International Trade

# Trade & Investment Factsheets

## Bermuda

This factsheet provides the latest statistics on trade and investment between the UK and Bermuda.

Date of release: 18 May 2022; Date of next planned release: 17 June 2022

**Total trade in goods and services** (exports plus imports) between the UK and Bermuda was **£3.1 billion** in the four quarters to the end of Q4 2021, an increase of 7.2% or £206 million from the four quarters to the end of Q4 2020. Of this £3.1 billion:

- Total UK **exports** to Bermuda amounted to £2.1 billion in the four quarters to the end of Q4 2021 (an increase of 12.3% or £232 million compared to the four quarters to the end of Q4 2020);
- Total UK **imports** from Bermuda amounted to £926 million in the four quarters to the end of Q4 2021 (a decrease of 2.7% or £26 million compared to the four quarters to the end of Q4 2020).

**Bermuda was the UK's 51<sup>st</sup> largest trading partner** in the four quarters to the end of Q4 2021 accounting for 0.2% of total UK trade.<sup>1</sup>

In 2020, the **outward stock of foreign direct investment (FDI)** from the UK in Bermuda was £17.7 billion accounting for 1.1% of the total UK outward FDI stock.

In 2020, the **inward stock of foreign direct investment (FDI)** in the UK from Bermuda was £61.9 billion accounting for 3.2% of the total UK inward FDI stock.<sup>2</sup>

<sup>1</sup> Trade data sourced from the latest ONS publication of [UK total trade: all countries seasonally adjusted](#) data.

<sup>2</sup> Investment data sourced from the ONS [ad-hoc data release](#) if not provided in the latest ONS [main FDI release](#).

## About these statistics

This factsheet presents the latest statistics on trade and investment between the UK and Bermuda. It summarises a wide range of publicly available data, from data providers such as the Office for National Statistics (ONS) and HM Revenue and Customs (HMRC), as well as international data providers.

This factsheet is part of a wider range produced by the Department for International Trade which draws together many data sources into one single compendium document for each individual trade and investment partner. The full set of factsheets for different individual partners can be found on the [Trade and Investment Factsheets website](#) on GOV.UK.

Where data are available, these factsheets contain metrics on:

- [Headline trade statistics between the UK and each trading partner for the latest four quarters.](#)
- [Trade statistics by commodity and service type.](#)
- [Trade between the UK and each trading partner, broken down by UK country and English region.](#)
- [UK's market share as a total of all imports for each trading partner.](#)
- [Number of VAT-registered businesses trading goods.](#)
- [UK's Foreign Direct Investment \(FDI\) with each investment partner.](#)
- [Summary trade and investment data as reported by each trade and investment partner, as well as economic data and projections.](#)

All statistics are correct at the time of publication, with upcoming release dates available on the [Government update schedule for Official Statistics](#). The Department for International Trade strongly recommends users download the latest factsheet to ensure the most up-to-date statistics are used as some statistics are revised on a regular basis.

For the most up to date snapshot of the UK's trade and investment position with all partners, please see the [UK trade in numbers](#) publication or the [trade and investment core statistics book](#). These statistics are based on the same data sources as this factsheet and therefore are comparable. A list of all [Official Statistics](#) publications from the Department for International Trade can be found online.

## Trade with Bermuda (ONS)<sup>3 4 5</sup>

### Trade definitions

**UK exports** - Goods and services that were produced or sourced in the UK, which were sold to Bermuda.

**UK imports** - Goods and services that were sold to the UK, which were produced or sourced by Bermuda.

**Total or 'bilateral' trade** - The value of total trade between the UK and Bermuda (exports plus imports).

**Trade balance** - The difference between exports and imports, calculated by UK exports minus UK imports.

**Trade surplus** - This occurs when the value of UK exports to Bermuda is greater than the value of UK imports from Bermuda.

**Trade deficit** - This occurs when the value of UK exports to Bermuda is less than the value of UK imports from Bermuda.

