

How to work safely

Putting on personal protective equipment (PPE)

PPE required when providing direct personal care, caring for an infectious, symptomatic or COVID positive person or where there is a risk of exposure to body fluids.

- Make sure you drink some fluids before putting on your PPE

- Tie hair back
- Remove jewellery

- Check PPE in the correct size is available

1 Clean your hands and wrists using alcohol hand rub/gel or use soap and water.

2 Put on an apron and tie at the waist.

3 Put on facemask – position upper straps on the crown of your head, lower strap at nape of neck.

4 With both hands, mould the metal strap over the bridge of the nose to ensure a close fit.

5 Don or put on your eye protection, due to the risk of splashing.

6 Put on gloves.
