Brigadier Toby Rowland

Head of Defence
Medical Academy

Welcome to the Defence Medical Academy Prospectus where you will find details on our current military medical education and training courses. We offer a wide range of technical and professional development opportunities, covering fields as diverse as Pre-Hospital Emergency Care, Primary Healthcare, Occupational Healthcare and Public Health.

Through our Defence Postgraduate Medical Deanery we also facilitate, coordinate, and assure higher professional training of Defence Medical Services Foundation, Primary and Secondary Healthcare, Dental, Specialty Nurse and Higher Specialist Scientist trainees.

Each year, we deliver and support the learning and development of around 8,000 students and trainees from across Defence, some of whom are at the start of their careers, others returning to the

DMA to undertake further career or trade training, or to attend pre-deployment courses for serving in support of operations.

The Prospectus also provides an overview of the Academy, our organisation, our people, our locations including information about our main teaching site at Defence Medical Services Whittington, Lichfield. It also suggests a few local places of interest and things to do.

Hopefully our prospectus is an interesting and helpful read, we welcome feedback or questions at the DMA so please contact us below.

+ About the Defence Medical Academy

The Defence Medical Academy (DMA) was established in September 2019 to drive innovation in military medical education and training, helping ensure our Armed Forces have the knowledge and skills needed for Operations in the 21st Century.

By enhancing integration and cooperation in military medical education and training across Defence, and with our partners in the NHS and the Higher Education sector, we are pursuing opportunities for accessible lifelong learning and the best careers in healthcare.

The medical training and education provided by the DMA extends across a wide range of disciplines from Level 3, non-vocational healthcare support workers (e.g. Military Medics) all the way up to consultant Doctors, Dentists and other health professionals undertaking Level 8 (Doctorate) qualifications. Much of the academic training at the lower academic levels, as well as that with a military focus, is delivered by the DMA. Higher academic training is delivered in partnership with academic institutions or outsourced with our partners such as Birmingham City University and Leeds Beckett University. Trainees undergoing this training are managed and provided with academic and supervisory care support from our staff.

The DMA is located across three sites

1

Our main Academy and Headquarters is based at Defence Medical Services Whittington, near Lichfield.

+ Our Schools

The DMA is a 1* Military Command within the Defence Medical Services under UK Strategic Command, Ministry of Defence. The Academy is formed by a small Headquarters that supports the Head of the DMA and three departments each commanded by a Military Officer of OF5 rank.

Training Division

The largest team within the DMA with around 200 staff delivering military healthcare education and training primarily at DMS Whittington, with small teams located at both Birmingham City University and DMRC Stanford Hall. Training Division is formed of two schools:

Defence School of Healthcare Training (DSHT)

That delivers Medical, Healthcare Assistant, Dental and Pharmacy Initial Trade Training (Phase 2) and further professional, career, and operational training (Phase 3) to tri-service trainees primarily at DMS Whittington.

Defence School of Healthcare Education (DSHE)

That delivers and supports the training of medical professionals, Defence Medical Services Nurses and Allied Health Professionals, Environmental and Occupational Health practitioners, and Exercise Remedial Instructors at DMS Whittington, Birmingham City University, DMRC Stanford Hall and by working with other academic institutions throughout the UK.

Training Division Specialist Support

Enable the delivery of training and support to our students and provide services including:

- Training Standards and Validation to ensure that all trainees leave the Academy do so with the skills and knowledge required to perform their job to the highest medical standard
- Defence Trainer Development Team who support, mentor, develop and quality assure our Defence Trainers
- Learning Support
- Reprographic, Photography and IT services

Defence Postgraduate Medical Deanery

Facilitates, coordinates, and assures the higher professional training of DMS Foundation, Primary Healthcare, Secondary Healthcare, Dental, Specialty Nurse and Higher Specialist Scientist trainees in order to meet the requirements of Defence. This is delivered by several Functional Areas:

- Primary Healthcare Training
- Secondary Healthcare Training
- Foundation Training
- Quality Assurance
- Nurse Educational Advisors
- Armed Services Consultant Appointment Board Management

These areas work together to manage the military elements of national recruitment, selection, appointment of Foundation and Speciality Trainees, and then ensure that their training is managed and assured in accordance with the approved specialty curricula of the appropriate professional Regulatory Bodies. They also help shape local, regional and national clinical education and training policy; and act as the General Medical Council accountable Designated Body for all medical trainees and revalidation and the maintenance of professional standards.

Training Plans and Support

Is responsible for the curriculum development, training assurance, scheduling, admissions and also Information Resources. The department is formed of the following teams:

Training Development

Who develop a curriculum that meets defence requirements in accordance with the Defence Systems Approach to Training, ensuring the appropriate academic accreditation. Training is developed using all methods and media, including eLearning, blended and simulation exercises.

Training Plans

Who ensure the training demand is matched to resources to provide the schedule of courses to be delivered over the academic year. They also manage internal student admissions, and provide support to those provided by our external academic partners.

Training Governance and Assurance

Who provide the assurance that all DMS training is safe, risk focused, accountable, appropriate for the training need, and also cost effective.

Digital Design and Media

Who apply creative and innovative technology enhanced learning to our educational packages.

DMA Information and Resources (Burnett Library)

Who provide both students and staff and Defence Medical Services personnel in the UK and on Operations around the world, with contemporary information to support learning, research, and clinical delivery.

Defence Medical Leadership Centre

In 2021, the DMA officially opened the Defence Medical Leadership Centre (DMLC) – a flagship venue for leadership development based at DMS Whittington, and a new spiritual home for residential leadership education. Our virtual DMLC hosts a range of leadership development resources, along with ideas for putting great leadership into practice. The resources are available to all within the Defence Medical Services to help develop their leadership skills and behaviours and to instil a compassionate and inclusive leadership culture.

+ Our People

At the heart of the DMA is our people. Of the 270 military and civilian dedicated staff that work at the DMA we have some 170 qualified and experienced Defence Trainers delivering world-class training to our tri-service students and trainees. The rest of our DMA team includes experts in medical education and curriculum design, learning support, training audit and assurance, leadership and management, information management, IT,

design and media, scheduling and administration and project management.

Leading the DMA is our senior leadership team who between them hold a wealth of military medical leadership and management and educational experience and qualifications, along with a passion for education and training excellence.

Brigadier Toby Rowland

Leading the newly formed Defence Medical Academy since 2019, Brigadier Rowland is responsible for educating Defence personnel in the knowledge and skills needed to deliver Armed Forces healthcare. His military career has focussed on the preparation, deployment and command of field healthcare in a variety of operational roles and austere environments. Internationally, this has included serving as overall UK military medical commander in Iraq (2007) and Afghanistan (2013), as well as NATO's head

of medical capability development and training. He has also served as senior medical commander to the UK's armoured division and as commander of the UK's medical brigade.

Prior to joining the Armed Forces, Brigadier Rowland pursued a career as a clinical research scientist across academia and the private sector. He completed an undergraduate degree in Cellular Biology and Immunology, followed by postgraduate leukaemia research at the University of Liverpool Faculty of

Medicine culminating in the award of MPhil. Within the Armed Forces, he has studied twice at the UK Defence Academy, gaining an MSc in Defence Logistics Management and MA in Defence Studies. He returned to the Defence Academy a third time, as only the second member of the Army Medical Services to serve there as an instructor. Brigadier Rowland has previously led both the British Army's Medical Command and Staff and Medical Support Officer cadres.

