## Summary

This document applies to food business operators (FBOs) (excluding distributors and retailers) following the declaration of protection and surveillance zones to control Highly Pathogenic Avian Influenza (HPAI) in the following locations:

- Near Chirk, Wrexham (declared on 2 November 2021)
- Near Alcester, Bidford, Warwickshire (declared on 8 November 2021)
- Near Frinton-on-Sea, Tendring, Essex (declared on 12 November 2021)
- Near Salwick, Fylde, Lancashire (declared 14 November 2021)
- Near Leeming Bar, Hambleton, North Yorkshire (declared on 14 November 2021)
- Near Kirkham, Fylde, Lancashire (declared 17 November 2021)
- Near Willington, South Derbyshire, Derbyshire (declared 19 November 2021)
- Near Pokesdown, Bournemouth, Christchurch and Poole (declared 19 November 2021)
- Near Silecroft, Copeland, Cumbria (declared on 21 November 2021)
- Near Mouldsworth, Cheshire West and Chester, Cheshire (21 November 2021)
- Near North Fambridge, Maldon, Essex (21 November 2021)
- Near Wells-next-the-Sea, North Norfolk, Norfolk (22 November 2021)
- Near Thirsk, Hambleton, North Yorkshire (24 November 2021)
- Second premises near Leeming Bar, Hambleton, North Yorkshire (24 November 2021)
- Second premises near Thirsk, Hambleton, North Yorkshire (24 November 2021)
- Near Barrow-upon-Soar, Charnwood, Leicestershire (25 November 2021)
- Third premises near Thirsk, Hambleton, North Yorkshire (26 November 2021)
- Near Poulton-le-Fylde, Wyre, Lancashire (26 November 2021)
- Near Gaerwen, Isle of Anglesey, Wales (26 November 2021)
- Fourth premises near Thirsk, Hambleton, North Yorkshire (26 November 2021)
- Fifth premises near Thirsk, Hambleton, North Yorkshire (28 November 2021)
- Second premises near Barrow upon Soar, Charnwood, Leicestershire (30 November 2021)

- Sixth premises near Thirsk, Hambleton, North Yorkshire (2 December 2021)
- Near Tutbury, East Staffordshire, Staffordshire (2 December 2021)
- Near Leominster, North Herefordshire, Herefordshire (2 December 2021)
- Near Gretna, Dumfriesshire, Scotland (3 December 2021)
- Near Crickhowell, Powys, Wales (3 December 2021)
- Near Richmond, Richmondshire, North Yorkshire (3 December 2021)
- Near Newent, Forest of Dene, Gloucestershire (5 December 2021)
- Seventh premises near Thirsk, Hambleton, North Yorkshire (5 December 2021)
- Third premises near Barrow upon Soar, Charnwood, Leicestershire (6 December 2021)
- Fourth Premises near Barrow upon Soar, Charnwood, Leicestershire (7 December 2021)
- Near Pocklington, East Yorkshire, East Riding of Yorkshire (7 December 2021)
- Second premises near Gretna, Dumfriesshire, Dumfries and Galloway, Scotland (7 December 2021)
- Near Sudbury, Babergh, South Suffolk (8 December 2021)
- Eighth premises near Thirsk, Hambleton, North Yorkshire (8 December 2021)
- Near Aspatria, Allerdale, Cumbria (9 December 2021)
- Near Annan, Dumfriesshire, Scotland (9 December 2021)
- Near Moffat, Dumfriesshire, Scotland (10 December 2021)
- Near Highworth, Swindon, Wiltshire (10 December 2021)
- Near Clifford, Hereford and South Herefordshire (10 December 2021)
- Near Alford, East Lindsey, Lincolnshire (11 December 2021)
- Second premises near Willington, South Derbyshire, Derbyshire (11 December 2021)
- Second premises near Alford, East Lindsey, Lincolnshire (12 December 2021)
- Third premises near Alford, East Lindsey, Lincolnshire (12 December 2021)
- Near Middleton-in-Teesdale, County Durham, Durham (14 December 2021)
- Second premises near Pocklington, East Yorkshire, East Riding of Yorkshire (14 December 2021)
- Fourth premises near Alford, East Lindsey, Lincolnshire (14 December 2021)

