Subject: S62/22/0000002 Friends' School Site, Saffron Walden proposed development

RE: S62/22/0000002 Friends' School Site proposed development, Mount Pleasant Road, Saffron Walden CB11 3EB

I write as a Saffron Walden resident to voice my strong objection to the above proposed development of the Friends School site.

My reason for objecting is simple and uncomplicated:

It cannot be right morally to allow a development which doesn't respect the wishes of the benefactor George Stacey Gibson who most kindly bequeathed and generously donated this site to the peoples of Saffron Walden *for educational purposes and the benefit of the community*. The proposed development simply does not respect or even closely meet these intentions of George Gibson. Allowing this development to proceed would be entirely in contravention of, and immorally ignore, what George Gibson clearly stated he wished this site to be used for.

That cannot be right.

Thank you for including this submission in your deliberations.

Richard Stark
