provide for a system for the registration of trade marks in which each final negative decision taken by the relevant trade mark administration shall be communicated in writing to the relevant party, duly reasoned and subject to appeal.
2. Each Party shall provide for the possibility for third parties to oppose trade mark applications or where appropriate, trade mark registrations.
3. Each Party shall provide for the possibility for third parties to apply for the invalidation or revocation of trade mark registrations. Such invalidation or revocation proceedings shall be adversarial.
4. Each Party shall provide a publicly available electronic database of trade mark applications and trade mark registrations.
5. Each Party's trade mark application, processing, registration and maintenance systems may be provided electronically.

ARTICLE 7.22

Well-Known Trade Marks

1. For the purpose of giving effect to the protection of well-known trade marks, as referred to in Article 6bis of the Paris Convention and Article 16(2) and (3) of the TRIPS Agreement, each Party reaffirms the importance of, and shall be guided by the Joint Recommendation Concerning Provisions on the Protection of Well-Known Marks, adopted by the Assembly of the Paris Union for the Protection of Industrial Property and the General Assembly of WIPO at the Thirty-Fourth Series of Meetings of the Assemblies of the Member States of WIPO on 20 to 29 September 1999.
2. No Party may require, as a condition for determining that a trade mark is well known, that the trade mark has been registered in that Party or in another jurisdiction, included on a list of well-known trade marks or given prior recognition as a well-known trade mark.

ARTICLE 7.23

Exceptions to the Rights Conferred by a Trade Mark

1. Each Party may provide for limited exceptions to the rights conferred by a trade mark such as the fair use of descriptive terms including geographical indications, and may provide other limited exceptions, provided such exceptions take account of the legitimate interests of the proprietor of the trade mark and of third parties.
2. The trade mark shall not entitle the proprietor to prohibit a third party from using, in the course of trade:
 - (a) the name or address of the third party, where the third party is a natural person;
 - (b) signs or indications concerning the kind, quality, quantity, intended purpose, value, geographical origin, the time of production of goods or of rendering of the service, or other characteristics of goods or services; or
 - (c) the trade mark for the purpose of identifying or referring to goods or services as those of the proprietor of that trade mark, in particular where the use of that trade mark is necessary to indicate the intended purpose of a product or service, in particular as accessories or spare parts, provided the third party uses them in accordance with honest practices in industrial or commercial matters.
3. The trade mark shall not entitle the proprietor to prohibit a third party from using, in the course of trade, an earlier right which only applies in a

particular locality if that right is recognised by the law of the Party in question and is used within the limits of the territory in which it is recognised.

ARTICLE 7.24

Grounds for Revocation

1. Each Party shall provide that a trade mark shall be liable to revocation if, within a continuous period of five years it has not been put to genuine use in the Party by the proprietor or with the proprietor's consent in relation to the goods or services for which it is registered, and there are no proper reasons for non-use.
2. Each Party shall also provide that a trade mark shall be liable to revocation if within the period of five years following the date of completion of the registration procedure it has not been put to genuine use in the relevant Party by the proprietor or with the proprietor's consent, in relation to the goods or services for which it is registered, and there are no proper reasons for non- use.
3. However, no person may claim that the proprietor's rights in a trade mark should be revoked where, during the interval between expiry of the five-year period and filing of the application for revocation, genuine use of the trade mark has been started or resumed. The commencement or resumption of use within a period of three months preceding the filing of the application for revocation which began at the earliest on expiry of the continuous period of five years of non-use, shall, however, be disregarded where preparations for the commencement or resumption occur only after the proprietor becomes aware that the application for revocation may be filed.
4. A trade mark shall also be liable to revocation if, after the date on which it was registered:
 - (a) as a consequence of acts or inactivity of the proprietor, it has become the common name in the trade for a good or service in respect of which it is registered; or
 - (b) as a consequence of the use made of the trade mark by the proprietor of the trade mark or with the proprietor's consent in respect of the goods or services for which it is registered, it is liable to mislead the public, particularly as to the nature, quality or geographical origin of those goods or services.

ARTICLE 7.25

The Right to Prohibit Preparatory Acts in Relation to the Use of Packaging or Other Means

Where the risk exists that the packaging, labels, tags, security or authenticity features or devices, or any other means to which the trade mark is affixed could be used in relation to goods or services, and that use would constitute an infringement of the rights of the proprietor of the trade mark, the proprietor of that trade mark shall have the right to prohibit the following acts if carried out in the course of trade:

- (a) affixing a sign identical with, or similar to, the trade mark on packaging, labels, tags, security or authenticity features or devices, or any other means to which the mark may be affixed; or
- (b) offering or placing on the market, or stocking for those purposes, or importing or exporting: packaging, labels, tags, security or authenticity features or devices, or any other means to which the mark is affixed.

ARTICLE 7.26

Bad Faith Applications

A trade mark shall be liable to be declared invalid where the application for registration of the trade mark was made in bad faith by the applicant. Each Party may provide that such a trade mark shall not be registered.

SUB-SECTION 7.2.3

DESIGN

ARTICLE 7.27

Protection of Registered Designs

1. Each Party shall provide for the protection of designs that are new and have individual character. This protection shall be provided by registration and shall confer exclusive rights upon their holders in accordance with this Sub-Section.
2. The holder of a registered design shall have the right to prevent third parties not having the holder's consent at least from making, using, offering for sale, selling, importing, exporting, or stocking a product in which the design is incorporated or to which it is applied, where such acts are undertaken for commercial purposes.
3. A design applied to or incorporated in a product which constitutes a component part of a complex product shall only be considered to be new and have individual character:
 - (a) if the component part, once it has been incorporated into the complex product, remains visible during normal use of the latter; and
 - (b) to the extent that those visible features of the component part fulfil in themselves the requirements as to novelty and individual character.
4. For the purposes of subparagraph 3(a), "normal use" means use by the end user, excluding maintenance, servicing or repair work.

ARTICLE 7.28

Duration of Protection

The duration of protection available for registered designs, including renewals of registered designs, shall amount to a total term of 25 years from the date on which the application was filed.⁶¹ A Party may provide for a shorter period of protection for designs of component parts used for the purpose of the repair of a product.

⁶¹ Each Party may determine the relevant date of filing of the application in accordance with its own law.

ARTICLE 7.29

Exceptions and Exclusions

1. Each Party may provide limited exceptions to the protection of designs, provided that such exceptions do not unreasonably conflict with the normal exploitation of designs, and do not unreasonably prejudice the legitimate interests of the holder of the design, in each case taking account of the legitimate interests of third parties.
2. Protection shall not extend to designs solely dictated by technical or functional considerations. A design shall not subsist in features of appearance of a product which must necessarily be reproduced in their exact form and dimensions in order to permit the product in which the design is incorporated or to which it is applied to be mechanically connected to or placed in, around or against another product so that either product may perform its function.
3. By way of derogation from paragraph 2, a design shall, in accordance with the conditions set out in paragraph 1 of Article 7.27 (Protection of Registered Designs), subsist in a design, which has the purpose of allowing the multiple assembly or connection of mutually interchangeable products within a modular system.

ARTICLE 7.30

Relationship to Copyright

Each Party shall ensure that designs shall also be eligible for protection under the copyright law of that Party as from the date on which the design was created or fixed in any form. The extent to which, and the conditions under which, such a protection is conferred, including the level of originality required, shall be determined by each Party.

SUB-SECTION 7.2.4

GEOGRAPHICAL INDICATIONS AND TRADITIONAL TERMS

ARTICLE 7.31

Effect of this Sub-Section

The provisions of this Sub-Section shall supersede Articles 46 and 47 of the Agreement on arrangements between Iceland, the Principality of Liechtenstein, the Kingdom of Norway and the United Kingdom of Great Britain and Northern Ireland following the withdrawal of the United Kingdom from the European Union, the EEA Agreement and other agreements applicable between the United Kingdom and the EEA EFTA States by virtue of the United Kingdom's membership of the European Union, done at London on 28 January 2020 (Separation Agreement) in its entirety.

ARTICLE 7.32

Scope

1. This Sub-Section applies to the recognition and protection of geographical indications for agricultural products and foodstuffs which originate in the territories of the United Kingdom and Iceland, and for wines, aromatised wines and spirits drinks which originate in the territories of the Parties,⁶² and traditional terms which originate in the United Kingdom.⁶³
2. This Sub-Section does not apply to the recognition and protection by Norway of geographical indications for agricultural products and foodstuffs which originate in the territory of the United Kingdom.

⁶² This Sub-Section shall not apply to geographical indications protected by the Parties under other international agreements to which the Parties are subject.

⁶³ Without prejudice to this paragraph, the geographical indications and traditional terms of the United Kingdom listed in Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom) may include the geographical indications and traditional terms of the Bailiwicks of Guernsey and Jersey and the Isle of Man.

ARTICLE 7.33

Systems for the Registration and Protection of Geographical Indications

1. The Parties shall continue to operate systems for the registration and protection of geographical indications in their territories that include at least the following elements:⁶⁴
 - (a) a register listing geographical indications protected in their respective territories;
 - (b) an administrative process verifying that geographical indications identify a good as originating in a territory, region or locality where a given quality, reputation or other characteristic of the good is essentially attributable to its geographical origin;
 - (c) a requirement that a geographical indication shall correspond to a specific product or products for which a product specification is laid down which may only be amended by due administrative process;
 - (d) control provisions applying to production;
 - (e) legal provisions laying down that a geographical indication may be used by any operator marketing the product conforming to the corresponding specification; and
 - (f) an objection procedure that allows the legitimate interests of prior users of names, whether those names are protected as a form of intellectual property or not, to be taken into account.

ARTICLE 7.34

Recognition of Specific Geographical Indications

1. In Iceland, the geographical indications of the United Kingdom listed in Parts A, B and D of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom), shall be protected for those products which use these geographical indications according to the level of protection laid down in this Sub-Section.
2. In Norway, the geographical indications of the United Kingdom listed in Parts B and D of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom), shall be protected for those products which use these geographical indications according to the level of protection laid down in this Sub-Section.

⁶⁴ The United Kingdom recognises that the systems for the registration and protection of geographical indications as applicable in the territories of each of Iceland and Norway at the date of entry into force of this Agreement meet the elements laid down in this Article.

