**Strategic Export Controls: Country
Pivot Report**

1st April 2021 - 30th June 2021

July 2022

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st April 2021 and 30th June 2021. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	3593	3526	67	0
- Permanent Standard	2981	2915	66	0
- Temporary Standard	168	168	0	0
- Transshipment	3	3	0	0
- Incorporation	432	431	1	0
- For goods covered by the torture regulation (Permanent or Temporary)	9	9	0	0
SITCLs	53	51	2	0
OIELs	93	86	7	0
- Standard	83	76	7	0
- Dealer-to-dealer	1	1	0	0
- Cryptographic	9	9	0	0
- Media	0	0	0	0
- Continental Shelf	0	0	0	0
Global Project Licences	0	0	0	0
OITCLs	9	7	2	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transshipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st April 2021 to 30th June 2021

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	3373	75	4148	92	12 days
- Permanent Standard	2909	75	3558	92	12 days
- Temporary Standard	147	79	176	95	11 days
- Transshipment	3	60	3	60	18 days
- Incorporation	308	68	402	89	14 days
- For goods covered by the torture regulation (Permanent or Temporary)	6	67	9	100	14 days
SITCLs	24	35	49	72	27 days
OIELs	24	21	58	51	60 days
- Standard	16	16	47	47	64 days
- Dealer-to-dealer	1	100	1	100	20 days
- Cryptographic	7	70	10	100	7 days
- Media	n/a	n/a	n/a	n/a	n/a
- Continental Shelf	0	0	0	0	61 days
Global Project Licences	1	100	1	100	3 days
OITCLs	2	15	4	31	129 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£382,500
Non-military	1	£1,030,961
Total	3	£1,413,461

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£375,000
ML13	1	£7,500

Rv military guidance/navigation equipment.
military helmets.

Rv - Some or all of which have subsequently been revoked.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,030,961

information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1 (Rv)	P	airborne refuelling equipment, aircraft military communications equipment, aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for military aero-engines, components for military support aircraft, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of military radars, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew safety equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, recognition/identification equipment, sensor integration equipment, signature suppression fittings/coatings/treatments for military use, targeting equipment [See footnotes 1, 9]
2	P	body armour, components for body armour, military helmets [See footnote 7]

Rv - Some or all of which have subsequently been revoked.

- Rv promoting the supply of small arms ammunition [See footnotes 6, 8].
- Rv small arms ammunition [See footnotes 10, 2].

Rv - Some or all of which have subsequently been revoked.

Country Footnotes

1. The Afghanistan (Sanctions) (EU Exit) Regulations 2020, which fully came into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2255 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to the trade in military goods and military technology, which is to, or for the benefit of a designated person as well as the provision to, or for the benefit of a designated person of certain services which enable or facilitate the conduct of armed hostilities in Afghanistan. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

OIELs (excluding Other OIELs)

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for small arms ammunition, equipment for the production of small arms ammunition

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	28	£4,561,724
Non-military	18	£667,857
Both Military and Non-military	2	£95,717
Total	48	£5,325,297

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£4,044,981
ML3	2	£136,408
ML4	3	£103,465
ML7	3	£22,205
ML9	3	£239,235
ML10	1	£6,453
ML14	1	£5,177
ML21	3	£850
ML22	4	£2,950

- T accessories for small arms training equipment.
command communications control and intelligence software.
components for launching/handling/control equipment for missiles (2 licences).
components for pistols.
components for rifles (1).
- T components for small arms training equipment.
components for sniper rifles.
components for sporting guns (3 licences).
components for submarines.
general naval vessel components (2 licences).
gun silencers.
launching/handling/control equipment for missiles.
military aircraft ground equipment.
NBC protective/defensive equipment (3 licences).
small arms ammunition.
- T small arms training equipment.
sniper rifles (2).
software for modelling/simulating military operation scenarios.
software for software for military combat vehicles.
sporting guns (1) (3 licences).
sporting guns (60).
technology for command communications control and intelligence software.
technology for launching/handling/control equipment for missiles.
technology for sniper rifles.
technology for software for software for military combat vehicles.
training artillery ammunition.
weapon night sights (2 licences).
weapon sights.

