4. Each Party shall periodically review its customs procedures with a view to exploring options for their simplification and the enhancement of mutually beneficial arrangements to facilitate trade between the Parties.

5. The Parties shall seek to reinforce their cooperation to promote trade facilitation while ensuring effective customs control.

Article 5.4
Data, Documentation and Automation

1. With a view to simplifying and minimising the complexity of import, export, and transit formalities and documentation requirements, each Party shall ensure as appropriate, that such formalities, data, and documentation requirements:
 - (a) are adopted or applied with a view to a rapid release of goods, to facilitate trade between the Parties; and
 - (b) are adopted or applied in a manner that aims to reduce the time and cost of compliance for traders and operators.
2. Each Party shall:
 - (a) make electronic systems accessible to customs users;
 - (b) allow a customs declaration to be submitted in electronic format;
 - (c) employ electronic or automated systems for risk analysis and targeting; and
 - (d) endeavour to implement common standards and elements for import and export data by giving consideration to the WCO Data Model;
3. The Parties shall endeavour to cooperate on the development of interoperable electronic systems, to facilitate trade between the Parties.

The enquiry points shall answer enquiries and provide the forms and documents within a reasonable time period set by each Party, which may vary depending on the nature or complexity of the request.

Article 5.6 Simplified Customs Procedures

Each Party shall adopt or maintain measures allowing traders or operators fulfilling criteria specified in its laws and regulations to benefit from further simplification of customs procedures. Those measures may be offered through a Party's Authorised Economic Operator program, or otherwise made available to traders or operators in accordance with its laws and regulations and may include:

- (a) customs declarations containing a reduced set of data or supporting documents, including for the movement of low-value consignments;

- (b) deferred payment of customs duties and taxes until after the release of those imported goods; and
- (c) other matters as the Party may decide.

Article 5.7 **Expedited Shipments**

1. Each Party shall adopt or maintain expedited customs procedures for expedited shipments,¹ while maintaining appropriate customs control and selection. These procedures shall:
 - (a) provide for the submission and processing of information in advance of the arrival² of a shipment to expedite its release;
 - (b) to the extent possible, allow for a single submission of information covering all goods contained in a shipment through, if possible, electronic means;
 - (c) to the extent possible, provide for the release of expedited shipments with a minimum of documentation or a reduced set of data;

 - (ii) the goods are not subject to physical examination or inspection; and
 - (iii) the goods are otherwise admissible under the importing Party's laws and regulations;

¹ Expedited shipments may include goods imported through air cargo, or goods imported by traders fulfilling other criteria specified in the importing Party's laws and regulations.

² For the purposes of this Article and in relation to shipments into the UK, "arrival" for the UK means arrival at the point where the goods are presented to customs.

2. If a Party does not provide the treatment in subparagraphs 1(a) through 1(f) to all shipments, that Party shall provide a separate³ and expedited customs procedure that provides that treatment for expedited shipments.

Article 5.8 **Release of Goods**

1. Each Party shall adopt or maintain simplified customs procedures for the efficient release of goods in order to facilitate trade between the Parties in a manner that aims to reduce the cost for traders. This paragraph shall not require a Party to release a good if its requirements for release have not been met.
2. Pursuant to paragraph 1, each Party shall adopt or maintain procedures that:
 - (a) provide, in normal circumstances, for goods to be released within 48 hours of arrival,⁴ provided:

Before releasing the goods, a Party may require that an importer provides sufficient guarantee in the form of a surety, a deposit, or some other appropriate instrument; and

³ For greater certainty, "separate" does not mean a specific facility or lane.

⁴ For the purposes of this Article and in relation to shipments into the UK "arrival" for the UK means arrival at the point where the goods are presented to customs.

- (e) to the extent possible and if applicable, provide for, in accordance with its laws and regulations, clearance of certain goods with a minimum of documentation.
3. If a Party allows for the release of goods conditioned on a security, it shall adopt or maintain procedures that:
- (a) ensure that the amount of the security is no greater than that required to ensure that obligations arising from the importation of the goods will be fulfilled;
 - (b) ensure that the security shall be discharged as soon as possible after its customs authority is satisfied that the obligations arising from the importation of the goods have been fulfilled; and
 - (c) allow importers to provide security using a form other than cash, including, in appropriate cases where an importer frequently enters goods, instruments covering multiple entries.

Article 5.9 Risk Management

1. Each Party shall adopt or maintain a risk management system for customs control that enables its customs authority to focus its inspection activities on high-risk consignments and expedite the release of low-risk consignments.
2. Each Party shall design and apply risk management in a manner as to avoid arbitrary or unjustifiable discrimination, or disguised restrictions to international trade.
3. Each Party shall base risk management on assessment of risk through appropriate selectivity criteria.
4. Each Party may also select, on a random basis, consignments for inspection activities referred to in paragraph 1 as part of its risk management.
5. In order to facilitate trade, each Party shall periodically review and update, as appropriate, the risk management system specified in paragraph 1.

Article 5.10 Advance Rulings

1. Each Party shall issue, prior to the importation of a good of the other Party into its territory, a written advance ruling at the written request of an

importer in its territory, or an exporter or producer in the territory of the other Party⁵, each an "applicant", with regard to:

- (a) tariff classification;
 - (b) whether a good is originating in accordance with Chapter 4 (Rules of Origin and Origin Procedures); and
 - (c) other matters as the Party may decide.
2. Each Party shall issue an advance ruling as expeditiously as possible and in no case later than 90 days after it receives a request, provided that the applicant has submitted all the information that the receiving Party requires to make the advance ruling. This includes a sample of the good for which the applicant is seeking an advance ruling if requested by the receiving Party. In issuing an advance ruling, the Party shall take into account the facts and circumstances that the applicant has provided. For greater certainty, a Party may decline to issue an advance ruling if the facts and circumstances forming the basis of the advance ruling are the subject of administrative or judicial review or where the application is not based on factual information, or does not relate to an intention to import or export. A Party that declines to issue an advance ruling shall promptly notify the applicant in writing, setting out the relevant facts and circumstances and the basis for its decision to decline to issue the advance ruling.
 3. Each Party shall provide that its advance rulings shall take effect on the date that they are issued or on another date specified in the ruling, and remain in effect for at least three years, provided that the law, facts and circumstances on which the ruling is based remain unchanged.
 4. After issuing an advance ruling, the Party may modify or revoke the advance ruling if there is a change in the law, facts or circumstances on which the ruling was based, if the ruling was based on inaccurate or false information, if the ruling was in error, if conflicting advance rulings have been issued for goods of the same class or kind, if the advance ruling has been reviewed internally, or if the importing customs authority changes its interpretation of the law.
 5. Where a Party revokes or modifies an advance ruling, it shall provide written notice to the applicant setting out the relevant facts and the basis for its decision.
 6. Neither Party shall apply a revocation or modification retroactively to the detriment of the applicant unless the ruling was based on incomplete, incorrect, inaccurate, false, or misleading information provided by the applicant.

⁵ For greater certainty, an importer, exporter or producer may submit a request for an advance ruling through a duly authorised representative.

7. Subject to any confidentiality requirements in its laws and regulations, a Party may publish its advance rulings including online.
8. Each Party shall publish online, at least:
 - (a) the requirements for the application for an advance ruling, including the information to be provided and the format;
 - (b) the time period by which it will issue an advance ruling; and
 - (c) the length of time for which the advance ruling is valid.
9. An advance ruling issued by a Party shall be binding on that Party in respect of the applicant that sought it and on the applicant.
10. Each Party shall provide, upon written request of an applicant, a review of the advance ruling or of the decision to revoke or modify it.

Article 5.11 Customs valuation

For the purpose of determining the customs value of goods traded between the Parties, the provisions of Part I of the Customs Valuation Agreement shall apply, *mutatis mutandis*.

Article 5.12 Review and Appeal

1. Each Party shall ensure that any person to whom it issues a decision on a customs matter has access to:
 - (a) an administrative appeal to or review by an administrative authority higher than or independent of the official or office that issued the decision; and
 - (b) a judicial appeal or review of the decision.
2. Each Party shall ensure that, in a case where the decision on appeal or review under subparagraph 1 (a) is not given within the period of time provided for in its laws and regulations or without undue delay, the person has the right to further administrative or judicial appeal or review or any other recourse to the judicial authority in accordance with that Party's laws and regulations.

3. Each Party shall provide a person to whom it issues an administrative decision on the basis of a review or appeal referred to in paragraph 1 with the reasons for the administrative decision, so as to enable such a person to have recourse to appeal procedures where necessary.

Article 5.13 Penalties

1. Each Party shall adopt or maintain measures that allow for the imposition of a penalty by a Party's customs authority for a breach of its customs laws.
2. Each Party shall ensure that any penalties imposed for breaches of customs laws are proportionate and non-discriminatory. Any penalty imposed shall depend on the facts and circumstances of the case and shall be commensurate with the degree and severity of the breach.
3. Each Party shall ensure that a penalty imposed by its customs authority for a breach of its customs laws is imposed only on the person legally responsible for the breach.
4. Each Party is encouraged to require its customs authority, when imposing a penalty for a breach of its customs laws, to consider as a potential mitigating factor the voluntary disclosure of the breach prior to its discovery by the customs authority.
5. Each Party shall ensure that if a penalty is imposed for a breach of customs laws, an explanation in writing is provided to the person upon whom the penalty is imposed, specifying the nature of the breach and the applicable laws under which the amount or range of penalty for the breach has been prescribed.
6. Each Party shall provide in its laws, regulations or procedures, or otherwise give effect to, a fixed and finite period within which its customs authority may initiate proceedings to impose a penalty relating to a breach of its customs laws.

Article 5.14 Customs Cooperation

1. The Parties shall, within the competence and available resources of their respective customs authorities, enhance cooperation, including the exchange of information on the matters referred to in this Chapter, with a view to further developing trade facilitation, while ensuring compliance with their respective customs laws, regulations, and procedural requirements, and improving supply chain security, in the following areas:

- (a) cooperation on harmonisation of data requirements for customs purposes, in line with applicable international standards such as the WCO standards;
- (b) cooperation on further development of the customs-related aspects of securing and facilitating the international trade supply chain in accordance with the *SAFE Framework of Standards to Secure and Facilitate Global Trade*, adopted by the WCO Council in June 2005;
- (c) cooperation on improvement of their risk management techniques, including sharing best practices and, if appropriate, risk information and control results; and
- (d) cooperation in international organisations on matters of common interest, including tariff classification, customs valuation and origin.

Article 5.15 Single Window

Each Party shall endeavour to develop or maintain single window systems to facilitate a single, electronic submission of all information required by customs and other legislation for the exportation, importation and transit of goods.

Article 5.16 Transit and Transshipment

Each Party shall:

- (a) ensure the facilitation and effective control of transshipment operations and transit movements through their respective territories;
- (b) ensure that its authorities and agencies responsible for border controls and procedures dealing with the transit and transshipment of goods cooperate and coordinate their activities in order to facilitate trade; and
- (c) allow goods intended for import to be moved under customs control within its territory from a customs office of entry to another customs office in its territory from where the goods would be released or cleared.

Article 5.17
Post-clearance Audit

1. With a view to expediting the release of goods, each Party shall:
 - (a) adopt or maintain post-clearance audit processes to ensure compliance with customs and other related laws and regulations;
 - (b) conduct post-clearance audits in a risk-based manner, which may include appropriate selectivity criteria;
 - (c) conduct post-clearance audits in a transparent manner. Where an audit is conducted and conclusive results have been achieved the Party shall, without delay, notify the person whose record is audited of the results, the reasons for the results and the audited person's rights and obligations; and
 - (d) wherever practicable, use the result of post-clearance audit in applying risk management.

Article 5.18
Customs Brokers

The Parties shall:

- (a) not require the mandatory use of customs brokers;
- (b) publish measures on the use of customs brokers; and
- (c) apply transparent and objective rules if and when licensing customs brokers.

Article 5.19
Temporary Admission of Goods

1. Each Party shall allow, as provided for in its laws and regulations, goods to be brought into its territory, conditionally relieved, totally or partially, from payment of import duties and taxes, if such goods are brought into its customs territory for a specific purpose, have not undergone any change except normal depreciation and wastage due to the use made of them, and are intended for re-exportation within a specific period.
2. Each Party shall continue to facilitate procedures for the temporary admission of goods traded between the Parties in accordance with its laws and regulations, and international obligations, with regard to:

- (a) goods intended for display or demonstration at exhibitions, fairs, meetings, demonstrations or similar events, and goods intended for use in connection with the display of foreign products at those events;
- (b) professional equipment;
- (c) commercial samples, advertising, films and recordings;
- (d) containers, packing materials and pallets that are in use or to be used in the shipment of goods in international traffic;
- (e) goods imported for sports purposes; and
- (f) any other goods as the Party may decide.

Article 5.20
Perishable Goods

1. For the purposes of this Article, perishable goods are goods that rapidly decay due to their natural characteristics, in particular in the absence of appropriate storage conditions.
2. With a view to preventing avoidable loss or deterioration of perishable goods, and provided that all regulatory requirements have been met, each Party shall:
 - (a) provide in normal circumstances, for perishable goods to be released within 6 hours of arrival⁶ provided:
 - (i) all information and documentation necessary to release the goods have been submitted on or prior to arrival;
 - (ii) the goods are not subject to physical examination or inspection;
 - (iii) the goods are otherwise admissible under the importing Party's laws and regulations; and
 - (b) in exceptional circumstances where it would be appropriate to do so, provide for the release of perishable goods outside the business hours of customs and other relevant authorities.
3. Each Party shall give appropriate priority to perishable goods when scheduling any physical examinations or inspections that may be required.

⁶ For the purposes of this Article and in relation to shipments into the UK, "arrival" means at the point where the goods are presented to customs.

4. Each Party shall either arrange or allow an importer to arrange for the proper storage of perishable goods pending their release. Each Party may require that any storage facilities arranged by the importer have been approved or designated by its relevant authorities. The movement of the goods to those storage facilities, including authorisations for the operator moving the goods, may be subject to the approval, where required, of the relevant authorities. Each Party shall, where practicable and consistent with domestic legislation, upon the request of the importer, provide for any procedures necessary for release to take place at those storage facilities.

Article 5.21 Confidentiality

1. Further to Article 31.6 (Confidentiality of Information – General Provisions and Exceptions), each Party shall maintain the confidentiality of the information collected pursuant to this Chapter or Chapter 4 (Rules of Origin and Origin Procedures) and shall protect that information from disclosure that could prejudice the competitive position of the person to whom the confidential information relates.
2. Confidential information collected pursuant to this Chapter or Chapter 4 (Rules of Origin and Origin Procedures) shall only be used or disclosed for the purpose of administration and enforcement of customs matters, including determination of origin, or as otherwise provided under the Party's laws and regulations, except with the permission of the Party who provided the confidential information. Where permission has been granted by a Party, that use shall then be subject to any restrictions laid down by that Party.
3. If the Party receiving or obtaining the information is authorised or required by its laws and regulations to disclose the information, that Party shall, where possible, notify the Party who provided that information, wherever possible in advance of that disclosure.
4. Paragraph 2 shall not preclude the use of information collected as part of its customs processes as evidence in proceedings or charges subsequently instituted before the courts or tribunals for failure to comply with customs law. Where the information is received from the other Party, the Party shall, where possible, notify the Party who provided the information in advance of such use.

Article 5.22 Working Group on Rules of Origin and Customs and Trade Facilitation

The Working Group on Rules of Origin and Customs and Trade Facilitation established pursuant to Article 4.29 (Working Group on Rules of

Origin and Customs and Trade Facilitation – Rules of Origin) shall consider any matters arising under this Chapter.

CHAPTER 6

SANITARY AND PHYTOSANITARY MEASURES

Article 6.1 Definitions

1. For the purposes of this Chapter:

“relevant international organisations” means organisations referred to in Annex A, paragraph 3 of the SPS Agreement;

“SPS measure” means a “sanitary or phytosanitary measure” as defined in Article 1.4 (General Definitions – Initial Provisions and General Definitions); and

“the SPS Committee” means the Committee on Sanitary and Phytosanitary Measures.
2. The definitions set out in Annex A to the SPS Agreement shall apply.
3. The Parties shall take into consideration the glossaries and definitions of the relevant international organisations, such as the Codex Alimentarius Commission ("Codex"), the World Organisation for Animal Health ("OIE") and the International Plant Protection Convention ("IPPC"). In the event of an inconsistency between these glossaries and definitions and the definitions set out in the SPS Agreement, the definitions set out in the SPS Agreement shall prevail.

Article 6.2 Objectives

The objectives of this Chapter are to:

- (a) protect human, animal and plant life and health in the territory of the Parties while facilitating trade between them;
- (b) ensure that the Parties' SPS measures do not create unjustified barriers to trade;
- (c) reinforce and build upon the implementation of the SPS Agreement;
- (d) promote greater transparency and understanding on the application of each Party's SPS measures;

- (e) strengthen communication and cooperation on relevant SPS issues; and
- (f) promote resolution of SPS issues that may affect trade between the Parties.

Article 6.3 **Scope**

This Chapter applies to all SPS measures of a Party that may, directly or indirectly, affect trade between the Parties.

Article 6.4 **Affirmation of the SPS Agreement**

1. The Parties affirm their rights and obligations with respect to each other under the SPS Agreement.
2. Nothing in this Chapter shall affect the rights and obligations of each Party under the SPS Agreement.

Article 6.5 **Science and Risk Assessment**

1. The Parties recognise the importance of ensuring that their respective SPS measures are based on scientific principles.
2. The Parties shall ensure that their SPS measures are based on risk assessment in accordance with Article 5 and other relevant provisions of the SPS Agreement, and taking into account risk assessment techniques developed by the relevant international organisations.

Article 6.6 **Adaption to Regional Conditions**

1. The Parties acknowledge that adaptation of SPS measures to recognise regional conditions, including through application of concepts such as pest or disease free areas, areas of low pest or disease prevalence, zoning, compartmentalisation, pest free places of production, and pest free production sites, is an important means of facilitating trade.
2. Each Party shall apply the concepts set out in paragraph 1 in accordance with the SPS Agreement and take into account relevant international standards,

guidelines and recommendations, and relevant guidance of the WTO SPS Committee.

3. The Parties shall endeavour to cooperate on the recognition of regional conditions with the objective of acquiring confidence in the procedures followed by each Party for the recognition of regional conditions.
4. When undertaking a risk assessment that will establish or maintain an SPS measure applicable to the exporting Party, the importing Party shall take into consideration a regionalisation determination of the exporting Party where this information is provided to them, including:
 - (a) for sanitary measures applicable to the exporting Party, considering where zones proposed by the exporting Party have the status of disease-free officially recognised by the OIE or when the status has been recovered after an outbreak;
 - (b) for phytosanitary measures applicable to the exporting Party, taking into account, *inter alia*, the pest status of an area, pest free areas, pest free places of production, pest free production sites, or areas of low pest prevalence that the exporting Party has established.
5. When making an assessment, the importing Party shall base its own determination of the animal and plant health status of the exporting Party or parts thereof, on the information provided by the exporting Party in accordance with the SPS Agreement and international standards, guidelines and recommendations, and any other information it considers appropriate.
6. Where the importing Party determines that the information provided by the exporting Party with its request is sufficient it shall initiate an assessment and make a decision within a reasonable period of time as to whether it can accept the exporting Party's determination of regional conditions.
7. Where the importing Party has accepted the exporting Party's determination of regional conditions the exporting Party shall notify the importing Party of any modification to those regional conditions. Following any such notification the importing Party may continue to accept the exporting country's determination of regional conditions and allow trade to continue, provided that the importing Party is satisfied that its appropriate level of protection will be maintained. The importing Party may apply any other measure or measures, in accordance with the SPS Agreement, to meet its appropriate level of protection.
8. If the importing Party adopts a measure that recognises specific regional conditions of an exporting Party, the importing Party shall implement the measure within a reasonable period of time and inform the exporting party when trade can commence without undue delay.

9. If the evaluation of the evidence provided by the exporting Party does not result in a decision to recognise the regional conditions of the exporting Party, the importing Party shall provide the exporting Party with the rationale for its determination within a reasonable period of time.
10. If there is an incident that results in the importing Party modifying or revoking a decision recognising the regional conditions of the exporting Party, the Parties shall cooperate to assess whether the determination can be reinstated.

Article 6.7 Equivalence

1. The Parties acknowledge that recognition of the equivalence of SPS measures is an important means of facilitating trade. In determining equivalence of an individual measure, group of measures, or measures on a systems-wide basis, each Party shall consider the relevant international standards, guidelines and recommendations.
2. The importing Party shall recognise the equivalence of SPS measures, even if the measures differ from its own, if the exporting Party objectively demonstrates to the importing Party that the exporting Party's measures achieve the importing Party's appropriate level of protection. The final determination of equivalence rests with the importing Party.
3. In order to strengthen cooperation on equivalence the Parties may, pursuant to paragraph 3(a) of Article 6.16 (Committee on SPS Measures), consider establishing a procedure for recognition of equivalence based on relevant international standards, guidelines and recommendations, and guidance of the WTO SPS Committee. Such a procedure may include, *inter alia*, the consultation process, information requirements, appropriate timeframes, and the respective responsibilities of the importing and exporting parties. The Parties shall determine the most appropriate form of any such procedure.

Article 6.8 Trade Conditions

1. The importing Party shall make publicly available its general SPS import requirements and, upon request, make available to the exporting Party all SPS import requirements relating to the import of specific goods unless such information is publicly available.
2. For the purpose of establishing specific SPS import conditions, the exporting Party shall, at the request of the importing Party, provide all relevant information required by the importing Party

3. Each Party shall ensure that all SPS control, inspection, assessment, and approval procedures are undertaken and completed without undue delay including, if needed, audits, and the necessary legislative or administrative measures to complete the approval procedure. Each Party shall, in particular, avoid unnecessary or unduly burdensome information requests, and take into account information already available in the importing Party, such as on the legislative framework and audit reports of the exporting Party
4. Subject to its laws and regulations, when a risk assessment is required in the process of determining import conditions, a Party shall, upon request, provide the other Party with the outcomes of that risk assessment within a reasonable period of time of the risk assessment being finalised.
5. The importing Party shall approve an establishment or facility situated in the territory of the exporting Party without prior inspection where it has determined that the establishment or facility meets its relevant SPS requirements.

Article 6.9 Audit and Verification

1. For the purpose of attaining and maintaining confidence in an exporting Party's ability to provide required assurances and to comply with the SPS import requirements and related control measures of the importing Party, the importing Party shall have the right to carry out an audit or verification¹ of all or part of the control system of the competent authority of the exporting Party.
2. If possible, an audit or verification shall be systems-based and designed to check the effectiveness of the regulatory controls of the competent authorities of the exporting Party.
3. In undertaking an audit or verification a Party shall take into account relevant guidance of the WTO SPS Committee and relevant international standards, guidelines and recommendations.
4. The Parties shall endeavour to agree the conditions under which an audit or verification is to be carried out in advance. Prior to the commencement of an audit or verification, the importing Party shall notify the exporting Party of its intention, and state the basis for undertaking the audit or verification, which may include:
 - (a) the reason it is required;

¹ For greater certainty, an audit or verification may include desk assessments and virtual, remote, or physical audits.

- (b) the objectives and scope of the assessment;
 - (c) the criteria or requirements against which the exporting Party will be assessed; and
 - (d) the procedures for conducting the assessment, including the method or methods of verification.
5. The Parties shall endeavour to limit the frequency and number of audit visits. In case of a subsequent audit related to the same good, the importing Party shall carry out an audit only in duly justified circumstances and provide the exporting Party with an explanation as to the reason for the audit.
 6. The importing Party may appoint a governmental body, non-governmental body, or a person with the necessary relevant expertise to carry out all or part of an audit or verification on its behalf.
 7. The importing Party shall provide the exporting Party with a draft audit or verification report, including its findings, conclusions and recommendations, and shall provide the exporting Party with the opportunity to comment on the draft report. The importing Party shall consider any comments that have been provided within a reasonable period of time, before finalising its assessment.
 8. The importing Party shall provide the exporting Party with a final report setting out its conclusions in writing within a reasonable period of time. If necessary to meet its appropriate level of protection, the importing Party may implement SPS measures prior to the completion of the audit or verification provided that such measures are not inconsistent with the SPS Agreement or this Agreement.
 9. The costs incurred by the importing Party to conduct an audit or verification shall be borne by the importing Party, unless the Parties agree otherwise.
 10. Measures taken by the importing Party as a consequence of its audit or verification shall be supported by objective evidence, take into account the importing Party's knowledge of, relevant experience with, and confidence in, the exporting Party, and shall not be more trade restrictive than necessary to achieve the importing Party's appropriate level of protection. Nothing in this paragraph prevents a Party taking an emergency measure consistent with Article 6.12 (Emergency SPS Measures).

Article 6.10 Certification

1. If a Party requires import certification, it shall ensure that the SPS requirement for certification is applied only to the extent necessary to meet its SPS objectives and shall take into account guidance of the WTO SPS

Committee and relevant international standards, guidelines and recommendations.

2. The Parties may enter into consultations through the SPS Committee, with the aim of agreeing principles, guidelines, or specific requirements for certification.
3. The Parties shall progress the implementation of paperless trade through electronic SPS certification and provide updates on implementation through the SPS Committee.

Article 6.11 Import Checks and Fees

1. The importing Party shall have the right to carry out import checks based on the sanitary and phytosanitary risks associated with imports. These checks shall be carried out without undue delay and with minimum trade disrupting effects.
2. If import checks reveal non-compliance with the relevant import requirements, the action taken by the importing Party must be based on an assessment of the risk involved and not be more trade-restrictive than required to achieve the Party's appropriate level of protection.
3. The importing Party shall notify the importer of a non-compliant consignment, or its representative, of the reason for non-compliance, and, subject to its law, provide them with an opportunity for a review of the decision. The importing Party shall consider any relevant information submitted to assist in the review.

Article 6.12 Emergency SPS Measures

1. If a Party adopts an emergency SPS measure necessary for the protection of human, animal or plant life or health, the Party shall notify the other Party of that measure through its contact point as soon as possible, and in any case no later than 48 hours after the decision to adopt the measure.
2. On the request of the other Party, a Party adopting an emergency SPS measure shall engage in technical consultations under Article 6.15 (Technical Consultations). The Parties shall endeavour to hold technical consultations within 10 days of the receipt of the request, and in any case consultations must be held as soon as possible following receipt of the request. The Party that adopts the emergency SPS measure shall take into consideration any information provided by the other Party in response to the notification and during technical consultations.

3. The importing Party shall consider, in a timely manner, information that was provided by the exporting Party when it makes its decision with respect to consignments that, at the time of adoption of the emergency SPS measure, are being transported between the Parties, in order to avoid unnecessary disruptions to trade.
4. If a Party adopts an emergency SPS measure, it shall commence a science-based review of the measure within a reasonable period of time. The Party shall then review the need for the emergency SPS measure as required, and if it remains in place provide, on request, the justification for maintaining the emergency SPS measure.

Article 6.13 Cooperation

The Parties shall cooperate to strengthen collaboration between the Parties in their involvement in the work of relevant international organisations that develop international standards, guidelines and recommendations relevant to the matters covered by this Chapter.

Article 6.14 Transparency, Notification and Information Exchange

 - (b) significant food safety issue related to a good traded between the Parties.
3. In particular, each Party shall, through the contact points designated under Article 6.17 (Competent Authorities and Contact Points), on request, provide information to the other Party of any new or revised SPS measures, including measures imposed in response to an urgent threat to human, animal or plant life or health.
4. Where the information referred to in paragraphs 2 and 3 has been made available via notification to the WTO's Central Registry of Notifications, or

to the relevant international organisations, the requirements in those paragraphs shall be deemed to be fulfilled.

Article 6.15 Technical Consultations

1. If a Party has specific trade concerns regarding SPS measures proposed or implemented by the other Party, it may request technical consultations through the contact point.
2. The responding Party shall provide a written reply to the requesting Party within 30 days of the receipt of a request. The Parties shall enter into technical consultations within 30 days of the requesting Party's receipt of the reply, unless the Parties agree otherwise. Such consultations may be conducted via teleconference, videoconference or any other means agreed by the Parties.
3. The Parties shall endeavour to provide all relevant information necessary to avoid disruption to trade and to reach a mutually acceptable solution within a reasonable period of time.
4. Where the Parties have already established other mechanisms than those referred to in this Article to address the concerns, they shall make use of them to the extent possible in order to avoid unnecessary duplication.

Article 6.16 Committee on SPS Measures

1. The Parties hereby establish a Committee on Sanitary and Phytosanitary Measures (the "SPS Committee"), composed of government representatives of each Party responsible for SPS matters.
2. The functions of the SPS Committee shall include:
 - (a) monitoring implementation and considering any matter related to this Chapter;
 - (b) providing an opportunity for the identification, prioritisation, discussion, and resolution of SPS issues;
 - (c) recommending any mutually agreed proposals for amendments to this Chapter to the Joint Committee; and
 - (d) providing a forum to exchange information on each Party's SPS regulatory system.

