Accounting Officer's Foreword

1. Introduction

The National Insurance Fund (NIF) holds National Insurance Contributions (NICs), paid by employees, employers and the self-employed. Voluntary contributions are also paid into the Fund. Receipts paid into the NIF are kept separate from all other revenue raised by national taxes and are used to pay social security benefits such as contributory benefits and the State Pension.

The NIF Account presents the receipts and payments for the financial year, as well as the balance on the Fund at the end of the year.

NICs also help finance the National Health Service (NHS). NICs are paid into the NIF net of money allocated to the NHS.

2. Basis for the preparation of the NIF Accounts

The HM Treasury Accounts Direction (page 30), issued under Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992 requires HM Revenue and Customs (HMRC) to prepare a yearly statement of the transactions of the NIF. The Account is prepared on a receipts and payments basis, with values recognised as set out in Notes to the Account 1.3 and 1.4 on pages 17 and 18, and follows all relevant accounting and disclosure requirements given in *Managing Public Money*¹ and other guidance issued by HM Treasury.

The Account is prepared on a going concern basis.

3. Statutory background

The National Insurance Act 1946 and National Assistance Act 1948 established the modern welfare state that continues today. As an important part of that, the NIF funds the State Pension as well as certain unemployment benefits, employment support benefits and other benefits in situations where the individuals meet the contributory and other qualifying conditions.

Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992, as amended by the Social Security Contributions (Transfer of Functions, etc.) (Northern Ireland) Order 1999, moved the management of the NIF from the Department of Health and Social Services for Northern Ireland to the management of the Inland Revenue (now HMRC).

Under Section 142 of the Social Security Administration (Northern Ireland) Act 1992, NICs received by HMRC are paid into the NIF after deducting the appropriate NHS allocation (see note 2). HMRC determine the appropriate apportionment, which is approved by HM Treasury.

The Commissioners for the Reduction of the National Debt (CRND) are responsible, in accordance with Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992, amended by paragraph 44(3) of Schedule 3 to the Social Security Contributions (Transfer of Funds, etc.) (Northern Ireland) Order 1999, for the investment of the Northern Ireland National Insurance Fund Investment Account (NINIFIA). They are authorised to invest in accordance with directions given by HM Treasury and in line with the Memorandum of Understanding between HMRC and CRND.

Under the Social Security Administration (Northern Ireland) Act 1992, benefits due under the National Insurance scheme are payable out of the NIF. The funds required for meeting the cost of these benefits are mainly provided

¹ For full text, please see: <https://www.gov.uk/government/publications/managing-public-money>

from NICs paid by employed earners, their employers and the self-employed. The Social Security Contributions and Benefits (Northern Ireland) Act 1992 sets out the conditions governing entitlement to most benefits and the basis for assessing liability to pay NICs.

In accordance with Section 88(3) of the Northern Ireland Act 1998, arrangements are made, in consultation with the Government Actuary, to make transfers between the Great Britain and Northern Ireland NIFs in order to maintain parity of balances. The Joint Authority has agreed that as far as possible the relative balances in the Great Britain and Northern Ireland Funds should reflect the relative populations aged 16 and over as shown in the latest Office for National Statistics (ONS) population estimates. This means that currently the Northern Ireland balance is intended to be maintained at 2.77% of the joint balances of the two Funds. The system of parity payments acts as a safeguard against serious imbalances between the Great Britain and Northern Ireland Funds.

In addition to this, the Social Security Act 1993 allows for money provided by Parliament to be paid into the NIF via a Treasury Grant, if HM Treasury considers it expedient to do so. Current practice is to aim to maintain the level of the Fund at a working balance of at least 1/6th (16.7%) of projected annual benefit expenditure.

The amounts received into, and paid out of, the NIF and the resulting balance on the Fund depend on legislation, which is the responsibility of HM Treasury Ministers and the Minister for the Department for Communities. In setting contribution rates, HM Treasury Ministers are required to consider changes in the general level of earnings, the balance on the Fund and payments expected to be made from it in the future (Sections 129, 130 and 131 of the Social Security Administration (Northern Ireland) Act 1992). In addition, both demographic and economic changes can affect amounts received and paid out and therefore the overall balance on the Fund.

On 7 September 2021 the UK Government announced its intention to introduce, at the earliest opportunity, a new measure to increase funds for health and social care. The Health and Social Care Levy Act 2021 received Royal Assent on 20 October 2021. It provides for a temporary 1.25 percentage point increase to both the main and additional rates of Class 1, Class 1A, Class 1B and Class 4 NICs for the 2022 to 2023 tax year and a corresponding increase in the NHS allocation to ensure that revenue raised will go to the NHS in England and equivalent in Scotland, Wales and Northern Ireland. Since NICs receipts are paid into the NIF after the amounts paid to the NHS are deducted, the additional funding will not be included in the NIF accounts. From April 2023 onwards, the NICs rates will revert to 2021 to 2022 tax year levels and will be replaced by a new 1.25% Health and Social Care Levy where the revenue will go to those responsible for health and social care in England and the devolved administrations, including NHS Scotland, NHS Wales and Health and Social Care (HSC) in Northern Ireland.

4. Operational responsibilities

HMRC is responsible for collecting NICs and recording them against individuals' contribution records which determine entitlement to social security benefits payable from the NIF. As Accounting Officer for the NIF, I am responsible for the control and management of the Fund.

The Department for Communities (DfC) has overall responsibility for the award and payment of most benefits payable from the NIF, including those relating to retirement, bereavement, contribution-based Jobseeker's Allowance and contributory Employment and Support Allowance. Entitlement to benefit is determined by the claimant satisfying qualifying conditions. For Statutory Maternity Pay, Statutory Adoption Pay, Statutory Paternity Pay and Statutory Shared Parental Pay employers reduce the amount of NICs paid to HMRC by the amounts of these benefits that they are able to recover. Subsequently, DfC pays over to HMRC an amount to compensate the NIF for this shortfall in contributions, as estimated by the Government Actuary.

The Department for the Economy (DfE) is responsible for making Redundancy Payment Scheme awards. The Northern Ireland Shared Services Centre handles the payment of awards and collection of receipts.

5. Financial performance

The National Insurance scheme is financed on a pay as you go basis with contribution rates set at a level broadly necessary to meet the expected benefits expenditure in that year, after taking into account any other payments and receipts, and to maintain a working balance. Changes in contribution levels, in response to the needs of the Fund, take time to implement, therefore a working balance is necessary as the NIF has no borrowing powers. The NIF is obligated under legislation to fund any future identified underpayments or overpayments. This would include providing funds to satisfy provisions as they are settled in Government departments that administer payments on behalf of the Fund.