**Headline trade statistics include trade in non-monetary gold (reported within the unspecified goods category), which can significantly affect trends for some partners. Please see the factsheet [quality and methodology report](#) for more information. These statistics are given on a balance of payments (change of ownership) basis.**

**Note:** *The latest data are for trade in 2021. Trade was affected by the COVID-19 pandemic and the associated lockdown measures globally. Consequently, data quality has been affected and may be subject to larger revisions than normal.*

**Total trade** in goods and services (exports plus imports) between the UK and Bermuda was £3.1 billion in the four quarters to the end of Q4 2021, an increase of 7.2% or £206 million from the four quarters to the end of Q4 2020.

In the four quarters to the end of Q4 2021, **total UK exports** to Bermuda amounted to £2.1 billion (an increase of 12.3% or £232 million compared to the four quarters to the end of Q4 2020).

Of all UK exports to Bermuda in the four quarters to the end of Q4 2021, £186 million (8.8%) were **goods** and £1.9 billion (91.2%) were **services**. In the four quarters to the end of Q4 2021, **UK exports of goods** to Bermuda increased by 18.5% or £29 million compared to the four quarters to the end of Q4 2020 while **UK exports of services** to Bermuda increased by 11.7% or £203 million compared to the four quarters to the end of Q4 2020.

In the four quarters to the end of Q4 2021, **total UK imports** from Bermuda were £926 million (a decrease of 2.7% or £26 million compared to the four quarters to the end of Q4 2020).

Of all UK imports from Bermuda in the four quarters to the end of Q4 2021, less than £1 million (less than 0.1%) were **goods** and £926 million (almost 100%) were **services**. In the same period, **UK imports of goods** from Bermuda decreased by 100.0% or £74 million compared to the four quarters to the end of Q4 2020 while **UK imports of services** from Bermuda increased by 5.5% or £48 million compared to the four quarters to the end of Q4 2020.

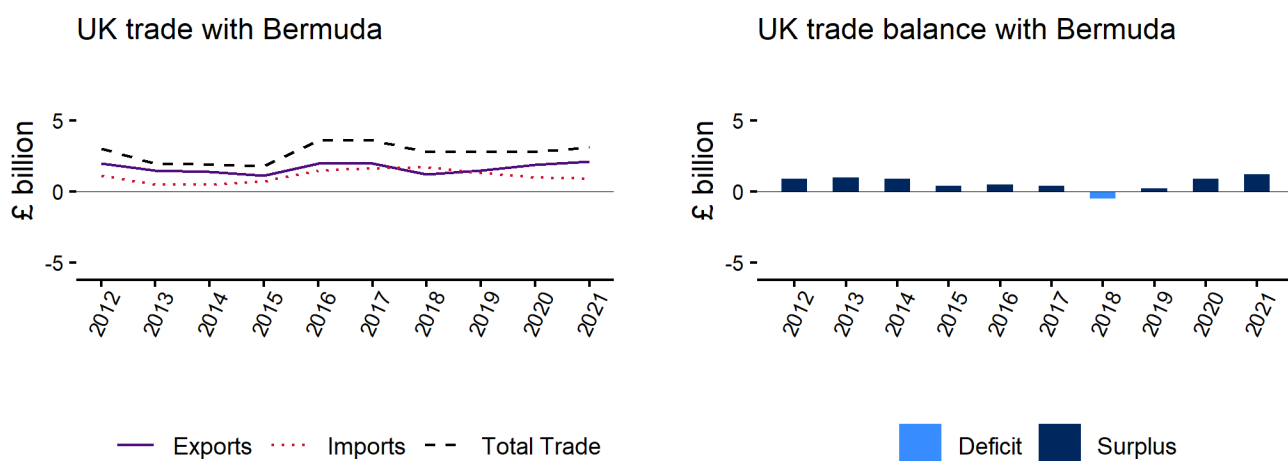

This means the UK reported a **total trade surplus** of £1.2 billion with Bermuda, compared to a trade surplus of £941 million in the four quarters to the end of Q4 2020. In the four quarters to the end of Q4 2021, the UK had a **trade in goods surplus** of £186 million with Bermuda, compared to a trade in goods surplus of £83 million in the four quarters to the end of Q4 2020. Meanwhile, in the four quarters to the end of Q4 2021 the UK reported a **trade in services surplus** of £1.0 billion with Bermuda, compared to a trade in services surplus of £858 million in the four quarters to the end of Q4 2020.