3. The SPS Committee may, among other things:
 - (a) identify opportunities for greater cooperation activities relevant to this Chapter, including trade facilitation initiatives and further work on eliminating unnecessary SPS barriers to trade between the Parties;
 - (b) discuss, at an early stage, a change to, or a proposed change to, a SPS measure being considered;
 - (c) facilitate improved understanding between the Parties on the implementation of the SPS Agreement, and promote cooperation between the Parties on SPS issues in multilateral fora, including the WTO Committee on Sanitary and Phytosanitary Measures, and relevant international organisations, as appropriate; and
 - (d) provide opportunities to identify initiatives to strengthen bilateral technical cooperation relevant to this Chapter.
4. The SPS Committee may establish technical working groups to address specific SPS issues with the aim of reaching a mutually acceptable resolution with the least disruption to trade. Any technical working group established shall report to the SPS Committee on progress of its work.
5. A Party may refer any SPS issue to the SPS Committee. The SPS Committee shall consider the issue as expeditiously as possible. If the SPS Committee is unable to resolve an issue it shall, at the request of a Party, report to the Joint Committee.
6. The SPS Committee shall meet within one year of the date of entry into force of this Agreement, and on annual basis, unless the Parties agree otherwise.
7. The SPS Committee may decide to meet by videoconference or teleconference or by any such means as may be agreed by the Parties, and it may also address issues by correspondence.
8. The SPS Committee shall take decisions and make recommendations by consensus.
9. The SPS Committee shall report, as needed, on its activities and work programme to the Joint Committee.

Article 7.3
Scope

1. Unless otherwise provided in paragraph 4, this Chapter applies to the preparation, adoption, and application of all technical regulations, standards, and conformity assessment procedures of the central level of government that may affect trade in goods between the Parties.
2. Each Party shall take such reasonable measures as may be available to it to ensure compliance with the provisions of this Chapter by regional or local government bodies and non-governmental bodies within its territory which are responsible for the preparation, adoption, and application of technical regulations, standards, and conformity assessment procedures.
3. All references in this Chapter to technical regulations, standards, and conformity assessment procedures shall be construed to include any amendments to them and any addition to the rules or the product coverage of those technical regulations, standards, and procedures.
4. This Chapter does not apply to:
 - (a) technical specifications prepared by governmental bodies for the production or consumption requirements of such bodies; or
 - (b) sanitary or phytosanitary measures, which are covered by Chapter 6 (Sanitary and Phytosanitary Measures).

5. Nothing in this Chapter shall prevent a Party from adopting or maintaining technical regulations, standards, or conformity assessment procedures in accordance with its rights and obligations under this Agreement, the TBT Agreement, and any other relevant international agreement.

Article 7.4
Affirmation of the TBT Agreement

The Parties affirm their rights and obligations under the TBT Agreement.

Article 7.5
Technical Regulations

1. Each Party shall give positive consideration to accepting technical regulations of the other Party as equivalent to its own, even if these regulations differ from its own, provided that it is satisfied that these regulations adequately fulfil the objectives of its own regulations.
2. Where a Party does not accept a technical regulation of the other Party as equivalent to its own, it shall, on request of the other Party, explain the reasons for its decision.

Article 7.6
International Standards, Guides, and Recommendations

1. The Parties recognise the important role that international standards, guides, and recommendations can play in supporting greater regulatory alignment, good regulatory practice, and reducing unnecessary barriers to trade.
2. Each Party shall, in accordance with Articles 2.4 and 5.4 of the TBT Agreement, use international standards, guides, and recommendations, or the relevant parts thereof, as a basis for its technical regulations and conformity assessment procedures.
3. Where a Party does not use an international standard, guide, or recommendation, or the relevant parts thereof, as a basis for a technical regulation or conformity assessment procedure, it shall, on request of the other Party, in accordance with Articles 2.5 and 5.4 of the TBT Agreement, explain the reasons for its decision.
4. Each Party shall encourage the standards bodies established within its territory to cooperate and exchange views with each other on matters under discussion in relevant international or regional bodies that develop international standards, guides, or recommendations relevant to this Chapter.

5. In determining whether an international standard, guide, or recommendation within the meaning of Articles 2 and 5 and Annex 3 of the TBT Agreement exists, each Party shall apply the *Decisions and Recommendations adopted by the WTO Committee on Technical Barriers to Trade Since 1 January 1995 (G/TBT/1/Rev.12)*, as may be revised, issued by the WTO Committee on Technical Barriers to Trade.¹

Article 7.7 **Conformity Assessment Procedures**

1. The Parties recognise that a broad range of mechanisms exists to facilitate the acceptance in a Party's territory of the results of conformity assessment procedures conducted in the other Party's territory. For example:
 - (a) a Party may agree with the other Party to accept the results of conformity assessment procedures that bodies located in the other Party's territory conduct with respect to specific technical regulations;
 - (b) a Party may adopt accreditation procedures for qualifying conformity assessment bodies located in the other Party's territory;
 - (c) a Party may recognise the results of conformity assessment procedures conducted in the other Party's territory;

 - (e) the importing Party may rely on a supplier's declaration of conformity.
2. The Parties shall exchange information on the range of mechanisms relevant to conformity assessment procedures in their respective territories with a view to facilitating the acceptance of conformity assessment results.
3. Where a Party does not accept the results of a conformity assessment procedure conducted in the territory of the other Party, it shall, on request of the other Party, explain the reasons for its decision.
4. The Parties acknowledge the trade facilitation role played by the *Agreement on Mutual Recognition in Relation to Conformity Assessment, Certificates and Markings between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of Australia* done at London on 18 January 2019, and the importance of cooperating in the field

¹ For greater certainty, the Parties shall also consider relevant interpretations in reports of WTO panels and the Appellate Body adopted by the WTO Dispute Settlement Body.

of mutual recognition in relation to conformity assessment in accordance with that Agreement. The Parties recognise that they may, in accordance with that Agreement, review and amend its provisions, including by extending its coverage, as appropriate.

Article 7.8 **Marking and Labelling**

1. Each Party shall, in accordance with Article 2 of the TBT Agreement, in respect of technical regulations that include or deal exclusively with mandatory marking or labelling requirements:
 - (a) accord treatment no less favourable to products imported from the territory of the other Party than that accorded to its own like products or those originating in any other country; and
 - (b) ensure that such technical regulations are not prepared, adopted, or applied with a view to, or with the effect of, creating unnecessary obstacles to international trade. For this purpose, such technical regulations shall not be more trade-restrictive than necessary to fulfil a legitimate objective, taking account of the risks non-fulfilment would create. Such legitimate objectives are, *inter alia*, national security requirements, the prevention of deceptive practices, protection of human health or safety, animal or plant life or health, or the environment. In assessing such risks, relevant elements of consideration are, *inter alia*, available scientific and technical information, related processing technology, or intended end-uses of products.
2. Where a Party requires mandatory marking or labelling of products, the Party may accept, where it considers that legitimate objectives in accordance with the TBT Agreement are not compromised thereby:
 - (a) non-permanent or detachable labels; or
 - (b) marking or labelling in the accompanying documentation in place of marking or labelling attached to the product.
3. Where an international system of nomenclature, pictograms, symbols, or graphics has been accepted by both Parties, such elements may be used. The simultaneous use of additional languages shall not be prohibited, provided that the information provided in the additional languages does not constitute a contradictory, confusing, misleading, or deceptive statement regarding the product.

Article 7.9
Transparency

1. Each Party shall allow persons of the other Party to participate in the development of its technical regulations, standards, and conformity assessment procedures, subject to its laws and regulations, or administrative arrangements, on terms no less favourable than those accorded to its own persons.
2. As appropriate, each Party shall encourage non-governmental bodies in its territory to observe paragraph 1 in relation to consultation procedures on standards and voluntary conformity assessment procedures which are available to the general public.
3. On request of the other Party, a Party shall provide the other Party with information regarding the objective of, and rationale for, a technical regulation or conformity assessment procedure that the Party has adopted or is proposing to adopt.

Article 7.10
Cooperation and Trade Facilitation

1. The Parties shall work cooperatively in the fields of standards, technical regulations, and conformity assessment procedures with a view to facilitating trade between the Parties. Such cooperation may include:
 - (a) exchanging information regarding technical regulations, standards, conformity assessment procedures, and good regulatory practices;

2. On request of the other Party, a Party shall give positive consideration to a sector-specific proposal that the requesting Party makes for further cooperation under this Chapter.

Article 7.11

3. The TBT Committee may establish working groups to undertake specific tasks related to its functions under this Chapter.
4. Where a Party declines to discuss an issue through the TBT Committee under paragraph 2, it shall, on the request of the other Party, explain the reasons for its decision.
5. The TBT Committee shall meet within one year of the date of entry into force of this Agreement, and on an annual basis, unless the Parties agree otherwise.

Article 7.13
Contact Points

Each Party shall designate and notify a contact point to facilitate communications between the Parties on any matter covered by this Chapter.

Article 7.14
Dispute Settlement

Neither Party shall have recourse to dispute settlement under Chapter 30 (Dispute Settlement) for any matter arising under this Chapter.

Article 7.15
Annex

1. The rights and obligations set out in Annex 7A (Cosmetics) apply only with respect to the sector specified in that Annex.
2. The scope of Annex 7A (Cosmetics) is set out in that Annex.

ANNEX 7A
COSMETICS

1. For the purposes of this Annex:

“marketing authorisation” means the process or processes by which a Party approves or registers a product in order to authorise its marketing, distribution, or sale in the Party’s territory. The process or processes may be described in a Party’s laws or regulations in various ways, including “marketing authorisation”, “authorisation”, “approval”, “registration”, “sanitary authorisation”, “sanitary registration”, and “sanitary approval” for a product. Marketing authorisation does not include notification procedures; and

“post-market surveillance” means procedures taken by a Party after a product has been placed on its market to enable the Party to monitor or address compliance with the Party’s domestic requirements for products.
2. This Annex applies to the preparation, adoption, and application of technical regulations, standards, conformity assessment procedures, marketing authorisation,¹ and notification procedures of central government bodies that may affect trade in cosmetic products between the Parties. This Annex does not apply to a technical specification prepared by a governmental entity for its production or consumption requirements or a sanitary or phytosanitary measure.
3. Each Party’s obligations under this Annex apply to any product that the Party defines as a cosmetic product pursuant to paragraph 4. For the purposes of this Annex, preparation of a technical regulation, standard, conformity assessment procedure, or marketing authorisation includes, as appropriate, the evaluation of the risks involved, the need to adopt a measure to address those risks, the review of relevant scientific or technical information, and the consideration of the characteristics or design of alternative approaches.
4. Each Party shall define the scope of the products subject to its laws and regulations for cosmetic products in its territory and make that information publicly available.
5. Recognising that each Party is required to define the scope of products covered by this Annex pursuant to paragraph 4, for the purposes of this

¹ The application of this Annex to marketing authorisations is without prejudice to whether a marketing authorisation meets the definition of a technical regulation, standard, or conformity assessment procedure.

Annex, a cosmetic product may include a product that is intended to be rubbed, poured, sprinkled, sprayed on, or otherwise applied to the human body including the mucous membrane of the oral cavity and teeth, to cleanse, beautify, protect, promote attractiveness, or alter the appearance.

6. Each Party shall identify the agency or agencies that are authorised to regulate cosmetic products in its territory and make that information publicly available.
7. If more than one agency is authorised to regulate cosmetic products within the territory of a Party, that Party shall examine whether there is overlap or duplication in the scope of those authorities and eliminate unnecessary duplication of any regulatory requirements resulting for cosmetic products.
8. The Parties shall seek to collaborate through relevant international initiatives, such as those aimed at harmonisation, as well as regional initiatives that support those international initiatives, as appropriate, to improve the alignment of their respective regulations and regulatory activities for cosmetic products.
9. When developing or implementing regulations for cosmetic products, each Party shall consider relevant scientific or technical guidance documents developed through international collaborative efforts. Each Party is encouraged to consider regionally-developed scientific or technical guidance documents that are aligned with international efforts.
10. Each Party shall observe the obligations set out in Articles 2.1 and 5.1.1 of the TBT Agreement with respect to a marketing authorisation, notification procedure, or elements of either that the Party prepares, adopts, or applies for cosmetic products and that do not fall within the definition of a technical regulation or conformity assessment procedure.
11. Each Party shall ensure that it applies a risk-based approach to the regulation of cosmetic products.
12. In applying a risk-based approach in regulating cosmetic products, each Party shall take into account that cosmetic products are generally expected to pose less potential risk to human health or safety than medical devices or medicines.
13. Neither Party shall conduct separate marketing authorisation processes or sub-processes for cosmetic products that differ only with respect to shade extensions or fragrance variants, unless a Party identifies a significant human health or safety concern.

14. Each Party shall administer any marketing authorisation process that it maintains for cosmetics products in a timely, reasonable, objective, transparent, and impartial manner, and identify and manage any conflicts of interest in order to mitigate any associated risks.
 - (a) If a Party requires marketing authorisation for a cosmetic product, that Party shall provide an applicant with its determination within a reasonable period of time.
 - (b) If a Party requires marketing authorisation for a cosmetic product and it determines that a marketing authorisation application for a cosmetic product under review in its jurisdiction has deficiencies that have led or will lead to a decision not to authorise its marketing, that Party shall inform the applicant that requests marketing authorisation and provide reasons why the application is deficient.
 - (c) If a Party requires a marketing authorisation for a cosmetic product, the Party shall ensure that any marketing authorisation determination is subject to an appeal or review process that may be invoked at the request of the applicant. For greater certainty, the Party may maintain an appeal or review process that is either internal to the regulatory body responsible for the marketing authorisation determination, such as a dispute resolution or review process, or external to the regulatory body.
 - (d) If a Party has granted marketing authorisation for a cosmetic product in its territory, the Party shall not subject the product to periodic re-assessment procedures as a condition of retaining its marketing authorisation.
15. If a Party maintains a marketing authorisation process for cosmetic products, that Party shall consider replacing this process with other mechanisms such as voluntary or mandatory notification and post-market surveillance.
16. When developing regulatory requirements for cosmetic products, each Party shall consider its available resources and technical capacity in order to minimise the implementation of requirements that could:
 - (a) inhibit the effectiveness of procedures for ensuring the safety or manufacturing quality of cosmetic products; or
 - (b) lead to substantial delays in marketing authorisation regarding cosmetic products for sale on that Party's market.

17. Neither Party shall require the submission of marketing information, including with respect to prices or cost, as a condition for the product receiving marketing authorisation.
18. Neither Party shall require a cosmetic product to be labelled with a marketing authorisation or notification number.
19. Neither Party shall require that a cosmetic product receive marketing authorisation from a regulatory authority in the country of manufacture as a condition for the product receiving marketing authorisation from the Party. For greater certainty, this provision does not prohibit a Party from accepting a prior marketing authorisation issued by another regulatory authority as evidence that a product may meet its own requirements.
20. Neither Party shall require that a cosmetic product be accompanied by a certificate of free sale as a condition of marketing, distribution, or sale in the Party's territory.
21. If a Party requires a manufacturer or supplier of a cosmetic product to indicate information on the product's label, the Party shall permit the manufacturer or supplier to indicate the required information by relabelling the product or by using supplementary labelling of the product in accordance with the Party's domestic requirements after importation but prior to offering the product for sale or supply in the Party's territory.
22. Neither Party shall require that a cosmetic product be tested on animals to determine the safety of that cosmetic product, unless there is no validated alternative method available to assess safety. A Party may, however, consider the results of animal testing to determine the safety of a cosmetic product.
23. If a Party prepares or adopts good manufacturing practice guidelines for cosmetic products, it shall use relevant international standards for cosmetic products, or the relevant parts of them, as a basis for its guidelines unless those international standards or relevant parts would be an ineffective or inappropriate means for the fulfilment of the legitimate objectives pursued.
24. Each Party shall endeavour to share, subject to its laws and regulations, information from post-market surveillance of cosmetic products.
25. Each Party shall endeavour to share information on its findings or the findings of its relevant institutions regarding cosmetic ingredients.
26. Each Party shall endeavour to avoid re-testing or re-evaluating cosmetic products that differ only with respect to shade extensions or

fragrance variants, unless conducted for human health or safety purposes.

27. In accordance with Article 7.10 (Cooperation and Trade Facilitation), each Party may share information on products which fall within its definition of a cosmetic product but which do not fall within that of the other Party.

For greater certainty, the treatment to be accorded by a Party under paragraph 1 means, with respect to a regional level of government, treatment no less favourable than the most favourable treatment accorded, in like circumstances, by that regional level of government to service suppliers of the Party of which it forms a part.

⁴ Subject to compliance with each Party's laws and regulations governing the admission of aircraft to, departure from and operation within, their territory.

⁵ For greater certainty, whether treatment is accorded in "like circumstances" under Article 8.3 (National Treatment) or Article 8.4 (Most-Favoured-Nation Treatment) depends on the totality of the circumstances, including whether the relevant treatment distinguishes between services or service suppliers on the basis of legitimate public welfare objectives.

Article 8.4
Most-Favoured-Nation Treatment

Each Party shall accord to services and service suppliers of the other Party treatment no less favourable than that it accords, in like circumstances, to services and service suppliers of a non-Party.⁶

Article 8.5
Market Access

Neither Party shall adopt or maintain, either on the basis of its entire territory or on the basis of the territory of a central, regional or local level of government, a measure that:

- (a) imposes a limitation on:
 - (i) the number of service suppliers, whether in the form of numerical quotas, monopolies, exclusive service suppliers or the requirement of an economic needs test;
 - (ii) the total value of service transactions or assets in the form of numerical quotas or the requirement of an economic needs test;
 - (iii) the total number of service operations or the total quantity of service output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;⁷ or
 - (iv) the total number of natural persons that may be employed in a particular service sector or that a service supplier may employ and who are necessary for, and directly related to, the supply of a specific service in the form of numerical quotas or the requirement of an economic needs test; or
- (b) restricts or requires specific types of legal entity or joint venture through which a service supplier may supply a service.

⁶ For greater certainty, this paragraph does not cover treatment accorded by the United Kingdom to services and service suppliers of territories for whose international relations the United Kingdom is responsible.

⁷ Subparagraph (a)(iii) does not cover measures of a Party which limit inputs for the supply of services.

Article 8.6
Local Presence

Neither Party shall require a service supplier of the other Party to establish or maintain a representative office or any form of enterprise, or to be resident, in its territory as a condition for the cross-border supply of a service.

Article 8.7
Non-Conforming Measures

1. Article 8.3 (National Treatment), Article 8.4 (Most-Favoured-Nation Treatment), Article 8.5 (Market Access) and Article 8.6 (Local Presence) do not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at:
 - (i) the central level of government, as set out by that Party in its Schedule to Annex I;
 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex I; or
 - (iii) a local level of government;
 - (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a), to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 8.3 (National Treatment), Article 8.4 (Most-Favoured-Nation Treatment), Article 8.5 (Market Access) or Article 8.6 (Local Presence).
2. Article 8.3 (National Treatment), Article 8.4 (Most-Favoured-Nation Treatment), Article 8.5 (Market Access) and Article 8.6 (Local Presence) do not apply to any measure of a Party with respect to sectors, sub-sectors or activities, as set out by that Party in its Schedule to Annex II.
3. If a Party considers that a non-conforming measure applied by a regional level of government of the other Party, as referred to in subparagraph 1(a)(ii), creates a material impediment to the cross-border supply of services in

relation to the former Party, it may request consultations with regard to that measure. The Parties shall enter into consultations with a view to exchanging information on the operation of the measure and to considering whether further steps are necessary and appropriate.⁸

Article 8.8 **Domestic Regulation**

1. For the purposes of this Article:

“authorisation” means permission for the cross-border supply of a service or for the establishment, acquisition, expansion, management, conduct, operation and sale or other disposition of a covered investment in the form of an enterprise resulting from a procedure a person of a Party must adhere to in order to demonstrate compliance with licensing requirements, qualification requirements or technical standards;

“competent authority” means a central, regional or local government or authority or non-governmental body in the exercise of powers delegated by a central, regional or local government or authority, which is entitled to take a decision concerning authorisation.

2. (a) Subject to subparagraph (b), this Article applies to measures of a Party relating to licensing requirements and procedures, qualification requirements and procedures, and technical standards.
- (b) This Article does not apply to a measure to the extent that the measure is not subject to an obligation in this Chapter or Chapter 13 (Investment) by reason of Article 8.7 (Non-Conforming Measures) or Article 13.13 (Non-Conforming Measures – Investment).
3. Each Party shall ensure that measures relating to authorisation are based on criteria which preclude a competent authority from exercising its power of assessment in an arbitrary manner. If a Party adopts or maintains a measure relating to authorisation, it shall ensure that:
 - (a) those measures are based on criteria⁹ that are:

⁸ For greater certainty, a Party may request consultations with the other Party regarding non-conforming measures applied by the central level of government, as referred to in subparagraph 1(a)(i).

⁹ Those criteria may include, but are not limited to, competence and the ability to supply a service or carry out an activity including to do so in a manner consistent with the Party’s regulatory requirements, such as health and environmental requirements. Competent authorities may assess the weight to be given to each criterion.

- (i) clear and transparent;
 - (ii) objective; and
 - (iii) established in advance and made publicly accessible.
- (b) the procedures are impartial, easily accessible to all applicants and that the procedures are adequate for applicants to demonstrate whether they meet the requirements, where those requirements exist;
- (c) the procedures do not in themselves unjustifiably prevent the fulfilment of requirements; and
- (d) those measures do not discriminate between men and women.¹⁰
4. (a) If a Party requires authorisation, the Party shall promptly publish¹¹ the information necessary for service suppliers of a Party or persons carrying out or seeking to carry out the activity for which authorisation is required to comply with the requirements and procedures for obtaining, maintaining, amending and renewing that authorisation. Each Party shall ensure that this information is easily accessible through electronic means. Where it exists, that information shall include but is not limited to:
- (i) the requirements and procedures;
 - (ii) contact information of relevant competent authorities;
 - (iii) fees;
 - (iv) technical standards;
 - (v) procedures for appeal or review of decisions concerning applications;
 - (vi) procedures for monitoring or enforcing compliance with the terms and conditions of licences or qualifications;

¹⁰ Differential treatment that is reasonable and objective, and aims to achieve a legitimate purpose, and adoption by a Party of temporary special measures aimed at accelerating *de facto* equality between men and women, shall not be considered discrimination for the purposes of this subparagraph.

¹¹ For purposes of these disciplines, "publish" means to include in an official publication, such as an official journal, or on an official website. Each Party is encouraged to consolidate electronic publications into a single portal.

- (vii) opportunities for public involvement, such as through hearings or comments;
 - (viii) indicative or, to the extent possible, fixed timeframes for processing of an application; and
 - (ix) the length of authorisation, and where relevant, the date of its renewal.
- b) Each Party shall require its competent authorities to respond to any reasonable request for information or assistance, to the extent practicable.
5. If a Party requires authorisation, it shall, to the extent practicable ensure that its competent authorities avoid requiring an applicant to approach more than one competent authority for each application for authorisation, recognising that if an activity for which authorisation is requested is within the jurisdiction of multiple competent authorities, multiple applications for authorisation may be required.
6. If a Party requires authorisation, it shall ensure that its competent authorities:
- (a) to the extent practicable, permit the submission of an application at any time throughout the year.¹² If a specific time period for applying exists, the Party shall ensure that its competent authorities allow a reasonable period of time for the submission of an application;
 - (b) to the extent possible, accept applications in electronic format. For greater certainty, this includes applications made from within the territory of the other Party;
 - (c) accept copies of documents, that are authenticated in accordance with the Party's law, in place of original documents, unless the competent authorities require original documents to protect the integrity of the authorisation process;
 - (d) to the extent practicable, publish in advance a fixed or indicative timeframe for processing of an application;
 - (e) at the request of the applicant, provide without undue delay information concerning the status of the application;

¹² For greater certainty, competent authorities are not required to start considering applications outside of their official working hours and working days.

- (f) to the extent practicable, ascertain without undue delay the completeness of an application for processing under the Party's laws and regulations;
- (g) if they consider an application complete for processing under the Party's laws and regulations,¹³ within a reasonable period of time after the submission of the applications, ensure that:
 - (i) the processing of the application is completed;
 - (ii) the applicant is informed of the decision concerning the application¹⁴ to the extent possible in writing;¹⁵ and
 - (iii) an authorisation is granted as soon as the competent authority determines that the conditions for authorisation have been met;
- (h) if they consider an application incomplete for processing under the Party's laws and regulations, within a reasonable period of time, to the extent practicable:
 - (i) inform the applicant that the application is incomplete;
 - (ii) at the request of an applicant, identify the additional information required to complete the application and provide guidance to the applicant about the type of information required to complete the application; and
 - (iii) provide the applicant with the opportunity¹⁶ to correct deficiencies;

however, if none of the above is practicable, and the application is rejected due to incompleteness, ensure that they inform the applicant within a reasonable period of time; and

- (i) if an application is rejected, to the extent possible, either upon their own initiative or upon request of the applicant, inform the applicant of the reasons for rejection and, if applicable, the procedures for

¹³ Competent authorities may require that all information is submitted in a specified format to consider it "complete for processing".

¹⁴ Competent authorities may meet this requirement by informing an applicant in advance, in writing, including through a published measure, that lack of response after a specified period of time from the date of submission of an application indicates acceptance of the application.

¹⁵ "In writing" may include in electronic form.

¹⁶ The opportunity does not require a competent authority to provide extensions of deadlines.

resubmission of an application. An applicant should not be prevented from submitting another application¹⁷ solely on the basis of a previously rejected application.

7. Each Party shall ensure that authorisation, once granted, enters into effect without undue delay, subject to applicable terms and conditions.¹⁸
8. Each Party shall ensure that the authorisation fees¹⁹ charged by its competent authorities are made public, reasonable, transparent, and do not in themselves restrict the supply of the relevant service or the carrying out of the relevant activity. Each Party is encouraged to accept payment of authorisation fees by electronic means.
9. If a Party requires examinations for authorisation, it shall:
 - (a) ensure that its competent authorities schedule the examination at reasonably frequent intervals and provide a reasonable period of time to enable applicants to request to take the examination; and
 - (b) to the extent practicable, accept requests in electronic format to take those examinations and consider the use of electronic means in other aspects of the examination processes.
10. If a Party adopts or maintains a measure relating to authorisation, it shall ensure that its competent authority processes an application, reaches and administers its decisions objectively, impartially and in a manner independent from any supplier of the service or person carrying out the activity for which authorisation is required.²⁰
11. Each Party shall ensure that all measures of general application affecting trade in services are administered in a reasonable, objective and impartial manner.
12. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party²¹ shall publish in advance:

¹⁷ Competent authorities may require that the content of the application has been revised.

¹⁸ Competent authorities are not responsible for delays due to reasons outside their competence.

¹⁹ Authorisation fees do not include fees for the use of natural resources, payments for auction, tendering or other non-discriminatory means of awarding concessions, or mandated contributions to universal service obligation.

²⁰ For greater certainty, this paragraph does not mandate a particular administrative structure; it refers to the decision-making process and administering of decisions.

²¹ Paragraphs 12 to 15 recognise that each Party has different systems to consult interested persons on certain measures before they are adopted, and that the alternatives set out in paragraph 12 reflect different legal systems.

- (a) laws or regulations of general application it proposes to adopt in relation to matters falling within the scope of paragraph 2; or
 - (b) documents that provide sufficient details about that possible new law or regulation to allow interested persons or the other Party to assess whether and how their interests might be significantly affected.
13. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party is encouraged to apply paragraph 12 to procedures and administrative rulings of general application it proposes to adopt in relation to matters falling within the scope of paragraph 2.
 14. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party shall provide interested persons and the other Party with a reasonable opportunity to comment on those proposed measures or documents published under paragraphs 12 and 13.
 15. To the extent practicable and in a manner consistent with its legal system for adopting measures, each Party shall consider comments received under paragraph 14.²²
 16. In publishing a law or regulation referred to in subparagraph 12(a), or in advance of that publication, to the extent practicable and in a manner consistent with its legal system for adopting measures, a Party is encouraged to explain the purpose and rationale of that law or regulation.
 17. Each Party shall, to the extent practicable, endeavour to allow reasonable time between the publication of the text of a law or regulation referred to in subparagraph 12(a) and the date on which service suppliers of a Party or persons carrying out or seeking to carry out an activity must comply with that law or regulation.
 18. Each Party shall encourage its competent authorities, when adopting technical standards, to adopt technical standards developed through open and transparent processes, and shall encourage any body, including relevant international organisations,²³ designated to develop technical standards to use open and transparent processes.
 19. If the number of licences available for a given activity is limited because of the scarcity of available natural resources or technical capacity, a Party shall apply a selection procedure to potential candidates which is impartial and

²² This paragraph is without prejudice to the final decision of a Party that adopts or maintains any measure for authorisation.

²³ The term "relevant international organisations" refers to international bodies whose membership is open to the relevant bodies of each Party.

transparent and provides for adequate publicity about the launch, conduct and completion of the procedure. The selection procedure may take into account legitimate policy objectives, including considerations of health, safety, the protection of the environment and the preservation of cultural heritage.

20. Each Party shall maintain or establish appropriate mechanisms for responding to enquiries from service suppliers of a Party and persons carrying out or seeking to carry out an activity.

Article 8.9 Recognition

1. For the purposes of the fulfilment, in whole or in part, of a Party's standards or criteria for the authorisation, licensing or certification of service suppliers, and subject to the requirements of paragraph 4, the Party may recognise the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-Party. That recognition, which may be achieved through harmonisation or otherwise, may be based on an agreement or arrangement with the non-Party concerned, or may be accorded autonomously.
2. If a Party recognises, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licences or certifications granted, in the territory of a non-Party, nothing in Article 8.4 (Most-Favoured-Nation Treatment) or Article 13.6 (Most-Favoured-Nation Treatment – Investment) shall be construed to require the Party to accord recognition to the education or experience obtained, requirements met, or licences or certifications granted, in the territory of the other Party.
3. If a Party is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, the Party shall afford adequate opportunity to the other Party, on request, to negotiate its accession to that agreement or arrangement, or to negotiate a comparable agreement or arrangement. If a Party accords recognition autonomously, the Party shall afford adequate opportunity to the other Party to demonstrate that education, experience, licences or certifications obtained or requirements met in that Party's territory should be recognised.
4. Neither Party shall accord recognition in a manner that would constitute a means of discrimination between a Party and a non-Party in the application of its standards or criteria for the authorisation, licensing or certification of service suppliers, or a disguised restriction on trade in services.

