**Subject:** Planning objection

Dear planning inspector,

I am writing to object to this planning application S62A/22/0007. A development in this location is unsuitable.

The infrastructure of the roads leading into and out of Elsenham are not suitable for any more development in this area. The roads are already very congested in and out of the village. Resulting in long queues at Grove Hill. Another development within the village is only going to add to this problem.

The village has already accommodated hundreds of new homes over the last five years, and it has had a massive impact on the character of the village.

With this proposed development a concern is the large number of cars that already park along Henham Road during school hours, which has only escalated as the village has grown. Where are these cars going to park? A development in this location is only going to cause more issues with safety along this road, which is already dangerous during drop off and Collection times at the school.

Kind regards,

Mary Dale-Cooke