<sup>3</sup> Office of National Statistics (ONS) data source for total trade: [UK total trade data \(seasonally adjusted\)](#).

<sup>4</sup> This factsheet contains data as reported by the UK, users are advised to use UK-reported data where possible for consistency between partners. These data are subject to [asymmetries](#) e.g. the value of UK exports to Bermuda (reported by the UK) may not match the value of Bermuda imports from the UK (reported by Bermuda).

<sup>5</sup> Data are in nominal terms, meaning no adjustment has been made to account for changes in inflation or exchange rate. The totals may not exactly match the sum of their parts due to rounding.

The charts below present a time series for trade between the UK and Bermuda for each year between 2012 and 2021:

Source: ONS, UK trade in goods and services, Q4 2021

The data that are presented in the charts above are given in the table below in £ billion:

Year	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021
Value of total trade	3.0	2.0	1.9	1.8	3.6	3.6	2.8	2.8	2.8	3.1
Value of exports	2.0	1.5	1.4	1.1	2.0	2.0	1.2	1.5	1.9	2.1
Value of imports	1.1	0.5	0.5	0.7	1.5	1.6	1.7	1.3	1.0	0.9
Trade balance	+0.9	+1.0	+0.9	+0.4	+0.5	+0.4	-0.5	+0.2	+0.9	+1.2

In the four quarters to the end of Q4 2021, Bermuda was the UK's:<sup>6</sup>

- **51<sup>st</sup> largest trading partner** (accounting for 0.2% of total UK trade).
  - 98<sup>th</sup> largest **goods** trading partner (less than 0.1% of UK goods trade).
  - 32<sup>nd</sup> largest **services** trading partner (0.6% of UK services trade).
- **43<sup>rd</sup> largest export market** (accounting for 0.3% of total UK exports).
  - 80<sup>th</sup> largest **goods** export market (0.1% of UK goods exports).
  - 30<sup>th</sup> largest **services** export market (0.6% of UK services exports).
- **62<sup>nd</sup> largest import market** (accounting for 0.1% of total UK imports).
  - Joint 199<sup>th</sup> largest **goods** import market (less than 0.1% of UK goods imports).
  - 32<sup>nd</sup> largest **services** import market (0.5% of UK services imports).

**More timely data, for trade in goods only<sup>7</sup>**, show that UK exports of goods to Bermuda increased by 16.9% in the 12 months to March 2022 compared to the same period the previous year. UK imports of goods from Bermuda decreased by 63.5% over the same period.

**Note:** As these data are presented for the 12 months ending March 2022, the UK and its trading partners have been affected by lockdown and other measures during the COVID-19 pandemic. Data quality has also been affected and may be subject to larger revisions than usual.

<sup>6</sup> Rankings are based on the ONS dataset which contains data for all individual partners: [UK total trade data \(seasonally adjusted\)](#).

<sup>7</sup> ONS data source for trade in the latest 12 months up to March 2022: [UK Trade data \(seasonally adjusted\)](#).

## Trade in goods by commodity (ONS)<sup>8 9</sup>

Please note, these data are presented on a non-seasonally adjusted basis and are not directly comparable to seasonally adjusted data, including the headline trade statistics presented before.

The **top 5 goods exported from the UK to Bermuda** in the four quarters to the end of Q4 2021 were:

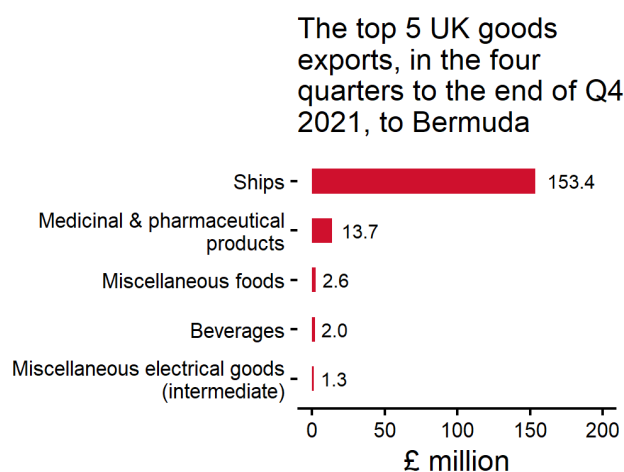

- 793 - Ships (£153.4 million or 82.4% of all UK goods exported to Bermuda)
- 54 - Medicinal & pharmaceutical products (£13.7 million or 7.3%)
- 09 - Miscellaneous foods (£2.6 million or 1.4%)
- 11 - Beverages (£2.0 million or 1.1%)
- 77I - Miscellaneous electrical goods (intermediate) (£1.3 million or 0.7%)