Colonel Stephen Harmer

Colonel Stephen Harmer joined the Army in 1995. Following early Reserve service in the Honourable Artillery Company while doing undergraduate Dental Training, he Commissioned into the Royal Army Dental Corps (RADC) in 1998. In the intervening years Col Harmer has held numerous clinical, staff and command appointments in UK, overseas bases and operations.

Involvement in education has been a common thread, teaching undergraduate and foundation dentists, as well as training roles in

training and assurance in individual through to leading collective training exercises at Formation level.

He is a passionate advocate of opportunity regardless of background and is Deputy Champion for Social Mobility for UKStratCom.

The experience is combined with MA in Defence Studies following Advance Staff and Command Course, and a Masters in Medical Education.

Colonel Harmer is currently Commander Training responsible for 270 trainers

delivering c80 courses to over 8,000 students per year. He is also Defence Postgraduate Dental Dean and currently covering the AH Training Plans and Support lead for design and assurance of training. When there is spare time, it is spent with his wife and three children, or pursuing his interest in cycling.

Colonel Mark Morrison

Colonel Mark Morrison joined the Army in 1989. After early service with the Royal Armoured Corps, he qualified as a veterinary surgeon and transferred to the Royal Army Veterinary Corps (RAVC). Initially employed in clinical veterinary roles, for the last 15 years he has served within command and staff appointments across the Ministry of Defence. Early staff appointments were centred around capability development and acquisition. However, more recent roles have had an education and training

focus. He commanded the Defence Animal Training Regiment, a Phase 2 and Phase 3 unit, between 2014-2017 and, since then, has been the Programme Lead for the RAVC apprenticeship programme, a collection of four different apprenticeships all at different stages in their transition to new Apprenticeship Standards. He also holds the appointment of Chief Veterinary and Remount Officer for Defence, with responsibility for the professional development pathway and training standards of the RAVC

Cadres. Colonel Morrison was appointed to the role of Deputy Commandant of the Defence Medical Academy in 2020.

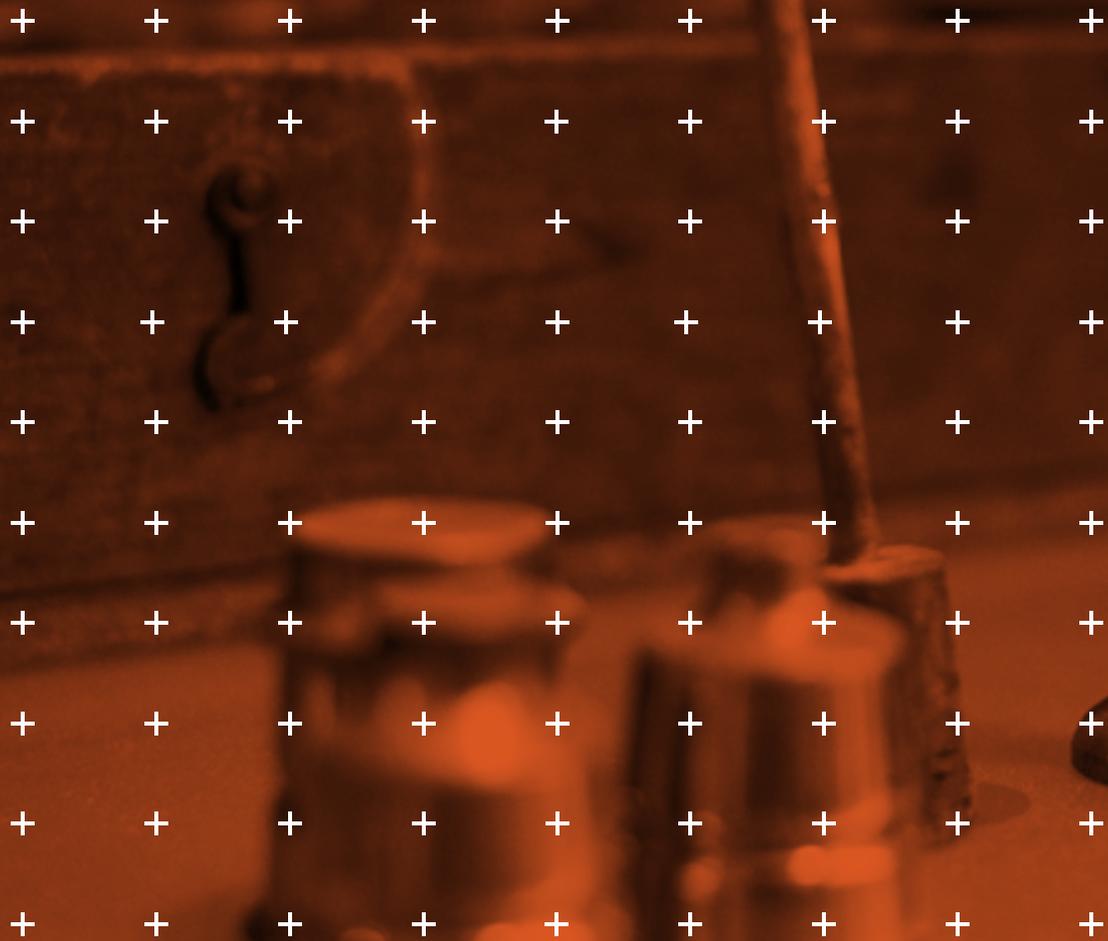

Group Captain Dudley Graham

Group Captain Dudley Graham joined the Royal Air Force as a medical cadet in 1987 and graduated from Aberdeen University in 1989. As a military General Practitioner, he deployed to the former Yugoslavia in support of Op DENY FLIGHT and following a short service commission, left the military to pursue his interests in tropical and travel medicine, working extensively in West Africa, South East Asia and North-West Europe. Holding an educational portfolio for over 25 years, he recommissioned in

2010 to deliver to this role in Defence. He is the immediate past Chair of the 4 nations Committee of General Practice Educational Directors and holds a number of educational roles within the Royal College of General Practitioners. He has been assigned to the Defence Medical Academy from November 2021 where he looks after all doctors in training.

A passion for education and training excellence

+ Our Services

Travel directions

Road - If you are arriving by car use post code WS14 9PY in your satellite navigation system.

Rail - The nearest railway stations are Lichfield Trent Valley stations, Lichfield City and Tamworth. Trains run to Birmingham New Street from Lichfield City and Tamworth and to London Euston from Lichfield Trent Valley.

Bus - The nearest bus stop is on Chester Road – just outside of the Main Gate. Bus route 765 goes to both Lichfield and Tamworth.

DMS Whittington

Our main Academy site at DMS Whittington is located between Lichfield and Tamworth in Staffordshire. We are one of a number of lodger units based at the site which is also the home to the Headquarters Defence Medical Services Group, Defence Medical Services Regulator, Headquarters Defence Infrastructure Organisation, Regimental Headquarters Merican, Staffordshire Regimental Museum and Whittington Pre-School.

DMS Whittington provides a host of excellent working, living, welfare and sports facilities that students and trainees attending the DMA can access. These include:

Physical Development Centre – indoor gym with weights and cardiovascular fitness rooms and sports halls. Outdoor facilities include a large multi-terrain astro football pitch and sports fields. A variety of fitness and sports programmes are also available.

Harden Centre – houses the junior ranks mess and bar, the DMS Whittington Community Store that includes a Costa Coffee and Costcutter Shop, cash dispenser and recreational rooms.

Welfare Department – located in Marabout Hall provide a range of welfare support services to all personnel with a on-call Welfare Advisor available 24/7.