Article 8.10
Denial of Benefits

A Party may deny the benefits of this Chapter to a service supplier of the other Party that is an enterprise of that Party and to services of that services supplier if persons of a non-Party own or control the enterprise, and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to services of that enterprise.

Article 8.11
Transparency

1. Each Party shall maintain or establish appropriate mechanisms for responding to inquiries from interested persons regarding its regulations that relate to the subject matter of this Chapter.²⁴
2. If a Party does not provide advance notice and opportunity for comment pursuant to paragraph 2 of Article 28.2 (Publication – Transparency and Anti-Corruption) with respect to regulations that relate to the subject matter in this Chapter, it shall, to the extent practicable, provide in writing or otherwise notify interested persons of the reasons for not doing so.
3. To the extent possible, each Party shall allow reasonable time between publication of final regulations and the date when they enter into effect.

Article 8.12
Payments and Transfers

1. Each Party shall permit all transfers and payments that relate to the cross-border supply of services to be made freely and without delay into and out of its territory.
2. Each Party shall permit transfers and payments that relate to the cross-border supply of services to be made in a freely usable currency at the market rate of exchange that prevails at the time of transfer.

²⁴ The implementation of the obligation to maintain or establish appropriate mechanisms may need to take into account the resource and budget constraints of small administrative agencies.

3. Notwithstanding paragraphs 1 and 2, a Party may prevent or delay a transfer or payment through the equitable, non-discriminatory and good faith application of its law²⁵ that relates to:
 - (a) bankruptcy, insolvency or the protection of the rights of creditors;
 - (b) issuing, trading or dealing in securities or derivatives;
 - (c) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities;

 - (b) consider ways to further enhance trade and investment between the Parties, including through amendments to each Party’s Schedules to Annex I (Schedules of Non-conforming Measures for Services and

²⁵ For greater certainty, this Article does not preclude the equitable, non-discriminatory and good faith application of a Party’s law relating to its social security, public retirement or compulsory savings programmes.

²⁶ Representatives of the authorities responsible for financial services as specified in Annex 9B (Authorities Responsible for Financial Services) will discuss matters relating to financial services.

Investment), Annex II (Schedules of Non-conforming Measures for Services and Investment), Annex III (Schedules of Non-Conforming Measures for Financial Services) and Annex IV (Schedules of Specific Commitments on Temporary Entry for Business Persons); and

“universal service” means the permanent supply of a delivery service of specified quality at all points in the territory of a Party, for all customers, at affordable prices.

Article 2 Scope

1. A Party that maintains a postal monopoly shall define the scope of the monopoly on the basis of objective criteria, including quantitative criteria such as price or weight thresholds.
2. Each Party has the right to define the kind of universal service obligation it wishes to adopt or maintain. A Party that maintains a universal service obligation shall administer it in a transparent, non-discriminatory, and impartial manner with regard to all service suppliers subject to the obligation.

1. Neither Party shall allow a supplier of services covered by a postal monopoly to cross-subsidise its own or any other competitive supplier's express delivery services with revenues derived from monopoly postal services.
2. Each Party shall ensure that any supplier of services covered by a postal monopoly does not abuse its monopoly position to act in the Party's territory in a manner inconsistent with the Party's commitments under Article 8.3 (National Treatment), Article 8.5 (Market Access), Article 13.4 (Investment – Market Access), or Article 13.5 (Investment – National Treatment) with respect to the supply of express delivery services.²
3. Neither Party shall:

4. Each Party shall ensure that any authority responsible for regulating express delivery services is not accountable to any supplier of express delivery services, and that the decisions and procedures that the authority adopts are impartial, non-discriminatory and transparent with respect to all express delivery service suppliers in its territory.

² For greater certainty, a Party shall be deemed to satisfy this paragraph if any supplier of services in its territory covered by a postal monopoly is subject to national competition law.

³ This paragraph shall not be construed to prevent a Party from imposing non-discriminatory fees on delivery service suppliers on the basis of objective and reasonable criteria, or from assessing fees or other charges on the express delivery services of its own supplier of services covered by a postal monopoly.

2. Each Party shall accord to established financial service suppliers of the other Party, and to investments of investors of the other Party in established financial service suppliers, treatment no less favourable than that it accords, in like circumstances, to its own established financial service suppliers, and to investments of its own investors in established financial service suppliers with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of established financial service suppliers and investments.

⁴ For greater certainty, whether treatment is accorded in “like circumstances” under Article 9.5 (National Treatment) or Article 9.8 (Most-Favoured-Nation Treatment) depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors, investments, established financial service suppliers or financial service suppliers on the basis of legitimate public welfare objectives.

 - (e) restricts or requires specific types of legal entity or joint venture through which an established financial service supplier or cross-border financial service supplier may supply a service.
- 2. Article 9.7 Local Presence

Article 9.11 Transparency

1. Articles 26.2 (General Provisions – Good Regulatory Practice), 26.6 (Public Consultation – Good Regulatory Practice), 26.10 (Regulatory Cooperation – Good Regulatory Practice), and 26.11 (Contact Points – Good Regulatory Practice) and Articles 28.2 (Publication – Transparency and Anti-Corruption), 28.3 (Administrative Proceedings – Transparency and Anti-Corruption), and 28.5 (Provision of Information – Transparency and Anti-Corruption) do not apply to a measure covered by this Chapter.
2. The Parties recognise that transparent measures governing the activities of financial service suppliers are important in facilitating their ability to gain access to and operate in each other's markets. Each Party commits to promote regulatory transparency in financial services.
3. Each Party shall:
 - (a) ensure that all measures of general application to which this Chapter applies are administered in a reasonable, objective, and impartial manner;
 - (b) ensure that its laws, regulations, procedures, and administrative rulings of general application to which this Chapter applies are promptly published or made available in a manner that enables an interested person and the other Party to become acquainted with them;
 - (c) to the extent practicable, ensure advance publication of any laws, regulations, procedures, and administrative rulings of general application to which this Chapter applies that it proposes to adopt and their purpose, and provide an interested person and the other Party a reasonable opportunity to comment on them;
 - (d) maintain or establish appropriate mechanisms to respond, within a reasonable period of time, to an inquiry or a request for information from an interested person and the other Party regarding measures of general application to which this Chapter applies;
 - (e) allow, to the extent practicable, a reasonable period of time between the publication of a final law or regulation of general application to which this Chapter applies and the date when it enters into effect; and
 - (f) ensure that the rules of general application adopted or maintained by a self-regulatory organisation of the Party, to which this Chapter applies, are promptly published or otherwise made available in a manner that enables interested persons to become acquainted with them.

4. In developing a new law or regulation of general application to which this Chapter applies, a Party may consider, in a manner consistent with its law and regulations, comments regarding how the proposed law or regulation of general application may affect the operations of financial service suppliers, including financial service suppliers of the Party or the other Party. These comments may include:
 - (a) submissions to a Party by the other Party regarding its regulatory measures that are related to the objectives of the proposed law or regulation of general application; or
 - (b) submissions to a Party by interested persons, including the other Party or financial service suppliers of the other Party, with regard to the potential effects of the proposed law or regulation of general application.
5. Before the competent authority of a Party adopts a final law or regulation of general application, a Party shall, to the extent practicable, address in writing the substantive comments received from interested persons with respect to the proposed law or regulation of general application.⁷
6. If a Party adopts or maintains measures relating to authorisation for the supply of a service, the Party shall ensure that:
 - (a) the competent authority reaches and administers its decisions in a manner independent from any supplier of the services for which authorisation is required;⁸
 - (b) those measures are based on objective and transparent criteria;⁹
 - (c) the procedures are impartial, and that the procedures are adequate for applicants to demonstrate whether they meet the requirements, if those requirements exist;
 - (d) the procedures do not in themselves unjustifiably prevent fulfilment of requirements; and
 - (e) those measures do not discriminate on the basis of gender.¹⁰

⁷ For greater certainty, a Party may address those comments collectively on an official website.

⁸ For greater certainty, this provision does not mandate a particular administrative structure; it refers to the decision-making process and administering of decisions.

⁹ Those criteria may include competence and the ability to supply a service, including to do so in a manner consistent with a Party's regulatory requirements. Competent authorities may assess the weight to be given to each criterion.

¹⁰ Differential treatment that is reasonable and objective, and aims to achieve a legitimate purpose, and adoption by Parties of temporary special measures aimed at accelerating de facto equality across all genders, shall not be considered discrimination for the purposes of this provision.

7. If a Party requires authorisation for the supply of a financial service, the competent authorities of the Party shall:

- (a) make publicly available the information necessary for financial service suppliers to comply with the requirements and procedures for obtaining, maintaining, amending, and renewing that authorisation.

Where it exists, that information shall include:

- (i) fees;
 - (ii) contact information of competent authorities;
 - (iii) procedures for appeal or review of decisions concerning applications;
 - (iv) procedures for monitoring or enforcing compliance with the terms and conditions of licences;
 - (v) opportunities for public involvement, such as through hearings or comments;
 - (vi) indicative timeframes for processing of an application; and
 - (vii) any other relevant requirements and procedures;
- (b) avoid, to the extent practicable, requiring an applicant to approach more than one competent authority for each application for authorisation. If a service is within the jurisdiction of multiple competent authorities, multiple applications for authorisation may be required;
 - (c) permit, to the extent practicable, submission of an application at any time throughout the year.¹¹ If a specific time period for applying exists, the Party shall ensure that the regulatory authorities allow a reasonable period for the submission of an application;
 - (d) taking into account their competing priorities and resource constraints, endeavour to accept applications in electronic format;
 - (e) accept copies of documents, that are authenticated in accordance with the Party's laws and regulations, in place of original documents, unless the competent authorities require original documents to protect the integrity of the authorisation process;

¹¹ Competent authorities are not required to start considering applications outside of their official working hours and working days.

- (f) ensure that the authorisation fees charged by its competent authorities are reasonable, transparent and do not in themselves restrict the supply of the relevant service;
- (g) make an administrative decision on a complete application of a financial service supplier of the other Party, relating to the supply of a financial service within a reasonable period of time, in line with each Party's law. An application is not considered complete until the competent authority has received all necessary information and all relevant hearings, if any, have been held;
- (h) on request of an applicant, inform the applicant of the status of their application without undue delay;
- (i) if they require additional information from the applicant, notify the applicant without undue delay;¹²
- (j) promptly notify the applicant of the outcome of their application,¹³ to the extent possible, in writing;¹⁴
- (k) before rejecting an application for authorisation, notify the applicant with the relevant reasons and give the applicant the opportunity to make representations in support of the application;
- (l) on request of an unsuccessful applicant, to the extent possible, inform the applicant of the reasons for denial of the application and, if applicable, the procedures for resubmission of an application. An applicant should not be prevented from submitting another application¹⁵ solely on the basis that an application had been previously rejected; and
- (m) ensure that authorisation, once granted, enters into effect without undue delay, subject to the applicable terms and conditions.¹⁶

¹² Competent authorities are not required to provide an extension of the deadline where an applicant is provided with the opportunity to provide additional information.

¹³ Competent authorities may meet this requirement by informing an applicant in advance in writing, including through a published measure, that lack of response after a specified period of time from the date of submission of an application indicates acceptance of the application or rejection of the application.

¹⁴ "In writing" may include in electronic form.

¹⁵ Competent authorities may require that the content of that application has been revised.

¹⁶ Competent authorities are not responsible for delays due to reasons outside their competence.

Article 9.12
Financial Data and Information¹⁷

1. The Parties recognise that each Party may have its own regulatory requirements concerning the transfer of information by electronic means and the use of financial service computing facilities, including requirements that seek to ensure the security and confidentiality of communications.
2. Neither Party shall prohibit or restrict a financial service supplier of the other Party from transferring, including by electronic means, information including personal information, where those transfers are necessary for the conduct of the ordinary business of the financial service supplier.
3. Subject to paragraphs 4 and 5, it is prohibited for a Party to require, as a condition for conducting business in the Party's territory, a financial service supplier of the other Party to use or locate financial service computing facilities, in the former Party's territory.¹⁸
4. Each Party has the right to require a financial service supplier of the other Party to use or locate financial service computing facilities in the former Party's territory, where it is not able to ensure appropriate¹⁹ access to information required for the purposes of financial regulation and supervision, provided that the following conditions are met:
 - (a) to the extent practicable, the Party provides a financial service supplier of the other Party with a reasonable opportunity to remediate any lack of access to information; and
 - (b) the Party or its regulatory authorities inform the other Party or its regulatory authorities before imposing any requirements to a financial service supplier of the other Party to use or locate financial service computing facilities in the former Party's territory.
5. Nothing shall restrict the right of a Party to adopt or maintain measures inconsistent with paragraph 2 or paragraph 3 to achieve a legitimate public policy objective such as the protection of personal information, personal privacy, and the confidentiality of individual records and accounts, provided that the measure:

¹⁷ For Australia, Article 9.12 (Financial Data and Information) does not apply to Australia's Foreign Investment Framework, which comprises *Australia's Foreign Investment Policy*, *Foreign Acquisitions and Takeovers Act 1975 (Cth)*, *Foreign Acquisitions and Takeovers Regulation 2015 (Cth)*, *Foreign Acquisitions and Takeovers Fees Imposition Act 2015 (Cth)*, *Foreign Acquisitions and Takeovers Fees Imposition Regulations 2020 (Cth)*, *Financial Sector (Shareholdings) Act 1998 (Cth)* and Ministerial Statements.

¹⁸ For greater certainty, this prohibition also applies to circumstances in which a financial service supplier of the other Party uses the services of an external business for such use, storage or processing of information.

¹⁹ For greater certainty, "appropriate" access may include sufficient, direct, regular or timely access that is provided without undue delay.

- (a) is not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade; and
 - (b) does not impose restrictions on transfers of information or on the use or location of computing facilities greater than are required to achieve the objective.
7. This Article does not apply to information held or processed by or on behalf of a Party, or measures related to that information, including measures related to its collection.
8. This Article does not apply to credit information, or related personal information, of a natural person.

Article 9.13 Payment and Clearing

Under terms and conditions that accord national treatment, each Party shall grant to established financial service suppliers of the other Party in the Party's territory access to payment and clearing systems operated by public entities, and to official funding and refinancing facilities available in the normal course of ordinary business. This Article is not intended to confer access to the Party's lender of last resort facilities.

Article 9.14 Performance of Back-Office Functions

1. Each Party recognises that the performance of the back-office functions of an established financial service supplier in its territory by the head office or an affiliate of the established financial service supplier, or by an unrelated service supplier, either inside or outside its territory, is important to the effective management and efficient operation of that established financial service supplier. Subject to paragraph 3, to the extent practicable, each Party shall allow the performance of those functions by the head office or affiliate of an established financial service supplier in its territory or by an unrelated service supplier.
2. While a Party may require established financial service suppliers to ensure compliance with any domestic requirements applicable to those functions, they recognise the importance of avoiding the imposition of arbitrary requirements on the performance of those functions.
3. For greater certainty, nothing in paragraph 1 prevents a Party from requiring an established financial service supplier in its territory to retain certain functions.

Article 9.15 Self-Regulatory Organisations

If a Party requires a financial service supplier of the other Party to be a member of, participate in, or have access to, a self-regulatory organisation to supply a financial service in or into the territory of that Party, or when the Party provides, directly or indirectly, privileges or advantages to financial service suppliers supplying financial services through a self-regulatory organisation, then the requiring Party shall ensure that the self-regulatory organisation observes the obligations contained in Article 9.5 (National Treatment) and Article 9.8 (Most-Favoured-Nation Treatment).

Article 9.16 Electronic Payments

1. Noting the rapid growth of electronic payments, in particular, those provided by non-banks and FinTech enterprises, the Parties shall endeavour to support, subject to maintaining resilience, the development of efficient, safe, and secure cross-border electronic payments by:
 - (a) fostering the adoption and use of internationally accepted standards for electronic payments;
 - (b) promoting interoperability and the interlinking of electronic payment infrastructures; and
 - (c) encouraging innovation and competition in electronic payments.
2. To this end, each Party shall, subject to maintaining resilience, endeavour to:
 - (a) for the electronic payment systems solely operated by a Party, publicly disclose objective and risk-based criteria for participation which permit fair and open access;
 - (b) not require all payment card transactions to be routed through a national or single electronic payment gateway;
 - (c) adopt, for relevant electronic payment systems, international standards for electronic payment messaging for electronic data exchange between payment service providers and services suppliers to enable greater interoperability between electronic payment systems;
 - (d) facilitate the use of open platforms and architectures and encourage payment service providers to safely and securely make available new technologies and standards for their financial products and services to

third parties, where possible, to facilitate greater interoperability and innovation in electronic payments; and

- (e) facilitate innovation and competition and the introduction of new financial and electronic payment products and services in a timely manner such as through adopting regulatory and industry sandboxes and cooperation at international fora.
3. In view of paragraph 1, the Parties recognise the importance of upholding safety, efficiency, trust and security in electronic payment systems through regulations, and that the adoption and enforcement of regulations and policies should be proportionate to the risks undertaken by the payment service providers.

Article 9.17

Financial Services New to the Territory of a Party

1. Each Party shall permit financial service suppliers of the other Party to supply a new financial service that the first Party would permit its own financial service suppliers to supply, in like circumstances, without adopting a law or modifying an existing law.²⁰ For cross-border financial service suppliers, this Article only applies to the financial services specified in Annex 9A (Cross-Border Trade in Financial Services).
2. Notwithstanding subparagraph 1(e) of Article 9.6 (Market Access), a Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorisation for the supply of the service. Where that authorisation is required, a decision shall be made within a reasonable time, and the authorisation may only be refused for prudential reasons.

Article 9.18

Financial Services New to the Territories of both Parties

1. Subject to paragraph 2, each Party may permit financial service suppliers of the other Party to supply a financial service new to the territories of both Parties. The Parties shall enter into consultations with a view to exchanging information on the operation of the measure and considering whether further steps are necessary and appropriate.

3. A measure of a Party allocating and assigning spectrum and managing frequency is not per se inconsistent with Article 8.5 (Market Access – Cross-Border Trade in Services) and Article 13.4 (Market Access – Investment).

Accordingly, each Party retains the right to establish and apply spectrum and frequency management policies that may have the effect of limiting the number of suppliers of public telecommunications services, provided that the Party does so in a manner consistent with this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs and spectrum availability.

4. When making a spectrum allocation for commercial telecommunications services, each Party shall endeavour to rely on an open and transparent process that considers the public interest, including the promotion of competition. Each Party may rely on market-based approaches, such as auctions, to assign spectrum for commercial use.

Article 12.19 Flexibility in the Choice of Technology

1. Neither Party shall prevent a supplier of public telecommunications services from choosing the technologies it wishes to use to supply its services.
2. Notwithstanding paragraph 1, a Party may apply a measure that limits the technologies that a supplier of public telecommunications networks or services may use to supply its services, provided that the measure is designed to achieve a legitimate public policy interest and is not adopted or applied in a manner that creates unnecessary obstacles to trade in services.
3. If a Party finances the development of advanced networks,⁶ it may make its financing conditional on the use of technologies that meet its legitimate public policy interests.

Article 12.20 Resolution of Telecommunications Disputes

Each Party shall ensure that:

- (a) suppliers of public telecommunications networks or services of the other Party have timely recourse to a telecommunications regulatory authority or judicial authority of the Party to consider and, to the extent provided for in its laws and regulations, to resolve a dispute regarding the Party's measures relating to the obligations contained in this Chapter;

⁶ For greater certainty, "advanced networks" includes broadband networks.

- (b) in the event of a dispute referred to in subparagraph (a), the telecommunications regulatory authority or judicial authority of the Party:
 - (i) issues a binding decision to resolve a dispute;
 - (ii) provides a supplier that is a party to the dispute with the reasons for its decision; and
 - (iii) make its decision publicly available to the extent provided for in its laws and regulations;
- (c) notwithstanding subparagraph (b), if the telecommunications regulatory authority of the Party declines to initiate an action on a request to resolve a dispute, it provides the supplier of the other Party that is a party to the dispute with the reasons for its decision;
- (d) a supplier of public telecommunications networks or services of the other Party aggrieved by a decision of the telecommunications regulatory authority has the right to appeal that decision to a judicial authority. That appeal shall not constitute grounds for noncompliance by that supplier with the decision, unless its relevant authority determines otherwise.
- (e) in the hearing of an appeal by a judicial authority referred to in subparagraph (d):
 - (i) a supplier that is a party to the appeal has a reasonable opportunity to obtain sufficient information to form informed views on the issues to be determined in the appeal and to provide those views to the judicial authority;
 - (ii) the judicial authority takes into account views provided by that supplier; and
 - (iii) the judicial authority makes available to that supplier its decision and the reasons on which the decision is based; and
- (f) a supplier of public telecommunications services of the other Party that has requested interconnection with a major supplier in the Party's territory may seek review, within a reasonable and publicly specified period of time after the supplier requests interconnection, by its telecommunications regulatory authority to resolve a dispute regarding the terms, conditions, and rates for interconnection with that major supplier.

Article 12.21 Transparency

1. Further to Chapter 28 (Transparency and Anti-Corruption), each Party shall endeavour to ensure that:
 - (a) telecommunications service suppliers are provided with adequate advance notice of, and opportunity to comment on, a regulatory decision of general application that its telecommunications regulatory authority proposes; and
 - (b) suppliers of public telecommunications networks or services of the other Party are, on request, provided with a clear and detailed explanation of the reasons for a decision to deny access of the kind specified in Article 12.5 (Access to Essential Facilities and Unbundled Network Elements) and Article 12.10 (Interconnection with Major Suppliers) where that decision is made, approved, endorsed, or authorised by the Party.

2. Further to Chapter 28 (Transparency and Anti-Corruption), each Party shall ensure that its measures relating to public telecommunications networks or services are made publicly available, including:
 - (a) tariffs and other terms and conditions of service;
 - (b) specifications of technical interfaces;
 - (c) conditions for attaching terminal or other equipment to the public telecommunications network;
 - (d) notification, permit, registration, or licensing requirements, if any;
 - (e) general procedures relating to resolution of telecommunications disputes provided for in Article 12.20 (Resolution of Telecommunications Disputes); and
 - (f) information on bodies responsible for preparing, amending, and adopting standards-related measures.

Article 12.22 Enforcement

Each Party shall provide its telecommunications regulatory authority with the authority to enforce the Party's measures relating to the obligations in Article 12.4 (Access and Use), Article 12.5 (Access to Essential Facilities and Unbundled Network Elements), Article 12.6 (Resale), Article 12.7 (Competitive Safeguards), Article 12.8 (Treatment by Major Suppliers), Article 12.9 (Interconnection with

Suppliers), Article 12.10 (Interconnection with Major Suppliers), Article 12.11 (Number Portability), Article 12.12 (Access to Numbers), Article 12.14 (Submarine Cable Landing Stations and Systems), and Article 12.17 (Licensing and Authorisation Process). That authority shall be exercised transparently, in a timely manner, and include the ability to impose, or seek from administrative or judicial bodies, effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), or the modification, suspension, or revocation of licences.

Article 12.23 Relation to International Organisations

The Parties recognise the importance of international standards for global compatibility and interoperability of telecommunications networks and services and undertake to promote those standards through the work of relevant international organisations.

Article 12.24 Cooperation

1. The Parties recognise the transformational impact of communications networks, infrastructure, and technologies (including those that are new and emerging), and the importance of these technologies to the Parties' respective economies and societies.
2. Accordingly, each Party shall take measures to:
 - (a) encourage a diverse and competitive market for telecommunications services and networks in its territory; and
 - (b) protect the security and integrity of its telecommunications infrastructure.
3. The Parties shall endeavour to:
 - (a) exchange information on the opportunities and challenges associated with communication networks, infrastructure, and technologies; and
 - (b) work together in regional and multilateral fora to promote a shared approach to these opportunities and challenges.

Article 12.25 Confidentiality

Each Party shall ensure, in accordance with its laws and regulations, the confidentiality of telecommunications and related traffic data⁷ of users over public telecommunications networks and services without unduly restricting trade in services.

⁷ For the purposes of this Article, “traffic data” means any data processed for the purpose of transmitting a communication over a public telecommunications network or service, and includes data relating to the duration or time of the communication, or the location from which the communication was made.

CHAPTER 13

INVESTMENT

Article 13.1 Definitions

For the purposes of this Chapter:

“activities carried out in the exercise of governmental authority” means activities carried out neither on a commercial basis nor in competition with one or more economic operators;

“enterprise” means an enterprise as defined in Article 1.4 (General Definitions – Initial Provisions and General Definitions), and a branch of an enterprise;

“enterprise of a Party” means:

- (a) an enterprise, as defined in Article 1.4 (General Definitions – Initial Provisions and General Definitions), constituted or organised under the law of that Party, or a branch located in the territory of that Party,¹ and carrying out substantial business activities in the territory of that Party; or
- (b) an enterprise, as defined in Article 1.4 (General Definitions – Initial Provisions and General Definitions), constituted or organised under the law of that Party and directly or indirectly owned or controlled by a national of that Party or by an enterprise referred to in subparagraph (a);

“freely usable currency” means “freely usable currency” as determined by the International Monetary Fund under the *Articles of Agreement of the International Monetary Fund* done at Bretton Woods on 22 July 1944 (“IMF Articles of Agreement”);

“investment” means every asset that an investor owns or controls, directly or indirectly, that has the characteristics of an investment, including such characteristics as the commitment of capital or other resources, the expectation of gain or profit, or the assumption of risk. Forms that an investment may take include:

¹ For greater certainty, the inclusion of a “branch” in the definitions of “enterprise” and “enterprise of a Party” is without prejudice to a Party’s ability to treat a branch under its law as an entity that has no independent legal existence and is not separately organised.

- (a) an enterprise;
- (b) shares, stock, and other forms of equity participation in an enterprise;
- (c) bonds, debentures, other debt instruments, and loans;^{2, 3}
- (d) futures, options, and other derivatives;
- (e) turnkey, construction, management, production, concession, revenue-sharing, and other similar contracts;
- (f) intellectual property rights;
- (g) licences, authorisations, permits, and similar rights conferred pursuant to the Party's law;⁴ and
- (h) other tangible or intangible, movable or immovable property, and related property rights, such as leases, mortgages, liens, and pledges,

but investment does not mean an order or judgment entered in a judicial or administrative action;

“investor of a non-Party” means, with respect to a Party, an investor that attempts to make,⁵ is making, or has made an investment in the territory of that Party, that is not an investor of the other Party;

“investor of a Party” means a Party, or a national or an enterprise of a Party, that attempts to make, is making, or has made an investment in the territory of the other Party.

² Some forms of debt, such as bonds, debentures, and long-term notes, are more likely to have the characteristics of an investment, while other forms of debt, such as claims to payment that are immediately due and result from the sale of goods or services, are less likely to have such characteristics.

³ A loan issued by a Party to the other Party is not an investment.

⁴ Whether a particular type of licence, authorisation, permit, or similar instrument (including a concession to the extent that it has the nature of such an instrument) has the characteristics of an investment depends on such factors as the nature and extent of the rights that the holder has under the Party's law. Among such instruments that do not have the characteristics of an investment are those that do not create any rights protected under the Party's law. For greater certainty, the foregoing is without prejudice to whether any asset associated with such instruments has the characteristics of an investment.

⁵ For greater certainty, the Parties understand that, for the purposes of the definitions of “investor of a non-Party” and “investor of a Party”, an investor “attempts to make” an investment when that investor has taken concrete action or actions to make an investment, such as channelling resources or capital in order to set up a business, or applying for a permit or licence.

Article 13.2

Scope

1. This Chapter applies to measures adopted or maintained by a Party relating to:
 - (a) investors of the other Party;
 - (b) covered investments; and
 - (c) with respect to Article 13.11 (Performance Requirements), Article 13.17 (Investment and Environmental, Health, and other Regulatory Objectives), Article 13.18 (Investment and Environment), and Article 13.19 (Corporate Social Responsibility), all investments in the territory of that Party.
2. A Party's obligations under this Chapter apply to measures adopted or maintained by:
 - (a) the central, regional, or local governments or authorities of that Party; and
 - (b) any person, including a state enterprise or any other body, when it exercises any governmental authority delegated to it by central, regional, or local governments or authorities of that Party.⁶
3. For greater certainty, this Chapter does not bind a Party in relation to an act or fact that took place or a situation that ceased to exist before the date of entry into force of this Agreement.
4. With respect to the establishment, expansion or acquisition of an investment, Article 13.4 (Market Access), Article 13.5 (National Treatment), Article 13.6 (Most-Favoured-Nation Treatment), Article 13.11 (Performance Requirements), and Article 13.12 (Senior Management and Boards of Directors) do not apply to activities carried out in the exercise of governmental authority.
5. Article 13.4 (Market Access), Article 13.5 (National Treatment), Article 13.6 (Most-Favoured-Nation Treatment), Article 13.11 (Performance Requirements), and Article 13.12 (Senior Management and Boards of Directors) do not apply to audio-visual services.

⁶ For greater certainty, governmental authority is delegated under the Party's law, including through a legislative grant or a government order, directive, or other action transferring or authorising the exercise of governmental authority.

6. In the event of any inconsistency between this Chapter and a bilateral, plurilateral, or multilateral air services agreement to which both Parties are party, the air services agreement shall prevail in determining the rights and obligations of the Parties.
7. If the Parties have the same obligations under this Agreement and a bilateral, plurilateral, or multilateral air services agreement, a Party may invoke the dispute settlement procedures of this Agreement only after any dispute settlement procedures in the other agreement have been exhausted.