- Fifth premises near Alford, East Lindsey, Lincolnshire (14 December 2021)
- Near Wem, North Shropshire, Shropshire (15 December 2021)
- Near Market Bosworth, Hinckley and Bosworth, Leicestershire (16 December 2021)
- Sixth premises near Alford, East Lindsey, Lincolnshire (16 December 2021)
- Ninth premises near Thirsk, Hambleton, North Yorkshire (16 December 2021)
- Seventh premises near Alford East Lindsey, Lincolnshire (16 December 2021)
- Eighth premises near Alford East Lindsey, Lincolnshire (17 December 2021)
- Ninth premises near Alford East Lindsey, Lincolnshire (18 December 2021)
- Near Helsby, Cheshire West & Chester, Cheshire (18 December 2021)
- Near King's Lynn and West Norfolk District (28 December 2021)
- Near North Somercotes, East Lindsey, Lincolnshire in Lincolnshire (28 December 2021)
- Near Watlington, King's Lynn and West Norfolk, Norfolk (30 December 2021)
- Near Romsey, Test Valley, Hampshire (30 December 2021)
- Near Mablethorpe. East Lindsey, Lincolnshire (31 December 2021)
- Near Louth, East Lindsey, Lincolnshire (31 December 2021)
- Tenth premises near Alford, East Lindsey, Lincolnshire (3 January 2022)
- Near Lazonby, Eden, Cumbria (4 January 2022)
- Second premises near North Somercotes, East Lindsey, Lincolnshire (5 January 2022)
- Near Upholland, West Lancashire, Lancashire (7 January 2022)
- Second premises near Louth, East Lindsey, Lincolnshire (10 January 2022)
- Near Tattenhall, Cheshire West and Chester, Cheshire (13 January 2022)
- Second premises near Tattenhall, Cheshire West and Chester, Cheshire (13 January 2022)
- Near Ross-on-Wye, Hereford and South Herefordshire, Herefordshire (20 January 2022)
- Near Crewe, Cheshire East, Cheshire (22 January 2022)
- Near Inverurie, Aberdeenshire (22 January 2022)
- Near Byker, Newcastle upon Tyne, Tyne & Wear (25 January 2022)
- Near Calveley, Cheshire East, Cheshire (28 January 2022)
- Near Ashleworth Tewkesbury, Gloucestershire (28 January 2022)

- Near Bishop's Waltham, Winchester, Hampshire (4 February 2022)
- Near Holy Island, Berwick upon Tweed, Northumberland (9 February 2022)
- Near Grimsby, North East Lincolnshire, Lincolnshire (21 February 2022)
- Near Newtown, Montgomeryshire, Powys, Wales (21 February 2022)
- Near Welshpool, Montgomeryshire, Powys, Wales (21 February 2022)
- Near Gateshead (23 February 2022)
- Near Ledbury, North Herefordshire, Herefordshire (25 February 2022)
- Near Elmswell, Mid Suffolk, Suffolk (26 February 2022)
- Near Redgrave, Mid-Suffolk, Suffolk (1 March 2022)
- Near Collieston, Aberdeenshire, Scotland (11 March 2022)
- Second premises near Redgrave, Mid Suffolk, Suffolk (11 March 2022)
- Premises near Market Weston, West Suffolk, Suffolk (12 March 2022)
- Near Beith, North Ayrshire (18 March 2022)
- Aberdeenshire, Near Strichen (19 March 2022)
- Near Woodbridge, East Suffolk, Suffolk (20 March 2022)
- Second premises near Woodbridge, East Suffolk, Suffolk (27 March 2022)
- Near Stowmarket, Mid Suffolk, Suffolk (28 March 2022)
- Third premises near Woodbridge, East Suffolk, Suffolk (30 March 2022)
- Near Newton St Cyres, Mid Devon, Devon (6 April 2022)
- Near Ely, East Cambridgeshire, Cambridgeshire (6 April 2022)
- Near Tedburn, St Mary, Teignbridge, Devon (7 April 2022)
- Near Ilminster South Somerset, Somerset (8 April 2022)
- Near Eye, Mid-Suffolk, Suffolk (8 April 2022)
- Near Tedburn St Mary, Teignbridge, Devon (13 April 2022)
- Near Ilkeston, Erewash, Derbyshire (22 April 2022)
- Near Lowdham, Newark and Sherwood, Nottinghamshire (07 May 2022)
- Near Southwell, Newark & Sherwood, Nottinghamshire (19 May 2022)
- Island of Whalsay, Shetland Islands, Scotland (30 May 2022)
- Near Ludlow, Ludlow, Shropshire (1 June 2022)
- Second Premises near Ludlow, Ludlow, Shropshire (7 June 2022)
- Near Bexhill-on-Sea, Rother, East Sussex (15 June 2022)
- Near Birsay, Orkney Islands, Scotland (6 July 2022)
- Near Dartington, South Hams, Devon (21 July 2022)
- Near Ashburton, Teignbridge, Devon (5 August 2022)