Birmingham City University – Students attending the Defence School of Healthcare Education at Birmingham City University have access to its state-of-the-art learning, living and student support facilities at the City South Campus in Edgbaston – more information can be found at - <https://www.bcu.ac.uk/about-us/maps-and-campus/city-south-campus/campus-information>.

IT Services

Based at DMS Whittington the DMA IT Services team provide technology support and advice and maintain lecture theatre and classroom audio visual equipment. They are also the go-to team for arranging access to and support with the DMA's Virtual Learning Environment and free Wi-Fi available site-wide at DMS Whittington. Every student is also offered a LEARN enabled device for use during their time at the DMA.

Defence Medical Services Mentoring Platform

The Defence Medical Academy have developed a new on-line mentoring platform available to all DMS staff and students. The Platform provides an accessible, flexible and inclusive way for all in the DMS, wherever and whenever they work, to access a broad range of mentoring opportunities 24/7 via MOD or their own devices. The platform is a confidential and self-organising environment for staff to quickly register as a mentor, mentee or both, virtually initiate mentoring connections via matching or manual searches, set and track goals, and schedule meetings. Users also have access to in-platform mentoring resources, guides and tools to help them throughout their mentoring journey.

+ History of DMS Whittington

+

1881

The 38th (1st Staffordshire) Regiment of Foot was an infantry regiment of the British Army, raised in 1705. Under the Childers Reforms it amalgamated with the 80th Regiment of Foot (Staffordshire Volunteers) to form the South Staffordshire Regiment in 1881 based at Whittington Barracks.

+

1942

During the Second World War the barracks was occupied by the United States Army and in August 1942 was designated as the 10th US Army Replacement Depot. The depot was also used as a military prison. Under the command of Lieutenant Colonel James A. Kilian, a native of Highland Park, Illinois, and Major Richard E. Lobbano, the Provost Marshal, the depot became “infamous” for its regime of brutality and the “cruel and unusual punishments of American soldiers imprisoned there.”

+

1960

The barracks, which went on to become the regional centre for infantry training as the Mercian Brigade Depot in 1960, also became home to the Staffordshire Regiment Museum in 1963 and the depot of the Prince of Wales’ Division in 1968.

+

2002

The barracks remained the home of the Army Training Regiment, Lichfield, and trained new recruits on their Phase 1 Common Military Training (i.e. becoming soldiers) from the Royal Signals and Royal Engineers, from 2002 until 2008. Major General Andrew Farquhar CBE, General Officer Commanding the Army’s 5th Infantry Division, inspected the recruits and took the final salute before the Army Training Regiment’s flag was lowered for the last time in 2008.

+

2007

In 2007 Whittington Barracks became the Regimental Headquarters of the newly formed Mercian Regiment.

The Mercian Regiment (Cheshire, Worcesters and Foresters, and Staffords) is an infantry regiment of the British Army, which is recruited from five of the counties that formed the ancient kingdom of Mercia. Known as ‘The Heart of England’s Infantry’, it was formed on 1 September 2007 by the amalgamation of 3 existing regiments. The Regiment has had eight operational deployments since its formation.

+

2008

In July 2008 the Government set in motion the centralisation of Defence Medical Services training at Whittington Barracks. The relocation of the Headquarters of the Surgeon-General and major components of the Joint Medical Command was completed with a new HQ - Coltman House.

2014

In 2014 the Duchess of Cornwall visited the site to commemorate the relocation of the Defence Medical Services Training Group from Keogh Barracks to Whittington Barracks.

2019

The DMA was established on September 2019 and brought several healthcare training elements together to collectively drive innovation in military medical education and training, helping to ensure the Armed Forces have the knowledge and skills they need for Operations in the 21st Century.

