**Subject:** S62A/2022/0012 Land east of Station, Elsenham.

Hi  
S62A/2022/0012 Land east of Station, Elsenham.

I would like to make an objection to this proposal for more houses. This is Grade 1 & 2 Agricultural land which now more than ever we need in these sorts of areas.

The local infrastructure is currently under immense pressure due to the large number of developments that have been allowed over the past couple of years. The bus service in this area is very limited. No buses on Sundays etc. The roads are now really difficult just to get to either larger town for essentials with traffic queuing on Grove Hill due to increased volume of traffic. We have an issue with schools already in the area with the Primary schools all full let alone the situation for Secondary Schools !. We now also have an issue that the Doctors Surgery is having to merge with Stansted. The list is really never ending as to why this area cannot cope with anymore developments.

Please think very careful about this development and look at the bigger picture of what people like myself who have lived in the area for many years are currently struggling with due to overdevelopment of what was a Rural area when my family moved here 40years ago.

Thank you for reading this and I hope you can really take on board my comments.

Valerie Pink