3. In the United Kingdom, the geographical indications of Norway listed in Annex XXIII (Geographical Indications of Norway), shall be protected for those products which use these geographical indications according to the level of protection laid down in this Sub-Section.
4. In the United Kingdom, the geographical indications of Iceland listed in Part A of Annex XXII (Geographical Indications of Iceland), shall be protected for those products which use these geographical indications according to the level of protection laid down in this Sub-Section.

ARTICLE 7.35

Protection of Traditional Terms

In Iceland and Norway the traditional terms of the United Kingdom listed in Part C of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom) shall be protected against:

- (a) any misuse, including where it is accompanied by an expression such as ‘style’, ‘type’, ‘method’, ‘as produced in’, ‘imitation’, ‘flavour’, ‘like’ or similar;
- (b) any other false or misleading indication in the marketing of a product as to its nature, characteristics or essential qualities; and
- (c) any other practice likely to mislead the consumer.

ARTICLE 7.36

Right of Use

A geographical indication protected under this Sub-Section may be used by any operator marketing agricultural products, foodstuffs, wines, aromatised wines or spirits conforming to the corresponding specification.

ARTICLE 7.37

Scope of Protection

1. Geographical indications referred to in Article 7.34 (Recognition of Specific Geographical Indications), including those added pursuant to Article 7.40 (Amending the Annexes on Geographical Indications) and Article 7.41 (Processing of Specific Geographical Indications), shall be protected against:
 - (a) the direct or indirect commercial use of any means in the designation or presentation of a product that indicates or suggests that the product

in question originates in a geographical area other than the true place of origin in a manner which misleads the public as to the geographical origin of the product;

- (b) any misuse, imitation or evocation, even if the true origin of the product is indicated or the geographical indication is used⁶⁵ in translation or transcription or accompanied by an expression such as 'style', 'type', 'method', 'as produced in', 'imitation', 'flavour', 'like' or similar;
 - (c) any other false or misleading indication in the marketing of a product as to its origin, nature or essential qualities, which is liable to convey a false impression as to its origin; and
 - (d) any other use which constitutes an act of unfair competition within the meaning of Article 10 *bis* of the Paris Convention.
2. This Sub-Section shall in no way prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead consumers.
 3. If geographical indications of the Parties are wholly or partially homonymous, protection shall be granted to each indication provided that it has been used in good faith. Each Party shall decide the practical conditions of use under which the wholly or partially homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled.
 4. Nothing in this Sub-Section shall oblige a Party to protect a geographical indication which is not or ceases to be protected in its country of origin or which has fallen into disuse in that country. Each Party shall notify the other Parties if a geographical indication ceases to be protected in the territory of the Party of origin. Such notification shall take place in accordance with paragraph 4 of Article 7.40 (Amending the Annexes on Geographical Indications).
 5. The protection of a geographical indication under this Article is without prejudice to the continued use of a trade mark which has been applied for, registered or established by use, if that possibility is provided for by the legislation concerned, in the territory of a Party before the date of the application for protection of the geographical indication. Such trade mark may continue to be used and renewed for that product notwithstanding the protection of the geographical indication, provided that no grounds for the trade mark's invalidity or revocation exist in the legislation of the Party

⁶⁵ For greater certainty, it is understood that this is assessed on a case-by-case basis. This provision does not apply where evidence is provided that there is no link between the protected name and the translated or transliterated term.

concerned. The date of application for protection of the geographical indication is determined in accordance with paragraph 2 of Article 7.39 (Relationship with Trade Marks).

6. A name may not be registered as a geographical indication where it conflicts with the name of a plant variety, including a grape variety, or an animal breed and as a result is likely to mislead the consumer as to the true origin of the product.
7. A Party shall not be required to protect a name as a geographical indication under this Sub-Section if that name is the term customary in common language as the common name for the good concerned in the territory of that Party.
8. A Party shall not be required to protect a name as a geographical indication under this Sub-Section if, in light of a trade mark's reputation and renown and the length of time it has been used, that name is liable to mislead the consumer as to the true identity of the product.

ARTICLE 7.38

Enforcement of Protection

Each Party shall authorise its competent authorities to take appropriate measures *ex officio* or on request of an interested party in accordance with its law to protect geographical indications of another Party protected under this Sub-Section.

ARTICLE 7.39

Relationship with Trade Marks

1. The registration of a trade mark that corresponds to any of the situations referred to in paragraph 1 of Article 7.37 (Scope of Protection) in relation to a geographical indication protected under Article 7.34 (Recognition of Specific Geographical Indications) for like products, including those added pursuant to Article 7.40 (Amending the Annexes on Geographical Indications) and Article 7.41 (Processing of Specific Geographical Indications), shall be refused or invalidated by the Parties, provided an application for registration of the trade mark is submitted after the date of application for protection of the geographical indication in the territory concerned.
2. For the purposes of paragraph 1:
 - (a) for geographical indications referred to in paragraph 1 of Article 7.34 (Recognition of Specific Geographical Indications) and listed in Part A of Annex XXIV (Geographical Indications and Traditional Terms

of the United Kingdom) as at the date of entry into force of this Agreement, the date of application for protection shall be 1 May 2018;

- (b) for geographical indications referred to in Article 7.34 (Recognition of Specific Geographical Indications) and listed in Parts B and D of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom) and Annex XXIII (Geographical Indications of Norway) as at the date of entry into force of this Agreement, the date of application for protection shall be the date on which the application that resulted in the first registration of the geographical indication in the Union was submitted to the European Commission;
- (c) for geographical indications referred to in Article 7.40 (Amending the Annexes on Geographical Indications), and added to an annex referred to in paragraph 1 of Article 7.40 (Amending the Annexes on Geographical Indications) after the date of entry into force of this Agreement, the date of application for protection shall be the date of a Party's receipt of a request by the other Party to protect a geographical indication; and
- (d) for geographical indications referred to in Article 7.41 (Processing of Specific Geographical Indications), and added to Part A of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom) or Part A of Annex XXII (Geographical Indications of Iceland) after the date of entry into force of this Agreement, the date of application for protection shall be the date on which this Agreement is signed.

ARTICLE 7.40

Amending the Annexes on Geographical Indications

1. The Parties agree on the possibility of adding geographical indications to Parts A, B and D of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom,) Annex XXIII (Geographical Indications of Norway) and Part A of Annex XXII (Geographical Indications of Iceland) in accordance with the procedure set out in this Article after having completed an objection procedure and after having examined the geographical indications to the satisfaction of the relevant Parties.
2. For a geographical indication to be added to an annex referred to in paragraph 1 each of the following shall occur:
 - (a) the Party from which the relevant geographical indication originates (the Requesting Party) shall make a request to another Party (the

- Receiving Party) to commence an examination and objection procedure with a view to adding to the relevant annex;
- (b) the Requesting Party shall copy its request to the Sub-Committee on Trade in Goods established under Article 2.19 (Sub-Committee on Trade in Goods) of Section 2.1 (General Provisions on Trade in Goods);
 - (c) upon the receipt of a request, the Receiving Party shall without undue delay undertake any necessary examination and objection procedures; and
 - (d) upon completing those procedures the Receiving Party shall, as soon as reasonably practicable, notify the Requesting Party and the Sub-Committee on Trade in Goods of the outcome in relation to the geographical indication it has considered.
3. At the first meeting of the Sub-Committee on Trade in Goods after receiving a notification referred to in subparagraph 2(d) confirming the eligibility for protection of a geographical indication in the territory of the Receiving Party, the Sub-Committee on Trade in Goods shall consider the request of the Requesting Party with a view to making a recommendation to the Joint Committee pursuant to paragraph 5 of Article 2.19 (Sub-Committee on Trade in Goods) of Section 2.1 (General Provisions on Trade in Goods) that the geographical indication should be added to the relevant annex.
4. If a geographical indication ceases to be protected in its country of origin or has fallen into disuse in that country, pursuant to paragraph 4 of Article 7.37 (Scope of Protection), the Party from which the geographical indication originates shall notify the other Parties and the Sub-Committee on Trade in Goods. At the first meeting of the Sub-Committee on Trade in Goods following the receipt of the notification referred to in this paragraph, the Sub-Committee on Trade in Goods shall make a recommendation to the Joint Committee that the geographical indication should be removed from the relevant annex.

ARTICLE 7.41

Processing of Specific Geographical Indications

1. Notwithstanding Article 7.40 (Amending the Annexes on Geographical Indications), Iceland shall conduct an examination and objection procedure for the geographical indications of the United Kingdom listed in Part E of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom) as soon as possible after receipt of the corresponding specifications.

2. Notwithstanding Article 7.40 (Amending the Annexes on Geographical Indications), the United Kingdom shall conduct an examination and objection procedure for the geographical indication of Iceland listed in Part B of Annex XXII (Geographical Indications of Iceland) as soon as possible after receipt of the corresponding specification.
3. Upon completion of the procedures referred to in paragraphs 1 and 2, Iceland and the United Kingdom shall, as soon as reasonably practicable, notify the Sub-Committee on Trade in Goods of the outcome in relation to the geographical indications it has considered.
4. The Sub-Committee on Trade in Goods shall make a recommendation to the Joint Committee pursuant to paragraph 5 of Article 2.19 (Sub-Committee on Trade in Goods) of Section 2.1 (General Provisions on Trade in Goods) to add the geographical indications that are confirmed as eligible for protection to Part A of Annex XXIV (Geographical Indications and Traditional Terms of the United Kingdom) or Part A of Annex XXII (Geographical Indications of Iceland).

ARTICLE 7.42

Individual Applications for Protection of Geographical Indications and Traditional Terms

The provisions of this Sub-Section are without prejudice to the right to seek recognition and protection of a geographical indication under the relevant legislation of a Party.

ARTICLE 7.43

Indications of Source and Country Names

1. Each Party shall provide the legal means to prevent a trade mark being registered which includes an indication of source or a country name in relation to a good or service in a manner that misleads consumers as to the origin of that good or service. This provision shall apply even if the geographical name is translated or used in a modified form if such use misleads the public as to the true place of origin of that good or service.

Each Party shall, in accordance with their obligations under Article 6^{ter} of the Paris Convention, provide that armorial bearings, flags and other State emblems of another Party are prevented from being used or registered as trade marks or designs without authorisation by the relevant competent authorities of that other Party where the law of such Party requires such authorisation. This paragraph shall also apply to signs that may be confused with armorial bearings, flags and other State emblems of a Party.