Non-military

Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	5	£1,159,694
Non-military	1	£27,208
Total	6	£1,186,902

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	4	£905,694
ML11	1	£170,000
ML21	1	£20,800
ML22	1	£63,200

components for military electronic equipment.
components for military sonars (2 licences).
components for targeting equipment (2 licences).
technology for military sonars (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£26,744
5D002	1	£0
5E002	1	£464

information security equipment.
software for information security equipment.
technology for information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

France
Nigeria
Norway
South Korea
United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military helicopters, equipment for the production of military helicopters, military aircraft ground equipment, technology for equipment for the production of military helicopters, technology for military aircraft ground equipment, technology for military helicopters
2	P	assault rifles, components for assault rifles, components for machine guns, components for military shotguns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, gun silencers, machine guns, military shotguns, pistols, rifles, sniper rifles, sporting guns, weapon night sights, weapon sights
3	P	materials containing enriched uranium, materials containing natural uranium
4	P	software for nuclear reactors, technology for enriched uranium, technology for materials containing enriched uranium, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for products containing enriched uranium, technology for software for nuclear reactors
5	T	towed hydrophone arrays [See footnote 1]
6	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
7	P	components for equipment for the use of NBC detection equipment, components for NBC detection equipment, equipment for the use of NBC detection equipment, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for NBC detection equipment, technology for software for equipment for the use of NBC detection equipment
8	P	barbiturate anaesthetic agents for injection [See footnote 2]

Case & goods Footnotes

1. Licence granted for commercial end use.
2. This application is being approved for barbiturate anaesthetic agents for injection that are specifically for use by private practice veterinarians. The goods will not be exported to States that administer lethal injection.

promoting the supply of military support aircraft.

Country Footnotes

1. The Central African Republic (Sanctions) (EU Exit) Regulations 2020, which came fully into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2127 (2013). The Regulations impose trade sanctions prohibitions and requirements which apply to military goods and technology as well as the provision of certain services which enable or facilitate the conduct of armed hostilities in the Central African Republic. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for personal protective equipment. Humanitarian / international organisation end use.

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£3,002

Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£3,002

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIV	1	£3,002

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment, technology for semiconductor manufacturing equipment
2	P	information security software, software for information security equipment, technology for information security equipment, technology for information security software
3	P	information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 2]
4	P	information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 3]
5	P	military auxiliary/support vessels
6	P	information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 4]

Rejected

Applications to this destination refused in full.

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for disaster / emergency response purposes. Public Services (Government) end use.
2. Licence granted for commercial end use.
3. Licence granted for secure information storage, transmission and communication, network / cyber defence and system security. Commercial end use.
4. Licence granted for commercial end use.

Country Footnotes

1. The Democratic Republic of the Congo (Sanctions) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020 impose trade sanctions prohibitions and requirements which apply to military goods and technology, as well as the provision of certain services which enable, or facilitate the conduct of armed hostilities in the Democratic Republic of Congo. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£61,260
Non-military	1	£56,000
Total	3	£117,260

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£3,300
ML13	1	£57,960

body armour [See footnote 1].
 components for body armour [See footnote 1].
 military helmets [See footnote 1].
 military support vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£20,000
6A006	1	£36,000

T magnetometers.
 T marine position fixing equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	towed hydrophone arrays

Case & goods Footnotes

1. Licence granted for training purposes.

Country Footnotes

- Following its meeting in Madrid of 26 and 27 June 1989, the European Council agreed a Declaration that it was necessary for Member States to adopt an arms embargo on China. The embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. Since 2000 the UK has applied this embargo to Macao and since July 2020 it has been applied to Hong Kong.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

- Licence granted for explosive detection / disposal purposes. Commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£44,058
Non-military	4	£533,210
Both Military and Non-military	3	£16,642
Total	10	£593,910

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£15,237
ML3	1	£28,821

components for machine guns.
machine guns (8).
pistols (4).
rifles (4).
small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C231	1	£1,100
6A001	1	£34,225
7A103	1	£37,885
9A104	1	£460,000

hafnium.
inertial equipment.
marine position fixing equipment.
T sounding rockets.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
FR AI	3	£1,377
ML1	3	£14,387
ML3	1	£879

components for assault rifles.
components for machine guns (2 licences).
components for pistols (2 licences).
components for rifles.
pistols (3).
pistols (50).
pistols (52).
rifles (1).
small arms ammunition.

sporting guns (5) (2 licences).