The **top 5 goods imported to the UK from Bermuda** in the four quarters to the end of Q4 2021 were:

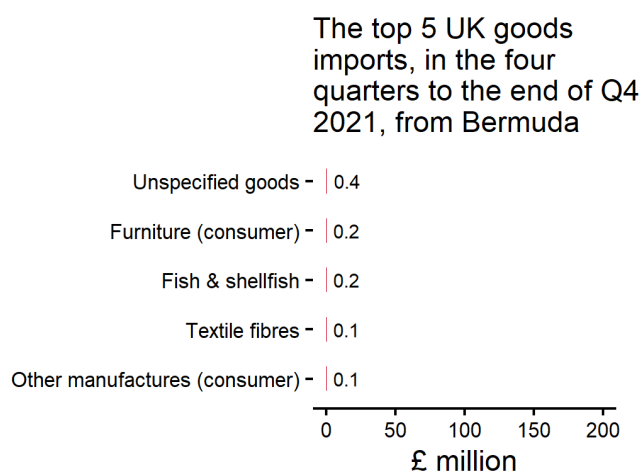

- 9 - Unspecified goods (£360 thousand)
- 82C - Furniture (consumer) (£230 thousand)
- 03 - Fish & shellfish (£190 thousand)
- 89OC - Other manufactures (consumer) (£120 thousand)
- 26 - Textile fibres (£70 thousand)

**Note:** The percentage of the total UK imports of goods from Bermuda accounted for by the above commodities are not provided here. This is due to the value of total UK exports of goods being rounded to the nearest £million, with commodity trade values being given to a greater level of accuracy. In some cases, this means the percentages above might sum to more than 100%.

The chart below shows the top 5 products exported from the UK to Bermuda and the top 5 products imported to the UK from Bermuda, by value, in the four quarters to the end of Q4 2021. All data shown in the chart are provided in the text above.

Source: ONS, March 2022

Source: ONS, March 2022

<sup>8</sup> Data on trade in goods by commodity are sourced from data by the ONS: [UK trade release \(non-seasonally adjusted\)](#). These statistics for [exports](#) and [imports](#) present the latest data from the March 2022 ONS publication which are given on a monthly basis.

<sup>9</sup> The commodities are categorised based on [SITC](#) codes using a mixture of level 2 and level 3 codes.

## Trade in services by service type (ONS)<sup>10</sup>

**Note:** Service type data for the trade in services between the UK and Bermuda in the four quarters to the end of Q4 2021 are not available from UK sources.

## Trade in goods by UK countries and English regions (HMRC)<sup>11</sup>

### Regional trade definitions

**UK regions** - The UK is categorised into 12 regions based on the International Territorial level 1 (ITL1). This level includes 9 regions in England, as well as Wales, Scotland and Northern Ireland.

**Regional trade data** - The data are compiled by merging HM Revenues & Customs (HMRC) trade data with employment data from the Interdepartmental Business Register (IDBR) so a business' trade can be allocated to a UK region based on the proportion of its employees employed in that region. Where a trader is not matched with the IDBR, its trade is matched with ONS postcode data to obtain the UK region in which the Head Office of the VAT-registered business is based.

**Note:** Data for UK regions are not available for Bermuda in 2021.

---

<sup>10</sup> Trade in services by service type is sourced from data by the ONS: [UK trade in services by partner country \(non-seasonally adjusted\)](#).

<sup>11</sup> HMRC data source for regional UK trade data: [HMRC Regional Trade Statistics](#) (data extracted from the spreadsheet download using the HMRC [interactive tables](#)).

## UK Market Share (ONS and UNCTAD)<sup>12 13</sup>

### Market Share definitions

**UK market share** – Imports from the UK as a percentage of all the goods and services imported by Bermuda. Market share is provided for total imports from the UK, as well as for goods and services separately.