SUB-SECTION 7.2.5

PATENTS

ARTICLE 7.44

Patents and Public Health

1. The Parties recognise the importance of the Declaration on the TRIPS Agreement and Public Health, adopted on 14 November 2001 by the Ministerial Conference of the WTO at Doha (Doha Declaration). In interpreting and implementing the rights and obligations under this Sub-Section, each Party shall ensure consistency with the Doha Declaration.
2. Each Party shall implement Article 31*bis* of the TRIPS Agreement, as well as the Annex to the TRIPS Agreement and the Appendix to the Annex to the TRIPS Agreement.

ARTICLE 7.45

Extension of the Period of Protection Conferred by a Patent on Medicinal Products and on Plant Protection Products⁶⁶

1. The Parties recognise that medicinal products and plant protection products⁶⁷ protected by a patent in the respective Party may be subject to an administrative authorisation procedure before being put on their respective markets. The Parties recognise that the period that elapses between the filing of the application for a patent and the first authorisation to place the product on the market, as defined for that purpose by the relevant legislation, may shorten the period of effective protection under the patent.
2. Each Party shall provide for further protection, in accordance with its law for a product which is protected by a patent and which has been subject to an administrative authorisation procedure referred to in paragraph 1 to compensate the holder of a patent for the reduction of effective patent protection. The terms and conditions for the provision of such further protection, including its length, shall be determined in accordance with each Party's law.
3. For the purposes of this Chapter, "medicinal product" means:

⁶⁶ Liechtenstein does not issue marketing authorisations to place plant protection products or pharmaceutical products on its market. Instead, marketing authorisations in Liechtenstein are granted by the relevant Swiss or Austrian authorities, in accordance with the applicable Swiss and European Economic Area (EEA) legislation.

⁶⁷ For the purposes of this Chapter, the term "plant protection product" shall be defined for each Party by the respective law of the Party.

- (a) any substance or combination of substances presented as having properties for treating or preventing disease in human beings or animals; or
- (b) any substance or combination of substances which may be used in or administered to human beings or animals either with a view to restoring, correcting or modifying physiological functions by exerting a pharmacological, immunological or metabolic action, or to making a medical diagnosis.

SUB-SECTION 7.2.6

PROTECTION OF UNDISCLOSED INFORMATION

ARTICLE 7.46

Protection of Trade Secrets

1. Each Party shall provide for appropriate civil judicial procedures and remedies for any trade secret holder to prevent, and obtain redress for, the acquisition, use or disclosure of a trade secret whenever carried out in a manner contrary to honest commercial practices.
2. For the purposes of this Sub-Section:
 - (a) “trade secret” means information which meets all of the following requirements:
 - (i) it is secret in the sense that it is not, as a body or in the precise configuration and assembly of its components, generally known among or readily accessible to persons within the circles that normally deal with the kind of information in question;
 - (ii) it has commercial value because it is secret; and
 - (iii) it has been subject to reasonable steps under the circumstances, by the person lawfully in control of the information, to keep it secret; and
 - (b) “trade secret holder” means any natural or legal person lawfully controlling a trade secret.
3. For the purposes of this Sub-Section, at least the following conduct shall be considered contrary to honest commercial practices:
 - (a) the acquisition of a trade secret without the consent of the trade secret holder, whenever obtained by unauthorised access to, or by appropriation or copying of, any documents, objects, materials, substances or electronic files that are lawfully under the control of the trade secret holder, and that contain the trade secret or from which the trade secret can be deduced;
 - (b) the use or disclosure of a trade secret whenever it is carried out, without the consent of the trade secret holder, by a person who is found to meet any of the following conditions:
 - (i) having acquired the trade secret in a manner referred to in subparagraph (a);

- (ii) being in breach of a confidentiality agreement or any other duty not to disclose the trade secret; or
 - (iii) being in breach of a contractual or any other duty to limit the use of the trade secret;
 - (c) the acquisition, use or disclosure of a trade secret whenever carried out by a person who, at the time of the acquisition, use or disclosure, knew, or ought to have known, under the circumstances that the trade secret had been obtained directly or indirectly from another person who was using or disclosing the trade secret unlawfully within the meaning of subparagraph (b).
4. Nothing in this Sub-Section shall be understood as requiring a Party to consider any of the following conduct as contrary to honest commercial practices:
- (a) independent discovery or creation;
 - (b) observation, study, disassembly or testing of a product that has been made available to the public or that is lawfully in the possession of the acquirer of the information, where the acquirer of the information is free from any legally valid duty to limit the acquisition of the trade secret;
 - (c) the acquisition, use or disclosure of a trade secret required or allowed by the law of each Party; or
 - (d) the exercise of the right of workers or workers' representatives to information and consultation in accordance with the law of that Party.
5. Nothing in this Sub-Section shall be understood as affecting the exercise of freedom of expression and information, including the freedom and pluralism of the media, as protected in each Party, restricting the mobility of employees, or as affecting the autonomy of social partners and their right to enter into collective agreements, in accordance with the law of that Party.

ARTICLE 7.47

Protection of Data Submitted to Obtain an Authorisation to Put a Medicinal Product on the Market⁶⁸

1. Each Party shall protect commercially confidential information submitted to obtain an authorisation to place medicinal products on the market (“marketing authorisation”) against disclosure to third parties, unless steps are taken to ensure that the data are protected against unfair commercial use or except where the disclosure is necessary for an overriding public interest.
2. Each Party shall ensure that for a limited period of time to be determined by its domestic law and in accordance with any conditions set out in its domestic law, the authority responsible for the granting of a marketing authorisation does not accept any subsequent application for a marketing authorisation that relies on the results of pre-clinical tests or clinical trials submitted in the application to that authority for the first marketing authorisation, without the explicit consent of the holder of the first marketing authorisation, unless international agreements to which all the Parties are party provide otherwise.
3. Each Party shall also ensure that, for a limited period of time to be determined by its domestic law and in accordance with any conditions set out in its domestic law, a medicinal product subsequently authorised by that authority on the basis of the results of the pre-clinical tests and clinical trials referred to in paragraph 2 is not placed on the market without the explicit consent of the holder of the first marketing authorisation, unless international agreements to which the Parties are all party provide otherwise.
4. This Article is without prejudice to additional periods of protection which each Party may provide in that Party’s law.

ARTICLE 7.48

Protection of Data Submitted to Obtain Marketing Authorisation for Plant Protection Products or Biocidal Products⁶⁹

1. Each Party shall recognise a temporary right of the owner of a test or study report submitted for the first time to obtain a marketing authorisation

⁶⁸ Pursuant to the “Notenaustausch vom 11. Dezember 2001 zwischen der Schweiz und Liechtenstein betreffend die Geltung der schweizerischen Heilmittelgesetzgebung in Liechtenstein”, Liechtenstein applies the Swiss Legislation on Therapeutic Products (Medicinal Products and Medical Devices). In case of any inconsistencies between this Article and the Swiss Legislation on Therapeutic Products, the latter shall prevail.

⁶⁹ Pursuant to the Customs Union Treaty, Liechtenstein applies the Swiss Legislation on Plant Protection Products. In case of any inconsistencies between this Article and the Swiss Legislation on Plant Protection Products, the latter shall prevail.

concerning safety and efficacy of an active substance, plant protection product or biocidal product. During such period, the test or study report shall not be used for the benefit of any other person who seeks to obtain a marketing authorisation for an active substance, plant protection product or biocidal product, unless the explicit consent of the first owner has been proved. For the purposes of this Article, that right is referred to as “data protection”.

2. The test or study report submitted for marketing authorisation of an active substance or plant protection product should fulfil the following conditions:
 - (a) be necessary for the authorisation or for an amendment of an authorisation in order to allow the use on other crops; and
 - (b) be certified as compliant with the principles of good laboratory practice or of good experimental practice.
3. The period of data protection shall be at least 10 years from the grant of the first authorisation by a relevant authority in the Party.
4. Each Party shall ensure that the public bodies responsible for the granting of a marketing authorisation will not use the information referred to in paragraphs 1 and 2 for the benefit of a subsequent applicant for any successive marketing authorisation, regardless whether or not it has been made available to the public.
5. Each Party shall establish rules to avoid duplicative testing on vertebrate animals.

SECTION 7.3

ENFORCEMENT OF INTELLECTUAL PROPERTY RIGHTS

SUB-SECTION 7.3.1

GENERAL PROVISIONS

ARTICLE 7.49

General Obligations

1. Each Party shall provide for in its respective law the measures, procedures and remedies necessary to ensure the enforcement of intellectual property rights.
2. For the purposes of Sub-Sections 7.3.1 (General Provisions), 7.3.2 (Civil and Administrative Enforcement) and 7.3.4 (Civil Judicial Procedures and Remedies of Trade Secrets), the term “intellectual property rights” does not include rights covered by Sub-Section 7.2.6 (Protection of Undisclosed Information).
3. The measures, procedures and remedies referred to in paragraph 1 shall:
 - (a) be fair and equitable;
 - (b) not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays;
 - (c) be effective, proportionate and dissuasive; and
 - (d) be applied in such a manner as to avoid the creation of barriers to legitimate trade and to provide for safeguards against their abuse.

ARTICLE 7.50

Persons Entitled to Apply for the Application of the Measures, Procedures and Remedies

Each Party shall recognise as persons entitled to seek application of the measures, procedures and remedies referred to in Sub-Sections 7.3.2 and 7.3.4 of this Section:

- (a) the holders of intellectual property rights in accordance with the law of a Party;

- (b) all other persons authorised to use those rights, in particular licensees, in so far as permitted by and in accordance with the law of a Party; and
- (c) federations and associations⁷⁰, in so far as permitted by and in accordance with the law of a Party.

⁷⁰ For greater certainty, and in so far as permitted by the law of a Party, the term “federations and associations” includes at least collective rights management bodies and professional defence bodies which are regularly recognised as having the right to represent holders of intellectual property rights.

SUB-SECTION 7.3.2

CIVIL AND ADMINISTRATIVE ENFORCEMENT

ARTICLE 7.51

Measures for Preserving Evidence

1. Each Party shall ensure that, even before the commencement of proceedings on the merits of the case, the competent judicial authorities may, on application by a party who has presented reasonably available evidence to support their claims that their intellectual property right has been infringed or is about to be infringed, order prompt and effective provisional measures to preserve relevant evidence in respect of the alleged infringement, subject to appropriate safeguards and the protection of confidential information.
2. Such measures may include the detailed description, with or without the taking of samples, or the physical seizure of the alleged infringing goods, and, in appropriate cases, the materials and implements used in the production and/or distribution of these goods and the documents relating thereto.
3. The judicial authorities of a Party shall have the authority to adopt provisional measures without the other party to the proceedings having been heard, in particular where delay is likely to cause irreparable harm to the right holder, or where there is a demonstrable risk of evidence being destroyed.