Country Footnotes

1. Following the implementation of the Joint Comprehensive Plan of Action and UN Security Council Resolution 2231 (2015), the flow of certain goods and services to Iran that were previously prohibited are now permitted. However, some restrictions remain in place. The Iran (Sanctions) (Nuclear) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements which apply to military goods and technology, missile-related goods and technology, nuclear-related goods and technology, graphite and relevant metals, and enterprise resource planning software, and other restricted goods and technology. They also impose prohibitions on entering into arrangements relating to uranium mining or to certain restricted goods and technology such as missile-related goods. In addition, they impose prohibitions on providing services in relation to certain ships and aircraft, where they are carrying relevant restricted items. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

2. The Iran (Sanctions) (Human Rights) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirement, which apply to goods and technology, which may be used for internal repression and monitoring and interception goods and technology. It also imposes trade prohibitions in respect of the provision of interception and monitoring services to, or for the benefit of, the Government of Iran. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£1,500,635
Non-military	23	£1,057,044
Total	28	£2,557,678

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,205
ML2	1	£19,450
ML6	1	£395
ML7	1	£1,419,585
ML11	1	£60,000

T

- components for naval guns.
- components for NBC detection equipment.
- components for sniper rifles.
- components for sporting guns.
- electronic warfare equipment.
- general military vehicle components.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£187,500
0D001	5	£260,000
0E001	4	£160,000
1C011	1	£16
1C233	3	£7,011
1C351	1	£198
2B351	3	£2,505
3A001	1	£395
3A228	1	£2,600
5A002	1	£3,700
5D002	1	£0
6A001	2	£9,824
6A005	1	£118,696
6A006	1	£4,752
9A004	1	£23,414
FR AI	2	£276,433

components for nuclear reactors.
 components for sporting shotguns.
 constituents of propellants.
 electronic components.
 fast switching modules.
 hydrophones (2 licences).
 information security equipment.
 lasers.
 magnetometers.
 products containing enriched lithium (2 licences).
 products containing enriched lithium manufactures.
 small arms ammunition.
 software for information security equipment.
 software for nuclear reactor fuel element fabrication equipment.
 software for nuclear reactors (5 licences).
 spacecraft attitude and orbit control systems.
 sporting shotguns (1).
 technology for enriched uranium.
 technology for nuclear reactor fuel element fabrication equipment.
 technology for nuclear reactors (4 licences).
 technology for software for nuclear reactor fuel element fabrication equipment.
 technology for software for nuclear reactors (3 licences).
 toxic gas detectors.
 toxic gas monitoring equipment (2 licences).
 toxins.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£188,676
Total	2	£188,676

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A006	2	£188,676

magnetometers (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

France
Germany
India
Taiwan
United Kingdom
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military helicopters, equipment for the production of military helicopters, military aircraft ground equipment, technology for equipment for the production of military helicopters, technology for military aircraft ground equipment, technology for military helicopters
2	P	materials containing enriched uranium, materials containing natural uranium
3	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment

Non-military	8	£83,650
Total	10	£1,190,511

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML7	1	£6,861
ML11	1	£1,100,000

components for NBC detection equipment.
military guidance/navigation equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£73,097
1C230	1	£1
1C351	4	£4
5A002	2	£10,549

beryllium.
civil explosive detection/identification equipment.
information security equipment (2 licences).
toxins (4 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£565,350
Non-military	18	£635,908
Total	21	£1,201,258

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£560,000
ML6	1	£850
ML13	1	£4,500
ML22	1	£0

artillery [See footnote 1].
 body armour [See footnote 2].
 components for artillery [See footnote 1].
 components for body armour [See footnote 2].
 components for naval guns [See footnote 1].
 components for weapon mountings [See footnote 1].
 military helmets [See footnote 2].
 military trailers.
 naval guns [See footnote 1].
 technology for artillery [See footnote 1].
 technology for gun mountings [See footnote 1].
 technology for naval guns [See footnote 1].
 weapon mountings [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£7,940
5A002	10	£330,461
5D002	2	£3
6A001	1	£40,000
6A003	1	£119,504
6A006	1	£72,000
7A003	1	£8,000

7A103	2	£58,000
-------	---	---------

- T corrosion resistant chemical manufacturing equipment (2 licences).
 T imaging cameras [See footnote 5].
 inertial equipment (3 licences).
 information security equipment (10 licences).
 information security software.
 T magnetometers.
 T marine position fixing equipment.
 software for information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military helicopters, equipment for the production of military helicopters, military aircraft ground equipment, technology for equipment for the production of military helicopters, technology for military aircraft ground equipment, technology for military helicopters
2	P	components for combat aircraft, components for military support aircraft, components for military training aircraft, general military aircraft components
3	T	towed hydrophone arrays [See footnote 4]

SITCLs

Source	Issued	Refused	Revoked
Turkey	2	0	0

Issued

- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 3].
 promoting the supply of body armour.
 promoting the supply of components for body armour.
 promoting the supply of military helmets.