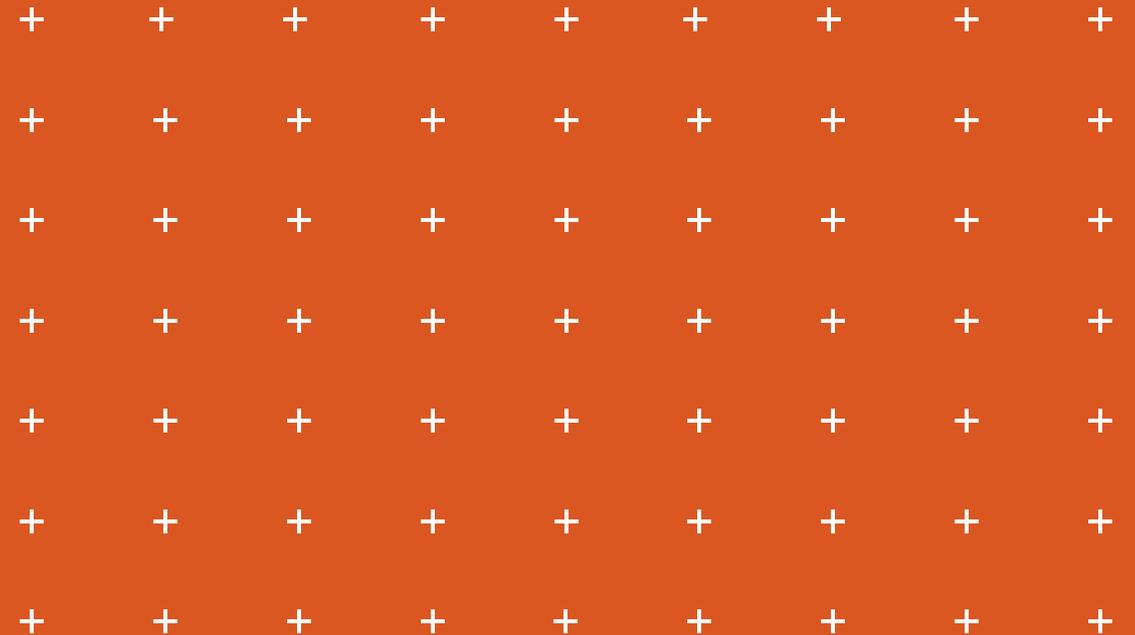

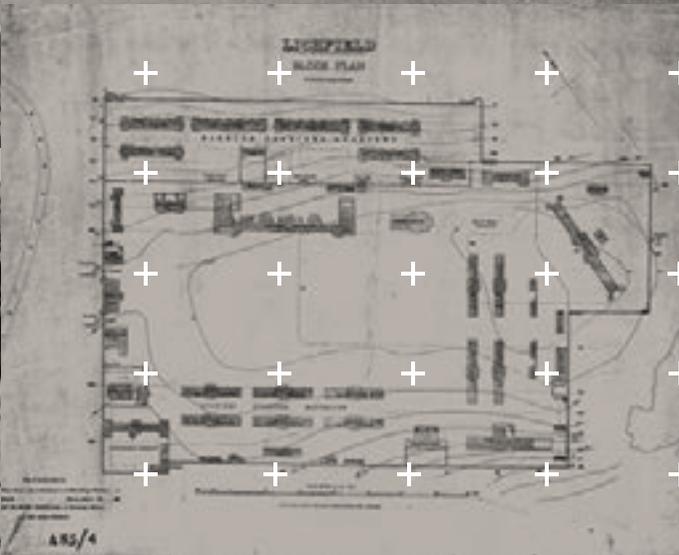

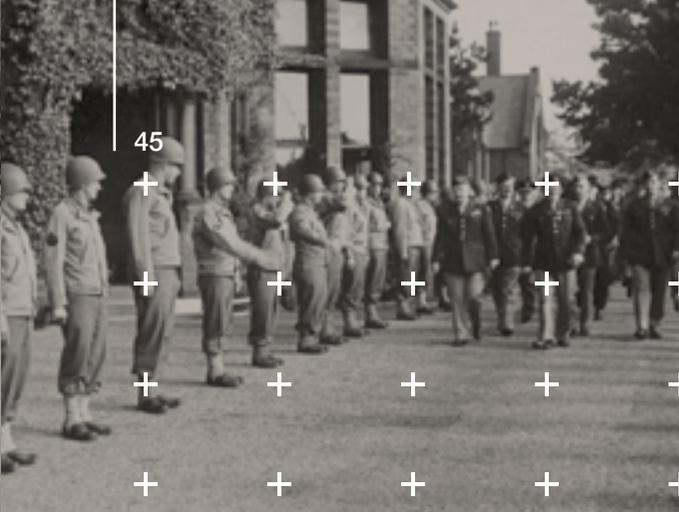

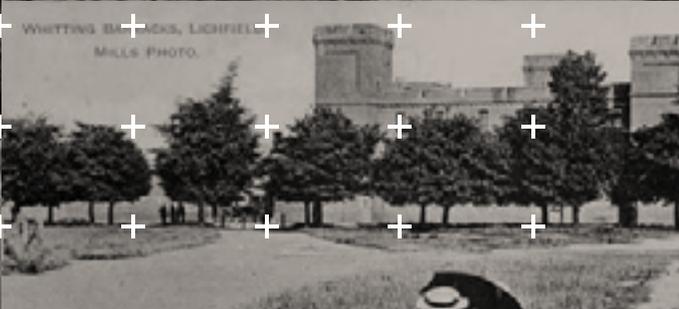

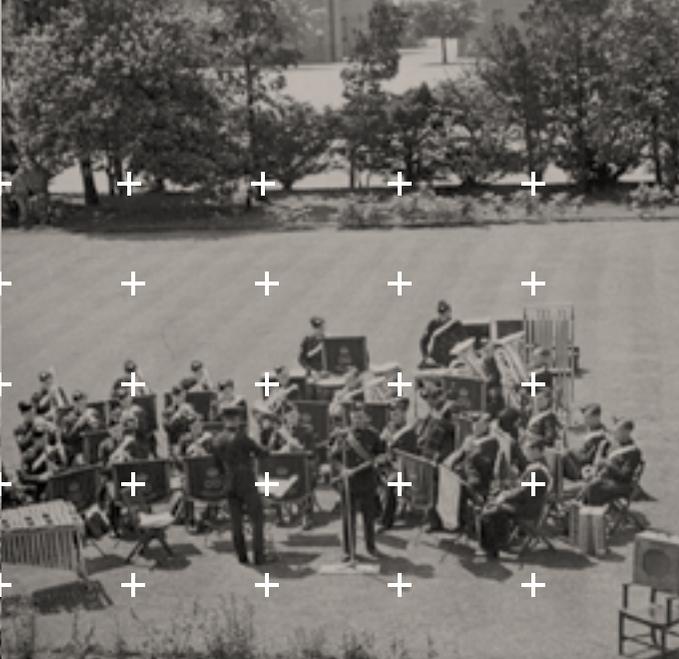

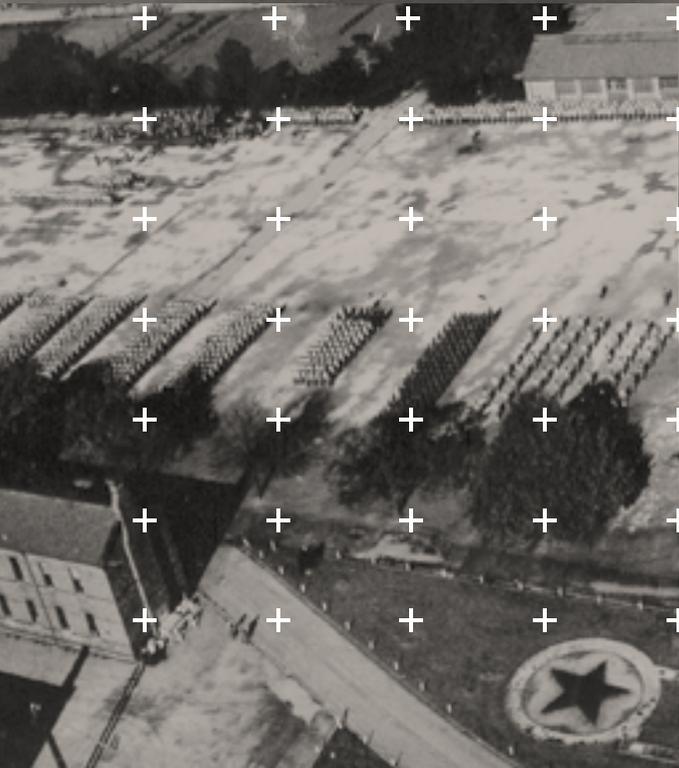

2021

The Defence Infrastructure Organisation were welcomed to the site and raised the flag at their new purpose-built headquarters at DMS Whittington on 29 July.

Pursuing opportunities for accessible lifelong learning and the best careers in healthcare

+ Historic Figures

James Lind
1716 - 1794

James Lind FRSE FRCPE was a Scottish doctor and a pioneer of naval hygiene in the Royal Navy. By conducting one of the first ever clinical trials, he developed the theory that citrus fruits cured scurvy.

Lind argued for the health benefits of better ventilation aboard naval ships, the improved cleanliness of sailors' bodies, clothing and bedding, and below-deck fumigation with sulphur and arsenic. He also proposed that fresh water could be obtained by distilling sea water. His work advanced the practice of preventive medicine and improved nutrition.

Sir William Beatty
1773 - 1842

Sir William Beatty FRS was an Irish surgeon who served in the Royal Navy. Born in Derry, Ireland, he joined as a surgeon's mate in 1791 at the age of 18. He is best known as the Ship's Surgeon aboard HMS Victory during the Battle of Trafalgar, at which he witnessed the death of Admiral Horatio Nelson, and for authoring an account of that battle – The Death of Lord Nelson.

Sir William Burnett
1779 - 1861

Sir William Burnett, KCB, FRS was a British physician who served as Physician-General of the Royal Navy. He was the founder of military medical libraries – the DMA Library at DMS Whittington is named after him.

Mary Jane Seacole
1805 - 1881

Mary Jane Seacole was a British-Jamaican nurse, who set up the “British Hotel” behind the lines during the Crimean War. She described this as “a mess-table and comfortable quarters for sick and convalescent officers”, and provided succour for wounded service men on the battlefield, and nursed many of them back to health. Seacole displayed “compassion, skills and bravery while nursing soldiers during the Crimean War”, through the use of herbal remedies. She was posthumously awarded the Jamaican Order of Merit in 1991. In 2004, she was voted the greatest Black Briton.

Eliza MacKenzie
1816 - 1892

Eliza MacKenzie was the first woman to practise medicine in Charlottetown, over 20 years after the first woman physician in Nova Scotia. She specialised in diseases of women and children.

She joined the armed forces during World War I, serving as a nursing sister overseas. She first enrolled in the Queen Alexandra’s Imperial Military Nursing Service Reserve, a British unit, in February 1917 and subsequently was stationed in England and then in France.

Edith Cavell
1865 - 1915

Edith Louisa Cavell was a British nurse. She is celebrated for saving the lives of soldiers from both sides without discrimination and for helping some 200 Allied soldiers escape from German-occupied Belgium during the First World War, for which she was arrested.

