### Introductory note

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation of an environmental permit.

This variation introduces a tritium activity concentration limit on waste disposals to the Calder Landfill Extension Segregated Area (CLESA) landfill on the Sellafield site.

The Schedules specify the changes made to the permit. A consolidated environmental permit, reflecting the changes made to the permit, has been issued.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