Case & goods Footnotes

- Licence granted for Military (Navy) end user.
- Licence granted for personal protective equipment. Commercial end use.
- Licence granted for a diplomatic mission.
- Licence granted for commercial end use.
- Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.

Country Footnotes

1. The Russia (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements, which apply to military goods and technology, dual use goods and technology and energy-related goods. It also imposes a prohibition on the provision of military-related services, as well as other prohibitions on the import of goods from Crimea or Sevastopol, the export of goods related to infrastructure to, or for use in, Crimea or Sevastopol, and the provision of services related to infrastructure and tourism. There are also measures that curtail Russian access to certain specified energy-related equipment and services.

The Regulations makes provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for commercial end use.
2. Licence granted for leisure / hunting / sporting purposes, including use by athletes in training and competition. Commercial end use.
3. Licence granted for goods which will be returned to the UK. Commercial end use.

1	P	technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation

Country Footnotes

1. The United Nations embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

Singapore

Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	78% (68)

% and number of OIELs completed in 60 working days	29% (2)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	29	£5,773,293
Non-military	35	£66,707,252
Both Military and Non-military	2	£1,591,819
Total	66	£74,072,364

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£230,040
ML4	3	£668,843
ML5	2	£566,350
ML6	5	£40,084
ML7	4	£96,536
ML9	4	£17,381
ML10	5	£246,895
ML11	1	£1,600
ML13	2	£8,845
ML15	2	£895,600
ML17	1	£10
ML19	1	£3,000,000
PL5001	1	£1,108

- anti-riot/ballistic shields.
- body armour (2 licences).
- components for airborne refuelling equipment.
- components for body armour.
- components for combat aircraft (2 licences).
- components for combat naval vessels.
- components for electronic warfare equipment.
- components for military combat vehicles (4 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military radars.
- components for NBC detection equipment (3 licences).
- components for NBC protective/defensive equipment.
- components for submarines (2 licences).
- explosive charges/devices.
- general military aircraft components.
- general naval vessel components.
- goods treated for signature suppression for military use.
- ground vehicle military communications equipment.
- T high power RF weapon systems.
- inert explosive charges/devices.
- military aircrew safety equipment.
- military equipment for initiating explosives.
- military helmets.
- T military image intensifier equipment (2 licences) [See footnotes 2, 4].
- T military infrared/thermal imaging equipment (2 licences) [See footnotes 2, 4].
- NBC protective/defensive equipment.

T rangefinding equipment [See footnote 4].
T weapon night sights (2 licences) [See footnotes 2, 4].
T weapon sights (2 licences) [See footnotes 2, 4].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A003	1	£125,000

aromatic polyimide sheets.
civil explosive detection/identification equipment (3 licences).
civil NBC protection equipment.
components for corrosion resistant chemical manufacturing equipment.
corrosion resistant chemical manufacturing equipment.
fibrous/filamentary materials (2 licences).
frequency changers (2 licences).
imaging cameras.
inertial equipment.
information security equipment (7 licences).
T information security equipment.
information security software.
instrumentation cameras.
lasers.
metal alloy materials.
nickel powders.
pressure transducers.
small arms ammunition.
software for information security equipment (2 licences).
submersible equipment (4 licences).
T submersible equipment.
T submersible vehicles.
technology for information security equipment (2 licences).
technology for metal alloy materials.
technology for metal alloys in powder form.
telecommunications interception equipment [See footnote 1].
toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£507,410
5D002	1	£0
6A002	1	£92,572
ML1	1	£44,032
ML11	1	£947,806
ML21	1	£0

- T components for military communications equipment.
direct view imaging equipment.
information security equipment.
military communications equipment.
software for information security equipment.
software for military communications equipment.
- T weapon night sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£1,391,066
Non-military	2	£25,665
Total	5	£1,416,731

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£9,314
ML6	1	£6,985
ML10	1	£1,374,767