**Market share methodology** – These UK market share statistics are derived by the Department for International Trade, using publicly available data from the Office of National Statistics (ONS) and the United Nations Conference on Trade and Development (UNCTAD). These new statistics allows users to estimate the importance of UK trade on imports to each trading partner. Market share is calculated as the value of imports from the UK using data from [ONS](#), divided by the value of total imports using data from [UNCTAD](#). Data from UNCTAD are converted from US dollars into pounds sterling by using the annual average spot exchange rate<sup>14</sup>.

The UK's market share for Bermuda in 2020 was as follows:

- The UK market share in Bermuda was 21.7% in 2020 for **goods only**. This is an increase of 18.4 percentage points from 2019.
- UK market share in services for Bermuda was not available in 2020.

## Number of VAT-registered businesses trading goods (HMRC)<sup>15 16 17</sup>

### VAT-registered businesses definition

**VAT-registered businesses** - Any company with a VAT taxable turnover of more than £85,000 must be registered for VAT with HM Revenue & Customs (HMRC). These estimates do not cover unregistered businesses (those businesses who are not registered for VAT and do not have an Economic Operator Registration and Identification (EORI) number), or those businesses that trade in services.

### Businesses trading with Bermuda in 2020:

- Data on the number of VAT-registered businesses trading with Bermuda are not available from this source.

### Businesses trading with the world in 2020:

- In 2020, around 148,700 UK VAT-registered businesses exported goods to the world.
- In 2020, around 252,900 UK VAT-registered businesses imported goods from the world.

<sup>12</sup> ONS data source for market share: [UK total trade data \(seasonally adjusted\)](#).

<sup>13</sup> UNCTAD data source for market share: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#). Some UNCTAD data may be based on estimates.

<sup>14</sup> Annual average spot exchange rates for USD\$ to GBP£ are sourced from the [Bank of England](#).

<sup>15</sup> HMRC data source for VAT-registered businesses trading goods: [HMRC Trade in Goods by Business Characteristics](#). These are experimental statistics and results should be treated with caution.

<sup>16</sup> Estimates only cover VAT-registered businesses exporting or importing goods. Data for UK businesses engaged in trade of services with Bermuda are not available. VAT-registered business may trade with multiple trading partners abroad so care should be taken when adding figures for multiple trading partners.

<sup>17</sup> Counts of businesses trading with individual EU partners exclude businesses trading below [Intrastat](#) thresholds, which for 2018 was £1.5million for EU imports and £250,000 for EU exports. The number of VAT-registered businesses has been rounded to the nearest 100 here.

## Trade in Value Added (OECD)<sup>18 19</sup>

### Trade in Value Added definitions

**Trade in Value Added (TiVA)** - TiVA is a statistical approach to examine supply chains, which is not possible with conventional ('gross') trade statistics. This is because TiVA treats international trade flows as flows of value added rather than gross flows of final goods and services.

**Domestic and foreign value added** - In TiVA, gross exports are decomposed into domestic and foreign value added. Domestic value added measures the value added generated by the domestic economy in the production of its exports (e.g. the value added by UK car manufacturers and their UK supply chains in car exports). Foreign value added measures the value added contribution that foreign suppliers make to these exports (e.g. the import of foreign car parts).

**TiVA statistics** - Although TiVA offers advantages over traditional ways of measuring trade, these statistics are not fully developed. These results are estimates which should be considered complementary to conventional trade statistics and not be over-interpreted. In addition, the geographical detail is limited for developing countries. More information on TiVA can be found in a recent [research report](#) by the Department for International Trade and Cambridge Econometrics.

**UK forward linkages for exports** - Measures the reliance of foreign exporters on UK value added (inputs).

**UK backward linkages for exports** - Measures the reliance of UK exporters on foreign value added (inputs).

**Employment supported by exports** - This provides an estimate of the number of employees in exporting industries, and their domestic supply chains that are supported by exporting activity.

**Note:** Data for Bermuda on forward and backward linkages for exports in 2018 are not available from this data source.

### Employment supported by exports:<sup>20</sup>

- Data for Bermuda on employment supported by exports in 2018 are not available.
- Exporting activity in the UK supported 6.8 million persons in 2018 (20.9% of total UK employment). Data regarding the number of UK jobs supported by export activity to Bermuda in 2018 are unavailable.