Article 13.3 **Relation to Other Chapters**

1. In the event of any inconsistency between this Chapter and another Chapter of this Agreement, the other Chapter shall prevail to the extent of the inconsistency.
2. A requirement of a Party that a service supplier of the other Party post a bond or other form of financial security as a condition for the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that the bond or financial security is a covered investment.
3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter 9 (Financial Services).

Article 13.4 **Market Access**

1. Neither Party shall adopt or maintain, with respect to market access through the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of any investment in its territory by an investor of the other Party, either on the basis of its entire territory or on the basis of the territory of a central, regional, or local level of government, a measure⁷ that:
 - (a) imposes limitations on:

⁷ This paragraph does not prohibit measures which apply to a specific site or a particular limited area within the territory of a Party.

- (i) the number of enterprises that may carry out a specific economic activity whether in the form of numerical quotas, monopolies, exclusive suppliers, or the requirement of an economic needs test;
 - (ii) the total value of transactions or assets in the form of numerical quotas or the requirement of an economic needs test;⁸
 - (iii) the total number of operations or the total quantity of output expressed in terms of designated numerical units in the form of quotas or the requirement of an economic needs test;
 - (iv) the participation of foreign capital in terms of maximum percentage limit on foreign shareholding or the total value of individual or aggregate foreign investment; or
 - (v) the total number of natural persons that may be employed in a particular sector or that an enterprise may employ and who are necessary for, and directly related to, the performance of economic activity in the form of numerical quotas or the requirement of an economic needs test; or
- (b) requires that an economic activity is carried out through a specific type of legal entity or by a joint venture.

Article 13.5 National Treatment⁹

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment,

⁸ Sub-paragraphs 1(a)(i) through (iii) do not cover measures taken in order to limit the production of an agricultural good.

⁹ For greater certainty, whether treatment is accorded in “like circumstances” under Article 13.5 (National Treatment) or Article 13.6 (Most-Favoured-Nation Treatment) depends on the totality of the circumstances, including whether the relevant treatment distinguishes between investors or investments on the basis of legitimate public welfare objectives.

acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

3. For greater certainty, the treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favourable than the most favourable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

Article 13.6 Most-Favoured-Nation Treatment

1. Each Party shall accord to investors of the other Party treatment no less favourable than that it accords, in like circumstances, to investors of a non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favourable than that it accords, in like circumstances, to investments in its territory of investors of a non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.¹⁰
3. For greater certainty, the treatment referred to in this Article does not encompass international dispute resolution procedures or mechanisms.

Article 13.7 Minimum Standard of Treatment¹¹

1. Each Party shall accord to covered investments treatment in accordance with applicable customary international law principles, including fair and equitable treatment and full protection and security.
2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which

¹⁰ For greater certainty, paragraphs 1 and 2 do not cover treatment accorded by the United Kingdom to investors (and to their investments) of territories for whose international relations the United Kingdom is responsible.

¹¹ Article 13.7 (Minimum Standard of Treatment) shall be interpreted in accordance with Annex 13A (Customary International Law).

is required by that standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:

- (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and
 - (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.
3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.
 4. For greater certainty, the mere fact that a Party takes or fails to take an action that may be inconsistent with an investor’s expectations does not constitute a breach of this Article, even if there is loss or damage to the covered investment as a result.
 5. For greater certainty, the mere fact that a subsidy or grant has not been issued, renewed or maintained, or has been modified or reduced, by a Party, does not constitute a breach of this Article, even if there is loss or damage to the covered investment as a result.

Article 13.8

Treatment in Case of Armed Conflict or Civil Strife

1. Notwithstanding subparagraph 6(b) of Article 13.13 (Non-Conforming Measures), each Party shall accord to investors of the other Party and to covered investments non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict or civil strife.
2. Notwithstanding paragraph 1, if an investor of a Party, in a situation referred to in paragraph 1, suffers a loss in the territory of the other Party resulting from:
 - (a) requisitioning of its covered investment or part thereof by the latter’s forces or authorities; or
 - (b) destruction of its covered investment or part thereof by the latter’s forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for that loss.

3. Paragraph 1 shall not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 13.5 (National Treatment) but for subparagraph 6(b) of Article 13.13 (Non-Conforming Measures).

Article 13.9 Expropriation and Compensation¹²

1. Neither Party shall expropriate or nationalise a covered investment either directly or indirectly through measures equivalent to expropriation or nationalisation (expropriation), except:
 - (a) for a public purpose;¹³
 - (b) in a non-discriminatory manner;
 - (c) on payment of prompt, adequate, and effective compensation in accordance with paragraphs 2 through 4; and
 - (d) in accordance with due process of law.
2. Compensation shall:
 - (a) be paid without delay;
 - (b) be equivalent to the fair market value of the expropriated investment immediately before the expropriation took place (the date of expropriation);
 - (c) not reflect any change in value occurring because the intended expropriation had become known earlier; and
 - (d) be fully realisable and freely transferable.
3. If the fair market value is denominated in a freely usable currency, the compensation paid shall be no less than the fair market value on the date of expropriation, plus interest at a commercially reasonable rate

¹² Article 13.9 (Expropriation and Compensation) shall be interpreted in accordance with Annex 13B (Expropriation).

¹³ For greater certainty, for the purposes of this Article, the term “public purpose” refers to a concept in customary international law. Domestic law may express this or a similar concept by using different terms, such as “public necessity”, “public interest”, or “public use”.

for that currency, accrued from the date of expropriation until the date of payment.

4. If the fair market value is denominated in a currency that is not freely usable, the compensation paid, converted into the currency of payment at the market rate of exchange prevailing on the date of payment, shall be no less than:
 - (a) the fair market value on the date of expropriation, converted into a freely usable currency at the market rate of exchange prevailing on that date; plus
 - (b) interest, at a commercially reasonable rate for that freely usable currency, accrued from the date of expropriation until the date of payment.
5. This Article does not apply to the issuance of compulsory licences granted in relation to intellectual property rights in accordance with the TRIPS Agreement, or to the revocation, limitation, or creation of intellectual property rights, to the extent that the issuance, revocation, limitation, or creation is consistent with Chapter 15 (Intellectual Property) and the TRIPS Agreement.¹⁴
6. For greater certainty, a Party's decision not to issue, renew, or maintain a subsidy or grant, or decision to modify or reduce a subsidy or grant,
 - (a) in the absence of any specific commitment under law or contract to issue, renew, or maintain that subsidy or grant; or
 - (b) in accordance with any terms or conditions attached to the issuance, renewal, modification, reduction, and maintenance of that subsidy or grant,standing alone, does not constitute an expropriation.

Article 13.10 **Transfers**

1. Each Party shall permit all transfers relating to a covered investment to be made freely and without delay into and out of its territory. Such transfers include:

¹⁴ For greater certainty, the Parties recognise that, for the purposes of this Article, the term "revocation" of intellectual property rights includes the cancellation or nullification of those rights, and the term "limitation" of intellectual property rights includes exceptions to those rights.

- (a) contributions to capital;¹⁵
 - (b) profits, dividends, interest, capital gains, royalty payments, management fees, technical assistance fees, and other fees;
 - (c) proceeds from the sale of all or any part of the covered investment or from the partial or complete liquidation of the covered investment;
 - (d) payments made under a contract, including a loan agreement;
 - (e) payments made pursuant to Article 13.8 (Treatment in Case of Armed Conflict or Civil Strife) and Article 13.9 (Expropriation and Compensation); and
 - (f) payments arising out of a dispute.
2. Each Party shall permit transfers relating to a covered investment to be made in a freely usable currency at the market rate of exchange prevailing at the time of transfer.
 3. Each Party shall permit returns in kind relating to a covered investment to be made as authorised or specified in a written agreement between the Party and a covered investment or an investor of the other Party.
 4. Notwithstanding paragraphs 1 through 3, a Party may prevent or delay a transfer through the equitable, non-discriminatory, and good faith application of its law¹⁶ relating to:
 - (a) bankruptcy, insolvency, or the protection of the rights of creditors;
 - (b) issuing, trading or dealing in securities, futures, options, or derivatives;
 - (c) criminal or penal offences;
 - (d) financial reporting or record keeping of transfers when necessary to assist law enforcement or financial regulatory authorities; or
 - (e) ensuring compliance with orders or judgments in judicial or administrative proceedings.

¹⁵ For greater certainty, contributions to capital include the initial contribution.

¹⁶ For greater certainty, this Article does not preclude the equitable, non-discriminatory, and good faith application of a Party's law relating to its social security, public retirement, or compulsory savings programmes.

5. Notwithstanding paragraph 3, a Party may restrict transfers of returns in kind in circumstances where it could otherwise restrict such transfers under this Agreement, including as set out in paragraph 4.
6. For greater certainty, nothing in this Article shall be construed to prevent a Party from applying its law relating to the imposition of economic sanctions in good faith.

Article 13.11 **Performance Requirements**

1. Neither Party shall, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, impose or enforce any requirement, or enforce any commitment or undertaking:¹⁷
 - (a) to export a given level or percentage of goods or services;
 - (b) to achieve a given level or percentage of domestic content;
 - (c) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;
 - (d) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with the investment;
 - (e) to restrict sales of goods or services in its territory that the investment produces or supplies by relating those sales in any way to the volume or value of its exports or foreign exchange earnings;
 - (f) to transfer a particular technology, a production process, or other proprietary knowledge to a person in its territory;
 - (g) to supply exclusively from the territory of the Party the goods that the investment produces or the services that it supplies to a specific regional market or to the world market;

¹⁷ For greater certainty, a condition for the receipt or continued receipt of an advantage referred to in paragraph 2 does not constitute a “requirement” or a “commitment or undertaking” for the purposes of paragraph 1.

- (h)
 - (i) to purchase, use, or accord a preference to, in its territory, technology of the Party or of a person of the Party;¹⁸ or
 - (ii) that prevents the purchase or use of, or the according of a preference to, in its territory, a particular technology;
- (i) to locate the regional or world headquarters of an enterprise in its territory;
- (j) to achieve a given level or value of research and development in its territory;
- (k) to adopt:
 - (i) a rate or amount of royalty below a certain level; or
 - (ii) a given duration of the term of a licence contract,¹⁹

with regard to any licence contract in existence at the time the requirement is imposed or enforced, or any commitment or undertaking is enforced, or with regard to any future licence contract freely entered into between the investment and a person in the territory of the Party, if the requirement is imposed or enforced or the commitment or undertaking is enforced, in a manner that constitutes a direct interference with that licence contract by an exercise of a non-judicial governmental authority of the Party.²⁰

2. Neither Party shall condition the receipt or continued receipt of an advantage, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, on compliance with any requirement:
- (a) to achieve a given level or percentage of domestic content;
 - (b) to purchase, use, or accord a preference to goods produced in its territory, or to purchase goods from persons in its territory;

¹⁸ For the purposes of this Article, the term “technology of the Party or of a person of the Party” includes technology that is owned by the Party or a person of the Party, and technology for which the Party or a person of the Party holds an exclusive licence.

¹⁹ A “licence contract” referred to in this subparagraph means any contract concerning the licensing of technology, a production process, or other proprietary knowledge.

²⁰ For greater certainty, subparagraph (k) does not apply when the licence contract is concluded between the investment and a Party.

- (c) to relate in any way the volume or value of imports to the volume or value of exports or to the amount of foreign exchange inflows associated with the investment; or
 - (d) to restrict sales of goods or services in its territory that the investment produces or supplies by relating those sales in any way to the volume or value of its exports or foreign exchange earnings.
- 3. Nothing in paragraph 2 shall be construed to prevent a Party from conditioning the receipt or continued receipt of an advantage, in connection with an investment of an investor of a Party or of a non-Party in its territory, on compliance with a requirement to locate production, supply a service, train or employ workers, construct or expand particular facilities, or carry out research and development, in its territory.
- 4. Subparagraphs 1(f), 1(h), and 1(k) do not apply:
 - (a) if a Party authorises use of an intellectual property right in accordance with of the TRIPS Agreement, or to measures requiring the disclosure of proprietary information that fall within the scope of, and are consistent with, Article 39 of the TRIPS Agreement; or
 - (b) if the requirement is imposed or enforced, or the commitment or undertaking is enforced, by a court or administrative tribunal or by a competition authority to prevent or remedy a restriction or distortion of competition after a judicial or administrative process conducted pursuant to a Party's competition law.²¹
- 5. Subparagraph 1(k) does not apply if the requirement is imposed or enforced, or the commitment or undertaking is enforced, by a tribunal as equitable remuneration under the Party's copyright law.
- 6. Subparagraphs 1(a) through 1(c), 2(a), and 2(b) do not apply to qualification requirements for goods or services with respect to export promotion and foreign aid programs.
- 7. Subparagraphs 1(b), 1(c), 1(f) through 1(j), 2(a) and 2(b) do not apply to government procurement.
- 8. Subparagraphs 2(a) and 2(b) do not apply to requirements imposed by an importing Party relating to the content of goods necessary to qualify for preferential tariffs or preferential quotas.

²¹ The Parties recognise that a patent does not necessarily confer market power.

9. Subparagraphs (1)(h) and (1)(k) shall not be construed to prevent a Party from adopting or maintaining measures to protect legitimate public welfare objectives, provided that such measures are not applied in an arbitrary or unjustifiable manner, or in a manner that constitutes a disguised restriction on international trade or investment.
10. For greater certainty, nothing in paragraph 1 shall be construed to prevent a Party, in connection with the establishment, acquisition, expansion, management, conduct, operation, or sale or other disposition of an investment of an investor of a Party or of a non-Party in its territory, from imposing or enforcing a requirement, or enforcing a commitment or undertaking, to employ or train workers in its territory provided that the employment or training does not require the transfer of a particular technology, production process, or other proprietary knowledge to a person in its territory.
11. For greater certainty, paragraphs 1 and 2 do not apply to any commitment, undertaking, or requirement other than those set out in those paragraphs.
12. This Article does not preclude enforcement of any commitment, undertaking, or requirement between private parties, if a Party did not impose or require the commitment, undertaking, or requirement.

Article 13.12
Senior Management and Boards of Directors

A Party shall not require that an enterprise of that Party that is a covered investment appoint to senior management or board of director positions natural persons of a particular nationality or who are resident in the territory of that Party.

Article 13.13
Non-Conforming Measures

1. Article 13.4 (Market Access), Article 13.5 (National Treatment), Article 13.6 (Most-Favoured-Nation Treatment), Article 13.11 (Performance Requirements) and Article 13.12 (Senior Management and Boards of Directors) do not apply to:
 - (a) any existing non-conforming measure that is maintained by a Party at:

- (i) the central level of government, as set out by that Party in its Schedule to Annex I (Schedules of Non-Conforming Measures for Services and Investment);
 - (ii) a regional level of government, as set out by that Party in its Schedule to Annex I (Schedules of Non-Conforming Measures for Services and Investment); or
 - (iii) a local level of government;
- (b) the continuation or prompt renewal of any non-conforming measure referred to in subparagraph (a); or
 - (c) an amendment to any non-conforming measure referred to in subparagraph (a), to the extent that the amendment does not decrease the conformity of the measure, as it existed immediately before the amendment, with Article 13.5 (National Treatment), Article 13.6 (Most-Favoured-Nation Treatment), Article 13.11 (Performance Requirements) or Article 13.12 (Senior Management and Boards of Directors).
2.  3. If a Party considers that a non-conforming measure applied by a regional level of government of the other Party, as referred to in subparagraph 1(a)(ii), creates a material impediment to investment in relation to the former Party, it may request consultations with regard to that measure. The Parties shall enter into consultations with a view to exchanging information on the operation of the measure and to considering whether further steps are necessary and appropriate.²²
 4. Neither Party shall, under any measure adopted after the date of entry into force of this Agreement and covered by its Schedule to Annex II (Schedules of Non-Conforming Measures for Services and Investment), require an investor of the other Party, by reason of its nationality, to sell or otherwise dispose of an investment existing at the time the measure becomes effective.

²² For greater certainty, a Party may request consultations with the other Party regarding a non-conforming measure applied by a central level of government, as referred to in subparagraph 1(a)(i).

5. Article 13.5 (National Treatment) and Article 13.6 (Most-Favoured-Nation Treatment) do not apply to any measure that falls within Article 5 of the TRIPS Agreement, and any measure that is covered by an exception to, or derogation from, the obligations imposed by Article 15.8 (National Treatment) of Chapter 15 (Intellectual Property), or by Article 3 or Article 4 of the TRIPS Agreement.
6. Article 13.4 (Market Access), Article 13.5 (National Treatment), Article 13.6 (Most-Favoured-Nation Treatment) and Article 13.12 (Senior Management and Boards of Directors) do not apply to:

 - (b) subsidies or grants provided by a Party, including government supported loans, guarantees, and insurance.
7. For greater certainty, any amendments or modifications to a Party's Schedules to Annex I or Annex II (Schedules of Non-Conforming Measures for Services and Investment), pursuant to this Article, shall be made in accordance with Article 32.2 (Amendments – Final Provisions).
8. Australia shall work towards further liberalisation and transparency as regards subparagraphs 1(h) through (k) of Article 13.11 (Performance Requirements). To that end, Australia shall conduct consultations at the regional level of government in respect of subparagraphs 1(h) through (k) of Article 13.11 (Performance Requirements), against the measures maintained at the regional level of government in respect of which entry 45 in its Schedule to Annex I (Schedules of Non-Conforming Measures for Services and Investment) and entry 30 in its Schedule to Annex II (Schedules of Non-Conforming Measures for Services and Investment) have been made.
9. Australia shall endeavour to conclude the consultations referred to in paragraph 8 within nine months of entry into force of this Agreement. Following the conclusion of these consultations, Australia shall:
 - (a) promptly notify the United Kingdom of the outcome of the consultations; and
 - (b) unless the Parties agree otherwise, amend accordingly Australia's Schedule to Annex I (Schedules of Non-Conforming Measures for Services and Investment) and its Schedule to Annex II (Schedules of Non-Conforming Measures for Services and Investment), as soon as is reasonably practicable.

Article 13.14 Subrogation

If a Party, or any agency, institution, statutory body, or corporation designated by the Party, makes a payment to an investor of the Party under a guarantee, a contract of insurance, or other form of indemnity that it has entered into with respect to a covered investment, the other Party in whose territory the covered investment was made shall recognise the subrogation or transfer of any rights the investor would have possessed under this Chapter with respect to the covered investment but for the subrogation, and the investor shall be precluded from pursuing these rights to the extent of the subrogation.

Article 13.15 Special Formalities and Information Requirements

1. Nothing in Article 13.5 (National Treatment) shall be construed to prevent a Party from adopting or maintaining a measure that prescribes special formalities in connection with a covered investment, such as a residency requirement for registration or a requirement that a covered investment be legally constituted under the law of the Party, provided that these formalities do not materially impair the protections afforded by the Party to investors of the other Party and covered investments pursuant to this Chapter.
2. Notwithstanding Article 13.5 (National Treatment) and Article 13.6 (Most-Favoured-Nation Treatment), a Party may require an investor of the other Party or its covered investment to provide information concerning that investment solely for informational or statistical purposes. The Party shall protect such information that is confidential from any disclosure that would prejudice the competitive position of the investor or the covered investment. Nothing in this paragraph shall be construed to prevent a Party from otherwise obtaining or disclosing information in connection with the equitable and good faith application of its law.

Article 13.16 Denial of Benefits²³

A Party may deny the benefits of this Chapter to an investor of the other Party that is an enterprise of that other Party and to investments of that investor if persons of a non-Party own or control the enterprise and the denying Party adopts or maintains measures with respect to the non-Party or a person of the non-Party that prohibit

²³ For greater certainty, the benefits of this Chapter may be denied at any time before or after an investment is made.

transactions with the enterprise or that would be violated or circumvented if the benefits of this Chapter were accorded to the enterprise or to its investments.

Article 13.17

Investment and Environmental, Health, and other Regulatory Objectives

Nothing in this Chapter shall be construed to prevent a Party from adopting, maintaining, or enforcing any measure otherwise consistent with this Chapter that it considers appropriate to ensure that investment activity in its territory is undertaken in a manner sensitive to environmental, health, or other regulatory objectives.

Article 13.18

Investment and the Environment

1. The Parties recall the provisions of this Agreement that are applicable to promoting mutually supportive investment and environmental outcomes and that are consistent with the sovereign right of each Party to set its levels of environmental protection, including as set out in the relevant provisions, exceptions, and exclusions of this Chapter, of Annex I (Schedules of Non-Conforming Measures for Services and Investment) and Annex II (Schedules of Non-Conforming Measures for Services and Investment), of Chapter 31 (General Provisions and Exceptions), and of Chapter 22 (Environment).
2. The Parties further recall that such provisions, exceptions, and exclusions include those applicable to:
 - (a) maintaining and effectively enforcing domestic environmental law and policies;
 - (b) recognising that it is inappropriate to waive or derogate from environmental law to encourage investment;
 - (c) affirming commitments under multilateral environmental agreements;
 - (d) supporting the transition to low carbon and climate resilient economies; and
 - (e) encouraging investment in environmental goods and services.

Article 13.19
Corporate Social Responsibility

Each Party reaffirms the importance of encouraging investors operating within its territory or subject to its jurisdiction voluntarily to incorporate into their internal policies those internationally recognised standards, guidelines, and principles of corporate social responsibility that have been endorsed or are supported by that Party, such as the *OECD Guidelines for Multinational Enterprises* done at Paris on 21 June 1976 and the *United Nations Guiding Principles on Business and Human Rights* done at Geneva on 16 June 2011.

ANNEX 13A

CUSTOMARY INTERNATIONAL LAW

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Article 13.7 (Minimum Standard of Treatment) results from a general and consistent practice of States that they follow from a sense of legal obligation. The customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the investments of aliens.

ANNEX 13B

EXPROPRIATION

The Parties confirm their shared understanding that:

1. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
2. Paragraph 1 of Article 13.9 (Expropriation and Compensation) addresses two situations. The first is direct expropriation, in which an investment is nationalised or otherwise directly expropriated through formal transfer of title or outright seizure.
3. The second situation addressed by paragraph 1 of Article 13.9 (Expropriation and Compensation) is indirect expropriation, in which an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
 - (a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:
 - (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
 - (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations;²⁴ and
 - (iii) the character of the government action.
 - (b) Non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health,²⁵ safety, and the environment,

²⁴ For greater certainty, whether an investor's investment-backed expectations are reasonable depends, to the extent relevant, on factors such as whether the government provided the investor with binding written assurances and the nature and extent of governmental regulation or the potential for government regulation in the relevant sector.

²⁵ For greater certainty and without limiting the scope of this subparagraph, regulatory actions to protect public health include, among others, such measures with respect to the regulation, pricing and supply of, and reimbursement for, pharmaceuticals (including biological products), diagnostics, vaccines, medical devices, gene therapies and technologies, health-related aids and appliances, and blood and blood-related products.

do not constitute indirect expropriations, except in rare circumstances.

ANNEX 13C

FOREIGN INVESTMENT FRAMEWORK

1. A decision or requirement under Australia's Foreign Investment Framework, which comprises Australia's *Foreign Investment Policy*; *Foreign Acquisitions and Takeovers Act 1975* (Cth); *Foreign Acquisitions and Takeovers Regulation 2015* (Cth); *Foreign Acquisitions and Takeovers Fees Imposition Act 2015* (Cth); *Foreign Acquisitions and Takeovers Fees Imposition Regulation 2020* (Cth); *Financial Sector (Shareholdings) Act 1998* (Cth); and Ministerial Statements, shall not be subject to dispute settlement under Chapter 30 (Dispute Settlement).
2. A decision or requirement by the United Kingdom under the *National Security and Investment Act 2021* or on public interest grounds under Part 3 of the *Enterprise Act 2002*, shall not be subject to dispute settlement under Chapter 30 (Dispute Settlement).

A Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that those exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

Article 15.39 **Experimental Use**

Without limiting Article 15.38 (Exceptions), each Party shall provide that any person may do an act that would otherwise infringe a patent if the act is done for experimental purposes relating to the subject matter of a patented invention.

¹¹ For the purposes of this Article, a Party may deem the terms “inventive step” and “capable of industrial application” to be synonymous with the terms “non-obvious” and “useful” respectively.

Article 15.40
Regulatory Review Exception

Without prejudice to the scope of, and consistent with, Article 15.38 (Exceptions), each Party:

- (a) shall provide that a third person may do an act that would otherwise infringe a patent with respect to a pharmaceutical product invention if the act is done for purposes connected with obtaining regulatory approval¹² in that Party or another country or both; and
- (b) may provide that a third person may do an act that would otherwise infringe a patent with respect to all other types of invention if the act is done for purposes connected with obtaining regulatory approval in that Party or another country or both.

Article 15.41
Other Use Without Authorisation of the Right Holder

The Parties understand that nothing in this Chapter shall limit a Party's rights and obligations under the TRIPS Agreement to authorise use of a patent.

Article 15.42
Patent Filing

Each Party shall provide that if an invention is made independently by more than one inventor, and separate applications claiming that invention are filed with, or for, the relevant authority of the Party, that Party shall grant the patent on the application that is patentable and that has the earliest filing date or, if applicable, priority date, unless that application has, prior to publication,¹³ been withdrawn, abandoned or refused.

Article 15.43
Amendments, Corrections and Observations

1. Each Party shall provide a patent applicant with at least one opportunity to make amendments, corrections and observations in connection with its application.

¹² For the purpose of Article 15.40(a), a party may treat "regulatory approval" to mean "marketing approval".

¹³ For greater certainty, a Party may grant the patent to the subsequent application that is patentable, if an earlier application has been withdrawn, abandoned, or refused, or is not prior art against the subsequent application.

2. Each Party shall not revoke or invalidate a patent, either totally or in part, without the patent owner being given the opportunity to make observations on the intended revocation or invalidation, and to make amendments and corrections where permitted under a Party's law within a reasonable time limit.
3. A Party may provide that amendments made pursuant to paragraph 1 or 2 do not go beyond the scope of the disclosure of the invention, as of the filing date.

Article 15.44
Publication of Patent Applications

1. Recognising the benefits of transparency in the patent system, each Party shall publish unpublished pending patent applications promptly after the expiration of 18 months from the filing date or, if priority is claimed, from the earliest priority date.
2. If a pending application is not published promptly in accordance with paragraph 1, a Party shall publish that application or the corresponding patent, as soon as practicable.
3. Each Party shall provide that an applicant may request the early publication of an application prior to the expiration of the period referred to in paragraph 1.

Article 15.45
Information Relating to Published Patent Applications and Granted Patents

For published patent applications and granted patents, and in accordance with the Party's requirements for prosecution of such applications and patents, each Party shall make available to the public at least the following information, to the extent that such information is in the possession of the competent authorities and is generated on, or after, the date of the entry into force of this Agreement:

- (a) search and examination results, including details of, or information related to, relevant prior art searches;
- (b) as appropriate, non-confidential communications from applicants; and
- (c) patent and non-patent related literature citations submitted by applicants and relevant third parties.

Article 15.46
Conditions on Patent Applicants

Each Party shall require an applicant for a patent to disclose the invention in a manner sufficiently clear and complete for the invention to be carried out by a person skilled in the art.

Article 15.47
Extension of the Duration of Rights Conferred by a Patent

1. The Parties recognise that pharmaceutical products protected by a patent in their respective territories may be subject to an administrative authorisation procedure before being put on their respective markets. With respect to a pharmaceutical product¹⁴ that is subject to a patent, each Party shall make available either:
 - (a) an adjustment of the patent term; or
 - (b) a period of additional *sui generis* protection conferring the rights conferred by the patent,

to compensate the patent owner for reduction¹⁵ of the effective patent term as a result of the marketing approval process.

2. For greater certainty, in implementing the obligations of this Article, each Party may provide for conditions, limitations, waivers and exceptions provided that the Party continues to give effect to this Article.

Section F
Undisclosed Test or Other Data

Article 15.48
Protection of Undisclosed Test or Other Data for Agricultural Chemical Products

If a Party requires, as a condition for granting marketing approval for an agricultural chemical product that utilises a new active substance, the submission of undisclosed test or other data, that Party shall not permit third persons, without the consent of the person that previously submitted that information, to place on the market the same or a similar product on the basis of:

¹⁴ For the purpose of this Article, a Party may treat “pharmaceutical product” as “pharmaceutical substance”, as provided in its relevant law.

¹⁵ For the purposes of this Article, a Party may treat “reduction” as “unreasonable curtailment”.

- (a) that information; or
- (b) the marketing approval granted to the person that submitted that information,

for at least 10 years from the date of marketing approval of the previously approved agricultural chemical product; such date to be determined in accordance with each Party's law.^{16 17}

Article 15.49

Protection of Undisclosed Test or Other Data for Pharmaceutical Products

1. If a Party requires, as a condition for granting marketing approval for a new pharmaceutical product, the submission of undisclosed test or other data concerning the safety or efficacy or quality of the product, that Party shall not permit third persons, without the consent of the person that previously submitted that information, to place on the market the same or a similar¹⁸ product on the basis of:

- (a) that information; or
- (b) the marketing approval granted to the person that submitted that information,

for at least five years from the date of marketing approval of the previously approved pharmaceutical product, such date to be determined in accordance with each Party's law.

2. For the purposes of this Article, a new pharmaceutical product is one that does not consist of or contain an active substance that has previously been approved for marketing in the Party.¹⁹

¹⁶ Nothing in this Article limits a Party from establishing conditions, limitations or exceptions when implementing the obligations set forth in this Article, provided that those conditions, limitations or exceptions are consistent with this Chapter.

¹⁷ Each Party may determine what constitutes an "agricultural chemical product" in accordance with its law.