- Near Cullompton, Mid Devon, Devon (8 August 2022)
- Near Cullompton, Mid Devon, Devon (9 August 2022)
- Near Cullompton, Mid Devon, Devon (10 August 2022)
- Near Gayton, King's Lynn and West Norfolk, Norfolk (21 August 2022)
- Near Cullompton, Mid Devon, Devon (27 August 2022)
- Near Bridlington, East Riding of Yorkshire (28 August 2022)
- Near Constantine, Cambourne & Redruth, Cornwall (29 August 2022)
- Near South Molton, North Devon, Devon (2 September 2022)
- Near Holt, North Norfolk, Norfolk (3 September 2022)
- Near Arthog, Gwynedd, Wales (5 September 2022)
- Second premises near, Bridlington, East Riding of Yorkshire, Yorkshire (6 September 2022)
- Near Heybridge, Maldon, Essex (6 September 2022)
- Near Torpoint, Southeast Cornwall, Cornwall (8 September 2022)
- Near Milford Haven, Pembrokeshire, Wales (9 September 2022)
- Second premises near Crewe, Cheshire East, Cheshire (16 September 2022)
- Near Bury St Edmunds, West Suffolk, Suffolk, (17 September 2022)
- Near Clacton-on-sea, Tendring, Essex (18 September 2022)

- Near Attleborough, Breckland, Norfolk (19 September 2022)
- Near Dartington, South Hams, Devon, England (20 September 2022)
- Near Honington, West Suffolk, Suffolk, England (22 September 2022)
- Near Easingwold, Hambleton, North Yorkshire, England (22 September 2022)
- Near Northwold, King's Lynn and West Norfolk, Norfolk, England (23 September 2022)
- Near Hadleigh, Babergh, Suffolk, England (24 September 2022)
- Near Poulton-le-Fylde, Wyre, Lancashire, England (24 September 2022)
- Near Attleborough, Breckland, Norfolk, England (27 September 2022)

It provides an explanation of the specific rules to be followed for any meat produced from poultry or farmed game birds originating within the Protection Zone(s).

The rules relate to the marking, separation and movement of meat intended for human consumption.

We make these rules to reduce animal health risks. Other meat including poultry not originating within the Protection Zone (PZ) is unaffected.

The Food Standards Agency (FSA) advises that, based on scientific evidence, avian influenza poses a very low food safety risk for consumers. Properly cooked poultry and poultry products remain safe to eat.

This document only applies in respect of an outbreak of HPAI in poultry and is not a definitive statement of the law. The precise requirements are set out in legislation and the general licenses we have issued.

Meat from poultry or farmed game birds originating within the PZ can be moved or sold, subject to several conditions.

These include a requirement that the health mark is replaced with a specific mark which must remain with it throughout any processing or repackaging. In England the mark is approved by the Secretary of State at the outset of each new outbreak. In Wales the mark is approved by the Welsh ministers.

Under some specific circumstances, the recipient of poultry meat is permitted to remove the specific mark temporarily for production, and in some circumstance not to re-apply it.

## Legal basis for this guidance

The following legislation is relevant to these outbreaks of HPAI:

- [The Avian Influenza and Influenza of Avian Origin in Mammals \(England\) \(Number 2\) Order 2006](#)
- [The Avian Influenza and Influenza of Avian Origin in Mammals \(Wales\) \(Number 2\) Order 2006](#)

## Restricted and unrestricted meat

The term “**restricted meat**” is used to mean:

- meat from poultry originating from a PZ
- meat from poultry originating from an area that subsequently became a PZ and was slaughtered **within** 20 or fewer days of the date estimated by a veterinary inspector as being the earliest date of infection at a premises in the relevant zone. This date may change as the epidemiology of the outbreak develops. A list of dates is provided in the Table of key dates below
- meat that has not been kept separate from the previous 2 categories
- any meat, processed meat or meat products derived from any of the above

To help businesses the dates which apply to restricted meat will be published online. This date may change as the epidemiology of the outbreak develops.

The term “**unrestricted meat**” is used to mean:

- meat from poultry originating outside of a PZ or
- meat from poultry originating in an area that subsequently became a PZ but was slaughtered at least 21 days **before** the date estimated by a veterinary inspector as being the earliest date of infection at a premises in the relevant PZ. This date may change as the epidemiology of the outbreak develops. A list of dates is provided in the [Table of key dates](#) below
- any meat falling into the restricted meat category that has been heat treated to at least 70°C throughout by an approved establishment (in accordance with Article 4 of Regulations (EC) No 853/2004) becomes unrestricted meat and can be marked with the oval identification mark

There are no special measures for meat produced from wild game birds during an outbreak of HPAI **in poultry**, thus all such meat is unrestricted<sup>1</sup>.