- components for airborne refuelling equipment.
components for military combat vehicles.
components for military support vehicles.
components for rangefinding equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£25,665

- corrosion resistant chemical manufacturing equipment (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil

United Kingdom
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment, technology for semiconductor manufacturing equipment
2	T	information security equipment, software for information security equipment, technology for information security equipment, technology for software for information security equipment [See footnote 3]
3	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, military helmets
4	P	components for weapon sights, technology for weapon sights, weapon sights
5	P	components for equipment for the use of NBC detection equipment, components for NBC detection equipment, equipment for the use of NBC detection equipment, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for NBC detection equipment, technology for software for equipment for the use of NBC detection equipment
6	T	towed hydrophone arrays
7	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment

Case & goods Footnotes

1. Licence granted for research and development purposes, including academic and medical. Commercial end use.
2. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
3. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
4. Licence granted for testing and evaluation by the potential end user.

Country Footnotes

1. The Somalia (Sanctions) (EU Exit) Regulations 2020 which came fully into force on 31 December 2020, implement UK obligations under United Nations Security Council Resolution 2551 (2020). The Regulations impose trade sanctions prohibitions and requirements, which apply to military goods and technology and improvised explosive device components. It also imposes prohibitions on the import of charcoal from Somalia and the provision of certain services that enable or facilitate the conduct of armed hostilities in Somalia. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for explosive detection / disposal purposes. Humanitarian / international organisation end use.
2. Licence granted for personal protective equipment. Humanitarian / international organisation end use.
3. Licence granted for humanitarian / international organisation / media end use.
4. Licence granted for personal protective equipment. Humanitarian / international organisation end use.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£514,216
Non-military	1	£876,505
Total	4	£1,390,721

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£480,000
ML16	1	£34,216

components for military training aircraft (2 licences).
unfinished products for military aero-engines.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
8A002	1	£876,504
8E002	1	£1

power generation systems for marine vessels.
technology for power generation systems for marine vessels.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Greece
Indonesia
Philippines
United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for semiconductor manufacturing equipment, components for semiconductor manufacturing equipment, equipment for the use of semiconductor manufacturing equipment, software for semiconductor manufacturing equipment, technology for semiconductor manufacturing equipment
2	T	information security equipment, software for information security equipment, technology for information security equipment, technology for software for information security equipment [See footnote 2]
3	P	military auxiliary/support vessels, military electronic equipment, military underwater remotely operated vehicles, naval communications equipment, naval electrical/electronic equipment, technology for military auxiliary/support vessels, technology for military electronic equipment, technology for military underwater remotely operated vehicles, technology for naval communications equipment, technology for naval electrical/electronic equipment

Case & goods Footnotes

1. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
2. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£298
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£298

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIV	1	£298

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	assault rifles, components for assault rifles, components for machine guns, components for military shotguns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, gun silencers, machine guns, military shotguns, pistols, rifles, sniper rifles, sporting guns, weapon night sights, weapon sights
2	P	components for launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, technology for launching/handling/control equipment for missiles
3	P	components for weapon sights, technology for weapon sights, weapon sights
4	P	components for smooth-bore weapons, components for sporting guns, components for sporting shotguns, smooth-bore weapons, sporting guns, sporting shotguns

Switzerland

Processing Statistics (excluding amendments)

bomb suits.
components for bomb suits.
military helmets.

Country Footnotes

1. The Syria (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements which apply to goods and technology related to chemical and biological weapons, and goods and technology which might be used for internal repression, and interception and monitoring goods and technology. They also impose prohibitions on the provision of interception and monitoring services, to or for the benefit of the Syrian regime. They also impose prohibitions on the import, purchase and transportation of military goods and technology, crude oil and petroleum products from Syria and on the transfer of military technology. Luxury goods and other items listed in Schedule 2 of the Regulation are also subject to trade prohibitions.

The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£1,085
Total	1	£1,085

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
7A103	1	£1,085

inertial equipment [See footnote 2].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Republic of Moldova

SITCLs

Source	Issued	Refused	Revoked
Belarus	0	1	0
France	1	0	0
Malaysia	1	0	0

Issued

promoting the supply of components for bombs.
promoting the supply of components for munitions/ordnance detection/disposal equipment.
promoting the supply of munitions/ordnance detection/disposal equipment.

