

## Social care Commission Call for Evidence

### Introductory text

The Migration Advisory Committee (MAC) has been commissioned by the Government to provide an Independent Review of the impact of the end of free movement of European nationals within the UK on the social care sector.

We appreciate that the COVID-19 outbreak has placed social care organisations in an enormously difficult situation, and that many of you already took the time to respond in detail to our last Call for Evidence about the Shortage Occupation List (SOL) in 2020. The MAC has been commissioned by the Government to provide an Independent Review of the impact of the end of free movement on the social care sector by the end of April 2022, and in order to minimise the burden on you, we will use this Call for Evidence to add to the evidence on skill levels and skill shortages in social care already gathered in 2020 during the SOL Commission.

In this Call for Evidence we ask you to focus specifically on the end of free movement, its impact on your organisation and on the health and social care sector more widely. We greatly appreciate you taking the time to complete this Call for Evidence, in the current challenging context.

The Call for Evidence will remain open until 29<sup>th</sup> October 2021. All identifying and personal information will remain confidential, however, aggregated and anonymised information in the form of summary statistics will be published as part of our final report. For further details please refer to the processing of personal data document published on our website.

## 1 About You

To start with, we'd like to get some details about you and the organisation on behalf of which you are responding.

## B About your organisation – Individual organisations

In this section we ask you which occupations you employ.

The occupations are based on the standard occupational classification (SOC) coding framework. Using this allows us to make valid comparisons of occupations across different datasets.

We have included a selection of common roles within the social care sector, but if you wish to add further roles please follow the guidance below.

**B1 The table below shows a number of roles within the social care profession. Please use the slider to select the annual, full time, wage<sup>1</sup> you pay workers in these roles to the nearest £1000. If you do not employ workers in these roles, please leave the slider at zero.**

**For examples of common job titles, please hover over the relevant role.**

<sup>2</sup> **Include** - All pay before deductions for PAYE, National Insurance, pension schemes, student loan repayments and voluntary deductions. Include paid leave (holiday pay), maternity/paternity pay, sick pay and area allowance (e.g. London). **Exclude** - Pay for a different pay period, shift premium pay, bonus or incentive pay, overtime pay, expenses and the value of salary sacrifice schemes and benefits in kind.

In order for us to be able to make valid comparisons it is important that you match as closely as possible the job you have in mind to the correct 4-digit SOC code. To do this we recommend you make use of the Office for National Statistics Occupation Coding Tool, linked below.

[https://onsdigital.github.io/dp-classification-tools/standard-occupational-classification/ONS\\_SOC\\_occupation\\_coding\\_tool.html](https://onsdigital.github.io/dp-classification-tools/standard-occupational-classification/ONS_SOC_occupation_coding_tool.html)

How to use the ONS Occupation Coding Tool

Step 1: Follow the link and enter the name of the job you want to find an occupation code for in the text box highlighted below.

ONS Occupation Coding Tool

**What is this?**

This Occupation Code Search Tool has been developed to assist users to code occupation titles. It matches inserted text against the Standard Occupational Classification 2010 (SOC2010) Volume 2 coding index. If you would like to use the version of this tool designed for mobile phones, please click here.

If a match cannot be found it is either because the search term is uniquely stylised and not suitable for a coding index, or it is a new or emerging occupation title. If you search for an occupation title that you consider appropriate for inclusion in the index, please contact the Occupation and Social Classification Helpdesk with your proposal.

If you have an occupation code and want to know more about it, please type into this box and click the button

If you need to find an occupation code, please type your occupation title into the box below.

When the search is complete, the results presented are an aid to help you select the code you deem appropriate. Please click on the result links to confirm if a code is appropriate, and to find your related NS-SEC code.

If the Coding Tool does not provide an appropriate result, it might be beneficial to amend your search term and try searching again, or the Occupational Classification Hierarchy may assist in determining the correct code.

Note: The search facility does not allow punctuation or symbols, and the search time is dependent on the speed of your computer and the number of words searched for.