Meat from birds slaughtered after the lifting of the PZ will be unrestricted meat.

However, meat from any birds slaughtered before the PZ is lifted and falling under the definition of restricted meat will remain restricted, as will any meat that is subsequently not kept separate from restricted meat.

---

<sup>1</sup> Additional measures may be introduced for outbreaks of HPAI H5N1 which will be published at <https://www.gov.uk/guidance/avian-influenza-bird-flu> alongside this document

## Requirements of restricted meat

Restricted meat must be marked with a special mark by an approved establishment. The special mark must then be carried throughout the chain (see illustration below).

The special mark must not be removed except under the terms of the licence EXD264(HPAI)(EW)<sup>2</sup> which allows for the removal and reapplication of the mark for processing and repackaging.

FBO receiving live poultry, farmed game or farmed game carcasses from a PZ must ensure that meat from those birds is obtained, cut, transported, and stored separately from other meat.

Restricted meat which is fully packaged and correctly marked might be stored and transported alongside packaged unrestricted meat.

Restricted meat which is not fully packaged must not be stored or transported alongside unrestricted meat, whether or not the unrestricted meat is packaged.

Restricted meat must be produced in accordance with:

- [Article 63 \(2\) of The Avian Influenza and Influenza of Avian Origin in Mammals \(England\) \(No.2\) Order 2006](#) in England
- [Article 63 \(2\) of The Avian Influenza and Influenza of Avian Origin in Mammals \(Wales\) \(No 2\) Order 2006](#) in Wales

Slaughterhouses which are designated by the Food Standards Agency (FSA) to receive and process birds from a PZ must notify its clients accordingly.

---

<sup>2</sup> Published at <https://www.gov.uk/guidance/avian-influenza-bird-flu> alongside this document

**The special mark shall be:**

- (a) UK – letters 8mm high
- (b) XXXX – numbers 11mm high (where XXXX is the approval number of the premises, as referred to in point 7 of Part B or Section I of Annex II to Regulation (EC) No 853/2004)
- (c) Diameter (to outer edge of border) not less than 30mm
- (d) Thickness of border – 3mm

When applied to retail packaging, the size of the mark may vary according to the size of the packaging. However, it must be legible to the naked eye.

In the case of packaging containing cut meat or offal, the mark must be applied to a label fixed to the packaging, or printed on the packaging, in such a way that it is destroyed when the packaging is opened.

This is not necessary, however, if the process of opening destroys the packaging.

When wrapping provides the same protection as packaging, the label may be affixed to the wrapping.

The mark may be applied to the external surface of products of animal origin that are placed in transport containers or large packages. This includes containers or packages for further handling, processing, wrapping, or packaging in another establishment.

You are required to maintain the special mark on packaging or wrapping throughout the chain until it reaches the consumer.

General licence EXD264(HPAI)(EW)<sup>3</sup> allows for the special mark to be removed for the

---

<sup>3</sup> Published at <https://www.gov.uk/guidance/avian-influenza-bird-flu> alongside this document

purposes of processing and/or repacking, subject to the conditions set out in the Schedule.

Retail butchers and catering establishments directly supplying the final consumer may remove the special mark and are not required to reapply it.

Any unrestricted meat that has come into contact with restricted meat must be handled as if it were controlled meat.

This includes if it has come into contact at any stage of transport, storage, processing, or handing. In these circumstances the above conditions, including marking, must be applied.

## **Movement of restricted meat and products**

General licence EXD249(HPAI)(EW)<sup>4</sup> is available to allow movements subject to the conditions of that licence being met. Movement of restricted meat out of Great Britain cannot be authorised.

## **Requirements for premises to process meat during an outbreak**

Slaughterhouses are required to apply to the FSA for designation if they are located:

- in a PZ
- in a Surveillance Zone (SZ) or
- outside of the PZ and SZ and receive and process poultry originating from within the PZ or SZ

Apply for a designation by emailing: [approvals@food.gov.uk](mailto:approvals@food.gov.uk).

