Subject: Berden Hall Solar Farm

Dear sirs ,

I am writing to strongly object to the current proposed planning permission for 177 acres of grade Arable farm land at Berden priory for a solar farm . This is ridiculous proposal as we need farm land to grow food, not litter the countryside with panels which are ugly and will deface our beautiful home for several decades to come ,we have a duty to future generations to protect and nurture. I have lived in Berden for over 33 years, it's a beautiful part of Essex we should be proud of. Please don't destroy it.

Kind Regards Barbara Welch