In February 2020, the Government Actuary estimated the minimum working balance in 2020 to 2021 to be £479.5 million, being 16.7% of estimated benefit expenditure. The balance on the Fund at 31 March 2021 was £1.2 billion and was above the estimated minimum requirement throughout the year. No Treasury Grant was therefore required in 2020 to 2021.

The Government Actuary has projected an increase in the balance of the Fund in the year ended 31 March 2022 and has indicated that no Treasury Grant will be required in that year. However, as a contingency, under article 4(3) of the Social Security (Northern Ireland) Order 1993 (S.I. 1993/592 (N.I.2)), HM Treasury Ministers have made provision for a Treasury Grant of up to 17% of estimated benefit payments. This equates to a provisional facility of £448.0 million.

The financial performance of the Fund has required close monitoring since March 2020 to assess the impacts of COVID-19 on the Fund balance in 2020 to 2021 (see section 4, page 10).

6. Auditors

The Comptroller and Auditor General is required under Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992 to examine and certify the NIF Account and to lay copies of it, together with his report, before Parliament.

So far as I am aware, there is no relevant audit information of which the auditors are unaware. I have taken all steps that I ought to have taken to make myself aware of any relevant audit information and to establish that the auditors are aware of that information.

The audit fee for 2020 to 2021 was £21,000 and will be included in the 2021 to 2022 Account.

7. Accounting Officer's responsibilities

As Chief Executive and First Permanent Secretary of HMRC, I am the Accounting Officer for the NIF, appointed by HM Treasury with effect from 29 October 2019. As Accounting Officer for the NIF I am responsible for:

- maintaining proper accounting records;
- ensuring such internal controls are in place as deemed necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error;

-
- preparing financial statements, which properly present, in accordance with the Social Security Administration (Northern Ireland) Act 1992 and with directions made by HM Treasury;
 - preparing the Foreword, in accordance with the Social Security Administration (Northern Ireland) Act 1992 and with directions made by HM Treasury; and
 - ensuring that an appropriate system of internal control is in place to ensure that the expenditure and income presented in the financial statements have been applied to the purposes intended by Parliament and that the financial transactions conform to the authorities which govern them.

As Accounting Officer I am also responsible for ensuring compliance with HM Treasury's Managing Public Money, safeguarding the assets of the Funds and for the prevention and detection of fraud, error and non-compliance with law or regulations.

In preparing this account, I am required to ensure suitable accounting policies have been applied on a consistent basis and that judgements and estimates have been made on a reasonable basis. Many of the activities relating to the transactions of the NIF are carried out by other departments (e.g. DfC and DfE) and agencies and I receive letters of assurance from them as detailed in section 3 of the Governance Statement on pages 9 and 10.

As Accounting Officer, I confirm this account is fair, balanced and understandable. I take personal responsibility for this account and the judgements required for determining that it is fair, balanced and understandable.

Jim Harra

Accounting Officer

9 December 2021

Northern Ireland Governance Statement

1. Purpose of the Northern Ireland Governance Statement

This Governance Statement sets out the governance and risk management arrangements for the NIF. It applies to the financial year 1 April 2020 to 31 March 2021 and up to the date of signing of the NIF Account.

2. Scope of responsibility

As Accounting Officer for the NIF, I have responsibility for ensuring risks are effectively managed across HMRC and safeguarding the public funds and departmental assets for which I am personally responsible, in accordance with the responsibilities assigned to me in *Managing Public Money*. Risk management operates at all levels in HMRC, from operational decision making on individual cases, through to strategic level risks identified in our Departmental Risks and Issues Register.

While HMRC has overall responsibility for the control and management of the Fund (which includes allocation of funds to other departments with NIF responsibilities and the collection of NICs), DfC is responsible for the control and management of benefit payments. DfE is responsible for the control and management of Redundancy Payments Scheme awards covered by the Fund, with the payment of these awards and collection of receipts facilitated through the use of the Northern Ireland Shared Services Centre.

I receive letters of assurance from the Accounting Officers of DfC and DfE, which refer to their governance arrangements and highlight any significant risks that may impact on the control and management of their NIF related activities. Governance arrangements are outlined in their Governance Statements and published within their accounts.²

Specific work undertaken on behalf of the NIF forms only a small part of the whole work of HMRC. HMRC has produced a full Governance Statement setting out details of its compliance with the Corporate Governance in Central Government Departments: Code of Good Practice; the role of the Board and committees within HMRC, along with risks to HMRC's performance and how these have been managed. This includes disclosures relating to issues outside of the scope of work relating to the NIF. The Governance Statement is included in the published HMRC Annual Report and Accounts 2020 to 2021.³

Operational Excellence, a directorate of HMRC's Customer Services Group, has overall accountability for the control and management of the NICs processes. The Joint Management Board (JMB) is chaired by the Operational Excellence Business Delivery lead for NICs, Pay As You Earn (PAYE) and Self Assessment (SA) processes. It provides an escalation route and forum where process matters including risks and issues can be discussed by a wider HMRC stakeholder group, that includes the Deputy Director of NICs Policy, Student Finance and Tax-Free Childcare.

The National Insurance Fund Accounting Board (NIFAB), chaired by HMRC's Head of External Reporting and Analysis (Tax), provides a forum and network for key stakeholders, including from HMRC, DfC and DfE, to work collaboratively to drive NIF policy, strategy, planning, risk management and change, and to monitor effective Fund administration.

Both the JMB and NIFAB sit below and help support the Board and committee structures described in the HMRC Annual Report and Accounts for 2020 to 2021.

³ https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/1031360/HMRC_Annual_Report_and_Accounts_2020_to_2021_Web.pdf

3. Risks to the NIF and how these are managed

Control and management of NIF risks are consistent with the over-arching Governance Statements published in the respective 2020 to 2021 Annual Report and Accounts for HMRC, DfC and DfE.

NIF specific risks are reported to, and managed throughout the year by, the NIFAB which has wide representation, including from HMRC, DfC and DfE. NIF specific risks are regularly reviewed at the NIFAB and no significant risks have been identified for 2020 to 2021.

Further assurances

DfC has provided a letter of assurance that has been approved by its Audit Committee containing details of its significant risks and the action it has taken to address these. I would like to draw attention to the following matters which are relevant to the NIF:

Underpayment of State Pension

DfC uses the Department for Work and Pensions (DWP) IT systems to administer State Pension. In some cases the system did not prompt a review of the State Pension amounts which led to potential underpayments. To rectify, from July 2020, DfC has worked closely with DWP to identify customers potentially underpaid State Pension. It formally commenced a correction exercise in January 2021 to rectify these cases, which is expected to be completed by mid-2022. Payments of arrears will be funded and accounted for by the NIF in the period in which DfC makes the payment. A provision has been made in DfC's 2020 to 2021 accounts for arrears repayments of £19.2 million.