¹⁸ For greater certainty, for the purposes of this Section, a pharmaceutical product is "similar" to a previously approved pharmaceutical product if the marketing approval, or, in the alternative, the applicant's request for that approval, of that similar pharmaceutical product is based upon the undisclosed test or other data concerning the safety or efficacy or quality of the previously approved pharmaceutical product, or the prior approval of that previously approved product.

¹⁹ Nothing in this Article limits a Party from establishing conditions, limitations or exceptions when implementing the obligations set forth in this Article, provided that those conditions, limitations or exceptions are consistent with this Chapter.

3. Each Party shall ensure that an owner of a protected registered industrial design has at least the right to prevent third parties not having the owner's consent from making, offering for sale, selling, importing, or using articles bearing or embodying a design which is a copy, or substantially a copy, of the protected registered industrial design when such acts are undertaken for commercial purposes.

Duration of Protection

Each Party shall ensure that the total term of protection available for registered designs is no less than 10 years.

Article 15.52

²⁴ For greater certainty, a use that has commercial aspects may in appropriate circumstances be considered to have a legitimate purpose under Article 15.62 (Limitations and Exceptions).

2. In the case of a work of joint authorship, each Party shall provide that the term referred to in paragraph 1 shall be calculated from the death of the last surviving author.
3. Notwithstanding paragraphs 1 and 2, where the term of protection of a work is not determined by reference to the life of a natural person, each Party shall provide that the term of protection shall run for 70 years from the creation of the work or, if lawfully made available to the public within 50 years from creation, 70 years from the first such making available.²⁵

7. Each Party shall provide that the terms laid down in this Article shall be calculated from 1 January of the year following the event.
8. Each Party may provide for longer terms of protection than those provided for in this Article.
9. For greater certainty, a Party shall not be required to restore protection to subject matter that on the date of entry into force of this Agreement has fallen into the public domain in its territory. 4. Each Party may provide for exceptions and limitations to measures implementing paragraphs 1 and 2 in accordance with its law and the relevant international agreements referred to in Article 15.7 (International Agreements) provided that they do not significantly impair the adequacy of

legal protection of those measures and the effectiveness of legal remedies against the acts prescribed in paragraphs 1 and 2.

5. For the purposes of this Article, “effective technological measures” means any technology, device, or component which, in the normal course of its operation, is used by authors, performers, or producers of phonograms in connection with the exercise of their rights under this Section and which restricts acts, in respect of their works, performances, or phonograms, that are not authorised by the authors, performers, or producers of phonograms.

1. In the course of ensuring effective protection against unfair competition as provided in Article 10*bis* of the Paris Convention, each Party shall ensure that trade secret holders have the legal means to prevent trade secrets lawfully in their control from being disclosed to, acquired by, or used by others without their consent in a manner contrary to honest commercial practices.
2. Subject to paragraphs 3 and 4, each Party shall provide that at least each of the following shall be considered contrary to honest commercial practices:
 - (a) the acquisition of a trade secret without the consent of the trade secret holder, whenever carried out by unauthorised access to, appropriation of, or copying of any documents, objects, materials, substances or electronic files, lawfully under the control of the trade secret holder, containing the trade secret or from which the trade secret can be deduced;

 - (c) the acquisition, use or disclosure of a trade secret whenever carried out by a person who, at the time of the acquisition, use or disclosure, knew or ought, under the circumstances, to have known²⁷ that the trade secret had been obtained directly or indirectly from another person who was disclosing the trade secret in a manner referred to in subparagraph (b).
3. Neither Party shall provide that the acquisition, use and disclosure of a trade secret is considered contrary to honest commercial practices:

²⁷ For the purpose of this Article, a Party may interpret “ought to have known” as “was grossly negligent in failing to know”.

- (a) if the trade secret is obtained through:
 - (i) independent discovery or creation;
 - (ii) reverse engineering of a product by a person who is lawfully in possession of it and who is free from any legally valid duty to limit the acquisition of the relevant information; or
 - (iii) the exercise of the right of workers or workers' representatives to information and consultation in accordance with the Party's law; or
 - (b) if the acquisition, use or disclosure is required or permitted by the Party's law.
4. Each Party may provide for limited exceptions and limitations to the rights of trade secret holders in circumstances where the legitimate interests of third parties, the general public or the Party outweigh the legitimate interests of trade secret holders, such as in the following cases:
- (a) for exercising the right to freedom of expression and information, including respect for the freedom and pluralism of the media; and
 - (b) for revealing misconduct, wrongdoing or illegal activity, provided that the person acquiring, using, and disclosing the trade secret did so for the purpose of protecting the general public interest.

Section J Enforcement

Sub-Section J.1 General Obligations

Article 15.70 General Obligations

1. Each Party shall provide for the procedures set out in this Section in respect of the enforcement of intellectual property rights.
2. Each Party shall ensure that the procedures provided for in this Section shall:
 - (a) be fair and equitable;
 - (b) not be unnecessarily complicated or costly, or entail unreasonable time-limits or unwarranted delays;

- (c) permit effective action against any act of infringement, including expeditious remedies to prevent infringements and remedies that constitute a deterrent to future infringements;
 - (d) be applied in such a manner as to avoid the creation of barriers to legitimate trade, including electronic commerce, and to provide for safeguards against their abuse;
 - (e) be implemented in a manner consistent with the Party's law concerning freedom of expression, fair process, and privacy; and
 - (f) be implemented in a manner that takes into account the need for proportionality between the seriousness of the infringement of the intellectual property right and the applicable remedies and penalties, as well as the interest of third parties.
3. The Parties recognise the importance of ensuring that right holders²⁸ have access to justice and each Party shall ensure that it has in place a judicial system and alternative dispute resolution mechanisms to allow right holders to enforce their intellectual property rights.
4. This Section does not create any obligation:
- (a) to put in place a judicial system for the enforcement of intellectual property rights distinct from that for the enforcement of laws and regulations in general, nor does it affect the capacity of each Party to enforce its laws and regulations in general; or
 - (b) with respect to the distribution of resources as between the enforcement of intellectual property rights and the enforcement of laws and regulations in general.

Sub-Section J.2
Enforcement – Civil Remedies

Article 15.71
Availability of Civil Enforcement

Each Party shall make available to a right holder civil judicial procedures concerning the enforcement of any intellectual property right covered under this Chapter.

²⁸ For greater certainty, references in this Section to a right holder shall include a trade secret holder; and do not limit the persons a Party may permit to enforce intellectual property rights, in accordance with its law.

Article 15.72
Measures for Preserving Evidence

1. Each Party shall provide that its judicial authorities have the authority, on application by a person who has presented reasonably available evidence sufficient to support their claim that their intellectual property right has been infringed or is about to be infringed, to order prompt and effective provisional measures to preserve relevant evidence in relation to the alleged infringement, subject to appropriate safeguards and the protection of confidential information.
2. Each Party shall provide that its judicial authorities have the authority to adopt provisional measures, where appropriate, in particular if any delay is likely to cause irreparable harm to the right holder or if there is a demonstrable risk of evidence being destroyed, in the absence of a party.
3. Those provisional measures may include the detailed description or the physical seizure of:
 - (a) suspected infringing goods;
 - (b) materials and implements predominantly used in the production or distribution of these goods; or
 - (c) documentary evidence relevant to the infringement.

Article 15.73
Provisional and Precautionary Measures

1. Each Party shall provide that its judicial authorities have the authority to, on request of the applicant:
 - (a) issue against the alleged infringer or, where appropriate and subject to the Party's law, a third party over whom the relevant judicial authority exercises jurisdiction and whose services are used to infringe an intellectual property right, an interlocutory injunction intended to prevent any imminent infringement of an intellectual property right, or forbid, on a provisional basis, the continuation of the alleged infringement of that right; and
 - (b) order, where appropriate, the seizure or delivery up of goods suspected of infringing an intellectual property right, so as to prevent their entry into or movement within the channels of commerce.
2. In the case of an alleged infringement, each Party shall provide that if the applicant demonstrates circumstances likely to endanger the recovery of

damages, its judicial authorities shall have the authority to order, subject to the Party's law, the precautionary seizure of the movable and immovable property of the alleged infringer, including the blocking of the alleged infringer's bank accounts and other assets.

Article 15.74
Right to Information

1. Each Party shall provide that, during civil proceedings concerning an infringement of an intellectual property right and in response to a justified request of the applicant, the judicial authorities have the authority to order that information on the origin and distribution networks of the goods or services which infringe an intellectual property right be provided by:
 - (a) the infringer or an alleged infringer; and
 - (b) any other person involved in the distribution and production of infringing goods or services on a commercial scale.
2. This Article applies without prejudice to other provisions in a Party's law governing privilege, the protection of confidentiality of information sources, or the processing of personal data.

Article 15.75
Injunctions

1. Each Party shall provide that where its judicial authorities have found an infringement of an intellectual property right, its judicial authorities have the authority to issue an injunction aimed at prohibiting or stopping the infringement.²⁹
2. The injunction referred to in paragraph 1 shall be available against:
 - (a) the infringer; and
 - (b) where appropriate and subject to the Party's law, a third party over whom the relevant judicial authority exercises jurisdiction and whose services are used to infringe the intellectual property right.

²⁹ The obligations in this section are without prejudice to the flexibilities available under Article 44.2 of the TRIPS Agreement.

Article 15.76
Corrective Measures

1. Each Party shall provide that, on request of the applicant and without prejudice to any damages due to the right holder by reason of the infringement, its judicial authorities have the authority to order that goods found to be infringing an intellectual property right are definitively removed from the channels of commerce, or destroyed. In regard to counterfeit trade mark goods, the simple removal of the trade mark unlawfully affixed is not sufficient, other than in exceptional circumstances, to permit the release of goods into the channels of commerce. Each Party shall also provide that its judicial authorities have the authority to also order, as appropriate, the destruction of materials and implements predominantly used in the creation or manufacture of those goods.
2. Each Party shall provide that its judicial authorities have the authority to order that the measures referred to in paragraph 1 are to be carried out at the expense of the infringer.

Article 15.77
Damages

Each Party shall provide that its judicial authorities have the authority to order an infringer who, knowingly or with reasonable grounds to know, engaged in an infringing activity, to pay the right holder damages adequate to compensate for the injury the right holder has suffered as a result of the infringement.
2. Each Party shall provide that, in civil judicial proceedings, its judicial authorities have the authority to order the infringer, at least in cases described in paragraph 1, to pay the right holder the infringer's profits that are attributable to the infringement.

Article 15.78
Costs

Each Party shall provide that its judicial authorities have the authority to order, in accordance with its law, that court costs or fees and appropriate attorney fees and other expenses incurred by the successful party in legal proceedings concerning the infringement of intellectual property rights shall be borne by the unsuccessful party.³⁰

³⁰ For greater certainty, nothing in this Article precludes a Party from providing that its judicial authorities have the authority to disallow costs that are unreasonably or unnecessarily incurred or that are disproportionate in amount.

Article 15.79
Safeguards

1. Each Party shall provide that its judicial authorities have the authority to require the applicant for a measure provided for in Article 15.72 (Measures for Preserving Evidence) or Article 15.73 (Provisional and Precautionary Measures) in respect of an intellectual property right to provide any reasonably available evidence in order to satisfy the judicial authority, with a sufficient degree of certainty, that the applicant's right is being infringed or that the infringement is imminent, and to order the applicant to provide security or equivalent assurance set at a level sufficient to protect the person against whom a measure is sought and to prevent abuse. Such security or equivalent assurance shall not unreasonably deter recourse to those procedures.
2. Each Party shall ensure that its judicial authorities have the authority to order a party at whose request measures were taken and that has abused enforcement procedures with regard to intellectual property rights to provide to a person subject to that measure adequate compensation for the injury suffered because of that abuse. The judicial authorities shall also have the authority to order the applicant to pay the defendant expenses, which may include appropriate attorney's fees.
3. Each Party shall provide that in relation to a civil judicial proceeding concerning the enforcement of an intellectual property right, its judicial or other authorities have the authority to impose sanctions on a party, counsel, experts or other persons subject to the court's jurisdiction for violation of judicial orders concerning the protection of confidential information produced or exchanged in that proceeding.

Article 15.80
Administrative Procedures

To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that those procedures conform to principles equivalent in substance to those set out in this Sub-Section.

Sub-Section J.3
Enforcement – Border Measures

1. Each Party:
 - (a) shall provide for applications to initiate procedures to suspend the release of, or to detain, suspected goods; and
 - (b) may provide for applications in respect of other goods that are suspected of infringing intellectual property rights.

2. For the purposes of this Article:
 - (a) “competent authorities” may include the appropriate judicial, administrative or law enforcement authorities under a Party’s law;
 - (b) “suspected goods” means goods under customs control that are suspected of infringing a trade mark or copyright, including counterfeit trade mark goods and pirated copyright goods;
 - (c) “counterfeit trade mark goods” means any goods, including packaging, bearing without authorisation a trade mark that is identical to the trade mark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trade mark, and that thereby infringes the rights of the owner of the trade mark in question under the law of the Party providing the procedures under this Section; and
 - (d) “pirated copyright goods” means any goods that are copies made without the consent of the right holder or person duly authorised by the right holder in the country of production and that are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the Party providing the procedures under this Section.

3. With respect to the initiation of the procedures provided for in paragraph 1 by a right holder, each Party shall provide that the relevant right holder is required:
 - (a) to provide adequate evidence to satisfy the competent authorities that, pursuant to its law, there is *prima facie* an infringement of the right holder’s intellectual property right; and

- (b) to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognisable by its competent authorities.
4. Each Party shall provide that its competent authorities have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit or confusingly similar trade mark or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance does not unreasonably deter recourse to these procedures. A Party may provide that the security may be in the form of a bond conditioned to hold the defendant harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.
 5. A Party may provide that its competent authorities have the authority to inform the right holder of the names and addresses of the consignor, exporter, consignee or importer; a description of the goods; the quantity of the goods; and, if known, the country of origin of the goods. This paragraph is without prejudice to a Party's law pertaining to privacy or confidential information, and applies if a Party's competent authorities have detained or suspended the release of suspected goods.
 6. Each Party shall provide that its competent authorities have the authority to initiate border measures *ex officio* for imported goods and goods destined for export, without the need for a formal complaint from a third party or right holder, with respect to suspected goods. Each Party shall provide that its customs authorities use risk analysis to identify suspected goods, which may include random selection.
 7. Each Party shall ensure that its competent authorities decide about granting or recording applications to suspend the release of suspected goods, within a reasonable period of time after the initiation of procedures described in paragraph 1.
 8. Each Party shall adopt or maintain a procedure by which its competent authorities may determine within a reasonable period of time after the initiation of the procedures described in paragraphs 1 and 4, whether the suspected goods infringe an intellectual property right.³¹ If a Party provides administrative procedures for the determination of an infringement, it may also provide its authorities with the authority to impose administrative penalties or sanctions, which may include fines or the seizure of the infringing goods following a determination that the goods are infringing.

³¹ A Party may comply with the obligation in this Article with respect to a determination that suspect goods under paragraph 5 infringe an intellectual property right through a determination that the suspect goods bear a false trade description.

9. Each Party shall provide that its competent authorities have the authority to order the destruction or disposal of goods following a determination that the goods are infringing. In cases in which the goods are not destroyed, each Party shall provide that, except in exceptional circumstances, the goods are disposed of outside the channels of commerce in such a manner as to avoid any harm to the right holder. In regard to counterfeit trade mark goods, the simple removal of the trade mark unlawfully affixed shall not be sufficient, other than in exceptional cases, to permit the release of the goods into the channels of commerce.
10. Each Party may provide that, where requested by the customs authorities, the holder of the granted or recorded application shall be obliged to reimburse the costs incurred by the customs authorities, or other parties acting on behalf of customs authorities, from the moment of detention or suspension of the release of the goods, including storage, handling, and any costs relating to the destruction or disposal of the goods.
11. If a Party establishes or assesses, in connection with the procedures described in this Article, an application fee, storage fee or destruction fee, that fee shall not be set at an amount that unreasonably deters recourse to these procedures.
12. Each Party may exclude from the application of this Article small quantities of goods of a non-commercial nature contained in travellers' personal luggage or sent in small consignments.
13. There shall be no obligation to apply those procedures, as described in this Article, to imports of goods put on the market in another country by or with the consent of the right holder, or to goods in transit.

- 4. Each Party shall provide for criminal procedures and penalties to be applied in cases of wilful importation³⁴ and domestic use, in the course of trade and on a commercial scale, of a label or packaging:³⁵

- 2. Each Party shall provide that its judicial authorities have the authority to, in determining penalties, account for the seriousness of the circumstances,

³² The Parties agree that a Party may comply with paragraph (b) by addressing those significant acts under its criminal procedures and penalties for non-authorized uses of protected works, performances and phonograms in its law. The Parties also agree that a Party may provide that the volume and value of any infringing items may be taken into account in determining whether the act has a substantial prejudicial impact on the interests of the copyright or related right holder in relation to the marketplace.

³³ A Party may comply with its obligation under this paragraph by providing that distribution or sale of counterfeit trade mark goods or pirated copyright goods on a commercial scale is an unlawful activity subject to criminal penalties.

³⁴ A Party may comply with its obligation relating to importation of labels or packaging through its law concerning distribution.

³⁵ A Party may comply with its obligations under this paragraph by providing for criminal procedures and penalties to be applied to attempts to commit a trade mark offence.

³⁶ A Party may also account for those circumstances through a separate criminal offence.

- (a) in cases in which destruction of counterfeit trade mark goods or pirated copyright goods is not ordered, the judicial or other competent authorities shall ensure that, except in exceptional circumstances, those goods are disposed of outside the channels of commerce in such a manner as to avoid causing any harm to the right holder; and
 - (b) in cases in which forfeiture or destruction is ordered, it shall occur without compensation of any kind to the offender.
3. With respect to the offences specified in Article 15.82 (Criminal Offences), a Party may provide that its judicial authorities have the authority to order the seizure or forfeiture of assets, or alternatively, a fine, the value of which corresponds to the assets derived from, or obtained directly or indirectly through, the infringing activity.

For greater certainty, a Party may extend this system to cover other online service providers and intellectual property rights.
2. Each Party shall ensure that the system established or maintained pursuant to paragraph 1 includes conditions to qualify for the limitation, in accordance with a Party’s law, including, where practicable, requiring the ISP to take action to prevent access to the materials infringing copyright or related rights.
3. This Article shall not affect the possibility of a court or administrative authority, in accordance with the legal system of a Party, requiring the ISP to terminate or prevent an infringement, including by the grant of an injunction pursuant to Article 15.89 (Blocking Orders).

Article 15.89
Blocking Orders

1. Each Party shall provide that its civil judicial authorities have the authority to grant an injunction against an ISP within its territory, ordering the ISP to take action to block access to a specific online location, in cases where:

³⁷ A Party may limit the application of this paragraph to online locations that meet a certain threshold of copyright or related rights infringement, or facilitation of that infringement.

Article 15.90
Procedures for Domain Registrars

Each Party shall encourage its domain registry to take appropriate, timely, and effective measures to suspend domains used for infringing intellectual property on their respective country-code top-level domains.³⁸ That encouragement may be satisfied by measures including the facilitation of cooperative arrangements between, the relevant domain registry, law enforcement, and industry groups.

Article 15.91
Disclosure of Information

A Party may provide, in accordance with its law, that its competent authorities³⁹ may order an ISP to disclose expeditiously to a right holder information sufficient to identify a subscriber whose account was allegedly used for infringement, where that right holder has filed a legally sufficient claim of trade mark or copyright or related rights infringement, and where that information is being sought for the purpose of protecting or enforcing those rights.

Sub-Section J.6

- (b) are published⁴⁰ or, if publication is not practicable, otherwise made available to the public in a national language in such a manner as to enable interested persons and the other Party to become acquainted with them.

³⁸ For greater certainty, this Article is without prejudice to the independence of each Party's domain registry.

³⁹ For the purposes of this Article, "competent authorities" may include the appropriate judicial, administrative, or law enforcement authorities under a Party's law.

⁴⁰ For greater certainty, a Party may satisfy the requirement for publication by making the decision or ruling available to the public on the Internet.

Article 15.93
Voluntary Stakeholder Initiatives

This may include encouraging the establishment of public or private advisory groups to address issues of at least trade mark counterfeiting and copyright piracy.

Article 15.94
Public Awareness

Each Party shall, as appropriate, use reasonable efforts to enhance public awareness of the importance of respecting intellectual property rights, including in the digital environment, and the detrimental effect of the infringement of intellectual property rights. This may include cooperation with the business community, civil society organisations, and right holder representatives.

Article 15.95
Specialised Enforcement Expertise, Information and Domestic Coordination

1. Each Party shall use reasonable efforts to develop specialised expertise within its competent authorities responsible for the enforcement of intellectual property rights, including with respect to infringement taking place in the digital environment.
2. Each Party shall use reasonable efforts to ensure the coordination between, and facilitation of joint actions by, its competent authorities with respect to the enforcement of intellectual property rights, subject to the Party's available resources.

 - (a) treat a locally established supplier less favourably than another locally established supplier on the basis of the degree of foreign affiliation or ownership; or

3. Neither Party, including its procuring entities, shall:
 - (a) adopt or apply any registration system or qualification procedure with the purpose or the effect of creating unnecessary obstacles to the participation of suppliers of the other Party in its procurement; or
 - (b) use that registration system or qualification procedure to prevent or delay the inclusion of suppliers of the other Party on a list of suppliers or prevent those suppliers from being considered for a particular procurement.
4. If a Party or a procuring entity maintains a supplier registration system, it shall:
 - (a) ensure that interested suppliers have access to information on the registration system through electronic means and that interested suppliers may request registration at any time; and
 - (b) if a request by a supplier is made, inform the supplier within a reasonable period of time of the decision to grant or reject this request, and if rejected, on request provide an explanation.

5. If a procuring entity intends to use selective tendering, the procuring entity shall:
 - (a) include in the notice of intended procurement at least the information specified in subparagraphs 3(a), 3(b), 3(e), 3(f), 3(i) and 3(j) of Article 16.6 (Notices) and invite suppliers to submit a request for participation; and
 - (b) provide, by the commencement of the time-period for tendering, at least the information in subparagraphs 3(c), 3(d), 3(g) and 3(h) of Article 16.6 (Notices) to the qualified suppliers that it notifies as specified in subparagraph 3(b) of Article 16.10 (Time-Periods).

6. A procuring entity shall allow all qualified suppliers to participate in a particular procurement, unless the procuring entity states in the notice of intended procurement any limitation on the number of suppliers that will be permitted to tender and the criteria for selecting the limited number of suppliers.
7. If the tender documentation is not made publicly available from the date of publication of the notice referred to in paragraph 5, the procuring entity shall ensure that the tender documentation is made available at the same time to all the qualified suppliers selected in accordance with paragraph 6.

Multi-Use Lists

8. A Party, including its procuring entities may establish or maintain a multi-use list provided that it makes continuously available by electronic means, in the appropriate medium listed in its Schedule to Annex 16A, a notice inviting interested suppliers to apply for inclusion on the list.
9. The notice provided for in paragraph 8 shall include:
 - (a) a description of the goods or services, or categories thereof, for which the list may be used;
 - (b) the conditions for participation to be satisfied by suppliers for inclusion on the list and the methods that the procuring entity or other government agency will use to verify a supplier's satisfaction of those conditions;
 - (c) the name and address of the procuring entity or other government agency and other information necessary to contact the procuring entity and to obtain all relevant documents relating to the list; and
 - (d) the period of validity of the list and the means for its renewal or termination, or if the period of validity is not provided, an indication of the method by which notice will be given of the termination of use of the list.
10. A Party, including its procuring entities, that establishes or maintains a multi-use list, shall:
 - (a) allow suppliers to apply at any time for inclusion on the multi-use list; and

- (b) include on the list, within a reasonable period of time, all suppliers that satisfy the conditions for participation set out in the notice referred to in paragraph 6.
- 11. If a supplier that is not included on a multi-use list submits a request for participation in a procurement based on the multi-use list and submits all required documents, within the time period provided for in paragraph 2 of Article 16.10 (Time-Periods), a procuring entity shall examine the request. The procuring entity shall not exclude the supplier from consideration in respect of the procurement on the grounds that the entity has insufficient time to examine the request, unless, in exceptional cases, due to the complexity of the procurement, the procuring entity is not able to complete the examination of the request within the time period allowed for the submission of tenders.

Section B and Section C Entities

- 12. A procuring entity covered under Sections B (Sub-Central Government Entities) or C (Other Entities) of a Party's Schedule to Annex 16A may use a notice inviting suppliers to apply for inclusion on a multi-use list as a notice of intended procurement, provided that:
 - (a) the notice is published in accordance with paragraph 8 and includes the information required under paragraph 9, as much of the information required under paragraph 3 of Article 16.6 (Notices) as is available and a statement that it constitutes a notice of intended procurement or that only the suppliers on the multi-use list will receive further notices of procurement covered by the multi-use list; and
 - (b) the entity promptly provides to suppliers that have expressed an interest in a given procurement to the entity, sufficient information to permit them to assess their interest in the procurement, including all remaining information required in paragraph 3 of Article 16.6 (Notices), to the extent that information is available.
- 13. A procuring entity covered under Sections B (Sub-Central Government Entities) or C (Other Entities) of a Party's Schedule to Annex 16A may allow a supplier that has applied for inclusion on a multi-use list in accordance with paragraph 11 to tender in a given procurement, if there is sufficient time for the procuring entity to examine whether the supplier satisfies the conditions for participation.

Information on Procuring Entity Decisions

14. A procuring entity or other entity of a Party shall promptly inform any supplier that submits a request for participation in a procurement or application for inclusion on a multi-use list of the decision with respect to the request or application.
15. If a procuring entity or other entity of a Party rejects a supplier's request for participation in a procurement or application for inclusion on a multi-use list, ceases to recognise a supplier as qualified, or removes a supplier from a multi-use list, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide the supplier with a written explanation of the reasons for its decision.

Article 16.9

Technical Specifications and Tender Documentation

Technical Specifications

1. A procuring entity shall not prepare, adopt or apply any technical specification or prescribe any conformity assessment procedure with the purpose or effect of creating an unnecessary obstacle to trade between the Parties.
2. In prescribing the technical specifications for the good or service being procured, a procuring entity shall, if appropriate:
 - (a) set out the technical specifications in terms of performance and functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specifications on international standards, if these exist; otherwise, on national technical regulations, recognised national standards or building codes.
3. If design or descriptive characteristics are used in the technical specifications, a procuring entity should indicate, if appropriate, that it will consider tenders of equivalent goods or services that demonstrably fulfil the requirements of the procurement by including words such as "or equivalent" in the tender documentation.
4. A procuring entity shall not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design, type, specific origin, producer or supplier, unless there is no other sufficiently

precise or intelligible way of describing the procurement requirements and provided that, in these cases, the procuring entity includes words such as "or equivalent" in the tender documentation.

5. A procuring entity shall not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in the preparation or adoption of any technical specification for a specific procurement from a person that may have a commercial interest in the procurement.
6. For greater certainty, a Party, including its procuring entities, may, in accordance with this Article, prepare, adopt or apply technical specifications to promote the conservation of natural resources or protect the environment.
7. For greater certainty, this Chapter is not intended to preclude a Party, or its procuring entities, from preparing, adopting or applying technical specifications required to protect sensitive government information, including specifications that may affect or limit the storage, hosting or processing of that information outside the territory of the Party.

Tender Documentation

8. A procuring entity shall make available to suppliers tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, that documentation shall include a complete description of:
 - (a) the procurement, including the nature, and the quantity of the good or service to be procured or, if the quantity is not known, the estimated quantity and any requirements to be fulfilled, including any technical specifications, conformity assessment certification, plans, drawings or instructional materials;
 - (b) any conditions for participation, including information and documents that suppliers are required to submit;
 - (c) all evaluation criteria the entity will apply in the awarding of the contract, and the relative importance of those criteria;
 - (d) if the procuring entity will conduct the procurement by electronic means, any authentication and encryption requirements or other requirements related to the submission of information by electronic means;

- (e) if the procuring entity will hold an electronic auction, the rules, including identification of the elements of the tender related to the evaluation criteria, on which the auction will be conducted;
 - (f) if there will be a public opening of tenders, the date, time and place for the opening and, if appropriate, the persons authorised to be present;
 - (g) any other terms or conditions, including terms of payment and any limitation on the means by which tenders may be submitted, such as whether on paper or by electronic means; and
 - (h) any date for the delivery of a good or the supply of a service.
9. In establishing any date for the delivery of a good or the supply of a service being procured, a procuring entity shall take into account factors such as the complexity of the procurement, the extent of subcontracting anticipated and the realistic time required for production, de-stocking and transport of goods from the point of supply or for supply of services.
10. The evaluation criteria set out in the notice of intended procurement or tender documentation may include, among others, price and other cost factors, quality, technical merit, environmental characteristics and terms of delivery.
11. A procuring entity shall promptly:
- (a) make available tender documentation to ensure that interested suppliers have sufficient time to submit responsive tenders;
 - (b) provide, on request, the tender documentation to any interested supplier; and
 - (c) reply to any reasonable request for relevant information by an interested or participating supplier, provided that the information does not give that supplier an advantage over other suppliers.

Modifications

12. If, prior to the award of a contract, a procuring entity modifies the criteria or requirements set out in a notice of intended procurement or tender documentation provided to a participating supplier, or amends or reissues a notice or tender documentation, it shall transmit in writing all those modifications or the amended or re-issued notice or tender documentation:

- (a) to all suppliers that are participating in the procurement at the time of the modification, amendment or re-issuance, if those suppliers are known to the procuring entity, and in all other cases, in the same manner as the original information was made available; and
- (b) in adequate time to allow those suppliers to modify and re-submit their initial tenders, as appropriate.