Sir Alfred Keogh
1857 - 1936

Lieutenant-General Sir Alfred Henry Keogh, GCB, GCVO, CH, FRCP was a medical doctor in the British Army. He served as Director-General Army Medical Services twice; from 1905 to 1910 and 1914 to 1918.

Major General Sir Matthew Fell
1872 - 1959

With the outbreak of war in 1914 Fell went to France as staff officer to the Director of Medical Services in the BEF and later was ADMS to Sir Francis Treherne with the Third Army. In 1918 Fell was transferred to the new Air Ministry as Director of Medical Services with the rank of Air Commodore.

In 1921 Fell returned to the RAMC, was knighted as KCB in 1922, he held various administrative posts at home and in Egypt before being appointed Director General of Medical Services in 1926. Fell retired voluntarily in 1929 before the expiration of his term, in the rank of Lieutenant-General.

Dame Joanna Margaret Cruickshank
1875 - 1958

Dame Joanna Margaret Cruickshank, DBE, RRC was a British military nurse and nursing administrator. She founded Princess Mary’s Royal Air Force Nursing Service in November 1918 and served as its first Matron-in-Chief from 1921 until her retirement in November 1930.

Lance Corporal Harold Coltman
1891 - 1974

William Harold Coltman, VC, DCM & Bar, MM & Bar was an English recipient of the Victoria Cross (VC), the highest award for gallantry in the face of the enemy that could be awarded to British and Commonwealth forces. He was the most decorated other rank of the First World War for his heroism venturing out alone to rescue his comrades from the 1st/6th North Staffordshire Regiment left behind beneath Mannequin Hill after a forced retreat from the German army.

Nurse Nellie Spindler
1891 - 1917

Nellie Spindler was a staff nurse who was killed during the Battle of Passchendaele. She is one of only two British female casualties of World War I buried in Belgium and the only woman buried among more than 10,000 men at Lijssenthoek Military Cemetery.

Sir Archibald McIndoe
1900 - 1960

Sir Archibald Hector McIndoe CBE FRCS was a New Zealand plastic surgeon, he worked for the Royal Air Force during the Second World War. He improved the treatment and rehabilitation of badly burned aircrew.

Major General Philip Mitchiner
1904 - 1952

Major General Philip Mitchiner was a distinguished academic surgeon with extensive civilian experience. In his military career he filled every rank from cadet to Major General Army Medical Services, serving in both World Wars and the Territorial Army. Mitchiner was able to successfully combine both his military and civilian careers with great distinction, including his appointment as Vice President of the Royal College of Surgeons of England. He also was awarded the Special Constabulary Long Service Medal for nine years continuous attendance.

Eric Harden VC
1912 - 1945

Henry Eric Harden VC was an English recipient of the only Medical Corp Victoria Cross of WW2, the highest and most prestigious award for gallantry in the face of the enemy that can be awarded to British and Commonwealth forces. Harden was recognised for his selfless valour that cost him his life, in Holland during Operation Blackcock. On 23rd January 1945 at Montfortbeek he went out a number of times to help the wounded, regardless of his own safety. He was wounded once and then killed by a bullet to the head later, believed to have been fired by a German sniper.

Air Vice Marshall Peter Howard
1925 - 2007

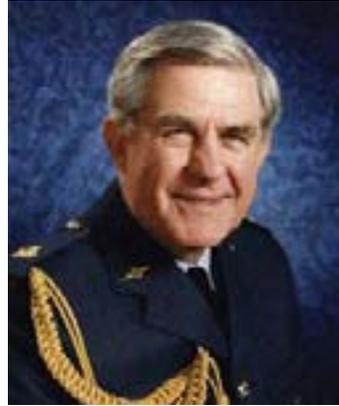

Air Vice Marshal Peter Howard, CB, OBE, FRCP, FRAeS was a senior aviation medicine doctor with the Royal Air Force. Howard was a Fellow of the Royal College of Physicians and of the Royal Aeronautical Society.

Lt Gen Sir Peter Beale

b.1934

Lieutenant General Sir Peter John Beale, KBE, QHP, FRCP is a retired senior British Army officer. He was the Surgeon-General of the British Armed Forces from 1991 to 1994. He also served as the Chief Medical Adviser to the British Red Cross from 1994 to 2000.

**Air Vice-Marshal
Ian Graeme McIntyre**

1943 - 2011

Air Vice-Marshal Ian Graeme McIntyre was commissioned into the Royal Air Force and went up to Newcastle, then part of Durham University, on an RAF scholarship to study dentistry. After qualifying, his first posting was as a station dentist at RAF West Raynham in Norfolk. Subsequently he served at several stations in the UK and in Germany. In 2002 he was appointed Honorary Senior Clinical Lecturer at the University of Birmingham. He was elected the Association's President in 2003 and represented his profession with great dignity.

**Surgeon Vice Admiral
Ian Jenkins**

1944 - 2009

Surgeon Vice Admiral Ian Lawrence Jenkins CB CVO was a Royal Navy medical officer and former Surgeon General of the British Armed Forces. In 1982 he was appointed Medical Officer Overseas to the Household of His Royal Highness the Prince of Wales and later as Surgeon Commodore he became the first Defence Postgraduate Medical Dean and Commandant of the new Royal Defence Medical College (1996-1999).

**Surgeon Vice Admiral
Philip Raffaelli**

b.1955

Surgeon Vice-Admiral Philip Iain Raffaelli, CB, QHP, FRCP is a British general practitioner and Royal Naval Medical Officer. Raffaelli served as Surgeon General of the British Armed Forces until 2012.

+ Places of Interest

Find out more

visitlichfield.co.uk

Lichfield

The city of Lichfield has a rich and varied history, with Georgian museums including the Samuel Johnson Birthplace and Erasmus Darwin House, through to the stunning medieval Lichfield Cathedral.

One of only three-spired cathedrals in the UK, Lichfield Cathedral is one of the oldest places of Christian worship, and the burial place of the great Anglo-Saxon missionary Bishop, St Chad. This magnificent building has a rich history, reflected in its architecture and treasures. In addition to its daily services, the Cathedral also acts as a stunning venue for a range of events including concerts, gala dinners, festivals, awards ceremonies, performances, debates, educational forums and more. The annual Christmas Cathedral Illuminated and the Summer Great Exhibition are ones not to miss. **lichfield-cathedral.org**

The Hub at St Mary's is a new arts hub, gallery, and coffee shop in the centre of Lichfield. Dedicated to providing Lichfield with a welcoming, inclusive, and thriving community venue in the centre of the City it offers a diverse programme of high quality

arts, music and theatre. thehubstmarys.co.uk. The Garrick Theatre also has a vibrant programme of theatre, music, and comedy nights. lichfieldgarrick.com

Lichfield boasts plenty of greenspaces, the largest of which is Beacon Park, set in more than 70 acres of beautiful gardens and open space within easy reach of the city centre. Visit the park for a leisurely walk, golf, children's play area, crazy golf, tennis, basketball, bowls, play disk, foot, or traditional golf and more. Beacon Park is also steeped in history and heritage, and information boards around the site give you a glimpse into the area's rich historical past. Refreshments and ice cream are available from the cafe next to the children's play area and the main park entrance during peak season. Toilets and baby changing facilities are also available next to the children's play area. Woodland activities include pond dipping and wildlife watching. A range of outdoor activities are also provided throughout the year - look out for information on the noticeboards or ask the friendly rangers.

Lichfield also has a large and diverse range of award-winning restaurants, pubs, coffee shops and holds frequent street food and craft festivals. Its historic streets are lined with shops, from high street chains to independent boutiques.