Fraud and Error

COVID-19 restrictions meant that Universal Credit (not paid from the NIF) and State Pension (for official error only) were the only benefits measured for the financial year ending 2021, with other benefits having historical or proxy rates applied. As in previous years, the sampling exercise does not break down the error rate for contributory benefits (paid from NIF) separate to their equivalent non-contributory benefit (paid from DfC funding). However, underpayments and overpayments of benefit mainly impact means tested benefits which are not paid from the NIF.

Although the Northern Ireland Comptroller and Auditor General has qualified his opinion on the regularity of benefit expenditure administered by DfC due to the levels of fraud and error, State Pension is excluded from the qualification. This exclusion, and the generally lower rates of fraud and error found in contributory benefits paid for by the NIF, leads me to agree with DfC that this issue is not a significant risk to the NIF. Additional fraud and error information is provided on pages 27 to 29 and a summary of the DfC position for reducing the overall level of fraud and error can be found in their Annual Reports & Accounts (AR&A).

Work undertaken on behalf of the NIF forms part of the complete range of DfC social security benefit delivery services. For the 2020 to 2021 financial year DfC produced a full Governance Statement setting out details of its compliance with *Corporate Governance in Central Government Departments: Code of Good Practice (Northern Ireland) 2013*, the role of the management board and committees within DfC along with risks to DfC performance and how these have been managed. This includes disclosures relating to issues outside of the scope of work relating to the NIF. The Governance Statement is included in the published 2020 to 2021 DfC Annual Report and Accounts.

A letter of assurance has been received from DfE, that has been noted by its Audit Committee. The letter gives assurances that there are no significant risks or control problems that impact on the Northern Ireland NIF.

4. Impact of COVID-19

The World Health Organization (WHO) announced the Coronavirus (COVID-19) pandemic on 11 March 2020. Since then the impact of COVID-19 on the NIF has been closely monitored and managed by the NIFAB which met more frequently in the period after lockdown in March 2020 until reverting to quarterly meetings from April 2021. Although some staff normally applied to the administration of the NIF were temporarily re-directed to deliver urgent COVID-19 measures, this did not result in any new significant risks to the NIF.

Since April 2020, the balance of funds held in the NIF have been lower than anticipated prior to COVID-19 due to a reduction in NICs receipts and, to a lesser extent, an increase in benefit payments. However, the Fund balance has remained above the minimum required and incrementally grown to its pre-COVID level by April 2021. The introduction of the Coronavirus Job Retention Scheme grants in March 2020 have aided this recovery. The Fund balance is monitored regularly and forward projection of the balance, based on published Office for Budget Responsibility (OBR) scenarios, is shared with HM Treasury.

In March 2020, as a response to the pandemic, DfC took the decision to streamline its benefit checks to ensure that people could make a claim quickly and safely as part of the 'Trust and Protect' principle. The easements did increase the inherent risk of fraud and error in benefit payments. The Benefit Security Division within DfC worked closely with Universal Credit Operations throughout the pandemic to build new safeguards and strengthen processes to enhance verification and intercept the payment of claims or elements of claims that were in doubt. The department also liaised closely with DWP to identify high risk claims opened during the initial weeks of the pandemic and take corrective action where appropriate. In addition, DfC revisited claims made during the period of the easements and re-applied the verification standards that would have been applied had it not been for COVID-19. The increased risk of fraud and error mainly impacted non-contributory benefits which are not paid from the NIF.

5. Review of effectiveness

A number of specific sources inform and contribute to my review of effectiveness including:

- Individual statements from members of HMRC's Executive Committee (ExCom) outlining the governance, risk and control arrangements in their business area
- Formal assurance I receive from the Data Protection Officer (DPO) that information risk has been appropriately managed in the conduct of HMRC business
- The review that underpins the production of the NIF Governance Statements including letters of assurance from DfC and DfE
- The Director of Internal Audit's annual opinion
- Any matters raised by NAO as a result of their audit work, including wider HMRC observations relevant to the assessment and collection of NICs.

Taking all of these into account, I am confident that the risks related to NIF are being identified and actively managed.

6. Conclusion

Based on the review I have outlined above, I conclude that there is an effective system of governance, risk management and internal control that supports the Fund's aims and objectives.

Jim Harra
Accounting Officer
9 December 2021

The Certificate and Report of the Comptroller and Auditor General to the Houses of Parliament

Opinion on financial statements

I certify that I have audited the financial statements of the Northern Ireland National Insurance Fund for the year ended 31 March 2021 under the Social Security Administration (Northern Ireland) Act 1992. The financial statements comprise: the Receipts and Payments Account, including Statement of Balances, and the related notes. These financial statements have been prepared under the accounting policies set out within them. The financial reporting framework that has been applied in their preparation is applicable law, the Social Security Administration (Northern Ireland) Act 1992 and the direction issued by HM Treasury thereunder.

In my opinion:

- the financial statements properly present the affairs of the Northern Ireland National Insurance Fund as at 31 March 2021 and the receipts and payments for the year ended; and
- the financial statements have been properly prepared in all material respects, in accordance with the Social Security Administration (Northern Ireland) Act 1992 and HM Treasury directions issued thereunder.

Opinion on regularity

In my opinion, in all material respects the receipts and payments recorded in the financial statements have been applied to the purposes intended by Parliament and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Basis of opinions

I conducted my audit in accordance with International Standards on Auditing (ISAs) (UK), applicable law and Practice Note 10 'Audit of Financial Statements of Public Sector Entities in the United Kingdom'. My responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of my certificate.

Those standards require me and my staff to comply with the Financial Reporting Council's Revised Ethical Standard 2019. I have also elected to apply the ethical standards relevant to listed entities. I am independent of the Northern Ireland National Insurance Fund and HMRC in accordance with the ethical requirements that are relevant to my audit and the financial statements in the UK. My staff and I have fulfilled our other ethical responsibilities in accordance with these requirements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Conclusions relating to going concern

In auditing the financial statements, I have concluded that the Northern Ireland National Insurance Fund's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work I have performed, I have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Northern Ireland National Insurance Fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

My responsibilities and the responsibilities of the Accounting Officer with respect to going concern are described in the relevant sections of this certificate.