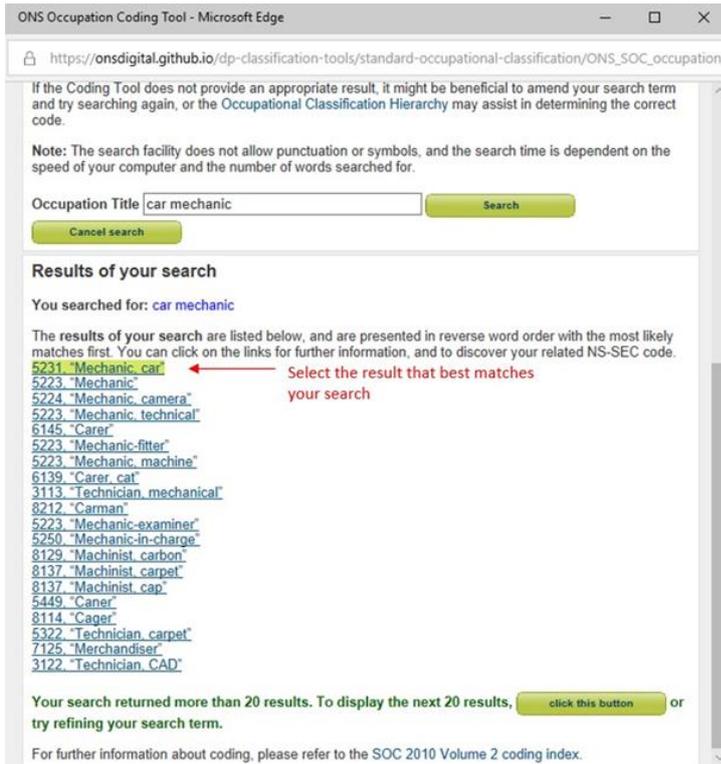

Occupation Title

**Results of your search**

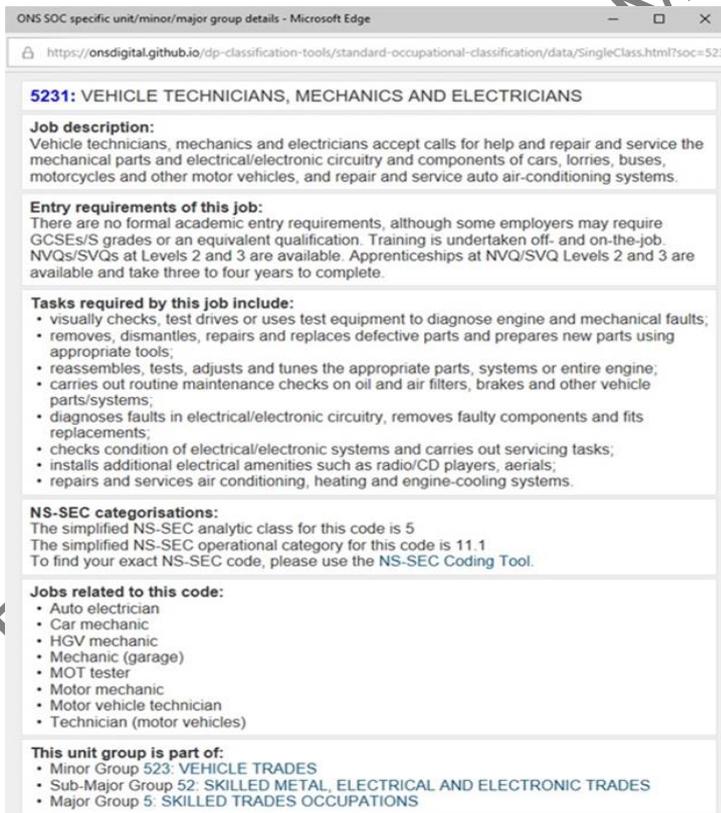

Insufficient text provided in search box.

Type in the name of the role that you want to find an occupation code for

Step 2: Select the result that best matches your search.

Step 3: Check the match by reviewing the description of the occupation code, the tasks required, and the jobs related with that code.

Step 4: If you are unhappy with the match suggested by the tool, go back to step 2 and select another suggested match and/or go back to step one and alter your search term.

In this example we are happy with the match and can conclude that the job "Car Mechanic" is associated with occupation code 5231.

## C Impacts

C1 **What has been the impact of COVID-19 on staffing levels and your recruitment?**

OPEN TEXT – 250 WORDS

C2 Following the end of free movement on 1st January 2021, anyone hired from outside the UK, excluding Irish citizens, will be subject to the new points-based immigration system. This brings the regulations for European migrants in line with those for non-European migrants.

Under this system, applicants for skilled work visas must meet several criteria, including a job offer from a licensed sponsor that meets the applicable minimum salary threshold, and that is for a role categorised at RQF 3 or above (A Level and equivalent).

For example, in social care, Senior Care workers can be employed under this system, but jobs below that level cannot.

Further details on the system are available [here](#).

What impact, if any, do you think this, and the wider implications of EU Exit will have on:

C2a **The employment of European workers in social care?**

C3 **Currently, when you have vacancies you can't fill, what is the impact on service delivery, and how do you adjust to compensate for this?**

OPEN TEXT – 250 WORDS

C4 **Over the medium term (i.e. in around five years' time), what, if any, differences would you expect to see in your sector/organisation as a result of the end of free movement?**
