Section 1 – Applications Received

Inspection of licence applications can be requested under the provisions of Regulation 9 of the Goods Vehicles (Licensing of Operators) Regulations 1995 by anybody who holds statutory objector status. Applications may be inspected free of charge at the Office of the Traffic Commissioner in Leeds by any person who carries written authorisation to act in that capacity.

Objections against published applications may be made in writing by a Chief Officer of Police, a local authority, a planning authority or a prescribed trade union or association within 21 days of the date on which notice of an application is published in Applications and Decisions. Objections must be made either on the grounds that any of the requirements listed in Section 13 of the Goods Vehicles (Licensing of Operators) Act 1995 are not met and/or that a nominated operating centre will be unsuitable for use as such. A copy of the objection must be sent by the objector to the applicant at the same time that it is sent to the Traffic Commissioner. The onus of proof in terms of the grounds on which an objection is lodged lies with the objector.

You may fax a copy of your objection to 0113 2488521 but please note that you must send the original signed document through the post.

Classification of Operator Licences – There are three classes of licence:

- A **Restricted (R)** licence authorises the use of a goods vehicle on public roads in Great Britain for the carriage of the licence holder's own goods in the course of his trade or business. The licence holder cannot carry goods for other people for hire or reward;
- A **Standard National (SN)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward, on public roads in Great Britain. He can also carry his own goods on journeys abroad;
- A **Standard International (SI)** licence allows the licence holder to carry both his own goods and goods for other people for hire or reward. These activities can be undertaken both in Great Britain and on international journeys.

Section 3 – Schedule 4 Applications

Schedule 4 to the Goods Vehicles (Licensing of Operators) Act 1995 allows, in certain situations, the transfer of operating centres from one existing licence to either another existing licence or as part of a new licence application. A range of qualifying criteria has to be met, with approval at the Traffic Commissioner's discretion. An important consideration in the process is any environmental history relating to the subject operating centre or any potentially adverse environmental impact resulting from the transfer. Legislation prevents any statutory objection against the Schedule 4 element of an application.

New Applications (Section 3.1): where the Traffic Commissioner has given a direction that the provisions of paragraph 2 of Schedule 4 shall apply, objections may only be lodged against the published application under Section 12(1)(a) of the 1995 Act, disregarding the suitability of the operating centre for use as such by the applicant as set out in Section 13(5)(d) of the Act.

Variation Applications (Section 3.2): where the Traffic Commissioner has given a direction that the provisions of paragraph 4 of Schedule 4 shall apply, objections may again only be lodged against the published application under Section 12(1)(a) of the 1995 Act unless that transfer can be accommodated without any overall increase in the existing overall vehicle/trailer authorisation on the receiving licence, in which case there is no statutory requirement to publish details of that application. However, **Section 3.3** does detail any such applications in order that interested parties are made aware of changes to authorised operators at listed operating centres

Section 5 – Public Inquiries

Due to the impact of Coronavirus (Covid 19) the Office of the Traffic Commissioner is running an adapted service. Public inquiries held on our premises are due to resume with social distancing measures in place in July 2020. In some cases virtual public inquiries may also be held. In these cases it will be clearly stated on the notice.

Anyone wishing to observe a physical or virtual public inquiry must request to do so from the relevant Office of the Traffic Commissioner in advance of the hearing. Due to space or technology restrictions we may not be able to accommodate all requests.

Please contact Sharon.Lenton@otc.gov.uk for further information.

There is no obligation on the traffic commissioner to provide a transcript of proceedings. Any decision to release will refer to the reasons for the request and there may be restrictions placed on its use. That request should be made via the relevant Office of The Traffic Commissioner and the applicant must understand that they will be liable for the cost of producing the transcript. This will vary according to demand and size of content.

Appeals against any decision published in this section must be lodged with the Upper Tribunal – Administrative Appeal Chamber (Transport), 5th Floor, Rolls Building, 7 Rolls Buildings, Fetter Lane, London, EC4A 1NL not later than one month after the date of the

letter conveying the Traffic Commissioner's (or Deputy Traffic Commissioner's) decision. Appellants can obtain guidance on lodging appeals, including downloading the appeal form, from the website: www.administrativeappeals.tribunals.gov.uk
