

Remember

COVID-19 is spread through droplets breathed out from the nose or mouth, particularly when speaking or coughing. It can also be picked up by touching your eyes, nose, and mouth after contact with contaminated objects and surfaces.

You should register with a GP

GP practices do not need any proof of identity or immigration status from patients wishing to register. You can find details on how to register with a GP at www.nhs.uk/using-the-nhs/nhs-services/gps/how-to-register-with-a-gp-practice

I have had my flu vaccine, do I need the COVID-19 vaccine as well?

The flu vaccine does not protect you from COVID-19. As you are eligible for both vaccines you should have them both, but normally separated by at least a week.

Vaccination, helping to protect those most vulnerable.

If you need more information on the COVID-19 vaccination please visit: www.nhs.uk/covidvaccination