Other local attractions and activities include:

- the inspiring National Memorial Arboretum, the UK's year-round centre of Remembrance, featuring over 330 thought-provoking memorials, nestled amongst lush and maturing - woodlandthenma.org.uk
- Curborough Sprint Course Britain's premier motorsport venue for speed sprinting against the clock and cycling centre of excellence - curborough.co.uk
- Midland Karting outdoor racetrack - midlandkarting.co.uk
- and NPF Bassetts Pole Adventure Park and Paintballing provides a range of outdoor activity experiences from quad biking to airsoft - npfbassettspole.com

Tamworth

The ancient town of Tamworth has plenty to do - whether it is spending a day at the nearby Drayton Manor Theme Park or exploring the thousand years of history at Tamworth Castle.

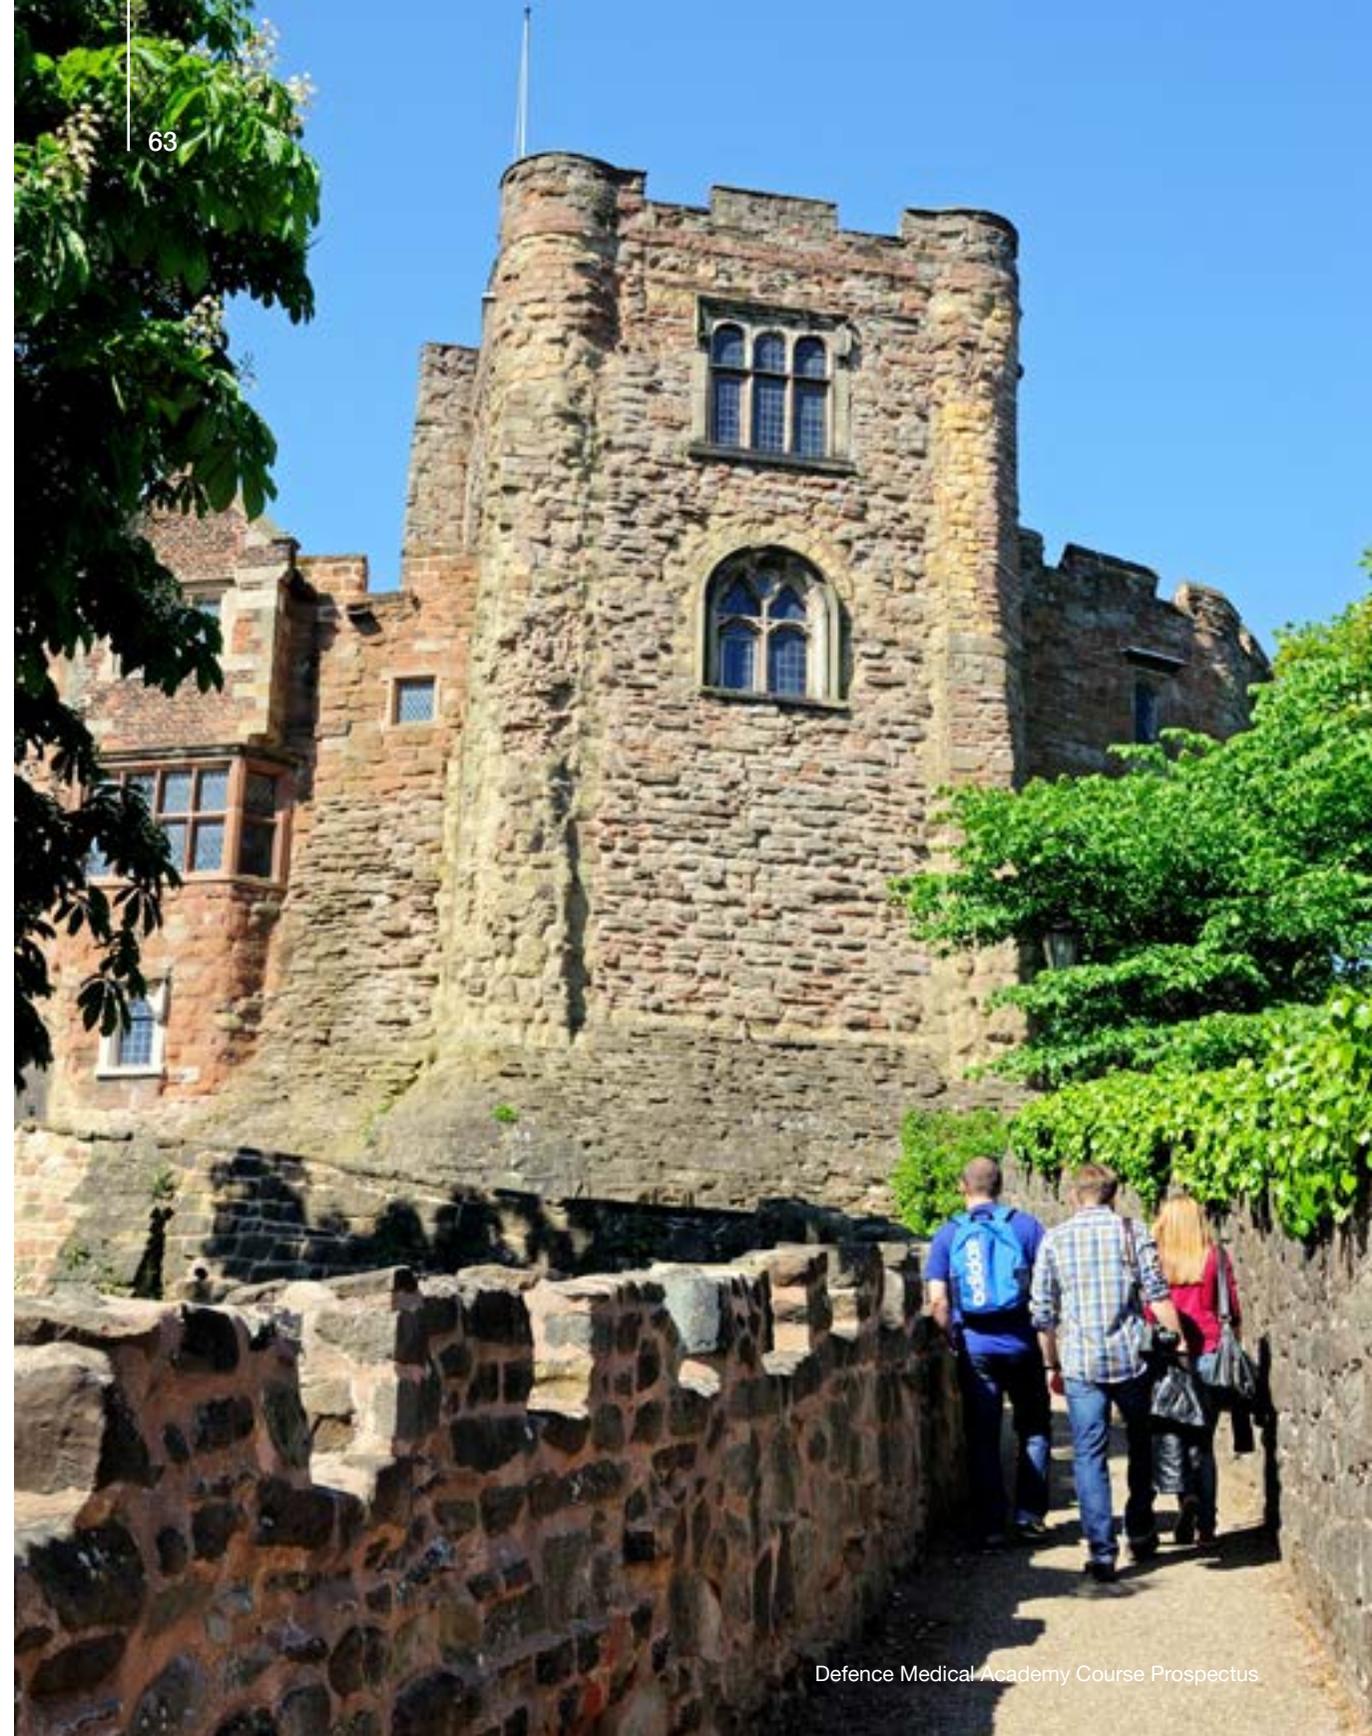

As you step back in time through 900 years of history in Tamworth Castle and wonder the chambers and hallways of this unique building, you get a real sense of how the Saxons, Normans, Tudors, and Victorians spent their time. There are more than 15 fully furnished rooms to discover and the castle is packed with information and displays. **www.tamworthcastle.co.uk**. The Castle overlooks the Pleasure Grounds with their beautiful floral terraces dropping down to the banks of the River Anker and open grassland - ideal for walks and picnics in the summer. Facilities in the grounds include an extensive adventure play area for children, a cafe, river walks, cycle hire, outdoor gym, skatepark, tennis courts and one of the highest standard public bowls greens in the Midlands.

For sports enthusiasts try the Snowdome, where you can ski on the 170m-ski run, go tobogganing, skating, or swimming. **www.snowdome.co.uk**. Or if shopping is more your thing visit Ventura Retail Park which features stores from the leading brands with free parking. Tamworth also has an Odeon Cinema, bowling alley and the usual variety of bars and restaurants.

Cannock Chase

Cannock Chase is a 6,800-hectare area of outstanding natural beauty in the heart of Staffordshire. Known locally as the Chase, it is popular with walkers and cross-country mountain bike users and has a range of mapped trails suitable for all abilities.

One of the most technically challenging routes is the purpose-built XC 'Follow the Dog' trail which is a 11 km. There are several features mountain bikers can look out for when riding on the chase, such as Kitbag Hill, Rabbit Hill, Quagmire Bridge, Roots Hall, and Brocton Shorts. Birches Valley Visitor Centre is less than 30 min drive from DMS Whittington.

Further Afield**Birmingham**

If you're after shopping or entertainment head to Birmingham, with world-class live music venues, nightlife, theatres and cinemas – too many to highlight here. The second city is just over an hour away by train from Lichfield City or 40 mins by car.

Peak District & Derbyshire

The Peak District and Derbyshire area is known and loved by many for its breath-taking views, bustling market towns and pretty villages, historic houses, famous attractions, and traditional events. It is one of the finest areas in the country to go walking, cycling, rock climbing or explore caves and visit attractions such as Chatsworth House, Heights of Abraham, or Alton Towers to name but a few.

DMS Whittington provides a host of excellent working, living, welfare and sports facilities