Other information

The other information comprises information included in the Accounting Officer's Foreword, Governance Statement and Other Financial Information, other than the financial statements and my auditor's report thereon. The Accounting Officer is responsible for the other information. My opinion on the financial statements does not cover the other information and except to the extent otherwise explicitly stated in my certificate, I do not express any form of assurance conclusion thereon. In connection with my audit of the financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit or otherwise appears to be materially misstated. If I identify such material inconsistencies or apparent material misstatements, I am required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work I have performed, I conclude that there is a material misstatement of this other information, I am required to report that fact.

I have nothing to report in this regard.

Opinion on other matters

In my opinion: the information given in the Accounting Officer's Foreword, Governance Statement and Other Financial Information for the financial year for which the financial statements are prepared is consistent with the financial statements and have been prepared in accordance with the applicable legal requirements.

Matters on which I report by exception

In the light of the knowledge and understanding of the Northern Ireland National Insurance Fund and its environment obtained in the course of the audit, I have not identified material misstatements in the Accounting Officer's Foreword or in Other Financial Information. I have nothing to report in respect of the following matters which I report to you if, in my opinion:

- adequate accounting records have not been kept or returns adequate for my audit have not been received from third parties; or
- the financial statements are not in agreement with the accounting records and returns; or
- I have not received all of the information and explanations I require for my audit; or
- that management's use of the going concern basis of accounting is appropriate and whether a material uncertainty exists related to events or conditions which may cause doubt on the Northern Ireland National Insurance Fund's ability to continue as a going concern for a period of at least 12 months from the date of the approval of the financial statements; or
- the Governance Statement does not reflect compliance with HM Treasury's guidance.

Responsibilities of the Accounting Officer for the financial statements

As explained more fully in the Accounting Officer's Responsibilities, the Accounting Officer is responsible for:

- maintaining proper accounting records;
- internal controls as the Accounting Officer determines is necessary are in place to enable the preparation of financial statement to be free from material misstatement, whether due to fraud or error;
- the preparation of the financial statements in accordance with the applicable financial reporting framework and for being satisfied that they are properly presented; and
- ensuring the Accounting Officer's Foreword has been properly prepared in accordance with the applicable reporting framework.

Auditor's responsibilities for the audit of the financial statements

My responsibility is to audit, certify and report on the financial statements in accordance with the Social Security Administration (Northern Ireland) Act 1992.

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a certificate that includes my opinion.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

I design procedures in line with my responsibilities, outlined above, to detect material misstatements in respect of non-compliance with laws and regulation, including fraud.

My procedures included the following:

- Inquiring of management, the Northern Ireland National Insurance Fund's head of internal audit and those charged with governance, including obtaining and reviewing supporting documentation relating to the Northern Ireland National Insurance Fund's policies and procedures relating to:
 - identifying, evaluating, and complying with laws and regulations and whether they were aware of any instances of non-compliance;
 - detecting and responding to the risks of fraud and whether they have knowledge of any actual, suspected or alleged fraud; and
 - the internal controls established to mitigate risks related to fraud or non-compliance with laws and regulations including the Northern Ireland National Insurance Fund's controls relating to the Social Security Administration (Northern Ireland) Act 1992 and Managing Public Money.
- discussing among the engagement team how and where fraud might occur in the financial statements and any potential indicators of fraud. As part of this discussion, I identified potential for fraud in the following areas: revenue recognition, posting of unusual journals and benefit expenditure.

- obtaining an understanding of the Northern Ireland National Insurance Fund's framework of authority as well as other legal and regulatory frameworks that the Northern Ireland National Insurance Fund operates in, focusing on those laws and regulations that had a direct effect on the financial statements or that had a fundamental effect on the operations of the Northern Ireland National Insurance Fund. The key laws and regulations I considered in this context included the Social Security Administration (Northern Ireland) Act 1992, Managing Public Money and relevant benefits and pensions legislation.

In addition to the above, my procedures to respond to identified risks included the following:

- reviewing the financial statement disclosures and testing to supporting documentation to assess compliance with relevant laws and regulations discussed above;
- reading minutes of meetings of those charged with governance and the Board;
- in addressing the risk of fraud through management override of controls, testing the appropriateness of journal entries and other adjustments; assessing whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business; and
- seeking assurance from my audits of the Department for the Economy Resource Account and the Department for Communities Resource Account on the regularity of benefit payments and the level of fraud and error, and HM Revenue & Customs Trust Statement on the receipt of national insurance contributions.

I also communicated relevant identified laws and regulations and potential fraud risks to all engagement team members including internal specialists and remained alert to any indications of fraud or non-compliance with laws and regulations throughout the audit.

A further description of my responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of my certificate.

In addition, I am required to obtain evidence sufficient to give reasonable assurance that the receipts and payments reported in the financial statements have been applied to the purposes intended by Parliament and the financial transactions conform to the authorities which govern them.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

Report

I have no observations to make on these financial statements.

Accounting Officer

9 December 2021

The notes on pages 17 to 26 form part of these accounts.

Notes to the Account

Notes to the account provide additional information and accounting conventions to explain a particular feature of the financial statements. The notes which follow will also provide explanations and additional disclosure to assist readers' understanding and interpretation of the financial statements.

1. Statement of accounting policies

1.1 Basis of preparation of the Account

This Account has been prepared in accordance with Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992. It has been prepared on a receipts and payments basis and in a form directed by HM Treasury shown on page 30 of this Account and the policies outlined below.

1.2 Net accounting

NICs, State Scheme Premiums, personal pensions and benefit payments are all shown net of refunds or recoveries.

An allocation for the NHS is paid over by HMRC before the contributions are paid into the NIF and therefore the NICs are shown net of the NHS element (see note 2 for further details).

1.3 Receipts recognition

NICs

The Account shows those contributions received by HMRC during the year. Contributions are recognised in the accounting period in which they are allocated and measured at the cash amount.

The contributions are collected and administered on a UK wide basis for Great Britain and Northern Ireland and HMRC is required to allocate the total contributions between the two Funds. A scan of the National Insurance and Pay as You Earn Service (NPS) is used to extract postcode data of taxpayers to estimate the ratio of individuals living in each territory who have made NICs. HMRC then applies this ratio, to the nearest percentage point, to the UK wide receipts figures to split the contributions between the two Funds. A particular split is applied to Class 4 receipts using an analysis of postcodes relating to Class 4 liabilities.

The amounts received are after recoveries by employers of amounts due in respect of any statutory maternity, adoption, paternity and shared parental payments made to their employees and after deduction of contributions allocated to the NHS.

Employers are responsible for calculating their own and their employees' contributions. National Insurance records are subject to examination by HMRC. These checks and other checks on contributors may result in additional receipts or repayments in future years in respect of contribution liabilities for 2020 to 2021.

