Reference S62A/2022/0012 Land east of Station, Elsenham.

Dear Sir/Madam

We want to register our objection against the application for an extra 200 houses bolted onto the 350 houses already approved (against the wishes of the large majority of local residents). Yet more depressing news of greedy developers wanting to over develop our rural village. Further destroying our small community, our quality of life and mental well being. The site is high productive agricultural land, the area a haven for wild life. A haven for our community to enjoy. Yet more houses, roads, traffic and pollution is unsuitable and not sustainable in this rural area. The local rural roads are already unacceptable with long queues and severe delays throughout the day. The location requires a car for any activities. Local public transport is poor. The local schools and doctors are full, and no we don't want them made larger for more houses. We live in a rural village, we don't want or need yet more unsustainable development concreting over our fields. In this day of age with climate change and pollution yet more over development on prime agricultural land is utterly wrong.

Yours sincerely

Mr Michael Newland
