This is the screen that you enter the collection details in. You can drop a pin on the map - if you know the exact location, or if you would prefer, you can do it this way using

[www.gridreferencefinder.com](http://www.gridreferencefinder.com)

It will give you the lat/long (decimal) and lat/long (degs, mins,secs) when you enter the grid reference

Enter the lat/long (decimal) on the screen and it will put the pin on the map for you.
