

## **Energy Trends table of tables**

Data in monthly tables is published on an M-2 basis, e.g. data for December is published at the end of February. JODI and solar pv deployment tables are an exception and are published on an M-1 basis. Quarterly tables are published on a Q-1 basis, e.g. data for the fourth quarter of the calendar year (October to December) is published at the end of March.

Monthly and JODI tables are published on the final Thursday of the month, quarterly tables are published on the final Thursday of March, June, September and December (publication dates in December are subject to alteration due to the Christmas and New Year holiday period). Further information on Energy Trends tables publication dates is available in our [statistics release calendar](#).
