Cats seized:

APHA can confirm the countries were Bulgaria, Germany, Hungary, Latvia, Lithuania, Moldova, Poland, Romania, Russian Federation, Slovakia and the Ukraine.

4. What were the reasons that cats were seized in 2020 and 2019?

APHA can advise that when dogs, cats and ferrets have been imported and non-compliances are identified, enforcement action is taken under two different areas of legislation, the Rabies (Importation Of Dogs, Cats and Other Mammals) Order (RIO), and TARP.

The purpose of the Rabies (Importation Of Dogs, Cats and Other Mammals) Order (RIO) is to prevent the spread of rabies by regulating the import of animals. Any animal landed that is not fully compliant with the Pet Travel requirements, the Balai Directive (Council Directive 92/65/EC) or a landing licence issued under the RIO is treated as an illegal import and dealt with by the Local Authority.

The Trade in Animals and Related Products Regulations 2011 (TARP) is the domestic legislation transposed from EU Law. Non-compliance under TARP could include non-notification to the receiving office of an import, absence of or invalid Health Certificate or failure to deliver to the stated destination on the notification.