Preliminary Market Research and Engagement

13. For greater certainty, a procuring entity may, prior to publication of a notice of intended procurement, conduct market research and engagement with suppliers with a view to informing and developing technical specifications and other tender documentation for a particular procurement or informing suppliers of its procurement plans and requirements. A procuring entity shall take appropriate steps to ensure that suppliers participating in that market research or engagement do not gain an unfair advantage over other interested suppliers.

Article 16.10 Time-Periods

General

1. A procuring entity shall, consistent with its own reasonable needs, provide sufficient time for suppliers to prepare and submit requests for participation and responsive tenders, taking into account factors such as:
 - (a) the nature and complexity of the procurement;
 - (b) the extent of subcontracting anticipated; and
 - (c) the time necessary for transmitting tenders by non-electronic means from foreign as well as domestic points if electronic means are not used.

Deadlines

2. A procuring entity that uses selective tendering shall establish that the final date for the submission of requests for participation shall not, in principle, be less than 25 days from the date of publication of the notice of intended procurement. If a state of urgency duly substantiated by the procuring entity renders this time-period impracticable, the time-period may be reduced to no less than 10 days.

3. Except as provided for in paragraphs 4, 5, 8 and 9 a procuring entity shall establish that the final date for the submission of tenders shall not be less than 40 days from the date on which:
 - (a) in the case of open tendering, the notice of intended procurement is published; or
 - (b) in the case of selective tendering, the procuring entity notifies the suppliers that they will be invited to submit tenders, whether or not it uses a multi-use list.

4. A procuring entity may reduce the time-period for tendering set out in paragraph 3 to no less than 10 days if:
 - (a) the procuring entity has published a notice of planned procurement under Article 16.6 (Notices) at least 40 days and no more than 12 months in advance of the publication of the notice of intended procurement, and the notice of planned procurement contains:
 - (i) a description of the procurement;
 - (ii) the approximate final dates for the submission of tenders or requests for participation;
 - (iii) a statement that interested suppliers should express their interest in the procurement to the procuring entity;
 - (iv) the address from which documents relating to the procurement may be obtained; and
 - (v) as much of the information that is required for the notice of intended procurement under paragraph 3 of Article 16.6 (Notices) as is available;
 - (b) the procuring entity, for recurring contracts, indicates in an initial notice of intended procurement that subsequent notices will provide time-periods for tendering based on this paragraph; or
 - (c) a state of urgency duly substantiated by the procuring entity renders the time period for tendering set out in paragraph 3 impracticable.

5. A procuring entity may reduce the time-period for tendering set out in paragraph 3 by five days for each one of the following circumstances:
 - (a) the notice of intended procurement is published by electronic means;

- (b) the tender documentation is made available by electronic means from the date of the publication of the notice of intended procurement; and
 - (c) the procuring entity accepts tenders by electronic means.
- 6. The use of paragraph 5, in conjunction with paragraph 4, shall in no case result in the reduction of the time-period for tendering set out in paragraph 3 to less than 10 days from the date on which the notice of intended procurement is published.
- 7. A procuring entity shall require all interested or participating suppliers to submit requests for participation or tenders in accordance with a common deadline. These time periods, and any extension of these time periods, shall be the same for all interested or participating suppliers.
- 8. Notwithstanding any other provision in this Article, if a procuring entity purchases commercial goods or services, or any combination thereof, it may reduce the time-period for tendering established in accordance with paragraph 3 to not less than 13 days, provided that it publishes by electronic means, at the same time, both the notice of intended procurement and the tender documentation. In addition, if the entity accepts tenders for commercial goods or services by electronic means, it may reduce the time-period established in accordance with paragraph 3 to not less than 10 days.
- 9. If a procuring entity covered under Sections B (Sub-Central Government Entities) or C (Other Entities) of a Party's Schedule to Annex 16A has selected all or a limited number of qualified suppliers, the time-period for tendering may be fixed by agreement between the procuring entity and the selected suppliers. In the absence of agreement, the period shall not be less than 10 days.

Article 16.11 Negotiations

- 1. A Party may provide for its procuring entities to conduct negotiations if:
 - (a) the procuring entity has indicated its intent to conduct negotiations in the notice of intended procurement required under paragraph 2 of Article 16.6 (Notices); or
 - (b) it appears from the evaluation that no tender is obviously the most advantageous in terms of the specific evaluation criteria set out in the notice of intended procurement or tender documentation.

2. A procuring entity shall:
 - (a) ensure that any elimination of suppliers participating in negotiations is carried out in accordance with the evaluation criteria set out in the notice of intended procurement or tender documentation; and
 - (b) when negotiations are concluded, provide a common deadline for the remaining participating suppliers to submit any new or revised tenders.

Article 16.12 Limited Tendering

1. Provided that it does not use this provision for the purpose of avoiding competition among suppliers or in a manner that discriminates against suppliers of the other Party, or protects domestic suppliers, a procuring entity may use limited tendering and may choose not to apply Articles 16.6 (Notices) through 16.8 (Qualification of Suppliers), paragraphs 8 through 12 of Article 16.9 (Technical Specifications and Tender Documentation), and Articles 16.10 (Time-Periods), 16.11 (Negotiations), 16.13 (Electronic Auctions) and 16.14 (Treatment of Tenders and Awarding of Contracts) only under any of the following circumstances:
 - (a) if:
 - (i) no tenders were submitted or no suppliers requested participation;
 - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation;
 - (iii) no suppliers satisfied the conditions for participation; or
 - (iv) the tenders submitted were collusive,provided that the requirements of the tender documentation are not substantially modified;
 - (b) if the good or service can be supplied only by a particular supplier and no reasonable alternative or substitute good or service exists for any of the following reasons:
 - (i) the requirement is for a work of art;

- (ii) the protection of patents, copyrights or other exclusive rights; or
 - (iii) due to an absence of competition for technical reasons;
- (c) for additional deliveries by the original supplier of goods or services that were not included in the initial procurement if a change of supplier for those additional goods or services:
 - (i) cannot be made for technical reasons such as requirements of interchangeability or interoperability with existing equipment, software, services or installations procured under the initial procurement; and
 - (ii) would cause significant inconvenience or substantial duplication of costs for the procuring entity;
- (d) for goods purchased on a commodity market;
- (e) if a procuring entity procures a prototype or a first good or service that is intended for limited trial or that is developed at its request in the course of, and for, a particular contract for research, experiment, study or original development. Original development of a prototype or a first good or service may include limited production or supply in order to incorporate the results of field testing and to demonstrate that the prototype of the first good or service is suitable for production or supply in quantity to acceptable quality standards, but does not include quantity production or supply to establish commercial viability or to recover research and development costs. Subsequent procurements of these newly developed goods or services, however, shall be subject to this Chapter;
- (f) for purchases made under exceptionally advantageous conditions that only arise in the very short term in the case of unusual disposals such as those arising from liquidation, bankruptcy or receivership, but not for routine purchases from regular suppliers;
- (g) if a contract is awarded to a winner of a design contest provided that:
 - (i) the contest has been organised in a manner that is consistent with this Chapter; and
 - (ii) the contest is judged by an independent jury with a view to award a design contract to the winner; or

- (h) in so far as is strictly necessary if, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the good or service could not be obtained in time by means of open or selective tendering.
2. A procuring entity shall prepare a report in writing on each contract awarded under paragraph 1. The report shall include the name of the procuring entity, the value and kind of good or service procured, and a statement that indicates the circumstances and conditions described in paragraph 1 that justified the use of limited tendering.

Article 16.13 Electronic Auctions

If a procuring entity intends to conduct a covered procurement using an electronic auction, the entity shall provide each participant, before commencing the electronic auction, with:

- (a) the automatic evaluation method, including the mathematical formula, that is based on the evaluation criteria set out in the tender documentation and that will be used in the automatic ranking or re-ranking during the auction;
- (b) the results of any initial evaluation of the elements of its tender if the contract is to be awarded on the basis of the most advantageous tender; and
- (c) any other relevant information relating to the conduct of the auction.

Article 16.14 Treatment of Tenders and Awarding of Contracts

Treatment of Tenders

- 1. A procuring entity shall receive, open and treat all tenders under procedures that guarantee the fairness and impartiality of the procurement process, and the confidentiality of tenders.
- 2. A procuring entity shall not penalise any supplier whose tender is received after the time specified for receiving tenders if the delay is due solely to mishandling on the part of the procuring entity.

3. If a procuring entity provides a supplier with an opportunity to correct unintentional errors of form between the opening of tenders and the awarding of the contract, the procuring entity shall provide the same opportunity to all participating suppliers.

Awarding of Contracts

4. To be considered for an award, a tender shall be submitted in writing and shall, at the time of opening, comply with the essential requirements set out in the notices and tender documentation and be submitted by a supplier who satisfies the conditions for participation.
5. Unless a procuring entity determines that it is not in the public interest to award a contract, it shall award the contract to the supplier that the procuring entity has determined to be capable of fulfilling the terms of the contract and that, based solely on the evaluation criteria specified in the notice and tender documentation, submits:
 - (a) the most advantageous tender; or
 - (b) if price is the sole criterion, the lowest price.
6. If a procuring entity receives a tender with a price that is abnormally lower than the prices in other tenders submitted, it may verify with the supplier that it satisfies the conditions for participation and is capable of fulfilling the terms of the contract.
7. A procuring entity shall not use options, cancel a covered procurement, or modify or terminate awarded contracts in a manner that circumvents the obligations of this Chapter.

Article 16.15 Transparency of Procurement Information

Information Provided to Suppliers

1. A procuring entity shall promptly inform participating suppliers of the contract award decision and, on the request of a supplier, shall do so in writing. Subject to paragraphs 2 and 3 of Article 16.16 (Disclosure of Information), a procuring entity shall, on request, provide an unsuccessful supplier with an explanation of the reasons why the entity did not select its tender and the relative advantages of the successful supplier's tender.

Publication of Award Information

2. Not later than 72 days after the award of each contract covered by this Chapter, a procuring entity shall publish a notice in an appropriate electronic medium listed in Annex 16A and the information shall remain readily accessible for a reasonable period of time. The notice shall include at least the following information:
 - (a) a description of the good or service procured;
 - (b) the name and address of the procuring entity;
 - (c) the name and address of the successful supplier;
 - (d) the value of the successful tender or the highest and lowest offers taken into account in the award of the contract;
 - (e) the date of award; and
 - (f) the procurement method used, and in cases where limited tendering was used in accordance with Article 16.12 (Limited Tendering), a description of the circumstances justifying the use of limited tendering.

Maintenance of Documentation, Reports and Electronic Traceability

3. Each procuring entity shall, for a period of at least three years from the date it awards a contract, maintain:
 - (a) the documentation and reports of tendering procedures and contract awards relating to covered procurement, including the reports required under Article 16.12 (Limited Tendering); and
 - (b) data that ensure the appropriate traceability of the conduct of covered procurement by electronic means.

Article 16.16 Disclosure of Information

Provision of Information to Parties

1. On request of the other Party, a Party shall provide promptly any information necessary to determine whether a procurement was conducted fairly, impartially and in accordance with this Chapter, including information on the

characteristics and relative advantages of the successful tender. In cases where release of the information would prejudice competition in future tenders, the Party that receives the information shall not disclose it to any supplier, except after consulting with, and obtaining the agreement of the Party that provided the information.

Non-Disclosure of Information

2. Notwithstanding any other provision of this Chapter, a Party, including its procuring entities, shall not provide to any particular supplier information that might prejudice fair competition between suppliers.
3. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, authorities and review bodies, to disclose confidential information if that disclosure:
 - (a) would impede law enforcement;
 - (b) might prejudice fair competition between suppliers;
 - (c) would prejudice the legitimate commercial interests of particular persons, including the protection of intellectual property; or
 - (d) would otherwise be contrary to the public interest.

Article 16.17
Environmental, Social and Labour Considerations

A Party, including its procuring entities, may:

- (a) take into account environmental, social and labour considerations throughout the procurement procedure, provided they are:
 - (i) based on objectively verifiable criteria;
 - (ii) non-discriminatory; and
 - (iii) indicated in the notice of intended procurement or tender documentation; and
- (b) take appropriate measures to ensure compliance with its obligations in the fields of environmental, social and labour law, provided they are non-discriminatory.

Article 16.18
Ensuring Integrity in Procurement Practices

1. Each Party shall ensure that criminal or administrative measures exist to address corruption, fraud, and other illegal acts in its government procurement.
2. These measures may include procedures to render ineligible for, or exclude from, participation in the Party's procurements, either indefinitely or for a stated period of time, suppliers that the Party has determined to have engaged in corrupt, fraudulent or other illegal acts in relation to government procurement in the Party's territory. When applying those procedures, each party, including its procuring entities:
 - (a) may consider the gravity of the supplier's acts or omissions, and any remedial measures or mitigating factors; and
 - (b) shall treat a supplier of the other Party with due process, in accordance with its government procurement policies and frameworks.
3. Each Party shall also ensure that it has in place policies and procedures to eliminate to the extent possible or manage any potential conflict of interest on the part of those engaged in or having influence over a procurement.
4. Each Party may put in place policies or procedures that require successful suppliers to maintain and enforce appropriate measures, such as internal controls, business ethics, and compliance programmes, for preventing and detecting corruption, fraud, and other illegal acts, provided they are non-discriminatory.

Article 16.19
Domestic Review Procedures

1. Each Party shall maintain, establish or designate at least one impartial administrative or judicial authority ("review authority") that is independent of its procuring entities to review, in a non-discriminatory, timely, transparent and effective manner, a challenge or complaint ("complaint") by a supplier that there has been:
 - (a) a breach of this Chapter; or
 - (b) if the supplier does not have a right to directly challenge a breach of this Chapter under the law of a Party, a failure of a procuring entity to comply with the Party's measures implementing this Chapter,

arising in the context of a covered procurement, in which the supplier has, or had, an interest. The procedural rules for all complaints shall be in writing and made generally available.

2. In the event of a complaint by a supplier, arising in the context of covered procurement in which the supplier has, or had, an interest, that there has been a breach or a failure as referred to in paragraph 1, the Party of the procuring entity conducting the procurement shall encourage the procuring entity and the supplier to seek resolution of the complaint through consultations. The procuring entity shall accord impartial and timely consideration to the complaint in a manner that is not prejudicial to the supplier's participation in ongoing or future procurement or to its right to seek corrective measures under the administrative or judicial review procedure.
3. Each supplier shall be allowed a sufficient period of time to prepare and submit a challenge, which in no case shall be less than 10 days from the time when the basis of the challenge became known or reasonably should have become known to the supplier.
4. If a body other than the review authority initially reviews a complaint, the Party shall ensure that the supplier may appeal the initial decision to the review authority that is independent of the procuring entity whose procurement is the subject of the complaint.
5. If the review authority has determined that there has been a breach or a failure as referred to in paragraph 1, a Party may limit compensation for the loss or damages suffered to either the costs reasonably incurred in the preparation of the tender or in bringing the complaint, or both.
6. Each Party shall ensure that a review body that is not a court shall have its decision subject to judicial review or have procedures that provide that:
 - (a) a procuring entity shall respond in writing to a supplier's complaint and provide all relevant documents to the review authority;
 - (b) a supplier that initiates a complaint shall be provided an opportunity to reply to the procuring entity's response before the review authority takes a decision on the complaint;
 - (c) the participants shall have the right to be represented and accompanied;
 - (d) the participants shall have access to all proceedings;

- (e) the participants shall have the right to request that the proceedings take place in public and that witnesses may be presented; and
 - (f) the review authority shall provide its decisions or recommendations in a timely fashion, in writing, with an explanation of the basis for each decision or recommendation.
7. Each Party shall adopt or maintain procedures that provide for:
- (a) prompt interim measures to preserve the supplier's opportunity to participate in the procurement; and
 - (b) corrective action that may include compensation under paragraph 5.

The procedures may provide that overriding adverse consequences for the interests concerned, including the public interest, may be taken into account when deciding whether those measures should be applied. Just cause for not acting shall be provided in writing.

Article 16.20 **Modifications and Rectifications to Annex**

1. A Party may modify or rectify its Schedule to Annex 16A, pursuant to paragraphs 2 through 10.

Notification of Proposed Modification

2. A Party shall notify any proposed modification or rectification (collectively referred to as a "modification") to its Schedule to Annex 16A in writing to the other Party.
3. The notification of proposed modification shall contain:
- (a) for any proposed withdrawal of an entity from its Schedule to Annex 16A in exercise of its rights on the grounds that government control or influence over the procuring entity's covered procurement has been effectively eliminated, evidence of that elimination; or
 - (b) for any other proposed modification, information as to the likely consequences of the change for the coverage provided for in this Chapter; and
 - (c) a proposal for any necessary compensatory adjustments pursuant to paragraph 4.

Compensatory Adjustments

4. Subject to paragraphs 5 and 6, a Party shall provide appropriate compensatory adjustments for a change in coverage, if necessary, to maintain a level of coverage comparable to the coverage that existed prior to the modification.
5. The Parties may agree another form of resolution as an alternative to compensatory adjustments.
6. A Party is not required to provide compensatory adjustments to the other Party if the proposed modification:
 - (a) covers a procuring entity over which the Party has effectively eliminated its control or influence in respect of covered procurement by that procuring entity; or
 - (b) is minor or of a purely formal nature, including a rectification as described in paragraph 7.

Rectifications

7. The following modifications to a Party's Schedule to Annex 16A shall be considered a rectification, provided that they do not affect the coverage provided for in this Chapter:
 - (a) a change in the name of a procuring entity;
 - (b) a merger of two or more procuring entities listed within a Section of a Party's Schedule to Annex 16A;
 - (c) the separation of a procuring entity listed in a Party's Schedule to Annex 16A into two or more procuring entities that are added to the procuring entities listed in the same Section of the Annex; and
 - (d) changes in website references.

Objection to Notification

8. If the other Party disputes that:
 - (a) a compensatory adjustment proposed under sub-paragraph 3(c) is adequate to maintain a level of coverage comparable to the coverage that existed prior to the modification;
 - (b) the proposed modification covers a procuring entity over which the Party has effectively eliminated its control or influence; or

(c) the proposed modification is a change provided for in paragraph 6(b),

it shall notify the modifying Party of its objection in writing within 45 days of receipt of the notification of proposed modification referred to in paragraphs 2 and 3 or shall be deemed to have agreed to the proposed modification.

9. Where a Party submits an objection pursuant to paragraph 8, it shall set out, as may apply, the reasons why it believes:

(a) the modification is not a change provided for in subparagraphs 6(a) or 6(b) and describe the effect of the proposed modification on the coverage provided for in the Chapter; and

(b) a compensatory adjustment proposed under subparagraph 3(c) is not adequate to maintain a level of coverage comparable to the coverage that existed prior to the modification.

Implementation of Modifications

10. The Joint Committee shall adopt a modification to the Schedule to Annex 16A in accordance with paragraphs 2 and 3 of Article 16.2 (Functions of the Joint Committee – Administrative and Institutional Provisions) to reflect any agreed modification.

Article 16.21

Facilitation of Participation by SMEs

1. The Parties recognise the important contribution that SMEs can make to economic growth and employment and the importance of facilitating the participation of SMEs in government procurement.

2. If a Party maintains a measure that provides preferential treatment for SMEs, the Party shall ensure that the measure, including the criteria for eligibility, is transparent.

3. To facilitate participation by SMEs in covered procurement, each Party shall, to the extent possible and if appropriate:

(a) provide comprehensive procurement-related information that includes a definition of SMEs in a single electronic portal;

(b) make all tender documentation available free of charge;

(c) conduct procurement by electronic means or through other new information and communication technologies;

- (d) consider the size, design, and structure of the procurement, including the use of subcontracting by SMEs;
- (e) seek opportunities to simplify administrative processes; and
- (f) require prompt payment by procuring entities, and that procuring entities encourage its use in subcontracting.

Article 16.22 Cooperation

1. The Parties recognise their shared interest in cooperating to promote international liberalisation of government procurement markets with a view to achieving enhanced understanding of their respective government procurement systems and to improving access to their respective markets.
2. The Parties shall endeavour to cooperate in matters such as:
 - (a) facilitating participation by suppliers in government procurement, in particular, with respect to SMEs;
 - (b) exchanging experiences and information, such as regulatory frameworks and best practices, including on the use and adoption of measures to promote environmental, social and labour considerations in government procurement;
 - (c) exchanging government procurement statistics and data;

 - (a) proscribe anti-competitive agreements;
 - (b) proscribe anti-competitive practices by entities that have substantial market power; and
 - (c) address mergers with substantial anti-competitive effects.
2. Each Party shall apply its national competition laws to all commercial activities in its territory regardless of nationality or governmental ownership. This does not preclude a Party from applying its national competition laws to commercial activities outside its borders that may have anti-competitive effects within its jurisdiction.
3. Each Party may provide for certain exemptions from the application of its national competition laws, provided that those exemptions are transparent and are based on public policy grounds.
4. Each Party shall maintain an operationally independent national competition authority responsible for the enforcement of its national competition laws.
5. Each Party shall enforce its national competition laws in a manner that does not discriminate on the basis of nationality or governmental ownership.

Article 17.2

1. Each Party shall ensure that before it imposes a sanction or remedy against a person pursuant to its national competition law, it affords that person:
 - (a) information about the national competition authority's competition concerns;
 - (b) a reasonable opportunity to be legally represented; and
 - (c) a reasonable opportunity to be heard and present evidence in its defence, except that a Party may provide for the person to be heard

and present evidence within a reasonable time after it imposes an interim sanction or remedy.

If these investigations are not subject to definitive deadlines, each Party's national competition authorities shall endeavour to conduct their investigations within a reasonable time frame.

A Party may provide for such voluntary resolution to be subject to review by a court or independent tribunal or a public comment period before becoming final.
6. If a Party's national competition authority issues a public notice that reveals the existence of a pending or ongoing investigation, that authority shall not state and shall avoid implying in that notice that the person referred to in that notice has engaged in the alleged conduct or violated the Party's national competition law.¹
7. Each Party shall provide for the protection of business confidential information, and other information treated as confidential under its law, obtained by its national competition authorities during the investigative process. If a Party's national competition authority uses or intends to use that information in a proceeding, the Party shall, if it is permissible under its law and as appropriate, provide a procedure to allow the person under investigation timely access to information that is necessary to prepare an adequate response.
8. Each Party shall ensure that its national competition authorities afford a person under investigation conducted pursuant to the national competition law of that Party reasonable opportunity to consult with those national competition authorities with respect to significant legal, factual or procedural issues that arise during the investigation.

¹ For the UK, this does not preclude the issuing of provisional, reasoned objections by a national competition authority.

Private Rights of Action

1. For the purposes of this article “private right of action” means the right of a person to seek redress, including injunctive, monetary or other remedies, from a court or other independent tribunal for injury to that person’s business or property caused by a violation of national competition law.

3. Each Party shall ensure that a right provided pursuant to paragraph 2 is available to persons of the other Party on terms that are no less favourable than those available to its own persons.
4. A Party may establish reasonable criteria for the exercise of any rights it creates or maintains in accordance with this Article.

Article 17.4
Transparency

 - (b) goods are not as described;
 - (c) goods are not fit for their represented purpose; and

Article 17.6
Cooperation on Competition Policy and Consumer Protection

1. The Parties recognise the importance of cooperation and coordination between their respective competition and consumer protection authorities to foster effective competition and consumer protection law enforcement in the territories of the Parties. To this end, the Parties may cooperate, through their competition and consumer protection authorities, on issues relating to the enforcement of competition and consumer protection law. 4. Any cooperation and coordination under paragraphs 1 and 2 shall be undertaken only to the extent that it is compatible with each Party's law and important interests and within the Parties' available resources.
5. To implement the objectives of this Article, the Parties may enter into separate commitments or arrangements on cooperation and coordination which may provide for, among other things, enhanced information sharing including confidential information, and mutual assistance in competition and consumer law enforcement.

Article 17.7 Consultation

To foster understanding between the Parties, or to address specific matters that arise under this Chapter, a Party shall, on request of the other Party, enter into consultations with the requesting Party. In its request, the

Thus, the non-commercial assistance must be examined within the context of other possible causal factors to ensure an appropriate attribution of causality.

¹⁸ For greater certainty, indirect provision includes the situation in which a Party entrusts or directs an enterprise that is not a state-owned enterprise to provide non-commercial assistance.

Article 18.7 Adverse Effects

1. For the purposes of paragraphs 1 and 2 of Article 18.6 (Non-commercial Assistance), adverse effects arise if the effect of the non-commercial assistance is:
- (a) that the production and sale of a good by a Party's state-owned enterprise that has received the non-commercial assistance displaces or impedes from the Party's market imports of a like good of the other Party or sales of a like good produced by an enterprise that is a covered investment in the territory of the Party;

¹⁹ The term "domestic industry" refers to the domestic producers as a whole of the like good, or to those domestic producers whose collective output of the like good constitutes a major proportion of the total domestic production of the like good, excluding the state-owned enterprise that is a covered investment that has received the non-commercial assistance referred to in this paragraph.

²⁰ In situations of material retardation of the establishment of a domestic industry, it is understood that a domestic industry may not yet produce and sell the like good. However, in these situations, there must be evidence that a prospective domestic producer has made a substantial commitment to commence production and sales of the like good.

²¹ For greater certainty, this paragraph shall not be construed to apply to a service that itself is a form of non-commercial assistance.

- (b) that the production and sale of a good by a Party's state-owned enterprise that has received the non-commercial assistance displaces or impedes from:
 - (i) the market of the other Party sales of a like good produced by an enterprise that is a covered investment in the territory of that other Party; or
 - (ii) the market of a non-party imports of a like good of the other Party;
- (c) a significant price undercutting by a good produced by a Party's state-owned enterprise that has received the non-commercial assistance and sold by the enterprise in:
 - (i) the market of a Party as compared with the price in the same market of imports of a like good of the other Party or a like good that is produced by an enterprise that is a covered investment in the territory of the Party, or significant price suppression, price depression, or lost sales in the same market; or
 - (ii) the market of a non-party as compared with the price in the same market of imports of a like good of the other Party, or significant price suppression, price depression, or lost sales in the same market;
- (d) that services supplied by a Party's state-owned enterprise that has received the non-commercial assistance displace or impede from the market of the other Party a like service supplied by a service supplier of the other Party; or
- (e) a significant price undercutting by a service supplied in the market of the other Party by a Party's state-owned enterprise that has received the non-commercial assistance as compared with the price in the same market of a like service supplied by a service supplier of the other Party, or significant price suppression, price depression, or lost sales in the same market.²²

2. For the purposes of subparagraphs 1(a), 1(b) and 1(d), the displacing or impeding of a good or service includes any case in which it has been demonstrated that there has been a significant change in relative shares of the market to the disadvantage of the like good or like service. "Significant change in relative shares of the market" shall include any of the following

²² The purchase or sale of shares, stock or other forms of equity by a state-owned enterprise that has received non-commercial assistance as a means of its equity participation in another enterprise shall not be construed to give rise to adverse effects as provided for in paragraph 1 of Article 18.7 (Adverse Effects).

situations:

- (a) there is a significant increase in the market share of the good or service of the Party's state-owned enterprise;
- (b) the market share of the good or service of the Party's state-owned enterprise remains constant in circumstances in which, in the absence of the non-commercial assistance, it would have declined significantly; or
- (c) the market share of the good or service of the Party's state-owned enterprise declines, but at a significantly slower rate than would have been the case in the absence of the non-commercial assistance.

The change must manifest itself over an appropriately representative period sufficient to demonstrate clear trends in the development of the market for the good or service concerned, which, in normal circumstances, shall be at least one year.

- 3. For the purposes of subparagraphs 1(c) and 1(e), price undercutting shall include any case in which such price undercutting has been demonstrated through a comparison of the prices of the good or service of the state-owned enterprise with the prices of the like good or service.
- 4. Comparisons of the prices in paragraph 3 shall be made at the same level of trade and at comparable times, and due account shall be taken for factors affecting price comparability. If a direct comparison of transactions is not possible, the existence of price undercutting may be demonstrated on some other reasonable basis, such as, in the case of goods, a comparison of unit values.
- 5. Non-commercial assistance that a Party provides:
 - (a) before the signing of this Agreement; or
 - (b) within three years of signing of this Agreement, pursuant to a law that is enacted, or contractual obligation undertaken, prior to the signing of this Agreement,

shall be deemed not to cause adverse effects.

- 6. For the purposes of subparagraphs 1(b) and 2(b) of Article 18.6 (Non-commercial Assistance), the initial capitalisation of a state-owned enterprise, or the acquisition by a Party of a controlling interest in an enterprise, that is principally engaged in the supply of services within the territory of the Party, shall be deemed not to cause adverse effects.

Article 18.8

Injury

1. For the purposes of paragraph 3 of Article 18.6 (Non-commercial Assistance), the term “injury” means material injury to a domestic industry, threat of material injury to a domestic industry, or material retardation of the establishment of such an industry. A determination of material injury shall be based on positive evidence and involve an objective examination of the relevant factors, including the volume of production by the covered investment that has received non-commercial assistance, the effect of such production on prices for like goods produced and sold by the domestic industry, and the effect of such production on the domestic industry producing like goods.²³
2. With regard to the volume of production by the covered investment that has received non-commercial assistance, consideration shall be given as to whether there has been a significant increase in the volume of production, either in absolute terms or relative to production or consumption in the territory of the Party in which injury is alleged to have occurred. With regard to the effect of the production by the covered investment on prices, consideration shall be given as to whether there has been a significant price undercutting by the goods produced and sold by the covered investment as compared with the price of like goods produced and sold by the domestic industry, or whether the effect of production by the covered investment is otherwise to depress prices to a significant degree or to prevent price increases, which otherwise would have occurred, to a significant degree. No one or several of these factors can necessarily give decisive guidance.
3. The examination of the impact on the domestic industry of the goods produced and sold by the covered investment that received the non-commercial assistance shall include an evaluation of all relevant economic factors and indices having a bearing on the state of the industry, such as actual and potential decline in output, sales, market share, profits, productivity, return on investments, or utilisation of capacity; factors affecting domestic prices; actual and potential negative effects on cash flow, inventories, employment, wages, growth, ability to raise capital or investments, and, in the case of agriculture, whether there has been an increased burden on government support programmes. This list is not exhaustive, nor can one or several of these factors necessarily give decisive guidance.
4. It must be demonstrated that the goods produced and sold by the covered investment are, through the effects²⁴ of the non-commercial assistance, causing injury within the meaning of this Article. The demonstration of a causal relationship between the goods produced and sold by the covered

²³ The periods for examination of the non-commercial assistance and injury shall be reasonably established and shall end as closely as practical to the date of initiation of the proceeding before the panel.

