Summary

This framework has been produced to support schools in England to identify the strengths and areas for improvement in their remote education provision, and to signpost them to resources that can help them improve their practice.

Who this publication is for

This guidance is for multi-academy trust (MAT) leaders, school leaders and governors in England.

Aims of the framework

This framework aims to help MAT leaders, school leaders and governors in England to:

- identify the strengths and areas for improvement in their school or trust's remote education provision
- find resources (including training), guidance and networks to help them improve their provision

Framework purpose

Where pupils need to self-isolate, or there are national or local restrictions in place requiring pupils to remain at home, DfE expects schools to be able to immediately provide them with access to remote education. Full expectations for remote education provision, including on delivering remote education safely, are set out in the <u>Statutory</u> <u>obligations and expectations - Get Help with Remote Education - GOV.UK.</u> Whilst the context and challenges will differ for each school, many elements of effective safe practice in remote education will be relevant to all schools.

This framework is not intended as a compliance or accountability tool. It is not statutory, and you can adapt it to fit your school context.

The framework differs from the <u>remote education template</u>, which is a high-level summary of remote education provision for parents, carers and pupils. The review framework is for internal school/trust use and to support detailed discussions with staff and governors in schools on appropriate next steps.

Using the framework

You can work through the entire framework to identify strengths and areas for improvement in remote education with your senior leadership team (taking approximately 1 hour to complete as a group) or focus on specific sections that have been previously identified as priorities.

The framework will help you to have conversations with all stakeholders within the school community (for example, staff, governors, parents) about your school's remote education provision.

The framework can help you meet basic requirements using the resources and tools you currently have (digital or physical), and to take your remote education provision further. School leaders should allocate a score to each statement where possible, identify strengths and areas for improvement, and discuss next steps with members of the senior leadership team (SLT) and governors. The framework offers suggested actions and links to relevant support depending on scores and any gaps identified.

You can use the framework more than once to adopt practical steps and move from the "identifying" stage to the "sustaining" stage, to embed a sustainable strategy for remote education.

Scoring

The scoring below provides a structure to identify the school's current position in relation to its remote education practice across the 6 categories within the framework. Assessing each category in this way will help school leaders identify areas of strength and those needing further work.

1. Identify	2. Develop and plan	3. Implement	4. Embed	5. Sustain
Not yet in place or there are major gaps.	Identified gaps but a plan is being developed to address them.	In the process of implementing systems and practices to address this.		Practices and systems are fully embedded, and there are examples of best practice.

Framework

Leadership

School leaders have a clear vision and approach for remote education, and maintain awareness of any issues or barriers related to effective delivery.

Scoring

1. Identify	2. Develop and plan	3. Implement	4. Embed	5. Sustain
	Identified gaps but a plan is being developed to address them.	In the process of implementing systems and practices to address this.	Practices and systems are in place with minor gaps.	Practices and systems are fully embedded, and there are examples of best practice.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Approach Remote education plan There is a plan in place for remote education and a senior leader with overarching responsibility for the quality and delivery of remote education, including that provision meets expectations for remote education.	Strengths	Gaps		
The plan is underpinned by high expectations to provide the quality delivery of a planned curriculum for all (including vulnerable children and children with SEND), which is aligned as close as possible to the in-school curriculum.				remote education. GOV.UK has brought together <u>school-led webinars</u> to share best practice in setting up remote education. For guidance on how to remain cyber-secure, please refer to <u>Cyber security in</u> <u>schools: questions for</u> <u>governors and trustees</u> . Read the guidance on <u>actions</u> <u>for schools during the</u> <u>coronavirus outbreak</u> and <u>refer to Oak National</u> <u>Academy</u> for help to deliver a planned curriculum for all.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Communication Governors, staff, parents and carers are aware of the school's approach and arrangements for remote education.				Ensure governors, staff, parents and carers are aware of the school's remote education provision by maintaining regular communication and providing updates on any changes to the provision. GOV.UK provides guidance to support schools to <u>publish</u>
		\mathbf{O}		information about their remote education provision on their websites for parents.
				The Education Endowment Foundation has provided a <u>guide for schools</u> on how to communicate with parents during coronavirus (COVID- 19).
Monitoring and evaluating				GOV.UK provides the following guidance:
The school has systems in place to monitor the impact of remote education. This includes:			7	recording attendance in relation to coronavirus (COVID-19) during the 2021 to 2022 academic year

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
understanding the impact on staff workload and how to mitigate against it				actions for schools during the coronavirus outbreak remote education good
staffing changes				practice
having access to appropriate management information (such as staff and pupil sickness and absence data) to help the school respond to changing contexts				

Remote education context and pupil engagement

The school understands the remote education context of pupils, and plans its provision to ensure pupils can remain engaged in education. 1,

are major dans	is being developed to	In the process of implementing systems and practices to address this.	Practices and systems are in place with minor gaps.	Practices and systems are fully embedded, and there are examples of best practice.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Home environment The school is aware of the learning environment in the home and works with parents and families to understand and ensure that pupils will be able to access education at home. The school supports pupils on how to self- regulate during remote education, including: understanding their strengths and weaknesses to improve their learning how to learn from home how to manage their time during periods of isolation				 Where pupils might lack digital access to support the school's remote education provision, schools should refer to the <u>get help with</u> technology during coronavirus (COVID-19) guidance for support on providing pupils with laptops, tablets and internet. The Education Endowment Foundation provides a <u>metacognition</u> and self-regulation toolkit on how schools can support pupils to plan, monitor, and evaluate specific aspects of their learning.
Laptops, tablets and internet access				Where technology is used to support remote education, the EdTech Demonstrator Programme offers