Class 1 NICs

Almost all amounts received in respect of Class 1 NICs are captured via the monthly PAYE process by the Real Time Information (RTI) system. There is a small degree of estimation involved in this process due to late or missing submissions and for receipts relating to prior periods where the split between Income Tax and NICs cannot be identified.

Class 1A and 1B NICs

All amounts received in respect of Class 1A and 1B NICs are recorded on the Enterprise Tax Management Platform (ETMP) and are separately identifiable.

Class 2 and Class 4 NICs

Class 2 and Class 4 NICs are mostly collected via Self Assessment (SA). The collection of SA receipts for Income Tax, Class 2 and Class 4 NICs involves long time lags. Receipts in any one year will relate to payments on account for that year and the settlement of liabilities for previous years. SA receipts are allocated between Income Tax, Class 2 and Class 4 NICs, and Capital Gains Tax using estimates based on an annual analysis of individuals' records in the SA system.

Transfers from Great Britain NIF

To ensure the balance of the Northern Ireland and Great Britain Funds reflect, as far as practicable, the relative sizes of the populations aged 16 and over, regular transfers are made between the Great Britain and Northern Ireland Fund. The parity payments are based on estimates by the Government Actuary using the latest population data published by ONS and are recognised in the accounting period when they are received (see note 3 for further details).

Compensation for statutory pay recoveries

Compensation payments for employer recoveries of Statutory Maternity Pay, Statutory Paternity Pay, Statutory Shared Parental Pay and Statutory Adoption Pay are estimated by the Government Actuary's Department (GAD) and recognised in the NIF when those payments are received from DfC (see note 4 for further details). GAD estimates are adjusted on an annual rolling cycle once the actual amounts recovered are available after the financial year has ended.

NICs received outside of the RTI PAYE and SA processes

A small amount of NICs, mostly Class 3 voluntary contributions, are received each year outside of the RTI PAYE and SA processes. The class breakdown for these cash receipts is estimated using a scan of records held on NPS.

1.4 Payments recognition

Benefit payments

DfC administers a range of contribution based benefit payments, financed from the NIF. HMRC administers payment of the Guardian's Allowance. The payment of these benefits is recognised in the NIF Account in the accounting period in which the benefit is paid to the claimant by the administering department.

Administrative costs

The costs related to services provided to the NIF are recognised on the date the amount leaves the HMRC bank account. The costs are reimbursed by the NIF.

Redundancy payments

DfE administers Redundancy Payment Scheme awards financed from the NIF. The payment of these awards is recognised in the NIF Account in the accounting period in which the award is paid by the administering department.

2. National Insurance Contributions

For the year ended 31 March		2021	2020
Contributions – estimated breakdown by class	Notes	£000	£000
Class 1 (employed earners)	i	2,173,718	2,160,923
Class 1A	ii	28,210	23,449
Class 1B	ii	2,370	2,448
Class 2 (self-employed flat rate)	iii	9,051	8,384
Class 3 (voluntary contributions)	iv	2,741	3,431
Class 4 (self-employed earnings related)	v	68,047	59,943
		2,284,137	2,258,578

Different groups of people pay different classes of contributions. These can be summarised as follows:

- i **Class 1 contributions** comprise two parts: primary contributions payable by employees which are approximately 40% of the total Class 1 figure, and secondary contributions payable by employers, which are approximately 60%.
- ii **Class 1A contributions** are paid by employers on most benefits provided to employees. In addition, from 6 April 2020 Class 1A NICs is also payable on certain termination awards paid to employees that exceed £30,000 per annum and on sporting testimonial awards exceeding £100,000 made by third parties. Employers pay Class 1A contributions to HMRC via the PAYE scheme with their Class 1 contributions.

Class 1B contributions are paid by employers where they have entered into a PAYE settlement agreement for tax enabling them to settle their National Insurance and Income Tax liability in a lump sum after the end of the tax year.
- iii **Class 2** self-employed persons paying flat rate weekly contributions.
- iv **Class 3** voluntary flat rate contributions are paid to maintain contributors' National Insurance records for certain benefit and/or pension purposes.
- v **Class 4** self-employed persons paying earnings related contributions.

NHS allocation

The NHS allocation is paid over by HMRC to the NHS before any contributions are paid into the Northern Ireland NIF and so the figures shown are net of this NHS allocation. The NHS allocation was £559 million in 2020 to 2021

(£565 million in 2019 to 2020) and forms part of the total NHS funding. A payment of £1,431,935.16 due to be paid to the NHS in March 2020 was paid in April 2020.

The NHS allocation is based on the Government Actuary's estimates for the year ended 31 March 2021 made in December 2020. The allocation is estimated in accordance with the requirements set out in Section 142 of the Social Security Administration (Northern Ireland) Act 1992.

3. Transfers from Great Britain NIF

For the year ended 31 March	2021 £000	2020 £000
Payments from Great Britain NIF	664,000	564,400

The amount shown in this account is in respect of financial adjustments made between the Northern Ireland NIF and the Great Britain NIF in accordance with Section 88(3) of the Northern Ireland Act 1998. Transfers between the Great Britain and Northern Ireland NIF are made so that, as far as practicable, the balance in the Northern Ireland Fund is maintained at 2.77% of the joint balance of the two Funds. This percentage split is based on the relative proportions of population aged 16 and over as shown in the most recent data published by ONS.

Payments are made on a provisional basis and are adjusted when end of year balances in the two Funds are available. The transfer is based on the Fund balances for Great Britain and Northern Ireland which themselves are based on the differences between the levels of receipts and payments and therefore the results are subject to considerable variability year on year. This system of parity payments acts as a final safeguard against serious imbalances between the two NIF Funds.

4. Compensation for statutory pay recoveries

For the year ended 31 March	Notes	2021 £000	2020 £000
Statutory Maternity Pay	i	83,500	112,200
Statutory Adoption Pay, Statutory Paternity Pay and Statutory Shared Parental Pay	ii	2,100	1,800
		85,600	114,000

The Government compensates the NIF for loss of revenue due to contribution receipts being reduced by employers recovering statutory maternity, adoption, paternity and shared parental pay. The compensation is drawn down from the Consolidated Fund and then paid over to the NIF by DfC as the NIF has no facility to do so. The amounts paid over are based on estimates produced by the Government Actuary in accordance with Section 1(5) of the Social Security Contributions and Benefit (Northern Ireland) Act 1992 using information on past recoveries taken from systems administered by HMRC.

- i Compensation for Statutory Maternity Pay recoveries is paid over by DfC.
- ii Compensation for Statutory Adoption Pay, Statutory Paternity Pay and Statutory Shared Parental Pay recoveries is paid over by DfC.

