International Trade

**Strategic Export Controls: Country  
Pivot Report**

1st April 2017 - 30th June 2017

April 2022

**Countries:** All countries

**Case Types:** All case types

**All Cases / Incorporation Cases Only:** All cases

**Ultimate Destinations:** All countries

**Licence Statuses:** All licence statuses

**Reasons for Refusal:** All reasons for refusal

**Case Summaries:** All case summaries

**Ratings:** All control entries

## Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st April 2017 and 30th June 2017. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

**A glossary of key terms follows this introduction** which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

## This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

## Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

## Key terms

**Strategic goods** include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

**Control Entries** are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

**Case summaries** are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list** ) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

**SIELs for goods covered by the torture regulation** (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

**Case & goods footnotes** are added to certain cases to provide explanation on the end use and/or end user.

**Country footnotes** are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

## Licence types and subtypes

### Export Licences

#### General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

#### Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

#### Open Individual Licences

**Open Individual Export Licences (OIELs)** are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

##### Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

**Dealer-to-dealer OIELs (or simply Dealer OIELs)** authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

**Cryptographic OIELs** authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

**Media OIELs** authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

**Continental Shelf OIELs** authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

## Global Project Licences

**Global Project Licences (GPL)** are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

## Standard Individual Licences

**Standard Individual Export Licences (SIELs)** are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

## Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

## Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

# Reporting

## Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

## Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

### Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

### Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

<b>Issued licences for a given destination</b>	<b>Control Entries applied to goods on licence</b>
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	<b>4</b>

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

## Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3464	3347	117	0
- Permanent Standard	2765	2655	110	0
- Temporary Standard	218	217	1	0
- Transshipment	6	6	0	0
- Incorporation	465	459	6	0
- For goods covered by the torture regulation (Permanent or Temporary)	10	10	0	0
SITCLs	94	89	5	0
OIELs	95	85	10	0
- Standard	77	68	9	0
- Dealer-to-dealer	9	9	0	0
- Cryptographic	8	7	1	0
- Media	0	0	0	0
- Continental Shelf	1	1	0	0
Global Project Licences	0	0	0	0
OITCLs	9	8	1	0

### Table notes for licensing statistics table:

**SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.**

## Overall Processing Statistics

### Processing statistics covering the period 1st April 2017 to 30th June 2017

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3699	83	4362	98	11 days
- Permanent Standard	3096	84	3618	98	11 days
- Temporary Standard	213	83	254	99	12 days
- Transshipment	3	43	7	100	24 days
- Incorporation	377	77	473	97	13 days
- For goods covered by the torture regulation (Permanent or Temporary)	10	100	10	100	11 days
SITCLs	102	78	126	96	13 days
OIELs	31	26	60	51	60 days
- Standard	17	17	40	41	69 days
- Dealer-to-dealer	9	90	10	100	5 days
- Cryptographic	5	56	9	100	15 days
- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	0	0	1	100	29 days
Global Project Licences	2	100	2	100	1 day
OITCLs	6	35	10	59	51 days

## Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

OGL Name	Registrations in this period	Suspensions in this period	Deregistrations in this period
Virtual EU	0	0	0
General Trade Licence Russia Sanctions, Aviation Insurance	0	0	0
EU GEA 2019/125	0	0	0

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	4	£19,112,539
Non-military	2	£36,349
Total	6	£19,148,888

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£75
ML4	2	£19,051,536
ML10	1	£500
ML22	1	£60,428

components for assault rifles [See footnote 2].  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 components for military support aircraft.  
 components for munitions/ordnance detection/disposal equipment.  
 technology for munitions/ordnance detection/disposal equipment.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,349
6A003	1	£35,000

imaging cameras [See footnote 1].  
information security equipment.

#### SITCLs

Source	Issued	Refused	Revoked
Italy	1	0	0

#### Issued

promoting the supply of military helicopters.

#### OITCLs

Source	Issued	Refused	Revoked
Serbia, Turkey	1	0	0
United States of America	1	0	0

#### Issued

promoting the supply of assault rifles [See footnote 3].  
promoting the supply of components for assault rifles [See footnote 4].  
promoting the supply of components for pistols [See footnote 4].  
promoting the supply of pistols [See footnote 3].

#### Country Footnotes

- Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

#### Case & goods Footnotes

- Licence granted for accessories / spare parts. Civilian / commercial end use.
- Licence granted for accessories / spare parts. Diplomatic missions.
- Licence granted for marketing and promotional use. Armed forces end use.
- Licence granted for accessories / spare parts. Diplomatic missions.

 sporting shotguns (1).  
 toxins.

### SIELs for goods covered by the torture regulation

#### Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	2	£3,805
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	2	£3,805

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	2	£3,805

handcuffs.  
 shackles.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 1]
2	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 2]
3	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
4	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
5	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
6	P	components for military support aircraft [See footnote 3]
7	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 4]
8	P	components for sporting shotgun ammunition, sporting shotgun ammunition
9	P	targeting equipment
10	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 5]
11	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 6]
12	P	technology for NBC detection equipment [See footnote 7]
13	T	towed hydrophone arrays [See footnote 8]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

### Case & goods Footnotes

1. Licence granted for sporting / hunting purposes. Civilian / commercial end use.

2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Australian Antarctic Territory

#### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

##### Issued

Types of goods on licence	No. of licences	Value
Military	13	£4,755,659
Non-military	2	£901,366
Total	15	£5,657,025

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£1,889,900
ML4	1	£0
ML5	4	£436,000
ML6	3	£46,330
ML10	1	£1,224,629
ML11	5	£40,000
ML15	7	£1,118,800

- components for military training aircraft.
- general military vehicle components (3 licences).
- gun silencers.
- T military guidance/navigation equipment (5 licences).
- T military image intensifier equipment (7 licences).
- T military infrared/thermal imaging equipment (7 licences).
- T rangefinding equipment (3 licences).
- signalling devices.
- T targeting equipment (2 licences).
- weapon night sights.
- T weapon night sights (7 licences).
- T weapon sights (7 licences).

