3. TRANSACTIONS

3.1 Transactions

(A) Prior to submitting any Preliminary Equity IRR Report or Sale Equity IRR Report, the Generator shall review each of the Transactions entered into, or having effect, during the relevant Project Gain Share Calculation Period (in the case of a Preliminary Equity IRR Report) or prior to the relevant Transfer (in the case of a Sale Equity IRR Report) and shall consider whether the Agreed Principles have applied in relation to all Transactions throughout their term or whether the Transaction does not comply with the Agreed Principles.

(B) If at any time the Agreed Principles have not been applied in respect of any Transaction, appropriate adjustments shall be made to the IRR calculations in the relevant IRR Report, as required by Paragraph 3 or Paragraph 4 (as applicable).

(C) The Generator shall, within a reasonable period of a request by the DPA Counterparty, provide to the DPA Counterparty copies of any Transactions (or, if already provided, as amended since the last time provided).

(D) For the purposes of this Contracting Policy, the Generator shall make available to the DPA Counterparty copies of any Transactions by uploading the relevant information to a virtual data room or equivalent storage facility which the Generator shall, at its own cost and expense, establish, maintain and administer in accordance with the Reasonable and Prudent Standard throughout the period for which this Contracting Policy applies and to which throughout such period the DPA Counterparty and its Representatives shall have unrestricted access (and
for this purpose, and without prejudice to the generality of the foregoing, the Generator shall promptly provide users with any required user ID, passwords and other log-in details). Upon reasonable request of the DPA Counterparty and at the Generator’s own cost and expense, the Generator shall allow the DPA Counterparty’s external professional advisers (acting on a legally privileged basis and/or with a duty of confidentiality to the Generator, to the Generator’s reasonable satisfaction) to inspect hard copies of the information and documents referred to in this paragraph 3.1(D) at the Generator’s offices or other location chosen by the Generator (acting reasonably).

(E) If the Generator has made or shall make available to the DPA Counterparty any information or document whether through a virtual data room or equivalent storage facility or otherwise howsoever, the act of making that information or document available (whether for the purposes of due diligence, the cost discovery and verification process or otherwise) shall neither be construed as an agreement, acceptance or approval by the DPA Counterparty of such information or document or of its terms or of any liabilities, costs or expenses disclosed thereby nor as prohibiting or restricting the right of the DPA Counterparty to make further enquiry as to, or to challenge, the same.

(F) It is acknowledged that any task order or work order (or equivalent) which is issued pursuant to a Transaction which is in the form of a framework agreement will not constitute an amendment to the relevant Transaction.

3.2 Determination

(A) Subject to paragraph (B) below, if the DPA Counterparty does not consider, acting reasonably, that the Agreed Principles have been applied in relation to a Transaction or the Transaction does not comply with the Agreed Principles, it shall be entitled to request, by written notice to the Generator, that a Services Expert be appointed to review the terms of the Transaction to determine whether the Agreed Principles have been applied in relation thereto or the Transaction does not comply with the Agreed Principles.

(B) The Services Expert shall be an independent expert appointed by agreement between the Generator and the DPA Counterparty or, failing agreement as to such appointment within ten (10) Business Days of receipt by the Generator of a notice referred to in paragraph (A) above, within a further ten (10) Business Days of such receipt (or such longer period, if any, as the Generator and the DPA Counterparty may agree) by the President for the time being of the Law Society of England and Wales on the application of either the Generator or the DPA Counterparty, and the Services Expert’s terms of appointment shall oblige the Services Expert to keep confidential the terms of the relevant Transaction and any further information provided.

(C) Within twenty (20) Business Days of its appointment (or such longer period, if any, as the Generator and the DPA Counterparty may agree), the Services Expert shall state in writing whether, in its opinion, the Agreed Principles have been and/or are being applied in relation to the Transaction specified in the notice given
pursuant to paragraph (A) above and whether the Transaction complies with the Agreed Principles. If the Services Expert determines that the Agreed Principles have not been and/or are not being applied in relation to the Transaction and/or the Transaction does not comply with the Agreed Principles in any respect, the Services Expert shall also state in writing the nature and extent of such non-compliance.