ARTICLE 7.52

Evidence

1. Each Party shall take the measures necessary to enable the competent judicial authorities to order, on application by a party which has presented reasonably available evidence sufficient to support its claims and has, in substantiating those claims, specified evidence which lies in the control of the opposing party, that this evidence be produced by the opposing party, subject to the protection of confidential information.
2. Each Party shall also take the necessary measures to enable the competent judicial authorities to order, where appropriate, in cases of infringement of an intellectual property right committed on a commercial scale, under the same conditions as in paragraph 1, the communication of banking, financial or commercial documents under the control of the opposing party, subject to the protection of confidential information.

ARTICLE 7.53

Right of Information

1. Each Party shall ensure that, in the context of civil proceedings concerning an infringement of an intellectual property right and in response to a justified and proportionate request of the claimant, the competent judicial authorities may order the infringer or any other person to provide information on the origin and distribution networks of the goods or services which infringe an intellectual property right.
2. For the purposes of paragraph 1, “any other person” means a person who:
 - (a) was found in possession of the infringing goods on a commercial scale;
 - (b) was found to be using the infringing services on a commercial scale;
 - (c) was found to be providing on a commercial scale services used in infringing activities; or
 - (d) was indicated by the person referred to in subparagraphs (a), (b) or (c), as being involved in the production, manufacture or distribution of the goods or the provision of the services.
3. The information referred to in paragraph 1 shall, as appropriate, comprise:
 - (a) the names and addresses of the producers, manufacturers, distributors, suppliers and other previous holders of the goods or services, as well as the intended wholesalers and retailers; and
 - (b) information on the quantities produced, manufactured, delivered, received or ordered, as well as the price obtained for the goods or services in question.
4. Paragraphs 1 and 2 shall apply without prejudice to any law of a Party which:
 - (a) grant the right holder rights to receive fuller information;
 - (b) govern the use in civil proceedings of the information communicated pursuant to this Article;
 - (c) govern responsibility for misuse of the right of information;
 - (d) afford an opportunity for refusing to provide information which would force the person referred to in paragraph 1 to admit their own participation or that of their close relatives in an infringement of an intellectual property right; or

- (e) govern the protection of confidentiality of information sources or the processing of personal data.

ARTICLE 7.54

Provisional and Precautionary Measures

1. Each Party shall ensure that its judicial authorities may, at the request of the applicant, issue against the alleged infringer an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, or to forbid, on a provisional basis and subject, where appropriate, to a recurring penalty payment where provided for by the law of that Party, the continuation of the alleged infringements of that right, or to make such continuation subject to the lodging of guarantees intended to ensure the compensation of the right holder. An interlocutory injunction may also be issued, under the same conditions, against an intermediary whose services are being used by a third party to infringe at least copyright or related rights.
2. Each Party shall ensure that its judicial authorities may, at the request of the applicant, order the seizure or delivery up of goods suspected of infringing an intellectual property right, so as to prevent their entry into or movement within the channels of commerce.
3. In the case of an alleged infringement committed on a commercial scale, each Party shall ensure that, if the applicant demonstrates circumstances likely to endanger the recovery of damages, the judicial authorities may order the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of their bank accounts and other assets. To that end, the competent authorities may order the communication of bank, financial or commercial documents, or appropriate access to the relevant information.
4. Each Party shall ensure that its judicial authorities shall, in respect of the measures referred to in paragraphs 1, 2 and 3, have the authority to require the applicant to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the applicant is the rightholder and that the applicant's right is being infringed, or that such infringement is imminent.

ARTICLE 7.55

Corrective Measures

1. Each Party shall ensure that its judicial authorities may order, at the request of the applicant, without prejudice to any damages due to the right holder by reason of the infringement, and without compensation of any sort, the destruction of goods that they have found to be infringing an intellectual

property right or at least the definitive removal of those goods from the channels of commerce. If appropriate, under the same conditions, the judicial authorities may also order destruction of materials and implements predominantly used in the creation or manufacture of those goods.

2. Each Party's judicial authorities shall have the authority to order that those measures shall be carried out at the expense of the infringer, unless particular reasons are invoked for not doing so.
3. In considering a request for corrective measures, the need for proportionality between the seriousness of the infringement and the remedies ordered as well as the interests of third parties shall be taken into account.

ARTICLE 7.56

Injunctions

1. Each Party shall ensure that, where a judicial decision is taken finding an infringement of an intellectual property right, the judicial authorities may issue against the infringer an injunction aimed at prohibiting the continuation of the infringement.
2. Each Party shall ensure that their judicial authorities may issue an injunction against intermediaries whose services are used by a third party to infringe at least copyrights and related rights.

ARTICLE 7.57

Alternative Measures

Each Party may provide that the judicial authorities, in appropriate cases and at the request of the person liable to be subject to the measures provided for in Article 7.55 (Corrective measures) or Article 7.56 (Injunctions), may order pecuniary compensation to be paid to the injured party instead of applying the measures provided for in these two Articles if that person acted unintentionally and without negligence, if execution of the measures in question would cause the person disproportionate harm and if pecuniary compensation to the injured party appears reasonably satisfactory.

ARTICLE 7.58

Damages

1. Each Party shall ensure that its judicial authorities shall have the authority to, on the application of the injured party, order the infringer who knowingly engaged, or had reasonable grounds to know it was engaging, in

an infringing activity, to pay to the rightholder damages appropriate to the actual prejudice suffered by the rightholder as a result of the infringement.

2. In the circumstances set out in paragraph 1, each Party shall ensure that when its judicial authorities set the damages:
 - (a) they take into account all appropriate aspects, such as the negative economic consequences, including lost profits, which the injured party has suffered, any unfair profits made by the infringer and, in appropriate cases, elements other than economic factors, such as the moral prejudice caused to the right holder by the infringement; or
 - (b) as an alternative to subparagraph (a), they may, in appropriate cases, set the damages as a lump sum on the basis of elements such as at least the amount of royalties or fees which would have been due if the infringer had requested authorisation to use the intellectual property right in question.
3. Where the infringer did not knowingly engage, and did not have reasonable grounds to know it was engaging, in infringing activity, each Party may provide in its law that the judicial authorities may order the recovery of profits or the payment of damages which may be pre-established.

ARTICLE 7.59

Legal Costs

Each Party shall ensure that reasonable and proportionate legal costs and other expenses incurred by the successful party shall, as a general rule, be borne by the unsuccessful party, unless equity does not allow this.

ARTICLE 7.60

Publication of Judicial Decisions

Each Party shall ensure that, in legal proceedings instituted for infringement of an intellectual property right, the judicial authorities may order, at the request of the applicant and at the expense of the infringer, appropriate measures for the dissemination of the information concerning the decision, including displaying the decision and publishing it in full or in part.

ARTICLE 7.61

Presumption of Authorship or Ownership

For the purposes of applying the measures, procedures and remedies provided for in Section 7.3 (Enforcement of Intellectual Property Rights):

- (a) for the author of a literary or artistic work, in the absence of proof to the contrary, to be regarded as such, and consequently to be entitled to institute infringement proceedings, it shall be sufficient for the author's name to appear on the work in the usual manner; and
- (b) subparagraph (a) applies *mutatis mutandis* to the holders of rights related to copyright with regard to their protected subject matter.

SUB-SECTION 7.3.3

CIVIL JUDICIAL PROCEDURES AND REMEDIES OF TRADE SECRETS

ARTICLE 7.62

Civil Judicial Procedures and Remedies of Trade Secrets

1. Each Party shall ensure that any person participating in the civil judicial proceedings referred to in paragraph 1 of Article 7.46 (Protection of Trade Secrets), or who has access to documents which form part of those proceedings, is not permitted to use or disclose any trade secret or alleged trade secret which the competent judicial authorities have, in response to a duly reasoned application by an interested party, identified as confidential and of which they have become aware as a result of such participation or access.
2. Each Party shall ensure that the obligation referred to in paragraph 1 remains in force after the civil judicial proceedings have ended, for as long as appropriate.
3. In the civil judicial proceedings referred to in paragraph 1 of Article 7.46 (Protection of Trade Secrets), each Party shall provide that its judicial authorities have the authority at least to:
 - (a) order provisional measures, in accordance with their respective law, to cease and prohibit the use or disclosure of the trade secret in a manner contrary to honest commercial practices;
 - (b) order measures, in accordance with their respective law, ordering the cessation of, or as the case may be, the prohibition of the use or disclosure of the trade secret in a manner contrary to honest commercial practices;
 - (c) order, in accordance with their respective law, any person who has acquired, used or disclosed a trade secret in a manner contrary to honest commercial practices and that knew or ought to have known that he or she or it was acquiring, using or disclosing a trade secret in a manner contrary to honest commercial practices to pay the trade secret holder damages appropriate to the actual prejudice suffered as a result of such acquisition, use or disclosure of the trade secret;
 - (d) take specific measures necessary to preserve the confidentiality of any trade secret or alleged trade secret used or referred to in proceedings as referred to in paragraph 1 of Article 7.46 (Protection of Trade Secrets). Such specific measures may include, in accordance with each Party's respective law, the rights of defence, the possibility of restricting access to certain documents in whole or in part; of

restricting access to hearings and their corresponding records or transcript; and of making available a non-confidential version of judicial decision in which the passages containing trade secrets have been removed or redacted; and

- (e) impose sanctions on any person participating in the legal proceedings who fail or refuse to comply with the court orders concerning the protection of the trade secret or alleged trade secret.
4. Each Party shall ensure that an application for the measure, procedures or remedies provided for in this Article is dismissed where the alleged acquisition, use or disclosure of a trade secret contrary to honest commercial practices was carried out, in accordance with its law:
- (a) to reveal misconduct, wrongdoing or illegal activity for the purpose of protecting the general public interest;
 - (b) as a disclosure by employees to their representatives as part of, and necessary for, the legitimate exercise by those representatives of their functions; or
 - (c) to protect a legitimate interest recognised by the law of that Party.