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
3A231	1	£876,366
PL9010	1	£25,000

- neutron generators.
- sporting shotguns (2).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment,

## Refused

military training equipment.  
promoting the supply of air-to-surface missiles.  
promoting the supply of aircraft military communications equipment.  
promoting the supply of command/control equipment for unmanned air vehicles.  
promoting the supply of components for unmanned air vehicles.  
promoting the supply of launching/ground support equipment for unmanned air vehicles.  
promoting the supply of military infrared/thermal imaging equipment.  
promoting the supply of military support vehicles.  
promoting the supply of targeting equipment.  
promoting the supply of unmanned air vehicles.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1

## Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

## Case & goods Footnotes

1. Licence granted for demonstration to potential customers. Law enforcement agency end use.
2. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.

2B350	1	£26,834

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Turkmenistan

#### Country Footnotes

- On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended. All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

- Licence granted for accessories / spare parts. Civilian / commercial end use.
- Licence granted for accessories / spare parts. Civilian / commercial end use.

Types of goods on licence	No. of licences	Value
Military	5	£1,349,500
Total	5	£1,349,500

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£1,164,774
ML6	3	£184,290
ML10	1	£436

components for military support aircraft.  
components for turrets (2 licences).  
components for weapon control equipment.  
general military vehicle components [See footnote 1].

The items being incorporated in this destination are ultimately destined for all or some of the following:

- France
- Germany
- Indonesia
- Luxembourg
- Malaysia
- Saudi Arabia
- Spain
- Turkey
- United Kingdom

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
2	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 2]
3	T	towed hydrophone arrays
4	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 3]
5	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
6	P	technology for NBC detection equipment [See footnote 4]

### Case & goods Footnotes

1. Licence granted for armed forces end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.

### Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	83% (35)
% and number of SIELs completed in 60 working days	93% (39)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	100 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	13% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	7% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	19	£527,806
Non-military	7	£17,634
Both Military and Non-military	1	£6,216
Total	27	£551,656

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£149,877
ML3	8	£29,185
ML5	1	£1,500
ML6	1	£11,500

ML10	1	£110
ML11	3	£31,263
ML15	1	£182,920
ML16	1	£121,451
ML22	1	£0

- anti-armour ammunition.
- assault rifles (3).
- components for assault rifles.
- components for combat aircraft.
- components for military communications equipment.
- components for small arms ammunition.
- components for sporting guns.
- T equipment for the use of weapon night sights.
- gun mountings (2 licences).
- T military electronic equipment (2 licences).
- T military guidance/navigation equipment.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- military support vehicles.
- T rangefinding equipment.
- small arms ammunition (5 licences).
- technology for assault rifles.
- unfinished products for general military vehicle components.
- wall/door breaching projectiles/ammunition (2 licences).
- weapon night sights.
- T weapon night sights.
- weapon sights (2 licences).
- T weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£0
0E001	1	£5
1C351	4	£437
5A002	1	£17,156
5E002	1	£36

- bacteria.
- information security equipment.
- materials containing natural uranium.
- technology for information security equipment.
- technology for materials controlled by entry 0C of the Dual-Use Regulation.
- technology for nuclear fuel reprocessing equipment.
- technology for nuclear grade graphite.
- technology for nuclear reactor fuel element fabrication equipment.
- technology for nuclear reactors.
- toxins (3 licences).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£4,473
PL9010	1	£1,743

- sporting guns (26).
- sporting shotguns (32).

#### SIELs - Incorporation

## Issued

Types of goods on licence	No. of licences	Value
Military	7	£1,344,912
Total	7	£1,344,912

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	3	£246,990
ML6	1	£802,236
ML10	1	£4,550
ML11	2	£291,136
ML22	1	£0

components for military combat vehicles.  
components for military electronic equipment (2 licences).  
components for weapon control equipment (3 licences).  
general military aircraft components.  
technology for military electronic equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia  
Bulgaria  
France  
Ghana  
Greece  
India  
Italy  
Lithuania  
Luxembourg  
Mexico  
Morocco  
Norway  
Poland  
Romania  
Saudi Arabia  
Slovakia  
South Korea  
Sweden  
Switzerland  
Taiwan  
Tunisia  
Turkey  
United Arab Emirates

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 1]
2	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 2]
3	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
4	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
5	P	components for military support aircraft [See footnote 3]
6	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 4]
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 5]
9	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 6]
10	P	components for military aero-engines, military aero-engines, technology for military aero-engines
11	P	technology for NBC detection equipment [See footnote 7]

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

**Case & goods Footnotes**

1. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Cayman Islands

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£807,000

information security equipment.

#### Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Central African Republic

### Processing Statistics (excluding amendments)

Median processing time SIELs	9 days
% and number of SIELs completed in 20 working days	100% (6)
% and number of SIELs completed in 60 working days	100% (6)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	5	£266,044
Non-military	1	£5,000
Total	6	£271,044

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£229,500
ML13	1	£16,344
ML17	2	£20,200

body armour.  
components for body armour.  
general military vehicle components.  
military containers.  
military field generators (2 licences).  
military helmets.  
military support vehicles (2 licences) [See footnote 1].  
military trailers [See footnote 1].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£5,000

information security equipment.

### Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2339 (2017) extended the arms embargo until 31 January 2018 and amended the designation criteria. The EU implements these measures through Council Decision 2013/798/CFSP, as amended; as well as Council Regulation (EU) No 224/2014, as amended.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.

## Chad

### SIELs - Incorporation

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£10,765
Non-military	3	£169,316
Total	4	£180,081

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£10,765

equipment for the operation of military aircraft in confined areas.

