Report information [Guidance](#)

Release information: Revised 2019 KS2

Release date: 12 November 2021

The IDSR can contain sensitive information regarding schools and colleges. It is your responsibility to ensure that the IDSR is stored and shared appropriately. Please see our guidance (linked to above) for our IDSR conditions of use and storage statement.

Important message: Due to the impact of the Covid-19 pandemic, 2019 data is the latest available results data. School performance may vary yearly, and, due to the uneven impact of Covid-19 on pupils and schools, 2019 data may no longer reflect a school's current performance. The IDSR displays both 2021 and 2019 census data to allow users to view the latest contextual data and the data for pupils who took KS4 exams or KS2 tests in 2019.

Areas of interest [Guidance](#)

The following sections draw attention to only those areas which are meaningful or where statistical testing shows there is something significant to note (where they are not, text will be displayed in grey). For the criteria used to determine the sentences, see the guidance link alongside each section.

We know from national data that pupils at junior schools, on average, have higher attainment scores at the end of key stage 2 than pupils at all other primary schools. However, on average they also have lower progress scores, which may be for a variety of reasons. Inspectors should be aware of this and, as with any inspection, carefully consider a range of information and data including the progress of current pupils in all year groups.