SUB-SECTION 7.3.4

BORDER ENFORCEMENT

ARTICLE 7.63

Border Measures

1. With respect to goods under customs control, each Party shall adopt or maintain procedures under which a right holder may submit applications to a competent authority to suspend the release of or detain suspected goods. For the purposes of this Sub-Section, “suspected goods” means goods suspected of infringing trade marks, copyrights and related rights, geographical indications, patents, utility models, industrial designs, topographies of integrated circuits and plant variety rights.
2. Each Party shall endeavour to have in place electronic systems for the management by customs of the applications granted or recorded.
3. If a Party establishes or assesses, in connection with the procedures described in this Article, an application fee, storage fee or destruction fee, that fee shall not be set at an amount that unreasonably deters recourse to these procedures.
4. Each Party shall ensure that its competent authorities decide about granting or recording applications within a reasonable period of time.
5. Each Party shall provide for the applications referred to in paragraph 1 to apply to multiple shipments.
6. With respect to goods under customs control, each Party shall ensure that its customs authorities may act upon their own initiative to suspend the release of or detain suspected goods.
7. Each Party may encourage that its customs authorities use risk analysis to identify suspected goods.
8. Each Party may authorise its customs authority to provide a right holder, upon request, with information about goods, including a description and the actual or estimated quantities thereof, and if known, the name and address of the consignor, importer, exporter or consignee, and the country of origin or provenance of the goods, whose release has been suspended, or which have been detained.
9. Each Party shall have in place procedures allowing for the destruction of suspected goods, without there being any need for prior administrative or judicial proceedings for the formal determination of the infringements, where the persons concerned agree or do not oppose the destruction. In case suspected goods are not destroyed, each Party shall ensure that, except in

exceptional circumstances, such goods are disposed of outside the commercial channel in a manner which avoids any harm to the right holder.

10. Each Party shall have in place procedures allowing for the swift destruction of counterfeit trade mark and pirated goods sent in postal or express couriers' consignments.
11. Each Party shall provide that, where requested by the customs authorities, the holder of the granted or recorded application shall be obliged to reimburse the costs incurred by the customs authorities, or other parties acting on behalf of customs authorities, from the moment of detention or suspension of the release of the goods, including storage, handling, and any costs relating to the destruction or disposal of the goods.
12. Each Party may decide not to apply this Article to the import of goods put on the market in another country by or with the consent of the right holders. A Party may exclude from the application of this Article goods of a non-commercial nature contained in travellers' personal luggage.
13. Each Party shall allow its customs authorities to maintain a regular dialogue and promote cooperation with the relevant stakeholders and with other authorities involved in the enforcement of intellectual property rights.
14. The Parties shall cooperate in respect of international trade in suspected goods. In particular, the Parties shall, as far as possible, share relevant information on trade in suspected goods affecting each other Party.

ARTICLE 7.64

Consistency with GATT 1994 and the TRIPS Agreement

In implementing border measures for the enforcement of intellectual property rights by customs, whether or not covered by this Sub-Section, the Parties shall ensure consistency with their obligations under the GATT 1994 and the TRIPS Agreement and, in particular, with Article V of GATT 1994 and Article 41 and Section 4 of Part III of the TRIPS Agreement.

SECTION 7.4
OTHER PROVISIONS

ARTICLE 7.65

Cooperation

Cooperation activities undertaken under this Chapter are subject to the availability of resources, and on request, and on terms and conditions mutually decided upon among the Parties. The Parties affirm that cooperation under this Chapter is additional to and without prejudice to other past, ongoing, and future cooperation activities, both bilateral and multilateral, among any of the Parties, including between their respective intellectual property offices.

CHAPTER 8
COMPETITION POLICY

ARTICLE 8.1

Definitions

For the purposes of this Chapter:

- (a) “anticompetitive business conduct” means:
- (i) agreements between enterprises, concerted practices or decisions by associations of enterprises, which have as their object or effect the prevention, restriction or distortion of competition;
 - (ii) abuses by one or more enterprises that are dominant in a market; and
 - (iii) mergers between enterprises with substantial anti-competitive effects.
- (b) “enterprise” means an entity constituted or organised under applicable law, whether or not for profit, and whether privately or governmentally owned or controlled, including a corporation, trust, partnership, sole proprietorship, joint venture or other association; and
- (c) “competent authority” means an authority responsible for the enforcement of competition law.

ARTICLE 8.2

Competition Law

1. The Parties recognise the importance of free and undistorted competition in their trade relations. The Parties acknowledge that anticompetitive business conduct has the potential to distort the proper functioning of markets and undermine the benefits of trade liberalisation.
2. The Parties shall take appropriate measures to proscribe anticompetitive business conduct, recognising that such measures will enhance the fulfilment of the objectives of this Agreement.
3. The measures referred to in paragraph 2 shall be consistent with the principles of transparency, non-discrimination and procedural fairness.

4. Each Party may provide for certain exemptions from the application of its competition law provided that those exemptions are transparent and are based on public policy grounds or public interest grounds. A Party shall make available to another Party public information concerning such exemptions provided under its competition law.

ARTICLE 8.3

Application of Competition Law to Public Enterprises

Each Party shall ensure that the measures referred to in paragraph 2 of Article 8.2 (Competition Law) apply to its publicly owned or controlled enterprises to the extent required by its law.

ARTICLE 8.4

Cooperation

1. The Parties recognise the importance of cooperation and coordination to further enhance effective competition law enforcement.
2. The Parties' respective competent authorities shall endeavour to coordinate and cooperate in the enforcement of their respective competition law to fulfil the objectives of this Agreement. The Parties shall take such steps as they consider appropriate to minimize direct or indirect obstacles or restrictions to effective enforcement cooperation between the competent authorities of the Parties.
3. The interested Parties may enter into a separate agreement on cooperation and coordination between their competent authorities, which may include conditions for the exchange and use of confidential information.
4. Nothing in this Article shall require a Party, or its competent authorities, to take any action which would be contrary to that Party's public policy or important interests.

ARTICLE 8.5

Dispute Settlement

This Chapter shall not be subject to dispute settlement under Chapter 16 (Dispute Settlement).

CHAPTER 9

SUBSIDIES⁷¹

ARTICLE 9.1

Principles

The Parties recognise that subsidies may be granted by a Party when they are necessary to achieve public policy objectives. However, certain subsidies have the potential to distort the proper functioning of markets and undermine the benefits of trade liberalisation. In principle, subsidies should not be granted by a Party when it finds that they have or could have a significant negative effect on trade between the Parties.

ARTICLE 9.2

Relationship with the WTO Agreement

Nothing in this Chapter shall affect the rights and obligations of the Parties under Article VI of the GATT 1994, Article XV of GATS and the Agreement SCM Agreement.

ARTICLE 9.3

Definition and Scope

1. For the purposes of this Chapter, a “subsidy” means a measure related to trade which fulfils the conditions set out in Article 1.1 of the SCM Agreement, irrespective of whether the recipients of the subsidy deal in goods or services.
2. A subsidy is subject to this Chapter only if it is specific within the meaning of Article 2 of the SCM Agreement.
3. This Chapter does not apply to subsidies granted to enterprises entrusted by the government with the provision of services to the general public for public policy objectives. Such exceptions from the rules on subsidies shall be transparent and shall not go beyond their targeted public policy objectives.

⁷¹ Pursuant to Article 1.4 (Trade and Economic Relations Governed by this Agreement) of Chapter 1 (General Provisions), this Chapter shall not apply to Liechtenstein with respect to subsidies related to trade in goods.

4. This Chapter does not apply to subsidies granted to compensate the damage caused by natural disasters or other exceptional non-economic occurrences.
5. This Chapter does not apply to subsidies granted temporarily to respond to a national or global economic emergency.⁷² Such subsidies shall be targeted, economical, effective and efficient in order to remedy the identified temporary national or global economic emergency.
6. This Chapter applies only to specific subsidies of which the amount per beneficiary over a period of three years is above 450,000 Special Drawing Rights.
7. This Chapter does not apply to subsidies related to products covered by Annex 1 of the WTO Agreement on Agriculture and other subsidies covered by the WTO Agreement on Agriculture.
8. This Chapter does not apply to fisheries subsidies. The Parties share the objective of working jointly to develop a global, multilateral approach to the provision of subsidies to the fisheries sector, with the objective of prohibiting certain forms of fisheries subsidies which contribute to overfishing and overcapacity and eliminating subsidies that contribute to illegal, unreported and unregulated (IUU) fishing.
9. This Chapter does not apply to subsidies related to the audio-visual sector.

ARTICLE 9.4

Transparency

1. Every two years, each Party shall notify the other Parties of the following with respect to any subsidy granted or maintained:
 - (a) the legal basis of the subsidy;
 - (b) the form of the subsidy; and
 - (c) the amount of the subsidy or the amount budgeted for the subsidy.
2. If a Party makes publicly available on an official website the information specified in paragraph 1, the notification pursuant to paragraph 1 shall be deemed to have been made. Notifications provided to the WTO under Article 25.1 of the SCM Agreement are deemed to meet the requirement set out in paragraph 1.

⁷² For greater certainty, an emergency shall be understood as one that affects the whole economy of a Party.

ARTICLE 9.5

Consultations

1. If a Party considers that a subsidy granted by another Party negatively affects or may negatively affect its trade interests, it may express its concerns to that Party (the responding Party) in writing and request consultations on the matter. The responding Party shall accord full and sympathetic consideration to that request.
2. During consultations, a Party may seek additional information on a subsidy provided by the responding Party, including:
 - (a) its policy objective;
 - (b) its amount; and
 - (c) any measures taken to limit the potential distortive effect on trade.
3. The responding Party shall provide the requested information in writing no later than 60 days of the receipt of the request. If any requested information cannot be provided, that Party shall explain the absence of such information in its written response.
4. On the basis of the consultations, the responding Party shall endeavour to eliminate or minimise, as appropriate, any negative effects of the subsidy on the requesting Party's interests.

ARTICLE 9.6

Use of Subsidies

Each Party shall ensure that enterprises use subsidies only for the specific purpose for which the subsidies were granted.

ARTICLE 9.7

Confidentiality

When providing information under this Chapter, a Party is not required to disclose confidential information.

ARTICLE 9.8

Dispute Settlement

Article 9.5 (Consultations) of this Chapter shall not be subject to dispute settlement under Chapter 16 (Dispute Settlement).

CHAPTER 10
SMALL AND MEDIUM-SIZED ENTERPRISES

2. Each Party shall include in the information referred to under paragraph 1 links to:
 - (a) the relevant websites of the other Parties; and
 - (b) the websites of its own government agencies or authorities and/or other appropriate entities that provide information the Party considers as useful to SMEs of the other Parties.