These designations are defined as:

- Level 1 – slaughterhouses handling only unrestricted poultry originating from the SZ or slaughterhouses located within the PZ or SZ receiving poultry from outside the PZ which will produce unrestricted meat during an outbreak of avian influenza
- Level 2 – slaughterhouses receiving poultry originating from within the PZ which will produce restricted meat during an outbreak of avian influenza

## **Disposal of waste and animal by-products**

Level 2 designated slaughterhouses processing birds from the PZ are required to adhere to the special animal by-product (ABP) categorisation and disposal rules in

---

<sup>4</sup> Published at <https://www.gov.uk/guidance/avian-influenza-bird-flu> alongside this document

accordance with [Articles 9, 10, 13 and 14 of Regulation \(EC\) No 1069/2009](#), as amended:

- no raw product is allowed to go into pet food production
- FBO will need a written confirmation from the rendering company that Category 3 ABP material will be subjected to a minimum heat treatment of 70°C
- if the FBO does not have this confirmation, Category 3 ABPs from birds originating from a PZ must be disposed as Category 2 ABP or above
- if Category 3 ABPs from birds originating in the PZ get mixed with Category 3 ABP from birds outside the PZ, the above controls apply to the entirety

All approved meat processing establishments handling restricted meat bearing the special mark are advised to dispose of Category 3 ABP through a route that involves heat treatment to a minimum of 70°C.

## **On-farm slaughtering and exemptions from identification and health marking**

You must obtain a licence from APHA before you slaughter your poultry at your on-farm slaughter facility when it is in a Protection or Surveillance Zone.

This licence includes a requirement for pre-slaughter inspection and, in the Protection Zone, additional conditions for onward movement of the meat.

Find out more about applying for a specific licence on [GOV.UK](#).

Registered on-farm slaughter facilities are only registered for the direct supply of small quantities of fresh meat from poultry and lagomorphs (hares and rabbits) slaughtered on the farm to:

- the final consumer local retail establishments directly supplying the final consumer as fresh meat

Registered slaughter facilities are not eligible to apply a health or identification mark to meat.

At these establishments, the Special Mark described in this document must not be applied as this would suggest a degree of meat inspection and control that does not apply at these premises.

The absence of a mark achieves the same outcome as the animal health Special Mark as the meat may only be sold within Great Britain and is not eligible for export to Third countries, including countries of the European Union.

Where the slaughterhouse is not an FSA Approved establishment, the facility must have been registered with [your Local Authority](#) for a Primary Producer exemption in

line with the requirements of the retained EU Regulations (EC) No 853/2004.

Where a registered on-farm slaughter facility is in the PZ you must also apply to APHA for your On-farm Slaughter Facility to be designated before slaughtering.

## Table of key dates

In the rules, the terms “restricted meat” and “unrestricted meat” are defined on the basis of when poultry are slaughtered, and by reference to the date estimated by a veterinary inspector as being the earliest date of infection at a premise in the relevant zone.

The following list, for each recent Infected Premises (IP), defines this date. This information may change as the epidemiology of an outbreak develops.

## HPAI H5N1 Outbreak October 2021 onwards

Infected Premises	Protection Zone Declared	Earliest Infection Date*	Meat produced from poultry originating in this area on or since this date is restricted*	Until the Protection Zone is lifted

Infected Premises	Protection Zone Declared	Earliest Infection Date*	Meat produced from poultry originating in this area on or since this date is restricted*	Until the Protection Zone is lifted
Frodsham, Herefordshire	3 November 2020	24 October 2020	4 October 2020	27 November 2020

\*These tables of dates will be updated as the outbreak develops. The earliest infection date and the related “restricted” date may change as the investigations into the source of disease on each infected premises develops. We will update this table to reflect revised dates.

Restricted meat remains restricted despite the ending of the Protection Zone.

## Legal references

From 1 January 2021, other than in Northern Ireland, any references to EU Regulations should be read as meaning retained EU law.

You can access retained EU law via [HM Government EU Exit Web Archive](#). This should be read alongside any EU Exit legislation that was made to ensure retained EU law operates correctly in a UK context.

The [EU Exit legislation](#) is available on legislation.gov.uk. In Northern Ireland, EU law will continue to apply in respect to most of the food and feed hygiene and safety law, as listed in the Northern Ireland Protocol, and retained EU law will not apply to Northern Ireland in these circumstances.

## Annex I – Table of designated slaughterhouses

Designated slaughterhouses must be used for movements of birds to slaughter into, out of, or within a PZ or SZ.

There are two types of designation for slaughterhouses:

Level 1:

- Allows the slaughterhouse to receive and process poultry from premises within a highly pathogenic avian influenza Surveillance Zone, a highly pathogenic avian influenza Restricted Zone, or a low pathogenic avian influenza Restricted Zone.
- Allows the slaughterhouse, if the slaughterhouse is within a disease control zone and subject to movement restrictions, to receive and process poultry from premises within an area free from disease control restrictions.

Level 2:

- Allows the slaughterhouse to receive and process poultry from premises within a highly pathogenic avian influenza Protection Zone and, therefore, produce restricted meat.

The following list provides the names and addresses of designated slaughterhouses in England. This information may change as the outbreak develops.