---

<sup>18</sup> The estimates in this factsheet are based on Trade in Value Added statistics published by the Organisation for Economic Co-operation and Development (OECD): a) [Trade in Value Added database \(origin of value added in gross exports\), November 2021](#); and b) [Trade in Employment \(TiM\) database: Principal indicators, February 2022](#), indicators EXGR\_DEM and EMPN\_EXGRDEM.

<sup>19</sup> The latest data available from OECD are for 2018. Trade in Value Added data are currently awaiting revisions and are correct as of 18 February 2022.

<sup>20</sup> These estimates measure employees directly and indirectly supported by exports i.e. workers employed in exporting businesses and in other domestic businesses supplying inputs to the exporting businesses. The estimates should be interpreted as employment *supported* by exports, rather than employment *created* by exports, as the jobs may have previously existed to serve the domestic market. Employees may also be supported by exports from a multiple number of trading partners. As with the core TiVA data, these estimates are based on a number of assumptions and modelling, so should be interpreted with caution.

## Foreign Direct Investment with Bermuda (ONS)<sup>21 22 23</sup>

### Foreign direct investment definitions

**Foreign direct investment (FDI)** - Investment made by a firm or individual in one economy ('direct investor') to acquire a 'lasting interest' in an enterprise operating in another economy. The lasting interest is deemed to exist if the direct investor acquires at least 10% of equity, or equivalently 10% of the voting rights, of the company.

**FDI stock** - The accumulated value of all previous investments at the end of a reference period. Figures are net, that is the value of investment minus disinvestment. **UK outward FDI stock** provides the total value of FDI by UK investors in economies abroad (investment of a UK parent company in Bermuda), while **UK inward FDI stock** provides the total value of FDI by non-UK investors in the UK (investment of a Bermuda parent company in the UK).

**Data disclosure** - It can happen that FDI is coming from only a few investors. In that case, figures are suppressed by the ONS to avoid disclosure of information relating to individual enterprises.

**Note:** *The FDI data for 2020 have been affected by changes in sampling methodology. Improvements have been made to the population which has been sampled and the way that businesses are sampled from the population, capturing a wider range of businesses. This will mean 2020 data are more representative of UK FDI with overseas partners.*

*However, some caution should be taken when comparing 2020 data to previous years. The methodology change has led to an increase in reported FDI, particularly inward FDI, in 2020. The effect of this methodology change will vary between partners, although it is not possible to quantify this specific impact for individual partners.*

*More information about the methodology changes can be found on the [ONS website](#).*

#### UK outward FDI stock:

- In 2020, the **stock of FDI from the UK in Bermuda** was £17.7 billion, 2.9% or £530 million lower than in 2019. In 2020, Bermuda accounted for 1.1% of the total UK outward FDI stock.
- In 2020, the total UK FDI abroad was £1.7 trillion. In 2020, the **top destination for UK FDI** was United States, accounting for 24.1% of the total UK outward FDI stock, followed by Netherlands (11.2%) and Luxembourg (6.0%).

#### UK inward FDI stock:

- In 2020, the **stock of FDI from Bermuda in the UK** was £61.9 billion, 154.7% or £37.6 billion higher than in 2019. In 2020, Bermuda accounted for 3.2% of the total UK inward FDI stock.
- In 2020, the total FDI in the UK was £1.9 trillion. In 2020, the **top investor in the UK** was United States, accounting for 24.8% of the total UK inward FDI stock, followed by Netherlands (10.4%) and Jersey (7.0%).

<sup>21</sup> Data for both inward and outward FDI between the UK and Bermuda are not available in the main ONS release ([Foreign Direct Investment involving UK companies](#)). Therefore, an [ONS FDI ad-hoc data release](#) is used to provide the latest FDI data for Bermuda where it is unavailable in the main ONS release.

<sup>22</sup> Data are presented on a directional basis which means they are not directly comparable to the asset/liability report prepared by ONS as part of the Balance of Payments statistical release. Figures are on net basis (investments minus disinvestments) and are given in nominal terms. Negative FDI values occur when disinvestments are greater than investments. Data are on an immediate destination/source basis and not an ultimate destination/source, which is likely to overstate financial centres such as the Netherlands and Luxembourg.