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Where digital approaches are used, leaders are aware of any limitations to access to the internet, and suitable devices,				resources on how to set up a virtual classroom and how to embed technology into teaching practice.
for pupils which impact on remote education provision. Leaders have made suitable alternative arrangements to minimise the impact of these limitations, either by providing pupils with devices and/or internet access or ensuring appropriate offline provision.				Where pupils might lack digital access, schools should refer to the <u>get</u> <u>help with technology</u> <u>during coronavirus</u> (COVID-19) guidance for support on providing pupils with laptops, tablets and internet. The <u>Sandringham</u> <u>Sustaining Digital and</u> <u>Remote Education</u> toolkit provides training on recognising and overcoming barriers to
				learning from technology.
Supporting children with additional needs				The EdTech Demonstrator Programme has made <u>a</u> <u>range of SEND</u>

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Children and young people with high needs, including disadvantaged pupils, SEND and vulnerable pupils, have the right structures and	2			resources available for schools and colleges, including webinars on how to support pupils with SEND.
provision in place to help remote education. This includes guidance for parents and carers on how to effectively support remote education, and ensuring pupils have access to the right hardware and software to support their needs.				The guidance on <u>Statutory obligations</u> <u>and expectations - Get</u> <u>Help with Remote</u> <u>Education - GOV.UK</u> provides guidance on how schools should support <u>pupils with</u> <u>SEND and vulnerable</u> <u>children.</u>
				Oak National Academy provides resources for teachers to support children with additional needs.
				The <u>Sandringham</u> <u>Sustaining Digital and</u> <u>Remote Education</u> toolkit provides training remote approaches that

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
	1			best support different types of learner needs.
Monitoring engagement The school has systems for checking daily whether pupils are engaging with their work, and informs parents and carers immediately where engagement is a concern.				Advice on how schools should monitor engagement is highlighted in the remote education expectations guidance. EdTech Demonstrator networks have produced a range of webinars and tutorials, including <u>sharing advice</u> and top tips on ways to monitor and evaluate progress. <u>The Sandringham</u> <u>College Sustaining</u> <u>Digital and Remote</u> <u>Education toolkit</u> provides training on helping students understand what they need to progress.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Pupil digital skills and literacy The school supports pupils where necessary to use technology effectively for remote education, including assistive technologies for pupils with SEND.				Where technology is used to support the school's remote education provision, schools should consider providing practical support and guidance to pupils on how to use the technology.

Curriculum planning and delivery

The school has well-sequenced curricula that support 'hybrid' teaching, where some children are taught in class (such as vulnerable children and children of critical workers) and others at home, and has the relevant resources in place to deliver the curriculum remotely.

1. Identify	2. Develop and plan	3. Implement	4. Embed	5. Sustain
Not yet in place or there are major gaps.		In the process of implementing systems and practices to address this.	Practices and systems are in place with minor gaps.	Practices and systems are fully embedded, and there are examples of best practice.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Minimum provision School sets work that is of equivalent length to the core teaching pupils would receive in school in an appropriate range of subjects, and as a minimum: Key stage 1: 3 hours a day, on average, across the school cohort, with less for younger children				Remote education expectations are highlighted in <u>Statutory obligations and</u> <u>expectations - Get Help with</u> <u>Remote Education - GOV.UK</u> GOV.UK has brought together <u>school-led webinars</u> to share best practice in setting up remote education.
Key stage 2: 4 hours a day Key stages 3 and 4: 5 hours a day				
Curriculum planning The school has well- sequenced curricula in place to provide high quality on-site and remote education, and has the relevant resources in place to deliver the curriculum to pupils both remotely and in-class simultaneously, where needed. Capacity and capability

Schools support staff to deliver high-quality remote education.

	1. Identify	2. Develop and plan	3. Implement	4. Embed	5. Sustain
	Not yet in place or there are major gaps.	Identified gaps but a plan	In the process of implementing systems and practices to address this.	Practices and systems	Practices and systems are fully embedded, and there are examples of best practice.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Approach Effective practice Senior leaders are aware of all the guidance and ensure wider teaching/school staff are aware of (and how to access) resources available to support remote teaching.	Strengths	Gaps	•	
				The Sandringham College Sustaining Digital and Remote Education toolkit provides training for school leaders to develop research informed remote education practices.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
Staff capability Staff have access to the digital resources and tools (for example, textbooks, workbooks, platforms, devices and internet) they need to teach and support pupils remotely. Where used, staff have the appropriate training and support to use digital tools and resources, including how to ensure they are accessible for pupils with SEND. Where possible, the training provided is sustained and iterative to ensure staff continue to support effective teaching practice remotely.				The EdTech Demonstrator Programme provides advice, guidance and practical support for teachers on how to deliver good remote education. This includes guidance on how to use online platforms and resources, including for children with SEND. RNIB Bookshare, which was established through DfE's pilot load2learn, is providing on-demand access to over 350,000 accessible digital books for schools, colleges and universities, free for any student with dyslexia or visual impairment. pdnet provides free training events for teachers and professionals on augmentative and alternative communication technology to support pupils with SEND.

Approach	Strengths	Gaps	Score (1 to 5)	Potential actions and resources if score is 1 or 2
				Remote Education toolkit provides training on research informed digital curriculum delivery.
Strategic partnerships The school is sharing best practice and making best use of capacity across schools to				There are several school-to- school support networks which you can make use of, including:
address any known gaps, including via established school-to-school support networks like the <u>EdTech</u> <u>Demonstrator Programme</u> and curriculum hubs.