+ Our Courses

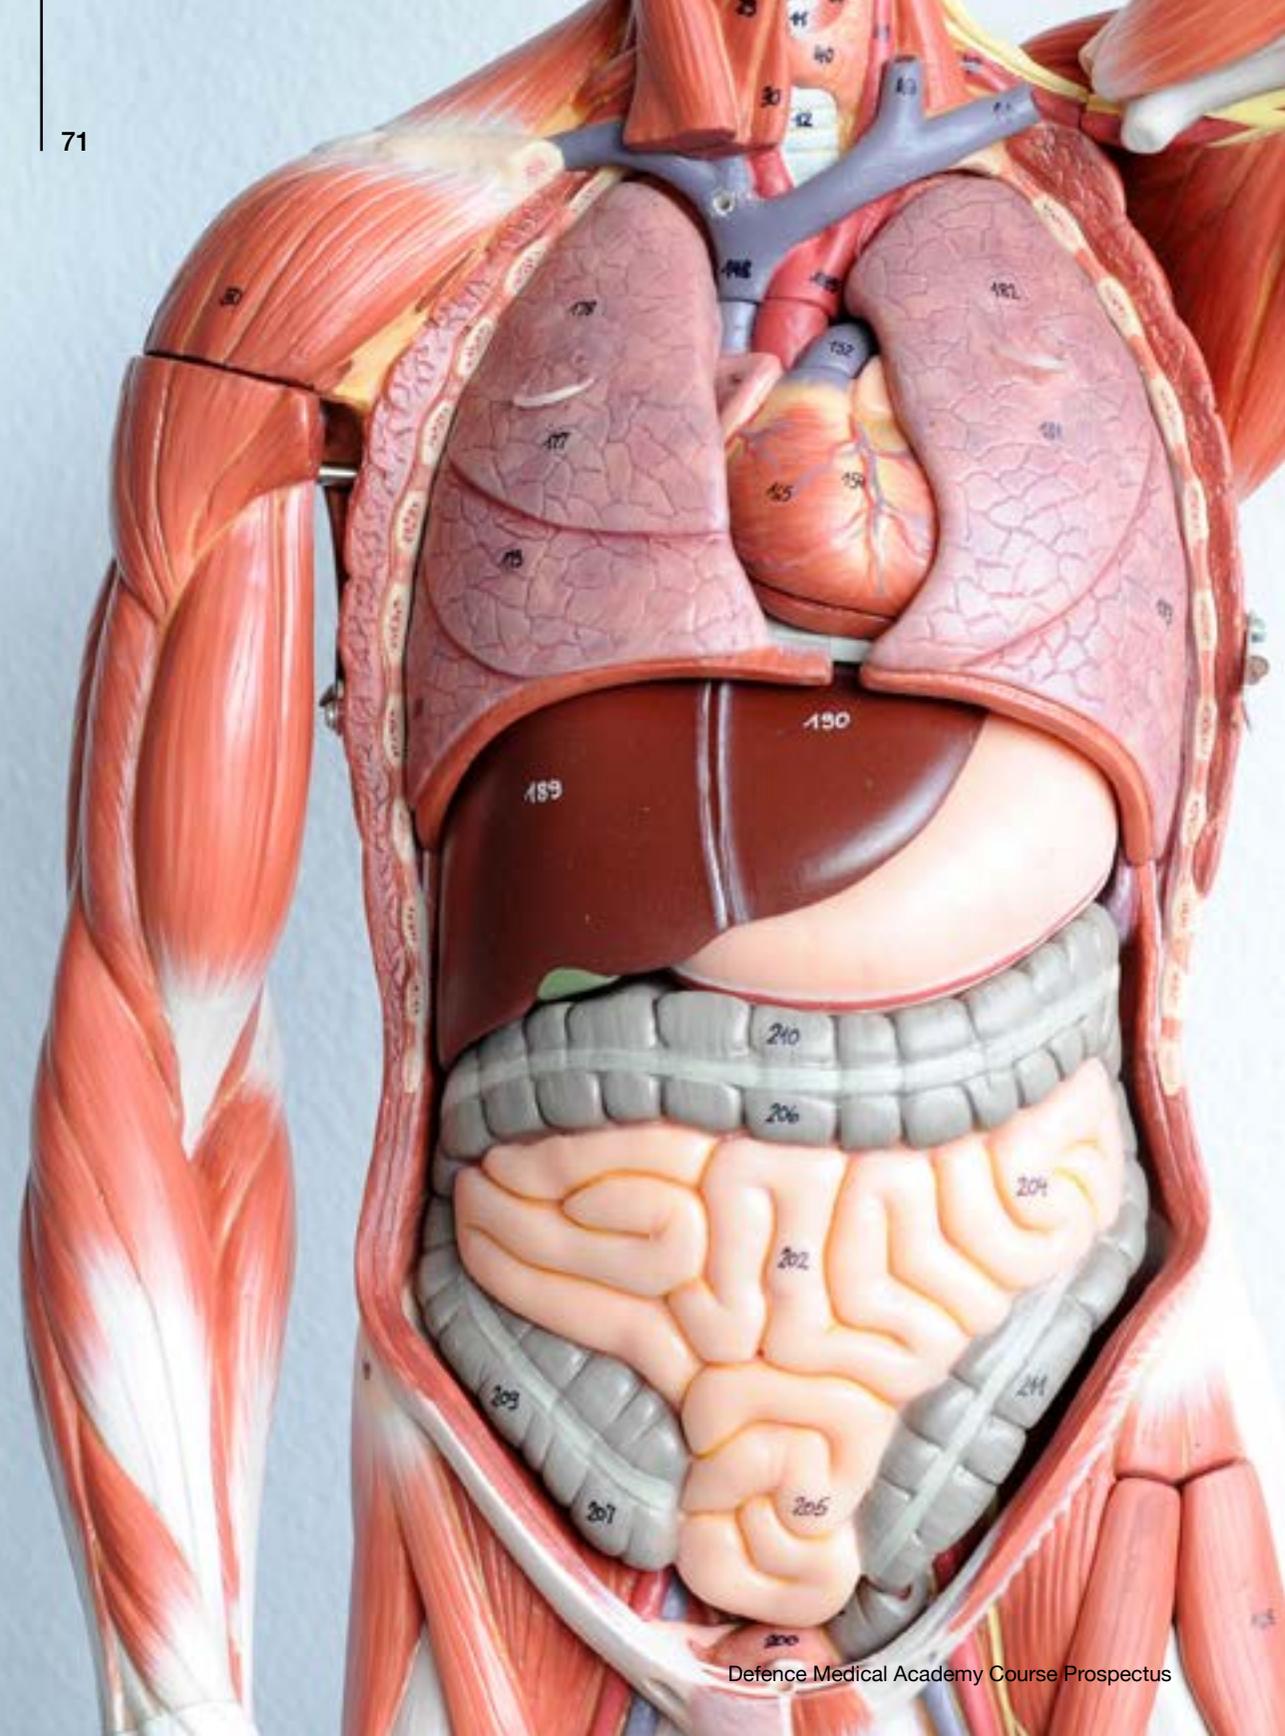

The DMA offers a wide range of short and long military medical courses from initial trade training (Phase 2) to further career or specialist training (Phase 3) to pre-deployment courses to support personnel on Defence operations. This section provides an overview of the current courses we offer and should be read in conjunction with the **Book an Internal Course** - <https://jfc.defencegateway.mod.uk/sites/DMS/DMAcadTrainingplans/SitePages/Booking%20a%20Course.aspx> and the latest **Schedule of Courses** that provide further guidance, course dates, how to apply and helpful contacts.

In addition to the courses provided by the DMA there are a number of other military medical specialist education and training opportunities including those provided by the Institute of Naval Medicine, Army Medical Services Training Centre, Defence CBRN School and the Uniformed Services University Global Health Distance Learning Program. Further information can be found in the Schedule of Courses.

International Partners who may be interested in the courses DMA offer should in the first instance contact their British Defence Attaché who will liaise with the Centre for Defence Healthcare Engagement, International Defence Training (Army) and the DMA.

The DMA also manages the External Training process for healthcare education and training that is required for role but not available internally. For Further information about eligibility, applications and help please email: **UKStratCom-DMS-DMA-TrgPIns-Group@mod.gov.uk**

+ Operational Courses

Advanced Team Medic

Code

1027

Location

DMS (W), Lichfield

Duration

4 Days

Entry Requirements

Students must be in date for MATT3 (or sS equivalent), completed Joint Team Medic course (1024) and Remote Team Medic (1026).

This course equips personnel deploying in small teams in a remote, austere (high threat) environment with skills as Non-Vocational Healthcare Providers (NVHP) to deliver emergency and primary healthcare within agreed scope of practice and under appropriate (remote) direction from professional medical personnel.

Battlefield Advanced Trauma Life Support (BATLS)

Code

1002

Location

Predominantly at DMS(W), Lichfield and several other distributed locations.

Duration

2.5 days

Entry Requirements

Enlisted OR 2-9 / Commissioned OF 1-5.

To ensure students are competent to undertake duties as a BATLS practitioner and can manage a trauma casualty in a pre-hospital setting using agreed protocols and treatment when on Operations.

The course takes a two-part blending learning approach. Part A is a 0.5-day Open and Distance Learning student-led course with theory-based information and skills videos required to be successful in the summative test. Part B is a 2-day residential course where students work in mixed career employment groups and are mentored through several advanced medical interventions. Students are subsequently assessed on practical skills and theoretical knowledge in summative assessments.