Refused

weapon night sights.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
7	1

OITCLs

Source	Issued	Refused	Revoked
United States of America	1	0	0

Issued

promoting the supply of anti-armour weapons [See footnote 6].
promoting the supply of anti-riot guns [See footnote 6].
promoting the supply of assault rifles [See footnote 6].
promoting the supply of grenade launchers [See footnote 6].
promoting the supply of machine guns [See footnote 6].
promoting the supply of military scenario simulation equipment [See footnote 6].
promoting the supply of military shotguns [See footnote 6].
promoting the supply of mortars [See footnote 6].
promoting the supply of pistols [See footnote 6].
promoting the supply of small arms training equipment [See footnote 6].
promoting the supply of software for military scenario simulation equipment [See footnote 6].
promoting the supply of tactical shotguns [See footnote 6].

Case & goods Footnotes

1. Licence granted for marketing and promotional purposes, including demonstration to potential customers, temporary exhibitions.
2. Licence granted for commercial end use.
3. Licence granted for leisure / hunting / sporting purposes, including use by athletes in training and competition.
4. Licence granted for testing and evaluation by the potential end user.
5. Licence granted for testing and evaluation by the potential end user.
6. Software and associated components for training purposes.
7. Licence granted for personal end use.
8. Licence granted for personal end use.
9. Licence granted for personal end use.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£16,611,062
Non-military	1	£58,069
Total	2	£16,669,131

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£16,611,062

components for surface-to-surface missiles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	1	£58,069

components for nuclear reactors.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 1]
2	P	assault rifles, components for assault rifles, components for machine guns, components for military shotguns, components for pistols, components for rifles, components for sniper rifles, components for sporting guns, gun silencers, machine guns, military shotguns, pistols, rifles, sniper rifles, sporting guns, weapon night sights, weapon sights
3	P	materials containing enriched uranium, materials containing natural uranium
4	P	components for combat aircraft, components for military training aircraft, general military aircraft components

5	P	components for electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment
6	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 2]
7 (Rv)	P	airborne refuelling equipment, aircraft military communications equipment, aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for military aero-engines, components for military support aircraft, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of military radars, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew safety equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, recognition/identification equipment, sensor integration equipment, signature suppression fittings/coatings/treatments for military use, targeting equipment [See footnotes 3, 6]
8	P	components for weapon sights, technology for weapon sights, weapon sights
9	T	civil explosive detection/identification equipment
10	P	software for nuclear reactors, technology for enriched uranium, technology for materials containing enriched uranium, technology for nuclear reactor fuel element fabrication equipment, technology for nuclear reactors, technology for products containing enriched uranium, technology for software for nuclear reactors
11	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 4]
12	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment [See footnote 5]
13	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for NBC protective/defensive equipment
14	P	technology for mass spectrometers, technology for rotor assembly equipment, technology for rotor fabrication equipment, technology for software for uranium conversion equipment, technology for software for uranium isotope separation equipment, technology for uranium conversion equipment, technology for uranium isotope separation equipment
15	P	components for equipment for the use of NBC detection equipment, components for NBC detection equipment, equipment for the use of NBC detection equipment, NBC detection equipment, software for NBC detection equipment, technology for equipment for the use of NBC detection equipment, technology for NBC detection equipment, technology for software for equipment for the use of NBC detection equipment
16	T	towed hydrophone arrays

Rv - Some or all of which have subsequently been revoked.

Rejected

Applications to this destination refused in full.

No.	Type	Goods Summary
1	P	information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software, technology for software for information security equipment

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	body armour, components for body armour, military helmets [See footnote 1]

Country Footnotes

1. The Yemen (Sanctions) (EU Exit) (No. 2) Regulations 2020 which came into force on 31 December 2020 implement UK obligations under United Nations Security Council Resolutions 2140 (2014) and 2216 (2015). The Regulations impose trade sanctions prohibitions and requirements which apply to military goods and technology, including targeted trade sanctions prohibitions where the trade is to, or benefits, a designated person. There are also prohibitions on the provision of certain services which enable or facilitate the conduct of armed hostilities in Yemen. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for humanitarian / international organisation / media end use.

Zambia

Processing Statistics (excluding amendments)

Median processing time SIELs	21 days
% and number of SIELs completed in 20 working days	44% (4)
% and number of SIELs completed in 60 working days	100% (9)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	5	£92,897
Both Military and Non-military	1	£828,930
Total	6	£921,827

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