(D) In so stating its opinion the Services Expert shall be deemed to act as an expert and not as an arbitrator and, save in the case of fraud or manifest error, its determination shall be final and binding on all concerned.

(E) The Generator shall provide to the Services Expert sufficiently detailed information to enable the Services Expert to understand the application (or otherwise) of the Agreed Principles to the relevant Transaction. The Services Expert shall be entitled, acting reasonably having regard to its terms of reference, to appoint other professional advisers (including, but without limitation, accountants) in order to assist with the review of the relevant Transaction.

(F) The terms of reference of the Services Expert shall provide that the Services Expert (and any professional adviser appointed by the Services Expert) shall enter into such confidentiality arrangements as the Generator (acting reasonably) may require and shall otherwise be on such terms (if any) as agreed between the Generator and the DPA Counterparty.

(G) If the Services Expert states that the Agreed Principles have not been and/or are not being applied in relation to the Transaction specified in the notice given pursuant to paragraph (A) above and/or that the Transaction does not comply with the Agreed Principles [(or, in the case of paragraph (A)(iii)(a) of the definition of "Agreed Principles", does not comply with the Agreed Principles other than in any immaterial respect), the DPA Counterparty shall have a right to request an audit in accordance with paragraph 3.3 (Audit)].

(H) If the Services Expert determines that:

(i) the Agreed Principles have not been and/or are not being applied in relation to the reviewed Transaction and/or that the reviewed Transaction does not comply with the Agreed Principles, the Generator shall bear the costs of the Services Expert (including the costs of any professional adviser appointed by the Services Expert) and, if required by the DPA Counterparty pursuant to paragraph (G) above, the Auditor; and

(ii) the Agreed Principles have been and are being applied in relation to the reviewed Transaction and that the reviewed Transaction complies with the Agreed Principles, the DPA Counterparty shall bear the costs of the Services Expert (including the costs of any professional adviser appointed by the Services Expert).
3.3 Audit

(A) In accordance with a determination by the Services Expert under paragraph 3.2(G) (Determination), the DPA Counterparty may by notice to the Generator require that a Transaction is audited in accordance with this paragraph 3.3. An Auditor shall be appointed by agreement between the Generator and the DPA Counterparty within ten (10) Business Days of receipt by the Generator of such notice or, failing agreement, within a further ten (10) Business Days of such receipt (or such longer period, if any, as the Generator and the DPA Counterparty may agree) by the President for the time being of the Institute of Chartered Accountants in England and Wales on the application of either the Generator or the DPA Counterparty.

(B) The Generator shall provide to the Auditor sufficiently detailed information to enable the Auditor to:

(i) understand the application (or otherwise) of the Agreed Principles to the relevant Transaction;

(ii) understand the charging basis underlying the cost of the relevant Transaction; and

(iii) give its opinion and prepare and deliver its report referred to in paragraph 3.3(C).

(C) The terms of reference of the Auditor shall provide that the Auditor shall:

(i) enter into such confidentiality arrangements as the Generator (acting reasonably) may require;

(ii) give its opinion as to the amount of money (if any) which would put the Generator into the position that it would have been in if the Agreed Principles had been applied in relation to the relevant Transaction and such Transaction had at all times complied with the Agreed Principles (the "Discount Amount"); and

(iii) report in writing accordingly to the Generator and the DPA Counterparty, and shall otherwise be on such terms (if any) as agreed between the Generator and the DPA Counterparty.

3.4 Miscellaneous

(A) No Services Expert or Auditor appointed pursuant to paragraph 3.2 (Determination) or paragraph 3.3 (Audit) shall have the power to require disclosure of documents or information other than as provided for in this Annex 7 (Contracting Policy) and each Services Expert or Auditor shall provide written reasons in support of any determination or opinion pursuant to this paragraph 3.
(B) The DPA Counterparty shall not be entitled pursuant to this Annex 7 (Contracting Policy) to access any documents or information, or working papers of, any Services Expert or Auditor appointed pursuant to paragraph 3.2 (Determination) or paragraph 3.3 (Audit).
