Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation of an environmental permit.

This variation introduces improvement requirements on Sellafield Limited, which are targeted at seeking to stop/minimise the current Magnox Swarf Storage Silo (MSSS) Original Building (OB) leak, minimise its associated consequences, and prevent/minimise the potential for below ground leaks at MSSS in the future.

The Schedules specify the changes made to the permit. A consolidated environmental permit, reflecting the changes made to the permit, has been issued.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