5. Income from investment account

For the year ended 31 March	2021 £000	2020 £000
Interest received	1,332	8,596

By virtue of SI 1978 No. 1839, surplus funds paid over to the NINIFIA may be invested by CRND in any manner specified in paragraphs 1, 2, 3, 8, 9 and 9A of Part II of Schedule 1 to the Trustee Investments Act 1961. In practice this means exposure is limited to UK Government or Government-guaranteed instruments and/or cash deposits.

In 2020 to 2021, as in the previous year, the NINIFIA was almost entirely invested in the Debt Management Account, which pays a rate equal to the Bank Rate on a daily accrual basis. Investments in the Debt Management Account allow instant access and capital guarantee, for purposes of liquidity and capital preservation - an investment approach deemed by HMRC and CRND as best suited to the needs and risk appetite of the Fund. A very small portion of the NINIFIA (typically less than £1 thousand per day) is retained in a Ways & Means Account with the National Loans Fund.

Both the National Loans Fund and the Debt Management Account are Exchequer Funds, which are owned by HM Treasury, and carry the full guarantee of the UK Government.

The interest is received by the NIF in the month following that in which it is earned. In 2019 to 2020 the base rate changed from 0.75% to 0.1% over the course of the year but for the financial year 2020 to 2021 the rate remained at 0.1%, resulting in less interest received compared to the prior year.

The interest received on the Fund surplus is also placed on deposit with the NINIFIA.

The value of the monies held in the NINIFIA at 31 March 2021 increased to £1.2 billion (£1.1 billion at 31 March 2020) (see note 12 for details).

6. Redundancy payments and receipts

For the year ended 31 March	Notes	2021 £000	2020 £000
Redundancy payments	i	6,485	16,929
Redundancy receipts	ii	(674)	(416)
		5,811	16,513

DfE administers the Redundancy Payments Scheme under the provisions of the Employment Rights (Northern Ireland) Order 1996.

The scheme ensures that employees who have been made redundant receive their statutory redundancy entitlement where their employers are unable to make such payments, usually because of insolvency. In doing so, the scheme also protects the taxpayers' interests by ensuring that it does not make payments which can and should be made by the employers themselves.

- i Redundancy payments made from the Northern Ireland NIF to employees whose employers have failed to meet their statutory responsibilities.
- ii The receipts represent amounts recovered from employers.

7. State Scheme Premiums

For the year ended 31 March	2021 £000	2020 £000
State Scheme Premiums	44	349

State Scheme Premiums are payable to the Fund in respect of employed persons who cease to be covered, in certain specified circumstances, by contracted-out pension schemes. The premiums buy back the persons' additional pension entitlement in the Additional State Pension scheme.

Although the system of contracting out ended in April 2016, Contributions Equivalent Premiums (CEPs) continued to be payable until April 2019. In addition, a contracted-out scheme reconciliation exercise was carried out within HMRC with tax bills being generated and also some refunds sent out where appropriate, the residual effect of this resulting in small transactions.

8. Other receipts

For the year ended 31 March	2021 £000	2020 £000
Personal pensions receipts	25	76

The Pension Scheme Act 1993, supplemented by the Pensions Act 1995, entitled employed earners with a personal pension to a "minimum contribution" to their plan from the NIF. In April 2012, all contracted-out defined contribution (DC) based schemes were abolished and any other contracted-out defined benefit (DB) based schemes came to an end in April 2016 resulting in the reduction of contributory entitlement.

Although all contracting-out schemes have ended, there are still queries being dealt with which has resulted in a small amount of receipts being received.

9. Benefit payments

For the year ended 31 March	Notes	2021 £000	2020 £000
State Pension	i	2,465,349	2,407,987
Employment & Support Allowance (contributory)	ii	344,231	339,635
Bereavement benefits	iii	15,292	15,886
Maternity Allowance	iv	11,380	12,340
Jobseeker's Allowance (contributory)	v	10,230	4,891
Christmas Bonus	vi	3,486	3,503
Guardian's Allowance	vii	61	69
Incapacity Benefit	viii	(373)	(531)
		2,849,656	2,783,780

i The State Pension age is in the process of increasing:

- Women's State Pension age reached 65 in November 2018
- The State Pension age for both men and women increased to 66 in October 2020.
- Under the Pensions Act 2014 the State Pension age for men and women will increase incrementally from 66 to 67 between 2026 and 2028
- Under the Pensions Act 2007 the State Pension age for men and women will increase from 67 to 68 between 2044 and 2046

The Pensions Act (Northern Ireland) 2015 was introduced on 23 June 2015. The Act makes provision for Northern Ireland corresponding to the Westminster Pensions Act 2014. State Pension is for people who have reached state pension age and is based on NICs paid, treated as paid or credited. The State Pension scheme of basic and Additional State Pension was replaced by the State Pension for people reaching state pension age on 6 April 2016.

ii As part of the Government's welfare reform programme, from 27 October 2008, Northern Ireland Social Security Agency (now part of DfC) introduced a new benefit, Employment and Support Allowance (ESA). The benefit was introduced to improve employment opportunities for those with a health condition or disability which limits their capacity for work. It is payable to claimants who have paid NICs and makes no payments to partners or dependants. From April 2011, Northern Ireland Social Security Agency began a reassessment of Incapacity Benefit cases in Northern Ireland. The reassessment exercise was completed in Autumn 2014. As a result, only a small number of Incapacity Benefit claims are still in payment and will be dealt with on a business as usual basis. (See also note viii below). From November 2016 Contributory ESA for those in the work-related activity group has been limited to 52 weeks. This does not apply to people placed in the support group or to those receiving income-related ESA which is payable by DfC.

The Employment and Support Allowance Regulations (Northern Ireland) 2016 make provision for a new style of ESA, which consists of a contributory element only and thus can be paid alongside Universal Credit. The rules for contributory entitlement are carried forward largely unchanged, but the regulations do make provision for new conditionality and sanctions regimes in the benefit, so they are aligned with those for Universal Credit.

- iii Bereavement benefits consist of Bereavement Support; Bereavement Allowance, which is a regular payment for 52 weeks; Bereavement Payment, which is a lump sum payment and Widowed Parent's Allowance which is a regular payment while the customer has dependant children for whom they receive (or could receive) Child Benefit.

Bereavement Support was introduced April 2017 and will eventually replace the other bereavement benefits by combining lump sums and regular payments into one benefit. Bereavement Support is payable for 18 months and there are two rates of lump sum and weekly payments dependent on whether the customer has a dependant child for whom they receive (or could receive) Child Benefit.