²⁴ As set out in paragraphs 2 and 3.

investment and the injury to the domestic industry shall be based on an examination of all relevant evidence. Any known factors other than the goods produced by the covered investment which at the same time are injuring the domestic industry shall be examined, and the injuries caused by these other factors must not be attributed to the goods produced and sold by the covered investment that has received non-commercial assistance. Factors which may be relevant in this respect include, among other things, the volumes and prices of other like goods in the market in question, contraction in demand or changes in the patterns of consumption, and developments in technology and the export performance and productivity of the domestic industry.

5. A determination of a threat of material injury shall be based on facts and not merely on allegation, conjecture, or remote possibility and shall be considered with special care. The change in circumstances which would create a situation in which non-commercial assistance to the covered investment would cause injury must be clearly foreseen and imminent. In making a determination regarding the existence of a threat of material injury, there should be consideration of relevant factors²⁵ and of whether the totality of the factors considered lead to the conclusion that further availability of goods produced by the covered investment is imminent and that, unless protective action is taken, material injury would occur.

Article 18.9

Application to Sub Central State-Owned Enterprises and Designated Monopolies

Article 18.4 (Non-discriminatory Treatment and Commercial Considerations), Article 18.5 (Courts and Administrative Bodies), Article 18.6 (Non-commercial Assistance) and Article 18.10 (Transparency) shall not apply with respect to a Party's state-owned enterprises or designated monopolies as set out in Annex 18-D (Application to Sub-Central State-Owned Enterprises and Designated Monopolies).

²⁵ In making a determination regarding the existence of a threat of material injury, a panel pursuant to Chapter 30 (Dispute Settlement) should consider, among other things, such factors as: (a) the nature of the non-commercial assistance in question and the trade effects likely to arise therefrom; (b) a significant rate of increase in sales in the domestic market by the covered investment, indicating a likelihood of substantially increased sales; (c) sufficient freely disposable, or an imminent, substantial increase in, capacity of the covered investment indicating the likelihood of substantially increased production of the good by that covered investment, taking into account the availability of export markets to absorb additional production; (d) whether prices of goods sold by the covered investment will have a significant depressing or suppressing effect on the price of like goods; and (e) inventories of like goods.

Article 18.10 Transparency

1. Each Party shall provide to the other Party or otherwise make publicly available on an official website a list of its state-owned enterprises no later than six months after the date of entry into force of this Agreement, and thereafter shall update the list annually.
2. Each Party shall promptly notify the other Party or otherwise make publicly available on an official website the designation of a monopoly or expansion of the scope of an existing monopoly and the terms of its designation.
3. On the written request of the other Party, a Party shall promptly provide the following information concerning a state-owned enterprise or a government monopoly, provided that the request includes an explanation of how the activities of the entity may be affecting trade or investment between the Parties:
 - (a) the percentage of shares that the Party, its state-owned enterprises or designated monopolies cumulatively own, and the percentage of votes that they cumulatively hold, in the entity;
 - (b) a description of any special shares or special voting or other rights that the Party, its state-owned enterprises or designated monopolies hold, to the extent these rights are different than the rights attached to the general common shares of the entity;

 - (d) the entity's annual revenue and total assets over the most recent three-year period for which information is available;
 - (e) any exemptions and immunities from which the entity benefits under the Party's law; and
 - (f) any additional information regarding the entity that is publicly available, including annual financial reports and third-party audits, and that is sought in the written request.
4. On the written request of the other Party, a Party shall promptly provide, in writing, information regarding any policy or programme it has adopted or maintains that provides for non-commercial assistance, provided that the request includes an explanation of how the policy or programme affects or could affect trade or investment between the Parties.
5. When a Party provides a response pursuant to paragraph 4, the information it provides shall be sufficiently specific to enable the requesting Party to

understand the operation of and evaluate the policy or programme and its effects or potential effects on trade or investment between the Parties. The Party responding to a request shall ensure that the response it provides contains the following information:

- (a) the form of the non-commercial assistance provided under the policy or programme, for example, grant or loan;
 - (b) the names of the government agencies, state-owned enterprises, or state enterprises providing the non-commercial assistance and the names of the state-owned enterprises that have received or are eligible to receive the non-commercial assistance;
 - (c) the legal basis and policy objective of the policy or programme providing for the non-commercial assistance;
 - (d) with respect to goods, the amount per unit of the non-commercial assistance or, in cases where this is not possible, the total amount or the annual amount budgeted for the non-commercial assistance, indicating, if possible, the average amount per unit in the previous year;
 - (e) with respect to services, the total amount or the annual amount budgeted for the non-commercial assistance, indicating, if possible, the total amount in the previous year;
 - (f) with respect to policies or programmes providing for non-commercial assistance in the form of loans or loan guarantees, the amount of the loan or amount of the loan guaranteed, interest rates, and fees charged;

 - (h) with respect to policies or programmes providing for non-commercial assistance in the form of equity capital, the amount invested, the number and a description of the shares received, and any assessments that were conducted with respect to the underlying investment decision;
 - (i) the duration of the policy or programme or any other time-limits attached to it; and
 - (j) statistical data permitting an assessment of the effects of the non-commercial assistance on trade or investment between the Parties.
6. If a Party considers that it has not adopted or does not maintain any policies or programmes referred to in paragraph 4, it shall so inform the requesting

Party in writing.

7. If any relevant points in paragraph 5 have not been addressed in the written response, an explanation shall be provided in the written response itself.
8. The Parties recognise that the provision of information under paragraphs 5 and 7 does not prejudice the legal status of the assistance that was the subject of the request under paragraph 4 or the effects of that assistance under this Agreement.
9. When a Party provides written information pursuant to a request under this Article and informs the requesting Party that it considers the information to be confidential, the requesting Party shall not disclose the information without the prior consent of the Party providing the information.

Article 18.11 Cooperation

1. The Parties recognise the importance of the development of transparent, robust and effective international trade rules to ensure open and fair competition between state-owned and privately-owned enterprises in global trade. The Parties also recognise the importance of addressing trade-distorting practices by state-owned enterprises, including the provision of non-commercial assistance that impairs the proper functioning of markets. The Parties further recognise the role of relevant international standards, including the *OECD Guidelines on Corporate Governance of State-Owned Enterprises*, adopted by the OECD Council on 8 July 2015 in developing such rules.
2. Accordingly, the Parties shall, where appropriate and subject to available resources, engage in mutually agreed technical cooperation activities, including:
 - (a) cooperating in international fora that deal with regulation of state-owned enterprises in global trade, including in particular the WTO and the OECD;
 - (b) exchanging information regarding each Party's experiences in improving the corporate governance and operation of their state-owned enterprises;
 - (c) sharing best practices on policy approaches to ensure a level playing field between state-owned and privately owned enterprises, including policies related to competitive neutrality; and

- (d) organising international seminars, workshops, or any other appropriate forum for sharing technical information and expertise related to the governance and operations of state-owned enterprises.

Article 18.12 Contact Points

Each Party shall designate and notify a contact point on State-Owned Enterprises and Designated Monopolies to facilitate communications between the Parties on any matter covered by this Chapter.

Article 18.13 Exceptions

1. Nothing in Article 18.4 (Non-discriminatory Treatment and Commercial Considerations) or Article 18.6 (Non-commercial Assistance) shall be construed to:
 - (a) prevent the adoption or enforcement by a Party of measures to respond temporarily to a national or global economic emergency; or
 - (b) apply to a state-owned enterprise with respect to which a Party has adopted or enforced measures on a temporary basis in response to a national or global economic emergency, for the duration of that emergency.
2. Paragraph 1 of Article 18.4 (Non-discriminatory Treatment and Commercial Considerations) does not apply with respect to the supply of financial services by a state-owned enterprise pursuant to a government mandate if that supply of financial services:
 - (a) supports exports or imports, provided that these services are:
 - (i) not intended to displace commercial financing; or
 - (ii) offered on terms no more favourable than those that could be obtained for comparable financial services in the commercial market;²⁶

²⁶ In circumstances where no comparable financial services are offered in the commercial market: (a) for the purposes of subparagraphs 2(a)(ii), 2(b)(ii), 3(a)(ii) and 3(b)(ii), the state-owned enterprise may rely as necessary on available evidence to establish a benchmark of the terms on which such services would be offered in the commercial market; and (b) for the purposes of subparagraphs 2(a)(i), 2(b)(i), 3(a)(i) and 3(b)(i), the supply of the financial services shall be deemed not to be intended to displace commercial financing.

- (b) supports private investment outside the territory of the Party, provided that these services are:
 - (i) not intended to displace commercial financing; or
 - (ii) offered on terms no more favourable than those that could be obtained for comparable financial services in the commercial market; or
 - (c) is offered on terms consistent with the Arrangement, provided that it falls within the scope of the Arrangement.
3. The supply of financial services by a state-owned enterprise pursuant to a government mandate shall be deemed not to give rise to adverse effects under subparagraphs 1(b), 1(c), 2(b) or 2(c) of Article 18.6 (Non-commercial Assistance) where the Party in which the financial service is supplied requires a local presence in order to supply those services, if that supply of financial services:²⁷
- (a) supports exports and imports, provided that these services are:
 - (i) not intended to displace commercial financing; or
 - (ii) offered on terms no more favourable than those that could be obtained for comparable financial services in the commercial market;
 - (b) supports private investment outside the territory of the Party, provided that these services are:
 - (i) not intended to displace commercial financing; or
 - (ii) offered on terms no more favourable than those that could be obtained for comparable financial services in the commercial market; or
 - (c) is offered on terms consistent with the Arrangement, provided that it falls within the scope of the Arrangement.
4. Article 18.6 (Non-commercial Assistance) does not apply with respect to an enterprise located outside the territory of a Party over which a state-owned enterprise of that Party has assumed temporary ownership as a consequence of foreclosure or a similar action in connection with defaulted debt, or payment of an insurance claim by the state-owned enterprise, associated with

²⁷ For the purposes of this paragraph, in cases where the Party in which the financial service is supplied requires a local presence in order to supply those services, the supply of the financial services identified in this paragraph through an enterprise that is a covered investment shall be deemed to not give rise to adverse effects.

the supply of the financial services referred to in paragraphs 2 and 3, provided that any support the Party, a state enterprise or state-owned enterprise of the Party, provides to the enterprise during the period of temporary ownership is provided in order to recoup the state-owned enterprise's investment in accordance with a restructuring or liquidation plan that will result in the ultimate divestiture from the enterprise.

5. Article 18.4 (Non-discriminatory Treatment and Commercial Considerations), Article 18.6 (Non-commercial Assistance), and Article 18.10 (Transparency) do not apply with respect to a state-owned enterprise or designated monopoly if in any one of the three previous consecutive fiscal years, the annual revenue derived from the commercial activities of the state-owned enterprise or designated monopoly was less than a threshold amount which shall be calculated in accordance with Annex 18-A (Threshold Calculation).²⁸

Article 18.14 Further Negotiations

Within five years of the date of entry into force of this Agreement, the Parties shall conduct further negotiations on extending the application of the disciplines in this Chapter in accordance with Annex 18-C (Further Negotiations).

Article 18.15 Process for Developing Information

Annex 18-B (Process for Developing Information Concerning State-Owned Enterprises and Designated Monopolies) applies in any dispute under Chapter 30 (Dispute Settlement) regarding a Party's conformity with Article 18.4 (Non-discriminatory Treatment and Commercial Considerations) or Article 18.6 (Non-commercial Assistance).

²⁸ When a Party invokes this exception during consultations under Article 30.7 (Consultations – Dispute Settlement), the consulting Parties should exchange and discuss available evidence concerning the annual revenue of the state-owned enterprise or the designated monopoly derived from the commercial activities during the three previous consecutive fiscal years in an effort to resolve during the consultations period any disagreement regarding the application of this exception.

ANNEX 18-A
THRESHOLD CALCULATION

1. On the date of entry into force of this Agreement, the threshold referred to in paragraph 5 of Article 18.13 (Exceptions) shall be 200 million Special Drawing Rights (SDRs).
2. The amount of the threshold shall be adjusted at three-year intervals with each adjustment taking effect on 1 January. The first adjustment shall take place on the first 1 January following the entry into force of this Agreement, in accordance with the formula set out in this Annex.
3. The threshold shall be adjusted for changes in general price levels using a composite SDR inflation rate, calculated as a weighted sum of cumulative per cent changes in the Gross Domestic Product (GDP) deflators of SDR component currencies over the three-year period ending 30 June of the year prior to the adjustment taking effect, and using the following formula:

$$T_1 = (1 + \sum w_i^{SDR} \cdot \Pi_i^{SDR})T_0$$

where:

- T_0 = threshold value at base period;
- T_1 = new (adjusted) threshold value;
- w_i^{SDR} = respective (fixed) weights of each currency, i , in the SDR (as at 30 June of the year prior to adjustment taking effect);
and
- Π_i^{SDR} = cumulative per cent change in the GDP deflator of each currency, i , in the SDR over the three-year period ending 30 June of the year prior to adjustment taking effect.

4. Each Party shall convert the threshold into national currency terms where the conversion rates shall be the average of monthly values of that Party's national currency in SDR terms over the three-year period to 30 June of the year before the threshold is to take effect. Each Party shall notify the other Party of its applicable threshold in their respective national currencies.
5. For the purposes of this Chapter, all data shall be drawn from the International Monetary Fund's International Financial Statistics database.
6. The Parties shall consult if a major change in a national currency vis-à-vis the SDR were to create a significant problem with regard to the application of this Chapter.

ANNEX 18-B

PROCESS FOR DEVELOPING INFORMATION CONCERNING STATE-OWNED ENTERPRISES AND DESIGNATED MONOPOLIES

1. If a panel has been established pursuant to Chapter 30 (Dispute Settlement) to examine a complaint arising under Article 18.4 (Non-discriminatory Treatment and Commercial Considerations) or Article 18.6 (Non-commercial Assistance), the Parties may exchange written questions and responses, as set forth in paragraphs 2, 3 and 4, to obtain information relevant to the complaint that is not otherwise readily available.
2. A Party (questioning Party) may provide written questions to the other Party (answering Party) within 15 days of the date the panel is established. The answering Party shall provide its responses to the questions to the questioning Party within 30 days of the date it receives the questions.
3. The questioning Party may provide any follow-up written questions to the answering Party within 15 days of the date it receives the responses to the initial questions. The answering Party shall provide its responses to the follow-up questions to the questioning Party within 30 days of the date it receives the follow-up questions.
4. If the questioning Party considers that the answering Party has failed to cooperate in the information-gathering process under this Annex, the questioning Party shall inform the panel and the answering Party in writing within 30 days of the date the responses to the questioning Party's final questions are due, and provide the basis for its view. The panel shall afford the answering Party an opportunity to reply in writing.
5. A Party that provides written questions or responses to the other Party pursuant to these procedures shall, on the same day, provide the questions or answers to the panel.
6. The answering Party may designate information in its responses as confidential information in accordance with the procedures set out in the Rules of Procedure established in accordance with subparagraph 1(e) of Article 30.2 (Functions of the Joint Committee – Administrative and Institutional Provisions) or other rules of procedure agreed to by the Parties.
7. The time periods in paragraphs 2, 3 and 4 may be modified upon agreement of the Parties or approval by the panel.
8. In determining whether a Party has failed to cooperate in the information-gathering process, the panel shall take into account the reasonableness of the questions and the efforts the answering Party has made to respond to the questions in a cooperative and timely manner.

9. In making findings of fact and its initial report, the panel should draw adverse inferences from instances of non-cooperation by a Party in the information-gathering process.
10. The panel may deviate from the time period set out in Chapter 30 (Dispute Settlement) for the issuance of the initial report if necessary to accommodate the information-gathering process.
11. The panel may seek additional information from a Party that was not provided to the panel through the information-gathering process where the panel considers the information necessary to resolve the dispute. However, the panel shall not request additional information to complete the record where the information would support a Party's position and the absence of that information in the record is the result of that Party's non-cooperation in the information-gathering process.

ANNEX 18-C

- (a) freedom of association and the effective recognition of the right to collective bargaining;
- (b) the elimination of all forms of forced or compulsory labour;
- (c) the effective abolition of child labour, a prohibition on the worst forms of child labour and other labour for children and minors;
- (d) the elimination of discrimination in respect of employment and occupation; and
- (e) acceptable conditions of work with respect to minimum wages, hours of work, and occupational safety and health; and

“modern slavery” means human trafficking, slavery and slavery-like practices, including servitude, and forced or compulsory labour, as defined in the laws and regulations of each Party.

Article 21.2 Right to Regulate and Levels of Protection

1. Each Party recognises the sovereign right of the other Party to establish its own levels of domestic labour protection and its own priorities on labour, and to establish, adopt or modify its labour laws and policies accordingly, in a

¹ For Australia, “laws and regulations” or “laws or regulations” means an Act of the Commonwealth Parliament, or a regulation made by the Governor-General in Council under delegated authority under an Act of the Commonwealth Parliament, that is enforceable at the central level of government.

manner consistent with its international labour commitments referred to in this Chapter.

2. Each Party shall strive to ensure that its labour laws and policies provide for and encourage high levels of labour protection and shall strive to continue to improve such laws and policies with the goal of providing high levels of labour protection.

Article 21.3 Statement of Shared Commitment

1. The Parties affirm their obligations as members of the ILO, including those stated in the ILO Declaration, regarding labour rights within their territories.
2. The Parties recognise that, as stated in paragraph 5 of the ILO Declaration, labour standards should not be used for protectionist trade purposes.

Article 21.4 Labour Rights

 - (a) freedom of association and the effective recognition of the right to collective bargaining;

² The obligations set out in Article 21.4 (Labour Rights), as they relate to the ILO, refer only to the ILO Declaration.

³ To establish a violation of an obligation under paragraph 1 of Article 21.4 (Labour Rights) a Party shall demonstrate that the other Party has failed to adopt or maintain a law, regulation or practice to encourage trade or investment.

2. Each Party shall adopt and maintain laws and regulations, and practices thereunder, governing acceptable conditions of work with respect to minimum wages, hours of work, and occupational safety and health.⁴

Article 21.5 Non Derogation

- (a) implementing paragraph 1 of Article 21.4 (Labour Rights), if the waiver or derogation would be inconsistent with a right set out in that paragraph; or
- (b) implementing paragraph 1 or 2 of Article 21.4 (Labour Rights), if the waiver or derogation would weaken or reduce adherence to a right set out in paragraph 1 of Article 21.4 (Labour Rights), or to a condition of work referred to in paragraph 2 of Article 21.4 (Labour Rights), in a special trade or customs area, such as an export processing zone or foreign trade zone, in the Party's territory,

in a manner affecting trade or investment between the Parties.

Article 21.6 Enforcement of Labour Laws

1. Neither Party shall fail to effectively enforce its labour laws through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties after the date of entry into force of this Agreement.
2. If a Party fails to comply with an obligation under this Chapter, a decision made by that Party on the provision of enforcement resources shall not excuse that failure. Each Party retains the right to exercise reasonable enforcement discretion and to make *bona fide* decisions with regard to the allocation of enforcement resources between labour enforcement activities among the fundamental labour rights and acceptable conditions of work enumerated in Article 21.4 (Labour Rights), provided that the exercise of that discretion, and those decisions, are not inconsistent with its obligations under this Chapter.

⁴ For greater certainty, this obligation relates to the establishment by a Party in its laws, regulations and practices thereunder, of acceptable conditions of work as determined by that Party.

3. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake labour law enforcement activities in the territory of the other Party.

Article 21.7 **Modern Slavery**

2. To this end, each Party shall, to the extent it considers appropriate, adopt or maintain measures:

1. The Parties acknowledge the importance of gender equality and non-discrimination in employment and income opportunities for sustainable, equitable, and inclusive economic growth. Accordingly, each Party affirms its commitments to non-discrimination in employment, occupations, and places of work, and to take measures to advance anti-discrimination practices and address discriminatory practices, including those related to workplace sexual harassment, gender-based violence, gender pay gaps, and flexible working arrangements, as well as improve women's access to decent work.
2. The Parties agree to share information on their respective domestic approaches and cooperate, as appropriate, on activities to address discriminatory practices, promote equality of opportunity in employment, and improve women's access to decent work and the benefits of trade or investment. 2. Each Party shall ensure that persons with a recognised interest under its law in a particular matter have appropriate access to impartial and independent tribunals for the enforcement of the Party's labour laws. These tribunals may

include administrative tribunals, quasi-judicial tribunals, judicial tribunals, or labour tribunals, as provided for in each Party's law.

3. Each Party shall ensure that proceedings before these tribunals for the enforcement of its labour laws:
 - (a) are fair, equitable, and transparent;
 - (b) comply with due process of law; and

7. Each Party shall ensure that the parties to these proceedings have access to remedies under its law for the effective enforcement of their rights under the Party's labour laws and that these remedies are executed in a timely manner.
8. Each Party shall provide procedures to effectively enforce the final decisions of its tribunals in these proceedings.
9. For greater certainty, and without prejudice to whether a tribunal's decision is inconsistent with a Party's obligations under this Chapter, nothing in this Chapter shall be construed to require a tribunal of a Party to reopen a decision that it has made in a particular matter.

Article 21.11

Subject to the agreement of each Party, cooperative activities may take place bilaterally and in international fora such as the ILO.
 4. All cooperative activities under this Chapter are subject to the availability of funds and of human and other resources, and to the applicable laws and regulations of the Parties. The Parties shall decide, on a case-by-case basis, the funding of cooperative activities.
 5. In addition to the cooperative activities outlined in this Article, the Parties shall, as appropriate, caucus and leverage their respective membership in regional and multilateral fora to further their common interests in addressing labour issues.
 6. Areas of cooperation may include:

CHAPTER 22

ENVIRONMENT

Article 22.1 Definitions

For the purposes of this Chapter:

“environmental law” means a law or regulation of a Party, or provision thereof, including any that implements the Party’s obligations under a multilateral environmental agreement, the primary purpose of which is the protection of the environment, or the prevention of a danger to human life or health, through:

- (a) the prevention, abatement or control of: the release, discharge or emission of pollutants or environmental contaminants including greenhouse gases;
- (b) the control of environmentally hazardous or toxic chemicals, substances, materials or wastes, and the dissemination of information related thereto; or
- (c) the protection or conservation of wild flora or fauna, including endangered species, their habitat, and specially protected natural areas,^{1,2}

but does not include a law or regulation, or provision thereof, directly related to worker safety or health, nor any law or regulation, or provision thereof, the primary purpose of which is managing the subsistence or aboriginal harvesting of natural resources;

For Australia, “law or regulation” means an Act of the Commonwealth Parliament, or a regulation made by the Governor-General in Council under delegated authority under an Act of the Commonwealth Parliament, that is enforceable at the central level of government; and

¹ For the purposes of this Chapter, the term “specially protected natural areas” means those areas as defined by the Party in its laws and regulations.

² The Parties recognise that such protection or conservation may include the protection or conservation of biological diversity.

Article 22.2 Objectives

1. The objectives of this Chapter are to promote mutually supportive trade and environmental policies; promote high levels of environmental protection and effective enforcement of environmental laws; and enhance the capacities of the Parties to address trade-related environmental issues, including through cooperation.
2. Taking account of their respective domestic priorities and circumstances, the Parties recognise that enhanced cooperation to protect and conserve the environment and sustainably manage their natural resources brings benefits that can contribute to sustainable development, strengthen their environmental governance, and complement the objectives of this Agreement.
3. The Parties further recognise that it is inappropriate to establish or use their environmental laws or other environmental measures in a manner which would constitute a disguised restriction on trade or investment between the Parties.

Article 22.3 General Commitments

1. The Parties recognise the importance of mutually supportive trade and environmental policies and practices to improve environmental protection in the furtherance of sustainable development.
2. The Parties recognise the sovereign right of each Party to establish its own levels of domestic environmental protection and its own priorities relating to the environment, including climate change, and to establish, adopt or modify its environmental laws and policies accordingly.
3. Each Party shall strive to ensure that its environmental laws and policies provide for, and encourage, high levels of environmental protection and to continue to improve its respective levels of environmental protection.
4. Neither Party shall fail to effectively enforce its environmental laws through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties after the date of entry into force of this Agreement.
5. The Parties recognise that each Party retains the right to exercise discretion and to make decisions regarding:
 - (a) investigatory, prosecutorial, regulatory, and compliance matters; and

- (b) the allocation of environmental enforcement resources with respect to other environmental laws determined to have a higher priority.

Accordingly, the Parties understand that with respect to the enforcement of environmental laws, a Party is in compliance with paragraph 4 if a course of action or inaction reflects a reasonable exercise of that discretion, or results from a bona fide decision regarding the allocation of those resources in accordance with priorities for enforcement of its environmental laws.

- 6. Without prejudice to paragraph 2, the Parties recognise that it is inappropriate to encourage trade or investment by weakening or reducing the protection afforded in their respective environmental laws. Accordingly, a Party shall not waive or otherwise derogate from, or offer to waive or otherwise derogate from, its environmental laws in a manner that weakens or reduces the protection afforded in those laws in order to encourage trade or investment between the Parties.
- 7. Where a Party has defined environmental law under Article 22.1 (Definitions) to include only laws and regulations at the central level of government (first Party) and where the other Party (second Party) considers that an environmental law at the sub-central level of government of the first Party is not being effectively enforced by the relevant sub-central level of government through a sustained or recurring course of action or inaction in a manner affecting trade or investment between the Parties, the second Party may request a dialogue with the first Party. The request shall contain information that is specific and sufficient to enable the first Party to evaluate the matter at issue, and an indication of how the matter is negatively affecting trade or investment of the second Party.
- 8. Nothing in this Chapter shall be construed to empower a Party's authorities to undertake environmental law enforcement activities in the territory of the other Party.

Article 22.4 **Multilateral Environmental Agreements**

- 1. The Parties recognise that multilateral environmental agreements to which they are party play an important role, globally and domestically, in protecting the environment, and that their respective implementation of these agreements is critical to achieving the environmental objectives of these agreements. Accordingly, each Party affirms its commitment to implement the multilateral environmental agreements to which it is a party.
- 2. The Parties emphasise the need to enhance the mutual supportiveness between trade and environmental law and policies, through dialogue between the Parties on trade and environmental issues of mutual interest, particularly

with respect to the negotiation and implementation of relevant multilateral environmental agreements and trade agreements.

Article 22.5 Climate Change

1. Each Party affirms its commitment to address climate change, including under the *United Nations Framework Convention on Climate Change* done at New York on 9 May 1992 and the *Paris Agreement* done at Paris on 12 December 2015 (“Paris Agreement”), to which both Parties are party, and recognises the importance of achieving their goals.
2. The Parties emphasise that efforts to address climate change require collective and urgent action, and acknowledge the role of global trade and investment in these efforts.
3. The Parties recognise the important role that cooperation can play in addressing climate change. Consistent with Article 22.20 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest which may include:
 - (a) emission reduction opportunities across all sectors and greenhouse gases;
 - (b) exchange on policies, laws, and measures that can contribute to a reduction in greenhouse gas emissions;
 - (c) development and acceleration of cost-effective, low, and zero emissions technologies;
 - (d) clean and renewable energy sources and supporting infrastructure and enabling technologies;
 - (e) energy efficiency;
 - (f) sustainable transport and sustainable urban infrastructure development;
 - (g) addressing deforestation and forest degradation;

2. Accordingly, each Party shall facilitate and promote, as appropriate, trade and investment in environmental goods and services, including environmental and low emissions technologies, clean and renewable energy and enabling infrastructure, and energy efficient goods and services.
3. The Environment Working Group shall consider issues identified by a Party or the Parties related to trade in environmental goods and services, including issues identified as potential non-tariff barriers to that trade. The Parties shall endeavour to address any potential barrier to trade in environmental goods and services that may be identified by a Party, including by working through the Environment Working Group and in conjunction with other relevant committees established under this Agreement, as appropriate.
4. The Parties shall cooperate bilaterally and in international fora, as appropriate, on ways to enhance trade and investment in environmental goods and services.

Article 22.7 **Circular Economy**

1. The Parties recognise the importance of a transition towards a circular economy and the role that waste avoidance and greater resource efficiency can play in reducing pressure on the natural environment, improving resource security, and reducing other associated negative environmental effects arising from the use of materials throughout their lifecycle. The Parties further recognise the role that trade can play in achieving these goals through trade in second-hand goods, end-of-life products, secondary materials, processed waste, as well as trade in related services.
2. The Parties recognise the importance of avoiding the generation of waste and encouraging the reuse of products and resource efficient product design, including the designing of products to be easier to reuse, dismantle, or recycle at end of life. The Parties also recognise the importance of encouraging environmental labelling, including eco-labelling, to make it easier for consumers to make more sustainable choices.