ARTICLE 10.3

SME Contact Points

1. Each Party shall, upon entry into force of this Agreement, promptly designate an SME contact point and notify the other Parties of the contact details.
2. Each Party shall promptly notify the other Parties of any change to its SME contact point.

3. Taking into account SMEs' needs in the implementation of this Agreement, the SME contact points jointly or individually shall seek to:
 - (a) exchange SME-related information, including any matter brought to their attention by SMEs in their trade and investment activities with another Party;
 - (b) consider ways to increase trade and investment opportunities for the SMEs of all the Parties, regardless of their size and including SMEs owned by under-represented groups;
 - (c) ensure that the information referred to in Article 10.2 (Information Sharing) is up-to-date and relevant for SMEs, and recommend any additional information that the other Parties' SME contact points may publish;
 - (d) encourage, where appropriate, efforts of other bodies established under this Agreement to integrate SME-related considerations in their work; and
 - (e) consider any other matters of interest to SMEs as appropriate.
4. The SME contact points may, individually or jointly, raise any matter arising in their activities with the Joint Committee.
5. The SME contact points may cooperate with experts, external organisations and SME stakeholders, as appropriate, in carrying out their activities.

ARTICLE 10.4

Dispute Settlement

The provisions of this Chapter shall not be subject to dispute settlement under Chapter 16 (Dispute Settlement).

CHAPTER 11
GOOD REGULATORY PRACTICES AND REGULATORY
COOPERATION
SECTION 11.1
GENERAL PROVISIONS

ARTICLE 11.1

Objectives and General Principles

1. The objectives of this Chapter are to promote good regulatory practices and regulatory cooperation between the Parties with the aim of enhancing trade and investment between the Parties by:
 - (a) promoting an effective, transparent and predictable regulatory environment; and
 - (b) discussing regulatory measures, practices or approaches of interested Parties, including how to enhance their efficient application.
2. Nothing in this Chapter shall affect the right of a Party to regulate in pursuit or furtherance of its public policy objectives.
3. Nothing in this Chapter shall be construed as preventing a Party from adopting, maintaining and applying regulatory measures in accordance with its legal framework, principles and deadlines, in order to achieve its public policy objectives.
4. Nothing in this Chapter shall be construed as obliging a Party to achieve any particular regulatory outcome.

ARTICLE 11.2

Definitions

For the purposes of this Chapter, unless otherwise specified:

- (a) “regulatory authority” means:
 - (i) in the case of Iceland, Liechtenstein and Norway, the Government of that Party; and

- (ii) in the case of the United Kingdom, Her Majesty's Government of the United Kingdom of Great Britain and Northern Ireland, and the devolved administrations of the United Kingdom; and
- (b) "regulatory measures" means legislation as set out in Annex XXV (Additional Provisions Concerning the Scope of "Regulatory Measures"). For Iceland, Liechtenstein and Norway, regulatory measures under this Chapter do not include measures following from obligations under the EEA Agreement.

ARTICLE 11.3

Scope

1. Section 11.2 (Good Regulatory Practices) applies to all regulatory measures issued by the regulatory authority of a Party in respect of any matter covered by this Agreement.
2. Sections 11.3 (Regulatory Cooperation) and 11.4 (Institutional Provisions) apply to other measures of general application issued by the regulatory authority of a Party which are relevant to regulatory cooperation activities, such as guidelines, policy documents or recommendations, in addition to the regulatory measures referred to in paragraph 1.
3. Any specific provisions in other Chapters of this Agreement shall prevail over the provisions of this Chapter to the extent necessary for the application of the specific provisions.

SECTION 11.2

GOOD REGULATORY PRACTICES

ARTICLE 11.4

Internal Coordination

Each Party shall endeavour to maintain internal processes or mechanisms to foster good regulatory practices, including those provided for in this Section.

ARTICLE 11.5

Regulatory Processes and Mechanisms

Each Party shall ensure that their regulatory authority provides public access to descriptions of the processes and mechanisms under which its regulatory measures are prepared, evaluated and reviewed. Where practicable, this information should be made available online. Those descriptions should refer to relevant guidelines, rules or procedures.

ARTICLE 11.6

Public Consultations

1. When preparing significant⁷³ regulatory measures, the regulatory authority of each Party should, to the extent practicable and in a manner consistent with its legal system for adopting new measures:
 - (a) publish either the draft regulatory measures or consultation documents providing sufficient details about regulatory measures under preparation to allow any person to assess whether and how the person's interests might be significantly affected;
 - (b) offer, on a non-discriminatory basis, reasonable opportunities for any person to provide comments⁷⁴; and
 - (c) consider the comments received.
2. The regulatory authority of each Party should make use of electronic means of communication and seek to maintain online services that are freely and publicly available for the purpose of providing information and receiving comments related to public consultations.
3. The regulatory authority of each Party shall make publicly available any comment received or a summary of the results of the consultations. This obligation does not apply to the extent necessary for the protection of confidential or sensitive information, for withholding personal data or inappropriate content or for other justified grounds such as the risk of harm to the interests of a third party.

⁷³ The regulatory authority of each Party may determine what constitutes "significant" regulatory measures for the purpose of its obligations under this Section.

⁷⁴ For clarity, this does not create any obligation to provide consultation documents in any other languages than normally used in the Party.

ARTICLE 11.7

Proportionate Analyses

1. The regulatory authority of each Party shall endeavour to carry out, in accordance with the relevant rules and procedures, a proportionate analysis of significant regulatory measures under preparation.
2. When carrying out a proportionate analysis, the regulatory authority of each Party shall establish and maintain processes and mechanisms under which the following factors should be taken into consideration:
 - (a) the need for the regulatory measure, including the nature and the significance of the issue that the regulatory measure intends to address; and
 - (b) any feasible and appropriate regulatory or non-regulatory alternatives, including the option of not regulating, if available, that would achieve the Party's public policy objectives.
3. The regulatory authority of each Party shall provide public access to the findings of its proportionate analyses consistent with their rules and procedures. Where practicable, this information should be made available online and in a timely manner.

ARTICLE 11.8

Retrospective Evaluation

The regulatory authority of each Party should maintain processes or mechanisms for the purpose of carrying out retrospective evaluation of regulatory measures in force where appropriate.

ARTICLE 11.9

Exchange of Information on Good Regulatory Practices

The regulatory authorities may exchange information on their good regulatory practices as referred to in this Section, such as practices regarding proportionate analyses or those regarding retrospective evaluations.

SECTION 11.3

REGULATORY COOPERATION

ARTICLE 11.10

Regulatory Cooperation Activities

1. A Party may propose a regulatory cooperation activity to another Party. It shall present that proposal via the contact point designated in accordance with Article 11.11 (Contact Points).
2. The other Party shall review the proposal in due course and shall inform the proposing Party whether it considers the proposed activity suitable for regulatory cooperation.
3. If the Parties concerned decide to engage in a regulatory cooperation activity, the regulatory authority of each Party shall:
 - (a) inform the regulatory authority of the other Party about the development of new or the revision of existing measures that are relevant for the regulatory cooperation activity;
 - (b) on request, provide information and discuss measures that are relevant for the regulatory cooperation activity; and
 - (c) when developing new or revising existing regulatory or other measures, consider, to the extent feasible, any regulatory approach by the other Party on the same or a related matter.
4. The Parties may engage in regulatory cooperation activities on a voluntary basis. A Party may refuse to engage in or withdraw from regulatory cooperation activities. A Party that refuses to engage in or withdraws from regulatory cooperation activities should explain the reasons for its decision to the other Party.
5. Where appropriate, the regulatory authorities may, by mutual consent, entrust the implementation of a regulatory cooperation activity to the relevant bodies in the Parties.

SECTION 11.4
INSTITUTIONAL PROVISIONS

ARTICLE 11.11

Contact Points

Each Party shall, upon the entry into force of this Agreement, designate a contact point for the implementation of this Section and for exchange of information in accordance with Article 11.12 (Exchange of Information on Planned or Existing Regulatory Measures) and notify the other Parties of the contact. The Parties shall promptly notify each other of any change of those contact details.

If an issue arises as to whether any inconsistency exists between this Agreement and a tax convention between two or more Parties, the issue shall be referred by those Parties to the competent authorities under, or in respect of, that tax convention. Those competent authorities shall have 12 months beginning with the date of that referral to make a determination as to the existence and extent of any inconsistency. If those competent authorities agree, that period may be extended by no more than a further 6 months. Only upon expiry of the 12 months, or other agreed time period (or where the competent authorities determine that no such inconsistency exists), can a panel be established under this Agreement to consider a dispute related to the measure. A panel established under this Agreement shall accept as binding a determination made by those competent authorities under this paragraph.
5. Notwithstanding paragraph 3:
- (a) Article 2.4 (National Treatment on Internal Taxation and Regulation) of Section 2.1 (General Provisions on Trade in Goods), and such other measures as are necessary to give effect to that Article, apply to taxation measures to the same extent as does Article III of GATT 1994 including its interpretative notes; and

⁸⁹ Pursuant to Article 1.4 (Trade and Economic Relations Governed by this Agreement) of Chapter 1 (General Provisions), this Article shall not apply to Liechtenstein with respect to excise duties.

⁹⁰ For greater certainty, this Article does not preclude the adoption or enforcement by a Party of taxation measures under Article 14.1 (General Exceptions) and Article 14.2 (Security Exceptions).

- (b) Article 2.7 (Export Duties, Taxes or other Charges) and Article 2.8 (Fees and Charges) of Section 2.1 (General Provisions on Trade in Goods) applies to taxation measures.
6. Subject to paragraph 3, the following provisions apply to taxation measures:
- (a) Article 3.7 (National Treatment) of Section 3.2 (Investment Liberalisation);
 - (b) Article 3.8 (Most-Favoured-Nation Treatment) of Section 3.2 (Investment Liberalisation);
 - (c) Article 3.16 (National Treatment) of Section 3.3 (Cross-Border Trade in Services);
 - (d) Article 3.17 (Most-Favoured-Nation Treatment) of Section 3.3 (Cross-Border Trade in Services); and
 - (e) without prejudice to the rights and obligations of the Parties under paragraph 5, Article 3.10 (Performance Requirements) of Section 3.2 (Investment Liberalisation).
7. But nothing in the Articles referred to in paragraph 6 applies to:
- (a) any most-favoured-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
 - (b) the adoption, maintenance or enforcement of any taxation measure aimed at ensuring the equitable or effective⁹¹ imposition or collection of direct taxes, subject to the requirement that the taxation measure is not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on trade and investment; or
 - (c) the adoption, maintenance or enforcement of any taxation measure that differentiates between persons based on their place of residence for tax purposes, provided that the taxation measure does not arbitrarily discriminate between persons, goods or services of the Parties.

