Subject: Planning objection

Hello

I am writing to object to the planning of houses being built. reference number S62A/22/0007
site address: Land to the south of
Henham Road. Elsenham. Essex.

This area is already very busy at peak times for traffic and there is a very large development already being built very close to this location. If more houses get built here the traffic will be terrible and getting to our local village schools will be awful. It's already bad enough in the mornings and afternoons. [REDACTED] and being stuck in traffic just [REDACTED] on the way to school. We moved to elsenham hoping that being a smaller village we would have less traffic to deal with and if these houses get built I fear that we may have to move again because it will be awful to try to commute to and from school every day.

With elsenham primary school being on the main road there are lots of children trying to cross this already busy road. I worry that more traffic will end in a terrible accident as people try to drive through the traffic and around the parked cars that are dropping the children off.

Please consider rejecting this planning for these houses it will only make things worse in our area for our children.

Kind regards

Nicole cootes