3. Consistent with Article 22.20 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest related to the transition towards a circular economy. Areas of cooperation may include:
- (a) barriers to trade in relation to the circular economy;
 - (b) environmental labelling, including eco-labelling;
 - (c) sustainable supply chain management, including enhanced reverse logistics;
 - (d) investment in, and financing of, circular economy projects;
 - (e) reuse, repair, remanufacture, and recycling;

 - (j) approaches to reducing the amount of waste sent to landfill and accelerating the movement of waste further up the waste hierarchy; and
 - (k) best practice on sustainable management of hazardous wastes.

Article 22.8
Ozone Depleting Substances and Hydrofluorocarbons

1. The Parties recognise that emissions of certain substances can significantly deplete and otherwise modify the ozone layer in a manner that is likely to result in adverse effects on human health and the environment, and that the reduction of certain substances can address global environmental challenges, including climate change. Accordingly, each Party shall take measures to

control the production and consumption of, and trade in, substances controlled by the Montreal Protocol.^{3, 4, 5}

2. The Parties also recognise the importance of public participation and consultation, in accordance with their respective law or policy, in the development and implementation of measures concerning the protection of the ozone layer. Each Party shall make publicly available appropriate information about its programmes and activities, including cooperative programmes, that are related to ozone depleting substances and hydrofluorocarbons.
3. Consistent with 22.20 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest related to ozone-depleting substances and hydrofluorocarbons. Cooperation may include exchanging information and experiences in areas related to:
 - (a) environmentally friendly alternatives to ozone-depleting substances and hydrofluorocarbons, as well as emerging technologies for sustainable cooling and refrigeration;
 - (b) refrigerant management practices, policies, and programmes including lifecycle management of coolants and refrigerants;
 - (c) methodologies for stratospheric ozone measurements;
 - (d) combating illegal trade in ozone-depleting substances and hydrofluorocarbons; and
 - (e) barriers to trade in, and uptake of, sustainable cooling and refrigeration technologies.

³ For greater certainty, this provision pertains to substances controlled by the *Montreal Protocol on Substances that Deplete the Ozone Layer*, done at Montreal on 16 September 1987 (“Montreal Protocol”), and any existing amendments or adjustments to the Montreal Protocol, including the *Kigali Amendment* done at Kigali on 15 October 2016, and any future amendments or adjustments to which the Parties are parties.

⁴ A Party shall be deemed in compliance with this provision if it maintains the measure or measures listed in Annex 22A, implementing its obligations under the Montreal Protocol, or any subsequent measure or measures that provide an equivalent or higher level of environmental protection as the measure or measures listed.

⁵ If compliance with this provision is not established pursuant to footnote 4, to establish a violation of this provision, a Party must demonstrate that the other Party has failed to take measures to control the production and consumption of, and trade in, substances controlled by the Montreal Protocol in a manner that is likely to result in adverse effects on human health and the environment, in a manner affecting trade or investment between the Parties.

Article 22.9 **Air Quality**

1. The Parties acknowledge that trade involving production, consumption, and transportation of goods across air, sea and land can cause air pollution and that air pollution can travel long distances and recognise the importance of reducing domestic and transboundary air pollution, and that cooperation can be beneficial in achieving these objectives.
2. The Parties recognise the importance of public participation and consultation in accordance with their respective law or policy in the development and implementation of measures to reduce domestic and transboundary air pollution and in ensuring access to air quality data.
3. Consistent with Article 22.20 (Cooperation Frameworks) the Parties shall cooperate to address matters of mutual interest with respect to air quality, which may include:
 - (a) ambient air quality planning;
 - (b) modelling and monitoring, including spatial distribution of main sources and their emissions;
 - (c) measurement and inventory methodologies for air quality and emissions measurements; and
 - (d) reduction, control, and prevention technologies and practices.

Article 22.10 **Protection of the Marine Environment from Ship Pollution**

1. The Parties recognise the importance of protecting and preserving the marine environment. To that end, each Party shall take measures to prevent the pollution of the marine environment from ships.^{6,7,8}

⁶ For greater certainty, this provision pertains to pollution regulated by the *International Convention for the Prevention of Pollution from Ships*, done at London on 2 November 1973, as modified by the *Protocol of 1978 relating to the International Convention for the Prevention of Pollution from Ships*, done at London on 17 February 1978, and the *Protocol of 1997 to Amend the International Convention for the Prevention of Pollution from Ships 1973, as Modified by the Protocol of 1978 relating thereto*, done at London on 26 September 1997 (“MARPOL Convention”), and any existing and future amendments to the MARPOL Convention to which the Parties are parties.

⁷ A Party shall be deemed in compliance with this provision if it maintains the measure or measures listed in Annex 22B implementing its obligations under MARPOL, or any subsequent measure or measures that provide an equivalent or higher level of environmental protection as the measure or measures listed.

⁸ If compliance with this provision is not established pursuant to footnote 7, to establish a violation of this provision, a Party must demonstrate that the other Party has failed to take measures to prevent

2. The Parties also recognise the importance of public participation and consultation, in accordance with their respective law or policy, in the development and implementation of measures to prevent the pollution of the marine environment from ships. Each Party shall make publicly available appropriate information about its programmes and activities, including cooperative programmes, that are related to the prevention of pollution of the marine environment from ships.
3. Consistent with Article 22.20 (Cooperation Frameworks), the Parties shall cooperate to address matters of mutual interest with respect to pollution of the marine environment from ships. Areas of cooperation may include:
 - (a) accidental pollution from ships;
 - (b) pollution from routine operations of ships;
 - (c) deliberate pollution from ships;
 - (d) development of technologies to minimise ship-generated waste;
 - (e) emissions from ships;
 - (f) adequacy of port waste reception facilities;
 - (g) increased protection in special geographic areas; and
 - (h) enforcement measures including notifications to flag States and, as appropriate, by port States.

Article 22.11 Marine Litter

1. The Parties acknowledge that trade is a source of marine litter and the importance of taking action to prevent and reduce marine litter, including plastics and microplastics, in order to preserve marine and coastal ecosystems, prevent the loss of biodiversity, and mitigate marine litter's costs and impacts.
2. Recognising the global nature of the challenge of marine litter, the Parties acknowledge the importance of maintaining measures under their environmental laws and policies to prevent and reduce marine litter and taking action to address marine litter in other fora.
3. Accordingly, the Parties shall cooperate to address matters of mutual interest with respect to combatting marine litter, which may include:

the pollution of the marine environment from ships, in a manner affecting trade or investment between the Parties.

- (a) addressing land and sea based pollution;
- (b) promoting waste management infrastructure;
- (c) advancing efforts related to abandoned, lost, or otherwise discarded fishing gear; and
- (d) circular economy and waste management hierarchy measures relevant to addressing marine litter.

Article 22.12 **Marine Wild Capture Fisheries⁹**

1. The Parties acknowledge their role as major consumers, producers and traders of fisheries products, and the importance of the marine fisheries sector to their development and to the livelihoods of their fishing communities, including artisanal or small-scale fisheries. The Parties also acknowledge that the fate of marine capture fisheries is an urgent resource problem facing the international community. Accordingly, the Parties recognise the importance of taking measures aimed at the conservation and the sustainable management of fisheries.
2. In this regard, the Parties acknowledge that inadequate fisheries management, fisheries subsidies that contribute to overfishing and overcapacity, and illegal, unreported, and unregulated (“IUU”) fishing¹⁰ can have significant negative impacts on trade, development and the environment, and recognise the need for individual and collective action to address the problems of overfishing and unsustainable utilisation of fisheries resources, with appropriate consideration of the rights of coastal States to fisheries resources and the obligations of coastal States, flag States and port States in managing fishing activity.
3. Accordingly, each Party shall operate a fisheries management system that regulates marine wild capture fishing and that is designed to:
 - (a) prevent overfishing and overcapacity;
 - (b) reduce bycatch of non-target species and juveniles, including through the regulation of fishing gear that results in bycatch and the regulation of fishing in areas where bycatch is likely to occur; and

⁹ For greater certainty, this Article does not apply with respect to aquaculture.

¹⁰ The term “illegal, unreported and unregulated fishing” is to be understood to have the same meaning as paragraph 3 of the *International Plan of Action to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing* (“2001 IUU Fishing Plan of Action”) of the UN Food and Agricultural Organisation (“FAO”), adopted at Rome in 2001.

- (c) promote the recovery of overfished stocks for all marine fisheries in which that Party's persons conduct fishing activities.

Such a management system shall be based on the best scientific evidence available and on internationally recognised best practices for fisheries management and conservation as reflected in the relevant provisions of international instruments aimed at ensuring the sustainable use and conservation of marine species.¹¹

- 4. Each Party shall promote the long-term conservation of sharks, marine turtles, seabirds, and marine mammals, through the implementation and effective enforcement of conservation and management measures. Those measures should include, as appropriate:
 - (a) for sharks, the collection of species-specific data, fisheries bycatch mitigation measures, catch limits, and finning prohibitions; and
 - (b) for marine turtles, seabirds, and marine mammals: fisheries bycatch mitigation measures, conservation and relevant management measures, prohibitions, and other measures in accordance with relevant international agreements to which the Party is party.
- 5. The Parties recognise that the implementation of a fisheries management system that is designed to prevent overfishing and overcapacity and to promote the recovery of overfished stocks must include the control, reduction, and eventual elimination of all subsidies that contribute to overfishing and overcapacity. To that end, neither Party shall grant or maintain any of the following subsidies¹² within the meaning of Article 1.1 of the SCM Agreement that are specific within the meaning of Article 2 of the SCM Agreement:

¹¹ These instruments include, among others, and as they may apply, *United Nations Convention on the Law of the Sea* done at Montego Bay on 10 December 1982 ("UNCLOS"), the *United Nations Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks*, done at New York on 4 December 1995 ("UN Fish Stocks Agreement"), the *FAO Code of Conduct for Responsible Fisheries*, the *1993 FAO Agreement to Promote Compliance with International Conservation and Management Measures by Fishing Vessels on the High Seas* done at Rome on 24 November 1993 ("Compliance Agreement") and the 2001 IUU Fishing Plan of Action.

¹² For the purposes of this Article, a subsidy shall be attributable to the Party conferring it, regardless of the flag of the vessel involved or the application of rules of origin to the fish involved.

- (a) subsidies for fishing¹³ that negatively affect¹⁴ fish stocks that are in an overfished¹⁵ condition; and
 - (b) subsidies provided to any fishing vessel¹⁶ while listed by the flag State or a relevant Regional Fisheries Management Organisation or Arrangement for IUU fishing in accordance with the rules and procedures of that organisation or arrangement and in conformity with international law.
6. Subsidy programmes that are established by a Party before the date of entry into force of this Agreement for that Party and which are inconsistent with paragraph 5(a) shall be brought into conformity with that paragraph as soon as possible and no later than three years of the date of entry into force of this Agreement for that Party.
7. In relation to subsidies that are not prohibited by paragraph 5(a) or 5(b), and taking into consideration a Party's social and developmental priorities, including food security concerns, each Party shall make best efforts to refrain from introducing new, or extending, or enhancing existing subsidies within the meaning of Article 1.1 of the SCM Agreement, to the extent they are specific within the meaning of Article 2 of the SCM Agreement, that contribute to overfishing or overcapacity.
8. With a view to achieving the objective of eliminating subsidies that contribute to overfishing and overcapacity, the Parties shall review the disciplines in paragraph 5 through existing channels, as appropriate.
9. Each Party shall also provide, to the extent possible, information in relation to other fisheries subsidies that the Party grants or maintains that are not covered by paragraph 5, in particular fuel subsidies.
10. A Party may request information from the other Party regarding fisheries subsidies notifications provided in accordance with WTO data reporting requirements. The notifying Party shall respond to that request as quickly as possible and in a comprehensive manner.

¹³ For the purposes of this paragraph, "fishing" means searching for, attracting, locating, catching, taking, or harvesting fish, or any activity which can reasonably be expected to result in the attracting, locating, catching, taking or harvesting of fish.

¹⁴ The negative effect of those subsidies shall be determined based on the best scientific evidence available.

¹⁵ For the purposes of this Article, a fish stock is overfished if the stock is at such a low level that mortality from fishing needs to be restricted to allow the stock to rebuild to a level that produces maximum sustainable yield or alternative reference points based on the best scientific evidence available. Fish stocks that are recognised as overfished by the domestic jurisdiction where the fishing is taking place or by a relevant Regional Fisheries Management Organisation shall also be considered overfished for the purposes of this paragraph.

¹⁶ The term "fishing vessels" refers to any vessel, ship or other type of boat used for, equipped to be used for, or intended to be used for fishing or fishing related activities.

11. The Parties recognise the importance of concerted international action to address IUU fishing as reflected in regional and international instruments¹⁷ and shall endeavour to improve cooperation internationally in this regard, including with and through competent international organisations.
12. In support of efforts to combat IUU fishing practices and to help deter trade in products from species harvested from those practices, each Party shall:
 - (a) cooperate with the other Party to identify needs and to build capacity to support the implementation of this Article;
 - (b) support monitoring, control, surveillance, compliance, and enforcement systems, including by adopting, reviewing, or revising, as appropriate, measures to:
 - (i) deter vessels that are flying its flag¹⁸ and its nationals from engaging in IUU fishing activities; and
 - (ii) address the transshipment at sea of fish or fish products caught through IUU fishing activities; and
 - (c) implement port State measures, including through actions consistent with the Port State Measures Agreement;¹⁹
 - (d) strive to act consistently with relevant conservation and management measures adopted by Regional Fisheries Management Organisations of which it is not a member so as not to undermine those measures; and
 - (e) endeavour not to undermine catch or trade documentation schemes operated by Regional Fisheries Management Organisations or Arrangements or an intergovernmental organisation whose scope includes the management of shared fisheries resources, including straddling and highly migratory species, where that Party is not a member of those organisations or arrangements.

¹⁷ Regional and international instruments include, among others, and as they may apply, the 2001 IUU Fishing Plan of Action, the *2005 Rome Declaration on IUU Fishing* adopted in Rome on 12 March 2005, the *Agreement on Port State Measures to Prevent, Deter and Eliminate Illegal, Unreported and Unregulated Fishing* done at Rome on 22 November 2009, as well as instruments establishing and adopted by Regional Fisheries Management Organisations, which are defined as intergovernmental fisheries organisations or arrangements, as appropriate, that have the competence to establish conservation and management measures.

¹⁸ For the purposes of this paragraph, for the United Kingdom, “vessels that are flying its flag” is to be understood to mean vessels that are both flying the United Kingdom flag and registered on the United Kingdom register of British ships.

¹⁹ *Agreement on Port State Measures to Prevent, Deter, and Eliminate Illegal, Unreported, and Unregulated Fishing* done at the Food and Agriculture Organization of the United Nations at Rome on 22 November 2009 (“Port State Measures Agreement”).

13. Consistent with Article 28.2 (Publication – Transparency and Anti-Corruption), a Party shall, to the extent possible, provide the other Party with the opportunity to comment on proposed measures that are designed to prevent trade in fisheries products that result from IUU fishing.

Article 22.13
Sustainable Forest Management and Trade

1. The Parties recognise the importance of conservation and sustainable forest management, including in relation to addressing climate change and reducing biodiversity loss, and the role of trade in pursuing this objective. The Parties acknowledge their role as major consumers, producers, and traders of forest products and the importance of the forest sector to the development and livelihood of communities and indigenous peoples.
2. The Parties recognise the importance of:
 - (a) the sustainable management of forests for providing environmental, economic, and social benefits for present and future generations;
 - (b) halting deforestation and forest degradation, including with respect to trade in commodities related to those activities;
 - (c) trade in forest products harvested from sustainably managed forests and in accordance with the law of the country of harvest; and
 - (d) taking measures that contribute to combatting illegal logging and related trade and to promoting trade in legally harvested forest products.
3. Accordingly, each Party shall take measures to combat illegal logging and related trade.
4. The Parties recognise that some forest products, when sourced from sustainably managed forests and used appropriately, can store carbon and avoid greenhouse gas emissions in other sectors and thus contribute toward achieving global environmental objectives.
5. Each Party shall:
 - (a) cooperate and exchange information, as appropriate, on the implementation of measures that contribute to combatting illegal logging and related trade, including with respect to third countries; and
 - (b) cooperate bilaterally and in multilateral fora, as appropriate, on opportunities to halt deforestation and forest degradation, and the

trade in commodities related to those activities, to reduce biodiversity loss, and to address other sustainable forest management and trade matters.

Article 22.14 Trade and Biodiversity

1. The Parties recognise the importance of conservation and sustainable use of biodiversity, including marine biodiversity, and their key role in achieving sustainable development.
2. Accordingly, each Party shall promote and encourage the conservation and sustainable use of biological diversity, in accordance with its law and policy.
3. The Parties recognise the importance of respecting, preserving, and maintaining knowledge and practices of indigenous and local communities embodying traditional lifestyles that contribute to the conservation and sustainable use of biological diversity.
4. The Parties recognise the importance of facilitating access to genetic resources within their respective domestic jurisdictions, consistent with each Party's international obligations. The Parties further recognise that each Party may require, through domestic measures, prior informed consent to access those genetic resources in accordance with domestic measures and, where such access is granted, the establishment of mutually agreed terms, including with respect to sharing of benefits from the use of those genetic resources, between users and providers.
5. The Parties also recognise the importance of public participation and consultation, in accordance with their respective law and policy, in the development and implementation of measures concerning the conservation and sustainable use of biological diversity. Each Party shall make publicly available information, about its programmes and activities, including cooperative programmes, related to the conservation and sustainable use of biological diversity.
6. Consistent with Article 22.20 (Cooperation Frameworks), the Parties shall cooperate on matters of mutual interest. Cooperation may include exchanging information and experiences in areas related to:
 - (a) the conservation and sustainable use of biodiversity;
 - (b) the protection and maintenance of ecosystems and ecosystem services, including marine ecosystems;
 - (c) access to genetic resources and the sharing of benefits arising from their utilisation;

- (d) embedding biodiversity considerations into policies, strategies, and practices of public and private actors in relevant sectors; and
- (e) safeguarding wild and managed pollinators, and promoting the sustainable use of pollination services.

Article 22.15 Invasive Alien Species

1. The Parties recognise that the movement of terrestrial and aquatic invasive alien species across borders through trade-related pathways can adversely affect the environment, economic activities and development, and plant, animal, and human health. The Parties also recognise that the prevention, surveillance, detection, control, and, when possible, eradication, of invasive alien species are critical strategies for managing those adverse impacts.
2. Accordingly, the Parties shall identify cooperative opportunities to share information and management experiences on the movement, prevention, detection, control, and eradication of invasive alien species, with a view to enhancing efforts to assess and address the risks and adverse impacts of invasive alien species.

Article 22.16 Conservation and Illegal Wildlife Trade

1. The Parties affirm the importance of combating the illegal take²⁰ of, and illegal trade in, wild fauna and flora, and acknowledge that this trade undermines efforts to conserve and sustainably manage those natural resources, has social consequences, distorts legal trade in wild fauna and flora, and reduces the economic and environmental value of these natural resources.
2. Accordingly, the Parties affirm their commitment to implement the *Convention on International Trade in Endangered Species of Wild Fauna and Flora* done at Washington D.C. on 3 March 1973 (“CITES”).²¹
3. The Parties commit to promote conservation and to combat the illegal take of, and illegal trade in, wild fauna and flora. To that end, the Parties shall:
 - (a) exchange information and experiences on issues of mutual interest related to combating the illegal take of, and illegal trade in, wild fauna

²⁰ The term “take” here means captured, killed, or collected and, with respect to a plant, also means harvested, cut, logged or removed.

²¹ For the purposes of this Article, a Party’s CITES obligations include existing and future amendments to which it is a Party and any existing and future reservations, exemptions, and exceptions applicable to it.

and flora, including combating illegal logging and associated illegal trade, and promoting the legal trade in associated products;

- (b) undertake, as appropriate, joint activities on conservation issues of mutual interest, including through relevant regional and international fora; and
 - (c) endeavour to implement, as appropriate, CITES resolutions that aim to protect and conserve species whose survival is threatened by international trade.
4. Each Party further commits to:
- (a) take appropriate measures to protect and conserve wild fauna and flora that it has identified to be at risk within its territory, including measures to conserve the ecological integrity of specially protected natural areas, for example wetlands;
 - (b) maintain or strengthen government capacity and institutional frameworks to promote sustainable forest management and wild fauna and flora conservation, and endeavour to enhance public participation and transparency in these institutional frameworks; and
 - (c) endeavour to develop and strengthen cooperation and consultation with interested non-governmental entities in order to enhance implementation of measures to combat the illegal take of, and illegal trade in, wild fauna and flora.
5. In a further effort to address the illegal take of, and illegal trade in, wild fauna and flora, including parts and products thereof, each Party shall take measures to combat, and cooperate to prevent, the trade of wild fauna and flora that, based on credible evidence²², were taken or traded in violation of that Party's laws and regulations, the primary purpose of which is to conserve, protect, or manage wild fauna or flora. Such measures shall include sanctions, penalties, or other effective measures, including administrative measures, that can act as a deterrent to such trade. In addition, each Party shall endeavour to take measures to combat the trade of wild fauna and flora transhipped through its territory that, based on credible evidence, were illegally taken or traded.
6. The Parties recognise that each Party retains the right to exercise administrative, investigatory, and enforcement discretion in its implementation of paragraph 5, including by taking into account in relation to each situation the strength of the available evidence and the seriousness of the suspected violation. In addition, the Parties recognise that in implementing paragraph 5, each Party retains the right to make decisions

²² For the purposes of this paragraph, each Party retains the right to determine what constitutes "credible evidence".

regarding the allocation of administrative, investigatory, and enforcement resources.

7. In order to promote the widest measure of law enforcement cooperation and information sharing between the Parties to combat the illegal take of, and illegal trade in, wild fauna and flora, the Parties shall endeavour to identify opportunities, consistent with their respective laws and regulations, and in accordance with applicable international agreements, to enhance law enforcement cooperation and information sharing, for example by creating and participating in law enforcement networks.
8. The Parties recognise the importance of continuing efforts to combat the illegal trade in wildlife, including ivory, and the importance of appropriate regulation of domestic wildlife markets worldwide, including markets for ivory and goods containing ivory, that are contributing to poaching or illegal trade. Accordingly, the Parties shall cooperate as appropriate to support non-party efforts to introduce and implement domestic controls on the take and trade in wildlife, and on markets for ivory and goods containing ivory, that are contributing to poaching or illegal trade.

Article 22.17 Corporate Social Responsibility

2. A Party (the requesting Party) may request consultations with the other Party (the responding Party) regarding any matter arising under this Chapter by delivering a written request to the responding Party's contact point. The requesting Party shall include information that is specific and sufficient to enable the responding Party to respond, including identification of the matter at issue and an indication of the legal basis for the request.
3. Before a Party requests consultations under this Article for a matter arising under paragraph 4 or paragraph 6 of Article 22.3 (General Commitments), that Party shall consider whether it maintains environmental laws that are substantially equivalent in scope to the environmental laws that would be the subject of the dispute and shall identify and notify those laws to the responding Party. The Parties shall take this issue into account during the consultations.
4. Unless the Parties agree otherwise, they shall enter into consultations promptly, and no later than 30 days after the date of receipt by the responding Party of the request.

3. If the responding Party makes a notification under subparagraph 2(c) that it is impracticable to comply immediately with the final panel report, it shall have a reasonable period of time to do so.
4. If a reasonable period of time is required, the Parties shall endeavour to agree on the length of the reasonable period of time. If the Parties are unable to agree on the reasonable period of time within 46 days of the date the final panel report is issued to the Parties, a Party may request in writing the chair of the panel to determine the length of the reasonable period of time. Such request shall be made no later than 120 days in all cases, including cases of urgency, after the issuance of the final panel report. The chair shall present the Parties with a decision in writing, together with reasons, no later than 46 days after the request.
5. As a guideline, the reasonable period of time, where determined by the chair of the panel, shall not exceed 15 months in all cases, including cases of urgency, from the date of issuance of the final panel report to the Parties. The length of the reasonable period of time may be extended at any time by mutual agreement of the Parties.

2. A request made pursuant to paragraph 1 may only be made after the earlier of either:
 - (a) the expiry of the reasonable period of time established in accordance with Article 30.14 (Compliance with the Final Report); or
 - (b) a notification by the responding Party, pursuant to paragraph 6 of Article 30.14 (Compliance with the Final Report), that it has complied with the final panel report.

The panel

shall not exceed an additional period of 30 days and in cases of urgency shall make every effort to not exceed 15 days.

The panel shall include a discussion in its final compliance report of any comments made by the Parties on the interim compliance report.

Article 30.16 Temporary Remedies for Non-Compliance

1. Compensation and the suspension of concessions or other obligations are temporary measures available in the event that the responding Party does not comply with the final panel report. However, neither compensation nor the suspension of concessions or other obligations is preferred to full compliance with the final panel report. Compensation is voluntary and, if granted, shall be consistent with this Agreement.
2. The responding Party shall, on request of the complaining Party, enter into negotiations with a view to agreeing on mutually acceptable compensation if:
 - (a) the responding Party fails to provide a notification in accordance with paragraph 2 of Article 30.14 (Compliance with the Final Report);

 - (d) the panel finds, pursuant to Article 30.15 (Compliance Review), that the responding Party has failed to comply with the final panel report.
3. If one of the conditions in paragraph 2 is met and the complaining Party decides not to make a request pursuant to paragraph 2 or the Parties have been unable to agree on compensation within 30 days in all cases, including cases of urgency, of receipt of the request made under paragraph 2, the complaining Party may at any time thereafter notify the responding Party in writing that it intends to suspend the application to the responding Party of concessions or other obligations under this Agreement.

4. A notification made under paragraph 3 shall specify:
 - (a) the level of concessions or other obligations that the complaining Party proposes to suspend;
 - (b) the relevant sector(s) to which the concessions or other obligations relate; and
 - (c) where subparagraph 5(b) applies, the reasons on which the complaining Party's decision to suspend concessions or other obligations in a different sector is based.
5. Subject to paragraph 4 of Article 9.23 (Dispute Settlement – Financial Services), in considering what concessions or other obligations to suspend under paragraph 3, the complaining Party shall apply the following principles:
 - (a) the general principle is that the complaining Party should first seek to suspend concessions or other obligations in the same sector(s) as that in which the panel has found an inconsistency with this Agreement; and
 - (b) if it considers that it is not practicable or effective to suspend concessions or other obligations in the same sector(s) as that in which the panel has found an inconsistency with this Agreement, the complaining Party may suspend concessions or other obligations in other sectors that are subject to dispute settlement in accordance with Article 30.4 (Scope).
6. The level of suspension of concessions or other obligations shall not exceed a level equivalent to the level of nullification or impairment.
7. The complaining Party shall have the right to implement the suspension of concessions or other obligations 30 days after the date of receipt of the complaining Party's notification by the responding Party.
8. The right to suspend concessions or other obligations arising under paragraph 3 shall not be exercised if:
 - (a) a review is being undertaken pursuant to paragraphs 9 and 10; or
 - (b) the Parties have decided, pursuant to a mutually agreed solution reached in accordance with Article 30.20 (Mutually Agreed Solution), that the complaining Party shall not exercise its right to suspend concessions or other obligations pursuant to paragraph 3.

9. If the responding Party:
- (a) objects to the proposed level of suspension of concessions or other obligations on the basis that it exceeds a level equivalent to the level of nullification or impairment;
 - (b) considers that it has complied with the terms and conditions of any compensation agreed pursuant to paragraph 2; or
 - (c) claims that the complaining Party has failed to follow the principles set out in paragraph 5,

it may request in writing, no later than 30 days after receipt of the notification referred to in paragraph 3, the panel to reconvene to make findings on the matter.

10. If a panel is requested to reconvene pursuant to paragraph 9, it shall reconvene within 15 days of receipt of the request. The panel shall present its decision to the Parties no later than 90 days after the receipt of the request. In exceptional cases, if the panel considers that it cannot present its decision within this time period it shall inform the Parties in writing of the reasons for the delay together with an estimate of when it will present its decision. The panel shall not exceed an additional period of 30 days and in cases of urgency shall make every effort to not exceed 15 days.
11. Concessions or other obligations shall not be suspended until the panel has presented its decision. Any suspension of concessions or other obligations shall be consistent with the panel's decision.

Article 30.17

Compliance Review after the Adoption of Temporary Remedies

1. Compensation and the suspension of concessions or other obligations shall be temporary and shall only be applied until such time as the responding Party has complied with the final panel report or the Parties have reached a mutually agreed solution.
2. If the right to suspend concessions or other obligations has been exercised pursuant to paragraph 7 of Article 30.16 (Temporary Remedies for Non-Compliance), or mutually acceptable compensation has been agreed pursuant to paragraph 2 of Article 30.16 (Temporary Remedies for Non-Compliance), and the responding Party considers that it has complied with the final panel report, the responding Party shall notify the complaining Party of the steps it has taken to comply.

5. Paragraphs 4 through 7 of Article 30.15 (Compliance Review) apply if the panel reconvenes pursuant to paragraph 4.
6. If the panel decides that the steps notified in accordance with paragraph 2 achieve compliance with the final panel report, the suspension of concessions or other obligations or the application of the compensation, shall be terminated no later than 30 days after the date of the decision.
7. If the panel decides that the steps notified in accordance with paragraph 2 do not achieve compliance with the final panel report, the suspension of concessions or other obligations, or the application of the compensation, may continue. Where relevant, the level of suspension of concessions or other obligations or of the compensation, shall be adapted in light of the decision of the panel.

4. If the work of the panel is suspended for more than 12 consecutive months, the panel proceedings shall lapse, unless the Parties agree otherwise.
5. The panel shall terminate its proceedings if the Parties request it to do so.