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	3	£169,316

metal alloy cylindrical forms (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

France  
Mauritania  
United Kingdom  
United States of America

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security software, technology for information security software
2	P	components for weapon sights, weapon sights
3	P	technology for NBC detection equipment [See footnote 11]

### Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	information security equipment

## Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

1. Licence granted for academic research purposes. Academic end users.
2. Licence granted for government end use.
3. Licence granted for accessories / spare parts.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for civilian / commercial end use.
6. Licence granted for accessories / spare parts.
7. Licence granted for humanitarian end use.
8. Licence granted for academic end users.
9. Licence granted for armed forces end use.
10. Licence granted for marketing and promotional use.
11. Licence granted for accessories / spare parts. Civilian / commercial end use.

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	13	£1,470,679
Total	13	£1,470,679

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£1,053,113
ML3	1	£983
ML4	2	£46,096
ML5	1	£9,521
ML6	2	£20,702
ML10	1	£13,965
ML11	1	£6,300
ML14	1	£320,000

components for launching/handling/control equipment for munitions (2 licences).  
 components for machine guns.  
 components for military aircraft head-up/down displays.  
 components for military communications equipment.  
 components for military radars.  
 general military vehicle components.  
 ground vehicle military communications equipment.  
 military communications equipment.  
 military training equipment.  
 pistols (1).

small arms ammunition.  
sporting guns (1) (2 licences).  
weapon night sights.  
weapon sights.

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	3	£34,222
Total	3	£34,222

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	2	£27,186
ML10	1	£7,036

components for heavy machine guns (2 licences).  
components for military support aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil  
Switzerland

military aero-engines.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£14,193

information security equipment (2 licences).

### Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2360 (2017) which extended the arms embargo until 1 July 2018, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee. The EU implements these measures through Council Decision 2010/788/CFSP, as amended; as well as Council Regulation (EU) No 1183/2005, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

## Denmark

No.	Type	Goods Summary
1	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications

		equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
2	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 2]
3	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 4]
4	P	components for combat naval vessels, components for military patrol/assault craft, equipment for the production of combat naval vessels, equipment for the production of military patrol/assault craft, equipment for the use of combat naval vessels, equipment for the use of military patrol/assault craft, technology for combat naval vessels, technology for equipment for the production of combat naval vessels, technology for equipment for the production of military patrol/assault craft, technology for equipment for the use of combat naval vessels, technology for equipment for the use of military patrol/assault craft, technology for military patrol/assault craft, unfinished products for combat naval vessels, unfinished products for military patrol/assault craft
5	T	towed hydrophone arrays
6	P	direct view imaging equipment, imaging cameras, targeting equipment
7	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 6]
8	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment,

		software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 7]
9	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
10	P	components for military aero-engines
11	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
12	P	components for military aero-engines, military aero-engines, technology for military aero-engines
13	P	technology for NBC detection equipment [See footnote 12]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.
2. Licence granted for accessories / spare parts.
3. Licence granted for armed forces end use.
4. Licence granted for accessories / spare parts. Government end use.
5. Licence granted for armed forces end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for armed forces end use.
9. Licence granted for accessories / spare parts. Armed forces end use.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for accessories / spare parts.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for accessories / spare parts. End use by the Air Force.

## French Overseas Territory

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	100% (2)
% and number of SIELs completed in 60 working days	100% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£506,164
Total	2	£506,164

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

## Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,964
ML6	1	£504,200

all-wheel drive vehicles with ballistic protection.  
weapon sights.

## Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

## Gabon

### Processing Statistics (excluding amendments)

Median processing time SIELs	11 days

### **SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	5	£32,851
Total	5	£32,851

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£7,000
ML9	1	£24,856
ML11	2	£495
ML13	1	£500

components for combat naval vessels.  
 components for military electronic equipment.  
 equipment for the use of air-to-air missiles.  
 military helmets.  
 small arms ammunition.

### **SIELs - Incorporation**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£3,859
Total	1	£3,859

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£3,859

components for surface-to-air missiles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for sporting guns [See footnote 1]
2	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 2]
3	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
4	P	explosives, non-military detonators, non-military firing sets
5	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 3]
6	T	towed hydrophone arrays
7	P	direct view imaging equipment, imaging cameras, targeting equipment

8	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 4]
9	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 5]
10	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
11	P	components for military aero-engines, military aero-engines, technology for military aero-engines
12	P	technology for NBC detection equipment [See footnote 6]

- components for military helicopters (2 licences) [See footnote 29].
- components for military patrol/assault craft (2 licences) [See footnote 31].
- components for military radars (15 licences) [See footnotes 44, 7].
- components for military support aircraft (2 licences).
- components for military training aircraft (15 licences) [See footnotes 32, 37, 41, 45, 53].
- components for multi-role missiles.
- components for recognition/identification equipment.
- components for surface-to-air missiles.
- components for tanks.
- components for turrets (2 licences).
- components for weapon control equipment (2 licences) [See footnote 21].
- equipment for the production of combat naval vessels [See footnote 30].
- equipment for the use of sensor integration equipment.
- T equipment for the use of weapon night sights [See footnote 16].
- general military aircraft components (2 licences).
- general naval vessel components (5 licences) [See footnote 18].
- military aircraft ground equipment (2 licences).
- T military communications equipment.
- military electronic equipment (3 licences).
- military guidance/navigation equipment.
- T military guidance/navigation equipment [See footnote 16].
- T military image intensifier equipment [See footnote 16].
- T military infrared/thermal imaging equipment [See footnote 16].
- military laser protection equipment.
- T rangefinding equipment [See footnote 16].
- sensor integration equipment.
- small arms ammunition (5 licences) [See footnotes 10, 23, 24, 25, 26].
- software for equipment for the use of sensor integration equipment.
- software for military guidance/navigation equipment.
- software for NBC detection equipment.
- software for sensor integration equipment.
- software for software for naval engines (3 licences).
- technology for air-to-air missiles (2 licences) [See footnote 4].
- technology for combat aircraft.
- technology for equipment for the use of sensor integration equipment.
- technology for military guidance/navigation equipment.
- technology for military radars (3 licences).
- technology for multi-role missiles.
- technology for naval engines (3 licences).
- technology for NBC detection equipment.
- technology for production installations for air-to-air missiles [See footnote 4].
- technology for sensor integration equipment.
- T weapon night sights [See footnote 16].
- T weapon sights [See footnote 16].

## Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML13	1	£4,000
ML14	2	£1,193,189
ML15	2	£146,180
ML18	1	£132,000
ML21	2	£5,000
ML22	5	£3,318,623

- T aerial target equipment.  
air defence systems [See footnote 5].  
all-wheel drive vehicles with ballistic protection.
- T body armour [See footnote 4].  
components for assault rifles [See footnote 9].  
components for attack alerting/warning equipment.  
components for combat aircraft (2 licences).  
components for combat naval vessels (2 licences).  
components for equipment for the use of weapon night sights.  
components for ground vehicle military communications equipment [See footnote 5].  
components for launching/handling/control equipment for man portable air defence system missiles [See footnote 5].  
components for launching/handling/control equipment for missiles (2 licences) [See footnotes 3, 5].
- T components for launching/handling/control equipment for missiles [See footnote 4].  
components for machine guns [See footnote 9].
- T components for man portable air defence system missiles [See footnote 4].  
components for military aero-engines (2 licences).  
components for military auxiliary/support vessels.  
components for military combat vehicles (2 licences).  
components for military communications equipment (2 licences) [See footnote 5].  
components for military helicopters.  
components for military radars (2 licences).  
components for military support aircraft (4 licences).  
components for military training aircraft (9 licences).  
components for military training equipment [See footnote 5].  
components for pistols [See footnote 9].  
components for submarines.  
components for weapon sights [See footnote 7].  
equipment for the production of weapon control equipment [See footnote 6].  
equipment for the use of air defence systems [See footnote 5].  
equipment for the use of ground vehicle military communications equipment [See footnote 5].  
equipment for the use of military communications equipment [See footnote 5].  
equipment for the use of military radars.  
equipment for the use of military training equipment [See footnote 5].
- T equipment for the use of rangefinding equipment [See footnote 4].  
equipment for the use of weapon night sights.  
general military aircraft components.  
ground vehicle military communications equipment [See footnote 5].  
gun silencers.  
man portable air defence systems [See footnote 5].  
man portable air defence systems training equipment [See footnote 5].  
military auxiliary/support vessels.  
military communications equipment (2 licences) [See footnote 5].  
military guidance/navigation equipment.
- T military helmets [See footnote 4].
- T military infrared/thermal imaging equipment.
- T military infrared/thermal imaging equipment [See footnote 4].  
military training equipment [See footnote 5].  
multi-role missiles [See footnote 2].  
NBC detection equipment.  
rangefinding equipment.
- T rangefinding equipment [See footnote 4].
- T signalling devices.  
small arms ammunition (2 licences) [See footnote 12].  
sniper rifles (14).  
software for ground vehicle military communications equipment [See footnote 5].  
software for military communications equipment [See footnote 5].
- T software for rangefinding equipment [See footnote 4].  
surface-to-air missiles [See footnote 6].

targeting equipment.  
 technology for air defence systems [See footnote 5].  
 technology for ground vehicle military communications equipment [See footnote 5].  
 technology for man portable air defence systems (2 licences) [See footnotes 5, 6].  
 technology for man portable air defence systems training equipment [See footnote 5].  
 technology for military communications equipment [See footnote 5].  
 technology for military radars [See footnote 6].  
 technology for military training aircraft.  
 technology for military training equipment [See footnote 5].  
 technology for multi-role missiles [See footnote 2].  
 technology for surface-to-air missiles [See footnote 6].  
 technology for weapon control equipment [See footnote 6].  
 training multi-role missiles [See footnote 2].  
 training small arms ammunition [See footnote 10].  
 weapon night sights.  
 weapon sights (4 licences) [See footnotes 1, 7].

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£4,107
1A004	1	£2,300
1C202	2	£95,402
2B350	5	£9,570
5A001	1	£48,100
6A001	1	£45,086
6A002	1	£445,000
6A003	4	£265,177
7A003	1	£51,750
7A101	1	£2,300
7A103	1	£2,000
8A001	2	£10,400,000

accelerometers.  
 civil NBC protection equipment.  
 civil riot control agent protection equipment.  
 corrosion resistant chemical manufacturing equipment (5 licences).  
 counter-improvised explosive device equipment.  
 deuterium compounds.  
 imaging cameras (4 licences).  
 inertial equipment (2 licences).  
 marine position fixing equipment.  
 metal alloy cylindrical forms (2 licences).  
 remote sensing imaging sensors.  
 submersible vehicles (2 licences).

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	2	£845,140
6A003	1	£45,590
ML1	2	£399,960

T direct view imaging equipment (2 licences).  
 T imaging cameras.  
 T weapon night sights (2 licences).  
 T weapon sights.

### SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	1	£12,120
Non-military	1	£320
Total	2	£12,440

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£12,120

aircraft military communications equipment.

