## Purpose

Below you will find a complete list of DfE quality assured courses that schools and colleges in England can pay for using a senior mental health lead training grant.

Courses are listed in alphabetical order by training provider. There are currently 125 courses available, being delivered across 76 providers.

Further information on the quality assurance process and criteria can be found on DfE [contracts finder](#).

Only the courses listed below are approved by DfE, and this list will be updated at the end of each month to reflect any changes to the training providers and courses that are DfE assured at that time.

DfE reserves the right to remove a course(s) from its list of quality-assured courses at any time, where it is reasonable to do so, to ensure schools and colleges receive high quality training.

## To select a course

A diverse range of courses are available to enable senior mental health leads to develop the knowledge and skills required to implement a whole school or college approach to mental health and wellbeing.

Schools and colleges seeking to identify a course that most closely meets their specific needs and preferences are encouraged to use the [online tools](#) available.