For those already in receipt of Bereavement Allowance or Widowed Parent's Allowance payments will continue to their natural conclusion but all new claims since 6th April 2017 are made as Bereavement Support.

These benefits are based on the NICs paid by the deceased spouse.

A new Statutory Parental Bereavement Pay (SPBP) which came into effect in Great Britain in April 2020 has not as yet been legislated in Northern Ireland.

- iv Maternity Allowance is paid for up to 39 weeks at a standard weekly rate, dependent upon earnings, to a person who cannot get Statutory Maternity Pay. It is payable from a maximum of 11 weeks before the expected week of childbirth and is subject to qualifying conditions.
- v Contributory Jobseeker's Allowance (JSA) is payable to people who are capable of working, available for work and actively seeking work, who have paid or are treated as having paid a certain number of NICs. It is payable for 182 days and no additional benefit is payable for dependants.

The Jobseeker's Allowance Regulations (Northern Ireland) 2016 make provision for a new style of JSA, which consists of a contributory element only and thus can be paid alongside Universal Credit. The rules for contributory entitlement are carried forward largely unchanged, but the regulations do make provision for new conditionality and sanctions regimes in the benefit, so they are aligned with those for Universal Credit.

- vi Christmas Bonus is a tax-free payment of £10 paid to people in receipt of a qualifying benefit during the relevant week, normally the first full week in December.
- vii Guardian's Allowance, administered by HMRC, is payable to people bringing up a child because one or both of the parents has died.
- viii Incapacity Benefit is paid at three different rates, dependent on age and term of incapacity, to a person who has paid NICs and whose Statutory Sick Pay has ended or is not applicable. It has been replaced by ESA (see note ii) for new claims from October 2008. The value of claimants paying back overpayments exceeded the value of the small number of existing claims.

For administrative convenience, as well as paying Great Britain pensioners living abroad, Department of Work and Pensions (DWP) pays State Pension and bereavement benefits on behalf of Northern Ireland pensioners living abroad. The cost for these NI overseas NIF payments are charged back to DfC and the Northern Ireland NIF monthly, so the cost is borne by Northern Ireland NIF.

The total overseas NIF spend for NI 2020 to 2021 was £93,000 (£73,000 for 2019 to 2020) predominantly for State Pension.

For details of fraud and error in benefit payments please refer to Other financial information, section b.

10. Administrative costs

For the year ended 31 March	Notes	2021 £000	2020 £000
Department for Communities	i	14,051	14,408
HM Revenue & Customs	ii	4,042	4,526
Department for the Economy	iii	673	608
Department of Finance	iv	593	529
Commissioners for the Reduction of the National Debt	v	54	55
Government Actuary's Department	vi	25	24
National Audit Office - audit fees	vii	21	21
		19,459	20,171

Administration costs relate to services directly provided to the Northern Ireland NIF and are reimbursed to the respective service provider from the Northern Ireland NIF. The costs were agreed at the start of the year and monitored on a regular basis. There is a previous year adjustment in GAD's administration costs.

- i For administration costs relating to the award and payment of contributory benefits on behalf of the Fund.
- ii For the collection of NICs, maintenance of individual records and associated tasks.
- iii For the administration costs carrying out its obligation in dealing with redundancies and insolvency applications as required under the Employment Rights (Northern Ireland) Order 1996.
- iv For certain services provided to Northern Ireland departments such as central accommodation services, payroll and telecom network services.
- v For investment services provided by CRND in pursuance of Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992.
- vi For actuarial services relating to the NIF. The figure for 2020 to 2021 includes £4,000 for charges in relation to previous years.
- vii For the audit of the 2019 to 2020 NIF Account

11. Other payments

For the year ended 31 March	2021 £000	2020 £000
State Pension deferred lump sum tax payments	1,591	1,902

State Pension deferred lump sum is assessed as taxable income. Tax is deducted from State Pension deferred lump sum every time a payment is made to a customer and paid to HMRC monthly in arrears.

12. Closing balance

For the year ended 31 March	Notes	2021 £000	2020 £000
Monies held by the NIFIA	i	1,243,222	1,097,680
Funds held at bank (incl. uncleared payments)	ii	(70)	(36)
Due from other Government departments	iii	804	523
Due to other Government departments	iii	(7,945)	(20,777)
		1,236,011	1,077,390

- i CRND is responsible, in accordance with Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992, amended by paragraph 44(3) of Schedule 3 to the Social Security Contributions (Transfer of Funds, etc.) (Northern Ireland) Order 1999 for the investment of the NINIFIA. They are authorised to invest in accordance with directions given by HM Treasury and in line with the Memorandum of Understanding between HMRC and CRND.
- ii Although the funds held at bank are shown as negative, this is not an overdrawn position because the balance includes payments issued that have not yet been cashed.
- iii These figures represent any amounts owed to or from HMRC, the Great Britain NIF, DfC and DfE. They arise as there is a timing difference between what is paid to and from the NIF and what is recognised in the Accounts, which is based on the amounts paid out or received by the other Government departments.

Other financial information

Details of losses, payments and fraud and error are included below to provide further information on the Fund for the reader of the Accounts. Additional information can be found in the published AR&As for HMRC and DfC.

a. Losses

For the year ended 31 March	Notes	2021		2020	
		Amount £000	No. of cases (where available)	Amount £000	No. of cases (where available)
Contribution losses	i	6,924	–	7,501	–
Benefit losses	ii	2,262	4,845	2,614	7,710
Redundancy losses	iii	1,285	113	7,439	232
		10,471	4,958	17,554	7,942

- i Contribution losses include remissions and write-offs and insolvency debts. Remissions in respect of unpaid contributions are granted when HMRC has decided not to pursue the liability, for example on the grounds of value for money or official error. Write-offs occur when there is no practical means of pursuing the liability. The figures are the estimated value of losses attributable to the NIF.
- ii Benefit losses include customer fraud and administrative write-offs.
- iii Redundancy losses include payments made to individuals on behalf of insolvent companies, which ultimately prove irrecoverable. Debt is recovered from the sale of the assets of the insolvent company. A small part of the debt is preferential but most ranks with ordinary creditors. Therefore, most of the debt is irrecoverable.

b. Fraud and error in benefit payments

Background

The Social Security and Benefits (Northern Ireland) Act 1992 and related legislation sets out the basis on which the Department of Communities (DfC) calculates and pays benefits from the NIF. However, the complexity of the benefit systems and inherent risks associated with the award and payment of benefits can result in inaccurate payments being made in a proportion of the awards made.