#### **Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£320

metal alloy cylindrical forms.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Malaysia  
Philippines

#### **SIELs - Transshipment**

#### **Issued**

Types of goods on licence	No. of licences	Value
Military	1	£29,800
Non-military	2	£460,000
Total	3	£489,800

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

#### **Military**

Control Entry	No. of licences with goods rated using Control Entry	Value
ML8	1	£29,800

explosives.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	1	£400,000
5A001	1	£60,000

counter-improvised explosive device equipment.  
improvised explosive device disposal remotely operated vehicles.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

**Country Footnotes**

1. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP, as amended, and EU Council Regulation (EU) No 267/2012, as amended. Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

2. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, and Council Regulation (EU) No 359/2011, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

**Case & goods Footnotes**

1. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.

promoting the supply of components for assault rifles [See footnote 11].  
promoting the supply of components for body armour (5 licences) [See footnotes 1, 6].  
promoting the supply of components for military combat vehicles (4 licences) [See footnotes 6, 8].  
promoting the supply of components for military communications equipment.  
promoting the supply of components for NBC protective/defensive equipment (2 licences).  
promoting the supply of general military aircraft components.  
promoting the supply of general military vehicle components.  
promoting the supply of hand grenades (2 licences).  
promoting the supply of inert hand grenades.  
promoting the supply of launching/handling/control equipment for missiles.  
promoting the supply of machine guns (1) [See footnote 1].  
promoting the supply of military aircrew safety equipment [See footnote 1].  
promoting the supply of military combat vehicles (4 licences) [See footnotes 1, 3, 8].  
promoting the supply of military communications equipment (8 licences) [See footnotes 1, 3, 6].  
promoting the supply of military helmets (6 licences) [See footnotes 1, 6].  
promoting the supply of military image intensifier equipment (2 licences).  
promoting the supply of military support vehicles.  
promoting the supply of munitions/ordnance detection/disposal equipment [See footnote 10].  
promoting the supply of NBC decontamination chemical mixtures (2 licences).  
promoting the supply of NBC protective/defensive equipment (7 licences) [See footnotes 1, 3, 6].

promoting the supply of pistols (5) [See footnote 1].  
 promoting the supply of pistols (13).  
 promoting the supply of pistols (30).  
 promoting the supply of pistols (40).  
 promoting the supply of pistols (50) (2 licences) [See footnote 6].  
 promoting the supply of rifle grenades.  
 promoting the supply of small arms ammunition (4 licences) [See footnotes 6, 7].  
 promoting the supply of small arms training equipment.  
 promoting the supply of surface launched rockets (3 licences) [See footnotes 4, 6].  
 promoting the supply of surface-to-surface missiles [See footnote 12].  
 promoting the supply of weapon night sights (5 licences) [See footnotes 1, 6].  
 promoting the supply of weapon sights (5 licences) [See footnotes 1, 6].

## Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004). This is implemented in the EU with Common Position 2003/495/CFSP, as amended, Council Regulation (EC) No 1210/2003, as amended, and Council Regulation (EEC) No 3541/92.

All exports for this destination were approved in accordance with the sanctions in place.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	10	£1,074,052
Total	10	£1,074,052

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	7	£896,395
ML9	1	£1,215
ML10	1	£134,646
ML11	1	£41,796

components for aircraft military communications equipment.  
 components for electronic warfare equipment.  
 components for military radars (6 licences).  
 components for submarines.  
 components for targeting equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Hungary  
 India  
 Singapore  
 Thailand  
 United Kingdom

### SIELs - Transshipment

#### Issued

Types of goods on licence	No. of licences	Value
Both Military and Non-military	1	£105,853
Total	1	£105,853

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A008	1	£2,463
ML3	1	£88,092
ML4	1	£14,139
ML14	1	£53

PL9002	1	£1,107
--------	---	--------

anti-armour ammunition.  
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.  
 components for military training equipment.  
 components for small arms ammunition.  
 exploding grenade ammunition.  
 linear shaped cutting charges.  
 non-military energetic materials.  
 small arms ammunition.  
 smoke canisters.  
 smoke/pyrotechnic ammunition.

#### OIELs (excluding Other OIELs)

- components for aircraft military communications equipment.
- components for combat aircraft (2 licences).
- components for decoying/countermeasure equipment.
- components for military communications equipment.
- components for military radars.
- components for military support aircraft (7 licences).
- components for military training aircraft (9 licences).
- components for NBC protective/defensive equipment.
- components for recognition/identification equipment.
- components for sporting shotgun ammunition.
- equipment for the production of combat aircraft.
- T equipment for the use of weapon night sights.
- general military aircraft components (2 licences).
- military aero-engines.
- military electronic equipment.
- T military electronic equipment.
- T military guidance/navigation equipment.
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- T rangefinding equipment.
- sporting guns (1).
- technology for decoying/countermeasure equipment.
- technology for unfinished products for military helicopters.
- unfinished products for military helicopters (2 licences).
- unfinished products for military support aircraft.
- weapon night sights.
- T weapon night sights.
- weapon sights.
- T weapon sights.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	1	£3,192
PL9010	3	£18,018

- devices containing enriched lithium.
- sporting shotguns (1).
- sporting shotguns (2).
- sporting shotguns (3).

### SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	102	£12,774,885
Total	102	£12,774,885

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£5,381
ML4	1	£1,606
ML5	6	£2,124,608
ML9	2	£780,490
ML10	72	£7,760,608
ML11	4	£368,015
ML16	16	£1,440,177
ML21	1	£281,000
ML22	11	£13,000

