

List of Specialists in the Field of Gender Dysphoria

Important: From 2009 the definition of a Registered Medical Practitioner changed from a person registered with the General Medical Council (GMC) to one registered with the General Medical Council *and* holding a Licence to Practise.

Clinic reports and letters relied upon in support of an application for a Gender Recognition Certificate may be accepted by the Gender Recognition Panel if they are either:

- from medical practitioners registered under the old definition, if prepared *prior* to 16 November 2009;
- from medical practitioners registered with the General Medical Council *and* holding a Licence to Practise, if prepared *on or after* 16 November 2009.