Biomedical Scientist Operational Training

Code

1005

Location

BMS Trg, Queen Elizabeth Hospital,
Edgbaston, Birmingham B15 2WB

Duration

13 days

Entry Requirements

Tri-Service Military HCPC
Biomedical Scientists.

This course is designed to provide specific operational training for Healthcare and Care Professions Council (HCPC) registered Biomedical Scientists of all three Services, including Reserves, to provide a deployed multi-disciplinary, clinical laboratory capability at Medical Roles 2 – 3.

Defence Anaesthesia Simulation (DASC)

Code

1020

Location

AMSTC, Strensall

Duration

2 days

Entry Requirements

Defence Medical Service
Anaesthetic Consultants, Trainees
and Operating Department
Practitioners or Anaesthetic Nurses.

This course is designed to provide training on the Diamedica DPA02, ComPac Portable Ventilator, Drager Fabius Tiro Anaesthetic Machine Heavy (AMH), the Belmont Rapid Transfuser and practical use of other deployable Defence Anaesthesia Equipment.

With a large faculty to facilitate high fidelity scenarios, each training scenario has been designed around key technical and non-technical learning objectives. All scenarios enable trainees to complete workplace-based assessments to support completion of the Military Advanced Module.

Defence Medical Information Capability (DMICP) Deployed

Code

1019

Location

DMS (W), Lichfield

Duration

2 days

Entry Requirements

All attendees must ensure they have a recent basic user knowledge of DMICP. DMICP, and have successfully completed the prerequisite DMICP e-learning available via the Defence Academy before attending. To access the e-learning packages contact **SGHDT-DCHET-TDWDMELSpt@mod.gov.uk**

This course is designed to provide specific operational Defence Medical Information Capability (DMICP) training for Healthcare and Care Professions Council (HCPC) registered Biomedical Scientists of all three Services, including Reserves, to provide a deployed multi-disciplinary, clinical laboratory capability at Medical Roles 2 – 3.

Ethical Issues for Medical Personnel (CPERS) - Awareness

Code

1013

Course Delivery

E-Learning Package <https://vle.dean2.mod.gov.uk/login/I/DMA/>

Duration

1 hr

Entry Requirements

All DMS personnel. CPERS Awareness is mandatory pre-deployment and/or Very High Readiness training.

This course provides awareness of ethical issues surrounding the detention and medical treatment of Captured Persons. Highlighting the roles and responsibilities of all medical personnel as detailed in Joint Doctrine Publication (JDP) 1-10. a.

Designed to assist the individual in conceptualising related doctrine and ethics, with the responsibilities and practicalities of CPERS detention and treatment.