⁹¹ The footnote to Article XIV(d) of GATS shall apply and is hereby incorporated into and made part of this Agreement *mutatis mutandis*.

CHAPTER 16
DISPUTE SETTLEMENT

ARTICLE 16.1

Objective

The objective of this Chapter is to establish an effective and efficient mechanism for settling disputes between the Parties⁹² concerning the interpretation and application of the provisions of this Agreement with a view to reaching a mutually agreed solution.

ARTICLE 16.2

Scope

Unless otherwise provided for in this Agreement, this Chapter applies with respect to the settlement of any dispute between the Parties concerning the interpretation and application of the provisions of this Agreement.

ARTICLE 16.3

Request for Information

Before a request for consultations, good offices, conciliation or mediation is made pursuant to Articles 16.4 (Consultations) or 16.5 (Good Offices, Conciliation and Mediation) respectively, a Party may request in writing any relevant information with respect to a measure at issue. The Party to which that request is made shall make all efforts to provide the requested information in a written response to be submitted no later than 20 days after the date of receipt of the request.

ARTICLE 16.4

Consultations

1. The Parties shall at all times endeavour to agree on the interpretation and application of this Agreement and shall make every attempt through cooperation and consultations to reach a mutually satisfactory solution of any matter raised in accordance with this Article.

⁹² For the purposes of this Chapter, the terms “Party”, “party to the dispute”, “complaining Party” and “Party complained against” can denote one or more Parties.

2. A Party may request in writing consultations with another Party if it considers that a measure is inconsistent with this Agreement. The Party requesting consultations shall at the same time notify the other Parties in writing of the request. The Party to which the request is made shall reply within ten days from the receipt of the request. Consultations shall take place in the Joint Committee, unless the Parties making and receiving the request for consultations agree otherwise.
3. The parties to the dispute shall provide sufficient information to enable a full examination of whether the measure is inconsistent with this Agreement or not and treat any confidential information exchanged in the course of consultations in the same manner as the Party providing the information.
4. The parties to the dispute shall enter into consultations no later than 30 days, and 15 days for urgent matters, after the date of receipt of the request. Consultations shall be deemed to be concluded no later than 45 days after the date of receipt of the request unless the parties to the dispute agree otherwise. Where both parties to the dispute consider that the case concerns matters of urgency, consultations shall be deemed to be concluded no later than 25 days after the date of receipt of the request unless the parties to the dispute agree otherwise.
5. Consultations may be held in person or by any other means of communication agreed by the parties to the dispute.
6. Consultations shall be confidential and without prejudice to the rights of the parties to the dispute in any other proceedings.
7. The parties to the dispute shall inform the other Parties of any mutually agreed resolution of the matter.

ARTICLE 16.5

Good Offices, Conciliation and Mediation

1. Good offices, conciliation and mediation are procedures that are undertaken voluntarily if the parties to the dispute so agree. They may begin and be terminated at any time. They may continue while proceedings of a panel established in accordance with this Chapter are in progress.
2. Proceedings involving good offices, conciliation and mediation shall be confidential and without prejudice to the rights of the parties to the dispute in any other proceedings.

ARTICLE 16.6

Establishment of a Panel

1. The Party that sought consultations pursuant to Article 16.4 (Consultations) may request the establishment of a panel if:
 - (a) the other Party does not respond to the request for consultations within 10 days after the date of its receipt, or does not enter into consultations within 30 days after the date of receipt of the request;
 - (b) the parties to the dispute agree not to enter into consultations; or
 - (c) the parties to the dispute fail to resolve the dispute through consultations within 45 days, or within 25 days in cases of urgency, after the date of receipt of the request for consultations, unless the parties to the dispute agree otherwise.
2. The request for the establishment of a panel pursuant to paragraph 1 shall be made in writing to the Party complained against. In its complaint, the complaining Party shall explicitly identify the specific measure at issue and provide a brief summary of the legal and factual basis of the complaint.
3. A copy of any request to establish a panel made under paragraph 1 shall be communicated to the other Parties.
4. Where more than one Party requests the establishment of a panel relating to the same matter or where the request involves more than one Party complained against, and whenever feasible, a single panel should be established to examine complaints relating to the same matter.

ARTICLE 16.7

Composition of a Panel

1. The panel shall be composed of three arbitrators. One of the arbitrators shall chair the panel. The chair of the panel shall not be a national or permanent resident of either party to the dispute.
2. On receipt of the request for the establishment of a panel by the Party complained against, the parties to the dispute shall consult with a view to agreeing on the composition of the panel.
3. If the parties to the dispute do not reach agreement on the arbitrators other than the chair of the panel within 10 days of receipt of the request to establish a panel, or any extension agreed in writing, each party to the dispute shall appoint an arbitrator to the panel. The arbitrators shall be appointed within 10 days of the expiry of the first time period mentioned in this paragraph (as extended, if so agreed).

4. If the complaining Party fails to appoint its arbitrator in accordance with paragraph 3, the dispute settlement proceedings shall lapse.
5. If the Party complained against fails to appoint its arbitrator in accordance with paragraph 3, the complaining Party shall be entitled, within 10 days of the expiry of the second time period mentioned in that paragraph, to request that the appointing authority appoint an arbitrator within 15 days of receiving the request. If the complaining Party fails to make such a request, the dispute settlement proceedings shall lapse.
6. If the parties to the dispute do not reach agreement on the chair of the panel within 50 days of receipt of the request to establish a panel, or any extension agreed in writing, the two arbitrators appointed in accordance with paragraphs 2 to 5 shall, within 10 days of the appointment of the second of them, appoint the third arbitrator who shall chair the panel.
7. If the chair has not been appointed within the second time period specified in paragraph 6, either party to the dispute shall be entitled, within 10 days, to request that the appointing authority appoint the arbitrator that shall chair the panel within 15 days of receiving the request. If no such request is made, the dispute settlement proceedings shall lapse.
8. A person being approached in connection with a possible appointment as an arbitrator, shall disclose any circumstances likely to give rise to justifiable doubts as to his or her impartiality or independence. An arbitrator, from the time of appointment and throughout the arbitral proceedings, shall without delay disclose such circumstances to the parties to the dispute and the other arbitrators unless they have already been informed.
9. Any arbitrator may be challenged if a party considers that there are circumstances that give rise to justifiable doubts as to the member's independence or impartiality or the member has otherwise not complied with any Code of Conduct. If a party to the dispute does not agree with the challenge or the challenged member of the panel does not withdraw, the party making the challenge may request the appointing authority to decide on the challenge. In the event of a successful challenge, the member in question shall be replaced.
10. If any arbitrator is unavailable, withdraws, or needs to be replaced, the replacement shall be selected in accordance with the procedure set out in this Article.
11. The date of establishment of the panel shall be the date on which the last arbitrator is appointed.
12. The Secretary-General of the Permanent Court of Arbitration shall act as the appointing authority.

ARTICLE 16.8

Qualifications of Arbitrators

All arbitrators shall:

- (a) have expertise in international law, international trade, other matters covered by this Agreement, or the resolution of disputes arising under international trade agreements;
- (b) be independent of, and not be affiliated with or take instructions from, any Party, nor have dealt with the case in any capacity;

ARTICLE 16.9

Terms of Reference

1. Unless the parties to the dispute agree otherwise, no later than 10 days after the date of the establishment of the panel, the terms of reference of the panel shall be to:

 - (b) make findings of law and fact and determinations on the conformity of the measure or measures at issue with the relevant provisions of this Agreement, together with the reasons therefor. The panel may suggest ways in which the Party complained against could implement the determinations; and
 - (c) issue a written report in accordance with Article 16.14 (Panel Reports).
2. If the parties to the dispute agree on other terms of reference than those referred to in paragraph 1, they shall notify the agreed terms of reference to the panel no later than three days after their agreement.

ARTICLE 16.10

Urgent Cases

In cases of urgency, including those related to perishable goods, the panel and the parties to the dispute shall make every effort to accelerate the proceedings to the greatest extent possible. If a party to the dispute so requests, the panel shall decide, no later than 10 days after the date of its establishment, whether the dispute contains matters of urgency.

ARTICLE 16.11

Panel Proceedings

1. The panel should consult regularly with the parties to the dispute and provide adequate opportunities for achieving a mutually agreed solution. In doing so, the panel shall always ensure that it shares information or makes requests of all parties to the dispute simultaneously.
2. Any hearing of the panel shall be open to the public unless the parties to the dispute agree otherwise or the arbitration panel decides to close the hearing for the duration of any discussion of confidential information. Hearings held in closed session shall be confidential.
3. The parties to the dispute shall mutually determine the location of the hearing. If the parties to the dispute are unable to so agree the hearings shall be held in Geneva, Switzerland.
4. The panel and the parties to the dispute shall treat as confidential any information submitted by a Party to the panel which that Party has designated as confidential. Where that Party submits a confidential version of its written submissions to the panel, it shall also, on request of any other Party, provide a non-confidential summary of the information contained in its submissions that could be disclosed to the public with an explanation as to why the non-disclosed information is confidential.
5. The deliberations of the panel shall be kept confidential.
6. The parties to the dispute shall be given the opportunity to attend any of the presentations, statements, arguments or rebuttals in the proceedings. All documents or information submitted by a Party to the panel, shall, at the same time, be transmitted by that Party to the other party to the dispute. A written submission, request, notice or other document shall be considered received when it has been delivered to the addressee through diplomatic channels.
7. The interim report and the final report shall be drafted without the presence of the Parties, and in light of the information provided and the statements

made. The arbitrators shall assume full responsibility for the drafting of the reports and shall not delegate this responsibility to any other person.

8. The panel shall attempt to make its decisions, including its final report, by consensus. It may also make its decisions, including its final report, by majority vote where a decision cannot be arrived at by consensus. Dissenting opinions of arbitrators shall not be published.
9. The decisions of the panel shall be final and binding on the parties to the dispute. They shall be unconditionally accepted by the parties to the dispute. They shall not add to or diminish the rights and obligations of any Party under this Agreement.
10. A Party which is not a party to the dispute shall be entitled, on delivery of a written notice to the parties to the dispute, to make written submissions to the panel, receive written submissions, including annexes, from the parties to the dispute, attend hearings and make oral statements.