aircraft military communications equipment (2 licences).  
 components for aircraft military communications equipment (2 licences).  
 components for attack alerting/warning equipment.  
 components for combat aircraft (8 licences) [See footnotes 11, 18].  
 components for combat helicopters (10 licences).  
 components for combat naval vessels.  
 components for launching/handling/control equipment for missiles.  
 components for military aero-engines (3 licences) [See footnote 1].  
 components for military helicopters (27 licences) [See footnotes 6, 7].  
 components for military radars (4 licences).  
 components for military support aircraft (8 licences).  
 components for military training aircraft (13 licences) [See footnotes 12, 14, 15, 19].  
 components for naval electrical/electronic equipment.  
 components for weapon control equipment.  
 components for weapon mountings.  
 electronic warfare equipment (3 licences).  
 military aero-engines [See footnote 2].  
 military electronic equipment.  
 software for attack alerting/warning equipment.  
 technology for attack alerting/warning equipment.  
 technology for combat aircraft (5 licences) [See footnote 13].  
 technology for military support aircraft (3 licences).  
 technology for unfinished products for combat aircraft (2 licences).  
 technology for unfinished products for military helicopters.  
 technology for unfinished products for military support aircraft.  
 unfinished products for combat aircraft (5 licences) [See footnote 13].  
 unfinished products for launching/handling/control equipment for munitions.  
 unfinished products for military aero-engines [See footnote 10].  
 unfinished products for military aircraft head-up/down displays.  
 unfinished products for military helicopters (3 licences) [See footnotes 8, 9].  
 unfinished products for military radars.  
 unfinished products for military support aircraft (4 licences).

**OIELs (excluding Other OIELs)**

**Issued**

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 3]
2	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
3	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
4	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 4]
5	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 5]

6	T	towed hydrophone arrays
7	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 16]
8	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 17]
9	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 20]

11	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
12	P	components for military aero-engines, military aero-engines, technology for military aero-engines
13	P	technology for NBC detection equipment [See footnote 21]

## SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

### Issued

Types of goods on licence	No. of licences	Value
Military	4	£464,158
Non-military	1	£26,000
Both Military and Non-military	1	£1,361,913
Total	6	£1,852,071

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£275,008
ML3	1	£59,650
ML7	1	£2,300
ML13	1	£2,200
ML15	1	£125,000

T  
 artillery.  
 components for artillery.  
 components for NBC protective/defensive equipment.  
 military helmets.  
 military infrared/thermal imaging equipment.  
 NBC protective/defensive equipment.  
 small arms ammunition.

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL8001	1	£26,000

T explosives detection equipment.

### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£699,230
6A003	1	£45,590
ML1	1	£599,333
PL5017	1	£17,760

T direct view imaging equipment [See footnote 1].  
 T equipment for the use of weapon sights [See footnote 1].  
 T imaging cameras [See footnote 1].  
 T weapon night sights [See footnote 1].  
 T weapon sight mounts [See footnote 1].  
 T weapon sights [See footnote 1].

**OIELs (excluding Other OIELs)**

5A002	1	£1,336

frequency changers.  
information security equipment.

### Country Footnotes

1. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) 2095 (2013) and 2362 (2017). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision (CFSP) 2011/137, as amended, and Council Regulation (EU) 2016/44, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

Common Position 2004/698/CFSP, as amended, and Council Regulation (EC) No 3275/1993, as amended, are also in place.

All exports for this destination must be in accordance with the sanctions in place.

## Issued

accessories for demolition charges/devices [See footnote 1].  
components for demolition charges/devices [See footnote 1].  
components for munitions/ordnance detection/disposal equipment [See footnote 1].

## Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

## Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for anti-piracy operations. Civilian / commercial end use.

## Myanmar

### Processing Statistics (excluding amendments)

Median processing time SIELs	17 days
% and number of SIELs completed in 20 working days	67% (2)
% and number of SIELs completed in 60 working days	100% (3)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

## Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£51,000
Total	1	£51,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A003	1	£51,000

inertial equipment [See footnote 1].

#### Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013, as amended. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited. All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Navy.

## Namibia

### Processing Statistics (excluding amendments)

Median processing time SIELs	16 days

anti-riot/ballistic shields.  
blank/inert ammunition.  
components for launching/ground support equipment for unmanned air vehicles.  
components for launching/handling/control equipment for missiles.  
components for mortars.  
components for NBC detection equipment.  
components for NBC protective/defensive equipment (2 licences).  
components for sporting guns (2 licences).  
components for unmanned air vehicles.  
decoying/countermeasure equipment.  
machine guns (6).  
T military helicopters.

NBC protective/defensive equipment (2 licences).  
 technology for decoying/countermeasure equipment.  
 technology for military electronic equipment.  
 technology for NBC detection equipment.  
 training small arms ammunition.  
 unfinished products for combat aircraft.  
 weapon night sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B226	1	£410,000
2B350	1	£43,427
6A001	1	£661,856
PL9010	1	£1,000

T acoustic seabed survey equipment.  
 controlled atmosphere furnaces.  
 corrosion resistant chemical manufacturing equipment.  
 sporting shotguns (1).

#### Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,470
6A003	1	£13,000
8A002	1	£5,000
ML7	1	£11,700
ML11	1	£6,000
ML17	1	£100

T civil NBC protection equipment.  
 T civil riot control agent protection equipment.  
 T components for NBC protective/defensive equipment.  
 T imaging cameras.  
 T military communications equipment.  
 T military laser protection equipment.  
 T NBC protective/defensive equipment.  
 T rebreathing swimming equipment.

#### SIELs - Incorporation

##### Issued

Types of goods on licence	No. of licences	Value
Military	6	£307,755
Total	6	£307,755

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

##### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£144,800
ML5	3	£125,366
ML11	2	£37,589

components for launching/handling/control equipment for missiles.  
 components for weapon control equipment (3 licences).  
 equipment for the use of military electronic equipment (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Kuwait  
 Malaysia  
 Oman  
 Poland  
 Switzerland

### SIELs - Transshipment

#### Issued

Types of goods on licence	No. of licences	Value
Military	1	£190,198
Total	1	£190,198

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£190,198

artillery.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 1]
2	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
3	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
4	T	towed hydrophone arrays
5	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 2]
6	P	components for sporting shotgun ammunition, sporting shotgun ammunition
7	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 3]
8	P	components for sporting guns, gun silencers, small arms ammunition, sporting guns, weapon sights
9	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 4]
10	P	technology for NBC detection equipment [See footnote 5]

**Rejected**

Applications to this destination refused in full.		
No.	Type	Goods Summary

1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

% and number of SIELs completed in 60 working days	100% (5)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	2	£107,859
Non-military	2	£11,001
Total	4	£118,860

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£800
ML6	1	£107,059

military support vehicles.  
weapon night sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£11,001

information security equipment (2 licences).