<sup>23</sup> This factsheet contains data as reported by the UK and are subject to asymmetries e.g. UK outward FDI to Bermuda (reported by the UK) may not match Bermuda inward FDI from the UK (reported by Bermuda). For consistency when comparing between partners, users are advised to use UK-reported data as far as possible.

## Economic statistics (as reported by Bermuda)

### Trade and investment data for Bermuda (UNCTAD)<sup>24 25 26</sup>

The following data are reported by Bermuda and are for reference only. Whenever possible use data from UK sources for trade and investment. All data below are presented in USD\$ in billions.

Year	2013	2014	2015	2016	2017	2018	2019	2020
<b>TRADE</b>								
Nominal exports	1.4	1.4	1.3	1.3	1.4	1.6	1.6	1.1
Nominal imports	1.9	2.0	1.8	1.9	2.0	2.2	2.2	1.7
Nominal trade balance	-0.5	-0.6	-0.6	-0.6	-0.6	-0.6	-0.6	-0.7
<b>INVESTMENT</b>								
Inward FDI stock	2.7	2.7	2.5	2.6	2.3	2.4	2.4	2.5
Outward FDI stock	0.8	0.9	0.8	0.9	0.9	0.2	0.2	0.5

<sup>24</sup> United Nations Conference on Trade and Development (UNCTAD) data sources for trade: [Goods and Services \(BPM6\): Exports and imports of goods and services, annual](#); and for investment: [Foreign direct investment: Inward and outward flows and stock, annual](#).

<sup>25</sup> Estimates are given in italics. Historic data pre-2013 can be found on the [UNCTAD website](#).

<sup>26</sup> All trade data are on a Balance of Payments basis. The FDI data are on a directional and net (investment minus disinvestment) basis. These figures are given in current prices and are rounded to the nearest \$0.1 billion, with missing data represented by dashes.

## Economic data and projections for Bermuda (IMF)<sup>27 28</sup>

The following table presents economic statistics for Bermuda. Projections include assumptions of the effects of COVID-19 and may be subject to change in the future. Estimated data, as well as projections up to 2027, are presented in italics and are subject to revision.

**Note:** IMF World Economic Outlook does not have data on Bermuda.

---

<sup>27</sup> International Monetary Fund (IMF) provide economic commentary in their [World Economic Outlook reports](#). The latest data presented here can be found in the [World Economic Database, April 2022](#).

<sup>28</sup> Projections and estimates are given in italics. More information for each metric and each partner, as well as historic data pre-2019, can be found on the [IMF website](#).

## Top goods traded with the world by Bermuda (UN Comtrade)<sup>29 30</sup>

Data presented here shows the top commodities traded to the world, not solely the UK, by Bermuda. These commodities are presented on a different classification from the earlier data by commodity from the ONS and should not be directly compared.

You access more statistics about individual export and import **markets** for Bermuda by using the online [UN Comtrade tool](#) developed by the Department for International Trade and the Department for Business, Energy and Industrial Strategy.

### Top goods exported to the world by Bermuda in 2020:

Rank	HS Commodity	USD million	% of total goods exported
1	92 - Musical instruments; parts and accessories	9	48.3%
2	22 - Beverages, spirits and vinegar	3	15.0%
3	87 - Vehicles other than railway or tramway stock	2	8.3%
4	90 - Optical, photographic, cinematographic and medical equipment	1	6.2%
5	73 - Articles of iron or steel	1	5.7%
6	85 - Electrical machinery and equipment	1	4.8%
7	84 - Machinery and mechanical appliances	1	4.3%
8	71 - Precious stones and metals	0	1.3%
9	24 - Tobacco and manufactured substitutes	0	1.0%
10	39 - Plastics and articles thereof	0	1.0%
	<b>All goods exported</b>	<b>19</b>	<b>100.0%</b>

