Subject: S62A/22/0006 Berden Hall Farm, Ginns Road, Berden

Dear Sirs

I wish to register an objection to planning proposal S62A/22/0006, Berden Hall Farm, Ginns Road, Berden.

While accepting that the use of solar panels can help with our electricity supply problems, we also need agricultural land to help with our food supply problems. Solar panels should only be installed where crops cannot sensibly be grown or animals grazed. (And I am sure that you are aware that both candidates to be the next prime minister have expressed this view.)

Please reject the proposal.

Regards

R S Hurst