## Papua New Guinea

### Processing Statistics (excluding amendments)

7	3

### SIELs - Transshipment

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£48,178
Total	1	£48,178

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£48,178

radiation hardened integrated circuits.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	oil and gas industry equipment/materials

#### SITCLs

Source	Issued	Refused	Revoked
Russia	1	0	0
United States of America	0	1	0

#### Issued

promoting the supply of oil and gas industry equipment/materials.

#### Rejected

promoting the supply of components for sporting shotguns.  
promoting the supply of sporting shotgun ammunition.  
promoting the supply of sporting shotguns.

#### Country Footnotes

1. Council Decision 2014/512/CFSP, as amended and Council Regulation (EU) No 833/2014, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

#### Case & goods Footnotes

1. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
2. Licence granted for academic research purposes. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.

components for military training aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Kingdom

#### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 1]
2 (A)	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles [See footnote 20]
3	T	accessories for military image recording/processing equipment, aerial target equipment, components for accessories for military image recording/processing equipment, components for aerial target equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military guidance/navigation equipment, components for military image recording/processing equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic countermeasure equipment, general military aircraft components, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military training aircraft, technology for aerial target equipment, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 3]
4	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 5]
5	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 8]
6	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 10]

7	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 13]
8	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 14]
9	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 17]
10	P	airborne refuelling equipment, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for decoying/countermeasure equipment, components for electronic warfare equipment, components for environmental test facilities for combat aircraft, components for equipment for the production of combat aircraft, components for military aero-engines, components for military aircraft head-up/down displays, components for military cameras/photographic equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, electronic warfare equipment, environmental test facilities for combat aircraft, equipment for the production of combat aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military cameras/photographic equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parametric technical databases, software for airborne refuelling equipment, software for attack alerting/warning equipment, software for combat aircraft, software for electronic countermeasure equipment, software for equipment for the production of combat aircraft, software for military aircraft ground equipment, software for military aircraft head-up/down displays, software for military image recording/processing equipment, software for military parametric technical databases, software for recognition/identification

		equipment, technology for airborne refuelling equipment, technology for attack alerting/warning equipment, technology for combat aircraft, technology for electronic countermeasure equipment, technology for equipment for the production of combat aircraft, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military image recording/processing equipment, technology for military parametric technical databases, technology for recognition/identification equipment [See footnote 18]
11	T	towed hydrophone arrays [See footnote 19]

A - Some or all of which were issued on appeal.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.

## Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

## Issued

- promoting the supply of assault rifles (50) [See footnote 1].  
promoting the supply of components for assault rifles [See footnote 1].

- promoting the supply of components for machine guns [See footnote 1].
- promoting the supply of hand grenades [See footnote 1].
- promoting the supply of machine guns (12) [See footnote 1].
- promoting the supply of pistols (9) [See footnote 1].
- promoting the supply of portable incapacitating substance self-protection devices [See footnote 1].
- promoting the supply of small arms ammunition [See footnote 1].

## Country Footnotes

- UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

The EU implements this UN sanction regime via Council Decision 2010/231/CFSP, as amended, Council Regulation (EU) No 356/2010, as amended and Council Regulation (EC) No 147/2003, as amended

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

- Licence granted for accessories / spare parts. Diplomatic missions.

body armour [See footnote 1].  
components for body armour [See footnote 1].  
components for military support vehicles.  
military helmets [See footnote 1].

### Country Footnotes

1. EU Council Decision (CFSP) 2015/740, as amended and Council Regulation (EU) 2015/735, as amended, transpose UNSCR 2206 (2015). This provide for restrictive measures in the form of travel restrictions and asset freezes that may be applied in relation to persons and entities designated by the Security Council Committee.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.

Median processing time SIELs	17 days
% and number of SIELs completed in 20 working days	71% (5)
% and number of SIELs completed in 60 working days	86% (6)
% [as a % of all SIEL cases processed] and number of SIELs refused	14% (1)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£1,150
Total	2	£1,150

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C350	1	£1,000
1C351	1	£150

chemicals used for industrial/commercial processes [See footnote 1].  
toxins.

### Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1

### Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010. This is implemented by Council Regulation (EC) No 747/2014, as amended.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and

institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

0C003	1	£874

deuterium compounds [See footnote 2].

#### Country Footnotes

1. On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, as amended, and Council Regulation (EU) No 36/2012, as amended, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

Common Position 2005/888/CFSP, as amended, and Council Regulation (EC) No 305/2006, as amended, are also in place.

All exports for this destination were approved in accordance with the sanctions in place.

## Case & goods Footnotes

## SIELs - Incorporation

### Issued

Types of goods on licence	No. of licences	Value
Military	3	£58,253
Total	3	£58,253

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML16	3	£58,253

unfinished products for military aero-engines (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Kingdom

## OIELs (excluding Other OIELs)

### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 1]
2	P	technology for NBC detection equipment [See footnote 3]

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

## Tanzania

### Processing Statistics (excluding amendments)

% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	114	£51,497,577
Non-military	83	£803,833,292
Both Military and Non-military	8	£8,149,527
Total	205	£863,480,396

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£17,409,275
ML2	4	£377,577
ML3	3	£211,070
ML4	11	£11,210,062
ML5	3	£794,012

ML6	7	£182,141
ML7	6	£293,826
ML9	2	£221,583
ML10	40	£912,031
ML11	12	£15,242,898
ML13	3	£12,574
ML14	3	£9,873
ML15	1	£399,280
ML16	6	£551,835
ML19	2	£3,000,000
ML21	6	£651,101
ML22	18	£18,440