### Top goods imported from the world by Bermuda in 2020:

Rank	HS Commodity	USD million	% of total goods imported
1	99 - Commodities not specified according to kind	148	16.4%
2	84 - Machinery and mechanical appliances	58	6.4%
3	27 - Mineral fuels or oils, products of their distillation	53	5.9%
4	85 - Electrical machinery and equipment	43	4.7%
5	22 - Beverages, spirits and vinegar	41	4.6%
6	94 - Furniture; bedding, mattresses, cushions	38	4.3%
7	49 - Printed books, papers, printing industry products	38	4.2%
8	87 - Vehicles other than railway or tramway stock	30	3.4%
9	39 - Plastics and articles thereof	29	3.2%
10	02 - Meat and edible meat	23	2.6%
	<b>All goods imported</b>	<b>904</b>	<b>100.0%</b>

<sup>29</sup> United Nations (UN) Comtrade data are sourced from the online [UN Comtrade tool](#). The data reported above are for 2020, but as the data upload to UN Comtrade is continuous, more timely data may be available from the source.

<sup>30</sup> Data are classified using the [Harmonized System](#) and are given on a physical movement basis, with UK data comparable to HMRC data sources rather than the headline trade figures presented here from ONS.

## Top services traded with the world by Bermuda (ITC Trade Map)<sup>31 32 33</sup>

Data presented here shows the top service types traded to the world, not solely the UK, by Bermuda.

### Top services exported to the world by Bermuda in 2019:

Rank	EBOPS Service Type	USD million	% of total services exported
1	Travel	601	38.2%
2	Other business services	480	30.5%
3	Financial services	189	12.0%
4	Insurance and pension services	80	5.1%
5	Telecommunications, computer, and information services	79	5.0%
	<b>All services exported</b>	<b>1575</b>	<b>100.0%</b>

### Top services imported from the world by Bermuda in 2019:

Rank	EBOPS Service Type	USD million	% of total services imported
1	Other business services	324	30.2%
2	Travel	263	24.5%
3	Transport	240	22.3%
4	Telecommunications, computer, and information services	83	7.8%
5	Insurance and pension services	77	7.2%
	<b>All services imported</b>	<b>1073</b>	<b>100.0%</b>

<sup>31</sup> International Trade Centre (ITC) Trade Map data are sourced from the online [ITC Trade Map tool](#). The data above are for 2019, but as the data upload to ITC is continuous, more timely data may be available from the source.

<sup>32</sup> Data are classified on the [EBOPS 2010](#) basis. 'Other business services' include: Research and development, professional and management consulting services, technical services and trade related services. A full description of all service types can be found on the [UN Statistics Division website](#).

<sup>33</sup> Estimates are shown in italics, where for some partners only estimates are available - These data have been included for information and should be treated with caution.

## Background Notes

This document is one of a wider set of factsheets between the UK and its individual trade and investment partners which can be found on the [Trade and Investment Factsheets website](#). All of these factsheets are published as [Official Statistics](#) as defined by the [UK Statistics Authority](#), and are compliant with the [Code of Practice for Statistics](#) where they meet user needs as well as promoting trustworthiness, quality and public value in Government statistics. The publication of these factsheets as Official Statistics was agreed by the Chief Statistician at the Department for International Trade, who monitors these factsheets to ensure they continue to adhere to the [Code of Practice for Statistics](#). These factsheets have not been formally assessed by the [Office of Statistics Regulation](#) and are therefore not designated as [National Statistics](#).

As a requisite of publishing as Official Statistics, a [quality and methodology report](#) has been produced which outlines the quality of these factsheets, as well as providing more information on the methodology of the data sources presented here. This report contains hyperlinks to information on the strengths and weaknesses for each data source. Statistics contained in the factsheets from UK data providers all come from Official Statistics publications, with some sources also being from National Statistics publications.

Future updates of these factsheets can be found on the [Government update schedule for Official Statistics](#). These scheduled updates are in line with significant updates from UK data providers when they release new data. Unscheduled releases of the factsheets may also be necessary to accommodate data updates where little or no advanced notice are given, such as in the case of international data updates. Please see the data update schedule and revisions policy in the [quality and methodology report](#) for more information. Please note that there may be occasions where more recent data than is provided here can be found directly from the data providers.

The Department for International Trade welcome any feedback or comments on these factsheets, please send these to [statistics@trade.gov.uk](mailto:statistics@trade.gov.uk).