Overall performance analysis

The estimated monetary amount of overpayments from the NIF due to fraud and error is £8.64 million in 2020 to 2021. This is equivalent to 0.30% of NIF benefit payments. The estimated monetary amount of underpayments is £17.69 million in 2020 to 2021. This is equivalent to 0.62% of NIF benefit payments.

In context, the total NIF funded benefit payments administered by DfC stands at £2,850 million (£61,000 relates to Guardian's Allowance administered by HMRC).

Figure 1: Estimated levels of overpayment and underpayment due to fraud and error.

Fraud/Error	Overpayment				Underpayment			
	£m		% of NIF Benefit Expenditure		£m		% of NIF Benefit Expenditure	
	2020-21	2019-20	2020-21	2019-20	2020-21	2019-20	2020-21	2019-20
Fraud	5.46	5.13	0.19%	0.18%	-	-	0.00%	0.00%
Error	3.18	3.13	0.11%	0.11%	17.69	17.34	0.62%	0.62%
Total	8.64	8.26	0.30%	0.30%	17.69	17.34	0.62%	0.62%

Figure 2: Estimated levels of overpayment and underpayment due to fraud and error by benefit

Benefit	Overpayment				Underpayment			
	£m		% of NIF Benefit Expenditure		£m		% of NIF Benefit Expenditure	
	2020-21	2019-20	2020-21	2019-20	2020-21	2019-20	2020-21	2019-20
State Pension	0.89	0.87	0.04%	0.04%	14.10	13.81	0.57%	0.57%
Widows/Bereavement Benefit	0.76	0.79	4.99%	4.99%	0.13	0.13	0.83%	0.83%
Contribution based Employment & Support Allowance/Incapacity	5.95	5.87	1.73%	1.73%	3.29	3.25	0.96%	0.96%
Contribution based Jobseeker's Allowance	0.62	0.30	6.11%	6.11%	0.06	0.03	0.63%	0.63%
Other Benefits	0.42	0.44	2.85%	2.86%	0.11	0.12	0.76%	0.78%
Total	8.64	8.26	0.30%	0.30%	17.69	17.34	0.62%	0.62%

Source: Northern Ireland DfC fraud and error estimates produced by DfC Benefit Security Risk Measurement and Analytics. Rows, columns and percentages may not sum due to rounding.

The above tables (figures 1 and 2) are based on the DfC estimates and are subject to a degree of statistical uncertainty. They are prepared to within a stated range of accuracy, described as confidence intervals. DfC has prepared the estimates to a 95% confidence level. DfC estimates that for 2020 to 2021 the levels of overpayment lie in the range of £1.5 million to £18.5 million (2019 to 2020: £4.7 million to £13.2 million); whilst the corresponding range of underpayments is from £4.9 million to £36.6 million (2019 to 2020: £5.8 million to £34.6 million).

Customer fraud and error estimates for 2020 to 2021 use proxy values for specific benefits.

For additional information relating to the estimated levels of over/underpayments due to fraud and error please refer to the 2020 to 2021 DfC Annual Report and Accounts.

DfC continuing action and strategy

The DfC administers a total benefit spend of £6.3 billion with approximately £2.9 billion relating to NI NIF benefits. Fraud and error occurs in a context where over 99% of expenditure of NIF funded benefits are paid correctly. This represents a high level of accuracy.

During the calendar year 2020 the Department's regular monitoring and measurement programme was disrupted by the Coronavirus pandemic. As a result, an amended programme focussing on the areas of highest risk and highest spend (i.e. Universal Credit Benefit Review and Financial Accuracy and a State Pension Financial Accuracy exercise) was carried out. Although the in-year measurement of some benefits was not possible the appropriate

historical or proxy measures have been substituted to provide full and comprehensive fraud and error estimates for the year⁴.

In 2020 to 2021, DfC has continued to apply proxy figures to Northern Ireland NIF benefits in line with the approach taken by the Department for Work and Pensions (DWP) in Great Britain. DfC seeks to continually refine its approach to measuring the levels of fraud and error in benefits in order to produce its best estimate.

Reduction of fraud and error has been a long-standing commitment at the core of DfC's business priorities. DfC has well developed mechanisms in place to tackle incorrectness and measure results, and its Fraud & Error Strategy is being refreshed to encompass Customer Fraud, Customer Error, Official Error, and Debt Recovery. Its focus is on the prevention, detection, and correction of fraud and error, with investigation and prosecution where appropriate. Current and proposed activities are designed to be proportionate, represent value for money, ensure timely benefit payments and deliver impacts on fraud and error. DfC also seeks to reduce customer mistakes by influencing customer behaviour to report changes promptly where failure to do so may lead to over and underpayments.

Accounts Direction given by HM Treasury in accordance with Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992

1. This direction applies to HM Revenue and Customs (“HMRC”).
2. HMRC shall prepare a statement of the transactions on the National Insurance Fund of Northern Ireland for the year ended 31 March 2016, and subsequent financial years, in compliance with all relevant accounts and disclosure requirements in Managing Public Money and any other guidance issued by HM Treasury which is in force for that financial year.
3. This statement shall be prepared so as to properly present the state of affairs for the year then ended and shall comprise:
 - a. a foreword which shall state that the account has been prepared in accordance with the direction issued by HM Treasury in pursuance of Section 141(2) of the Social Security Administration (Northern Ireland) Act 1992. The foreword will also include details of the following:
 - i statutory background;
 - ii operational responsibilities;
 - iii financial performance;
 - iv audit arrangements; and
 - v responsibilities of the Accounting Officer.
 - b. an account of receipts and payments conforming to the format shown in the Appendix.
 - c. a statement of balances conforming to the format shown in the Appendix.
 - d. such notes as may be necessary for the purpose referred to below:
 - i analysis of the payments and receipts including any explanation or background that may be necessary to understand the account;

-
- ii in the note on administrative costs, the estimated costs for the current year and the adjustments for previous years separately identified;
 - iii a statement of the securities in which the National Insurance Fund is invested by the National Debt Commissioners in accordance with Section 141(3) of the Social Security Administration (Northern Ireland) Act 1992; and
 - iv details of any irregular, uncertain or special payments.
- e. disclosures of any material payments or income that has not been applied to the purposes intended by Parliament or material transactions that have not conformed to the authorities which govern them.
4. The foreword and the account shall be signed by the Accounting Officer.
 5. This accounts direction shall be reproduced (but with the exception of the related Appendix) as an annex to the account.
 6. This direction supersedes the accounts direction dated 12 October 2010.

Michael Sunderland

Acting Deputy Director, Government Financial Reporting
Her Majesty's Treasury
3 June 2016