- T accessories for small arms training equipment.
- aircraft military communications equipment.
- T armoured plate.
- T body armour (2 licences).
- command communications control and intelligence software.
- components for air-to-air missiles.
- components for aircraft military communications equipment (2 licences).
- components for artillery (2 licences).
- components for avalanche control projectiles.
- T components for body armour (2 licences).
- components for combat aircraft (8 licences).
- components for command/control equipment for unmanned air vehicles (2 licences).
- components for electronic warfare equipment.
- components for launching/handling/control equipment for missiles (3 licences).
- components for launching/handling/control equipment for munitions (4 licences).
- components for launching/handling/control/support equipment for unmanned air vehicles.
- components for military aircrew life support equipment (2 licences).
- components for military combat vehicles.
- components for military guidance/navigation equipment (8 licences).
- components for military helicopters (3 licences).
- components for military support aircraft (13 licences).
- T components for military support aircraft.
- components for military training aircraft.
- components for naval engines (2 licences).
- components for NBC detection equipment.
- components for NBC protective/defensive equipment (4 licences).
- components for pistols.
- components for small arms ammunition.
- T components for small arms training equipment.
- components for surface-to-surface missiles (2 licences).
- components for tanks.
- components for unmanned air vehicles (5 licences).
- electronic warfare equipment.
- equipment for the use of attack alerting/warning equipment.
- equipment for the use of electronic countermeasure equipment.
- T equipment for the use of electronic warfare equipment.
- equipment for the use of small arms training equipment.
- T equipment for the use of weapon night sights.
- general military aircraft components (2 licences).
- T high power RF weapon systems (2 licences).
- launching/handling/control equipment for missiles.
- launching/handling/control equipment for munitions.
- military combat vehicles (5 licences).
- T military electronic equipment.
- T military guidance/navigation equipment.
- military helmets.
- T military helmets (2 licences).
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- T military scenario simulation equipment.
- military support vehicles.
- NBC protective/defensive equipment.
- T projectile launchers (2 licences).

- T rangefinding equipment.  
small arms ammunition.  
small arms training equipment.
- T small arms training equipment.  
software enabling equipment to function as military communications equipment.  
software for equipment for the use of attack alerting/warning equipment.  
software for launching/handling/control equipment for munitions (2 licences).  
software for Software for modelling/simulating military operation scenarios.
- T sporting guns (1) (2 licences).  
sporting guns (5000).  
tanks.  
technology for aircraft military communications equipment.  
technology for body armour.  
technology for command communications control and intelligence software.  
technology for command/control equipment for unmanned air vehicles (2 licences).  
technology for launching/handling/control equipment for missiles.  
technology for launching/handling/control equipment for munitions (2 licences).  
technology for launching/handling/control/support equipment for unmanned air vehicles.  
technology for military communications equipment.  
technology for NBC detection equipment.  
technology for NBC protective/defensive equipment.  
technology for Software for modelling/simulating military operation scenarios.  
technology for submarines (2 licences).  
technology for surface-to-surface missiles.  
technology for unfinished products for military aero-engines.  
technology for unfinished products for military patrol/assault craft.  
technology for unmanned air vehicles.  
unfinished products for combat aircraft.  
unfinished products for military aero-engines (4 licences).  
unfinished products for military patrol/assault craft.  
weapon night sights.  
weapon night sights (2 licences).  
weapon sights.
- T weapon sights.

#### Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	4	£1,818

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£524

shackles.

### OIELs (excluding Other OIELs)

#### Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 1]
2	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 2]
3	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
4	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
5	P	components for military support aircraft [See footnote 5]
6	P	components for combat helicopters
7	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 8]
8	P	toxins
9	P	technology for surface-to-surface missiles
10	P	components for sporting shotgun ammunition, sporting shotgun ammunition
11	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 12]
12	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 13]
13	P	components for military aero-engines, military aero-engines, technology for military aero-engines
14	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
15	P	technology for NBC detection equipment [See footnote 18]
16	P	components for military support aircraft

#### Rejected

Applications to this destination refused in full.

No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

### SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

#### Issued

Types of goods on licence	No. of licences	Value
Military	5	£39,125
Non-military	5	£2,700,708
Both Military and Non-military	3	£1,634,190
Total	13	£4,374,023

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

#### Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	3	£31,650
ML11	1	£945
ML21	2	£280
ML22	2	£6,250

command communications control and intelligence software.  
 components for military electronic equipment.  
 components for military radars (2 licences) [See footnote 1].  
 equipment for the use of targeting equipment.  
 software for naval gun installations/mountings.  
 technology for command communications control and intelligence software.  
 technology for naval gun installations/mountings.

**Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£25
2B350	1	£283
5A002	1	£1,700
6A001	1	£700
6A005	1	£2,690,000
8A002	1	£8,000

bacteria.  
 corrosion resistant chemical manufacturing equipment.  
 information security equipment.  
 lasers.  
 marine position fixing equipment.  
 submersible equipment.

**Both Military and Non-military**

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	3	£920,390
6A003	2	£113,840
ML1	2	£399,960
ML5	1	£200,000

T direct view imaging equipment (3 licences).  
 T imaging cameras (2 licences).  
 T targeting equipment.  
 T weapon night sights (2 licences).  
 T weapon sights.

**Refused**

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

**Military**

### SITCLs

Source	Issued	Refused	Revoked
South Sudan	1	0	0

### Issued

promoting the supply of military support aircraft [See footnote 1].

### Country Footnotes

1. Restrictions currently in force with respect to Zimbabwe are set out in Council Decision 2011/101/CFSP, as amended, and Council Regulation No. 314/2004, as amended. These include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression.

All exports for this destination were approved in accordance with the sanctions in place.

### Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