ARTICLE 16.12

Rules of Interpretation

The panel shall interpret the relevant provisions of this Agreement in accordance with customary rules of interpretation of public international law including those codified in the Vienna Convention on the Law of Treaties. The panel shall also take into account relevant interpretations in panel and Appellate Body reports adopted by the Dispute Settlement Body of the WTO.

ARTICLE 16.13

Receipt of Information

1. On request of a party to the dispute, or on its own initiative, the panel may seek from the parties to the dispute relevant information it considers necessary and appropriate. The parties to the dispute shall respond promptly and fully to any request by the panel for information.
2. On request of a party to the dispute, or on its own initiative, the panel may seek from any source any information, including confidential information, it considers appropriate. The panel also has the right to seek the opinion of experts as it considers appropriate.
3. Natural persons of a Party or legal persons established in a Party may submit *amicus curiae* briefs to the panel.
4. Any information obtained by the panel under this Article shall be made available to the parties to the dispute and the parties to the dispute may submit comments on that information to the panel.

ARTICLE 16.14

Panel Reports

1. The panel shall issue an interim report to the parties to the dispute setting out its findings and determinations, together with the reasons therefor, no later than 100 days after the date of its establishment.
2. Each party to the dispute may submit to the panel written comments and request the panel to review precise aspects of the interim report no later than 15 days after the date of issuance of the interim report. After considering any written comments and requests by each party to the dispute on the interim report, the panel may modify the interim report and make any further examination it considers appropriate.
3. In cases of urgency,
 - (a) the panel shall make every effort to issue its interim report no later than 60 days after the date of its establishment; and
 - (b) each party to the dispute shall make every effort to submit to the panel any written comments or requests for it to review precise aspects of the interim report no later than 10 days after the date of issuance of the interim report.
4. The panel shall issue its final report to the parties to the dispute no later than 30 days after the date of issuance of the interim report.
5. In cases of urgency, the panel shall make every effort to issue its final report no later than 15 days after the date of issuance of the interim report.
6. The final report shall address any written comments and requests made by the parties to the dispute on the interim report.
7. The parties to the dispute shall make the final report publicly available in its entirety no later than 10 days after the date of its issuance subject to the protection of confidential information.

ARTICLE 16.15

Compliance with the Final Report

1. The Party complained against shall take any measure necessary to comply promptly and in good faith with the final report issued pursuant to Article 16.14 (Panel Reports).
2. If it is impracticable to comply immediately, the Party complained against shall, no later than 30 days after the date of issuance of the final report, notify the complaining Party of the length of the reasonable period of time

for compliance with the final report and the parties to the dispute shall endeavour to agree on the reasonable period of time required for compliance. If there is disagreement between the parties to the dispute on the length of the reasonable period of time, the complaining Party may, no later than 20 days after the date of receipt of the notification made in accordance with the first sentence of this paragraph by the Party complained against, request in writing the original panel⁹³ to determine the length of the reasonable period of time. Such request shall be notified simultaneously to the Party complained against. The original panel shall notify its determination to the parties to the dispute no later than 30 days after the date of submission of the request.

ARTICLE 16.16

Compliance Review

1. The Party complained against shall, no later than the date of expiry of the reasonable period of time for compliance with the final report, notify the complaining Party of any measures taken to comply with the final report.
2. Where there is disagreement on the existence of measures taken to comply with the final report, or their consistency with the final report, the complaining Party may request in writing the original panel to examine the matter. That request shall be notified simultaneously to the Party complained against.
3. The request referred to in paragraph 2 shall provide the factual and legal basis for the complaint, including the specific measures at issue, in such a manner as to clearly present how such measures do not comply with the final report.
4. The panel shall notify its decision to the parties to the dispute no later than 90 days after the date of referral of the matter referred to in paragraph 2.

ARTICLE 16.17

Temporary Remedies in Case of Non-Compliance

1. The Party complained against shall, on request of the complaining Party, enter into consultations with a view to agreeing on a mutually satisfactory compensation or any alternative arrangement if:

⁹³ For greater certainty, references in this Chapter to the original panel shall include any replacement arbitrators that have been designated pursuant to paragraph 10 of Article 16.7 (Composition of a Panel).

- (a) in accordance with Article 16.16 (Compliance Review) the original panel finds that the Party complained against has not complied with the final report;
 - (b) the Party complained against fails to notify any measure taken to comply with the final report before the expiry of the reasonable period of time; or
 - (c) the Party complained against notifies the complaining Party that it does not intend to or it is impracticable to comply with the final report within the reasonable period of time determined in accordance with paragraph 2 of Article 16.15 (Compliance with the Final Report).
2. If the complaining Party decides not to make a request in accordance with paragraph 1 in the case where any of the conditions in paragraphs 1(a)-(c) are met or if a request is made and no mutually satisfactory compensation nor any alternative arrangement has been agreed within 20 days after the date of receipt of the request made in accordance with paragraph 1, the complaining Party may notify the Party complained against in writing that they intend to suspend the application to the Party complained against of concessions or other obligations granted under this Agreement. The notification shall specify the level of intended suspension of concessions or other obligations.
3. The complaining Party shall have the right to implement the suspension of concessions or other obligations 15 days after the date of receipt of the notification by the Party complained against, unless the Party complained against has requested arbitration in accordance with paragraph 6.
4. In considering what concessions or other obligations to suspend, the complaining Party shall apply the following principles and procedures:
- (a) the general principle is that the complaining Party should first seek to suspend concessions or other obligations in the same sector or sectors as that in which the panel has found an inconsistency with this Agreement;
 - (b) if it considers that it is not practicable or effective to suspend concessions or other obligations in the same sector or sectors, it may seek to suspend concessions or other obligations in other sectors that are subject to dispute settlement in accordance with Article 16.2 (Scope); and
 - (c) concessions or other obligations under Chapter 3 (Services and Investment) in respect of financial services may not be suspended under this Article unless the final report referred to in Article 16.14 (Panel Reports) concerns the interpretation and application of

concessions or other obligations under Chapter 3 (Services and Investment) in respect of financial services.

5. The suspension of concessions or other obligations or the compensation or any alternative arrangement shall be temporary and shall only apply until the measure found to be inconsistent with this Agreement in the final report has been removed or the parties to the dispute have solved the dispute otherwise.
6. If the Party complained against considers that the suspension of concessions or other obligations does not comply with paragraph 4, that Party may request in writing the original panel to examine the matter no later than 15 days after the date of receipt of the notification referred to in paragraph 2. That request shall be notified simultaneously to the complaining Party. The original panel shall notify the parties to the dispute of its decision on the matter no later than 30 days after the date of submission of the request. Concessions or other obligations shall not be suspended until the original panel has notified its decision. The suspension of concessions or other obligations shall be consistent with the decision.

ARTICLE 16.18

Compliance Review after the Adoption of Temporary Remedies

At the request of a party to the dispute, the original panel shall rule on the conformity with the final report of any measures taken to comply with the final report adopted after the suspension of concessions or other obligations or the compensation or any alternative arrangement and, in light of such ruling, whether the suspension of concessions or other obligations or the compensation or any alternative arrangement should be terminated or modified. The ruling of the panel should be given within 30 days from the receipt of that request.

ARTICLE 16.19

Suspension and Termination of Proceedings

1. Where the parties to the dispute agree, a panel may suspend its work at any time for a period not exceeding 12 months. The panel shall resume the proceedings at any time upon the joint request of the parties to the dispute or at the end of the agreed suspension period on the written request of one of them. If the work of a panel has been suspended for more than 12 months, the panel's authority for considering the dispute shall lapse, unless the parties to the dispute agree otherwise.
2. The parties to the dispute may agree at any time to terminate the proceedings of the panel. The parties to the dispute shall jointly notify such agreement to the chair of the panel.

Upon such notification, the panel proceedings or the mediation procedure shall be terminated.

ARTICLE 16.22

Choice of Forum

1. If a dispute regarding the same matter arises under both this Agreement and under another international trade agreement to which the parties to the dispute are party, including the WTO Agreement, the complaining Party may select the forum in which to settle the dispute.
2. Once a Party has selected the forum and initiated dispute settlement proceedings, that Party shall not initiate dispute settlement proceedings under this Chapter or under another international agreement referred to in paragraph 1 unless the forum selected first fails to make findings for jurisdictional or procedural reasons.
3. For the purpose of paragraph 2:
 - (a) dispute settlement proceedings under this Chapter are deemed to be initiated when a Party requests the establishment of a panel in accordance with paragraph 1 of Article 16.6 (Establishment of a Panel);
 - (b) dispute settlement proceedings under the WTO Agreement are deemed to be initiated when a Party requests the establishment of a panel in accordance with Article 6 of the Dispute Settlement Understanding; and

- (c) dispute settlement proceedings under any other trade agreement are deemed to be initiated when a Party requests the establishment of a dispute settlement panel in accordance with the relevant provisions of that agreement.

ARTICLE 16.23

Time Period

1. All time limits laid down in this Chapter, including the limits for panels to notify their rulings, shall be counted in calendar days, the first day being the day following the act or fact to which they refer.
2. Any time period referred to in this Chapter may be modified for a particular dispute by agreement of the parties to that dispute. The panel may at any time propose to the parties to the dispute to modify any time period referred to in this Chapter, stating the reasons for the proposal.
3. If a panel considers that it cannot comply with a timeframe imposed on it under this Chapter, it shall inform the parties to the dispute in writing and provide an estimate of the additional time required. Any additional time required should not exceed 30 days.

ARTICLE 16.24

Expenses

Unless the parties to the dispute agree otherwise, the expenses of the panel, including the remuneration of its arbitrators, shall be borne by the parties to the dispute in equal shares.

ARTICLE 16.25

Rules of Procedure and Code of Conduct

The panel proceedings provided for in this Chapter shall be conducted in accordance with the Rules of Procedure of a Panel and any Code of Conduct for Arbitrators, to be adopted by the Joint Committee at its first meeting.

7. Any Party may agree to apply an amendment provisionally, subject to its internal requirements for provisional application. Provisional application of amendments shall be notified to the Depositary. Such provisional application shall take effect between the United Kingdom and an EEA EFTA State on the date on which they have both deposited their respective notifications with the Depositary.
8. Any Party may terminate the provisional application of an amendment of this Agreement by means of a written notification to the Depositary. Such termination shall take effect:
