**Strategic Export Controls: Country
Pivot Report**

1st January 2017 - 31st December
2017

February 2023

Countries: All countries

Case Types: All case types

All Cases / Incorporation Cases Only: All cases

Ultimate Destinations: All countries

Licence Statuses: All licence statuses

Reasons for Refusal: All reasons for refusal

Case Summaries: All case summaries

Ratings: All control entries

Introduction

This report covers **export licensing decisions made by Her Majesty's Government (HMG)** between 1st January 2017 and 31st December 2017. Licence applications are submitted to and processed by the Export Control Organisation (ECO), part of the Department for International Trade, through a purpose-built online licensing system called Spire. The ECO issues licences for controlling the export of strategic goods.

Whether or not an export licence is required is determined by four factors, the:

- nature of the goods due to be exported
- destination concerned
- ultimate end use of the goods
- licensability of trade activities of the goods due to be exported

Broadly there are two types of licence, individual and general. Licences can be *standard* or *open*.

Each licence names the goods that can be exported and specifies the destinations to which they can be exported, along with other details and restrictions. *General* licences are pre-published and can be used by all eligible exporters whereas *individual* licences are issued following a successful application and allow only those named on the application to export certain goods. Those exporting under *general* licences must adhere to the terms and conditions of the licence under which they wish to export. Exporters must register with the ECO to use a *general* licence and are subject to regular audits to ensure the licence terms and conditions are being adhered to. Those requiring an *individual* licence must submit an application to the ECO where they wish to make exports not covered by the terms and conditions of a *general* licence.

Generally, *open* licences can be used with fewer restrictions than *standard* licences. *Standard* licences tend to name a specific quantity of specific goods that can be exported to a specific destination whereas *open* licences may include a wider range of goods or destinations and generally do not limit the quantity of goods that can be exported.

A glossary of key terms follows this introduction which explains the various licence types and subtypes that can be used or applied for and how information relating to each licence type and subtype is available within this report.

This report and other sources of information

Each of these quarterly reports (from 2015Q1 published in July 2015) is supplemented by a set of *data tables* in spreadsheet format (plus CSV format) and a *statistical commentary* document in addition to this report. The *data tables* provide the same information as presented in this report but in a different format and for **periods back to 1 January 2008**. CSV spreadsheets use a non-proprietary format that facilitates the manipulation of the data by a variety of software (not just Microsoft Excel) and provide the same information as available from the *data tables*. These outputs can be found alongside this report under the 'Quarterly reports' heading here:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>

The 'New Report' tool on the "Strategic Export Controls: Reports and Statistics" web page can also be used to download data. The tool offers a variety of filters that can be applied to allow users to download data of specific interest, such as licences which name a certain destination or licences for the shipment of goods with a certain rating. The tool is available here (registration required):

<https://www.exportcontroldb.trade.gov.uk/sdb/fox/sdb/SDBHOME>

Key terminology and data available in this report

Licences types exist for each combination of *open/standard* and *general/individual* , except for *standard general* . The following table summarises the licence types under each of these headings. Each of these licence type has subtypes (more information available under 'Licence types and subtypes').

	Open	Standard
General	OGELs	Not applicable
Individual	OIELs, OITCLs,	SIELs, SITCLs

Key terms

Strategic goods include military goods and a wide range 'dual-use' goods; civilian goods with a military purpose. Goods are assessed against a **consolidated list of goods that require export authorisation**, available here:

<https://www.gov.uk/government/publications/uk-strategic-export-control-lists-the-consolidated-list-of-strategic-military-and-dual-use-items-that-require-export-authorisation>

It is possible for a licence to be for both military and dual-use goods.

Control Entries are the codes assigned to each good on the **consolidated list of goods that require export authorisation (herein 'consolidated list')**. For example, all control entries beginning 'ML' (such as ML1, ML8 etc) are control entries for military goods. The process of assigning control entries to goods is called **Rating**.

In some cases goods can be made subject to control if they do not appear on the **consolidated list**. Goods that the exporter has been told, knows or suspects are, or may be, intended for "WMD Purposes" are given the rating "End-Use". Goods that the exporter has been told, knows or suspects are, or may be, intended for use as components in, or production or test equipment for, military equipment in an embargoed destination; or may be intended for use as parts of military goods illegally obtained from the UK, irrespective of destination, are given the rating "MEND". Both of these "end-use" ratings are also sometimes referred to as "catch all" ratings.

Case summaries are text descriptions used to classify goods on licences. They are standardised descriptions to explain what the goods are without giving away commercially sensitive details about the goods (such as design or intellectual property). Using standardised descriptions also facilitates comparison and analysis. Often extra detail is communicated by using prefixes. For example, a replacement part for a sporting shotgun may be described as "components for sporting shotguns" rather than just "sporting shotgun".

One or more Control Entry can be used to rate more than one good on a licence. Also, one or more Case Summaries can be used to describe a single Control Entry.

Goods are rated as **Military** (ie, they are assigned a Control Entry from the **UK Military List** within the **consolidated list**) or they are rated as being **Non-military**. Non-military goods:

- appear on other lists within the **consolidated list** , such as the **UK Dual-Use List** .
- also include goods refused to destinations that are placed under **sanctions**, such as trade sanctions or an arms embargo. Licences relating to the goods affected by the sanction do not get approved but also do not get rated against the **consolidated list**. They are instead rated with a **sanction code**, such as 'RUS' for Russia and 'IRN' for Iran.

SIELs for goods covered by the torture regulation (see "Licence types and subtypes") concern trade in certain equipment and products which could be used for capital punishment torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for goods covered by the torture regulation are therefore not

included in the count of non-military goods for other SIEL subtypes.

As noted, goods can also be rated even if they don't appear on the **consolidated list**.

Licence applications can be **Refused** (for standard individual licences) or **Rejected** (for open individual licences). Licences are refused/rejected for one or more pre-specified reasons. All applications for licences are assessed on a case-by-case basis against the **Consolidated EU and National Arms Export Licensing Criteria** and a decision made on either approval or refusal. Depending on the nature of the goods, other policy aspects might also be considered. For example, if the exported goods are due to be incorporated into another system, equipment or plant, then the items are also assessed against the UK's incorporation factors policy.

Applications for licences can be refused if it is deemed to fail one or more of the Consolidated EU and National Arms Export Licensing Criteria. These 8 criteria include, for example, *Preservation of regional peace, security and stability (criterion 4) or Respect for the UK's international obligations and commitments, in particular sanctions adopted by the UN Security Council or the European Union, agreements on non-proliferation and other subjects, as well as other international obligation (criterion 1)*. More information about the criteria is available here:

<https://www.gov.uk/government/publications/consolidated-eu-and-national-arms-export-licensing-criteria>

Licences can also be **Revoked** at any time after being Issued.

Case & goods footnotes are added to certain cases to provide explanation on the end use and/or end user.

Country footnotes are added to destinations with the aim to help the user understand why certain goods may have been approved, refused/rejected or revoked in the period.

Licence types and subtypes

Export Licences

General Licences

Before data are presented per destination, a table summarises the use of **Open General Export Licences (OGELs)** on page 15. OGELs are pre-published licences allowing the export of certain goods to certain destinations. If exporters are eligible to trade under an OGEL then they should register to use that OGEL. Once registered, there is no need for an exporter to submit further applications to trade under the licence they have registered to use.

Some Open General Transshipment licences exist for the **transshipment** of certain goods through the UK en-route from one country to another, providing in all cases that the relevant conditions are met.

There are no Open General licences for the **incorporation** of goods into another product or higher level systems.

Individual Licences

The vast majority of this report presents information (where available) per destination relating to *standard individual* licences and open individual licences (SIELs, OIELs, SITLs, SITCLs and OITCLs). All destinations are presented in this report, and if information regarding certain licence types is not presented for a destination then this is because no decisions have been made on such licences in this period.

Exporters should check to see whether they are eligible to use an *open general* licence before applying for either a *standard individual* licence (eg SIEL, SITCL) or *open individual* licence (eg OIEL, OITCL), whichever is most appropriate.

Open Individual Licences

Open Individual Export Licences (OIELs) are *specific to an individual exporter and cover multiple shipments of specified items to specified destinations and/or, in some cases, specified consignees*. Licences permitting permanent export are generally valid for up to 5 years from the date of issue. However, OIELs covering the export to EU Member States of goods entered on the Military List and Dealer to Dealer OIELs (an OIEL subtype) are generally valid for 3 years.

Other OIELs:

There are several subtypes of OIELs including **Global Project Licences**, as well as **Dealer-to-dealer, Cryptographic, Media and Continental Shelf OIELs**.

Dealer-to-dealer OIELs (or simply Dealer OIELs) authorise UK registered firearms dealers to export certain categories of firearms and ammunition solely to other registered firearms dealers on the European Union only, provided that copies of valid documentation are forwarded to the Home Office at least 2 working days before each shipment.

Cryptographic OIELs authorise the export of specified cryptography hardware or software and the transfer of specified cryptography technology. These licences do not cover hardware, software or technology which includes certain types of cryptanalytic functions.

Media OIELs authorise the export of military helmets, body armour, non-military 4WD civilian vehicles with

ballistic protection and specially designed components for any of these items, mainly for the protection of aid agency workers and journalists in areas of conflict. The licence permits these goods to be exported to all destinations on a temporary basis only, i.e. the goods must be returned to the United Kingdom when no longer required.

Continental Shelf OIELs authorise the export of controlled goods to the UK sector of the Continental Shelf for the use only on, or in connection with, offshore installation and associated vessels.

Global Project Licences

Global Project Licences (GPL) are a form of export licence that were introduced by Framework Agreement partners (UK, France, Italy, Sweden, Spain and Germany) to streamline the arrangements for licensing military goods and technologies between them, where these transfers relate to their participation in specific collaborative defence projects. In relation to the collaborative project, each Partner state will, as appropriate, issue their own GPLs to permit transfers of specified goods and technology where these are required for that programme. The GPLs operate on a similar basis to UK Open Individual Export Licences. In the UK, applications for GPLs are assessed against the Consolidated Criteria.

Standard Individual Licences

Standard Individual Export Licences (SIELs) are specific to an individual exporter and generally allow shipments of specified items to a specified consignee up to the quantity specified by the licence.

There are 5 main subtypes; permanent, temporary, incorporation, transshipment and SIELs for Goods covered by the torture regulation.

- **Permanent SIELs** are for items that are for permanent export to a destination. They are generally valid for 2 years from date of issue.
- **Temporary SIELs** are for where the export is temporary, for example for the purposes of demonstration, trial or evaluation, and the licence is generally valid for one year only. The goods must be returned before the licence expires. Temporary SIELs can cover more than one destination and in such cases the licence will be counted once per destination. Therefore users should express caution when summing licence details together across countries.
- **Incorporation SIELs** are for goods that are due to be incorporated ie, installing them into another product or higher level system. For incorporation cases there are two end user types. The 'end user' is the person/organisation incorporating the goods. The 'ultimate end user' is defined as the entity that uses the product or the higher level system into which the exported goods are installed or incorporated.
- **Transshipment SIELs** are needed for the transshipment of certain goods through the UK en-route from one country to another, providing certain conditions are met. This subtype of SIEL is also called a Standard Individual Transshipment Licence (SITL). Most other transshipments (of certain goods through the UK en-route from one country to another) can be made under one of the Open General Transshipment Licences, provided in all cases that the relevant conditions are met. There are no Open Individual licences for transshipments.
- **SIELs for Goods covered by the torture regulation** concern trade in certain equipment and products which could be used for capital punishment, torture or other cruel, inhuman or degrading treatment or punishment. These are classed as non-military goods but appear separately to the statistics on licences for non-military goods. SIELs for Goods covered by the torture regulation are therefore not included in the count of non-military goods for other SIEL subtypes.

It should be noted that the refusal of an application for an OIEL, amendment to exclude a particular destination(s) and/or item(s), or the revocation of an OIEL, does not prevent a company from applying for a SIEL covering some or all of the items concerned to specified consignees in the relevant destinations. Clearly, however, the factors that led to the original decision would be taken into account in the decision on any such application.

Other Individual Licences

Information on Other Individual licences is not included as part of this report, or as part of the Excel or CSV spread sheets released alongside this report. Please see separate documentation entitled 'Data for Other Licences' published alongside this, or previous, reports.

Trade Control Licences

Trade Control licences are required for those brokering the export of strategic goods. Brokering means buying or selling, or arranging or negotiating transactions for the purchase, sale, or supply, of goods located in one third country for transfer to another. There are Open and Standard Trade Control licences

An **Open Individual Trade Control Licence (OITCL)** is *specific to a named trader and covers involvement in trading of a generally unlimited supply of specific goods between specific source and destination countries and/or specified consignors, consignees and end-users*. OITCLs are generally valid for 5 years.

A **Standard Individual Trade Control Licence (SITCL)** is specific to a named trader and covers involvement in trading of a set quantity of specific goods between a specific source and destination country with a specified consignor, consignee and end-user. SITCLs will normally be valid for 2 years. Upon expiry either by time or because the activity has taken place, the licence ceases to be valid and must be returned to the Export Control Organisation. Once the licence expires, a new application must be applied for if further trades are required. Like Individual Export licences, exporters should check to see whether they are eligible to use an OITCL before applying for a SITCL.

Reporting

Summary Tables

Before more detailed information is presented by destination on SIELs, OIELs, SITCLs and OITCLs, data summarising the number of licences Issued, Refused/Rejected and Revoked for each licence type within the period are presented.

Following this is some detailed information on Dealer OIELs, Cryptographic OIELs, Media OIELs, Continental Shelf OIELs and Global Project Licences - as generally there are not many of these per quarter so the information is best summarised for all destinations together in one table. Processing statistics are reported, similar to those presented per destination (see below). A table showing registrations, suspensions and de-registrations for the use of OGELs immediately precedes detailed information per destination.

Information Per Destination

Information for each destination follows the same pattern. The minimum information provided for each destination is processing statistics. Where no such licences decisions were made in the period, there is simply no information presented for such cases.

Processing statistics

The time calculated is the initial processing time, ie, the time elapsed from when the application is first received to when it is closed. All closed cases are counted, including those where the licence is issued or refused/rejected, or where the application is stopped or withdrawn, or where there was No Licence Required (NLR) decision made on the licence. Revocations apply to existing licences only, so are not counted. Time spent by the ECO waiting for documents from applicants or any time where the ECO are waiting for the applicant to respond to a request for further information is excluded. Time taken to make any amendments post-decision is not counted. For more information on how processing time is calculated, please consult the Quality and Methodology Report on the Strategic Export Controls licensing statistics web page:

<https://www.gov.uk/government/collections/strategic-export-controls-licensing-data>.

Separately for SIELs, SITCLs, OIELs and OITCLs the following processing statistics are presented per destination:

- Median processing time
- % and number of licences completed in 20 and 60 working days. For SIELs there are government targets to process 70% of applications within 20 working days and 99% within 60 working days. For OIELs and OITCLs there are government targets to process 60% of applications within 60 working days.

Licensing statistics

The information within the report covers those licences Issued, Refused/Rejected or Revoked within the period. It does not include information where applications were not fully processed, eg stopped or withdrawn, information on goods where there was No Licence Required (NLR), or certain changes to an existing licence - such as re-opening an application to make changes such as extensions to licences, removing good/s (although this is not done for OIELs), removing country/countries, or amending applicant errors.

If goods / countries are added to an application and subsequently end up on a licence they will be reported as a new issue for that period. The existing items will not be re-reported. The same applies for items removed from an application on an amendment, except in this case it will be reported as revoked.

In a small number of cases there may be a subsequent change of status during the same period. There are two

main reasons for such changes: a licence issued during the period may have been issued then subsequently revoked in the same period, for example because of the imposition of trade sanctions or an arms embargo; or a decision during the period to refuse a licence might be overturned because the applicant later appealed successfully and the licence was issued in a later period. These cases are flagged in this report as Rv and A respectively.

For each destination and for each of Issued, Refused and Revoked the following is data is presented in this report, where available, for each **SIEL** subtype (note: information on SITLs can be found under the heading 'SIELs - Transshipment'):

- A count of the number of licences on which goods were Issued, Refused or Revoked categorised by the type of goods; Military, Non-military or Both Military and Non-military (see 'Key Terms'). Examples of when a licence may be for both military and non-military goods could be where the goods are military body armour and civilian body armour, or where bomb detection goods are being sold for use by the military and for civilian use such as at airports. However, the military and non-military goods will not necessarily be of the same type.
- A count of the number of licences on which goods were Issued, Refused or Revoked per Control Entry. Control Entries are presented per category (Military, Non-military or Both Military and Non-military) based on the licence they relate to. The number given is the number of licences on which a Control Entry was used. Please note that more than one Control Entry can apply to goods on an individual licence and each Control Entry is counted only once per individual licence (regardless of the number of goods that have been rated with that Control Entry).
- Data for Issued SIELs includes the value of the goods in each category. However, note that goods covered by issued SITLs merely pass through the UK and it would therefore be misleading to compare the 'value' for these licences in the report with the value of items originating in the UK.
- Case summaries for each of Issued, Refused and Revoked broken down by category (Mil/Non-mil/Both), listed below the appropriate Control Entry table in which they feature. Case summaries for small arms covered by SIELs issued in the period give the number of units in parentheses. If the number of licences using the case summary in the period is more than one then this is also detailed in parentheses (eg "2 licences"). Items that were allowed for Temporary export are indicated by a "T" preceding the description. Items that were originally allowed for Temporary export but then converted to allow Permanent export are indicated by a "T(P)". Note that more than one Case Summary can apply to a single Control Entry. Note that more than one Case Summary can apply to a single Control Entry.
- The ultimate destination/s for goods that are being incorporated.
- For refusals, the number of times each of the 8 Consolidated EU and National Arms Export Licensing Criteria are used to refuse licence applications for the destination is provided.

The Control Entries supplied are less detailed than those listed in the **consolidated list of goods that require export authorisation**. For example, we report ML1 but there are more specific codes such as ML1a, ML1b, ML1c and ML1d. Here is an example to explain how we would count the number of licences containing goods rated ML1:

Issued licences for a given destination	Control Entries applied to goods on licence
Licence 1	ML1a, ML1a, ML1b, ML1c
Licence 2	ML1a, ML2a
Licence 3	ML1a
Licence 4	ML1c
Licence 5	ML2a
<i>Total number of licences containing goods rated ML1</i>	4

In the example the number of licences containing goods rated ML1 is 4 because the more detailed codes (eg ML1a, ML1b etc) are treated as though they are the broader code ML1. Also, each Control Entry is counted a maximum of once per licence, so licence 1, 2, 3 and 4 each have a count of 1 for ML1.

The data on refused SIEL applications does not include those refused during this period following an appeal against an earlier refusal. The SIELs data also does not cover goods that were removed from an application before a licence was issued, applications that were withdrawn or stopped before a decision was reached, or applications where it was determined that no licence was required or that the goods could be exported to the

destination concerned under an Open General Export Licence (OGEL).

In the case of SIELs refused or revoked, only the rating of the goods is provided.

Values are shown to the nearest pound. It should be noted that the actual value of exports made under the licences is likely to be less than shown because some of these licences will not be used to make all of the exports authorised and others will not be used at all. In addition, some items are exported only temporarily and are later returned to the UK.

In some cases SIELs may be issued identifying more than one destination. This normally arises where a licence is issued for the temporary export of items for exhibition or demonstration in more than one destination. Details of these licences are included in the information for each relevant destination. This means that the total number of SIELs issued is lower than the sum of all SIELs issued shown across all the destination pages.

For each destination and for each of Issued, Refused and Revoked the following data is presented in this report, where available, for each OIEL subtype:

- A case summary description of the goods covered by each OIEL, with the items that were allowed for temporary export indicated by a "T" preceding the description, for Issued, Rejected and Revoked licences.

Case summaries are provided for all licences issued in the period or where the coverage of an existing licence was amended during the period by the inclusion or reinstatement of this destination or by the addition of goods. Case summaries are provided for licences fully revoked, refused in full or whose coverage was amended during the period by the removal of items and/or destinations. The destination coverage of an OIEL may be amended for a variety of reasons, but mainly in the light of recommendations received from advisory government departments. Sometimes amendments follow the imposition of an arms embargo, but they may also reflect general concerns about the destination or a relevant change in circumstances there. A decision to exclude a particular country from the coverage of an OIEL does not mean that country is permanently excluded. Where the concerns that led to the original decision are no longer relevant, it might be decided to reinstate that destination.

The OIELs data does not cover applications from which specific goods or destinations were removed before an OIEL was issued, or applications withdrawn before a decision was reached, it was determined that no licence was required or that the items could be exported to the destination concerned under an OGEL.

The information does not cover OIELs whose period of validity was extended temporarily during the period pending a decision on an application for a new OIEL. Such cases amount to a temporary extension of an OIEL granted in an earlier period. The decision on the new application will be covered in this or a future report, depending on the timing of the decision. As OIELs cover multiple shipments of specified goods to specified destinations or specified consignees, exporters holding OIELs are not asked to provide details of the value of goods they propose to ship under an OIEL and it is therefore not possible to provide information on the total value of OIELs issued.

As well as the data presented on SIELs and OIELS, data is presented on **SITCLs and OITCLs**:

- The number of SITCLs or OITCLs (presented separately) Issued, Refused (for SITCLs)/Rejected (for OITCLs) and Revoked in the period

Overall Licensing Statistics

	All licence applications	Issued	Refused/ Rejected	Revoked
SIELs	13665	13332	327	6
- Permanent Standard	11225	10907	313	5
- Temporary Standard	815	810	5	0
- Transhipment	15	15	0	0
- Incorporation	1589	1579	9	1
- For goods covered by the torture regulation (Permanent or Temporary)	21	21	0	0
SITCLs	320	307	13	0
OIELs	463	405	45	13
- Standard	386	331	42	13
- Dealer-to-dealer	44	44	0	0
- Cryptographic	24	21	3	0
- Media	2	2	0	0
- Continental Shelf	7	7	0	0
Global Project Licences	8	8	0	0
OITCLs	52	41	11	0

Table notes for licensing statistics table:

SIEL and OIEL sub-types are mutually exclusive. SIEL Transhipments and Incorporations are permanent, but counted separately to Standard Permanent and Standard Temporary licences. Counts of licence applications Issued, Refused/Rejected and Revoked count the decisions made during the period on the licence, whenever the case has been closed or re-opened then re-closed.

Overall Processing Statistics

Processing statistics covering the period 1st January 2017 to 31st December 2017

	Applications completed in 20 working days	% applications completed in 20 working days	Applications completed in 60 working days	% applications completed in 60 working days	Median processing time
SIELs	14796	83	17458	98	11 days
- Permanent Standard	12652	84	14847	98	11 days
- Temporary Standard	782	82	950	99	11 days
- Transshipment	12	63	19	100	16 days
- Incorporation	1333	80	1622	97	12 days
- For goods covered by the torture regulation (Permanent or Temporary)	17	81	20	95	11 days
SITCLs	401	75	509	95	12 days
OIELs	124	24	297	57	55 days
- Standard	55	13	205	48	63 days

- Cryptographic	21	68	31	100	15 days
- Media	1	33	2	67	47 days
- Continental Shelf	1	13	7	88	45 days
Global Project Licences	3	27	3	27	67 days
OITCLs	29	36	50	63	42 days

Open General Export Licences (OGLs)

OGLs can be used to export certain goods to certain destinations providing the terms and conditions of the OGL are met. See further information on military goods OGLs (<https://www.gov.uk/military-goods-ogels>) and dual-use goods OGLs (<https://www.gov.uk/dual-use-open-general-export-licences-explained>).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	12	£19,384,043
Non-military	7	£334,071
Total	19	£19,718,114

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£19,075
ML3	3	£151,500
ML4	2	£19,051,536
ML6	1	£9,500
ML10	4	£37,004

ML13	1	£55,000
ML22	1	£60,428

assault rifles (9) [See footnote 3].
 body armour.
 components for all-wheel drive vehicles with ballistic protection.
 components for assault rifles (2 licences) [See footnotes 3, 6].
 components for body armour.
 components for combat aircraft (2 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military support aircraft.
 components for military training aircraft [See footnote 11].
 components for munitions/ordnance detection/disposal equipment.
 military helmets.
 small arms ammunition (3 licences) [See footnotes 10, 3].
 technology for munitions/ordnance detection/disposal equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£64,000
5A001	1	£148,559
5A002	3	£79,512
6A003	2	£38,500
PL8001	1	£3,500

T civil NBC detection systems.
 T counter-improvised explosive device equipment.
 T devices for initiating explosives.
 imaging cameras (2 licences) [See footnote 5].
 information security equipment (3 licences).

Refused

promoting the supply of components for pistols (2 licences) [See footnotes 13, 8].
promoting the supply of pistols [See footnote 7].

Country Footnotes

- Arms embargo sanctions in place for Afghanistan apply to those individuals, groups, undertakings and entities designated under the criteria stated in UN Security Council Resolution 2255 (2015), whose names are held on the list established pursuant to UN Security Council Resolution 1988 (2011). The EU implements these measures through Council Decision 2011/486/CFSP, as amended; as well as Council Regulation (EU) No 753/2011, as amended.

Case & goods Footnotes

- Licence granted for accessories / spare parts. Armed forces end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£11,536
Non-military	24	£7,757,613
Both Military and Non-military	1	£0
Total	28	£7,769,149

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£179
ML6	2	£11,357

components for all-wheel drive vehicles with ballistic protection.
 components for military support vehicles.
 weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£176,850
5A002	13	£335,133
5D002	1	£118,400
5E002	1	£155
6A001	4	£908,450
7A003	4	£1,011,381
7A103	4	£50,037
8A001	1	£5,157,207

corrosion resistant chemical manufacturing equipment (2 licences).
 guidance/navigation equipment.
 inertial equipment (4 licences).
 T inertial equipment (3 licences).
 information security equipment (13 licences).
 information security software.
 marine position fixing equipment (2 licences).
 T marine position fixing equipment (2 licences).
 T sonar log equipment (2 licences).
 submersible vehicles.
 technology for information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A008	1	£0
6D002	1	£0
ML11	1	£0

radar equipment.
software for military radars.
software for radar equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for non-cryptographic information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military

		support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 2]
3	T	towed hydrophone arrays [See footnote 3]
4	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 4]
5	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 5]
6	P	body armour, components for body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets [See footnote 6]
7	P	components for military support aircraft [See footnote 7]
8	P	components for information security equipment, information security equipment, information security software, software for information security equipment
9	P	components for military support aircraft [See footnote 8]
10	P	information security equipment, software for information security equipment, technology for information security equipment

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 7].
promoting the supply of equipment for the use of sniper rifles [See footnote 7].
promoting the supply of equipment for the use of sporting guns [See footnote 7].
promoting the supply of equipment for the use of sporting shotguns [See footnote 7].
promoting the supply of equipment for the use of targeting equipment [See footnote 7].
promoting the supply of equipment for the use of weapon control equipment [See footnote 7].
promoting the supply of equipment for the use of weapon mountings [See footnote 7].
promoting the supply of equipment for the use of weapon night sights [See footnote 7].
promoting the supply of equipment for the use of weapon sights [See footnote 7].
promoting the supply of fire location equipment [See footnote 7].
promoting the supply of flash suppressers [See footnote 7].
promoting the supply of fuze setting devices [See footnote 7].
promoting the supply of general military aircraft components [See footnote 7].
promoting the supply of grenade launchers [See footnote 7].
promoting the supply of gun mountings [See footnote 7].
promoting the supply of gun silencers [See footnote 7].
promoting the supply of hand grenades [See footnote 7].
promoting the supply of heavy machine guns [See footnote 7].
promoting the supply of illuminators [See footnote 7].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 7].
promoting the supply of machine guns [See footnote 7].
promoting the supply of military aero-engines [See footnote 7].
promoting the supply of military aircraft ground equipment [See footnote 7].
promoting the supply of military aircraft head-up/down displays [See footnote 7].
promoting the supply of military aircraft pressure refuellers [See footnote 7].
promoting the supply of military aircrew life support equipment [See footnote 7].
promoting the supply of military aircrew safety equipment [See footnote 7].
promoting the supply of military cameras/photographic equipment [See footnote 7].
promoting the supply of military combat vehicles [See footnote 7].
promoting the supply of military helmets [See footnote 7].
promoting the supply of military image intensifier equipment [See footnote 7].
promoting the supply of military image recording/processing equipment [See footnote 7].
promoting the supply of military imaging radar sensor equipment [See footnote 7].
promoting the supply of military infrared/thermal imaging equipment [See footnote 7].
promoting the supply of military radars [See footnote 7].
promoting the supply of military support vehicles [See footnote 7].
promoting the supply of mortars [See footnote 7].
promoting the supply of periscopes [See footnote 7].
promoting the supply of pistols [See footnote 7].
promoting the supply of projectile launchers [See footnote 7].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 7].
promoting the supply of rangefinding equipment [See footnote 7].
promoting the supply of recognition/identification equipment [See footnote 7].
promoting the supply of rifles [See footnote 7].
promoting the supply of sensor integration equipment [See footnote 7].
promoting the supply of signalling devices [See footnote 7].
promoting the supply of small arms ammunition [See footnote 7].

promoting the supply of smoke canisters [See footnote 7].
 promoting the supply of smooth-bore weapons [See footnote 7].
 promoting the supply of sniper rifles [See footnote 7].
 promoting the supply of sporting guns [See footnote 7].
 promoting the supply of sporting shotguns [See footnote 7].
 promoting the supply of targeting equipment [See footnote 7].
 promoting the supply of unmanned air vehicles [See footnote 7].
 promoting the supply of water cannon [See footnote 7].
 promoting the supply of weapon cleaning equipment [See footnote 7].
 promoting the supply of weapon control equipment [See footnote 7].
 promoting the supply of weapon mountings [See footnote 7].
 promoting the supply of weapon night sights [See footnote 7].
 promoting the supply of weapon sight mounts [See footnote 7].
 promoting the supply of weapon sights [See footnote 7].

Country Footnotes

1. No licences shall be granted for any military or dual-use goods and technology being supplied to military end-users in Argentina, except in exceptional circumstances. This decision will not affect licences for items intended for end-users other than the Argentine military.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Law enforcement agency end use.
4. Licence granted for accessories / spare parts. Law enforcement agency end use.
5. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Law enforcement agency end use.
9. Licence granted for demonstration to potential customers. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. Government end use.
11. Licence granted for accessories / spare parts. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for sporting / hunting purposes.
14. Licence granted for accessories / spare parts. Civilian / commercial end use.
15. Licence granted for accessories / spare parts. Civilian / commercial end use.

Armenia

Processing Statistics (excluding amendments)

Median processing time SIELs	51 days
% and number of SIELs completed in 20 working days	25% (1)
% and number of SIELs completed in 60 working days	50% (2)
% [as a % of all SIEL cases processed] and number of SIELs refused	25% (1)

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	1	£10,500
Non-military	1	£1,520
Total	2	£12,020

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£10,500

small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,520

information security equipment [See footnote 2].

Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
6A003	1

imaging cameras.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment
2	P	body armour, components for body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets [See footnote 1]
3	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

Country Footnotes

1. The UK interprets the OSCE arms embargo for Armenia as prohibiting the export of any military goods or technology to any person, or to any destination, in Armenia. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. International Organisation end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.

6A008	1	£0
8A002	2	£190,368
PL9010	12	£399,650

- acoustic seabed survey equipment.
 bacteria.
 civil NBC protection clothing (4 licences).
 components for radar equipment.
 constituents of propellants.
 corrosion resistant chemical manufacturing equipment (2 licences).
 electromagnetic wave absorbing materials.
 extended temperature range integrated circuits.
 hafnium manufactures.
 high energy capacitors.
 information security equipment (3 licences).
 T information security equipment.

machine tools.
 magnetometers (3 licences).
 NBC protective/defensive equipment.
 pathogenic genetic elements.
 radar equipment.
 rebreathing swimming equipment (2 licences).
 sporting shotguns (1) (9 licences).
 sporting shotguns (2).
 sporting shotguns (4).
 sporting shotguns (6).
 technology for civil NBC detection systems (2 licences).
 technology for materials containing enriched uranium.
 technology for materials containing plutonium-239.
 technology for nuclear fuel reprocessing equipment.
 technology for nuclear reactor fuel element fabrication equipment.
 technology for nuclear reactors.
 toxic gas monitoring equipment.
 toxins (3 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£8,375
PL9010	1	£69,845

sporting guns (1).
 sporting shotguns (3).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	8	£2,688,479
Non-military	3	£173,344
Total	11	£2,861,823

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	2	£89,024
ML6	1	£2,565,000
ML9	1	£9,794
ML11	4	£24,662

components for launching/handling/control equipment for missiles.
 components for military combat vehicles.
 components for military electronic equipment.
 components for military patrol/assault craft.
 components for surface-to-air missiles.

military communications equipment (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£167,800
6A006	2	£5,544

focal plane arrays.
magnetometers (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada
China
Denmark
Greece
Indonesia
Japan
Netherlands
New Zealand
Norway
Samoa
Saudi Arabia
Singapore
Spain
Thailand
Turkey
United Arab Emirates
United States of America

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£35,270
Total	1	£35,270

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£35,270

signalling devices.

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	4	£8,845
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	4	£8,845

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	4	£8,845

handcuffs.
shackles (2 licences).
tear gas/riot control agents.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components

		for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
3	P	goods treated for signature suppression for military use [See footnote 3]
4	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 4]
5	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets [See footnote 5]
6	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 6]
7	P	toxins
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 7]
9	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 8]
10	P	sporting shotgun ammunition [See footnote 9]

11	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 10]
12	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 11]
13	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 12]
14	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]

15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 14]
17	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 15]
18	P	components for weapon sights, weapon sights [See footnote 16]
19	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles
20	P	components for rifles, components for sniper rifles, components for sporting guns, gun mountings, rifles, small arms ammunition, sniper rifles, sporting guns, technology for rifles, technology for sniper rifles, technology for sporting guns, weapon sights
21	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 17]
22	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 18]
23	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
24	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
25	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
26	P	components for military support aircraft [See footnote 19]
27	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 20]
28	P	components for sporting shotgun ammunition, sporting shotgun ammunition
29	P	targeting equipment
30	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 21]
31	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 22]
32	P	technology for NBC detection equipment [See footnote 23]
33	T	towed hydrophone arrays [See footnote 24]
34	P	components for combat aircraft

35	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 25]
36	P	technology for space launch vehicles
37	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 28]
38	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 29]
39	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights

40	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
41	P	toxins
42	P	pistols, sporting guns, sporting shotguns
43	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 31]
44	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
45	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 30]
46	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 26]
47	P	components for military support aircraft [See footnote 27]
48	P	components for military helicopters
49	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
50	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 32]
51	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for accessories / spare parts. End use by the Air Force.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. End use by the Air Force.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. Government end use.
13. Licence granted for accessories / spare parts. Armed forces end use.
14. Licence granted for sporting / hunting purposes. Personal end use.
15. Licence granted for accessories / spare parts. Government end use.
16. Licence granted for accessories / spare parts. Civilian / commercial end use.
17. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
18. Licence granted for accessories / spare parts. Government end use.
19. Licence granted for accessories / spare parts. Armed forces end use.
20. Licence granted for accessories / spare parts. Government end use.
21. Licence granted for accessories / spare parts. Armed forces end use.
22. Licence granted for accessories / spare parts. Civilian / commercial end use.
23. Licence granted for accessories / spare parts. Civilian / commercial end use.
24. Licence granted for accessories / spare parts. Civilian / commercial end use.
25. Licence granted for accessories / spare parts. End use by the Air Force.
26. Licence granted for accessories / spare parts. Armed forces end use.
27. Licence granted for accessories / spare parts. End use by the Air Force.
28. Licence granted for end use country is a State Party to the CWC. Law enforcement agency end use.
29. Licence granted for accessories / spare parts. Government end use.
30. Licence granted for accessories / spare parts. Government end use.
31. Licence granted for accessories / spare parts. End use by the Air Force.
32. Licence granted for accessories / spare parts. End use by the Air Force.

Australian Antarctic Territory

Processing Statistics (excluding amendments)

Median processing time OIELs	71 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets

Austria

% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	35	£46,885,076
Non-military	5	£929,476
Both Military and Non-military	1	£950
Total	41	£47,815,502

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	16	£2,555,734
ML2	1	£0
ML3	2	£17,636
ML4	2	£18,602
ML5	5	£576,000
ML6	6	£76,450
ML10	6	£41,887,431
ML11	7	£75,000
ML13	4	£10,224
ML15	9	£1,668,000

armoured plate.
 components for assault rifles.
 components for body armour (3 licences).
 components for combat aircraft.
 components for military aero-engines.
 components for military helicopters.
 components for military training aircraft.
 components for mortars.
 components for pistols (2 licences).
 components for sporting guns (2 licences).

- general military vehicle components (6 licences).
- gun silencers.
- military aero-engines.
- military aircrew life support equipment.
- T military electronic equipment.
- T military guidance/navigation equipment (7 licences).
- military helmets (2 licences).
- T military image intensifier equipment (9 licences).
- T military infrared/thermal imaging equipment (9 licences).
- military support aircraft.
- munitions/ordnance detection/disposal equipment.
- T rangefinding equipment (3 licences).
- signalling devices.
- small arms ammunition.
- sporting guns (1).
- sporting guns (5).
- T targeting equipment (3 licences).
- training small arms ammunition.
- weapon night sights (2 licences).
- T weapon night sights (9 licences).
- T weapon sights (9 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C233	2	£27,360
3A231	1	£876,366
PL9010	2	£25,750

- T devices containing enriched lithium (2 licences).
- neutron generators.
- sporting shotguns (2) (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£550
PL9010	1	£400

- sporting guns (1).
- sporting shotguns (2).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£1,125,448
Total	2	£1,125,448

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£1,000,000
ML11	2	£50,448
ML21	1	£75,000

military electronic equipment.
 military guidance/navigation equipment.
 military radars.
 military software.
 software for military radars.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China
 South Korea

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment

		for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
5	P	sporting shotgun ammunition [See footnote 4]
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 5]
7	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment,

		equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
8	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 6]
9	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 7]
10	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
11	P	technology for NBC detection equipment [See footnote 8]
12	P	components for combat aircraft
13	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
14	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for

		military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 11]
15	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
16	P	components for military support aircraft [See footnote 9]
17	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 10]
18	P	components for sporting guns
19	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	20	£776,470
Non-military	47	£2,850,161
Both Military and Non-military	1	£3,949
Total	68	£3,630,580

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	15	£96,330
ML3	9	£2,440
ML5	1	£105,000
ML13	4	£572,700

- body armour.
- bomb suits (2 licences) [See footnote 7].
- components for body armour.
- components for pistols (2 licences).
- components for sporting guns.
- military helmets (2 licences) [See footnote 7].
- pistols (3) (2 licences).
- small arms ammunition (9 licences) [See footnote 9].
- sporting guns (1) (12 licences) [See footnote 9].
- sporting guns (2).
- targeting equipment [See footnote 8].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£1,637
5A002	12	£230,386
5D002	6	£45,599
5E002	1	£3,704
6A001	2	£873,959
6A002	1	£15,450
6A003	2	£108,950
7A003	2	£1,068,077
7A103	2	£30,680
8A002	1	£24,995
9A004	1	£235,724
PL9010	23	£211,000

- T components for sporting shotguns (3 licences).
- components for submersible vehicles.
- T direct view imaging equipment [See footnote 5].
- guidance/navigation equipment (2 licences) [See footnotes 1, 3].
- imaging cameras.
- T imaging cameras [See footnote 5].
- inertial equipment (2 licences).
- information security equipment (12 licences) [See footnote 10].
- information security software (3 licences) [See footnote 2].
- marine position fixing equipment (2 licences).
- non-military firing sets.
- software for information security equipment (3 licences) [See footnote 10].
- sonar log equipment.
- spacecraft telemetry and telecommand equipment [See footnote 6].
- T sporting guns (1) [See footnote 13].
- T sporting shotguns (1) (18 licences) [See footnote 12].
- T sporting shotguns (2).
- T sporting shotguns (4).
- T sporting shotguns (5).
- T sporting shotguns (8).
- technology for information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

Country Footnotes

1. The UK interprets the OSCE arms embargo for Azerbaijan as prohibiting the export of any military goods or technology to any person, or to any destination, in Azerbaijan. It has been UK practice occasionally to make an exemption in its interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations, where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	30	£38,457,680
Non-military	9	£737,699
Both Military and Non-military	1	£252,650
Total	40	£39,448,029

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£5,000
ML3	1	£625
ML4	3	£83,948
ML5	2	£7,047,890
ML9	3	£197,582
ML10	11	£29,859,152
ML11	3	£130,022
ML13	2	£493,316
ML16	2	£16,248
ML18	1	£612,281
ML21	2	£500
ML22	2	£1,342
PL5001	2	£9,774
PL5017	1	£0

anti-riot/ballistic shields (2 licences).
bomb suits (2 licences).
components for combat naval vessels.
components for fire location equipment (2 licences).
components for military auxiliary/support vessels.
components for military communications equipment (2 licences).
components for military equipment for initiating explosives [See footnote 13].
components for military helicopters.

- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- components for military patrol/assault craft.
- components for military support aircraft (5 licences).
- components for military training aircraft (2 licences).
- components for munitions/ordnance detection/disposal equipment (3 licences) [See footnote 13].
- T components for sniper rifles [See footnote 2].
- equipment for the production of explosives.
- T equipment for the use of sniper rifles [See footnote 2].
- general military aircraft components (2 licences).
- T gun mountings [See footnote 2].
- military aircraft ground equipment.
- military communications equipment (3 licences).
- military equipment for initiating explosives (2 licences) [See footnote 13].
- military helmets (2 licences).
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- military support aircraft [See footnote 16].
- munitions/ordnance detection/disposal equipment (2 licences) [See footnote 13].
- small arms ammunition.
- T sniper rifles (1) [See footnote 2].
- software for military communications equipment (2 licences).
- technology for military communications equipment (2 licences).
- unfinished products for military helicopters (2 licences).
- T weapon cleaning equipment [See footnote 2].
- T weapon sights [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£32,000
1A007	1	£4,000
2B352	1	£343,747
2E301	1	£0
5A002	2	£308,000
6A002	1	£27,180
6A003	2	£19,000
6D003	1	£3,772

- biotechnology equipment.
- civil NBC detection systems.
- direct view imaging equipment [See footnote 10].
- high performance air traffic control software.
- imaging cameras (2 licences).
- information security equipment (2 licences).
- non-military firing sets.
- technology for biotechnology equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£132,010
ML1	1	£111,845
PL5017	1	£8,795

- T direct view imaging equipment [See footnote 5].
- T equipment for the use of weapon sights [See footnote 5].
- T weapon night sights [See footnote 5].
- T weapon sight mounts [See footnote 5].

No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]
2	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
3	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 3]
4	P	components for military support aircraft [See footnote 4]
5	P	information security equipment, information security software

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.

Belarus

Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	72% (23)
% and number of SIELs completed in 60 working days	100% (32)
% [as a % of all SIEL cases processed] and number of SIELs refused	9% (3)

Median processing time OIELs	50 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	50% (1)
% [as a % of all OIELs cases processed] and number of OIELs refused	50% (1)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£90,000
Non-military	11	£496,856
Total	13	£586,856

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£90,000

small arms ammunition (2 licences) [See footnotes 1, 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

1C233	3	£4,098
5A002	2	£35,000
6A003	2	£422,000
6A005	4	£35,758

devices containing enriched lithium compounds.
 imaging cameras.
 information security equipment (2 licences).
 instrumentation cameras [See footnote 3].
 laser optical components (3 licences).
 lasers.
 products containing enriched lithium manufactures (2 licences).

Refused

	Count
Military	2
Non-military	1
Total	3

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	2

components for sniper rifles.
 sniper rifles (1).
 sporting guns (15).

Non-military

Control Entry	No. of licences with goods rated using Control Entry
MEND	1

fibrous/filamentary materials.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£26,834
Total	1	£26,834

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£26,834

corrosion resistant chemical manufacturing equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Turkmenistan

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

Country Footnotes

1. On 20 June 2011 the EU adopted additional restrictions against Belarus, including prohibitions on the supply of arms and related material, as well as on equipment which might be used for internal repression. Restrictive measures currently in force with respect to Belarus are set out in Council Decision 2012/642/CFSP, as amended; as well as Council Regulation (EC) No 765/2006, as amended.
All exports for this destination were approved in accordance with the sanctions in place.
2. The Republic of Belarus (Sanctions) (EU Exit) Regulations 2019, which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements and which apply to military goods and technology, as well as goods and technology, which might be used for internal repression. The Regulations make provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£4,310,176
Total	3	£4,310,176

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£2,676
ML6	2	£4,307,500

components for military improvised explosive device decoying/detection/disposal/jamming equipment.
military support vehicles (2 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£84,845
Non-military	6	£382,554
Total	9	£467,399

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML13	2	£40,400
ML15	1	£44,445

military helmets (2 licences).
military infrared/thermal imaging equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A005	2	£18,668
5A002	4	£363,887

civil body armour (2 licences).
information security equipment (4 licences).

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£4,300
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£4,300

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£4,300

tear gas/riot control agents.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£7,430
Non-military	5	£1,408,339
Total	6	£1,415,769

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	1	£7,430

aircraft military communications equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£20,150

5A001	1	£567,939
5A002	2	£803,450
5D001	1	£0
6A003	1	£16,800

civil explosive detection/identification equipment.
imaging cameras.
information security equipment (2 licences).
software for telecommunications interception equipment.
telecommunications interception equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 2]
3	P	components for military support aircraft [See footnote 3]

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£9,268
Non-military	10	£583,664
Total	14	£592,932

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£627
ML6	1	£5,081
ML18	1	£3,560

ballistic test equipment [See footnote 2].
 components for machine guns (2 licences).
 general military vehicle components [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£1,316
2B201	1	£200,000
5A002	8	£382,348

deuterium solutions.
 information security equipment (8 licences).
 machine tools.

No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military

		<p>guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
3	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]</p>
4	P	<p>components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 5]</p>

5	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 6]
6	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 7]
7	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
8	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
10	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable

		systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 12]
11	P	machine guns [See footnote 13]
12	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets [See footnote 14]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
14	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 18]
15	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 19]
16	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
17	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 20]
18	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 21]
19	P	components for combat aircraft
20	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 22]
21	P	components for military support aircraft [See footnote 25]
22	P	civil unmanned air vehicles, launch support equipment for civil unmanned air vehicles, technology for civil unmanned air vehicles [See footnote 34]
23	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for

		military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 35]
24	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 26]
25	P	components for military support aircraft [See footnote 27]
26	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 36]
27	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 28]
28	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 29]
29	P	information security equipment, information security software [See footnote 30]
30	P	marine position fixing equipment, underwater telecommunications systems
31	P	components for military support aircraft, equipment for the production of military support aircraft, technology for military support aircraft, unfinished products for military support aircraft [See footnote 31]
32	P	military guidance/navigation equipment [See footnote 32]
33	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, components for surface-to-surface missiles, equipment for the use of air-to-surface missiles, equipment for the use of surface-to-surface missiles, unfinished products for air-to-surface missiles, unfinished products for launching/handling/control equipment for missiles, unfinished products for surface-to-surface missiles [See footnote 33]
34	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

Rejected

Applications to this destination refused in full.

No.	Type	Goods Summary
1	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
2	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment

Issued

promoting the supply of airborne refuelling equipment [See footnote 15].
 promoting the supply of aircraft cannons [See footnote 15].
 promoting the supply of aircraft military communications equipment [See footnote 15].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 15].
 promoting the supply of anti-aircraft guns [See footnote 15].
 promoting the supply of anti-armour ammunition [See footnote 15].
 promoting the supply of anti-armour weapons [See footnote 15].
 promoting the supply of anti-riot/ballistic shields [See footnote 15].
 promoting the supply of artillery [See footnote 15].
 promoting the supply of assault rifles [See footnote 15].
 promoting the supply of attack alerting/warning equipment [See footnote 15].
 promoting the supply of body armour [See footnote 15].
 promoting the supply of caseless ammunition weapons [See footnote 15].
 promoting the supply of combat helicopters [See footnote 15].
 promoting the supply of combat shotguns [See footnote 15].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 15].
 promoting the supply of components for assault rifles [See footnote 15].
 promoting the supply of components for body armour [See footnote 15].
 promoting the supply of components for combat shotguns [See footnote 15].
 promoting the supply of components for machine guns [See footnote 15].
 promoting the supply of components for pistols [See footnote 15].
 promoting the supply of components for rifles [See footnote 15].
 promoting the supply of components for smooth-bore weapons [See footnote 15].
 promoting the supply of components for sniper rifles [See footnote 15].
 promoting the supply of components for sporting guns [See footnote 15].
 promoting the supply of components for sporting shotguns [See footnote 15].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 15].

promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 15].

promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 15].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 15].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 15].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 15].

promoting the supply of CS hand grenades [See footnote 15].

promoting the supply of devices containing military pyrotechnic materials [See footnote 15].

promoting the supply of electronic countermeasure equipment [See footnote 15].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 15].

promoting the supply of equipment for the use of aircraft cannons [See footnote 15].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 15].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 15].

promoting the supply of equipment for the use of artillery [See footnote 15].

promoting the supply of equipment for the use of assault rifles [See footnote 15].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 15].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 15].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 15].

promoting the supply of equipment for the use of fire location equipment [See footnote 15].

promoting the supply of equipment for the use of flash suppressers [See footnote 15].

promoting the supply of equipment for the use of grenade launchers [See footnote 15].

promoting the supply of equipment for the use of gun silencers [See footnote 15].

promoting the supply of equipment for the use of heavy machine guns [See footnote 15].

promoting the supply of equipment for the use of machine guns [See footnote 15].

promoting the supply of equipment for the use of military radars [See footnote 15].

promoting the supply of equipment for the use of mortars [See footnote 15].

promoting the supply of equipment for the use of periscopes [See footnote 15].

promoting the supply of equipment for the use of pistols [See footnote 15].

promoting the supply of equipment for the use of projectile launchers [See footnote 15].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 15].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 15].

promoting the supply of equipment for the use of rifles [See footnote 15].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 15].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 15].

promoting the supply of equipment for the use of sniper rifles [See footnote 15].

promoting the supply of equipment for the use of sporting guns [See footnote 15].

promoting the supply of equipment for the use of sporting shotguns [See footnote 15].

promoting the supply of equipment for the use of targeting equipment [See footnote 15].

promoting the supply of equipment for the use of weapon control equipment [See footnote 15].

promoting the supply of equipment for the use of weapon mountings [See footnote 15].

promoting the supply of equipment for the use of weapon night sights [See footnote 15].

promoting the supply of equipment for the use of weapon sights [See footnote 15].

promoting the supply of fire location equipment [See footnote 15].

promoting the supply of flash suppressers [See footnote 15].

promoting the supply of fuze setting devices [See footnote 15].

promoting the supply of general military aircraft components [See footnote 15].

promoting the supply of grenade launchers [See footnote 15].

promoting the supply of gun mountings [See footnote 15].

promoting the supply of gun silencers [See footnote 15].

promoting the supply of hand grenades [See footnote 15].

promoting the supply of heavy machine guns [See footnote 15].

promoting the supply of illuminators [See footnote 15].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 15].

promoting the supply of machine guns [See footnote 15].

promoting the supply of military aero-engines [See footnote 15].

promoting the supply of military aircraft ground equipment [See footnote 15].

promoting the supply of military aircraft head-up/down displays [See footnote 15].

promoting the supply of military aircraft pressure refuellers [See footnote 15].

promoting the supply of military aircrew life support equipment [See footnote 15].

promoting the supply of military aircrew safety equipment [See footnote 15].

promoting the supply of military cameras/photographic equipment [See footnote 15].

promoting the supply of military combat vehicles [See footnote 15].
 promoting the supply of military helmets [See footnote 15].
 promoting the supply of military image intensifier equipment [See footnote 15].
 promoting the supply of military image recording/processing equipment [See footnote 15].
 promoting the supply of military imaging radar sensor equipment [See footnote 15].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 15].
 promoting the supply of military radars [See footnote 15].
 promoting the supply of military support vehicles [See footnote 15].
 promoting the supply of mortars [See footnote 15].
 promoting the supply of periscopes [See footnote 15].
 promoting the supply of pistols [See footnote 15].
 promoting the supply of projectile launchers [See footnote 15].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 15].
 promoting the supply of rangefinding equipment [See footnote 15].
 promoting the supply of recognition/identification equipment [See footnote 15].
 promoting the supply of rifles [See footnote 15].
 promoting the supply of sensor integration equipment [See footnote 15].
 promoting the supply of signalling devices [See footnote 15].
 promoting the supply of small arms ammunition [See footnote 15].
 promoting the supply of smoke canisters [See footnote 15].
 promoting the supply of smooth-bore weapons [See footnote 15].
 promoting the supply of sniper rifles [See footnote 15].
 promoting the supply of sporting guns [See footnote 15].
 promoting the supply of sporting shotguns [See footnote 15].
 promoting the supply of targeting equipment [See footnote 15].
 promoting the supply of unmanned air vehicles [See footnote 15].
 promoting the supply of water cannon [See footnote 15].
 promoting the supply of weapon cleaning equipment [See footnote 15].
 promoting the supply of weapon control equipment [See footnote 15].
 promoting the supply of weapon mountings [See footnote 15].
 promoting the supply of weapon night sights [See footnote 15].
 promoting the supply of weapon sight mounts [See footnote 15].
 promoting the supply of weapon sights [See footnote 15].

Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	100% (4)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	113 days
% and number of OIELs completed in 20 working days	0% (0)
% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	4	£128,761
Total	4	£128,761

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	4	£128,761

information security equipment (4 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations,

		software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]

Types of goods on licence	No. of licences	Value
Military	12	£2,947,943
Non-military	3	£19,404
Both Military and Non-military	2	£1,290,690
Total	17	£4,258,037

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	7	£1,301,740
ML5	5	£174,000
ML6	1	£10,200
ML10	1	£8,140
ML11	8	£83,623
ML15	7	£1,370,240

- T components for military electronic equipment.
 equipment for the use of weapon night sights [See footnote 6].
 general military vehicle components.
 military aircrew safety equipment.
 military communications equipment (2 licences).
- T military guidance/navigation equipment (5 licences) [See footnotes 1, 14, 6].
 T military image intensifier equipment (7 licences) [See footnotes 1, 13, 14, 6, 9].
 T military infrared/thermal imaging equipment (7 licences) [See footnotes 1, 13, 14, 6, 9].
 T rangefinding equipment (5 licences) [See footnotes 1, 13, 14, 6, 9].
 T weapon night sights (7 licences) [See footnotes 1, 13, 14, 6, 9].
 T weapon sights (7 licences) [See footnotes 1, 13, 14, 6, 9].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£3,404
5A001	1	£10,000
5A002	2	£6,000

- T corrosion resistant chemical manufacturing equipment.
 T information security equipment (2 licences).
 T RF direction finding equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	2	£845,140
6A003	1	£45,590
ML1	2	£399,960

- T direct view imaging equipment (2 licences).
 T imaging cameras.
 T weapon night sights (2 licences).
 T weapon sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

2	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 2]
3	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
4	P	machine guns [See footnote 4]
5	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
6	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 5]
7	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 7]
8	P	aircraft military communications equipment, components for aircraft military

		communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 8]
9	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 12]
10	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
11	P	components for military support aircraft [See footnote 10]
12	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 11]
13	P	marine position fixing equipment, underwater telecommunications systems

Case & goods Footnotes

1. Licence granted for demonstration to potential customers. Armed forces end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Armed forces end use.

5. Licence granted for accessories / spare parts. End use by the Air Force.
6. Licence granted for testing and evaluation purposes.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. End use by the Air Force.
9. Licence granted for demonstration to potential customers. Law enforcement agency end use.
10. Licence granted for accessories / spare parts. End use by the Air Force.
11. Licence granted for accessories / spare parts. Civilian / commercial end use.
12. Licence granted for accessories / spare parts. Government end use.
13. Licence granted for demonstration to potential customers. Government end use.
14. Licence granted for demonstration to potential customers. Government end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	17	£1,554,447
Non-military	4	£51,292
Both Military and Non-military	1	£6,488
Total	22	£1,612,227

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£649,322
ML3	2	£16,800
ML9	5	£885,225
ML13	1	£3,100

- T anti-armour ammunition.
assault rifles (10).
components for body armour.
components for combat naval vessels.
components for submarines (4 licences).
- T machine guns (15).
military helmets.
small arms ammunition (2 licences).
sniper rifles (1).
sporting guns (1) (3 licences).
sporting guns (3).
weapon night sights (3 licences).
weapon sights (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£465
0C002	1	£0
0D001	1	£1
0E001	1	£1
7A103	1	£50,000
7E003	1	£10
PL9010	1	£815

- T inertial equipment.
software for nuclear reactors.
sporting shotguns (1).
- T technology for inertial equipment.
technology for nuclear reactors.
thorium.
uranium-233.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£6,488
PL9010	1	£0

- components for sporting guns.
sporting shotguns (2).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	5	£1,753,492

Total	5	£1,753,492

Canada
Taiwan
United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 1]
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
3	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 2]
4	P	command communications control and intelligence software, technology for command communications control and intelligence software
5	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military

		training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
6	P	components for sporting guns [See footnote 4]
7	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 5]
8	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
9	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 6]
10	T	towed hydrophone arrays
11	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the

		production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
12	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
13	P	components for military support aircraft [See footnote 7]
14	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 8]

- assault rifles (3).
- command communications control and intelligence software.
- components for artillery ammunition (4 licences).
- components for assault rifles.
- components for combat aircraft (3 licences).
- components for decoying/countermeasure equipment.
- components for decoying/countermeasure equipment.
- components for military aero-engines (2 licences).
- components for military combat vehicles.
- components for military communications equipment.
- components for military support aircraft.
- components for NBC protective/defensive equipment (2 licences).
- components for small arms ammunition.
- components for sniper rifles.
- components for sporting guns.
- components for surface launched rockets.
- components for targeting equipment (8 licences).
- components for turrets.
- decoying/countermeasure equipment.
- T equipment for the use of weapon night sights.

	general military aircraft components.
	general naval vessel components.
	gun mountings (3 licences).
	military combat vehicles (4 licences).
	military communications equipment.
	military electronic equipment.
T	military electronic equipment (3 licences).
T	military guidance/navigation equipment.
	military helmets.
T	military image intensifier equipment.
T	military infrared/thermal imaging equipment.
	military support vehicles.
	NBC protective/defensive equipment.
	pyrotechnics/fuels and related substances.
T	rangefinding equipment.
	rifles (2).
	small arms ammunition (5 licences).
	sniper rifles (1020).
	sporting guns (1).
	sporting guns (3).
	sporting guns (15).
T	targeting equipment.
	technology for assault rifles.
	technology for body armour.
	technology for command communications control and intelligence software.
	technology for decoying/countermeasure equipment.
	technology for surface launched rockets.
	unfinished products for general military vehicle components (2 licences).
	wall/door breaching projectiles/ammunition (2 licences).
	weapon night sights (2 licences).
T	weapon night sights (2 licences).
	weapon sights (5 licences).
T	weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	3	£6,980
0E001	6	£20,012
1A004	2	£2,133
1C001	2	£3,975
1C233	1	£1,984
1C351	8	£1,892
1C353	1	£5
2B230	1	£1,372
3A225	1	£680
5A002	3	£26,490
5D002	1	£5,640
5E002	1	£36
6A001	1	£479,300
6A002	1	£115,000
7A004	1	£1,200
PL9010	11	£252,901

	bacteria (2 licences).
T	civil explosive detection/identification equipment.
	civil NBC protection clothing.
	components for gyro-astro compasses.
	devices containing enriched lithium manufactures.
	electromagnetic wave absorbing materials (2 licences).
	focal plane arrays.
	frequency changers.
	hydrophones.
	information security equipment (2 licences).
T	information security equipment.

materials containing natural uranium (2 licences).
 natural uranium.
 pressure transducers.
 T software for information security equipment.
 sporting shotguns (1) (7 licences).
 sporting shotguns (2) (3 licences).
 sporting shotguns (24).
 technology for enriched uranium.
 technology for information security equipment.
 technology for materials containing enriched uranium.
 technology for materials containing plutonium-239.
 technology for materials containing uranium-233.
 technology for materials controlled by entry 0C of the Dual-Use Regulation.
 technology for nuclear fuel reprocessing equipment (4 licences).
 technology for nuclear grade graphite (2 licences).
 technology for nuclear reactor fuel element fabrication equipment (2 licences).
 technology for nuclear reactors (4 licences).
 technology for plutonium-239.
 technology for products containing enriched uranium.
 technology for products containing plutonium-239.
 technology for products containing uranium-233.
 technology for uranium-233.
 toxins (5 licences).
 viruses.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	4	£11,090
PL9010	4	£5,012

components for sporting guns.
 sporting guns (20).
 sporting guns (23).
 sporting guns (26).
 sporting guns (28).
 sporting shotguns (2).
 sporting shotguns (8).
 sporting shotguns (32).
 sporting shotguns (66).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	28	£6,869,467
Non-military	2	£118,786
Total	30	£6,988,253

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£2,370
ML5	8	£540,128
ML6	5	£1,004,894
ML9	1	£94,500
ML10	5	£306,106
ML11	6	£4,700,469
ML21	2	£220,000
ML22	4	£1,000

combat aircraft.
 command communications control and intelligence software (2 licences).
 components for artillery ammunition.
 components for combat aircraft.
 components for military combat vehicles (3 licences).
 components for military electronic equipment (3 licences).
 components for military guidance/navigation equipment.
 components for military sonars.
 components for military support aircraft.
 components for surface-to-surface missiles.
 components for targeting equipment (2 licences) [See footnote 1].
 components for turrets (2 licences).
 components for weapon control equipment (5 licences) [See footnote 18].
 general military aircraft components (2 licences).
 military aero-engines.
 military electronic equipment.
 military guidance/navigation equipment.
 naval electrical/electronic equipment.
 technology for command communications control and intelligence software (2 licences).
 technology for military electronic equipment.
 technology for surface-to-surface missiles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£89,786
6A002	1	£29,000

corrosion resistant chemical manufacturing equipment.
 focal plane arrays.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
 Australia
 Bulgaria
 Chile
 China
 France
 Ghana
 Greece
 India
 Italy
 Kuwait
 Lithuania

Luxembourg
 Mexico
 Morocco
 New Zealand
 Norway
 Peru
 Poland
 Romania
 Saudi Arabia
 Slovakia
 South Korea
 Sweden
 Switzerland
 Taiwan
 Tunisia
 Turkey
 United Arab Emirates
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
2	P	technology for imaging cameras, technology for information security equipment, technology for space qualified focal plane arrays, technology for spacecraft attitude and orbit control systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 3]
3	P	technology for focal plane arrays, technology for imaging cameras, technology for information security equipment, technology for software for spacecraft, technology for software for spacecraft attitude and orbit control systems, technology for software for spacecraft payload data handling systems, technology for spacecraft, technology for spacecraft attitude and orbit control systems, technology for spacecraft buses, technology for spacecraft command and telemetry data handling systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 4]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems,

		<p>attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
5	P	<p>components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 5]</p>
6	P	<p>toxins</p>
7	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military</p>

		support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 7]
9	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 8]
10	P	sporting shotgun ammunition [See footnote 9]
11	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
12	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for

		the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
13	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
14	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
15	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 12]
16	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles
17	P	components for rifles, components for sniper rifles, components for sporting guns, gun mountings, rifles, small arms ammunition, sniper rifles, sporting guns, technology for rifles, technology for sniper rifles, technology for sporting guns, weapon sights
18	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 13]
19	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 14]
20	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
21	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
22	P	components for military support aircraft [See footnote 15]
23	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 16]
24	P	components for sporting shotgun ammunition, sporting shotgun ammunition
25	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 17]
26	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 19]

27	P	components for military aero-engines, military aero-engines, technology for military aero-engines
28	P	technology for NBC detection equipment [See footnote 20]
29	P	components for combat aircraft
30	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 21]
31	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 26]
32	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 27]
33	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
34	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs,

		<p>components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
35	P	<p>components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights</p>
36	P	<p>information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 22]</p>
37	P	<p>toxins</p>

38	P	pistols, sporting guns, sporting shotguns
39	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 29]
40	P	technology for nuclear reactors
41	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 28]
42	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 23]
43	P	components for military support aircraft [See footnote 24]
44	P	components for artillery
45	T	towed hydrophone arrays
46	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
47	P	components for military support aircraft, equipment for the production of military support aircraft, technology for military support aircraft, unfinished products for military support aircraft [See footnote 25]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£40,450
Total	1	£40,450

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£40,450

civil explosive detection/identification equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 2]
3	P	components for military support aircraft [See footnote 3]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.

 promoting the supply of military support vehicles [See footnote 1].
 promoting the supply of mortars [See footnote 1].
 promoting the supply of periscopes [See footnote 1].
 promoting the supply of pistols [See footnote 1].
 promoting the supply of projectile launchers [See footnote 1].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].
 promoting the supply of rangefinding equipment [See footnote 1].
 promoting the supply of recognition/identification equipment [See footnote 1].
 promoting the supply of rifles [See footnote 1].
 promoting the supply of sensor integration equipment [See footnote 1].
 promoting the supply of signalling devices [See footnote 1].
 promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Country Footnotes

1. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2339 (2017) extended the arms embargo until 31 January 2018 and amended the designation criteria.

2. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2339 (2017) extended the arms embargo until 31 January 2018 and amended the designation criteria. The EU implements these measures through Council Decision 2013/798/CFSP, as amended; as well as Council Regulation (EU) No 224/2014, as amended.
3. UN Security Council Resolution 2127 (2013) established an arms embargo to restrict exports of arms, or related material, and of training, technical or financial assistance related to military activities; exemptions apply to some UN, humanitarian, peacekeeping and government entities. UNSCR 2399 (2018) extended the arms embargo until 31 January 2019. The EU implements these measures through Council Decision 2013/798/CFSP, as amended; as well as Council Regulation (EU) No 224/2014, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£240,601
Non-military	1	£1,300
Total	4	£241,901

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£7,011
ML13	1	£23,790
ML15	1	£209,800

body armour.
 components for body armour.
 components for military equipment for initiating explosives.
 components for military image intensifier equipment.
 military helmets.
 military image intensifier equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£1,300

information security equipment.

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML13	1

body armour.
 components for body armour.
 military helmets.

promoting the supply of fuze setting devices [See footnote 3].

promoting the supply of general military aircraft components [See footnote 3].

promoting the supply of grenade launchers [See footnote 3].

promoting the supply of gun mountings [See footnote 3].

promoting the supply of gun silencers [See footnote 3].

promoting the supply of hand grenades [See footnote 3].

promoting the supply of heavy machine guns [See footnote 3].

promoting the supply of illuminators [See footnote 3].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 3].

promoting the supply of machine guns [See footnote 3].

promoting the supply of military aero-engines [See footnote 3].

promoting the supply of military aircraft ground equipment [See footnote 3].

promoting the supply of military aircraft head-up/down displays [See footnote 3].

promoting the supply of military aircraft pressure refuellers [See footnote 3].

promoting the supply of military aircrew life support equipment [See footnote 3].

promoting the supply of military aircrew safety equipment [See footnote 3].

promoting the supply of military cameras/photographic equipment [See footnote 3].

promoting the supply of military combat vehicles [See footnote 3].

promoting the supply of military helmets [See footnote 3].

promoting the supply of military image intensifier equipment [See footnote 3].

promoting the supply of military image recording/processing equipment [See footnote 3].
 promoting the supply of military imaging radar sensor equipment [See footnote 3].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 3].
 promoting the supply of military radars [See footnote 3].
 promoting the supply of military support vehicles [See footnote 3].
 promoting the supply of mortars [See footnote 3].
 promoting the supply of periscopes [See footnote 3].
 promoting the supply of pistols [See footnote 3].
 promoting the supply of projectile launchers [See footnote 3].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 3].
 promoting the supply of rangefinding equipment [See footnote 3].
 promoting the supply of recognition/identification equipment [See footnote 3].
 promoting the supply of rifles [See footnote 3].
 promoting the supply of sensor integration equipment [See footnote 3].
 promoting the supply of signalling devices [See footnote 3].
 promoting the supply of small arms ammunition [See footnote 3].
 promoting the supply of smoke canisters [See footnote 3].
 promoting the supply of smooth-bore weapons [See footnote 3].
 promoting the supply of sniper rifles [See footnote 3].
 promoting the supply of sporting guns [See footnote 3].
 promoting the supply of sporting shotguns [See footnote 3].
 promoting the supply of targeting equipment [See footnote 3].
 promoting the supply of unmanned air vehicles [See footnote 3].
 promoting the supply of water cannon [See footnote 3].
 promoting the supply of weapon cleaning equipment [See footnote 3].
 promoting the supply of weapon control equipment [See footnote 3].
 promoting the supply of weapon mountings [See footnote 3].
 promoting the supply of weapon night sights [See footnote 3].
 promoting the supply of weapon sight mounts [See footnote 3].
 promoting the supply of weapon sights [See footnote 3].

Processing Statistics (excluding amendments)

Median processing time SIELs	8 days
% and number of SIELs completed in 20 working days	97% (111)
% and number of SIELs completed in 60 working days	100% (115)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	114 days
% and number of OIELs completed in 20 working days	11% (2)
% and number of OIELs completed in 60 working days	37% (7)
% [as a % of all OIELs cases processed] and number of OIELs refused	5% (1)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	83	£472,720

Non-military	7	£99,730
Total	90	£572,450

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	35	£114,030
ML2	7	£14,274
ML3	16	£58,465
ML5	1	£3,779
ML6	20	£220,416
ML15	1	£53,869
ML18	1	£38
PL5001	1	£342
PL5017	5	£7,507

anti-riot/ballistic shields.
 assault rifles (2) (3 licences).
 assault rifles (7).
 components for artillery (7 licences).
 components for assault rifles (2 licences).
 components for machine guns (2 licences).
 components for military combat vehicles (10 licences).
 components for military infrared/thermal imaging equipment.
 components for pistols (10 licences).
 components for small arms ammunition (3 licences).
 components for sporting guns (2 licences).
 components for sporting shotguns.
 components for tanks (7 licences).
 components for weapon cleaning equipment (2 licences).
 components for weapon control equipment.
 equipment for the production of small arms ammunition.
 equipment for the use of military combat vehicles (3 licences).
 general military vehicle components (3 licences).
 gun silencers.
 machine guns (1).
 machine guns (6).
 pistols (1) (7 licences).
 pistols (2) (4 licences).
 pistols (3).
 pistols (4).
 pistols (6).
 pistols (6).
 pistols (11).
 rifles (3).
 small arms ammunition (9 licences).
 sporting guns (1) (5 licences).
 sporting guns (1).
 sporting guns (2).
 sporting guns (3).
 sporting guns (8).
 sporting shotgun ammunition (5 licences).
 training small arms ammunition.
 weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	7	£99,730

components for sporting shotguns.
sporting shotguns (1) (5 licences).
sporting shotguns (2).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	11	£219,428
Total	11	£219,428

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£27,935
ML5	5	£164,608
ML6	5	£26,885

components for military combat vehicles.
components for periscopes.
components for tanks (2 licences).
components for turrets.
components for weapon control equipment (3 licences).
general military vehicle components.
launching/handling/control equipment for missiles.
periscopes.

The items being incorporated in this destination are ultimately destined for all or some of the following:

United Kingdom

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£12,000
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£12,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£12,000

portable riot control electric-shock devices.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	sporting shotgun ammunition [See footnote 2]
3	T	inertial equipment [See footnote 3]
4	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 4]
5	P	components for sporting guns [See footnote 5]
6	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 6]
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	P	components for military combat vehicles, components for military support vehicles, components for tanks, general military vehicle components
9	P	components for combat shotguns, components for sniper rifles
10	P	components for sporting guns, components for sporting shotguns, sporting guns, sporting shotguns
11	P	components for military support vehicles, components for military trailers, general military vehicle components, military support vehicles, military trailers
12	P	sporting guns [See footnote 7]

13	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 3]
3	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 4]
4	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 5]

5	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 6]
6	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
7	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 8]
8	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 9]
9	P	components for military support aircraft [See footnote 10]
10	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 19]

11	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 12]
12	P	information security equipment, software for information security equipment, technology for information security equipment
13	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 13]
14	P	components for military support aircraft [See footnote 14]
15	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 20]
16	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 15]
17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 16]
18	P	information security equipment, information security software [See footnote 17]
19	P	marine position fixing equipment, underwater telecommunications systems
20	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
21	P	military guidance/navigation equipment [See footnote 18]
22	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	65	£11,672,708
Non-military	907	£366,322,070
Both Military and Non-military	1	£29,360
Total	973	£378,024,137

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£565
ML3	1	£3,000,000
ML4	9	£118,488
ML5	1	£75,164
ML6	3	£35,671
ML7	2	£4,701,070
ML9	7	£721,231
ML10	10	£1,544,703
ML11	12	£214,652
ML14	2	£2,940
ML15	1	£74,109
ML17	1	£1,050,000
ML18	5	£113,902
ML21	5	£9,476
ML22	18	£10,736

- ballistic test equipment (4 licences).
- components for ballistic test equipment (3 licences).
- components for combat aircraft (3 licences).
- components for combat naval vessels (2 licences) [See footnote 5].
- components for ground vehicle military communications equipment (2 licences) [See footnote 32].
- components for military auxiliary/support vessels (4 licences) [See footnote 38].
- components for military combat vehicles.
- components for military diving apparatus.
- components for military electronic equipment (5 licences).
- components for military equipment for initiating explosives.
- components for military guidance/navigation equipment (2 licences).
- components for military helicopters.
- components for military image intensifier equipment.
- components for military support aircraft.
- A components for munitions/ordnance detection/disposal equipment (6 licences).
- components for NBC detection equipment.
- components for periscopes.
- components for signalling devices.
- equipment for the production of military aero-engines (4 licences).
- equipment for the use of NBC detection equipment.
- general naval vessel components [See footnote 15].
- military aircrew safety equipment (5 licences) [See footnote 3].
- military diving apparatus.
- A military equipment for initiating explosives (2 licences).
- military guidance/navigation equipment.
- T military software.
- T military training equipment (2 licences).
- A munitions/ordnance detection/disposal equipment (4 licences).
- NBC detection equipment.
- small arms ammunition.
- software for ballistic test equipment (4 licences).
- technology for ballistic test equipment (4 licences).
- technology for combat aircraft.
- technology for combat naval vessels.
- technology for general military vehicle components (2 licences).
- technology for ground vehicle military communications equipment (3 licences) [See footnote 32].
- technology for military electronic equipment (2 licences).
- technology for military guidance/navigation equipment (2 licences).
- technology for NBC detection equipment (2 licences).
- technology for periscopes.
- technology for recognition/identification equipment.
- technology for signalling devices.
- technology for weapon night sights.
- T weapon sights (3 licences) [See footnote 35].

A - Some or all of which were issued on appeal.

- T acoustic seabed survey equipment (4 licences).
acoustic seabed survey equipment.
alpha-emitting radionuclides.
beryllium.
biotechnology equipment (8 licences).
chemicals used for chemical/materials production.
chemicals used for industrial/commercial processes.
chemicals used for pharmaceutical/healthcare production.
civil explosive detection/identification equipment (12 licences).
civil NBC protection equipment.
civil unmanned air vehicles [See footnote 4].
components for biotechnology equipment.
components for corrosion resistant chemical manufacturing equipment (12 licences).
components for information security equipment.
components for instrumentation cameras (6 licences).
components for marine position fixing equipment.
components for metal powder production equipment.
components for nuclear reactors.
components for radar equipment.
components for radar equipment.
components for semiconductor manufacturing equipment (6 licences).
components for submersible equipment.
components for submersible vehicles.
components for toxic gas detectors.
components for toxic gas monitoring equipment (2 licences).
constituents of propellants.
controlled atmosphere furnaces (5 licences).
corrosion resistant chemical manufacturing equipment (46 licences).
deuterium compounds (6 licences).
deuterium solutions (7 licences).
devices containing enriched lithium compounds (3 licences).
digital recorder systems.
dimensional inspection equipment (5 licences).
dimensional measuring equipment (4 licences).
electronics cooling fluids.
enriched uranium.
equipment for the production of gas turbines (7 licences).
explosives detection equipment (5 licences).
explosives detection equipment.
extended temperature range integrated circuits (4 licences).
fibrous/filamentary materials (5 licences).
focal plane arrays (6 licences) [See footnote 21].
focal plane arrays (2 licences).
frequency changers (17 licences) [See footnote 12].
frequency generators.
guidance/navigation equipment (2 licences).
guidance/navigation equipment.
hafnium (3 licences).
hafnium manufactures.
helium-3 (8 licences).
imaging cameras (152 licences) [See footnotes 13, 36, 9].
imaging cameras (3 licences).

inertial equipment (83 licences) [See footnotes 18, 42, 6, 7, 8].
 information security equipment (130 licences).
 T information security equipment (6 licences).
 information security software (26 licences).
 Rv instrumentation cameras (78 licences) [See footnotes 10, 20, 24, 25, 28].
 laser electro-optical components.
 laser optical components.
 lasers (46 licences) [See footnote 26].
 launch support equipment for civil unmanned air vehicles [See footnote 4].
 machine tools.
 magnesium.
 magnetic gradiometers.
 Rv magnetometers (25 licences) [See footnotes 14, 29, 39].
 marine position fixing equipment (15 licences) [See footnotes 19, 33, 37].
 mass spectrometers (12 licences) [See footnote 11].
 metal alloy cylindrical forms (17 licences).
 metal alloy powder production equipment (3 licences).
 metal alloys in powder form.
 microwave components.
 natural uranium (3 licences).
 nickel powders (3 licences).
 nuclear radiation detection equipment.
 plant pathogens.
 plutonium-239.
 pressure transducers (16 licences).
 products containing depleted uranium.
 products containing enriched lithium (3 licences).
 products containing thorium.
 radiation hardened TV cameras (5 licences).
 remote manipulators.
 remote sensing imaging sensors.
 T RF direction finding equipment.
 rotary position encoders (2 licences).
 semiconductor manufacturing equipment (10 licences).
 semiconductor wafers with epitaxial layers (9 licences).
 software for frequency changers (3 licences).
 software for information security equipment (26 licences) [See footnote 34].
 software for information security software.
 software for nuclear reactors [See footnote 30].
 software for submersible vehicle control systems (2 licences).
 software for vibration test equipment.
 sonar log equipment (3 licences) [See footnote 43].
 space qualified focal plane arrays (3 licences).
 submersible equipment (8 licences) [See footnotes 2, 31, 41].
 submersible vehicle control systems (2 licences).
 submersible vehicles (2 licences) [See footnote 42].
 syntactic foam (3 licences) [See footnote 22].
 technology for advanced telecommunications equipment (8 licences).
 technology for biotechnology equipment.
 technology for corrosion resistant chemical manufacturing equipment (6 licences).
 technology for equipment for the production of gas turbines (4 licences).
 technology for equipment for the production of space qualified focal plane arrays.
 technology for equipment for the use of space qualified focal plane arrays.
 technology for focal plane arrays.
 technology for frequency changers.
 technology for general purpose integrated circuits (6 licences).
 technology for imaging cameras (2 licences).
 technology for information security equipment (3 licences).
 technology for information security software (8 licences).
 technology for laser electro-optical components.
 technology for lasers (4 licences).
 technology for metal alloy materials.
 technology for semiconductor wafers with epitaxial layers (2 licences).
 technology for space qualified focal plane arrays (4 licences).
 thorium (3 licences).
 toxic gas detectors (4 licences).
 toxic gas monitoring equipment (7 licences).
 vibration test equipment.

- promoting the supply of airborne refuelling equipment [See footnote 27].
- promoting the supply of aircraft cannons [See footnote 27].
- promoting the supply of aircraft military communications equipment [See footnote 27].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 27].
- promoting the supply of anti-aircraft guns [See footnote 27].
- promoting the supply of anti-armour ammunition [See footnote 27].
- promoting the supply of anti-armour weapons [See footnote 27].
- promoting the supply of anti-riot/ballistic shields [See footnote 27].
- promoting the supply of artillery [See footnote 27].
- promoting the supply of assault rifles [See footnote 27].
- promoting the supply of attack alerting/warning equipment [See footnote 27].
- promoting the supply of body armour [See footnote 27].
- promoting the supply of caseless ammunition weapons [See footnote 27].
- promoting the supply of combat helicopters [See footnote 27].
- promoting the supply of combat shotguns [See footnote 27].
- promoting the supply of command/control equipment for unmanned air vehicles [See footnote 27].
- promoting the supply of components for assault rifles [See footnote 27].
- promoting the supply of components for body armour [See footnote 27].
- promoting the supply of components for combat shotguns [See footnote 27].
- promoting the supply of components for machine guns [See footnote 27].
- promoting the supply of components for pistols [See footnote 27].
- promoting the supply of components for rifles [See footnote 27].
- promoting the supply of components for smooth-bore weapons [See footnote 27].
- promoting the supply of components for sniper rifles [See footnote 27].
- promoting the supply of components for sporting guns [See footnote 27].
- promoting the supply of components for sporting shotguns [See footnote 27].

promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 27].

promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 27].

promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 27].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 27].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 27].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 27].

promoting the supply of CS hand grenades [See footnote 27].

promoting the supply of devices containing military pyrotechnic materials [See footnote 27].

promoting the supply of electronic countermeasure equipment [See footnote 27].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 27].

promoting the supply of equipment for the use of aircraft cannons [See footnote 27].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 27].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 27].

promoting the supply of equipment for the use of artillery [See footnote 27].

promoting the supply of equipment for the use of assault rifles [See footnote 27].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 27].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 27].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 27].

promoting the supply of equipment for the use of fire location equipment [See footnote 27].

promoting the supply of equipment for the use of flash suppressers [See footnote 27].

promoting the supply of equipment for the use of grenade launchers [See footnote 27].

promoting the supply of equipment for the use of gun silencers [See footnote 27].

promoting the supply of equipment for the use of heavy machine guns [See footnote 27].

promoting the supply of equipment for the use of machine guns [See footnote 27].

promoting the supply of equipment for the use of military radars [See footnote 27].

promoting the supply of equipment for the use of mortars [See footnote 27].

promoting the supply of equipment for the use of periscopes [See footnote 27].

promoting the supply of equipment for the use of pistols [See footnote 27].

promoting the supply of equipment for the use of projectile launchers [See footnote 27].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 27].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 27].

promoting the supply of equipment for the use of rifles [See footnote 27].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 27].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 27].

promoting the supply of equipment for the use of sniper rifles [See footnote 27].

promoting the supply of equipment for the use of sporting guns [See footnote 27].

promoting the supply of equipment for the use of sporting shotguns [See footnote 27].

promoting the supply of equipment for the use of targeting equipment [See footnote 27].

promoting the supply of equipment for the use of weapon control equipment [See footnote 27].

promoting the supply of equipment for the use of weapon mountings [See footnote 27].

promoting the supply of equipment for the use of weapon night sights [See footnote 27].

promoting the supply of equipment for the use of weapon sights [See footnote 27].

promoting the supply of fire location equipment [See footnote 27].

promoting the supply of flash suppressers [See footnote 27].

promoting the supply of fuze setting devices [See footnote 27].

promoting the supply of general military aircraft components [See footnote 27].

promoting the supply of grenade launchers [See footnote 27].

promoting the supply of gun mountings [See footnote 27].

promoting the supply of gun silencers [See footnote 27].

promoting the supply of hand grenades [See footnote 27].

promoting the supply of heavy machine guns [See footnote 27].

promoting the supply of illuminators [See footnote 27].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 27].

promoting the supply of machine guns [See footnote 27].

promoting the supply of military aero-engines [See footnote 27].

promoting the supply of military aircraft ground equipment [See footnote 27].

promoting the supply of military aircraft head-up/down displays [See footnote 27].

promoting the supply of military aircraft pressure refuellers [See footnote 27].

promoting the supply of military aircrew life support equipment [See footnote 27].

promoting the supply of military aircrew safety equipment [See footnote 27].
 promoting the supply of military cameras/photographic equipment [See footnote 27].
 promoting the supply of military combat vehicles [See footnote 27].
 promoting the supply of military helmets [See footnote 27].
 promoting the supply of military image intensifier equipment [See footnote 27].
 promoting the supply of military image recording/processing equipment [See footnote 27].
 promoting the supply of military imaging radar sensor equipment [See footnote 27].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 27].
 promoting the supply of military radars [See footnote 27].
 promoting the supply of military support vehicles [See footnote 27].
 promoting the supply of mortars [See footnote 27].
 promoting the supply of periscopes [See footnote 27].
 promoting the supply of pistols [See footnote 27].
 promoting the supply of projectile launchers [See footnote 27].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 27].
 promoting the supply of rangefinding equipment [See footnote 27].
 promoting the supply of recognition/identification equipment [See footnote 27].
 promoting the supply of rifles [See footnote 27].
 promoting the supply of sensor integration equipment [See footnote 27].
 promoting the supply of signalling devices [See footnote 27].
 promoting the supply of small arms ammunition [See footnote 27].
 promoting the supply of smoke canisters [See footnote 27].
 promoting the supply of smooth-bore weapons [See footnote 27].
 promoting the supply of sniper rifles [See footnote 27].
 promoting the supply of sporting guns [See footnote 27].
 promoting the supply of sporting shotguns [See footnote 27].
 promoting the supply of targeting equipment [See footnote 27].
 promoting the supply of unmanned air vehicles [See footnote 27].
 promoting the supply of water cannon [See footnote 27].
 promoting the supply of weapon cleaning equipment [See footnote 27].
 promoting the supply of weapon control equipment [See footnote 27].
 promoting the supply of weapon mountings [See footnote 27].
 promoting the supply of weapon night sights [See footnote 27].
 promoting the supply of weapon sight mounts [See footnote 27].
 promoting the supply of weapon sights [See footnote 27].

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. The UK interpretation of this embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.

2	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 2]
3	T	inertial equipment [See footnote 3]
4	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 4]

5	P	components for weapon sights, weapon sights
6	P	components for sporting guns [See footnote 7]
7	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
8	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 8]
9	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 9]
10	T	towed hydrophone arrays
11	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 12]

12	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
13	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
14	P	components for military support aircraft [See footnote 14]

Issued

accessories for demolition charges/devices [See footnote 11].
 components for demolition charges/devices [See footnote 11].
 components for munitions/ordnance detection/disposal equipment [See footnote 11].
 promoting the supply of airborne refuelling equipment [See footnote 5].
 promoting the supply of aircraft cannons [See footnote 5].
 promoting the supply of aircraft military communications equipment [See footnote 5].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 5].
 promoting the supply of anti-aircraft guns [See footnote 5].
 promoting the supply of anti-armour ammunition [See footnote 5].
 promoting the supply of anti-armour weapons [See footnote 5].
 promoting the supply of anti-riot/ballistic shields [See footnote 5].
 promoting the supply of artillery [See footnote 5].
 promoting the supply of assault rifles [See footnote 5].
 promoting the supply of attack alerting/warning equipment [See footnote 5].
 promoting the supply of body armour [See footnote 5].
 promoting the supply of caseless ammunition weapons [See footnote 5].
 promoting the supply of combat helicopters [See footnote 5].
 promoting the supply of combat shotguns [See footnote 5].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 5].
 promoting the supply of components for assault rifles [See footnote 5].
 promoting the supply of components for body armour [See footnote 5].
 promoting the supply of components for combat shotguns [See footnote 5].
 promoting the supply of components for machine guns [See footnote 5].
 promoting the supply of components for pistols [See footnote 5].
 promoting the supply of components for rifles [See footnote 5].
 promoting the supply of components for smooth-bore weapons [See footnote 5].
 promoting the supply of components for sniper rifles [See footnote 5].
 promoting the supply of components for sporting guns [See footnote 5].
 promoting the supply of components for sporting shotguns [See footnote 5].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 5].

promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 5].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 5].

promoting the supply of CS hand grenades [See footnote 5].

promoting the supply of devices containing military pyrotechnic materials [See footnote 5].

promoting the supply of electronic countermeasure equipment [See footnote 5].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 5].

promoting the supply of equipment for the use of aircraft cannons [See footnote 5].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 5].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 5].

promoting the supply of equipment for the use of artillery [See footnote 5].

promoting the supply of equipment for the use of assault rifles [See footnote 5].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 5].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 5].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 5].

promoting the supply of equipment for the use of fire location equipment [See footnote 5].

promoting the supply of equipment for the use of flash suppressers [See footnote 5].

promoting the supply of equipment for the use of grenade launchers [See footnote 5].

promoting the supply of equipment for the use of gun silencers [See footnote 5].

promoting the supply of equipment for the use of heavy machine guns [See footnote 5].

promoting the supply of equipment for the use of machine guns [See footnote 5].

promoting the supply of equipment for the use of military radars [See footnote 5].

promoting the supply of equipment for the use of mortars [See footnote 5].

promoting the supply of equipment for the use of periscopes [See footnote 5].

promoting the supply of equipment for the use of pistols [See footnote 5].

promoting the supply of equipment for the use of projectile launchers [See footnote 5].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 5].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 5].

promoting the supply of equipment for the use of rifles [See footnote 5].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 5].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 5].

promoting the supply of equipment for the use of sniper rifles [See footnote 5].

promoting the supply of equipment for the use of sporting guns [See footnote 5].

promoting the supply of equipment for the use of sporting shotguns [See footnote 5].

promoting the supply of equipment for the use of targeting equipment [See footnote 5].

promoting the supply of equipment for the use of weapon control equipment [See footnote 5].

promoting the supply of equipment for the use of weapon mountings [See footnote 5].

promoting the supply of equipment for the use of weapon night sights [See footnote 5].

promoting the supply of equipment for the use of weapon sights [See footnote 5].

promoting the supply of fire location equipment [See footnote 5].

promoting the supply of flash suppressers [See footnote 5].

promoting the supply of fuze setting devices [See footnote 5].

promoting the supply of general military aircraft components [See footnote 5].

promoting the supply of grenade launchers [See footnote 5].

promoting the supply of gun mountings [See footnote 5].

promoting the supply of gun silencers [See footnote 5].

promoting the supply of hand grenades [See footnote 5].

promoting the supply of heavy machine guns [See footnote 5].

promoting the supply of illuminators [See footnote 5].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 5].

promoting the supply of machine guns [See footnote 5].

promoting the supply of military aero-engines [See footnote 5].

promoting the supply of military aircraft ground equipment [See footnote 5].

promoting the supply of military aircraft head-up/down displays [See footnote 5].

promoting the supply of military aircraft pressure refuellers [See footnote 5].

promoting the supply of military aircrew life support equipment [See footnote 5].

promoting the supply of military aircrew safety equipment [See footnote 5].

promoting the supply of military cameras/photographic equipment [See footnote 5].

promoting the supply of military combat vehicles [See footnote 5].

promoting the supply of military helmets [See footnote 5].
 promoting the supply of military image intensifier equipment [See footnote 5].
 promoting the supply of military image recording/processing equipment [See footnote 5].
 promoting the supply of military imaging radar sensor equipment [See footnote 5].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 5].
 promoting the supply of military radars [See footnote 5].
 promoting the supply of military support vehicles [See footnote 5].
 promoting the supply of mortars [See footnote 5].
 promoting the supply of periscopes [See footnote 5].
 promoting the supply of pistols [See footnote 5].
 promoting the supply of projectile launchers [See footnote 5].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 5].
 promoting the supply of rangefinding equipment [See footnote 5].
 promoting the supply of recognition/identification equipment [See footnote 5].
 promoting the supply of rifles [See footnote 5].
 promoting the supply of sensor integration equipment [See footnote 5].
 promoting the supply of signalling devices [See footnote 5].
 promoting the supply of small arms ammunition [See footnote 5].
 promoting the supply of smoke canisters [See footnote 5].
 promoting the supply of smooth-bore weapons [See footnote 5].
 promoting the supply of sniper rifles [See footnote 5].
 promoting the supply of sporting guns [See footnote 5].
 promoting the supply of sporting shotguns [See footnote 5].
 promoting the supply of targeting equipment [See footnote 5].
 promoting the supply of unmanned air vehicles [See footnote 5].
 promoting the supply of water cannon [See footnote 5].
 promoting the supply of weapon cleaning equipment [See footnote 5].
 promoting the supply of weapon control equipment [See footnote 5].
 promoting the supply of weapon mountings [See footnote 5].
 promoting the supply of weapon night sights [See footnote 5].
 promoting the supply of weapon sight mounts [See footnote 5].
 promoting the supply of weapon sights [See footnote 5].

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	41	£4,306,383
Non-military	3	£16,200
Total	44	£4,322,583

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	13	£1,547,938
ML3	2	£6,833
ML4	2	£46,096
ML5	1	£9,521
ML6	3	£21,902
ML7	3	£79,965
ML10	5	£53,517
ML11	2	£24,471
ML13	2	£1,000
ML14	3	£839,103
ML16	2	£1,077,473
ML18	4	£598,561
ML22	4	£4

- assault rifles.
- components for body armour.
- components for combat aircraft (2 licences).
- components for launching/handling/control equipment for munitions (2 licences).
- components for machine guns.
- components for military aero-engines.
- components for military aircraft head-up/down displays.
- components for military communications equipment.
- components for military radars.
- components for military training equipment.
- components for NBC protective/defensive equipment (2 licences).
- T components for pistols.
- components for small arms ammunition.
- components for sniper rifles.
- equipment for the production of military training aircraft (4 licences).
- equipment for the use of artillery.
- general military aircraft components.
- general military vehicle components (2 licences).
- ground vehicle military communications equipment.
- gun mountings.
- gun silencers.
- military communications equipment.
- military helmets.

T military training equipment.
NBC detection equipment.
pistols (1) (2 licences).
pistols (5).
pistols.
small arms ammunition.
small arms training equipment.
sniper rifles (1).
sporting guns (1) (4 licences).
sporting guns (2).
technology for equipment for the production of military training aircraft (2 licences).
technology for production installations for military training aircraft (2 licences).
unfinished products for naval engines.
unfinished products for sporting guns.
weapon night sights (2 licences).
weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C001	1	£1,200
1C233	1	£8,110
PL9010	1	£6,890

T devices containing enriched lithium.
electromagnetic wave absorbing materials.
sporting shotguns (2).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	7	£1,445,431
Total	7	£1,445,431

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	2	£27,186
ML6	2	£1,408,295
ML10	3	£9,949

components for combat aircraft (2 licences).
components for heavy machine guns (2 licences).
components for military combat vehicles.
components for military support aircraft.
turrets [See footnote 7].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil
Germany
Italy
Romania
Sweden
Switzerland
United Arab Emirates
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support

		aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
5	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 4]
6	P	sporting shotgun ammunition [See footnote 5]
7	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]
8	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
9	P	components for weapon sights, weapon sights
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
11	P	components for sporting guns [See footnote 8]

12	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
13	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
14	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 9]
15	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
16	P	components for combat aircraft
17	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling

		equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
18	P	components for military support aircraft [See footnote 10]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£357,769
Non-military	20	£883,262
Total	26	£1,241,031

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	3	£250,014
ML13	3	£107,755

body armour (3 licences).
 components for body armour (3 licences).
 components for military aero-engines (2 licences).
 military aero-engines.
 military helmets (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	1	£2,378
5A002	16	£825,314
5D002	3	£5,560
7A103	1	£50,000
7E101	1	£10

components for corrosion resistant chemical manufacturing equipment [See footnote 1].
 cryptanalytic software.
 T inertial equipment.
 information security equipment (16 licences).
 information security software (2 licences).
 T technology for inertial equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

Issued

promoting the supply of airborne refuelling equipment [See footnote 5].
 promoting the supply of aircraft cannons [See footnote 5].
 promoting the supply of aircraft military communications equipment [See footnote 5].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 5].
 promoting the supply of anti-aircraft guns [See footnote 5].
 promoting the supply of anti-armour ammunition (2 licences) [See footnotes 4, 5].
 promoting the supply of anti-armour weapons [See footnote 5].
 promoting the supply of anti-personnel land mines [See footnote 4].
 promoting the supply of anti-riot/ballistic shields [See footnote 5].
 promoting the supply of artillery [See footnote 5].
 promoting the supply of assault rifles (2 licences) [See footnotes 4, 5].
 promoting the supply of attack alerting/warning equipment [See footnote 5].
 promoting the supply of body armour [See footnote 5].
 promoting the supply of caseless ammunition weapons [See footnote 5].
 promoting the supply of combat helicopters [See footnote 5].
 promoting the supply of combat shotguns [See footnote 5].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 5].
 promoting the supply of components for assault rifles [See footnote 5].
 promoting the supply of components for body armour [See footnote 5].
 promoting the supply of components for combat shotguns [See footnote 5].
 promoting the supply of components for machine guns [See footnote 5].
 promoting the supply of components for pistols (2 licences) [See footnotes 4, 5].
 promoting the supply of components for rifles [See footnote 5].
 promoting the supply of components for smooth-bore weapons [See footnote 5].
 promoting the supply of components for sniper rifles [See footnote 5].
 promoting the supply of components for sporting guns [See footnote 5].
 promoting the supply of components for sporting shotguns [See footnote 5].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 5].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 5].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 5].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 5].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 5].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 5].
 promoting the supply of CS hand grenades [See footnote 5].
 promoting the supply of demolition charges/devices [See footnote 4].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 5].
 promoting the supply of electronic countermeasure equipment [See footnote 5].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 5].

promoting the supply of equipment for the use of aircraft cannons [See footnote 5].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 5].
 promoting the supply of equipment for the use of anti-armour weapons [See footnote 5].
 promoting the supply of equipment for the use of artillery [See footnote 5].
 promoting the supply of equipment for the use of assault rifles [See footnote 5].
 promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 5].
 promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 5].
 promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 5].
 promoting the supply of equipment for the use of fire location equipment [See footnote 5].
 promoting the supply of equipment for the use of flash suppressers [See footnote 5].
 promoting the supply of equipment for the use of grenade launchers [See footnote 5].
 promoting the supply of equipment for the use of gun silencers [See footnote 5].
 promoting the supply of equipment for the use of heavy machine guns [See footnote 5].
 promoting the supply of equipment for the use of machine guns [See footnote 5].
 promoting the supply of equipment for the use of military radars [See footnote 5].
 promoting the supply of equipment for the use of mortars [See footnote 5].
 promoting the supply of equipment for the use of periscopes [See footnote 5].
 promoting the supply of equipment for the use of pistols [See footnote 5].
 promoting the supply of equipment for the use of projectile launchers [See footnote 5].
 promoting the supply of equipment for the use of rangefinding equipment [See footnote 5].
 promoting the supply of equipment for the use of recognition/identification equipment [See footnote 5].
 promoting the supply of equipment for the use of rifles [See footnote 5].
 promoting the supply of equipment for the use of sensor integration equipment [See footnote 5].
 promoting the supply of equipment for the use of smooth-bore weapons [See footnote 5].
 promoting the supply of equipment for the use of sniper rifles [See footnote 5].
 promoting the supply of equipment for the use of sporting guns [See footnote 5].
 promoting the supply of equipment for the use of sporting shotguns [See footnote 5].
 promoting the supply of equipment for the use of targeting equipment [See footnote 5].
 promoting the supply of equipment for the use of weapon control equipment [See footnote 5].
 promoting the supply of equipment for the use of weapon mountings [See footnote 5].
 promoting the supply of equipment for the use of weapon night sights [See footnote 5].
 promoting the supply of equipment for the use of weapon sights [See footnote 5].
 promoting the supply of explosives [See footnote 4].
 promoting the supply of fire location equipment [See footnote 5].
 promoting the supply of flash suppressers [See footnote 5].
 promoting the supply of fuze setting devices [See footnote 5].
 promoting the supply of general military aircraft components [See footnote 5].
 promoting the supply of grenade launchers [See footnote 5].
 promoting the supply of gun mountings [See footnote 5].
 promoting the supply of gun silencers [See footnote 5].
 promoting the supply of hand grenades (2 licences) [See footnotes 4, 5].
 promoting the supply of heavy machine guns [See footnote 5].
 promoting the supply of illuminators [See footnote 5].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 5].
 promoting the supply of machine guns [See footnote 5].
 promoting the supply of military aero-engines [See footnote 5].
 promoting the supply of military aircraft ground equipment [See footnote 5].
 promoting the supply of military aircraft head-up/down displays [See footnote 5].
 promoting the supply of military aircraft pressure refuellers [See footnote 5].
 promoting the supply of military aircrew life support equipment [See footnote 5].
 promoting the supply of military aircrew safety equipment [See footnote 5].
 promoting the supply of military cameras/photographic equipment [See footnote 5].
 promoting the supply of military combat vehicles [See footnote 5].
 promoting the supply of military equipment for initiating explosives [See footnote 4].
 promoting the supply of military helmets [See footnote 5].
 promoting the supply of military image intensifier equipment [See footnote 5].
 promoting the supply of military image recording/processing equipment [See footnote 5].
 promoting the supply of military imaging radar sensor equipment [See footnote 5].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 5].
 promoting the supply of military radars [See footnote 5].
 promoting the supply of military support vehicles [See footnote 5].
 promoting the supply of mortars [See footnote 5].
 promoting the supply of periscopes [See footnote 5].
 promoting the supply of pistols (2 licences) [See footnotes 4, 5].
 promoting the supply of projectile launchers [See footnote 5].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 5].
 promoting the supply of rangefinding equipment [See footnote 5].

promoting the supply of recognition/identification equipment [See footnote 5].
 promoting the supply of rifles [See footnote 5].
 promoting the supply of sensor integration equipment [See footnote 5].
 promoting the supply of signalling devices (2 licences) [See footnotes 4, 5].
 promoting the supply of small arms ammunition (2 licences) [See footnotes 4, 5].
 promoting the supply of smoke canisters [See footnote 5].
 promoting the supply of smooth-bore weapons [See footnote 5].
 promoting the supply of sniper rifles [See footnote 5].
 promoting the supply of sporting guns [See footnote 5].
 promoting the supply of sporting shotgun ammunition [See footnote 4].
 promoting the supply of sporting shotguns [See footnote 5].
 promoting the supply of surface launched rockets [See footnote 4].
 promoting the supply of targeting equipment [See footnote 5].
 promoting the supply of training explosive charges/devices [See footnote 4].
 promoting the supply of unmanned air vehicles [See footnote 5].
 promoting the supply of wall/door breaching projectiles/ammunition [See footnote 4].
 promoting the supply of water cannon [See footnote 5].
 promoting the supply of weapon cleaning equipment [See footnote 5].
 promoting the supply of weapon control equipment [See footnote 5].
 promoting the supply of weapon mountings [See footnote 5].
 promoting the supply of weapon night sights [See footnote 5].
 promoting the supply of weapon sight mounts [See footnote 5].
 promoting the supply of weapon sights [See footnote 5].

Country Footnotes

1. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2293 (2016) which extended the arms embargo until 1 July 2017, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the adoption of UNSCR 1807 (2008), the UN arms embargo with respect to the DRC only applies to non-governmental entities and individuals. The embargo was most recently renewed through UNSCR 2360 (2017) which extended the arms embargo until 1 July 2018, and currently prohibits the supply, sale or transfer of arms and related materiel to all non-governmental entities and individuals operating in the DRC; some exports must be approved in advance by the Sanctions Committee. The EU implements these measures through Council Decision 2010/788/CFSP, as amended; as well as Council Regulation (EU) No 1183/2005, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for chemical manufacturing equipment. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£74,250
Non-military	2	£22,447
Total	3	£96,697

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£70,500
ML17	1	£3,750

military field generators.
military support vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£22,082
5E002	1	£365

information security equipment (2 licences).
technology for information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£872,445
Non-military	6	£28,989,590
Total	9	£29,862,035

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£26,988
ML5	1	£838,984
ML11	1	£6,473
ML22	2	£0

components for military electronic equipment.
components for sniper rifles.
flash suppressers.
gun mountings.
sniper rifles (6).
targeting equipment.
technology for sniper rifles.
technology for targeting equipment.

weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£200
1A004	2	£43,990
5A002	3	£28,700,400
5D002	2	£245,000

civil explosive detection/identification equipment (2 licences).
 deuterium solutions.
 information security equipment (3 licences).
 software for information security equipment (2 licences).

Issued

accessories for military image intensifier equipment (3 licences) [See footnotes 21, 29].
 accessories for military infrared/thermal imaging equipment (3 licences) [See footnotes 21, 29].
 assault rifles (4 licences) [See footnotes 17, 21, 29].
 blank/inert ammunition (3 licences) [See footnotes 21, 29].
 body armour (4 licences) [See footnotes 17, 21, 29].
 combat shotguns [See footnote 17].
 components for assault rifles (4 licences) [See footnotes 17, 21, 29].
 components for blank/inert ammunition (3 licences) [See footnotes 21, 29].
 components for body armour (4 licences) [See footnotes 17, 21, 29].
 components for combat shotguns [See footnote 17].
 components for crowd control ammunition (3 licences) [See footnotes 21, 29].
 components for flash suppressors [See footnote 17].
 components for flash suppressors (3 licences) [See footnotes 21, 29].
 components for gun mountings (4 licences) [See footnotes 17, 21, 29].
 components for gun silencers (4 licences) [See footnotes 17, 21, 29].
 components for military helmets (4 licences) [See footnotes 17, 21, 29].
 components for military image intensifier equipment (4 licences) [See footnotes 17, 21, 29].
 components for military infrared/thermal imaging equipment (3 licences) [See footnotes 21, 29].
 components for military shotguns (3 licences) [See footnotes 21, 29].
 components for pistols (4 licences) [See footnotes 17, 21, 29].
 components for rifles (4 licences) [See footnotes 17, 21, 29].

components for small arms ammunition (4 licences) [See footnotes 17, 21, 29].
components for smoke/pyrotechnic ammunition (3 licences) [See footnotes 21, 29].
components for smooth-bore weapons (4 licences) [See footnotes 17, 21, 29].
components for sniper rifles (4 licences) [See footnotes 17, 21, 29].
components for sporting guns (4 licences) [See footnotes 17, 21, 29].
components for sporting shotgun ammunition (4 licences) [See footnotes 17, 21, 29].
components for sporting shotguns (4 licences) [See footnotes 17, 21, 29].
components for tactical shotguns (3 licences) [See footnotes 21, 29].
components for tear gas/irritant ammunition (3 licences) [See footnotes 21, 29].
components for weapon night sights (4 licences) [See footnotes 17, 21, 29].
components for weapon sights (4 licences) [See footnotes 17, 21, 29].
crowd control ammunition (3 licences) [See footnotes 21, 29].
flash suppressors [See footnote 17].
flash suppressors (3 licences) [See footnotes 21, 29].
gun mountings (4 licences) [See footnotes 17, 21, 29].
gun silencers (4 licences) [See footnotes 17, 21, 29].
military helmets (4 licences) [See footnotes 17, 21, 29].
military image intensifier equipment (4 licences) [See footnotes 17, 21, 29].
military infrared/thermal imaging equipment (4 licences) [See footnotes 17, 21, 29].
military shotguns (3 licences) [See footnotes 21, 29].
pistols (4 licences) [See footnotes 17, 21, 29].
promoting the supply of airborne refuelling equipment [See footnote 6].
promoting the supply of aircraft cannons [See footnote 6].
promoting the supply of aircraft military communications equipment [See footnote 6].
promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 6].
promoting the supply of anti-aircraft guns [See footnote 6].
promoting the supply of anti-armour ammunition [See footnote 6].
promoting the supply of anti-armour weapons [See footnote 6].
promoting the supply of anti-riot/ballistic shields [See footnote 6].
promoting the supply of artillery [See footnote 6].
promoting the supply of assault rifles [See footnote 6].
promoting the supply of attack alerting/warning equipment [See footnote 6].
promoting the supply of body armour [See footnote 6].
promoting the supply of caseless ammunition weapons [See footnote 6].
promoting the supply of combat helicopters [See footnote 6].
promoting the supply of combat shotguns [See footnote 6].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 6].
promoting the supply of components for assault rifles [See footnote 6].
promoting the supply of components for body armour [See footnote 6].
promoting the supply of components for combat shotguns [See footnote 6].
promoting the supply of components for machine guns [See footnote 6].
promoting the supply of components for pistols [See footnote 6].
promoting the supply of components for rifles [See footnote 6].
promoting the supply of components for smooth-bore weapons [See footnote 6].
promoting the supply of components for sniper rifles [See footnote 6].
promoting the supply of components for sporting guns [See footnote 6].
promoting the supply of components for sporting shotguns [See footnote 6].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 6].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 6].
promoting the supply of CS hand grenades [See footnote 6].
promoting the supply of devices containing military pyrotechnic materials [See footnote 6].
promoting the supply of electronic countermeasure equipment [See footnote 6].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 6].
promoting the supply of equipment for the use of aircraft cannons [See footnote 6].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 6].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 6].
promoting the supply of equipment for the use of artillery [See footnote 6].
promoting the supply of equipment for the use of assault rifles [See footnote 6].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 6].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 6].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 6].
promoting the supply of equipment for the use of fire location equipment [See footnote 6].
promoting the supply of equipment for the use of flash suppressers [See footnote 6].
promoting the supply of equipment for the use of grenade launchers [See footnote 6].
promoting the supply of equipment for the use of gun silencers [See footnote 6].
promoting the supply of equipment for the use of heavy machine guns [See footnote 6].
promoting the supply of equipment for the use of machine guns [See footnote 6].
promoting the supply of equipment for the use of military radars [See footnote 6].
promoting the supply of equipment for the use of mortars [See footnote 6].
promoting the supply of equipment for the use of periscopes [See footnote 6].
promoting the supply of equipment for the use of pistols [See footnote 6].
promoting the supply of equipment for the use of projectile launchers [See footnote 6].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 6].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 6].
promoting the supply of equipment for the use of rifles [See footnote 6].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 6].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 6].
promoting the supply of equipment for the use of sniper rifles [See footnote 6].
promoting the supply of equipment for the use of sporting guns [See footnote 6].
promoting the supply of equipment for the use of sporting shotguns [See footnote 6].
promoting the supply of equipment for the use of targeting equipment [See footnote 6].
promoting the supply of equipment for the use of weapon control equipment [See footnote 6].
promoting the supply of equipment for the use of weapon mountings [See footnote 6].
promoting the supply of equipment for the use of weapon night sights [See footnote 6].
promoting the supply of equipment for the use of weapon sights [See footnote 6].
promoting the supply of fire location equipment [See footnote 6].
promoting the supply of flash suppressers [See footnote 6].
promoting the supply of fuze setting devices [See footnote 6].
promoting the supply of general military aircraft components [See footnote 6].
promoting the supply of grenade launchers [See footnote 6].
promoting the supply of gun mountings [See footnote 6].
promoting the supply of gun silencers [See footnote 6].
promoting the supply of hand grenades [See footnote 6].
promoting the supply of heavy machine guns [See footnote 6].
promoting the supply of illuminators [See footnote 6].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 6].
promoting the supply of machine guns [See footnote 6].
promoting the supply of military aero-engines [See footnote 6].
promoting the supply of military aircraft ground equipment [See footnote 6].
promoting the supply of military aircraft head-up/down displays [See footnote 6].
promoting the supply of military aircraft pressure refuellers [See footnote 6].
promoting the supply of military aircrew life support equipment [See footnote 6].
promoting the supply of military aircrew safety equipment [See footnote 6].
promoting the supply of military cameras/photographic equipment [See footnote 6].
promoting the supply of military combat vehicles [See footnote 6].
promoting the supply of military helmets [See footnote 6].
promoting the supply of military image intensifier equipment [See footnote 6].
promoting the supply of military image recording/processing equipment [See footnote 6].
promoting the supply of military imaging radar sensor equipment [See footnote 6].
promoting the supply of military infrared/thermal imaging equipment [See footnote 6].
promoting the supply of military radars [See footnote 6].
promoting the supply of military support vehicles [See footnote 6].
promoting the supply of mortars [See footnote 6].
promoting the supply of periscopes [See footnote 6].
promoting the supply of pistols [See footnote 6].
promoting the supply of projectile launchers [See footnote 6].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 6].
promoting the supply of rangefinding equipment [See footnote 6].
promoting the supply of recognition/identification equipment [See footnote 6].
promoting the supply of rifles (2 licences) [See footnotes 5, 6].
promoting the supply of sensor integration equipment [See footnote 6].
promoting the supply of signalling devices [See footnote 6].
promoting the supply of small arms ammunition [See footnote 6].
promoting the supply of smoke canisters [See footnote 6].
promoting the supply of smooth-bore weapons [See footnote 6].
promoting the supply of sniper rifles [See footnote 6].

promoting the supply of sporting guns (2 licences) [See footnotes 5, 6].
promoting the supply of sporting shotguns [See footnote 6].
promoting the supply of targeting equipment [See footnote 6].
promoting the supply of unmanned air vehicles [See footnote 6].
promoting the supply of water cannon [See footnote 6].
promoting the supply of weapon cleaning equipment [See footnote 6].
promoting the supply of weapon control equipment [See footnote 6].
promoting the supply of weapon mountings [See footnote 6].
promoting the supply of weapon night sights [See footnote 6].
promoting the supply of weapon sight mounts [See footnote 6].
promoting the supply of weapon sights [See footnote 6].
rifles (4 licences) [See footnotes 17, 21, 29].
small arms ammunition (4 licences) [See footnotes 17, 21, 29].
smoke/pyrotechnic ammunition (3 licences) [See footnotes 21, 29].
smooth-bore weapons (4 licences) [See footnotes 17, 21, 29].
sniper rifles (4 licences) [See footnotes 17, 21, 29].
sporting guns (4 licences) [See footnotes 17, 21, 29].
sporting shotgun ammunition (4 licences) [See footnotes 17, 21, 29].
sporting shotguns (4 licences) [See footnotes 17, 21, 29].
tactical shotguns (3 licences) [See footnotes 21, 29].
tear gas/irritant ammunition (3 licences) [See footnotes 21, 29].
weapon night sights (4 licences) [See footnotes 17, 21, 29].
weapon sights (4 licences) [See footnotes 17, 21, 29].

Rejected

promoting the supply of acoustic devices for riot control (4 licences).
promoting the supply of assault rifles (4 licences).
promoting the supply of body armour (4 licences).
promoting the supply of components for acoustic devices for riot control (4 licences).
promoting the supply of components for assault rifles (4 licences).
promoting the supply of components for body armour (4 licences).
promoting the supply of components for flash suppressers (2 licences).
promoting the supply of components for flash suppressors (2 licences).
promoting the supply of components for ground vehicle military communications equipment (4 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£166,926
Non-military	4	£52,633
Total	8	£219,559

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£15,000
ML10	1	£1,826
ML13	1	£25,100
ML15	1	£125,000

T
body armour.
components for body armour.
components for military support aircraft.
military infrared/thermal imaging equipment.
military support vehicles.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B201	1	£39,063

5A002	3	£13,570
-------	---	---------

information security equipment (3 licences).
machine tools.

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML11	1
ML14	1
ML22	1

accessories for military training equipment.
components for military training equipment.
equipment for the use of military training equipment.
military training equipment.
technology for military training equipment.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	24	£3,091,065
Non-military	7	£248,200
Both Military and Non-military	1	£328
Total	32	£3,339,593

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£570,091
ML3	1	£2,100
ML4	2	£138,593
ML5	2	£72,000
ML6	6	£1,429,302
ML11	1	£22,000
ML13	1	£640,000
ML15	1	£216,220
ML22	3	£759

	assault rifles (1).
	components for assault rifles (2 licences).
	components for body armour.
	components for decoying/countermeasure equipment.
	components for military combat vehicles.
	components for military support vehicles.
	components for small arms ammunition.
	components for sniper rifles.
T	components for sniper rifles.
T	components for sporting guns.
	decoying/countermeasure equipment (2 licences).
T	equipment for the use of weapon night sights [See footnote 12].
	general military vehicle components (4 licences).
T	general military vehicle components.
	gun silencers (2 licences).
T	military guidance/navigation equipment [See footnote 12].
T	military image intensifier equipment [See footnote 12].
T	military infrared/thermal imaging equipment [See footnote 12].
	military support vehicles.
	military trailers.
T	rangefinding equipment [See footnote 12].
T	sniper rifles (1).

- T sporting guns (1).
targeting equipment.
technology for decoying/countermeasure equipment (2 licences).
technology for military support vehicles.
weapon night sights (5 licences).
- T weapon night sights [See footnote 12].
weapon sights.
- T weapon sights [See footnote 12].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0A001	2	£43,013
8A001	1	£170,000
8A002	1	£20,000
PL9010	4	£15,187

- components for nuclear reactors (2 licences).
sporting shotguns (1) (3 licences).
sporting shotguns (2).
- T submersible equipment.
- T submersible vehicles.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML8	1	£114
PL9002	1	£214

- explosives.
non-military energetic materials.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	5	£161,981
Non-military	1	£71,395
Total	6	£233,377

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	3	£131,575
ML7	2	£27,251

ML11	1	£3,155
------	---	--------

components for combat helicopters.
 components for military combat vehicles (2 licences) [See footnote 17].
 components for NBC detection equipment.
 equipment for the use of NBC detection equipment.
 general military vehicle components.
 NBC detection equipment (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£71,395

information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Bulgaria
 Indonesia
 Malaysia
 Romania
 Slovakia
 Slovenia
 South Africa
 United Arab Emirates

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]

3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 3]
5	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 4]
6	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 6]
8	P	sporting shotgun ammunition [See footnote 7]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the

		use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 8]
10	T	towed hydrophone arrays [See footnote 9]
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
12	P	components for weapon sights, weapon sights
13	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
14	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 10]
15	T	towed hydrophone arrays
16	P	direct view imaging equipment, imaging cameras, targeting equipment

17	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 11]
18	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
19	P	technology for NBC detection equipment [See footnote 13]
20	P	components for combat aircraft
21	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
22	P	components for military support aircraft [See footnote 14]
23	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 18]

24	P	<p>aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
25	P	<p>components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights</p>

26	P	components for military support aircraft [See footnote 15]
27	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 16]
28	P	components for military helicopters
29	P	components for sporting guns
30	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	263	£93,726,392
Non-military	36	£1,285,241
Both Military and Non-military	3	£4,405
Total	302	£95,016,038

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	34	£1,992,470
ML2	6	£776,100
ML3	25	£5,383,842
ML4	39	£41,346,885
ML5	18	£2,507,765
ML6	14	£3,890,634
ML7	10	£168,165
ML8	1	£10,000,000
ML9	5	£30,740
ML10	57	£4,283,686

ML11	34	£16,573,083
ML13	7	£61,392
ML15	19	£844,447
ML16	5	£2,303,304
ML17	6	£112,462
ML18	6	£612,074
ML21	3	£933,000
ML22	15	£1,586,350
PL5001	1	£239,000
PL5017	3	£80,995

- T accessories for military image intensifier equipment.
aircraft military communications equipment (2 licences).
all-wheel drive vehicles with ballistic protection.
anti-armour ammunition (4 licences).
anti-riot guns.
anti-riot/ballistic shields.
armoured plate.
artillery.
artillery ammunition.
assault rifles (1).
assault rifles (4).
- T assault rifles (7).
- T assault rifles (60).
- T assault rifles (75).
blank/inert ammunition (3 licences).
body armour.
- T body armour.
components for air-to-air missiles (9 licences).
components for air-to-surface missiles (8 licences).
- T components for air-to-surface missiles.
components for aircraft military communications equipment (2 licences).
components for artillery (2 licences).
components for artillery ammunition (7 licences).
components for assault rifles (3 licences).
components for body armour (5 licences).
- T components for body armour.
components for bombs.
components for combat aircraft (14 licences).
components for combat helicopters (3 licences).
components for combat naval vessels (2 licences).
components for decoying/countermeasure equipment (3 licences).
components for equipment for the production of air-to-air missiles.
components for equipment for the production of decoying/countermeasure equipment.
components for fire location equipment (3 licences).
- T components for generators/projectors.
components for gun mountings.
components for hand grenades.
components for launching/handling/control equipment for missiles (3 licences).
components for machine guns.
components for man portable air defence system missiles [See footnote 45].
components for military aero-engines (7 licences).
components for military auxiliary/support vessels.
components for military combat vehicles (3 licences).
components for military communications equipment (6 licences).
components for military electronic equipment (4 licences).
components for military equipment for initiating explosives (2 licences).
components for military guidance/navigation equipment (11 licences).
components for military helicopters (26 licences).
components for military improvised explosive device decoying/detection/disposal/jamming equipment.
components for military infrared/thermal imaging equipment (12 licences).
components for military radars (3 licences).
components for military shotguns.
components for multi-role missiles (3 licences).
components for NBC detection equipment.

T components for NBC detection equipment.
components for NBC protective/defensive equipment (3 licences).

T components for NBC protective/defensive equipment (2 licences).
components for periscopes.
components for pistols (2 licences).

T components for pistols (2 licences).
components for sniper rifles (11 licences).

T components for sniper rifles (2 licences).
components for sporting guns.
components for submarines (2 licences).
components for surface-to-air missiles (3 licences).
components for surface-to-surface missiles (4 licences).

T components for surface-to-surface missiles.
components for tactical shotguns.
components for targeting equipment (5 licences).
components for tear gas/irritant ammunition (2 licences).
components for training artillery ammunition.
components for training small arms ammunition.
components for unmanned air vehicles.

T components for unmanned air vehicles.
decoying/countermeasure equipment.
equipment for the development of surface-to-surface missiles.
equipment for the production of military aero-engines (3 licences).
equipment for the production of surface-to-surface missiles.
equipment for the use of fuze setting devices.
equipment for the use of gun mountings.
equipment for the use of machine guns.
equipment for the use of military infrared/thermal imaging equipment (2 licences).
equipment for the use of surface-to-surface missiles.
equipment for the use of targeting equipment.

T equipment for the use of weapon control equipment.

T equipment for the use of weapon night sights.
fuze setting devices.
general military aircraft components (2 licences).
general military vehicle components.

T grenade launchers.
gun mountings.
gun silencers (10 licences).

T gun silencers (2 licences).
launching/handling/control equipment for missiles (3 licences).

T launching/handling/control equipment for missiles.

T machine guns (12).
military combat vehicles (4 licences).

T military communications equipment (2 licences).
military containers.
military electronic equipment (2 licences).
military field generators.
military guidance/navigation equipment (2 licences).

T military guidance/navigation equipment (2 licences).
military helmets (3 licences).

T military helmets.

T military image intensifier equipment (2 licences).
military infrared/thermal imaging equipment (4 licences).

T military infrared/thermal imaging equipment (2 licences).

T military laser protection equipment (3 licences).
military support vehicles (5 licences).
military trailers.

T NBC detection equipment.
NBC protective/defensive equipment.

T NBC protective/defensive equipment (3 licences).

T pistols (2).

T pistols (5) (2 licences).

T projectile launchers.
pyrotechnics/fuels and related substances.
rangefinding equipment (3 licences).

T rangefinding equipment (2 licences).
rifles (4).
small arms ammunition (5 licences).

T small arms ammunition.
sniper rifles (1) (8 licences).

- T sniper rifles (1) (2 licences).
sniper rifles (2).
sniper rifles (6).
sniper rifles.
software enabling equipment to function as launching/handling/control equipment for missiles.
Software for modelling/simulating military operation scenarios.
- T Software for modelling/simulating/evaluating weapon systems.
targeting equipment (3 licences).
tear gas/irritant ammunition.
technology for air-to-surface missiles (6 licences).
technology for combat aircraft (2 licences).
technology for launching/handling/control equipment for man portable air defence system missiles.
technology for military aero-engines.
technology for military communications equipment.
technology for military helicopters.
technology for production installations for air-to-surface missiles.
technology for sniper rifles (2 licences).
technology for surface-to-surface missiles (2 licences).
technology for targeting equipment.
test models for surface-to-surface missiles.
training artillery ammunition.
training small arms ammunition.
unfinished products for air-to-surface missiles (3 licences).
unfinished products for military aero-engines.
unfinished products for military guidance/navigation equipment.
wall/door breaching projectiles/ammunition (2 licences).
weapon night sights.
- T weapon night sights (2 licences).
T weapon sight mounts.
T weapon sights (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£465
0C002	2	£1,000
0E001	14	£20,022
1A004	2	£62,021
1A007	2	£24,544
1C233	4	£14,197
1E001	1	£10,000
1E201	1	£0
3A228	2	£530,000
8A002	2	£5,746
PL9002	3	£296
PL9009	1	£601,250
PL9010	3	£15,700

- civil explosive detection/identification equipment (2 licences).
components for civil aero-engines.
- T devices containing enriched lithium (2 licences).
devices containing enriched lithium compounds.
devices containing enriched lithium manufactures.
enriched uranium.
materials containing plutonium-239.
materials containing uranium-233.
mixtures of non-military energetic materials (2 licences).
non-military detonators (2 licences).
non-military energetic materials.
rebreathing swimming equipment.
sporting shotguns (2).
sporting shotguns (2 licences).
submersible equipment.
technology for enriched uranium (2 licences).
technology for materials containing enriched uranium (4 licences).

technology for materials containing plutonium-239 (2 licences).
 technology for materials containing uranium-233.
 technology for materials controlled by entry 0C of the Dual-Use Regulation (2 licences).
 technology for nuclear fuel reprocessing equipment (5 licences).
 technology for nuclear reactor fuel element fabrication equipment (6 licences).
 technology for nuclear reactors (12 licences).
 technology for plutonium-239.
 technology for products containing enriched uranium.
 technology for products containing plutonium-239.
 technology for products containing uranium-233.
 technology for tritium handling equipment.
 technology for uranium-233.
 thorium.
 triggered spark gaps (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5D002	1	£1,000
ML1	2	£3,075
ML21	1	£0
PL9010	2	£330

- T information security software.
rifles (1).
- T software enabling equipment to function as military communications equipment.
sporting shotguns (1).
sporting shotguns (4).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	227	£72,508,967
Non-military	2	£317,641
Both Military and Non-military	1	£15,421
Total	230	£72,842,028

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	3	£114,306
ML4	24	£18,814,870
ML5	29	£5,967,114
ML6	20	£1,193,198
ML9	10	£1,401,178
ML10	104	£30,955,487
ML11	21	£11,024,439

ML14	2	£1,214,084
ML15	7	£971,357
ML16	10	£397,572
ML17	1	£22,258
ML21	3	£330,502
ML22	18	£102,602

components for aerial target equipment [See footnote 44].
 components for air-to-air missiles [See footnote 2].
 components for air-to-surface missiles (7 licences) [See footnotes 44, 61, 76, 77].
 components for aircraft military communications equipment (2 licences).
 components for attack alerting/warning equipment.
 components for combat aircraft (28 licences) [See footnotes 11, 28, 31, 7, 77, 9].
 components for combat helicopters (2 licences).
 components for combat naval vessels.
 components for decoying/countermeasure equipment.
 components for electronic warfare equipment (3 licences).
 components for generators/projectors.
 components for launching/handling/control equipment for missiles.
 components for military aero-engines (48 licences) [See footnotes 10, 29, 32, 53, 58, 77].
 components for military aircraft head-up/down displays (9 licences) [See footnote 30].
 components for military combat vehicles (15 licences) [See footnote 6].
 components for military communications equipment.
 components for military electronic equipment (6 licences) [See footnote 43].
 components for military guidance/navigation equipment (3 licences) [See footnote 51].
 components for military helicopters (14 licences) [See footnote 77].
 components for military infrared/thermal imaging equipment (6 licences) [See footnotes 46, 66, 68].
 components for military radars (6 licences) [See footnote 40].
 components for military sonars (2 licences).
 components for military support aircraft (4 licences) [See footnote 72].
 components for military support vehicles.
 components for military training equipment.
 components for multi-role missiles.
 components for munitions/ordnance detection/disposal equipment.
 components for naval electrical/electronic equipment (3 licences).
 components for periscopes.
 components for projectile launchers.
 components for submarines (2 licences).
 components for surface-to-air missiles (2 licences).
 components for surface-to-surface missiles (6 licences) [See footnotes 42, 77].
 components for tanks.
 components for targeting equipment (15 licences) [See footnotes 33, 48, 54, 55, 56, 57, 60].
 components for unmanned air vehicles (3 licences) [See footnote 77].
 components for weapon control equipment (3 licences) [See footnotes 37, 41].
 components for weapon mountings.
 general military aircraft components (3 licences).
 general military vehicle components (4 licences).
 launching/handling/control equipment for munitions (5 licences) [See footnote 50].
 military aero-engines.
 military electronic equipment (4 licences).
 military field generators [See footnote 49].
 military guidance/navigation equipment (5 licences) [See footnote 27].
 military infrared/thermal imaging equipment.
 naval communications equipment (3 licences).
 naval electrical/electronic equipment [See footnote 35].
 projectile launchers.
 rangefinding equipment.
 software for electronic warfare equipment.
 software for military communications equipment.
 software for military sonars.
 technology for air-to-surface missiles (2 licences) [See footnote 77].
 technology for combat aircraft (2 licences) [See footnote 77].
 technology for generators/projectors.
 technology for military aero-engines (7 licences) [See footnotes 44, 77].
 technology for military electronic equipment.
 technology for military helicopters (2 licences) [See footnote 77].
 technology for military sonars.
 technology for military support aircraft (5 licences).

technology for surface-to-surface missiles (3 licences) [See footnote 77].
 technology for unfinished products for military aero-engines [See footnote 8].
 technology for unmanned air vehicles (2 licences) [See footnote 77].
 unfinished products for military aero-engines (4 licences) [See footnote 8].
 unfinished products for military support aircraft (5 licences).
 unfinished products for military training aircraft.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£14,871
5D002	1	£2,170
PL9009	1	£300,600

components for civil aero-engines.
 information security equipment.
 software for information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£773
ML6	1	£14,588
ML11	1	£60

components for ground vehicle military communications equipment.
 components for military communications equipment.
 ground vehicle military communications equipment.
 information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Morocco

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military auxiliary/support vessels, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
2	P	components for combat aircraft, components for military aero-engines, components for military radars, components for military training aircraft, components for targeting equipment, general military aircraft components
3	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military

		<p>cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
4	P	<p>cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]</p>

5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 3]
6	P	technology for nuclear reactors
7	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 4]
8	P	goods treated for signature suppression for military use [See footnote 5]
9	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 12]

11	P	accessories for munitions/ordnance detection/disposal equipment, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 14]
12	P	components for surface-to-surface missiles, equipment for the production of surface-to-surface missiles, equipment for the use of surface-to-surface missiles, technology for surface-to-surface missiles, test models for equipment for the use of surface-to-surface missiles, test models for surface-to-surface missiles, test models for technology for surface-to-surface missiles
13	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 15]
14	P	sporting shotgun ammunition [See footnote 16]
15	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 17]
16	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 18]
17	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 19]
18	T	inertial equipment [See footnote 20]
19	P	components for air-to-surface missiles, components for military aero-engines, components for surface-to-surface missiles, technology for air-to-surface missiles, technology for military aero-engines, technology for multi-role missiles, technology for surface-to-surface missiles [See footnote 21]
20	P	components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, technology for unmanned air vehicles
21	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for

		equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 22]
22	T	towed hydrophone arrays [See footnote 23]
23	P	components for combat aircraft, components for military aero-engines, general military aircraft components [See footnote 24]
24	P	components for military aero-engines, technology for military aero-engines [See footnote 25]
25	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 26]
26	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
27	P	components for weapon sights, weapon sights
28	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
29	P	air-to-surface missiles, bombs, components for air-to-surface missiles, components for inert air-to-surface missiles, components for military training equipment, equipment for the use of air-to-surface missiles, inert air-to-surface missiles, launching/handling/control equipment for missiles, military guidance/navigation equipment, military training equipment, software for air-to-surface missiles, software for military guidance/navigation equipment, software for military training equipment, technology for air-to-surface missiles, technology for military guidance/navigation equipment, weapon control equipment
30	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for

		equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
31	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 34]
32	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 36]
33	P	components for combat naval vessels, components for military patrol/assault craft, equipment for the production of combat naval vessels, equipment for the production of military patrol/assault craft, equipment for the use of combat naval vessels, equipment for the use of military patrol/assault craft, technology for combat naval vessels, technology for equipment for the production of combat naval vessels, technology for equipment for the production of military patrol/assault craft, technology for equipment for the use of combat naval vessels, technology for equipment for the use of military patrol/assault craft, technology for military patrol/assault craft, unfinished products for combat naval vessels, unfinished products for military patrol/assault craft
34	T	towed hydrophone arrays
35	P	direct view imaging equipment, imaging cameras, targeting equipment
36	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 38]
37	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment,

		software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 39]
38	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
39	P	components for military aero-engines
40	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
41	P	components for military aero-engines, military aero-engines, technology for military aero-engines
42	P	technology for NBC detection equipment [See footnote 47]
43	P	components for combat aircraft
44	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 52]
45	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 75]
46	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
47	P	Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for multi-role missiles, technology for multi-role missiles, technology for Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating/evaluating weapon systems
48	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down

		displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 78]
49	T	technology for command communications control and intelligence software, technology for electronic warfare equipment, technology for military communications equipment, technology for military electronic equipment, technology for Software for modelling/simulating military operation scenarios
50	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for

		launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished head-up/down displays, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
51	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
52	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
53	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 59]
54	P	software for nuclear reactors, technology for nuclear reactors
55	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 62]
56	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 79]
57	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 63]
58	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
59	P	components for military support aircraft [See footnote 65]
60	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars [See footnote 67]
61	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment

		for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 69]
62	P	components for air-to-surface missiles, components for combat aircraft, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for tanks, equipment for the production of military aero-engines, military aircraft ground equipment, technology for combat aircraft, technology for generators/projectors, technology for military helicopters, technology for military training aircraft [See footnote 70]
63	P	components for military helicopters
64	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, military guidance/navigation equipment [See footnote 71]
65	P	components for sporting guns
66	P	components for military aero-engines
67	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, environmental test facilities for air-to-surface missiles, equipment for the development of air-to-surface missiles, equipment for the production of air-to-surface missiles, equipment for the use of air-to-surface missiles, launching/handling/control equipment for missiles, software for air-to-surface missiles, software for launching/handling/control equipment for missiles, Software for modelling/simulating/evaluating weapon systems, technology for air-to-surface missiles, technology for launching/handling/control equipment for missiles, technology for production installations for air-to-surface missiles, unfinished products for air-to-surface missiles [See footnote 73]
68	P	components for military support aircraft, equipment for the production of military support aircraft, technology for military support aircraft, unfinished products for military support aircraft [See footnote 74]
69	P	components for military aero-engines, technology for military aero-engines
70	P	small arms ammunition
71	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment
72	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 80]
73	P	components for submarines
74	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

Processing Statistics (excluding amendments)

Median processing time SIELs	10 days
% and number of SIELs completed in 20 working days	100% (4)
% and number of SIELs completed in 60 working days	100% (4)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	250 days
% and number of OIELs completed in 20 working days	0% (0)

% and number of OIELs completed in 60 working days	0% (0)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£508,807
Total	4	£508,807

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£3,531
ML6	1	£504,200
ML10	1	£1,075

all-wheel drive vehicles with ballistic protection.
components for military support aircraft.
weapon sights (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Issued

Types of goods on licence	No. of licences	Value
Military	5	£836,187
Non-military	5	£844,420
Both Military and Non-military	1	£1,520
Total	11	£1,682,127

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£150,487
ML3	1	£680,000
ML13	1	£5,700

body armour [See footnote 4].
 components for body armour [See footnote 4].
 components for pistols.
 components for sniper rifles (2 licences) [See footnote 7].
 gun silencers [See footnote 7].
 military helmets [See footnote 4].
 pistols (4).
 small arms ammunition [See footnote 5].
 sniper rifles (15) [See footnote 7].
 weapon sights [See footnote 7].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C351	1	£1
1C353	1	£1
6A001	1	£6,018
6A003	2	£750,000
PL9010	1	£88,400

- bacteria.
imaging cameras.
T imaging cameras.
pathogenic genetic elements.
sporting shotguns (4).
T towed hydrophone arrays [See footnote 1].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£680
PL9010	1	£840

- sporting guns (3).
sporting shotguns (12).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment
2	T	towed hydrophone arrays [See footnote 2]
3	P	body armour, components for body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets [See footnote 3]
4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 6]

5	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
6	P	components for military support aircraft [See footnote 8]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	information security equipment

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. International Organisation end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for accessories / spare parts. End use by the Air Force.
7. Licence granted for accessories / spare parts. Law enforcement agency end use.
8. Licence granted for accessories / spare parts. End use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	217	£55,884,029
Non-military	29	£416,748
Both Military and Non-military	5	£461,300
Total	251	£56,762,077

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	29	£3,547,082
ML2	5	£809,852
ML3	16	£1,533,066
ML4	28	£2,679,656
ML5	13	£612,728
ML6	10	£571,781
ML7	5	£41,612
ML8	11	£2,004,263
ML9	43	£1,195,443
ML10	31	£26,414,321
ML11	18	£475,279
ML13	8	£92,212
ML15	9	£1,838,239
ML16	6	£3,531,270
ML17	2	£340
ML18	1	£380,000
ML19	1	£430,000
ML21	3	£8,981,798
ML22	12	£731,733
PL5001	2	£10,500
PL5017	2	£2,854

anti-armour ammunition.
anti-riot/ballistic shields (2 licences).
armoured plate (6 licences).
artillery ammunition.
blank/inert ammunition.
combat helicopters.
components for air-to-air missiles (3 licences).
components for aircraft cannons (2 licences).
components for anti-armour ammunition.
components for artillery ammunition.
components for assault rifles (2 licences).

components for body armour.
 components for combat aircraft (11 licences).
 T components for combat helicopters.
 T components for combat naval vessels.
 components for command/control equipment for unmanned air vehicles (2 licences).
 components for decoying/countermeasure equipment (3 licences).
 components for electronic warfare equipment.
 components for equipment for the production of decoying/countermeasure equipment.
 components for grenade launchers.
 components for launching/handling/control equipment for missiles (13 licences).
 components for machine guns (2 licences).
 components for military aero-engines.
 components for military aircraft head-up/down displays.
 components for military cameras/photographic equipment.
 components for military communications equipment.
 components for military guidance/navigation equipment.
 components for military helicopters (4 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 components for military radars (7 licences).
 components for military shotguns.
 components for military support aircraft (4 licences).
 Rv components for military training aircraft (3 licences) [See footnote 34].
 components for naval electrical/electronic equipment (2 licences).
 components for naval guns.
 components for NBC protective/defensive equipment.
 T components for NBC protective/defensive equipment.
 components for pistols (2 licences).
 components for rangefinding equipment.
 components for rifles.
 components for small arms ammunition (3 licences).
 components for sniper rifles.
 T components for sniper rifles.
 components for sporting guns (3 licences).
 T components for sporting guns.
 components for submarines (2 licences).
 components for surface-to-surface missiles.
 components for tactical shotguns.
 components for tanks.
 components for torpedoes.
 components for weapon control equipment (2 licences).
 decoying/countermeasure equipment (5 licences).
 energetic materials additives (7 licences).
 equipment for the use of military improvised explosive device decoying/detection/disposal/jamming equipment.
 equipment for the use of NBC protective/defensive equipment.
 general military aircraft components (3 licences).
 general military vehicle components.
 general naval vessel components (37 licences).
 gun silencers (2 licences).
 high power RF weapon systems.
 military aero-engines.
 T military communications equipment.
 military electronic equipment (3 licences).
 T military electronic equipment.
 military guidance/navigation equipment (2 licences).
 T military guidance/navigation equipment (8 licences).
 military helmets (2 licences).
 T military image intensifier equipment (8 licences).
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 T military infrared/thermal imaging equipment (8 licences).
 military laser protection equipment.
 T military laser protection equipment.
 military support vehicles (7 licences).
 T military support vehicles.
 T munitions/ordnance detection/disposal equipment.
 naval electrical/electronic equipment.
 NBC detection equipment (2 licences).
 NBC protective/defensive equipment.
 T NBC protective/defensive equipment (2 licences).

T	pistols (1).
	pistols (1).
	precursors for energetic materials.
	projectile launchers.
T	propellants (3 licences).
	rangefinding equipment.
	rifles (2).
	small arms ammunition (2 licences).
T	small arms ammunition.
T	sniper rifles (3).
	software enabling equipment to function as munitions/ordnance detection/disposal equipment (2 licences).
	software for combat aircraft.
	software for combat helicopters.
	software for military helicopters.
	software for military support aircraft.
	software for military training aircraft.
	sporting guns (1) (4 licences).
T	sporting guns (4).
T	targeting equipment (2 licences).
	technology for air-to-surface missiles (2 licences).
	technology for combat aircraft.
	technology for decoying/countermeasure equipment (5 licences).
	technology for fuze setting devices.
	technology for launching/handling/control equipment for munitions.
	technology for military aero-engines.
	technology for military improvised explosive device decoying/detection/disposal/jamming equipment.
	technology for software for combat aircraft.
	technology for software for military support aircraft.
	technology for submarines.
	training small arms ammunition (4 licences).
	training tear gas/irritant ammunition.
	unfinished products for artillery ammunition (2 licences).
	unfinished products for combat aircraft (2 licences).
	unfinished products for military combat vehicles.
T	unfinished products for sniper rifles.
T	unfinished products for sporting guns.
	wall/door breaching projectiles/ammunition (2 licences).
	weapon cleaning equipment.
	weapon night sights (2 licences).
T	weapon night sights (8 licences).
	weapon sights (2 licences).
T	weapon sights (9 licences).

Rv - Some or all of which have subsequently been revoked.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	4	£12,100
1A007	5	£143,706
1C001	1	£600
1C233	6	£86,968
1C240	2	£707
1E002	1	£0
1E201	1	£1
2B226	1	£57,655
6A001	1	£1,708
PL8001	1	£700
PL9010	6	£112,603

	components for devices for initiating explosives.
	controlled atmosphere furnaces.
	devices containing enriched lithium.
T	devices containing enriched lithium.

- electromagnetic wave absorbing materials.
- hydrophones.
- nickel powders (2 licences).
- non-military detonators (4 licences).
- non-military firing sets.
- products containing enriched lithium (4 licences).
- sporting shotguns (1) (3 licences).
- sporting shotguns (2).
- T sporting shotguns (5) (2 licences).
- technology for civil NBC detection systems.
- technology for metal alloy cylindrical forms.
- technology for nuclear plant/equipment/materials/software controlled by entries 0A/0B/0C/0D of the Dual-Use Regulation (3 licences).
- technology for nuclear reactors.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£24,500
5D002	2	£3,000
ML1	2	£67,300
ML3	1	£0
ML21	2	£0
PL9010	2	£366,500

- T anti-armour ammunition.
- T information security software (2 licences).
- T pistols (2).
- products containing depleted uranium.
- T software enabling equipment to function as military communications equipment (2 licences).
- T sporting guns (1).
- T sporting guns (7).
- T sporting shotguns (1).
- T sporting shotguns (22).

Revoked

	Count
Military	1
Total	1

The SIELs revoked were no longer granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry

ML22	1	£0

aircraft military communications equipment.
 components for air-to-air missiles (2 licences) [See footnote 33].
 components for air-to-surface missiles (3 licences).
 components for aircraft military communications equipment.
 components for artillery ammunition.
 components for attack alerting/warning equipment.
 components for combat aircraft (27 licences) [See footnotes 19, 25, 35, 43].
 components for combat helicopters (10 licences).
 components for decoying/countermeasure equipment (6 licences).
 components for equipment for the use of air-to-surface missiles.
 components for launching/handling/control equipment for missiles.
 components for launching/handling/control equipment for munitions (4 licences).
 components for military aero-engines (10 licences) [See footnotes 28, 38].
 components for military equipment for initiating explosives.
 components for military guidance/navigation equipment (4 licences).
 components for military helicopters (3 licences).
 components for military patrol/assault craft.
 components for military radars (13 licences) [See footnotes 20, 22, 42].
 components for military support aircraft (5 licences).
 components for military training aircraft (7 licences) [See footnote 15].
 components for multi-role missiles.
 components for NBC protective/defensive equipment.
 components for periscopes (2 licences).
 components for submarines (20 licences).
 components for surface-to-air missiles.
 components for surface-to-surface missiles (2 licences).
 components for tanks (3 licences).
 components for turrets.

components for weapon control equipment (2 licences).
 equipment for the use of periscopes [See footnote 14].
 general military aircraft components.
 general military vehicle components (3 licences).
 military communications equipment (2 licences).
 military electronic equipment (2 licences).
 military infrared/thermal imaging equipment.
 naval electrical/electronic equipment (3 licences).
 NBC protective/defensive equipment.
 projectile launchers.
 software enabling equipment to function as munitions/ordnance detection/disposal equipment (12 licences) [See footnotes 16, 18].
 software for military communications equipment.
 Software for modelling/simulating military operation scenarios [See footnote 22].
 technology for military aero-engines.
 unfinished products for military aero-engines.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, components for military radars, components for military training aircraft, components for targeting equipment, general military aircraft components
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software

		for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military helicopters, devices containing military pyrotechnic materials, equipment for the use of military helicopters, military aero-engines, military aircraft ground equipment, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for aircraft military communications equipment, software for military aero-engines, software for military guidance/navigation equipment, software for military helicopters, technology for aircraft military communications equipment, technology for devices containing military pyrotechnic materials, technology for equipment for the use of military helicopters, technology for military aircraft ground equipment, technology for military helicopters, technology for military parachutes and equipment, technology for signalling devices, technology for software for military aero-engines, technology for software for military guidance/navigation equipment, technology for software for military helicopters, unfinished products for military helicopters
4	P	munitions/ordnance detection/disposal equipment, software enabling equipment to function as military communications equipment
5	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
6	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components

		for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
7	P	components for submarines, equipment for the use of submarines, technology for submarines
8	P	goods treated for signature suppression for military use [See footnote 3]
9	P	airframe structures, components for civil aircraft
10	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
11	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
12	P	accessories for munitions/ordnance detection/disposal equipment, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 5]
13	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 6]
14	P	counter-improvised explosive device equipment [See footnote 7]
15	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 8]
16	P	sporting shotgun ammunition [See footnote 9]

17	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 10]
18	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 11]
19	T	inertial equipment [See footnote 12]
20	P	components for combat aircraft
21	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
22	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]

23	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
24	P	components for weapon sights, weapon sights
25	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
26	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 17]
27	T	towed hydrophone arrays
28	P	direct view imaging equipment, imaging cameras, targeting equipment
29	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 21]
30	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
31	P	components for military aero-engines, military aero-engines, technology for military aero-engines
32	P	technology for NBC detection equipment [See footnote 23]
33	P	components for combat aircraft
34	P	components for all-wheel drive vehicles with ballistic protection [See footnote 24]
35	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft, technology for airframe structures, technology for civil aero-engines, technology for civil aircraft [See footnote 36]
36	P	components for military support aircraft

37	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 37]
38	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
39	P	Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for multi-role missiles, technology for multi-role missiles, technology for Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating/evaluating weapon systems
40	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 39]
41	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment,

		<p>components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
42	P	<p>components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights</p>
43	P	<p>components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 26]</p>
44	P	<p>aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military</p>

		communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 27]
45	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
46	P	components for military support aircraft [See footnote 30]
47	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars [See footnote 31]
48	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 32]
49	P	components for military helicopters
50	P	components for sporting guns
51	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment
52	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 40]
53	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns
54	P	components for airframe structures, components for civil aircraft, technology for airframe structures, technology for components for civil aircraft [See footnote 41]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£5,807
Non-military	17	£7,279,497
Total	18	£7,285,304

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£5,807

components for military equipment for initiating explosives.
military equipment for initiating explosives.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£825
1A004	3	£90,630
1C350	1	£58
5A002	6	£47,450
5D002	2	£7,387
6A001	5	£1,154,220
7A003	1	£752,199
7A103	2	£69,520
8A001	1	£5,157,207

acoustic seabed survey equipment (3 licences).
chemicals used for general laboratory work/scientific research.
civil explosive detection/identification equipment (3 licences).
deuterium compounds.
guidance/navigation equipment.
inertial equipment (2 licences).
information security equipment (6 licences).
information security software (2 licences).
marine position fixing equipment (2 licences).
submersible vehicles.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military

		training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 1]
2	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 3]
3	T	towed hydrophone arrays [See footnote 4]
4	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 5]
5	P	components for military support aircraft [See footnote 6]
6	P	components for military support aircraft [See footnote 7]
7	P	civil explosive detection/identification equipment [See footnote 8]

Issued

promoting the supply of airborne refuelling equipment [See footnote 2].
 promoting the supply of aircraft cannons [See footnote 2].
 promoting the supply of aircraft military communications equipment [See footnote 2].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 2].
 promoting the supply of anti-aircraft guns [See footnote 2].
 promoting the supply of anti-armour ammunition [See footnote 2].
 promoting the supply of anti-armour weapons [See footnote 2].
 promoting the supply of anti-riot/ballistic shields [See footnote 2].
 promoting the supply of artillery [See footnote 2].
 promoting the supply of assault rifles [See footnote 2].
 promoting the supply of attack alerting/warning equipment [See footnote 2].
 promoting the supply of body armour [See footnote 2].
 promoting the supply of caseless ammunition weapons [See footnote 2].
 promoting the supply of combat helicopters [See footnote 2].
 promoting the supply of combat shotguns [See footnote 2].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 2].
 promoting the supply of components for assault rifles [See footnote 2].
 promoting the supply of components for body armour [See footnote 2].
 promoting the supply of components for combat shotguns [See footnote 2].

promoting the supply of components for machine guns [See footnote 2].
promoting the supply of components for pistols [See footnote 2].
promoting the supply of components for rifles [See footnote 2].
promoting the supply of components for smooth-bore weapons [See footnote 2].
promoting the supply of components for sniper rifles [See footnote 2].
promoting the supply of components for sporting guns [See footnote 2].
promoting the supply of components for sporting shotguns [See footnote 2].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 2].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 2].
promoting the supply of CS hand grenades [See footnote 2].
promoting the supply of devices containing military pyrotechnic materials [See footnote 2].
promoting the supply of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 2].
promoting the supply of equipment for the use of aircraft cannons [See footnote 2].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 2].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 2].
promoting the supply of equipment for the use of artillery [See footnote 2].
promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].
promoting the supply of equipment for the use of weapon night sights [See footnote 2].
promoting the supply of equipment for the use of weapon sights [See footnote 2].
promoting the supply of fire location equipment [See footnote 2].
promoting the supply of flash suppressers [See footnote 2].
promoting the supply of fuze setting devices [See footnote 2].
promoting the supply of general military aircraft components [See footnote 2].
promoting the supply of grenade launchers [See footnote 2].
promoting the supply of gun mountings [See footnote 2].
promoting the supply of gun silencers [See footnote 2].
promoting the supply of hand grenades [See footnote 2].
promoting the supply of heavy machine guns [See footnote 2].
promoting the supply of illuminators [See footnote 2].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].

promoting the supply of machine guns [See footnote 2].
 promoting the supply of military aero-engines [See footnote 2].
 promoting the supply of military aircraft ground equipment [See footnote 2].
 promoting the supply of military aircraft head-up/down displays [See footnote 2].
 promoting the supply of military aircraft pressure refuellers [See footnote 2].
 promoting the supply of military aircrew life support equipment [See footnote 2].
 promoting the supply of military aircrew safety equipment [See footnote 2].
 promoting the supply of military cameras/photographic equipment [See footnote 2].
 promoting the supply of military combat vehicles [See footnote 2].
 promoting the supply of military helmets [See footnote 2].
 promoting the supply of military image intensifier equipment [See footnote 2].
 promoting the supply of military image recording/processing equipment [See footnote 2].
 promoting the supply of military imaging radar sensor equipment [See footnote 2].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
 promoting the supply of military radars [See footnote 2].
 promoting the supply of military support vehicles [See footnote 2].
 promoting the supply of mortars [See footnote 2].
 promoting the supply of periscopes [See footnote 2].
 promoting the supply of pistols [See footnote 2].
 promoting the supply of projectile launchers [See footnote 2].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
 promoting the supply of rangefinding equipment [See footnote 2].
 promoting the supply of recognition/identification equipment [See footnote 2].
 promoting the supply of rifles [See footnote 2].
 promoting the supply of sensor integration equipment [See footnote 2].
 promoting the supply of signalling devices [See footnote 2].
 promoting the supply of small arms ammunition [See footnote 2].
 promoting the supply of smoke canisters [See footnote 2].
 promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£19,011
Non-military	12	£278,582
Total	17	£297,593

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£2,307
ML3	2	£7,170
PL5001	1	£9,534

anti-riot/ballistic shields.
 components for assault rifles.
 components for machine guns.
 pistols (2).
 small arms ammunition (2 licences).
 training small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	5	£66,856
1A005	1	£76,783
5A002	6	£134,942

T
 civil body armour.
 civil explosive detection/identification equipment (3 licences).
 civil explosive detection/identification equipment.
 civil NBC detection systems.
 information security equipment (6 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.
--

No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment
2	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
3	P	information security equipment, information security software
4	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
5	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
6	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 1]
7	P	components for military support aircraft [See footnote 2]
8	P	marine position fixing equipment, underwater telecommunications systems

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	16	£1,036,979
Non-military	1	£22,500
Total	17	£1,059,479

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£8,656
ML3	1	£7,000
ML6	2	£1,004
ML7	1	£97,230
ML9	2	£470,958
ML10	2	£446,790
ML11	3	£1,094
ML13	4	£4,248

components for body armour.
 components for combat aircraft (2 licences).
 components for combat naval vessels.
 components for ground vehicle military communications equipment (2 licences).
 components for military electronic equipment.
 components for military guidance/navigation equipment.
 components for military helmets.
 components for military patrol/assault craft.
 components for naval guns.
 components for NBC detection equipment.
 constructions for ballistic protection of military systems.
 equipment for the use of air-to-air missiles.
 military helmets (3 licences).

small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£22,500

non-military detonators.
non-military firing sets.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	4	£45,537
Total	4	£45,537

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	3	£35,924
ML10	1	£9,613

components for combat aircraft.
components for launching/handling/control equipment for missiles.
components for surface-to-air missiles.
components for surface-to-surface missiles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- Germany
- Luxembourg
- United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down

		displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
5	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 4]
6	P	sporting shotgun ammunition [See footnote 5]
7	P	components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, technology for unmanned air vehicles
8	P	command communications control and intelligence software, technology for command communications control and intelligence software
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the

		development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]
10	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
11	P	components for weapon sights, weapon sights
12	P	components for sporting guns [See footnote 7]
13	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 8]
14	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment,

		technology for military radars, technology for military support aircraft
15	P	explosives, non-military detonators, non-military firing sets
16	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 9]
17	T	towed hydrophone arrays
18	P	direct view imaging equipment, imaging cameras, targeting equipment
19	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 10]
20	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 11]
21	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
22	P	components for military aero-engines, military aero-engines, technology for military aero-engines
23	P	technology for NBC detection equipment [See footnote 12]
24	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined

		areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 15]
25	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
26	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
27	P	components for military support aircraft [See footnote 13]
28	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 14]
29	P	components for military helicopters
30	P	components for sporting guns
31	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£57,440
Non-military	2	£1,369,244
Total	4	£1,426,684

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	1	£20,500
ML14	1	£36,940

body armour.
military scenario simulation equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£80,616
5A002	1	£1,280,573
5D002	1	£8,055

civil explosive detection/identification equipment.
information security equipment.
software for information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 1]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	23	£255,690
Non-military	83	£8,955,348
Both Military and Non-military	4	£1,545,243
Total	110	£10,756,280

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£9,731
ML3	3	£2,084
ML4	6	£103,005
ML5	1	£76,800
ML10	2	£8,325
ML11	2	£4,798
ML13	1	£0
ML14	2	£28,437
PL5001	2	£22,510

anti-riot/ballistic shields (2 licences) [See footnotes 11, 8].
body armour [See footnote 12].
components for blank/inert ammunition.
components for body armour [See footnote 12].
components for military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences) [See footnote 1].
components for periscopes.
components for small arms training equipment.
equipment for the use of military electronic equipment.
equipment for the use of small arms training equipment.
military aero-engines [See footnote 16].

military aircrew safety equipment.
 military equipment for initiating explosives.
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 munitions/ordnance detection/disposal equipment.
 small arms training equipment (2 licences).
 training small arms ammunition (2 licences).
 weapon sights (5 licences) [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£150
1A004	6	£249,107
1C006	1	£591
1C350	1	£58
1C351	4	£5,949
2B230	1	£1,630
3A101	1	£4,180,000
3E101	1	£90,000
5A001	1	£50,000
5A002	50	£3,047,474
5D002	10	£576,839
5E002	3	£8,186
6A002	1	£41,000
6A003	9	£395,642
6A203	2	£258,222
7A103	1	£32,500
9D002	1	£1,000
9D104	1	£0
PL8001	1	£17,000

bacteria (2 licences).
 chemicals used for general laboratory work/scientific research.
 civil explosive detection/identification equipment (5 licences).
 civil NBC protection equipment [See footnote 4].
 civil riot control agent protection equipment [See footnote 4].
 components for civil NBC protection equipment [See footnote 4].
 components for instrumentation cameras.
 deuterium solutions.
 T explosives detection equipment.
 focal plane arrays [See footnote 7].
 imaging cameras (7 licences).
 T imaging cameras (2 licences).
 T inertial equipment.
 information security equipment (47 licences) [See footnote 10].
 T information security equipment (3 licences).
 information security software (2 licences).
 instrumentation cameras (2 licences).
 lubricants.
 pressure transducers.
 software for information security equipment (8 licences).
 software for non-certified aero-engines.
 technology for information security equipment (3 licences).
 technology for X-ray generators.
 T telecommunications interception equipment.
 toxins (2 licences).
 X-ray generators.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

1A004	1	£4,070
6A002	2	£845,140
6A003	2	£58,590
8A002	1	£5,000
ML1	2	£399,960
ML4	1	£172,959
ML7	1	£11,100
ML8	1	£26,652
ML11	1	£6,000
ML17	1	£100
PL9002	1	£15,672

- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- T components for NBC protective/defensive equipment.
- demolition charges/devices.
- T direct view imaging equipment (2 licences).
- explosives.
- T imaging cameras (2 licences).
- T military communications equipment.
- military equipment for initiating explosives.
- T military laser protection equipment.
- mixtures of non-military energetic materials.
- T NBC protective/defensive equipment.
- T rebreathing swimming equipment.
- T weapon night sights (2 licences).
- T weapon sights.

Refused

	Count
Military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML7	1

- T NBC protective/defensive equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
5	1

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£7,532,000
Total	2	£7,532,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3C001	1	£7,500,000
6A203	1	£32,000

components for instrumentation cameras.
semiconductor wafers with epitaxial layers.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	2	£7,375
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	2	£7,375

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	2	£7,375

barbiturate anaesthetic agents for injection (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 3]
2	P	information security equipment, information security software
3	T	components for inertial equipment, inertial equipment, technology for inertial equipment
4	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 5]
5	T	towed hydrophone arrays [See footnote 6]
6	P	chemicals used for industrial/commercial processes
7	P	components for weapon sights, weapon sights
8	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 13]
9	P	sporting guns [See footnote 14]
10	P	information security equipment, software for information security equipment, technology for information security equipment
11	P	toxins
12	P	components for military communications equipment, equipment for the production of military communications equipment, military communications equipment, technology for military communications equipment
13	T	information security equipment
14	P	marine position fixing equipment, underwater telecommunications systems
15	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 15]
16	P	information security equipment, software for information security equipment, technology for information security equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£168,434
Non-military	26	£2,669,552
Total	31	£2,837,986

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£22,254
ML4	1	£700
ML11	2	£84,980
ML13	1	£24,000
PL5001	1	£36,500

anti-riot/ballistic shields.
 components for body armour.
 components for military equipment for initiating explosives.
 components for sporting guns.
 military guidance/navigation equipment (2 licences).
 sporting guns (38).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£218
1A004	1	£18,726
4A003	1	£400,000
5A002	18	£1,401,990
5D002	11	£402,726
5E002	1	£21,258
6A003	1	£109,200
8A001	1	£92,683
PL9010	1	£222,750

civil explosive detection/identification equipment.
 components for sporting shotgun ammunition.
 computer interconnect equipment.
 deuterium solutions.
 imaging cameras.
 information security equipment (18 licences).
 information security software (7 licences).
 software for information security equipment (4 licences).
 submersible vehicles.
 technology for information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 1]
2	T	components for inertial equipment, inertial equipment, technology for inertial equipment
3	P	sporting shotgun ammunition [See footnote 2]
4	P	components for sporting guns [See footnote 3]
5	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of

		military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
6	T	towed hydrophone arrays
7	P	components for sporting shotgun ammunition, sporting shotgun ammunition
8	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 4]
9	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software
10	P	components for military support aircraft [See footnote 5]
11	P	information security equipment, information security software
12	T	towed hydrophone arrays

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. End use by the Air Force.

- T accessories for military image intensifier equipment [See footnote 16].
T aerial target equipment.
air-to-air missiles.
airborne refuelling equipment.
anti-riot/ballistic shields [See footnote 13].
T armoured plate.
T artillery.
ballistic test equipment (2 licences).
T command communications control and intelligence software.
T components for aerial target equipment.
components for air-to-air missiles.
components for airborne refuelling equipment.
components for aircraft carriers.
components for aircraft machine guns (2 licences).
components for aircraft military communications equipment (3 licences).
components for all-wheel drive vehicles with ballistic protection.
T components for artillery.
components for attack alerting/warning equipment (4 licences).
components for ballistic test equipment (2 licences).
components for combat aircraft (103 licences) [See footnotes 69, 76, 77, 78, 80, 82, 84, 85, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98].
components for combat helicopters (6 licences) [See footnote 69].
components for combat naval vessels (5 licences) [See footnote 72].
components for decoying/countermeasure equipment.
T components for electronic countermeasure equipment.
components for electronic warfare equipment (6 licences).
T components for electronic warfare equipment.
components for launching/ground support equipment for unmanned air vehicles [See footnote 24].
components for launching/handling/control equipment for missiles (2 licences).
components for launching/handling/control equipment for munitions (11 licences) [See footnote 108].
components for military aero-engines (22 licences) [See footnotes 11, 75, 81, 82].
components for military aircraft head-up/down displays (2 licences).
components for military combat vehicles (8 licences) [See footnote 70].
components for military communications equipment.
components for military electronic equipment.
T components for military electronic equipment.
components for military guidance/navigation equipment (14 licences).
T components for military guidance/navigation equipment.
components for military helicopters (20 licences) [See footnotes 109, 71].
components for military infrared/thermal imaging equipment (8 licences) [See footnotes 30, 31].
components for military parachutes.
components for military patrol/assault craft (4 licences) [See footnote 73].
components for military radars (57 licences) [See footnotes 14, 45, 86].
T components for military scenario simulation equipment.
components for military sonars.
components for military support aircraft (11 licences).
components for military support vehicles.
components for military trailers.
components for military training aircraft (40 licences) [See footnotes 74, 79, 83, 87, 95].
T components for military training aircraft.
components for military training equipment (4 licences).
components for multi-role missiles.
components for munitions/ordnance detection/disposal equipment.
components for naval engines (2 licences).
components for NBC detection equipment (8 licences).
components for recognition/identification equipment (4 licences).
T components for small arms ammunition.
components for small arms training equipment.
components for sniper rifles [See footnote 61].
components for submarines.
components for surface-to-air missiles.
T components for surface-to-air missiles [See footnote 3].

components for surface-to-surface missiles.
 components for tanks.
 components for targeting equipment (3 licences).
 components for turrets (2 licences).
 components for unmanned air vehicles (4 licences) [See footnote 24].
 components for weapon control equipment (2 licences) [See footnote 59].
 components for weapon night sights.
 decoying/countermeasure equipment.
 T electronic countermeasure equipment.
 T electronic warfare equipment.
 electronic warfare equipment.
 equipment for the production of air-to-air missiles.
 equipment for the production of artillery (4 licences).
 equipment for the production of combat naval vessels [See footnote 72].
 equipment for the production of military image intensifier equipment [See footnote 16].
 equipment for the production of military training aircraft.
 T equipment for the use of aerial target equipment.
 equipment for the use of aircraft military communications equipment.
 equipment for the use of sensor integration equipment.
 equipment for the use of unmanned air vehicles.
 T equipment for the use of weapon night sights [See footnote 54].
 general military aircraft components (14 licences).
 T general military vehicle components.
 general military vehicle components.
 T general naval vessel components (30 licences) [See footnotes 56, 6].
 gun silencers [See footnote 61].
 T gun silencers.
 T launching/handling/control equipment for man portable air defence system missiles [See footnote 3].
 launching/handling/control equipment for missiles.
 launching/handling/control equipment for munitions.
 military aero-engines.
 military aircraft ground equipment (6 licences).
 T military aircraft ground equipment.
 military aircraft head-up/down displays (3 licences).
 military aircrew life support equipment.
 military aircrew safety equipment (2 licences).
 military cameras/photographic equipment (2 licences).
 T military communications equipment.
 military electronic equipment (7 licences).
 T military electronic equipment (2 licences).
 military field generators.
 military guidance/navigation equipment (3 licences) [See footnote 35].
 T military guidance/navigation equipment (2 licences) [See footnote 54].
 military image intensifier equipment [See footnote 61].
 T military image intensifier equipment [See footnote 54].
 T military infrared/thermal imaging equipment (2 licences) [See footnote 54].
 military laser protection equipment.
 military parachutes.
 military parachutes and equipment.
 T military scenario simulation equipment.
 T military training aircraft.
 T military training equipment (3 licences) [See footnote 3].
 munitions/ordnance detection/disposal equipment.
 NBC detection equipment (3 licences).
 NBC protective/defensive equipment.
 precursors for energetic materials.
 T rangefinding equipment [See footnote 54].
 sensor integration equipment.
 small arms ammunition (12 licences) [See footnotes 48, 61, 65, 66, 67, 68].
 T small arms ammunition.
 T sniper rifles (1).
 sniper rifles (2) [See footnote 61].
 software enabling equipment to function as munitions/ordnance detection/disposal equipment.
 software for ballistic test equipment (2 licences).
 software for equipment for the use of sensor integration equipment.
 software for military guidance/navigation equipment (2 licences).
 T software for military guidance/navigation equipment.
 T software for military training equipment.
 software for NBC detection equipment (2 licences).
 software for sensor integration equipment.

	software for software for naval engines (3 licences).
	sporting guns (1).
T	targeting equipment.
T	technology for aerial target equipment.
	technology for air-to-air missiles (3 licences) [See footnote 42].
	technology for combat aircraft (2 licences).
T	technology for electronic countermeasure equipment.
	technology for equipment for the production of military training aircraft.
T	technology for equipment for the use of aerial target equipment.
	technology for equipment for the use of air-to-air missiles.
	technology for equipment for the use of sensor integration equipment.
	technology for general naval vessel components.
	technology for launching/handling/control equipment for missiles.
	technology for military aircraft ground equipment.
	technology for military combat vehicles (2 licences).
	technology for military electronic equipment.
	technology for military guidance/navigation equipment (2 licences).
	technology for military image intensifier equipment [See footnote 16].
	technology for military parachutes.
	technology for military patrol/assault craft.
	technology for military radars (4 licences).
T	technology for military scenario simulation equipment.
	technology for military spacecraft.
T	technology for military training aircraft.
	technology for multi-role missiles.
	technology for naval engines (3 licences).
	technology for NBC detection equipment (3 licences).
	technology for production installations for air-to-air missiles [See footnote 42].
	technology for production installations for launching/handling/control equipment for missiles.
	technology for sensor integration equipment.
	technology for sniper rifles [See footnote 61].
	technology for software for military support aircraft.
	technology for unmanned air vehicles (2 licences) [See footnote 24].
	technology for weapon night sights [See footnote 17].
	unfinished products for combat aircraft.
T	weapon control equipment.
	weapon night sights (2 licences) [See footnote 17].
T	weapon night sights (2 licences) [See footnote 54].
	weapon sights (2 licences) [See footnote 61].
T	weapon sights (2 licences) [See footnote 54].

T accelerometers (2 licences) [See footnote 37].
bacteria (3 licences).
biotechnology equipment (3 licences) [See footnote 40].
calibration equipment for guidance/navigation equipment (2 licences) [See footnote 55].
chemicals used for industrial/commercial processes (3 licences).
chemicals used for pharmaceutical/healthcare production.
civil explosive detection/identification equipment (12 licences) [See footnote 64].
civil NBC protection equipment [See footnote 58].
components for metal powder production equipment (2 licences).
components for spectrometers.
components for telecommunications interception equipment (3 licences) [See footnote 29].
constituents of propellants (2 licences).
controlled atmosphere furnaces.
corrosion resistant chemical manufacturing equipment (3 licences).
deuterium compounds (4 licences).
deuterium solutions.
devices containing helium-3.
electric motors.
electromagnetic wave absorbing materials.
electronic components (3 licences).
electronics cooling fluids (4 licences).
explosives detection equipment.
extended temperature range integrated circuits.

fibrous/filamentary materials.
 focal plane arrays.
 frequency changers (10 licences).
 general purpose integrated circuits (2 licences).
 graphite materials (2 licences).
 guidance/navigation equipment (2 licences).
 hafnium.
 helium-3 (3 licences).
 high energy capacitors (6 licences).
 imaging cameras (21 licences) [See footnotes 39, 58].
 T imaging cameras.
 inertial equipment (9 licences).
 information security equipment (69 licences).
 information security software (3 licences).
 instrumentation cameras (4 licences).
 T instrumentation cameras.
 lasers (4 licences).
 machine tools (4 licences).
 magnesium.
 magnetic materials.
 magnetometers (2 licences).
 materials testing equipment.
 metal alloy cylindrical forms (36 licences) [See footnotes 41, 51].
 metal alloy materials (3 licences).
 metal alloy tubes.
 metal alloys in powder form [See footnote 57].
 mixtures containing chemicals used for chemical/materials production.
 mixtures containing chemicals used for industrial/commercial processes.
 natural uranium.
 nickel powders (8 licences).
 non-ferrous alloys.
 nuclear radiation detection equipment.
 radar equipment (2 licences).
 T real-time oscilloscopes.
 rotary position encoders.
 software for aero gas turbine engines [See footnote 46].
 software for dimensional measuring equipment.
 software for information security equipment (14 licences).
 software for machine tools.
 software for nuclear reactors.
 software for telecommunications interception equipment (3 licences) [See footnote 29].
 spacecraft (4 licences) [See footnotes 36, 99].
 sporting shotguns (1) (2 licences).
 sporting shotguns (2).
 submersible equipment.
 technology for biotechnology equipment.
 technology for composite laminates.
 technology for composite structures.
 technology for composite tubes.
 technology for corrosion resistant chemical manufacturing equipment.
 technology for electronic devices.
 technology for fibre preforms.
 technology for fibre prepregs.
 technology for fibrous/filamentary materials (2 licences).
 technology for gas turbine engines (7 licences).
 technology for information security equipment (5 licences).
 technology for metal alloy cylindrical forms.
 technology for metal alloy materials (2 licences).
 technology for metal alloy tubes.
 technology for metal alloys in particulate form.
 technology for metal alloys in powder form.
 technology for nuclear reactors (5 licences).
 technology for semiconductor manufacturing equipment (4 licences).
 technology for telecommunications equipment.
 technology for telecommunications interception equipment (3 licences) [See footnote 29].

 T weapon sights [See footnote 34].

Refused

	Count
Non-military	7
Total	7

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
6A203	1
7B103	1
9B005	1
9E002	1
End Use	4

accessories for dimensional measuring equipment.
 calibration equipment for guidance/navigation equipment.

components for gyroscopes.
dimensional measuring equipment.
equipment for the use of wind tunnels.
instrumentation cameras (2 licences).
software for instrumentation cameras.
technology for equipment for the use of wind tunnels.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used

5A002	1	£2,100
End Use	1	£4,090

corrosion resistant chemical manufacturing equipment.
corrosion resistant piping.
information security equipment.
metal alloy cylindrical forms.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
Brazil
France
Netherlands
Qatar
Saudi Arabia
Singapore
Spain
Sri Lanka
United Arab Emirates
United Kingdom
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	airborne refuelling equipment, components for combat aircraft, components for military aero-engines, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of electronic countermeasure equipment, military aircraft ground equipment, military aircrew life support equipment, military cameras/photographic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military infrared/thermal imaging equipment, military radars, military training equipment, software for electronic warfare equipment, software for military guidance/navigation equipment, software for military image recording/processing equipment, software for military radars, software for military training equipment, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for electronic countermeasure equipment, technology for electronic warfare

		equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, weapon control equipment [See footnote 2]
3	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights

4	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 4]
5	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 5]
6	P	components for combat aircraft, equipment for the use of combat aircraft, equipment for the use of military aircraft ground equipment, military aircraft ground equipment, technology for combat aircraft, technology for military aircraft ground equipment [See footnote 7]
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 8]
8	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 9]
9	P	components for military helicopters, general military aircraft components [See footnote 15]
10	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 18]
11	P	components for combat aircraft, general military aircraft components [See footnote 19]
12	P	imaging cameras [See footnote 20]
13	P	components for military support aircraft, general military aircraft components [See footnote 21]
14	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 22]
15	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 25]
16	P	technology for information security equipment [See footnote 23]

17	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 26]
18	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 27]
19	P	components for combat aircraft, components for military guidance/navigation equipment, equipment for the use of combat aircraft, military aircraft ground equipment, military aircrew life support equipment, military guidance/navigation equipment, software for combat aircraft, software for equipment for the use of combat aircraft, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military guidance/navigation equipment, technology for combat aircraft, technology for equipment for the use of combat aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military guidance/navigation equipment [See footnote 28]

20	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
21	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 38]
22	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 43]
23	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 44]
24	P	components for military support aircraft [See footnote 47]
25	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 49]
26	P	components for air-to-air missiles, components for equipment for the production of air-to-air missiles, components for equipment for the use of air-to-air missiles, components for equipment for the use of launching/handling/control equipment for missiles, components for equipment for the use of military aircraft head-up/down displays, components for equipment for the use of military electronic equipment, components for launching/handling/control equipment for missiles, components for military aircraft head-up/down displays, components for military containers, components for military electronic equipment, equipment for the production of air-to-air missiles, equipment for the use of air-to-air missiles, equipment for the use of launching/handling/control equipment for missiles, equipment for the use of military aircraft head-up/down displays, equipment for the use of military electronic equipment, launching/handling/control equipment for missiles, military aircraft ground equipment, military containers, military electronic equipment, technology for air-to-air missiles, technology for equipment for the use of air-to-air missiles, technology for equipment for the use of launching/handling/control equipment for missiles, technology for equipment for the use of military aircraft head-up/down displays, technology for equipment for the use of military containers, technology for equipment for the use of military electronic equipment, technology for launching/handling/control equipment for missiles, technology for military aircraft head-up/down displays, technology for military containers, technology for military electronic equipment, technology for production installations for launching/handling/control equipment for missiles, technology for production installations for military containers, unfinished products for air-to-air missiles, unfinished products for military containers [See footnote 50]
27	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 52]
28	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 60]
29	P	components for combat aircraft
30	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 62]

31	P	<p>accessories for attack alerting/warning equipment, accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, accessories for military radars, accessories for military training equipment, accessories for sensor integration equipment, accessories for targeting equipment, accessories for weapon control equipment, aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for equipment for the operation of military aircraft in confined areas, components for generators/projectors, components for launching/handling/control equipment for rockets, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircraft pressure refuellers, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military radars, components for military training aircraft, components for military training equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of military training aircraft, equipment for the use of attack alerting/warning equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, general military aircraft components, generators/projectors, launching/handling/control equipment for rockets, maraging steels, metal alloy cylindrical forms, metal alloy materials, metal alloy tubes, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes, military radars, military training equipment, sensor integration equipment, software for generators/projectors, software for military guidance/navigation equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, test models for military training aircraft, unfinished products for military training aircraft, weapon control equipment</p>
32	P	<p>accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 104]</p>
33	P	<p>components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general</p>

		military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 105]
34	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
35	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 63]
36	P	software for FADEC systems, software for military aero-engines, technology for FADEC, technology for military aero-engines, technology for software for military aero-engines
37	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 106]
38	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 100]
39	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 101]
40	P	civil explosive detection/identification equipment [See footnote 102]
41	P	components for military support aircraft [See footnote 103]
42	P	information security software
43	P	marine position fixing equipment, underwater telecommunications systems
44	P	components for combat aircraft, general military aircraft components

45	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 107]
46	P	components for submarines
47	P	components for military training aircraft
48	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

Issued

promoting the supply of airborne refuelling equipment [See footnote 33].
 promoting the supply of aircraft cannons [See footnote 33].
 promoting the supply of aircraft military communications equipment [See footnote 33].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 33].
 promoting the supply of anti-aircraft guns [See footnote 33].
 promoting the supply of anti-armour ammunition [See footnote 33].
 promoting the supply of anti-armour weapons [See footnote 33].
 promoting the supply of anti-riot/ballistic shields [See footnote 33].
 promoting the supply of artillery [See footnote 33].
 promoting the supply of assault rifles [See footnote 33].
 promoting the supply of attack alerting/warning equipment [See footnote 33].
 promoting the supply of body armour [See footnote 33].
 promoting the supply of caseless ammunition weapons [See footnote 33].

promoting the supply of combat helicopters [See footnote 33].
promoting the supply of combat shotguns [See footnote 33].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 33].
promoting the supply of components for assault rifles [See footnote 33].
promoting the supply of components for body armour [See footnote 33].
promoting the supply of components for combat shotguns [See footnote 33].
promoting the supply of components for machine guns [See footnote 33].
promoting the supply of components for pistols [See footnote 33].
promoting the supply of components for rifles [See footnote 33].
promoting the supply of components for smooth-bore weapons [See footnote 33].
promoting the supply of components for sniper rifles [See footnote 33].
promoting the supply of components for sporting guns [See footnote 33].
promoting the supply of components for sporting shotguns [See footnote 33].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 33].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 33].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 33].
promoting the supply of CS hand grenades [See footnote 33].
promoting the supply of devices containing military pyrotechnic materials [See footnote 33].
promoting the supply of electronic countermeasure equipment [See footnote 33].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 33].
promoting the supply of equipment for the use of aircraft cannons [See footnote 33].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 33].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 33].
promoting the supply of equipment for the use of artillery [See footnote 33].
promoting the supply of equipment for the use of assault rifles [See footnote 33].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 33].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 33].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 33].
promoting the supply of equipment for the use of fire location equipment [See footnote 33].
promoting the supply of equipment for the use of flash suppressers [See footnote 33].
promoting the supply of equipment for the use of grenade launchers [See footnote 33].
promoting the supply of equipment for the use of gun silencers [See footnote 33].
promoting the supply of equipment for the use of heavy machine guns [See footnote 33].
promoting the supply of equipment for the use of machine guns [See footnote 33].
promoting the supply of equipment for the use of military radars [See footnote 33].
promoting the supply of equipment for the use of mortars [See footnote 33].
promoting the supply of equipment for the use of periscopes [See footnote 33].
promoting the supply of equipment for the use of pistols [See footnote 33].
promoting the supply of equipment for the use of projectile launchers [See footnote 33].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 33].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 33].
promoting the supply of equipment for the use of rifles [See footnote 33].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 33].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 33].
promoting the supply of equipment for the use of sniper rifles [See footnote 33].
promoting the supply of equipment for the use of sporting guns [See footnote 33].
promoting the supply of equipment for the use of sporting shotguns [See footnote 33].
promoting the supply of equipment for the use of targeting equipment [See footnote 33].
promoting the supply of equipment for the use of weapon control equipment [See footnote 33].
promoting the supply of equipment for the use of weapon mountings [See footnote 33].
promoting the supply of equipment for the use of weapon night sights [See footnote 33].
promoting the supply of equipment for the use of weapon sights [See footnote 33].
promoting the supply of fire location equipment [See footnote 33].
promoting the supply of flash suppressers [See footnote 33].
promoting the supply of fuze setting devices [See footnote 33].
promoting the supply of general military aircraft components [See footnote 33].
promoting the supply of grenade launchers [See footnote 33].

promoting the supply of gun mountings [See footnote 33].
 promoting the supply of gun silencers [See footnote 33].
 promoting the supply of hand grenades [See footnote 33].
 promoting the supply of heavy machine guns [See footnote 33].
 promoting the supply of illuminators [See footnote 33].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 33].
 promoting the supply of machine guns [See footnote 33].
 promoting the supply of military aero-engines [See footnote 33].
 promoting the supply of military aircraft ground equipment [See footnote 33].
 promoting the supply of military aircraft head-up/down displays [See footnote 33].
 promoting the supply of military aircraft pressure refuellers [See footnote 33].
 promoting the supply of military aircrew life support equipment [See footnote 33].
 promoting the supply of military aircrew safety equipment [See footnote 33].
 promoting the supply of military cameras/photographic equipment [See footnote 33].
 promoting the supply of military combat vehicles [See footnote 33].
 promoting the supply of military helmets [See footnote 33].
 promoting the supply of military image intensifier equipment [See footnote 33].
 promoting the supply of military image recording/processing equipment [See footnote 33].
 promoting the supply of military imaging radar sensor equipment [See footnote 33].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 33].
 promoting the supply of military radars [See footnote 33].
 promoting the supply of military support vehicles [See footnote 33].
 promoting the supply of mortars [See footnote 33].
 promoting the supply of periscopes [See footnote 33].
 promoting the supply of pistols [See footnote 33].
 promoting the supply of projectile launchers [See footnote 33].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 33].
 promoting the supply of rangefinding equipment [See footnote 33].
 promoting the supply of recognition/identification equipment [See footnote 33].
 promoting the supply of rifles [See footnote 33].
 promoting the supply of sensor integration equipment [See footnote 33].
 promoting the supply of signalling devices [See footnote 33].
 promoting the supply of small arms ammunition [See footnote 33].
 promoting the supply of smoke canisters [See footnote 33].
 promoting the supply of smooth-bore weapons [See footnote 33].
 promoting the supply of sniper rifles [See footnote 33].
 promoting the supply of sporting guns [See footnote 33].
 promoting the supply of sporting shotguns [See footnote 33].
 promoting the supply of targeting equipment [See footnote 33].
 promoting the supply of unmanned air vehicles [See footnote 33].
 promoting the supply of water cannon [See footnote 33].
 promoting the supply of weapon cleaning equipment [See footnote 33].
 promoting the supply of weapon control equipment [See footnote 33].
 promoting the supply of weapon mountings [See footnote 33].
 promoting the supply of weapon night sights [See footnote 33].
 promoting the supply of weapon sight mounts [See footnote 33].
 promoting the supply of weapon sights [See footnote 33].

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for demonstration to potential customers. Armed forces end use.
4. Licence granted for accessories / spare parts. Armed forces end use.
5. Licence granted for accessories / spare parts. End use by the Air Force.
6. Licence granted for accessories / spare parts. End use by the Navy.
7. Licence granted for accessories / spare parts. Armed forces end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for accessories / spare parts. Government end use.
10. Licence granted for accessories / spare parts. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for accessories / spare parts. Civilian / commercial end use.
13. Licence granted for testing and evaluation purposes. Law enforcement agency end use.
14. Licence granted for armed forces end use.
15. Licence granted for accessories / spare parts. Civilian / commercial end use.
16. Licence granted for testing and evaluation purposes. Civilian / commercial end use.
17. Licence granted for testing and evaluation purposes. Civilian / commercial end use.

18. Licence granted for accessories / spare parts. Armed forces end use.
19. Licence granted for accessories / spare parts. Armed forces end use.
20. Licence granted for accessories / spare parts. Government end use.
21. Licence granted for accessories / spare parts. Civilian / commercial end use.
22. Licence granted for accessories / spare parts. Civilian / commercial end use.
23. Licence granted for accessories / spare parts. Civilian / commercial end use.
24. Licence granted for accessories / spare parts. Civilian / commercial end use.
25. Licence granted for accessories / spare parts. Armed forces end use.
26. Licence granted for accessories / spare parts. Government end use.
27. Licence granted for accessories / spare parts. Armed forces end use.
28. Licence granted for accessories / spare parts. Armed forces end use.
29. Licence granted for government end use.
30. Licence granted for armed forces end use.
31. Licence granted for armed forces end use.
32. Licence granted for accessories / spare parts. Armed forces end use.
33. Licence granted for accessories / spare parts. Civilian / commercial end use.
34. Licence granted for demonstration to potential customers.
35. Licence granted for accessories / spare parts. End use by the Navy.
36. Licence granted for accessories / spare parts. Civilian / commercial end use.
37. Licence granted for academic research purposes.
38. Licence granted for accessories / spare parts. Government end use.
39. Licence granted for armed forces end use.
40. Licence granted for medical research purposes.
41. Licence granted for accessories / spare parts. Civilian / commercial end use.
42. Licence granted for armed forces end use.
43. Licence granted for accessories / spare parts. Government end use.
44. Licence granted for accessories / spare parts. End use by the Air Force.
45. Licence granted for accessories / spare parts. Armed forces end use.
46. Licence granted for accessories / spare parts. Civilian / commercial end use.
47. Licence granted for accessories / spare parts. Armed forces end use.
48. Licence granted for sporting / hunting purposes.
49. Licence granted for accessories / spare parts. Government end use.
50. Licence granted for end use by the Air Force.
51. Licence granted for accessories / spare parts.
52. Licence granted for accessories / spare parts. Armed forces end use.
53. Licence granted for demonstration to potential customers.
54. Licence granted for testing and evaluation purposes.
55. Licence granted for academic research purposes.
56. Licence granted for armed forces end use.
57. Licence granted for academic end users.
58. Licence granted for demonstration to potential customers. Civilian / commercial end use.
59. Licence granted for End use by the Navy.
60. Licence granted for accessories / spare parts. Civilian / commercial end use.
61. Licence granted for armed forces end use.
62. Licence granted for accessories / spare parts. End use by the Air Force.
63. Licence granted for End use by the Navy.
64. Licence granted for explosive detection / disposal purposes.
65. Licence granted for sporting / hunting purposes. Civilian / commercial end use.
66. Licence granted for sporting / hunting purposes. Personal end use.
67. Licence granted for sporting / hunting purposes. Personal end use.
68. Licence granted for sporting / hunting purposes. Personal end use.
69. Licence granted for accessories / spare parts. Armed forces end use.
70. Licence granted for accessories / spare parts. Armed forces end use.
71. Licence granted for accessories / spare parts. Armed forces end use.
72. Licence granted for accessories / spare parts. End use by the Navy.
73. Licence granted for accessories / spare parts. End use by the Navy.
74. Licence granted for accessories / spare parts. End use by the Air Force.
75. Licence granted for accessories / spare parts. End use by the Air Force.
76. Licence granted for accessories / spare parts. End use by the Air Force.
77. Licence granted for accessories / spare parts. End use by the Air Force.
78. Licence granted for accessories / spare parts. End use by the Air Force.
79. Licence granted for accessories / spare parts. End use by the Air Force.
80. Licence granted for accessories / spare parts. End use by the Air Force.
81. Licence granted for accessories / spare parts. End use by the Air Force.
82. Licence granted for accessories / spare parts. End use by the Air Force.
83. Licence granted for accessories / spare parts. End use by the Air Force.
84. Licence granted for accessories / spare parts. End use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	181	£88,373,885
Non-military	87	£38,479,194
Both Military and Non-military	5	£1,972,092

Total	273	£128,825,170
-------	-----	--------------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	29	£3,552,027
ML2	3	£1,242,500
ML3	4	£298,153
ML4	9	£36,921,978
ML5	24	£11,151,471
ML6	8	£922,257
ML7	1	£175,868
ML9	18	£2,555,367
ML10	69	£16,710,921
ML11	24	£3,835,893
ML13	3	£61,500
ML14	2	£1,193,189
ML15	8	£1,300,200
ML17	1	£3,878,244
ML18	4	£1,094,000
ML21	7	£113,020
ML22	16	£3,362,554
PL5017	2	£4,744

- T aerial target equipment.
air defence systems [See footnote 23].
aircraft military communications equipment (3 licences).
all-wheel drive vehicles with ballistic protection.
- T body armour [See footnote 22].
bomb suits.
components for aircraft cannons.
components for aircraft military communications equipment (2 licences).
components for assault rifles (2 licences) [See footnote 27].
components for attack alerting/warning equipment.
components for combat aircraft (4 licences).
components for combat helicopters.
components for combat naval vessels (7 licences).
components for equipment for the use of weapon night sights (2 licences).
components for ground vehicle military communications equipment [See footnote 23].
components for launching/handling/control equipment for man portable air defence system missiles [See footnote 23].
components for launching/handling/control equipment for missiles (3 licences) [See footnotes 15, 21, 23].
- T components for launching/handling/control equipment for missiles [See footnote 22].
components for machine guns (2 licences) [See footnote 27].
- T components for man portable air defence system missiles [See footnote 22].
components for military aero-engines (4 licences).
components for military auxiliary/support vessels.
components for military bridges/pontoons/ferries.
components for military combat vehicles (3 licences).
components for military communications equipment (5 licences) [See footnote 23].
components for military electronic equipment (2 licences).

components for military equipment for initiating explosives.
 components for military guidance/navigation equipment.
 components for military helicopters (9 licences).
 components for military patrol/assault craft (3 licences).
 components for military radars (10 licences).
 components for military support aircraft (10 licences).
 components for military training aircraft (33 licences).
 components for military training equipment [See footnote 23].
 components for munitions/ordnance detection/disposal equipment.
 components for naval communications equipment.
 components for naval engines.
 components for naval gun installations/mountings (2 licences).
 components for naval guns (2 licences).
 components for pistols (2 licences) [See footnote 27].
 components for submarines (2 licences).
 components for tanks.
 components for weapon control equipment (3 licences).
 components for weapon sights [See footnote 25].
 equipment for the production of combat naval vessels.
 equipment for the production of military training aircraft.
 equipment for the production of naval guns.
 equipment for the production of weapon control equipment [See footnote 24].
 equipment for the use of air defence systems [See footnote 23].
 equipment for the use of ground vehicle military communications equipment [See footnote 23].
 equipment for the use of military bridges/pontoons/ferries.
 equipment for the use of military communications equipment (2 licences) [See footnote 23].
 equipment for the use of military patrol/assault craft (2 licences).
 equipment for the use of military radars (2 licences).
 equipment for the use of military training equipment [See footnote 23].
 T equipment for the use of rangefinding equipment [See footnote 22].
 equipment for the use of weapon night sights (2 licences).
 equipment for the use of weapon sights [See footnote 9].
 general military aircraft components (4 licences).
 general military vehicle components (2 licences) [See footnote 4].
 general naval vessel components (2 licences).
 ground vehicle military communications equipment [See footnote 23].
 gun silencers (3 licences) [See footnote 13].
 man portable air defence systems [See footnote 23].
 man portable air defence systems training equipment [See footnote 23].
 military aircraft ground equipment.
 military aircrew safety equipment.
 military auxiliary/support vessels.
 military communications equipment (3 licences) [See footnote 23].
 military electronic equipment (3 licences).
 military equipment for initiating explosives.
 military guidance/navigation equipment (5 licences).
 T military guidance/navigation equipment (4 licences) [See footnotes 1, 41].
 military helmets.
 T military helmets [See footnote 22].
 T military image intensifier equipment (6 licences) [See footnotes 1, 36, 40, 41].
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 military infrared/thermal imaging equipment.
 T military infrared/thermal imaging equipment (7 licences) [See footnotes 1, 22, 36, 40, 41].
 military patrol/assault craft (2 licences).
 military training equipment [See footnote 23].
 multi-role missiles [See footnote 20].
 munitions/ordnance detection/disposal equipment.
 naval gun installations/mountings (2 licences).
 naval guns (2 licences).
 NBC detection equipment.
 rangefinding equipment (3 licences).
 T rangefinding equipment (5 licences) [See footnotes 1, 22, 36, 40, 41].
 T signalling devices.
 small arms ammunition (2 licences) [See footnote 30].
 sniper rifles (14).
 software enabling equipment to function as military guidance/navigation equipment.
 software for ground vehicle military communications equipment [See footnote 23].
 software for military communications equipment (2 licences) [See footnote 23].
 T Software for modelling/simulating military operation scenarios.
 software for naval gun installations/mountings.

- T software for naval guns (2 licences).
software for rangefinding equipment.
software for rangefinding equipment [See footnote 22].
software for targeting equipment (2 licences).
software for technology for rangefinding equipment.
software for weapon control equipment.
surface-to-air missiles [See footnote 24].
targeting equipment (4 licences).
technology for air defence systems [See footnote 23].
technology for attack alerting/warning equipment.
technology for combat aircraft.
technology for ground vehicle military communications equipment [See footnote 23].
technology for man portable air defence systems (2 licences) [See footnotes 23, 24].
technology for man portable air defence systems training equipment [See footnote 23].
technology for military aero-engines.
technology for military communications equipment (3 licences) [See footnote 23].
technology for military helicopters.
technology for military patrol/assault craft.
technology for military radars [See footnote 24].
technology for military training aircraft.
technology for military training equipment [See footnote 23].
technology for multi-role missiles [See footnote 20].
technology for naval communications equipment.
technology for naval gun installations/mountings.
technology for naval guns (2 licences).
technology for periscopes.
technology for rangefinding equipment (2 licences).
- T technology for Software for modelling/simulating military operation scenarios.
technology for surface-to-air missiles [See footnote 24].
technology for targeting equipment (2 licences).
technology for weapon control equipment [See footnote 24].
training multi-role missiles [See footnote 20].
training small arms ammunition (2 licences) [See footnote 28].
weapon control equipment.
weapon night sights (5 licences) [See footnote 12].
- T weapon night sights (6 licences) [See footnotes 1, 36, 40, 41].
weapon sights (14 licences) [See footnotes 19, 25].
- T weapon sights (6 licences) [See footnotes 1, 36, 40, 41].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£4,107
1A004	8	£806,658
1C202	7	£103,431
1C350	1	£7,733
2B350	24	£157,576
2B351	2	£1,359
3A101	1	£2,400,000
3E101	1	£90,000
5A001	9	£6,920,987
5A002	8	£12,270,943
5D001	3	£340,621
5D002	3	£62,100
5E002	1	£120
6A001	2	£1,925,086
6A002	4	£1,540,806
6A003	7	£1,217,597
6A006	1	£16,839
7A003	2	£102,750
7A101	2	£4,600
7A103	3	£48,840
8A001	2	£10,400,000
9A004	1	£57,043

- accelerometers (2 licences) [See footnote 42].
- chemicals used for industrial/commercial processes.
- civil explosive detection/identification equipment (7 licences).
- civil NBC protection equipment.
- civil riot control agent protection equipment.
- components for corrosion resistant chemical manufacturing equipment (3 licences).
- components for telecommunications interception equipment (3 licences) [See footnote 8].
- corrosion resistant chemical manufacturing equipment (21 licences).
- counter-improvised explosive device equipment (3 licences) [See footnote 6].
- deuterium compounds.
- direct view imaging equipment (3 licences) [See footnotes 10, 14, 43].
- imaging cameras (7 licences) [See footnote 18].
- inertial equipment (5 licences).
- information security equipment (5 licences).
- T information security equipment (3 licences).
- information security software.
- magnetometers.
- marine position fixing equipment.
- metal alloy cylindrical forms (7 licences).
- remote sensing imaging sensors.
- software for information security equipment (2 licences).
- software for information security software.
- software for telecommunications interception equipment (3 licences).
- spacecraft telemetry and telecommand equipment.
- submersible vehicles (2 licences).
- technology for information security equipment.
- technology for X-ray accelerators.
- telecommunications interception equipment (5 licences) [See footnote 8].
- T telecommunications interception equipment [See footnote 11].
- towed hydrophone arrays.
- toxic gas monitoring equipment (2 licences).
- X-ray accelerators.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£1,617
6A002	4	£973,590
6A003	3	£159,290
ML1	3	£422,460
ML5	2	£415,000
ML7	1	£135

- civil NBC protection equipment.
- components for civil NBC protection equipment.
- components for NBC protective/defensive equipment.
- T direct view imaging equipment (4 licences) [See footnote 33].
- T imaging cameras (3 licences) [See footnote 33].
- T targeting equipment (2 licences) [See footnote 33].
- T weapon night sights (3 licences).
- T weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£47,042
Non-military	3	£62,775
Total	6	£109,817

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	3	£47,042

aircraft military communications equipment.
components for military support aircraft (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	2	£400
2B350	1	£62,375

corrosion resistant chemical manufacturing equipment.
metal alloy cylindrical forms (2 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Malaysia
Philippines
Senegal
Thailand

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£29,800
Non-military	2	£460,000
Total	3	£489,800

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML8	1	£29,800

explosives.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A006	1	£400,000
5A001	1	£60,000

counter-improvised explosive device equipment.
improvised explosive device disposal remotely operated vehicles.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 2]
2	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 3]
3	P	information security equipment, information security software
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 5]
5	T	components for inertial equipment, inertial equipment, technology for inertial equipment
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft,

		technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 7]
7	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 17]
8	P	aircraft military communications equipment, armoured plate, attack alerting/warning equipment, components for aircraft military communications equipment, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for military aero-engines, components for military guidance/navigation equipment, components for military helmets, constructions for ballistic protection of military systems, decoying/countermeasure equipment, equipment for the use of combat aircraft, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military aircrew safety equipment, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military helmets, software for aircraft military communications equipment, software for combat helicopters, software for military aero-engines, software for military guidance/navigation equipment, technology for armoured plate, technology for combat aircraft, technology for constructions for ballistic protection of military systems, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for unfinished products for combat aircraft, unfinished products for combat helicopters
9	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 26]
10	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
11	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 29]
12	T	towed hydrophone arrays [See footnote 31]
13	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 32]
14	P	components for combat aircraft
15	P	technology for combat aircraft, technology for general military aircraft components
16	P	components for military support aircraft [See footnote 34]
17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of

		general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 35]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	82	£16,744,330
Total	82	£16,744,330

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£200
0C004	1	£620
1C001	1	£313,835
2B350	1	£122,298
2B352	1	£145,000
2E301	1	£1
5A002	1	£1,791
6A001	1	£6,018
6A003	1	£10,000
End Use	9	£2,130,798
IRN	43	£4,624,266
MEND	2	£47,100
PL8001	3	£60,000
PL9009	17	£9,282,403

- accessories for general industrial production equipment.
- biotechnology equipment.
- civil aero-engines (3 licences) [See footnote 2].
- components for airframe structures.
- components for civil aero-engines [See footnote 12].
- components for civil aircraft (11 licences) [See footnote 1].
- components for corrosion resistant chemical manufacturing equipment.
- components for gas detection equipment.
- components for materials testing equipment.
- components for pumps (4 licences).
- A components for valves.
- controlled atmosphere furnaces.
- corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 4].
- deuterium solutions [See footnote 3].
- electromagnetic wave absorbing materials.
- electronic measurement/test equipment.

Country Footnotes

1. On 12 April 2011, the EU adopted additional sanctions on Iran in response to the deterioration of the human rights situation. Council Decision 2011/235/CFSP, as amended, includes restrictions on the supply of equipment which might be used for internal repression, as well as of monitoring and interception equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP (as amended) and EU Council Regulation 267/2012 (as amended). Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

All exports for this destination were approved in accordance with the sanctions in place.

3. Following the implementation of the Joint Comprehensive Plan of Action, the flow of certain goods and services to Iran that were previously prohibited are now permitted. The restrictions currently in force with respect to Iran (counter proliferation) are set out in Council Decision 2010/413/CFSP, as amended, and EU Council Regulation (EU) No 267/2012, as amended. Measures include an arms embargo, which has one exemption for the export of non-combat vehicles with ballistic protection intended solely for protective use of EU and Member States personnel.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
---------------------------	-----------------	-------

Military	20	£5,983,004
Non-military	10	£2,459,798
Both Military and Non-military	1	£7,800
Total	31	£8,450,602

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£906,000
ML4	4	£60,147
ML6	1	£4,100,000
ML7	2	£74,689
ML10	1	£13,854
ML11	2	£32,360
ML13	8	£225,955
ML15	1	£570,000

body armour (6 licences) [See footnotes 39, 40].
bomb suits (2 licences).
components for aircraft missile protection systems (2 licences).
components for body armour (6 licences) [See footnotes 39, 40].
components for military communications equipment.
components for military equipment for initiating explosives.
components for munitions/ordnance detection/disposal equipment [See footnote 19].
components for NBC detection equipment.
military aircrew safety equipment [See footnote 4].
military communications equipment [See footnote 24].
military helmets (8 licences) [See footnotes 39, 40].
military infrared/thermal imaging equipment.
military support vehicles.
NBC detection equipment (2 licences).
small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£20,084
1C350	1	£33
2B350	1	£26,730
5A001	1	£468,904
5A002	4	£1,921,041
6A008	1	£17,833
End Use	1	£5,173

chemicals used for general laboratory work/scientific research.
civil NBC protection equipment.
components for spectrophotometers.
corrosion resistant chemical manufacturing equipment.
counter-improvised explosive device equipment [See footnote 15].
information security equipment (4 licences).

radar equipment.
spectrophotometers.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A007	1	£500
ML13	1	£6,400
PL8001	1	£900

bomb suits [See footnote 31].
components for devices for initiating explosives [See footnote 31].
non-military firing sets [See footnote 31].

Revoked

	Count
Military	1
Total	1

The SIELs revoked were no longer granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	1

components for sniper rifles [See footnote 1].
sniper rifles (100) [See footnote 1].
weapon sights [See footnote 1].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£38,446
Total	1	£38,446

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£38,446

components for aircraft missile protection systems.

Issued

aircraft military communications equipment.
aircraft missile protection systems.
all-wheel drive vehicles with ballistic protection (4 licences) [See footnotes 12, 2, 42].
assault rifles (10000).
attack alerting/warning equipment.
body armour.
components for aircraft military communications equipment.
components for aircraft missile protection systems.
components for assault rifles (3 licences) [See footnote 16].
components for attack alerting/warning equipment.
components for electronic countermeasure equipment.
components for general military aircraft components.
components for global navigation satellite systems jamming equipment.
components for military aircraft head-up/down displays.
components for military communications equipment.
components for military electronic equipment.
components for military guidance/navigation equipment.
components for military helicopters.
components for military helmets.
components for military infrared/thermal imaging equipment.
devices containing military pyrotechnic materials [See footnote 36].
electronic countermeasure equipment.
equipment for the operation of military aircraft in confined areas.
fuze setting devices [See footnote 3].
general military aircraft components.
global navigation satellite systems jamming equipment.
grenade launchers.

military aircraft ground equipment.
 military aircraft head-up/down displays.
 military aircrew life support equipment.
 military aircrew safety equipment.
 military combat vehicles.
 military communications equipment.
 military electronic equipment.
 military guidance/navigation equipment.
 military helicopters.
 military helmets.
 military infrared/thermal imaging equipment.
 NBC decontamination chemical mixtures (2 licences) [See footnote 16].
 NBC decontamination equipment [See footnote 11].
 NBC detection equipment [See footnote 38].
 NBC protective/defensive equipment (2 licences) [See footnote 11].
 promoting the supply of air launched rockets [See footnote 47].
 promoting the supply of all-wheel drive vehicles with ballistic protection (3 licences).
 promoting the supply of anti-armour ammunition (3 licences) [See footnote 41].
 promoting the supply of anti-armour weapons (3 licences) [See footnotes 23, 28].
 promoting the supply of anti-riot/ballistic shields [See footnote 26].
 promoting the supply of artillery.
 promoting the supply of artillery ammunition (19 licences) [See footnotes 10, 16, 22, 29, 3, 34, 41, 5].
 promoting the supply of assault rifles (1) [See footnote 44].
 promoting the supply of assault rifles (3) (2 licences) [See footnote 13].
 promoting the supply of assault rifles (4) (2 licences) [See footnote 30].
 promoting the supply of assault rifles (5) [See footnote 11].
 promoting the supply of assault rifles (6).
 promoting the supply of assault rifles (8).
 promoting the supply of assault rifles (10).
 promoting the supply of assault rifles (13).
 promoting the supply of assault rifles (20).
 promoting the supply of assault rifles (27).
 promoting the supply of assault rifles (29) [See footnote 28].
 promoting the supply of assault rifles (30) (2 licences).
 promoting the supply of assault rifles (40).
 promoting the supply of assault rifles (42) [See footnote 36].
 promoting the supply of assault rifles (46).
 promoting the supply of assault rifles (50) (3 licences) [See footnote 16].
 promoting the supply of assault rifles (58) [See footnote 38].
 promoting the supply of assault rifles (70).
 promoting the supply of assault rifles (83) [See footnote 25].
 promoting the supply of assault rifles (100) [See footnote 26].
 promoting the supply of assault rifles (115) [See footnote 46].
 promoting the supply of assault rifles (160).
 promoting the supply of assault rifles (200) [See footnote 41].
 promoting the supply of assault rifles (237) [See footnote 23].
 promoting the supply of assault rifles (10000) [See footnote 21].
 promoting the supply of assault rifles (2 licences) [See footnotes 7, 9].
 promoting the supply of ballistic test equipment [See footnote 36].
 promoting the supply of blank/inert ammunition (4 licences) [See footnotes 41, 44].
 promoting the supply of body armour (22 licences) [See footnotes 11, 13, 16, 23, 26, 27, 38, 41, 44, 46, 9].
 promoting the supply of bomb suits [See footnote 33].
 promoting the supply of chemicals used for chemical/materials production [See footnote 26].
 A promoting the supply of combat helicopters.
 promoting the supply of combat shotguns (3).
 promoting the supply of components for artillery ammunition (11 licences) [See footnotes 16, 22, 23, 29, 38, 41].
 promoting the supply of components for assault rifles (5 licences) [See footnote 21].
 promoting the supply of components for body armour (15 licences) [See footnotes 11, 16, 23, 25, 27, 38, 41, 44, 46, 9].
 promoting the supply of components for command/control equipment for unmanned air vehicles (2 licences) [See footnote 44].
 promoting the supply of components for explosive charges/devices.
 promoting the supply of components for launching/ground support equipment for unmanned air vehicles (2 licences) [See footnote 44].
 promoting the supply of components for machine guns (3 licences) [See footnotes 23, 9].
 promoting the supply of components for military aero-engines.
 promoting the supply of components for military combat vehicles (16 licences) [See footnotes 16, 18, 26, 38, 44, 9].

promoting the supply of components for military communications equipment (2 licences).
 promoting the supply of components for military support vehicles (2 licences) [See footnote 35].
 promoting the supply of components for NBC protective/defensive equipment (3 licences) [See footnote 46].
 promoting the supply of components for periscopes.
 promoting the supply of components for pistols.
 promoting the supply of components for promoting the supply of launching/handling/control equipment for rockets.
 promoting the supply of components for rifles.
 promoting the supply of components for sniper rifles.
 promoting the supply of components for training hand grenades (2 licences) [See footnote 36].
 promoting the supply of components for unmanned air vehicles (2 licences) [See footnote 44].
 promoting the supply of demolition charges/devices (2 licences) [See footnote 41].
 promoting the supply of equipment for the production of small arms ammunition.
 promoting the supply of equipment for the use of military communications equipment.
 promoting the supply of general military aircraft components.
 promoting the supply of general military vehicle components (4 licences).
 promoting the supply of grenade launchers (10 licences) [See footnotes 23, 44, 46, 7, 9].
 promoting the supply of ground vehicle military communications equipment [See footnote 48].
 promoting the supply of gun mountings.
 promoting the supply of hand grenades (4 licences) [See footnote 36].
 promoting the supply of high power RF weapon systems [See footnote 45].
 promoting the supply of inert hand grenades.
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 45].
 promoting the supply of launching/handling/control equipment for missiles (2 licences).
 promoting the supply of launching/handling/control equipment for rockets (3 licences) [See footnote 36].
 promoting the supply of machine guns (1) (3 licences) [See footnotes 11, 38].
 promoting the supply of machine guns (2) (2 licences) [See footnote 36].
 promoting the supply of machine guns (3) (2 licences).
 promoting the supply of machine guns (6) (3 licences) [See footnote 44].
 promoting the supply of machine guns (10).
 promoting the supply of machine guns (12) [See footnote 23].
 promoting the supply of machine guns (13).
 promoting the supply of machine guns (15) [See footnote 41].
 promoting the supply of machine guns (16).
 promoting the supply of machine guns (18) (2 licences) [See footnotes 28, 46].
 promoting the supply of machine guns (34).
 promoting the supply of machine guns (263).
 promoting the supply of machine guns [See footnote 8].
 promoting the supply of military aircrew safety equipment [See footnote 11].
 promoting the supply of military combat vehicles (15 licences) [See footnotes 11, 13, 18, 32, 34, 37, 44, 8].
 promoting the supply of military communications equipment (21 licences) [See footnotes 11, 13, 16, 23, 38, 41, 44, 46, 9].
 promoting the supply of military electronic equipment (4 licences) [See footnotes 41, 46].
 promoting the supply of military equipment for initiating explosives (3 licences).
 promoting the supply of military guidance/navigation equipment (4 licences) [See footnotes 23, 46].
 promoting the supply of military helmets (20 licences) [See footnotes 11, 16, 23, 27, 33, 35, 38, 41, 44, 46, 9].
 promoting the supply of military image intensifier equipment (8 licences) [See footnotes 28, 44].
 promoting the supply of military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 promoting the supply of military infrared/thermal imaging equipment (2 licences) [See footnote 23].
 promoting the supply of military shotguns (4) (2 licences) [See footnote 46].
 promoting the supply of military shotguns (5) (2 licences) [See footnotes 23, 28].
 promoting the supply of military support vehicles (5 licences) [See footnotes 35, 6].
 promoting the supply of military trailers.
 promoting the supply of military training equipment.
 promoting the supply of mortar bombs (2 licences) [See footnote 29].
 promoting the supply of mortars (2 licences) [See footnote 46].
 promoting the supply of munitions/ordnance detection/disposal equipment (3 licences) [See footnote 20].
 promoting the supply of naval communications equipment [See footnote 48].
 promoting the supply of NBC decontamination chemical mixtures (6 licences) [See footnotes 38, 41, 46].
 promoting the supply of NBC decontamination equipment (3 licences) [See footnote 23].
 promoting the supply of NBC detection equipment (8 licences) [See footnotes 23, 38, 41, 46, 9].

promoting the supply of NBC protective/defensive equipment (19 licences) [See footnotes 11, 13, 16, 23, 38, 41, 46, 9].
 promoting the supply of periscopes.
 promoting the supply of pistols (1).
 promoting the supply of pistols (3).
 promoting the supply of pistols (4) [See footnote 30].
 promoting the supply of pistols (5) (2 licences) [See footnote 11].
 promoting the supply of pistols (9).
 promoting the supply of pistols (10) (2 licences) [See footnote 36].
 promoting the supply of pistols (13).
 promoting the supply of pistols (23).
 promoting the supply of pistols (26).
 promoting the supply of pistols (30) (2 licences).
 promoting the supply of pistols (39) [See footnote 28].
 promoting the supply of pistols (40).
 promoting the supply of pistols (46).
 promoting the supply of pistols (50) (2 licences) [See footnote 16].
 promoting the supply of pistols (58) (2 licences) [See footnotes 26, 38].
 promoting the supply of pistols (70).
 promoting the supply of pistols (99) [See footnote 25].
 promoting the supply of pistols (115) [See footnote 46].
 promoting the supply of pistols (124).
 promoting the supply of pistols (196).
 promoting the supply of pistols (200) [See footnote 41].
 promoting the supply of pistols (230) [See footnote 23].
 promoting the supply of pistols [See footnote 9].
 promoting the supply of projectile launchers [See footnote 23].
 promoting the supply of rangefinding equipment (7 licences) [See footnotes 23, 28, 38, 41, 46, 9].
 promoting the supply of rifle grenades.
 promoting the supply of rifles (3).
 promoting the supply of rifles.
 promoting the supply of signalling devices (2 licences).
 promoting the supply of signature suppression fittings/coatings/treatments for military use.
 promoting the supply of small arms ammunition (21 licences) [See footnotes 10, 16, 17, 30, 36, 41, 43, 44, 45].
 promoting the supply of small arms training equipment.
 promoting the supply of smoke canisters.
 promoting the supply of smoke/pyrotechnic ammunition (2 licences) [See footnotes 29, 34].
 promoting the supply of sniper rifles (1) (3 licences) [See footnote 44].
 promoting the supply of sniper rifles (2).
 promoting the supply of sniper rifles (4).
 promoting the supply of sniper rifles (11).
 promoting the supply of sniper rifles (16) [See footnote 46].
 promoting the supply of sniper rifles (21) [See footnote 23].
 promoting the supply of sniper rifles (44).
 promoting the supply of sporting shotguns (52).
 promoting the supply of surface launched rockets (4 licences) [See footnotes 14, 16].
 promoting the supply of surface-to-surface missiles [See footnote 22].
 promoting the supply of targeting equipment (5 licences) [See footnote 44].
 promoting the supply of training hand grenades (3 licences) [See footnote 41].
 promoting the supply of training small arms ammunition (3 licences).
 promoting the supply of unmanned air vehicles (2 licences) [See footnote 45].
 promoting the supply of weapon night sights (14 licences) [See footnotes 11, 16, 23, 38, 41, 46, 9].
 promoting the supply of weapon sight mounts.
 promoting the supply of weapon sights (21 licences) [See footnotes 11, 16, 23, 26, 38, 41, 44, 46, 9].

A - Some or all of which were issued on appeal.

Refused

promoting the supply of assault rifles (4000).

 promoting the supply of smooth-bore weapons.
 promoting the supply of sniper rifles.
 promoting the supply of sporting guns.
 promoting the supply of sporting shotgun ammunition.
 promoting the supply of sporting shotguns.
 promoting the supply of tactical shotguns.

Country Footnotes

1. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004).

All exports for this destination were approved in accordance with the sanctions in place.

2. General trade sanctions against Iraq, except prohibitions related to the sale or supply of arms and related materiel, were revoked by the UN Security Council resolution 1483 (22 May 2003), implemented in UK legislation on 14 June 2003 by the Iraq (United Nations Sanctions) Order 2003 [S.I. 2003/1519]. UNSCR 1546 (2004) continues the embargo on arms and related materiel against Iraq, but provides exemptions for equipment required by the Government of Iraq to serve the purposes of UNSCR 1546 (2004). This is implemented in the EU with Common Position 2003/495/CFSP, as amended, Council Regulation (EC) No 1210/2003, as amended, and Council Regulation (EEC) No 3541/92.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	109	£215,585,497
Non-military	158	£65,428,168
Both Military and Non-military	7	£2,545,798
Total	274	£283,559,464

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	5	£32,493
ML3	2	£79,490
ML4	16	£1,307,965
ML5	14	£3,124,424
ML6	5	£18,027
ML7	1	£1,565
ML8	1	£20
ML9	20	£507,910
ML10	20	£24,424,332
ML11	13	£537,223
ML13	2	£210,000
ML15	3	£217,449
ML17	2	£290,410
ML18	3	£18,706
ML19	2	£2,340,000

ML22	5	£182,475,484
------	---	--------------

aircraft military communications equipment.
 assault rifles (2).
 ballistic test equipment.
 body armour.
 components for aircraft military communications equipment.
 components for assault rifles.
 components for ballistic test equipment.
 components for body armour (2 licences) [See footnote 13].
 components for combat aircraft.
 components for combat helicopters (3 licences) [See footnote 23].
 components for combat naval vessels (3 licences).
 components for decoying/countermeasure equipment (4 licences).
 components for decoying/countermeasure equipment.
 components for ground vehicle military communications equipment.
 components for launching/handling/control equipment for missiles.
 components for launching/handling/control equipment for munitions.
 components for military aircraft head-up/down displays.
 components for military communications equipment (5 licences).
 components for military diving apparatus.
 components for military guidance/navigation equipment.
 components for military guidance/navigation equipment.
 components for military helicopters.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military infrared/thermal imaging equipment (3 licences).
 components for military radars (3 licences).
 components for military support aircraft (4 licences).
 components for military support vehicles.
 components for military training aircraft (6 licences).
 components for naval electrical/electronic equipment (3 licences).
 components for NBC protective/defensive equipment.
 components for pistols.
 components for sniper rifles.
 components for submarines (10 licences) [See footnotes 18, 20, 21].
 components for surface-to-air missiles (6 licences).
 components for tanks (2 licences).
 components for targeting equipment (4 licences).
 components for targeting equipment.
 components for weapon control equipment.
 decoying/countermeasure equipment.
 energetic materials additives.
 equipment for the development of multi-role missiles.
 equipment for the production of military support aircraft.
 equipment for the use of attack alerting/warning equipment (2 licences).
 equipment for the use of military electronic equipment.
 equipment for the use of military radars.
 equipment for the use of targeting equipment.
 general military vehicle components.
 general naval vessel components (3 licences) [See footnote 22].
 high power RF weapon systems (2 licences).
 launching/handling/control equipment for munitions.
 military aircraft ground equipment.
 military aircraft head-up/down displays (2 licences).
 military communications equipment (2 licences).
 military electronic equipment.
 military equipment for initiating explosives.
 military guidance/navigation equipment.
 military helmets (2 licences) [See footnote 13].
 naval electrical/electronic equipment.
 rangefinding equipment.
 small arms ammunition [See footnote 19].
 sniper rifles (4).
 targeting equipment (2 licences).
 technology for military communications equipment.
 technology for military electronic equipment.
 technology for military guidance/navigation equipment.
 technology for military radars.

technology for multi-role missiles.
test models for multi-role missiles.
training small arms ammunition.
weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A002	1	£8,021
1A004	10	£1,154,335
1C001	1	£646

T
aero-engine assemblies.
analogue-to-digital equipment.
biotechnology equipment (2 licences).
calibration equipment for guidance/navigation equipment.
civil explosive detection/identification equipment (7 licences).
civil NBC protection clothing.
civil NBC protection equipment.
components for civil explosive detection/identification equipment.
components for magnetometers.
composite structures.
corrosion resistant chemical manufacturing equipment (18 licences).
dimensional measuring equipment.
direct view imaging equipment.
electromagnetic wave absorbing materials.
equipment for the production of gas turbines.
explosives detection equipment.
extended temperature range integrated circuits.

- fibrous/filamentary materials (2 licences) [See footnote 5].
- frequency changers (4 licences).
- graphite materials.
- helium-3.
- imaging cameras (18 licences) [See footnotes 17, 25].
- T imaging cameras (6 licences).
- inertial equipment (3 licences).
- information security equipment (28 licences) [See footnotes 10, 15, 31].
- T information security equipment (3 licences) [See footnotes 27, 28].
- information security software (7 licences).
- instrumentation cameras (2 licences).
- laser acoustic detection equipment.
- lasers (2 licences).
- liquid rocket propulsion systems.
- machine tools.
- magnetometers.
- metal alloy cylindrical forms (2 licences).
- T network analysers (2 licences) [See footnote 29].
- neutron generators (2 licences).
- nickel powders.
- oscillators.
- pressure transducers (11 licences).
- T real-time oscilloscopes.
- RF direction finding equipment.
- semiconductor wafers with epitaxial layers.
- T signal analysers (8 licences) [See footnotes 12, 30].
- T signal generators (7 licences).
- software for information security equipment (7 licences) [See footnotes 10, 15, 31].
- sonar log equipment.
- technology for civil NBC detection systems.
- technology for equipment for the production of gas turbines.
- technology for information security equipment (4 licences).
- technology for information security software.
- technology for magnetometers.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£104,070
6A002	4	£1,657,150
6A003	4	£206,684
6E101	1	£1,000

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£409,880
Both Military and Non-military	1	£105,853
Total	2	£515,733

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry')As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£409,880

small arms ammunition.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A008	1	£2,463
ML3	1	£88,092
ML4	1	£14,139
ML14	1	£53
PL9002	1	£1,107

anti-armour ammunition.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military training equipment.
 components for small arms ammunition.
 exploding grenade ammunition.
 linear shaped cutting charges.
 non-military energetic materials.
 small arms ammunition.
 smoke canisters.
 smoke/pyrotechnic ammunition.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle

		military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
3	P	components for aircraft military communications equipment, components for military guidance/navigation equipment, components for military training aircraft, general military aircraft components
4	P	technology for information security equipment [See footnote 4]
5	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 6]
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for equipment for the production of military support aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 7]
7	P	metal alloy cylindrical forms [See footnote 8]

8	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 14]
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 16]
10	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 26]
11	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 24]
12	P	marine position fixing equipment, underwater telecommunications systems

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy tubes, sonar log equipment, submersible equipment, syntactic foam
2	P	information security equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	151	£15,835,707
Non-military	15	£364,899
Both Military and Non-military	2	£430,950
Total	168	£16,631,556

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	17	£904,342
ML3	9	£802,032
ML4	19	£2,900,368
ML5	10	£309,936
ML6	1	£17,000
ML7	3	£135,383
ML8	1	£2,400,000
ML9	5	£247,814
ML10	67	£7,005,670
ML11	9	£578,474
ML13	3	£115,562
ML15	2	£242,265
ML16	6	£167,039

ML18	1	£6,042
ML22	9	£3,780

- aircraft military communications equipment (3 licences).
- anti-armour ammunition.
- assault rifles (1).
- blank/inert ammunition.
- body armour.
- bomb suits.
- components for aircraft carriers.
- components for aircraft military communications equipment (2 licences).
- components for assault rifles.
- components for body armour.
- components for bomb suits.
- components for bombs (2 licences).
- components for combat aircraft (9 licences).
- components for combat helicopters (3 licences).
- T components for combat helicopters.
- components for decoying/countermeasure equipment (6 licences).
- components for fuze setting devices.
- components for launching/handling/control equipment for missiles.
- components for machine guns (2 licences).
- components for military aero-engines.
- components for military aircraft head-up/down displays.
- components for military communications equipment (3 licences).
- components for military helicopters.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment (5 licences).
- components for military patrol/assault craft.
- components for military radars (6 licences).
- components for military support aircraft (17 licences).
- components for military training aircraft (21 licences).
- components for naval electrical/electronic equipment.
- components for NBC protective/defensive equipment (3 licences).
- components for pistols.
- components for recognition/identification equipment.
- components for small arms ammunition (3 licences).
- components for sniper rifles (2 licences).
- components for sporting guns.
- components for sporting shotgun ammunition (3 licences).
- components for tanks.
- T components for weapon control equipment.
- decoying/countermeasure equipment (7 licences).
- T electronic warfare equipment.
- equipment for the production of combat aircraft.
- T equipment for the use of munitions/ordnance detection/disposal equipment.
- T equipment for the use of weapon night sights.
- general military aircraft components (9 licences).
- general naval vessel components (2 licences).
- gun mountings (2 licences).
- military aero-engines (2 licences).
- military communications equipment.
- military electronic equipment.
- T military electronic equipment.
- T military guidance/navigation equipment.
- military helmets (3 licences).
- T military image intensifier equipment.
- military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- military infrared/thermal imaging equipment.
- T military infrared/thermal imaging equipment.
- pyrotechnics/fuels and related substances.
- T rangefinding equipment.
- T recognition/identification equipment.
- small arms ammunition.
- sporting guns (1) (4 licences).
- technology for attack alerting/warning equipment.
- technology for decoying/countermeasure equipment (6 licences).
- technology for unfinished products for military helicopters.
- technology for unmanned air vehicles.

- unfinished products for decoying/countermeasure equipment.
- unfinished products for launching/handling/control equipment for munitions (2 licences).
- unfinished products for military helicopters (2 licences).
- unfinished products for military support aircraft.
- weapon night sights (4 licences).
- T weapon night sights.
- weapon sights (2 licences).
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£465
0C002	1	£0
1A007	1	£61,200
1C233	4	£18,804
2B350	1	£3,686
8A001	1	£171,955
PL9002	1	£91
PL9010	6	£108,698

- components for corrosion resistant chemical manufacturing equipment.
- T components for sporting shotguns.
- devices containing enriched lithium (3 licences).
- T devices containing enriched lithium.
- enriched uranium.
- non-military detonators.
- non-military energetic materials.
- sporting shotguns (1).
- sporting shotguns (2) (3 licences).
- sporting shotguns (3).
- submersible vehicles.
- thorium.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£347,150
PL9010	2	£83,800

- components for sporting shotguns (2 licences).
- pistols (12).
- sporting guns (41).
- sporting shotguns (7).
- sporting shotguns (9).

18	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
19	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training

		aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 17]
20	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
21	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
22	P	components for weapon sights, weapon sights
23	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
24	P	air-to-surface missiles, bombs, components for air-to-surface missiles, components for inert air-to-surface missiles, components for military training equipment, equipment for the use of air-to-surface missiles, inert air-to-surface missiles, launching/handling/control equipment for missiles, military guidance/navigation equipment, military training equipment, software for air-to-surface missiles, software for military guidance/navigation equipment, software for military training equipment, technology for air-to-surface missiles, technology for military guidance/navigation equipment, weapon control equipment
25	P	components for military helicopters, general military aircraft components [See footnote 23]
26	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 26]
27	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components

		for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
28	P	components for air launched rockets, components for air-to-air missiles, components for bombs, components for decoying/countermeasure equipment, components for devices containing military pyrotechnic materials, components for surface launched rockets, components for surface-to-air missiles, components for torpedoes, technology for air launched rockets, technology for air-to-air missiles, technology for decoying/countermeasure equipment, technology for devices containing military pyrotechnic materials, technology for surface launched rockets, technology for surface-to-air missiles, technology for torpedoes
29	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 27]
30	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 28]
31	T	towed hydrophone arrays
32	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 39]
33	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment,

		software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 40]
34	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines
35	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 43]
36	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
37	P	components for military aero-engines, military aero-engines, technology for military aero-engines
38	P	technology for NBC detection equipment [See footnote 44]
39	P	components for combat aircraft
40	P	technology for combat aircraft, technology for military aero-engines, unfinished products for combat aircraft, unfinished products for military aero-engines [See footnote 45]
41	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software,

		equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
42	P	Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for multi-role missiles, technology for multi-role missiles, technology for Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating/evaluating weapon systems
43	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 56]
44	P	technology for military helicopters, unfinished products for military helicopters [See footnote 46]
45	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
46	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
47	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
48	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 57]
49	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive

		device decoying/detection/disposal/jamming equipment [See footnote 48]
50	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
51	P	components for military support aircraft [See footnote 52]
52	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 54]
53	P	components for military helicopters
54	P	components for sporting guns
55	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, environmental test facilities for air-to-surface missiles, equipment for the development of air-to-surface missiles, equipment for the production of air-to-surface missiles, equipment for the use of air-to-surface missiles, launching/handling/control equipment for missiles, software for air-to-surface missiles, software for launching/handling/control equipment for missiles, Software for modelling/simulating/evaluating weapon systems, technology for air-to-surface missiles, technology for launching/handling/control equipment for missiles, technology for production installations for air-to-surface missiles, unfinished products for air-to-surface missiles [See footnote 55]
56	P	components for military training aircraft
57	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment
58	P	components for combat aircraft
59	P	components for military training aircraft [See footnote 58]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military aero-engines, military aero-engines, technology for military aero-engines

Issued

aircraft military communications equipment [See footnote 51].
 attack alerting/warning equipment [See footnote 51].
 components for attack alerting/warning equipment [See footnote 51].
 components for combat aircraft [See footnote 51].
 components for military aero-engines [See footnote 51].
 components for military radars [See footnote 51].
 electronic warfare equipment [See footnote 51].
 general military aircraft components [See footnote 51].
 military aero-engines [See footnote 51].
 military communications equipment [See footnote 51].
 military electronic equipment [See footnote 51].
 military guidance/navigation equipment [See footnote 51].
 military imaging radar sensor equipment [See footnote 51].
 military radars [See footnote 51].
 promoting the supply of airborne refuelling equipment [See footnote 19].
 promoting the supply of aircraft cannons [See footnote 19].
 promoting the supply of aircraft military communications equipment [See footnote 19].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 19].
 promoting the supply of anti-aircraft guns [See footnote 19].
 promoting the supply of anti-armour ammunition [See footnote 19].
 promoting the supply of anti-armour weapons [See footnote 19].
 promoting the supply of anti-riot/ballistic shields [See footnote 19].
 promoting the supply of artillery [See footnote 19].
 promoting the supply of assault rifles [See footnote 19].
 promoting the supply of attack alerting/warning equipment [See footnote 19].
 promoting the supply of body armour [See footnote 19].
 promoting the supply of caseless ammunition weapons [See footnote 19].
 promoting the supply of combat aircraft [See footnote 51].
 promoting the supply of combat helicopters [See footnote 19].
 promoting the supply of combat shotguns [See footnote 19].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 19].
 promoting the supply of components for assault rifles [See footnote 19].
 promoting the supply of components for body armour [See footnote 19].
 promoting the supply of components for combat shotguns [See footnote 19].
 promoting the supply of components for machine guns [See footnote 19].
 promoting the supply of components for pistols [See footnote 19].
 promoting the supply of components for rifles [See footnote 19].
 promoting the supply of components for smooth-bore weapons [See footnote 19].
 promoting the supply of components for sniper rifles [See footnote 19].
 promoting the supply of components for sporting guns [See footnote 19].

promoting the supply of components for sporting shotguns [See footnote 19].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 19].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 19].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 19].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 19].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 19].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 19].
promoting the supply of CS hand grenades [See footnote 19].
promoting the supply of devices containing military pyrotechnic materials [See footnote 19].
promoting the supply of electronic countermeasure equipment [See footnote 19].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 19].
promoting the supply of equipment for the use of aircraft cannons [See footnote 19].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 19].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 19].
promoting the supply of equipment for the use of artillery [See footnote 19].
promoting the supply of equipment for the use of assault rifles [See footnote 19].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 19].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 19].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 19].
promoting the supply of equipment for the use of fire location equipment [See footnote 19].
promoting the supply of equipment for the use of flash suppressers [See footnote 19].
promoting the supply of equipment for the use of grenade launchers [See footnote 19].
promoting the supply of equipment for the use of gun silencers [See footnote 19].
promoting the supply of equipment for the use of heavy machine guns [See footnote 19].
promoting the supply of equipment for the use of machine guns [See footnote 19].
promoting the supply of equipment for the use of military radars [See footnote 19].
promoting the supply of equipment for the use of mortars [See footnote 19].
promoting the supply of equipment for the use of periscopes [See footnote 19].
promoting the supply of equipment for the use of pistols [See footnote 19].
promoting the supply of equipment for the use of projectile launchers [See footnote 19].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 19].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 19].
promoting the supply of equipment for the use of rifles [See footnote 19].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 19].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 19].
promoting the supply of equipment for the use of sniper rifles [See footnote 19].
promoting the supply of equipment for the use of sporting guns [See footnote 19].
promoting the supply of equipment for the use of sporting shotguns [See footnote 19].
promoting the supply of equipment for the use of targeting equipment [See footnote 19].
promoting the supply of equipment for the use of weapon control equipment [See footnote 19].
promoting the supply of equipment for the use of weapon mountings [See footnote 19].
promoting the supply of equipment for the use of weapon night sights [See footnote 19].
promoting the supply of equipment for the use of weapon sights [See footnote 19].
promoting the supply of fire location equipment [See footnote 19].
promoting the supply of flash suppressers [See footnote 19].
promoting the supply of fuze setting devices [See footnote 19].
promoting the supply of general military aircraft components [See footnote 19].
promoting the supply of grenade launchers [See footnote 19].
promoting the supply of gun mountings [See footnote 19].
promoting the supply of gun silencers [See footnote 19].
promoting the supply of hand grenades [See footnote 19].
promoting the supply of heavy machine guns [See footnote 19].
promoting the supply of illuminators [See footnote 19].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 19].
promoting the supply of machine guns [See footnote 19].
promoting the supply of military aero-engines [See footnote 19].
promoting the supply of military aircraft ground equipment [See footnote 19].
promoting the supply of military aircraft head-up/down displays [See footnote 19].
promoting the supply of military aircraft pressure refuellers [See footnote 19].

promoting the supply of military aircrew life support equipment [See footnote 19].
 promoting the supply of military aircrew safety equipment [See footnote 19].
 promoting the supply of military cameras/photographic equipment [See footnote 19].
 promoting the supply of military combat vehicles [See footnote 19].
 promoting the supply of military helmets [See footnote 19].
 promoting the supply of military image intensifier equipment [See footnote 19].
 promoting the supply of military image recording/processing equipment [See footnote 19].
 promoting the supply of military imaging radar sensor equipment [See footnote 19].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 19].
 promoting the supply of military radars [See footnote 19].
 promoting the supply of military support vehicles [See footnote 19].
 promoting the supply of mortars [See footnote 19].
 promoting the supply of periscopes [See footnote 19].
 promoting the supply of pistols [See footnote 19].
 promoting the supply of projectile launchers [See footnote 19].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 19].
 promoting the supply of rangefinding equipment [See footnote 19].
 promoting the supply of recognition/identification equipment [See footnote 19].
 promoting the supply of rifles [See footnote 19].
 promoting the supply of sensor integration equipment [See footnote 19].
 promoting the supply of signalling devices [See footnote 19].
 promoting the supply of small arms ammunition [See footnote 19].
 promoting the supply of smoke canisters [See footnote 19].
 promoting the supply of smooth-bore weapons [See footnote 19].
 promoting the supply of sniper rifles [See footnote 19].
 promoting the supply of sporting guns [See footnote 19].
 promoting the supply of sporting shotguns [See footnote 19].
 promoting the supply of targeting equipment [See footnote 19].
 promoting the supply of unmanned air vehicles [See footnote 19].
 promoting the supply of water cannon [See footnote 19].
 promoting the supply of weapon cleaning equipment [See footnote 19].
 promoting the supply of weapon control equipment [See footnote 19].
 promoting the supply of weapon mountings [See footnote 19].
 promoting the supply of weapon night sights [See footnote 19].
 promoting the supply of weapon sight mounts [See footnote 19].
 promoting the supply of weapon sights [See footnote 19].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£770
Non-military	9	£308,963

Both Military and Non-military	1	£7,443
Total	11	£317,176

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL5001	1	£770

anti-riot/ballistic shields.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£40,000
5A002	3	£48,597
6A003	3	£135,000
7A103	1	£50,000
7E101	1	£10
PL8001	1	£35,357

T civil explosive detection/identification equipment.
T components for devices for initiating explosives.
T imaging cameras (3 licences).
T inertial equipment.
T information security equipment (3 licences).
T technology for inertial equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£2,443
ML11	1	£5,000

information security equipment.
military communications equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 2]

2	P	marine position fixing equipment, underwater telecommunications systems
---	---	---

OITCLs

Source	Issued	Refused	Revoked

Issued

promoting the supply of airborne refuelling equipment [See footnote 1].
 promoting the supply of aircraft cannons [See footnote 1].
 promoting the supply of aircraft military communications equipment [See footnote 1].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 1].
 promoting the supply of anti-aircraft guns [See footnote 1].
 promoting the supply of anti-armour ammunition [See footnote 1].
 promoting the supply of anti-armour weapons [See footnote 1].
 promoting the supply of anti-riot/ballistic shields [See footnote 1].
 promoting the supply of artillery [See footnote 1].
 promoting the supply of assault rifles [See footnote 1].
 promoting the supply of attack alerting/warning equipment [See footnote 1].
 promoting the supply of body armour [See footnote 1].
 promoting the supply of caseless ammunition weapons [See footnote 1].
 promoting the supply of combat helicopters [See footnote 1].
 promoting the supply of combat shotguns [See footnote 1].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 1].
 promoting the supply of components for assault rifles [See footnote 1].
 promoting the supply of components for body armour [See footnote 1].
 promoting the supply of components for combat shotguns [See footnote 1].
 promoting the supply of components for machine guns [See footnote 1].
 promoting the supply of components for pistols [See footnote 1].
 promoting the supply of components for rifles [See footnote 1].
 promoting the supply of components for smooth-bore weapons [See footnote 1].
 promoting the supply of components for sniper rifles [See footnote 1].
 promoting the supply of components for sporting guns [See footnote 1].
 promoting the supply of components for sporting shotguns [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of CS hand grenades [See footnote 1].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 1].

promoting the supply of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].
promoting the supply of equipment for the use of aircraft cannons [See footnote 1].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].
promoting the supply of equipment for the use of artillery [See footnote 1].
promoting the supply of equipment for the use of assault rifles [See footnote 1].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the use of fire location equipment [See footnote 1].
promoting the supply of equipment for the use of flash suppressers [See footnote 1].
promoting the supply of equipment for the use of grenade launchers [See footnote 1].
promoting the supply of equipment for the use of gun silencers [See footnote 1].
promoting the supply of equipment for the use of heavy machine guns [See footnote 1].
promoting the supply of equipment for the use of machine guns [See footnote 1].
promoting the supply of equipment for the use of military radars [See footnote 1].
promoting the supply of equipment for the use of mortars [See footnote 1].
promoting the supply of equipment for the use of periscopes [See footnote 1].
promoting the supply of equipment for the use of pistols [See footnote 1].
promoting the supply of equipment for the use of projectile launchers [See footnote 1].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].
promoting the supply of equipment for the use of rifles [See footnote 1].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].
promoting the supply of equipment for the use of sniper rifles [See footnote 1].
promoting the supply of equipment for the use of sporting guns [See footnote 1].
promoting the supply of equipment for the use of sporting shotguns [See footnote 1].
promoting the supply of equipment for the use of targeting equipment [See footnote 1].
promoting the supply of equipment for the use of weapon control equipment [See footnote 1].
promoting the supply of equipment for the use of weapon mountings [See footnote 1].
promoting the supply of equipment for the use of weapon night sights [See footnote 1].
promoting the supply of equipment for the use of weapon sights [See footnote 1].
promoting the supply of fire location equipment [See footnote 1].
promoting the supply of flash suppressers [See footnote 1].
promoting the supply of fuze setting devices [See footnote 1].
promoting the supply of general military aircraft components [See footnote 1].
promoting the supply of grenade launchers [See footnote 1].
promoting the supply of gun mountings [See footnote 1].
promoting the supply of gun silencers [See footnote 1].
promoting the supply of hand grenades [See footnote 1].
promoting the supply of heavy machine guns [See footnote 1].
promoting the supply of illuminators [See footnote 1].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].
promoting the supply of machine guns [See footnote 1].
promoting the supply of military aero-engines [See footnote 1].
promoting the supply of military aircraft ground equipment [See footnote 1].
promoting the supply of military aircraft head-up/down displays [See footnote 1].
promoting the supply of military aircraft pressure refuellers [See footnote 1].
promoting the supply of military aircrew life support equipment [See footnote 1].
promoting the supply of military aircrew safety equipment [See footnote 1].
promoting the supply of military cameras/photographic equipment [See footnote 1].
promoting the supply of military combat vehicles [See footnote 1].
promoting the supply of military helmets [See footnote 1].
promoting the supply of military image intensifier equipment [See footnote 1].
promoting the supply of military image recording/processing equipment [See footnote 1].
promoting the supply of military imaging radar sensor equipment [See footnote 1].
promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
promoting the supply of military radars [See footnote 1].
promoting the supply of military support vehicles [See footnote 1].
promoting the supply of mortars [See footnote 1].
promoting the supply of periscopes [See footnote 1].
promoting the supply of pistols [See footnote 1].
promoting the supply of projectile launchers [See footnote 1].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].

promoting the supply of rangefinding equipment [See footnote 1].
 promoting the supply of recognition/identification equipment [See footnote 1].
 promoting the supply of rifles [See footnote 1].
 promoting the supply of sensor integration equipment [See footnote 1].
 promoting the supply of signalling devices [See footnote 1].
 promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for marketing and promotional use. Armed forces end use.

Jamaica

Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	77% (17)
% and number of SIELs completed in 60 working days	95% (21)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	72 days
% and number of OIELs completed in 20 working days	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	8	£255,740
Non-military	12	£254,783
Both Military and Non-military	1	£8,740
Total	21	£519,263

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£177,250
ML13	6	£78,490

body armour (3 licences).
 components for body armour (3 licences).
 military helmets (3 licences).
 small arms ammunition.
 sporting shotgun ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	4	£74,620
2B350	2	£2,320
5A001	1	£72,311
5A002	5	£105,532

civil explosive detection/identification equipment (4 licences).
 components for corrosion resistant chemical manufacturing equipment (2 licences).
 information security equipment (5 licences).
 telecommunications interception equipment.

T

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£6,690
ML7	1	£2,050

civil NBC protection equipment.
 NBC protective/defensive equipment.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£13,607
Total	1	£13,607

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£13,607

sporting shotguns (15).
tactical shotguns (35).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]

5	P	sporting shotgun ammunition [See footnote 4]
6	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 5]
7	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the

		development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]
8	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
9	P	components for weapon sights, weapon sights [See footnote 7]
10	P	components for sporting shotgun ammunition, sporting shotgun ammunition
11	P	targeting equipment
12	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 8]
13	P	technology for NBC detection equipment [See footnote 9]
14	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of

		software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 12]
15	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 10]
16	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 13]
17	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights

18	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
19	P	toxins
20	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 15]
21	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 14]
22	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 11]
23	T	towed hydrophone arrays

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Government end use.
6. Licence granted for accessories / spare parts. Armed forces end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for accessories / spare parts. Armed forces end use.
9. Licence granted for accessories / spare parts. Civilian / commercial end use.
10. Licence granted for accessories / spare parts. End use by the Air Force.
11. Licence granted for accessories / spare parts. Armed forces end use.
12. Licence granted for end use country is a State Party to the CWC. Law enforcement agency end use.
13. Licence granted for accessories / spare parts. Government end use.
14. Licence granted for accessories / spare parts. Government end use.
15. Licence granted for accessories / spare parts. End use by the Air Force.

% and number of OITCLs completed in 60 working days	25% (1)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	50	£8,278,796
Non-military	56	£2,482,542
Both Military and Non-military	7	£5,186,828
Total	113	£15,948,166

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	8	£860,595
ML3	9	£229,507
ML4	2	£37,579
ML5	4	£5,804,967
ML6	3	£43,924
ML10	10	£246,086
ML11	6	£87,504
ML13	6	£165,157
ML14	1	£326,624
ML15	1	£295,820
ML17	3	£2,117
ML18	3	£138,835
ML21	3	£5,903
ML22	3	£28,000
PL5001	1	£6,180

anti-riot/ballistic shields [See footnote 15].
 armoured plate [See footnote 15].
 assault rifles (1).
 assault rifles (20).
 T assault rifles (23).
 ballistic test equipment (2 licences).
 body armour (3 licences).
 T combat shotguns (2).
 components for assault rifles (3 licences) [See footnote 32].
 T components for assault rifles.
 components for ballistic test equipment (3 licences).
 components for body armour (4 licences) [See footnotes 16, 7].
 components for machine guns (2 licences) [See footnote 32].
 T components for machine guns.
 components for military aero-engines (3 licences) [See footnote 26].
 components for military equipment for initiating explosives.
 components for military support aircraft.
 components for military support vehicles.
 components for military training aircraft (3 licences).
 components for pistols [See footnote 32].
 T components for pistols.
 components for rifles [See footnote 32].
 components for small arms ammunition.
 components for small arms training equipment [See footnote 32].
 components for sniper rifles (2 licences) [See footnote 35].
 equipment for the use of attack alerting/warning equipment.
 equipment for the use of NBC detection equipment.
 T equipment for the use of weapon night sights [See footnote 24].
 general military vehicle components.
 goods treated for signature suppression for military use.
 gun silencers (2 licences) [See footnote 35].
 T machine guns (11).
 machine guns (20).
 military aero-engines (2 licences).
 military communications equipment (2 licences).
 military equipment for initiating explosives.
 military field generators.
 military guidance/navigation equipment (2 licences).
 T military guidance/navigation equipment [See footnote 24].
 military helmets (2 licences).
 T military image intensifier equipment [See footnote 24].
 T military infrared/thermal imaging equipment [See footnote 24].
 military parametric technical databases.
 military radars (2 licences) [See footnote 25].
 military support vehicles.
 munitions/ordnance detection/disposal equipment.
 T pistols (5).
 T rangefinding equipment [See footnote 24].
 T rifles (2).
 small arms ammunition (3 licences) [See footnotes 17, 8].
 small arms training equipment [See footnote 32].
 sniper rifles (1) [See footnote 35].
 T sniper rifles (1).
 software for attack alerting/warning equipment.
 software for ballistic test equipment.
 software for small arms training equipment [See footnote 32].
 sporting shotgun ammunition (4 licences) [See footnote 9].
 sporting shotguns (25).
 tear gas/irritant ammunition [See footnote 19].
 technology for assault rifles.
 technology for machine guns.
 technology for military radars (2 licences) [See footnote 25].
 T unmanned air vehicles.
 T weapon night sights [See footnote 24].
 weapon sights [See footnote 35].
 T weapon sights [See footnote 24].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	4	£398,620
1C006	1	£660
1C351	1	£980
2B350	7	£53,895
5A002	32	£1,291,508
5D002	8	£472,465
6A001	1	£150,000
6A203	1	£25,200
6D003	1	£80,000
End Use	4	£7,224
PL9010	1	£1,990

- chemicals (4 licences).
- civil explosive detection/identification equipment (4 licences).
- components for corrosion resistant chemical manufacturing equipment (4 licences).
- corrosion resistant chemical manufacturing equipment (3 licences).
- T diver location sonars.
- information security equipment (31 licences) [See footnotes 31, 34, 36].
- T information security equipment [See footnote 5].
- information security software (8 licences) [See footnote 20].
- lubricants.
- radiation hardened TV cameras.
- T software for diver location sonars.
- sporting shotguns (2) [See footnote 12].
- toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,470
1A006	1	£204,218
5A001	1	£157,875
5D002	1	£250,000
5E001	1	£138,708
6A002	2	£3,010,710
6A003	3	£195,220
8A002	1	£5,000
ML1	3	£865,673
ML4	2	£137,546
ML5	1	£120,000
ML7	1	£11,700
ML11	1	£6,000
ML13	1	£42,287
ML17	1	£100
ML21	1	£0
PL8001	1	£24,211
PL9010	1	£13,110

- accessories for improvised explosive device disposal remotely operated vehicles.
- accessories for improvised explosive device disruptors.
- bomb suits.
- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- components for improvised explosive device disruptors.
- components for military improvised explosive device decoying/detection/disposal/jamming equipment.
- T components for NBC protective/defensive equipment.
- counter-improvised explosive device equipment.
- devices for initiating explosives.
- T direct view imaging equipment (2 licences) [See footnote 30].

- T imaging cameras (3 licences) [See footnote 30].
improvised explosive device disposal remotely operated vehicles.
improvised explosive device disruptors.
information security software.
- T military communications equipment.
military equipment for initiating explosives.
military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military laser protection equipment.
munitions/ordnance detection/disposal equipment.
- T NBC protective/defensive equipment.
- T rebreathing swimming equipment.
software enabling equipment to function as military guidance/navigation equipment.
sporting shotguns (25) [See footnote 11].
- T targeting equipment.
technology for counter-improvised explosive device equipment.
- T weapon night sights (2 licences) [See footnote 30].
- T weapon sights [See footnote 30].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 2]
3	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 3]
4	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 4]
5	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft,

		<p>components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 6]</p>
6	P	<p>civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 10]</p>
7	P	<p>components for aircraft military communications equipment, components for combat aircraft, components for military aero-engines, components for military aircraft head-up/down displays, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image recording/processing equipment, components for military infrared/thermal imaging equipment, components for military support aircraft, components for military training aircraft, military aircraft ground equipment, military aircrew safety equipment [See footnote 14]</p>
8	P	<p>components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 21]</p>
9	P	<p>accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 22]</p>
10	P	<p>components for military support aircraft [See footnote 23]</p>
11	P	<p>components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for</p>

Issued

accessories for demolition charges/devices [See footnote 18].
 components for demolition charges/devices [See footnote 18].
 components for munitions/ordnance detection/disposal equipment [See footnote 18].
 promoting the supply of airborne refuelling equipment [See footnote 13].
 promoting the supply of aircraft cannons [See footnote 13].
 promoting the supply of aircraft military communications equipment [See footnote 13].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 13].
 promoting the supply of anti-aircraft guns [See footnote 13].
 promoting the supply of anti-armour ammunition [See footnote 13].
 promoting the supply of anti-armour weapons [See footnote 13].
 promoting the supply of anti-riot/ballistic shields [See footnote 13].
 promoting the supply of artillery [See footnote 13].
 promoting the supply of assault rifles [See footnote 13].
 promoting the supply of attack alerting/warning equipment [See footnote 13].
 promoting the supply of body armour [See footnote 13].
 promoting the supply of caseless ammunition weapons [See footnote 13].
 promoting the supply of combat helicopters [See footnote 13].
 promoting the supply of combat shotguns [See footnote 13].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 13].
 promoting the supply of components for assault rifles [See footnote 13].
 promoting the supply of components for body armour [See footnote 13].
 promoting the supply of components for combat shotguns [See footnote 13].
 promoting the supply of components for machine guns [See footnote 13].
 promoting the supply of components for pistols [See footnote 13].
 promoting the supply of components for rifles [See footnote 13].
 promoting the supply of components for smooth-bore weapons [See footnote 13].
 promoting the supply of components for sniper rifles [See footnote 13].
 promoting the supply of components for sporting guns [See footnote 13].
 promoting the supply of components for sporting shotguns [See footnote 13].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 13].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 13].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 13].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 13].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 13].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 13].
 promoting the supply of CS hand grenades [See footnote 13].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 13].
 promoting the supply of electronic countermeasure equipment [See footnote 13].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 13].

promoting the supply of equipment for the use of aircraft cannons [See footnote 13].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 13].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 13].
promoting the supply of equipment for the use of artillery [See footnote 13].
promoting the supply of equipment for the use of assault rifles [See footnote 13].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 13].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 13].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 13].
promoting the supply of equipment for the use of fire location equipment [See footnote 13].
promoting the supply of equipment for the use of flash suppressers [See footnote 13].
promoting the supply of equipment for the use of grenade launchers [See footnote 13].
promoting the supply of equipment for the use of gun silencers [See footnote 13].
promoting the supply of equipment for the use of heavy machine guns [See footnote 13].
promoting the supply of equipment for the use of machine guns [See footnote 13].
promoting the supply of equipment for the use of military radars [See footnote 13].
promoting the supply of equipment for the use of mortars [See footnote 13].
promoting the supply of equipment for the use of periscopes [See footnote 13].
promoting the supply of equipment for the use of pistols [See footnote 13].
promoting the supply of equipment for the use of projectile launchers [See footnote 13].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 13].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 13].
promoting the supply of equipment for the use of rifles [See footnote 13].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 13].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 13].
promoting the supply of equipment for the use of sniper rifles [See footnote 13].
promoting the supply of equipment for the use of sporting guns [See footnote 13].
promoting the supply of equipment for the use of sporting shotguns [See footnote 13].
promoting the supply of equipment for the use of targeting equipment [See footnote 13].
promoting the supply of equipment for the use of weapon control equipment [See footnote 13].
promoting the supply of equipment for the use of weapon mountings [See footnote 13].
promoting the supply of equipment for the use of weapon night sights [See footnote 13].
promoting the supply of equipment for the use of weapon sights [See footnote 13].
promoting the supply of fire location equipment [See footnote 13].
promoting the supply of flash suppressers [See footnote 13].
promoting the supply of fuze setting devices [See footnote 13].
promoting the supply of general military aircraft components [See footnote 13].
promoting the supply of grenade launchers [See footnote 13].
promoting the supply of gun mountings [See footnote 13].
promoting the supply of gun silencers [See footnote 13].
promoting the supply of hand grenades [See footnote 13].
promoting the supply of heavy machine guns [See footnote 13].
promoting the supply of illuminators [See footnote 13].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 13].
promoting the supply of machine guns [See footnote 13].
promoting the supply of military aero-engines [See footnote 13].
promoting the supply of military aircraft ground equipment [See footnote 13].
promoting the supply of military aircraft head-up/down displays [See footnote 13].
promoting the supply of military aircraft pressure refuellers [See footnote 13].
promoting the supply of military aircrew life support equipment [See footnote 13].
promoting the supply of military aircrew safety equipment [See footnote 13].
promoting the supply of military cameras/photographic equipment [See footnote 13].
promoting the supply of military combat vehicles [See footnote 13].
promoting the supply of military helmets [See footnote 13].
promoting the supply of military image intensifier equipment [See footnote 13].
promoting the supply of military image recording/processing equipment [See footnote 13].
promoting the supply of military imaging radar sensor equipment [See footnote 13].
promoting the supply of military infrared/thermal imaging equipment [See footnote 13].
promoting the supply of military radars [See footnote 13].
promoting the supply of military support vehicles [See footnote 13].
promoting the supply of mortars [See footnote 13].
promoting the supply of periscopes [See footnote 13].
promoting the supply of pistols [See footnote 13].
promoting the supply of projectile launchers [See footnote 13].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 13].
promoting the supply of rangefinding equipment [See footnote 13].
promoting the supply of recognition/identification equipment [See footnote 13].

promoting the supply of rifles [See footnote 13].
 promoting the supply of sensor integration equipment [See footnote 13].
 promoting the supply of signalling devices [See footnote 13].
 promoting the supply of small arms ammunition [See footnote 13].
 promoting the supply of smoke canisters [See footnote 13].
 promoting the supply of smooth-bore weapons [See footnote 13].
 promoting the supply of sniper rifles [See footnote 13].
 promoting the supply of sporting guns [See footnote 13].
 promoting the supply of sporting shotguns [See footnote 13].
 promoting the supply of targeting equipment [See footnote 13].
 promoting the supply of unmanned air vehicles [See footnote 13].
 promoting the supply of water cannon [See footnote 13].
 promoting the supply of weapon cleaning equipment [See footnote 13].
 promoting the supply of weapon control equipment [See footnote 13].
 promoting the supply of weapon mountings [See footnote 13].
 promoting the supply of weapon night sights [See footnote 13].
 promoting the supply of weapon sight mounts [See footnote 13].
 promoting the supply of weapon sights [See footnote 13].

 components for gun silencers (4 licences) [See footnotes 10, 15, 20].
 components for military helmets (4 licences) [See footnotes 10, 15, 20].
 components for military image intensifier equipment (4 licences) [See footnotes 10, 15, 20].
 components for military infrared/thermal imaging equipment (3 licences) [See footnotes 15, 20].
 components for military shotguns (3 licences) [See footnotes 15, 20].
 components for pistols (4 licences) [See footnotes 10, 15, 20].
 components for rifles (4 licences) [See footnotes 10, 15, 20].
 components for small arms ammunition (4 licences) [See footnotes 10, 15, 20].
 components for smoke/pyrotechnic ammunition (3 licences) [See footnotes 15, 20].
 components for smooth-bore weapons (4 licences) [See footnotes 10, 15, 20].
 components for sniper rifles (5 licences) [See footnotes 10, 15, 20, 5].
 components for sporting guns (4 licences) [See footnotes 10, 15, 20].
 components for sporting shotgun ammunition (4 licences) [See footnotes 10, 15, 20].
 components for sporting shotguns (4 licences) [See footnotes 10, 15, 20].
 components for tactical shotguns (3 licences) [See footnotes 15, 20].
 components for tear gas/irritant ammunition (3 licences) [See footnotes 15, 20].
 components for weapon night sights (4 licences) [See footnotes 10, 15, 20].
 components for weapon sights (4 licences) [See footnotes 10, 15, 20].
 crowd control ammunition (3 licences) [See footnotes 15, 20].
 flash suppressers [See footnote 10].
 flash suppressors (3 licences) [See footnotes 15, 20].
 gun mountings (4 licences) [See footnotes 10, 15, 20].
 gun silencers (4 licences) [See footnotes 10, 15, 20].
 military helmets (5 licences) [See footnotes 10, 15, 20, 5].
 military image intensifier equipment (4 licences) [See footnotes 10, 15, 20].
 military infrared/thermal imaging equipment (4 licences) [See footnotes 10, 15, 20].
 military shotguns (3 licences) [See footnotes 15, 20].
 pistols (4 licences) [See footnotes 10, 15, 20].
 promoting the supply of acoustic devices for riot control [See footnote 12].
 promoting the supply of airborne refuelling equipment [See footnote 6].
 promoting the supply of aircraft cannons [See footnote 6].
 promoting the supply of aircraft military communications equipment [See footnote 6].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 6].
 promoting the supply of anti-aircraft guns [See footnote 6].
 promoting the supply of anti-armour ammunition [See footnote 6].
 promoting the supply of anti-armour weapons [See footnote 6].
 promoting the supply of anti-riot/ballistic shields [See footnote 6].
 promoting the supply of artillery [See footnote 6].

promoting the supply of assault rifles (3 licences) [See footnotes 12, 13, 6].
promoting the supply of attack alerting/warning equipment [See footnote 6].
promoting the supply of body armour (2 licences) [See footnotes 12, 6].
promoting the supply of caseless ammunition weapons [See footnote 6].
promoting the supply of combat helicopters [See footnote 6].
promoting the supply of combat shotguns [See footnote 6].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 6].
promoting the supply of components for assault rifles (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for body armour (2 licences) [See footnotes 12, 6].
promoting the supply of components for combat shotguns [See footnote 6].
promoting the supply of components for flash suppressers (2 licences) [See footnotes 12, 13].
promoting the supply of components for ground vehicle military communications equipment [See footnote 12].
promoting the supply of components for gun mountings (2 licences) [See footnotes 12, 13].
promoting the supply of components for machine guns [See footnote 6].
promoting the supply of components for military communications equipment [See footnote 12].
promoting the supply of components for military image intensifier equipment [See footnote 12].
promoting the supply of components for military infrared/thermal imaging equipment [See footnote 12].
promoting the supply of components for military shotguns (2 licences) [See footnotes 12, 13].
promoting the supply of components for naval communications equipment [See footnote 12].
promoting the supply of components for pistols (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for rifles (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for small arms ammunition (2 licences) [See footnotes 12, 13].
promoting the supply of components for smooth-bore weapons (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for sniper rifles (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for sporting guns (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for sporting shotguns (3 licences) [See footnotes 12, 13, 6].
promoting the supply of components for tactical shotguns (2 licences) [See footnotes 12, 13].
promoting the supply of components for weapon night sights (2 licences) [See footnotes 12, 13].
promoting the supply of components for weapon sights (2 licences) [See footnotes 12, 13].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 6].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 6].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 6].
promoting the supply of CS hand grenades [See footnote 6].
promoting the supply of devices containing military pyrotechnic materials [See footnote 6].
promoting the supply of electronic countermeasure equipment [See footnote 6].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 6].
promoting the supply of equipment for the use of aircraft cannons [See footnote 6].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 6].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 6].
promoting the supply of equipment for the use of artillery [See footnote 6].
promoting the supply of equipment for the use of assault rifles [See footnote 6].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 6].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 6].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 6].
promoting the supply of equipment for the use of fire location equipment [See footnote 6].
promoting the supply of equipment for the use of flash suppressers [See footnote 6].
promoting the supply of equipment for the use of grenade launchers [See footnote 6].
promoting the supply of equipment for the use of gun silencers [See footnote 6].
promoting the supply of equipment for the use of heavy machine guns [See footnote 6].
promoting the supply of equipment for the use of machine guns [See footnote 6].
promoting the supply of equipment for the use of military radars [See footnote 6].
promoting the supply of equipment for the use of mortars [See footnote 6].
promoting the supply of equipment for the use of periscopes [See footnote 6].
promoting the supply of equipment for the use of pistols [See footnote 6].
promoting the supply of equipment for the use of projectile launchers [See footnote 6].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 6].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 6].

promoting the supply of equipment for the use of rifles [See footnote 6].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 6].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 6].

promoting the supply of equipment for the use of sniper rifles [See footnote 6].

promoting the supply of equipment for the use of sporting guns [See footnote 6].

promoting the supply of equipment for the use of sporting shotguns [See footnote 6].

promoting the supply of equipment for the use of targeting equipment [See footnote 6].

promoting the supply of equipment for the use of weapon control equipment [See footnote 6].

promoting the supply of equipment for the use of weapon mountings [See footnote 6].

promoting the supply of equipment for the use of weapon night sights [See footnote 6].

promoting the supply of equipment for the use of weapon sights [See footnote 6].

promoting the supply of fire location equipment [See footnote 6].

promoting the supply of flash suppressers (3 licences) [See footnotes 12, 13, 6].

promoting the supply of fuze setting devices [See footnote 6].

promoting the supply of general military aircraft components [See footnote 6].

promoting the supply of grenade launchers [See footnote 6].

promoting the supply of ground vehicle military communications equipment [See footnote 12].

promoting the supply of gun mountings (3 licences) [See footnotes 12, 13, 6].

promoting the supply of gun silencers [See footnote 6].

promoting the supply of hand grenades [See footnote 6].

promoting the supply of heavy machine guns [See footnote 6].

promoting the supply of illuminators [See footnote 6].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 6].

promoting the supply of machine guns [See footnote 6].

promoting the supply of military aero-engines [See footnote 6].

promoting the supply of military aircraft ground equipment [See footnote 6].

promoting the supply of military aircraft head-up/down displays [See footnote 6].

promoting the supply of military aircraft pressure refuellers [See footnote 6].

promoting the supply of military aircrew life support equipment [See footnote 6].

promoting the supply of military aircrew safety equipment [See footnote 6].

promoting the supply of military cameras/photographic equipment [See footnote 6].

promoting the supply of military combat vehicles [See footnote 6].

promoting the supply of military communications equipment [See footnote 12].

promoting the supply of military helmets (2 licences) [See footnotes 12, 6].

promoting the supply of military image intensifier equipment (2 licences) [See footnotes 12, 6].

promoting the supply of military image recording/processing equipment [See footnote 6].

promoting the supply of military imaging radar sensor equipment [See footnote 6].

promoting the supply of military infrared/thermal imaging equipment (2 licences) [See footnotes 12, 6].

promoting the supply of military radars [See footnote 6].

promoting the supply of military shotguns (2 licences) [See footnotes 12, 13].

promoting the supply of military support vehicles [See footnote 6].

promoting the supply of mortars [See footnote 6].

promoting the supply of naval communications equipment [See footnote 12].

promoting the supply of periscopes [See footnote 6].

promoting the supply of pistols (3 licences) [See footnotes 12, 13, 6].

promoting the supply of projectile launchers [See footnote 6].

promoting the supply of pyrotechnics/fuels and related substances [See footnote 6].

promoting the supply of rangefinding equipment [See footnote 6].

promoting the supply of recognition/identification equipment [See footnote 6].

promoting the supply of rifles (4 licences) [See footnotes 12, 13, 4, 6].

promoting the supply of sensor integration equipment [See footnote 6].

promoting the supply of signalling devices [See footnote 6].

promoting the supply of small arms ammunition (3 licences) [See footnotes 12, 13, 6].

promoting the supply of smoke canisters [See footnote 6].

promoting the supply of smooth-bore weapons (3 licences) [See footnotes 12, 13, 6].

promoting the supply of sniper rifles (3 licences) [See footnotes 12, 13, 6].

promoting the supply of sporting guns (4 licences) [See footnotes 12, 13, 4, 6].

promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 12, 13].

promoting the supply of sporting shotguns (3 licences) [See footnotes 12, 13, 6].

promoting the supply of tactical shotguns (2 licences) [See footnotes 12, 13].

promoting the supply of targeting equipment [See footnote 6].

promoting the supply of unmanned air vehicles [See footnote 6].

promoting the supply of water cannon [See footnote 6].

promoting the supply of weapon cleaning equipment [See footnote 6].

promoting the supply of weapon control equipment [See footnote 6].

promoting the supply of weapon mountings [See footnote 6].

promoting the supply of weapon night sights (3 licences) [See footnotes 12, 13, 6].
promoting the supply of weapon sight mounts [See footnote 6].
promoting the supply of weapon sights (3 licences) [See footnotes 12, 13, 6].
rifles (4 licences) [See footnotes 10, 15, 20].
small arms ammunition (5 licences) [See footnotes 10, 15, 20, 5].
smoke/pyrotechnic ammunition (3 licences) [See footnotes 15, 20].
smooth-bore weapons (4 licences) [See footnotes 10, 15, 20].
sniper rifles (5 licences) [See footnotes 10, 15, 20, 5].
sporting guns (4 licences) [See footnotes 10, 15, 20].
sporting shotgun ammunition (4 licences) [See footnotes 10, 15, 20].
sporting shotguns (4 licences) [See footnotes 10, 15, 20].
tactical shotguns (3 licences) [See footnotes 15, 20].
tear gas/irritant ammunition (3 licences) [See footnotes 15, 20].
weapon cleaning equipment [See footnote 5].
weapon night sights (4 licences) [See footnotes 10, 15, 20].
weapon sights (5 licences) [See footnotes 10, 15, 20, 5].

Rejected

promoting the supply of acoustic devices for riot control (4 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	6	£239,279
Non-military	2	£1,380
Both Military and Non-military	2	£29,162
Total	10	£269,821

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	5	£185,080
PL5001	1	£54,199

anti-riot/ballistic shields.
 body armour (2 licences).
 bomb suits.
 components for body armour (3 licences) [See footnote 3].
 components for bomb suits.
 military helmets.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	2	£1,380

information security equipment (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£92
1E001	1	£100
6A003	1	£8,000
ML5	1	£20,000
ML7	1	£870
ML22	1	£100

T components for civil NBC protection equipment.
 imaging cameras.
 NBC protective/defensive equipment.
 T targeting equipment.
 technology for civil NBC protection equipment.
 technology for NBC protective/defensive equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 2]

2	P	components for information security equipment, equipment for generating spreading codes, impulse radio equipment, information security equipment, information security software, software for equipment for generating spreading codes, software for impulse radio equipment, software for information security equipment, software for technology for equipment for generating spreading codes, software for technology for impulse radio equipment, software for technology for information security equipment, software for technology for information security software, technology for equipment for generating spreading codes, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for software for equipment for generating spreading codes, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	56	£19,235,949
Non-military	24	£692,839
Both Military and Non-military	8	£2,499,030
Total	88	£22,427,818

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	10	£1,105,763
ML3	6	£2,704
ML4	5	£9,780,220
ML5	1	£4,216,480
ML6	5	£1,197,751
ML7	1	£18,440
ML10	16	£45,918
ML11	4	£402,368
ML13	7	£305,926
ML14	3	£978,970
ML15	3	£275,490
ML21	5	£866,683
ML22	3	£1,000
PL5001	1	£9,546
PL5017	1	£28,690

anti-riot/ballistic shields.
blank/inert ammunition.
body armour (6 licences) [See footnotes 16, 20, 21, 22, 24, 29].
command communications control and intelligence software.
components for aircraft missile protection systems.
components for body armour (6 licences) [See footnotes 16, 20, 21, 22, 24, 29].
T components for ground vehicle military communications equipment.
components for machine guns.
components for military guidance/navigation equipment [See footnote 2].
components for military helicopters (15 licences).
components for military improvised explosive device decoying/detection/disposal/jamming equipment.
components for military training aircraft.
components for NBC protective/defensive equipment.

- T components for sniper rifles.
- crowd control ammunition (2 licences) [See footnotes 14, 17].
- T electronic warfare equipment.
- equipment for the use of machine guns.
- T equipment for the use of weapon night sights [See footnote 43].
- fire location equipment [See footnote 3].
- flash suppressers (2 licences).
- general military vehicle components (2 licences).
- T ground vehicle military communications equipment (2 licences).
- T gun mountings.
- gun silencers.
- hand grenades [See footnote 17].
- machine guns (200).
- military electronic equipment [See footnote 3].
- military helmets (5 licences) [See footnotes 12, 16, 20, 22, 24].
- T military image intensifier equipment (2 licences) [See footnote 43].
- T military infrared/thermal imaging equipment (2 licences) [See footnote 43].
- military scenario simulation equipment.
- military training equipment (2 licences).
- NBC protective/defensive equipment.
- small arms ammunition (3 licences).
- T sniper rifles (2).
- software for fire location equipment [See footnote 3].
- Software for modelling/simulating military operation scenarios (2 licences).
- T Software for modelling/simulating military operation scenarios.
- sporting guns (1) (3 licences).
- sporting guns (2).
- targeting equipment [See footnote 3].
- tear gas/irritant ammunition (2 licences) [See footnote 17].
- technology for machine guns.
- technology for military training equipment.
- technology for NBC protective/defensive equipment.
- training hand grenades (3 licences) [See footnote 17].
- training tear gas/irritant ammunition [See footnote 14].
- turrets [See footnote 2].
- wall/door breaching projectiles/ammunition [See footnote 14].
- weapon cleaning equipment.
- T weapon night sights (2 licences) [See footnote 43].
- weapon sight mounts.
- weapon sights (4 licences).
- T weapon sights (2 licences) [See footnote 43].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£55,067
1C234	1	£150
2B350	8	£77,946
5A002	8	£300,572
5D002	2	£5,500
6A003	1	£24,445
6A006	1	£144,000
6A008	1	£81,079
PL9010	2	£4,080

- civil explosive detection/identification equipment (2 licences).
- components for corrosion resistant chemical manufacturing equipment.
- corrosion resistant chemical manufacturing equipment (7 licences).
- imaging cameras.
- information security equipment (6 licences) [See footnotes 15, 35].
- T information security equipment (2 licences) [See footnote 23].
- T information security software [See footnote 11].
- T magnetic gradiometers.
- radar equipment.
- T software for information security equipment [See footnote 23].

sporting shotguns (1).
sporting shotguns (2).
zirconium compounds.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£100
5A002	1	£19,295
6A002	4	£1,703,540
6A003	3	£131,040
ML1	4	£499,890
ML5	2	£140,000
ML6	1	£615
ML7	1	£350
ML11	1	£2,250
PL9010	1	£1,950

- T civil NBC protection equipment.
- T components for NBC protective/defensive equipment.
- T direct view imaging equipment (4 licences) [See footnotes 27, 28, 42].
- T ground vehicle military communications equipment [See footnote 30].
- T imaging cameras (3 licences) [See footnote 27].
- T information security equipment [See footnote 30].
- T military communications equipment [See footnote 30].
- T NBC protective/defensive equipment.
- T sporting shotguns (2).
- T targeting equipment (2 licences).
- T weapon night sights (3 licences) [See footnotes 27, 28, 42].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 4]

3	P	components for combat helicopters, components for military aero-engines, components for military helicopters, general military aircraft components, military aircraft ground equipment, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters [See footnote 5]
4	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 6]
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 7]
6	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 8]
7	P	counter-improvised explosive device equipment [See footnote 9]
8	P	sporting shotgun ammunition [See footnote 10]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for

		equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]
10	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 18]
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
12	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image recording/processing equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image recording/processing equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image recording/processing equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military training aircraft, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military scenario simulation equipment, technology for

		military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, unfinished products for military training aircraft, weapon control equipment [See footnote 25]
13	P	components for military support aircraft [See footnote 26]
14	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 31]
15	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 32]
16	T	towed hydrophone arrays [See footnote 33]
17	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 34]
18	P	components for attack alerting/warning equipment, components for electronic countermeasure equipment, components for fire location equipment, components for ground vehicle military communications equipment, components for military combat vehicles, components for military radars, components for military support vehicles, components for periscopes, components for rangefinding equipment, components for recognition/identification equipment, components for sensor integration equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, equipment for the use of attack alerting/warning equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of fire location equipment, equipment for the use of military radars, equipment for the use of periscopes, equipment for the use of rangefinding equipment, equipment for the use of recognition/identification equipment, equipment for the use of sensor integration equipment, equipment for the use of targeting equipment, equipment for the use of weapon control equipment, equipment for the use of weapon night sights, equipment for the use of weapon sights, general military vehicle components
19	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 41]
20	P	civil explosive detection/identification equipment [See footnote 37]
21	P	components for military support aircraft [See footnote 38]
22	P	information security equipment, information security software [See footnote 44]

23	P	airborne refuelling equipment, aircraft cannons, aircraft military communications equipment, components for airborne refuelling equipment, components for aircraft cannons, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for ground vehicle military communications equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircrew life support equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military parachutes and equipment, components for military radars, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, ground vehicle military communications equipment, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military parachutes and equipment, military paragliders, military radars, military training equipment, small arms training equipment, surface-to-air missiles, technology for airborne refuelling equipment, technology for aircraft cannons, technology for aircraft military communications equipment, technology for combat aircraft, technology for combat helicopters, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military parachutes and equipment, technology for military paragliders, technology for military radars, technology for military support aircraft, technology for military training aircraft, technology for military training equipment, technology for small arms training equipment, technology for surface-to-air missiles, test equipment for combat aircraft, test equipment for combat helicopters, test equipment for military helicopters, test equipment for military support aircraft, test equipment for military training aircraft [See footnote 39]
24	P	aircraft military communications equipment, components for military aero-engines, components for military communications equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment
25	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, components for surface-to-surface missiles, equipment for the use of air-to-surface missiles, equipment for the use of surface-to-surface missiles, unfinished products for air-to-surface missiles, unfinished products for launching/handling/control equipment for missiles, unfinished products for surface-to-surface missiles [See footnote 40]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	information security equipment

SITCLs

Source	Issued	Refused	Revoked
Serbia	1	0	0

Issued

promoting the supply of mortar bombs.

OITCLs

Source	Issued	Refused	Revoked
Bahrain, Belgium, France, Germany, Italy, Kuwait, Malaysia, Oman, Qatar, Saudi Arabia, Spain	1	0	0
Bulgaria, Russia, United States of America	0	1	0
Saudi Arabia	1	0	0

Issued

aircraft military communications equipment [See footnote 36].
attack alerting/warning equipment [See footnote 36].
components for attack alerting/warning equipment [See footnote 36].
components for combat aircraft [See footnote 36].
components for military aero-engines [See footnote 36].
components for military radars [See footnote 36].
electronic warfare equipment [See footnote 36].
general military aircraft components [See footnote 36].
military aero-engines [See footnote 36].
military communications equipment [See footnote 36].
military electronic equipment [See footnote 36].
military guidance/navigation equipment [See footnote 36].
military imaging radar sensor equipment [See footnote 36].
military radars [See footnote 36].
promoting the supply of combat aircraft (2 licences) [See footnotes 19, 36].

Rejected

promoting the supply of assault rifles.
promoting the supply of pistols.
promoting the supply of rifles.
promoting the supply of small arms ammunition.
promoting the supply of sniper rifles.
promoting the supply of sporting shotgun ammunition.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£500,850
Non-military	6	£224,358
Total	8	£725,208

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£186,340
ML4	1	£64,290
ML5	1	£12,000
ML11	1	£22,000
ML15	1	£216,220

- T equipment for the use of weapon night sights [See footnote 2].
- T military guidance/navigation equipment [See footnote 2].
- T military image intensifier equipment [See footnote 2].
- T military infrared/thermal imaging equipment [See footnote 2].
- T munitions/ordnance detection/disposal equipment [See footnote 1].
- T rangefinding equipment [See footnote 2].
- T weapon night sights [See footnote 2].
- T weapon sights [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£211,800
5A002	5	£12,558
5D002	1	£0

- civil explosive detection/identification equipment.
- information security equipment (5 licences).
- information security software.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 3]

Country Footnotes

1. UN Security Council Resolution 1701 (2006) established an embargo on the supply of arms and related material to Lebanon, with the exemption of arms and related materiel authorised by the Government of Lebanon or by UNFIL. All exports for this destination were approved in accordance with the sanctions in place.
2. UN Security Council Resolution 1701 (2006) established an embargo on the supply of arms and related material to Lebanon, with the exemption of arms and related materiel authorised by the Government of Lebanon or by UNFIL. This is implemented in the EU by Common Position 2006/625/CFSP, as amended, and Council Regulation (EC) No 1412/2006, as amended; as well as Common Position 2005/888/CFSP, as amended, and Council Regulation (EC) No 305/2006, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£74,079
Non-military	10	£178,775
Total	15	£252,854

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	5	£74,079

military support vehicles (5 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	10	£171,576
5D002	4	£7,199

information security equipment (10 licences).
information security software (4 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	towed hydrophone arrays

Issued

promoting the supply of airborne refuelling equipment [See footnote 1].
 promoting the supply of aircraft cannons [See footnote 1].
 promoting the supply of aircraft military communications equipment [See footnote 1].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 1].
 promoting the supply of anti-aircraft guns [See footnote 1].
 promoting the supply of anti-armour ammunition [See footnote 1].
 promoting the supply of anti-armour weapons [See footnote 1].
 promoting the supply of anti-riot/ballistic shields [See footnote 1].
 promoting the supply of artillery [See footnote 1].
 promoting the supply of assault rifles [See footnote 1].
 promoting the supply of attack alerting/warning equipment [See footnote 1].
 promoting the supply of body armour [See footnote 1].
 promoting the supply of caseless ammunition weapons [See footnote 1].
 promoting the supply of combat helicopters [See footnote 1].
 promoting the supply of combat shotguns [See footnote 1].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 1].
 promoting the supply of components for assault rifles [See footnote 1].
 promoting the supply of components for body armour [See footnote 1].
 promoting the supply of components for combat shotguns [See footnote 1].
 promoting the supply of components for machine guns [See footnote 1].
 promoting the supply of components for pistols [See footnote 1].
 promoting the supply of components for rifles [See footnote 1].
 promoting the supply of components for smooth-bore weapons [See footnote 1].
 promoting the supply of components for sniper rifles [See footnote 1].
 promoting the supply of components for sporting guns [See footnote 1].
 promoting the supply of components for sporting shotguns [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
 promoting the supply of CS hand grenades [See footnote 1].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 1].
 promoting the supply of electronic countermeasure equipment [See footnote 1].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].

promoting the supply of equipment for the use of aircraft cannons [See footnote 1].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].

promoting the supply of equipment for the use of artillery [See footnote 1].

promoting the supply of equipment for the use of assault rifles [See footnote 1].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].

promoting the supply of equipment for the use of fire location equipment [See footnote 1].

promoting the supply of equipment for the use of flash suppressers [See footnote 1].

promoting the supply of equipment for the use of grenade launchers [See footnote 1].

promoting the supply of equipment for the use of gun silencers [See footnote 1].

promoting the supply of equipment for the use of heavy machine guns [See footnote 1].

promoting the supply of equipment for the use of machine guns [See footnote 1].

promoting the supply of equipment for the use of military radars [See footnote 1].

promoting the supply of equipment for the use of mortars [See footnote 1].

promoting the supply of equipment for the use of periscopes [See footnote 1].

promoting the supply of equipment for the use of pistols [See footnote 1].

promoting the supply of equipment for the use of projectile launchers [See footnote 1].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].

promoting the supply of equipment for the use of rifles [See footnote 1].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].

promoting the supply of equipment for the use of sniper rifles [See footnote 1].

promoting the supply of equipment for the use of sporting guns [See footnote 1].

promoting the supply of equipment for the use of sporting shotguns [See footnote 1].

promoting the supply of equipment for the use of targeting equipment [See footnote 1].

promoting the supply of equipment for the use of weapon control equipment [See footnote 1].

promoting the supply of equipment for the use of weapon mountings [See footnote 1].

promoting the supply of equipment for the use of weapon night sights [See footnote 1].

promoting the supply of equipment for the use of weapon sights [See footnote 1].

promoting the supply of fire location equipment [See footnote 1].

promoting the supply of flash suppressers [See footnote 1].

promoting the supply of fuze setting devices [See footnote 1].

promoting the supply of general military aircraft components [See footnote 1].

promoting the supply of grenade launchers [See footnote 1].

promoting the supply of gun mountings [See footnote 1].

promoting the supply of gun silencers [See footnote 1].

promoting the supply of hand grenades [See footnote 1].

promoting the supply of heavy machine guns [See footnote 1].

promoting the supply of illuminators [See footnote 1].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].

promoting the supply of machine guns [See footnote 1].

promoting the supply of military aero-engines [See footnote 1].

promoting the supply of military aircraft ground equipment [See footnote 1].

promoting the supply of military aircraft head-up/down displays [See footnote 1].

promoting the supply of military aircraft pressure refuellers [See footnote 1].

promoting the supply of military aircrew life support equipment [See footnote 1].

promoting the supply of military aircrew safety equipment [See footnote 1].

promoting the supply of military cameras/photographic equipment [See footnote 1].

promoting the supply of military combat vehicles [See footnote 1].

promoting the supply of military helmets [See footnote 1].

promoting the supply of military image intensifier equipment [See footnote 1].

promoting the supply of military image recording/processing equipment [See footnote 1].

promoting the supply of military imaging radar sensor equipment [See footnote 1].

promoting the supply of military infrared/thermal imaging equipment [See footnote 1].

promoting the supply of military radars [See footnote 1].

promoting the supply of military support vehicles [See footnote 1].

promoting the supply of mortars [See footnote 1].

promoting the supply of periscopes [See footnote 1].

promoting the supply of pistols [See footnote 1].

promoting the supply of projectile launchers [See footnote 1].

promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].

promoting the supply of rangefinding equipment [See footnote 1].

promoting the supply of recognition/identification equipment [See footnote 1].
 promoting the supply of rifles [See footnote 1].
 promoting the supply of sensor integration equipment [See footnote 1].
 promoting the supply of signalling devices [See footnote 1].
 promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Country Footnotes

1. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) and 2095 (2013). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision 2011/137/CFSP, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

All exports for this destination must be in accordance with the sanctions in place.

2. UN Security Council Resolution 1970 of 26 February 2011 established an embargo on the supply of arms and related material to Libya. The embargo was amended by Resolutions 2009 (2011) 2095 (2013) and 2362 (2017). Exemptions exist, with approval from the UN Sanctions Committee, for supplies of non-lethal military equipment and protective clothing for use by United Nations personnel, representatives of the media and humanitarian and development workers. Arms and related material intended solely for security or disarmament assistance to the Libyan government are also subject to exemption criteria.

EU Council Decision (CFSP) 2011/137, as amended, and Council Regulation (EU) 2016/44, as amended, restricts the provision of arms and related material; as well as of equipment that might be used for internal repression. Exemptions are in place for internal repression equipment intended solely for humanitarian or protective use, and for temporary export of protective clothing for use by United Nations and EU personnel, representatives of the media and humanitarian and development workers.

Common Position 2004/698/CFSP, as amended, and Council Regulation (EC) No 3275/1993, as amended, are also in place.

All exports for this destination must be in accordance with the sanctions in place.

Total	30	£12,389,360

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	24	£5,752,838
ML4	1	£613
ML5	18	£1,603,764
ML6	1	£6,750
ML10	2	£16,475
ML11	19	£548,000

ML15	19	£4,411,420
------	----	------------

	aircraft military communications equipment (2 licences).
	components for launching/handling/control equipment for missiles.
	components for military radars.
T	equipment for the use of weapon night sights (8 licences).
T	military cameras/photographic equipment.
	military combat vehicles.
T	military electronic equipment (19 licences).
T	military guidance/navigation equipment (7 licences).
T	military image intensifier equipment (19 licences).
T	military infrared/thermal imaging equipment (18 licences).
	pistols (1).
T	rangefinding equipment (9 licences).
	rifles (1).
	sniper rifles (1).
T	targeting equipment (8 licences).
	weapon night sights (2 licences).
T	weapon night sights (19 licences).
	weapon sights.
T	weapon sights (19 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
PL9010	1	£49,500

sporting shotguns (2).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military

		aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
3	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 1]
4	P	sporting shotgun ammunition [See footnote 2]
5	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
6	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of

		combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
7	P	components for weapon sights, weapon sights
8	P	components for sporting guns [See footnote 4]
9	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
10	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 5]
11	P	technology for NBC detection equipment [See footnote 6]

12	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
13	P	components for military support aircraft [See footnote 7]
14	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 8]
15	P	components for sporting guns
16	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 9]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Armed forces end use.
6. Licence granted for accessories / spare parts. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. End use by the Air Force.
8. Licence granted for accessories / spare parts. Civilian / commercial end use.
9. Licence granted for accessories / spare parts. End use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£64,946
Non-military	2	£140,950
Total	5	£205,896

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£27,000
ML4	1	£37,946

military equipment for initiating explosives.
small arms ammunition (2 licences) [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£30,950
5A002	1	£110,000

civil explosive detection/identification equipment.
information security equipment.

Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
1A004	1

civil riot control agent protection equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Source	Issued	Refused	Revoked
Malaysia	1	0	0

Issued

accessories for demolition charges/devices [See footnote 1].
 components for demolition charges/devices [See footnote 1].
 components for munitions/ordnance detection/disposal equipment [See footnote 1].

Country Footnotes

1. A declaration by the Madrid European Council on 27 June 1989 established an arms embargo on China. This embargo also extends to arms exports to Macao. The UK interpretation of the embargo applies to: lethal weapons such as machine guns, large calibre weapons, bombs, torpedoes, rockets and missiles; specially designed components of these items and ammunition; military aircraft and helicopters, vessels of war, armoured fighting vehicles and other such weapons platforms; any equipment which might be used for internal repression. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for personal end use.

Types of goods on licence	No. of licences	Value
Military	2	£20,742
Non-military	2	£1,787
Total	4	£22,529

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£742
ML6	1	£20,000

components for sporting guns.
military support vehicles.
sporting guns (1).
weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£867
5A002	1	£920

deuterium compounds.
information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military support aircraft [See footnote 1]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. End use by the Air Force.

Malaysia

Processing Statistics (excluding amendments)

Median processing time SIELs	11 days
% and number of SIELs completed in 20 working days	81% (226)
% and number of SIELs completed in 60 working days	99% (275)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time SITCLs	44 days
% and number of SITCLs completed in 20 working days	0% (0)
% and number of SITCLs completed in 60 working days	50% (1)
% [as a % of all SITCL cases processed] and number of SITCLs refused	0% (0)

Median processing time OIELs	100 days
% and number of OIELs completed in 20 working days	2% (1)
% and number of OIELs completed in 60 working days	20% (9)
% [as a % of all OIELs cases processed] and number of OIELs refused	2% (1)

Median processing time OITCLs	59 days
% and number of OITCLs completed in 20 working days	29% (4)
% and number of OITCLs completed in 60 working days	57% (8)
% [as a % of all OITCLs cases processed] and number of OITCLs refused	29% (4)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	133	£58,171,499
Non-military	90	£9,541,441
Both Military and Non-military	8	£2,340,113
Total	231	£70,053,053

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	15	£1,803,742
ML2	3	£903,827
ML3	3	£633,650
ML4	18	£32,858,980
ML5	18	£5,940,356
ML6	5	£248,407
ML7	8	£962,851
ML9	22	£6,611,318
ML10	14	£267,591
ML11	35	£922,194
ML13	2	£11,650
ML14	2	£3,858,931
ML15	10	£1,386,342
ML21	9	£200,751
ML22	8	£1,560,465
PL5001	1	£443
PL5017	1	£0

aircraft military communications equipment.
 anti-riot/ballistic shields.
 assault rifles (9).
 assault rifles (40) [See footnote 15].
 assault rifles (42).
 body armour (2 licences).
 components for assault rifles (3 licences) [See footnote 15].
 components for attack alerting/warning equipment.
 components for body armour (2 licences).
 components for combat aircraft.
 components for combat naval vessels (5 licences).
 components for grenade launchers.
 components for launching/handling/control equipment for missiles (2 licences).
 components for launching/handling/control equipment for munitions (8 licences).
 components for machine guns.
 components for man portable air defence system missiles.
 components for military aero-engines.
 T components for military cameras/photographic equipment.
 components for military combat vehicles (2 licences).
 components for military communications equipment (8 licences).
 components for military electronic equipment (4 licences).
 components for military guidance/navigation equipment (5 licences).
 T components for military guidance/navigation equipment.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
 components for military infrared/thermal imaging equipment.
 components for military radars (5 licences).
 T(P) components for military radars.
 components for military support aircraft (3 licences).
 components for military training aircraft (5 licences).
 components for naval communications equipment (2 licences).
 components for naval gun installations/mountings (7 licences).
 components for NBC detection equipment (2 licences).
 components for NBC protective/defensive equipment (3 licences).
 components for sniper rifles.
 T components for sniper rifles.
 components for submarines (2 licences).
 components for surface-to-air missiles.
 components for targeting equipment (2 licences).
 components for turrets.
 components for weapon control equipment.
 CS hand grenades.

- demolition charges/devices.
- electronic warfare equipment (2 licences).
- equipment for the use of launching/handling/control equipment for missiles.
- T equipment for the use of naval guns.
- T equipment for the use of weapon mountings.
- general military aircraft components.
- general military vehicle components (2 licences).
- general naval vessel components (6 licences).
- grenade launchers (2 licences).
- gun silencers (3 licences).
- launching/handling/control equipment for missiles.
- launching/handling/control equipment for munitions (4 licences).
- man portable air defence system missiles.
- man portable air defence systems training equipment.
- military aircraft ground equipment.
- T military cameras/photographic equipment.
- military communications equipment (8 licences) [See footnote 24].
- military electronic equipment.
- military guidance/navigation equipment (3 licences).
- T military guidance/navigation equipment (5 licences) [See footnotes 2, 48].
- military helmets (2 licences).
- military image intensifier equipment (2 licences).
- T military image intensifier equipment (6 licences) [See footnotes 2, 34, 47, 48].
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment (6 licences) [See footnotes 2, 34, 47, 48].
- military training equipment.
- naval guns.
- NBC detection equipment (2 licences).
- NBC protective/defensive equipment (4 licences).
- T rangefinding equipment (4 licences) [See footnotes 2, 34, 47, 48].
- small arms ammunition (3 licences).
- T sniper rifles (1).
- sniper rifles (20).
- software for launching/handling/control equipment for munitions (4 licences).
- software for military communications equipment (2 licences).
- T software for military guidance/navigation equipment.
- Software for modelling/simulating military operation scenarios.
- T software for naval guns.
- targeting equipment (3 licences).
- T targeting equipment.
- technology for assault rifles (2 licences) [See footnote 15].
- technology for grenade launchers.
- technology for launching/handling/control equipment for munitions.
- technology for man portable air defence system missiles.
- technology for man portable air defence systems.
- technology for military communications equipment.
- technology for military image intensifier equipment.
- technology for military training equipment.
- technology for Software for modelling/simulating/evaluating weapon systems.
- technology for targeting equipment.
- training torpedoes (2 licences).
- unfinished products for general military aircraft components.
- weapon cleaning equipment [See footnote 15].
- weapon night sights (2 licences).
- T weapon night sights (6 licences) [See footnotes 2, 34, 47, 48].
- weapon sights (3 licences) [See footnote 15].
- T weapon sights (7 licences) [See footnotes 2, 34, 47, 48].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£150
1A004	5	£77,286
1A007	1	£6,696
1C010	3	£190,200
1C210	1	£229

1C230	1	£14,000
1C240	1	£430
1C350	1	£395
1C351	1	£110
1C353	1	£100
2B201	1	£1,307,221
2B230	1	£2,020
2B350	16	£2,105,493
2B351	1	£110
2B352	1	£17,860
2D002	1	£0
3A001	7	£13,824
3B001	1	£20,600
5A001	3	£489,500
5A002	17	£402,721
5D001	4	£52,635
5D002	2	£1,755,151
5E001	2	£200,000
5E002	1	£86
6A002	1	£12,569
6A003	12	£2,190,543
6A006	1	£2,055
6A008	2	£34,233
7A103	2	£33,025
8A001	1	£350,000
8A002	1	£50,000
9A004	1	£123,000
9A012	1	£79,975
9A115	1	£0
9D004	1	£0
PL9010	1	£9,225

- beryllium.
- chemicals used for general laboratory work/scientific research.
- civil explosive detection/identification equipment (4 licences).
- civil NBC protection equipment.
- civil unmanned air vehicles.
- components for biotechnology equipment.
- components for civil unmanned air vehicles.
- components for corrosion resistant chemical manufacturing equipment (3 licences).
- components for semiconductor manufacturing equipment.
- corrosion resistant chemical manufacturing equipment (13 licences).
- deuterium solutions.
- fibre prepreps (3 licences).
- fibrous/filamentary materials.
- focal plane arrays.
- guidance/navigation equipment.
- imaging cameras (9 licences).
- T imaging cameras (3 licences) [See footnote 20].
- inertial equipment.
- information security equipment (16 licences).
- T information security equipment.
- information security software.
- launch support equipment for civil unmanned air vehicles.
- machine tools.
- magnetometers.
- T millimetric wave components (7 licences).
- nickel powders.
- non-military firing sets.
- numerical control software.
- pathogenic genetic elements.
- pressure transducers.
- radar equipment (2 licences).
- software for civil unmanned air vehicles.
- software for counter-improvised explosive device equipment.
- software for information security equipment.
- software for telecommunications interception equipment (2 licences).
- T software for telecommunications interception equipment [See footnote 1].

- spacecraft attitude and orbit control systems.
- sporting shotguns (1).
- submersible equipment [See footnote 16].
- submersible vehicles [See footnote 16].
- technology for advanced telecommunications equipment (2 licences).
- technology for information security equipment.
- telecommunications interception equipment (2 licences).
- T telecommunications interception equipment [See footnote 1].
- toxic gas monitoring equipment.
- toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	5	£455,265
6A002	2	£845,140
6A003	2	£58,590
6A008	1	£1,600
8A002	1	£5,000
ML1	2	£399,960
ML7	5	£563,658
ML11	2	£7,600
ML17	1	£100
ML21	1	£3,200

- civil NBC protection clothing.
- T civil NBC protection equipment (4 licences) [See footnote 18].
- civil NBC protection equipment.
- T civil riot control agent protection equipment.
- T civil riot control agent protection equipment.
- T components for civil riot control agent protection equipment.
- T components for civil riot control agent protection equipment.
- T components for NBC protective/defensive equipment (2 licences).
- T direct view imaging equipment (2 licences).
- T imaging cameras (2 licences).
- T military communications equipment.
- T military guidance/navigation equipment.
- T military laser protection equipment.
- T NBC protective/defensive equipment (3 licences) [See footnote 18].
- T NBC protective/defensive equipment.
- T radar equipment.
- T rebreathing swimming equipment.
- T software for military guidance/navigation equipment.
- T weapon night sights (2 licences).
- T weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	4	£14,849
Non-military	7	£16,098
Total	11	£30,947

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£13,026
ML10	3	£1,822

components for heavy machine guns.
components for military support aircraft (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	6	£14,446
5A002	1	£1,652

extended temperature range integrated circuits (6 licences).
information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada
Finland
Indonesia
Switzerland

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft military communications equipment, components for military aero-engines, components for military aircraft head-up/down displays, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, equipment for the use of military helicopters, general military aircraft components, military aircraft ground equipment, military aircraft head-up/down displays, military guidance/navigation equipment, military parachutes and equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for decoying/countermeasure equipment, software for equipment for the use of military helicopters, software for military aero-engines, software for military aircraft head-up/down displays, software for military guidance/navigation equipment, software for military helicopters, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military parachutes and equipment, technology for military support aircraft, technology for signalling devices, technology for unfinished products for military support aircraft, unfinished products for military support aircraft
2	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 3]

3	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets [See footnote 4]
4	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 5]
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
6	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 7]
7	P	information security equipment, information security software
8	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 8]
9	T	components for inertial equipment, inertial equipment, technology for inertial equipment
10	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 9]

11	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 10]
12	P	imaging cameras [See footnote 11]
13	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 12]
14	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]

15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 17]
17	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 19]
18	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 22]
19	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 25]
20	P	technology for NBC detection equipment [See footnote 26]
21	T	towed hydrophone arrays [See footnote 27]
22	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 28]
23	P	components for combat aircraft
24	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 29]
25	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 43]
26	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 44]

27	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 33]
28	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 45]
29	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
30	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 35]
31	P	information security equipment, software for information security equipment, technology for information security equipment
32	P	components for military communications equipment, equipment for the production of military communications equipment, military communications equipment, technology for military communications equipment
33	P	components for military support aircraft [See footnote 36]
34	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 46]

35	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 37]
36	P	civil explosive detection/identification equipment [See footnote 39]
37	P	marine position fixing equipment, underwater telecommunications systems
38	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack alerting/warning equipment, software for countermeasure equipment for military cameras/photographic equipment, software for countermeasure equipment for military image intensifier equipment, software for countermeasure equipment for military image recording/processing equipment, software for countermeasure equipment for military imaging radar sensor equipment, software for countermeasure equipment for military infrared/thermal imaging equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military cameras/photographic equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military training aircraft, Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for countermeasure equipment for military imaging radar sensor equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for electronic countermeasure

		equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, test models for military training aircraft, unfinished products for military training aircraft, weapon control equipment [See footnote 42]
39	P	components for submarines
40	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£10,000
Non-military	1	£15,000
Total	2	£25,000

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£10,000

small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£15,000

imaging cameras.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]
2	T	towed hydrophone arrays [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment,

		components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 8]
4	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
5	P	components for military support aircraft [See footnote 9]
6	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 10]

Country Footnotes

1. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The EU implements this sanctions regime via Council Decision (CFSP) 2017/1775 and Council Regulation (EU) 2017/1770.

All exports for this destination were approved in accordance with the sanctions in place.

2. United Nations Security Council Resolution 2374 (2017) was adopted in September 2017 establishing a sanctions regime on Mali which imposes travel bans and assets freezes on individuals and entities engaged in activities that threaten the peace, security or stability of the country.

The UK implements this sanctions regime via The Mali (Sanctions) (EU Exit) Regulations 2020.

All licences for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£1,233
Non-military	1	£2,500
Total	2	£3,733

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML11	1	£1,233

components for military electronic equipment [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A001	1	£2,500

T hydrophones.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	sporting shotgun ammunition [See footnote 2]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
3	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 5]
4	P	components for military support aircraft [See footnote 4]

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Government end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Armed forces end use.
4. Licence granted for accessories / spare parts. End use by the Air Force.
5. Licence granted for marketing and promotional use. Armed forces end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£340,000
Non-military	5	£60,649
Both Military and Non-military	1	£158,000
Total	8	£558,649

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	2	£340,000

small arms ammunition (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£200
1A004	1	£45,509
5A002	1	£7,450
5D002	1	£651
5E002	1	£240
6A002	1	£6,600

civil explosive detection/identification equipment.
 deuterium solutions.
 direct view imaging equipment.
 information security equipment.
 software for information security equipment [See footnote 1].
 technology for information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£22,500
6A003	1	£28,200
ML1	1	£107,300

direct view imaging equipment.
 imaging cameras.
 weapon night sights.
 weapon sights.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

- T civil explosive detection/identification equipment (3 licences).
- T fibre prepreps (2 licences).
- T genetically modified organisms.
- T imaging cameras.
- T inertial equipment [See footnote 2].
- T inertial equipment.
- T information security equipment (14 licences).
- T information security equipment.
- T information security software (2 licences).
- software for information security equipment.
- sporting shotguns (2).
- technology for information security equipment (2 licences).
- technology for X-ray accelerators.
- technology for X-ray generators.
- viruses (2 licences).
- X-ray accelerators.
- X-ray generators.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£443,182
Total	1	£443,182

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£443,182

components for military combat vehicles.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
3	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 5]

4	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 6]
5	P	components for ground vehicle military communications equipment, components for military combat vehicles, components for military communications equipment, components for military training equipment, components for targeting equipment, components for weapon control equipment, general military vehicle components, technology for ground vehicle military communications equipment, technology for military combat vehicles, technology for military communications equipment, technology for targeting equipment, technology for weapon control equipment
6	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
7	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 7]
8	P	components for electronic countermeasure equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military combat vehicles, components for military communications equipment, components for targeting equipment, components for weapon control equipment, general military vehicle components, technology for ground vehicle military communications equipment, technology for military combat vehicles, technology for military communications equipment, technology for targeting equipment, technology for weapon control equipment
9	P	components for military support aircraft [See footnote 8]
10	P	civil explosive detection/identification equipment [See footnote 9]

- promoting the supply of aircraft cannons [See footnote 4].
- promoting the supply of aircraft military communications equipment [See footnote 4].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 4].

promoting the supply of anti-aircraft guns [See footnote 4].
promoting the supply of anti-armour ammunition [See footnote 4].
promoting the supply of anti-armour weapons [See footnote 4].
promoting the supply of anti-riot/ballistic shields [See footnote 4].
promoting the supply of artillery [See footnote 4].
promoting the supply of assault rifles [See footnote 4].
promoting the supply of attack alerting/warning equipment [See footnote 4].
promoting the supply of body armour [See footnote 4].
promoting the supply of caseless ammunition weapons [See footnote 4].
promoting the supply of combat helicopters [See footnote 4].
promoting the supply of combat shotguns [See footnote 4].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 4].
promoting the supply of components for assault rifles [See footnote 4].
promoting the supply of components for body armour [See footnote 4].
promoting the supply of components for combat shotguns [See footnote 4].
promoting the supply of components for machine guns [See footnote 4].
promoting the supply of components for pistols [See footnote 4].
promoting the supply of components for rifles [See footnote 4].
promoting the supply of components for smooth-bore weapons [See footnote 4].
promoting the supply of components for sniper rifles [See footnote 4].
promoting the supply of components for sporting guns [See footnote 4].
promoting the supply of components for sporting shotguns [See footnote 4].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 4].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of CS hand grenades [See footnote 4].
promoting the supply of devices containing military pyrotechnic materials [See footnote 4].
promoting the supply of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 4].
promoting the supply of equipment for the use of aircraft cannons [See footnote 4].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 4].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 4].
promoting the supply of equipment for the use of artillery [See footnote 4].
promoting the supply of equipment for the use of assault rifles [See footnote 4].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 4].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 4].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the use of fire location equipment [See footnote 4].
promoting the supply of equipment for the use of flash suppressers [See footnote 4].
promoting the supply of equipment for the use of grenade launchers [See footnote 4].
promoting the supply of equipment for the use of gun silencers [See footnote 4].
promoting the supply of equipment for the use of heavy machine guns [See footnote 4].
promoting the supply of equipment for the use of machine guns [See footnote 4].
promoting the supply of equipment for the use of military radars [See footnote 4].
promoting the supply of equipment for the use of mortars [See footnote 4].
promoting the supply of equipment for the use of periscopes [See footnote 4].
promoting the supply of equipment for the use of pistols [See footnote 4].
promoting the supply of equipment for the use of projectile launchers [See footnote 4].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 4].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 4].
promoting the supply of equipment for the use of rifles [See footnote 4].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 4].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 4].
promoting the supply of equipment for the use of sniper rifles [See footnote 4].
promoting the supply of equipment for the use of sporting guns [See footnote 4].
promoting the supply of equipment for the use of sporting shotguns [See footnote 4].
promoting the supply of equipment for the use of targeting equipment [See footnote 4].
promoting the supply of equipment for the use of weapon control equipment [See footnote 4].

promoting the supply of equipment for the use of weapon mountings [See footnote 4].
 promoting the supply of equipment for the use of weapon night sights [See footnote 4].
 promoting the supply of equipment for the use of weapon sights [See footnote 4].
 promoting the supply of fire location equipment [See footnote 4].
 promoting the supply of flash suppressers [See footnote 4].
 promoting the supply of fuze setting devices [See footnote 4].
 promoting the supply of general military aircraft components [See footnote 4].
 promoting the supply of grenade launchers [See footnote 4].
 promoting the supply of gun mountings [See footnote 4].
 promoting the supply of gun silencers [See footnote 4].
 promoting the supply of hand grenades [See footnote 4].
 promoting the supply of heavy machine guns [See footnote 4].
 promoting the supply of illuminators [See footnote 4].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 4].
 promoting the supply of machine guns [See footnote 4].
 promoting the supply of military aero-engines [See footnote 4].
 promoting the supply of military aircraft ground equipment [See footnote 4].
 promoting the supply of military aircraft head-up/down displays [See footnote 4].
 promoting the supply of military aircraft pressure refuellers [See footnote 4].
 promoting the supply of military aircrew life support equipment [See footnote 4].
 promoting the supply of military aircrew safety equipment [See footnote 4].
 promoting the supply of military cameras/photographic equipment [See footnote 4].
 promoting the supply of military combat vehicles [See footnote 4].
 promoting the supply of military helmets [See footnote 4].
 promoting the supply of military image intensifier equipment [See footnote 4].
 promoting the supply of military image recording/processing equipment [See footnote 4].
 promoting the supply of military imaging radar sensor equipment [See footnote 4].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 4].
 promoting the supply of military radars [See footnote 4].
 promoting the supply of military support vehicles [See footnote 4].
 promoting the supply of mortars [See footnote 4].
 promoting the supply of periscopes [See footnote 4].
 promoting the supply of pistols [See footnote 4].
 promoting the supply of projectile launchers [See footnote 4].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 4].
 promoting the supply of rangefinding equipment [See footnote 4].
 promoting the supply of recognition/identification equipment [See footnote 4].
 promoting the supply of rifles [See footnote 4].
 promoting the supply of sensor integration equipment [See footnote 4].
 promoting the supply of signalling devices [See footnote 4].
 promoting the supply of small arms ammunition [See footnote 4].
 promoting the supply of smoke canisters [See footnote 4].
 promoting the supply of smooth-bore weapons [See footnote 4].
 promoting the supply of sniper rifles [See footnote 4].
 promoting the supply of sporting guns [See footnote 4].
 promoting the supply of sporting shotguns [See footnote 4].
 promoting the supply of targeting equipment [See footnote 4].
 promoting the supply of unmanned air vehicles [See footnote 4].
 promoting the supply of water cannon [See footnote 4].
 promoting the supply of weapon cleaning equipment [See footnote 4].
 promoting the supply of weapon control equipment [See footnote 4].
 promoting the supply of weapon mountings [See footnote 4].
 promoting the supply of weapon night sights [See footnote 4].
 promoting the supply of weapon sight mounts [See footnote 4].
 promoting the supply of weapon sights [See footnote 4].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£0
Total	1	£0

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£0

information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of

		military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 1]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£500,000
Non-military	3	£218,466
Both Military and Non-military	1	£60,000
Total	5	£778,466

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	1	£0
ML10	1	£500,000
ML11	1	£0
ML14	1	£0
ML22	1	£0
PL5017	1	£0

- T aerial target equipment.
- T components for aerial target equipment.
- T components for electronic countermeasure equipment.
- T components for electronic warfare equipment.
- T components for military scenario simulation equipment.
- T components for military training aircraft.
- T electronic countermeasure equipment.
- T electronic warfare equipment.
- T equipment for the use of aerial target equipment.

Country Footnotes

1. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited. All exports for this destination were approved in accordance with the sanctions in place.
2. Restrictions currently in force with respect to Myanmar are set out in Council Decision 2013/184/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 401/2013, as amended. Also the technical assistance, and financing or financial assistance related to military activities are also prohibited. All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£28,839
Non-military	1	£935
Both Military and Non-military	2	£209,982
Total	5	£239,756

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more

than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry');

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£22,146
ML5	1	£6,693

components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 munitions/ordnance detection/disposal equipment.
 rangefinding equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£935

information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£92,636
ML4	2	£12,476
ML13	2	£43,370
PL8001	2	£61,500

bomb suits (2 licences).
 civil explosive detection/identification equipment (2 licences).
 components for bomb suits.
 components for military equipment for initiating explosives (2 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 devices for initiating explosives (2 licences).
 military helmets (2 licences).
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines,

		equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 2]
2	P	components for military support aircraft [See footnote 3]

OITCLs

Source	Issued	Refused	Revoked
Argentina, Bangladesh, Benin, Brazil, Burkina Faso, Burundi, Central African Republic, Chad, China, Cyprus, Democratic Republic of Congo, Egypt, Ethiopia, Ghana, Haiti, India, Indonesia, Italy, Ivory Coast, Jordan, Kenya, Kosovo, Lebanon, Liberia, Mali, Morocco, Nepal, Niger, Nigeria, Pakistan, Republic of Guinea, Rwanda, Senegal, Sierra Leone, South Africa, South Sudan, Sri Lanka, Sudan, Syria, Tanzania, Togo, Uganda, Uruguay	1	0	0

Issued

- promoting the supply of airborne refuelling equipment [See footnote 1].
- promoting the supply of aircraft cannons [See footnote 1].
- promoting the supply of aircraft military communications equipment [See footnote 1].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 1].
- promoting the supply of anti-aircraft guns [See footnote 1].
- promoting the supply of anti-armour ammunition [See footnote 1].
- promoting the supply of anti-armour weapons [See footnote 1].
- promoting the supply of anti-riot/ballistic shields [See footnote 1].
- promoting the supply of artillery [See footnote 1].
- promoting the supply of assault rifles [See footnote 1].
- promoting the supply of attack alerting/warning equipment [See footnote 1].
- promoting the supply of body armour [See footnote 1].
- promoting the supply of caseless ammunition weapons [See footnote 1].
- promoting the supply of combat helicopters [See footnote 1].
- promoting the supply of combat shotguns [See footnote 1].
- promoting the supply of command/control equipment for unmanned air vehicles [See footnote 1].
- promoting the supply of components for assault rifles [See footnote 1].
- promoting the supply of components for body armour [See footnote 1].
- promoting the supply of components for combat shotguns [See footnote 1].
- promoting the supply of components for machine guns [See footnote 1].
- promoting the supply of components for pistols [See footnote 1].
- promoting the supply of components for rifles [See footnote 1].
- promoting the supply of components for smooth-bore weapons [See footnote 1].
- promoting the supply of components for sniper rifles [See footnote 1].

promoting the supply of components for sporting guns [See footnote 1].
promoting the supply of components for sporting shotguns [See footnote 1].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
promoting the supply of CS hand grenades [See footnote 1].
promoting the supply of devices containing military pyrotechnic materials [See footnote 1].
promoting the supply of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].
promoting the supply of equipment for the use of aircraft cannons [See footnote 1].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].
promoting the supply of equipment for the use of artillery [See footnote 1].
promoting the supply of equipment for the use of assault rifles [See footnote 1].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the use of fire location equipment [See footnote 1].
promoting the supply of equipment for the use of flash suppressers [See footnote 1].
promoting the supply of equipment for the use of grenade launchers [See footnote 1].
promoting the supply of equipment for the use of gun silencers [See footnote 1].
promoting the supply of equipment for the use of heavy machine guns [See footnote 1].
promoting the supply of equipment for the use of machine guns [See footnote 1].
promoting the supply of equipment for the use of military radars [See footnote 1].
promoting the supply of equipment for the use of mortars [See footnote 1].
promoting the supply of equipment for the use of periscopes [See footnote 1].
promoting the supply of equipment for the use of pistols [See footnote 1].
promoting the supply of equipment for the use of projectile launchers [See footnote 1].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].
promoting the supply of equipment for the use of rifles [See footnote 1].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].
promoting the supply of equipment for the use of sniper rifles [See footnote 1].
promoting the supply of equipment for the use of sporting guns [See footnote 1].
promoting the supply of equipment for the use of sporting shotguns [See footnote 1].
promoting the supply of equipment for the use of targeting equipment [See footnote 1].
promoting the supply of equipment for the use of weapon control equipment [See footnote 1].
promoting the supply of equipment for the use of weapon mountings [See footnote 1].
promoting the supply of equipment for the use of weapon night sights [See footnote 1].
promoting the supply of equipment for the use of weapon sights [See footnote 1].
promoting the supply of fire location equipment [See footnote 1].
promoting the supply of flash suppressers [See footnote 1].
promoting the supply of fuze setting devices [See footnote 1].
promoting the supply of general military aircraft components [See footnote 1].
promoting the supply of grenade launchers [See footnote 1].
promoting the supply of gun mountings [See footnote 1].
promoting the supply of gun silencers [See footnote 1].
promoting the supply of hand grenades [See footnote 1].
promoting the supply of heavy machine guns [See footnote 1].
promoting the supply of illuminators [See footnote 1].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].
promoting the supply of machine guns [See footnote 1].
promoting the supply of military aero-engines [See footnote 1].
promoting the supply of military aircraft ground equipment [See footnote 1].
promoting the supply of military aircraft head-up/down displays [See footnote 1].
promoting the supply of military aircraft pressure refuellers [See footnote 1].

promoting the supply of military aircrew life support equipment [See footnote 1].
 promoting the supply of military aircrew safety equipment [See footnote 1].
 promoting the supply of military cameras/photographic equipment [See footnote 1].
 promoting the supply of military combat vehicles [See footnote 1].
 promoting the supply of military helmets [See footnote 1].
 promoting the supply of military image intensifier equipment [See footnote 1].
 promoting the supply of military image recording/processing equipment [See footnote 1].
 promoting the supply of military imaging radar sensor equipment [See footnote 1].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
 promoting the supply of military radars [See footnote 1].
 promoting the supply of military support vehicles [See footnote 1].
 promoting the supply of mortars [See footnote 1].
 promoting the supply of periscopes [See footnote 1].
 promoting the supply of pistols [See footnote 1].
 promoting the supply of projectile launchers [See footnote 1].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].
 promoting the supply of rangefinding equipment [See footnote 1].
 promoting the supply of recognition/identification equipment [See footnote 1].
 promoting the supply of rifles [See footnote 1].
 promoting the supply of sensor integration equipment [See footnote 1].
 promoting the supply of signalling devices [See footnote 1].
 promoting the supply of small arms ammunition [See footnote 1].
 promoting the supply of smoke canisters [See footnote 1].
 promoting the supply of smooth-bore weapons [See footnote 1].
 promoting the supply of sniper rifles [See footnote 1].
 promoting the supply of sporting guns [See footnote 1].
 promoting the supply of sporting shotguns [See footnote 1].
 promoting the supply of targeting equipment [See footnote 1].
 promoting the supply of unmanned air vehicles [See footnote 1].
 promoting the supply of water cannon [See footnote 1].
 promoting the supply of weapon cleaning equipment [See footnote 1].
 promoting the supply of weapon control equipment [See footnote 1].
 promoting the supply of weapon mountings [See footnote 1].
 promoting the supply of weapon night sights [See footnote 1].
 promoting the supply of weapon sight mounts [See footnote 1].
 promoting the supply of weapon sights [See footnote 1].

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. End use by the Air Force.
3. Licence granted for accessories / spare parts. End use by the Air Force.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	98	£51,418,804
Non-military	23	£33,923,625
Both Military and Non-military	2	£18,435
Total	123	£85,360,864

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	33	£5,929,448
ML3	11	£216,561
ML4	4	£213,122
ML5	21	£1,609,780
ML6	2	£14,436
ML7	11	£1,596,669
ML9	1	£206,500
ML10	9	£36,267,789
ML11	24	£620,809
ML13	3	£215,400
ML14	2	£24,000
ML15	30	£4,432,671
ML21	2	£69,359
ML22	3	£1,599
PL5017	1	£662

- anti-armour ammunition.
- assault rifles (3).
- blank/inert ammunition (5 licences).
- body armour (2 licences).
- T command communications control and intelligence software.
- components for assault rifles (2 licences).
- components for body armour (3 licences).
- components for combat aircraft (2 licences).
- components for gun mountings.
- components for machine guns.
- components for military combat vehicles (2 licences).
- components for military communications equipment (3 licences).
- T components for military equipment for initiating explosives.
- components for military infrared/thermal imaging equipment (10 licences).
- components for military radars (4 licences).
- components for military support aircraft.
- components for NBC detection equipment (2 licences).

- components for NBC protective/defensive equipment (8 licences).
- components for pistols.
- components for sniper rifles (3 licences).
- components for submarines.
- components for unmanned air vehicles (3 licences).
- components for weapon night sights (2 licences).
- decoying/countermeasure equipment (2 licences).
- T equipment for the development of weapon control equipment.
- T equipment for the use of weapon night sights (8 licences).
- gun mountings.
- T military cameras/photographic equipment.
- military electronic equipment.
- T military electronic equipment (19 licences).
- T military equipment for initiating explosives.
- T military guidance/navigation equipment (7 licences).
- military helmets (2 licences).
- T military image intensifier equipment (20 licences).
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment (18 licences).
- military support aircraft.
- military training equipment (2 licences).
- T munitions/ordnance detection/disposal equipment.
- NBC protective/defensive equipment (3 licences).
- T rangefinding equipment (9 licences).
- small arms ammunition (2 licences).
- sniper rifles (2).
- Software for modelling/simulating military operation scenarios.
- sporting guns (1) (3 licences).
- sporting shotgun ammunition.
- T targeting equipment (8 licences).
- T technology for launching/ground support equipment for unmanned air vehicles.
- technology for submarines.
- technology for weapon night sights.
- training small arms ammunition.
- training wall/door breaching projectiles/ammunition.
- T unmanned air vehicles (2 licences).
- wall/door breaching projectiles/ammunition (2 licences).
- weapon cleaning equipment.
- weapon night sights (2 licences).
- T weapon night sights (19 licences).
- weapon sights.
- T weapon sights (19 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0B001	2	£0
0B002	2	£0
0C001	2	£930
0C002	3	£1,154
0E001	1	£1
1C001	3	£923
1C233	5	£18,465
3A001	1	£0
6A001	1	£170,540
7A103	1	£24,000
9A004	1	£266,667
PL9010	5	£40,945
RUS	1	£33,400,000

- T devices containing enriched lithium (2 licences).
- T devices containing enriched lithium.
- electromagnetic wave absorbing materials (3 licences).
- enriched uranium (2 licences).
- T guidance/navigation equipment.

T oil and gas industry equipment/materials.
 plutonium-239.
 products containing enriched lithium (2 licences).
 space qualified solar devices.
 spacecraft attitude and orbit control systems.
 spacecraft command and telemetry data handling systems.
 spacecraft payload data handling systems.
 sporting shotguns (1).
 sporting shotguns (2).
 sporting shotguns (13).
 sporting shotguns (19).
 sporting shotguns (40).
 technology for enriched uranium.
 thorium (2 licences).
 towed hydrophone arrays.
 uranium isotope separation equipment (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£6,000
ML1	1	£10
ML7	1	£12,000
PL9010	1	£425

civil NBC protection clothing.
 NBC protective/defensive equipment.
 pistols (1).
 sporting shotguns (16).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	55	£2,120,889
Non-military	2	£616,914
Total	57	£2,737,803

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	6	£23,921
ML6	4	£10,067
ML7	4	£239,656
ML9	1	£17,292
ML10	31	£1,478,138
ML11	3	£55,098
ML14	1	£15,000

ML16	3	£255,267
ML17	1	£25,000
ML21	2	£750
ML22	4	£700

components for combat aircraft.
 components for combat helicopters.
 components for military aero-engines (2 licences).
 components for military combat vehicles (3 licences).
 components for military guidance/navigation equipment.
 components for military helicopters (25 licences).
 components for military radars (6 licences).
 components for military training equipment.
 components for NBC protective/defensive equipment.
 components for unmanned air vehicles (2 licences).
 general military vehicle components.
 military electronic equipment.
 military guidance/navigation equipment.
 naval electrical/electronic equipment.
 NBC protective/defensive equipment (3 licences).
 software for military electronic equipment.
 software for military guidance/navigation equipment.
 technology for combat aircraft.
 technology for military guidance/navigation equipment.
 technology for military helicopters (2 licences).
 test models for combat aircraft.
 unfinished products for military aero-engines.
 unfinished products for military helicopters (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0B001	1	£615,600
0E001	1	£0
1C233	1	£1,314

components for uranium isotope separation equipment.
 products containing enriched lithium.
 technology for uranium isotope separation equipment.

14	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 6]
15	P	sporting shotgun ammunition [See footnote 7]
16	T	inertial equipment [See footnote 8]
17	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
18	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 9]

19	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
20	P	components for weapon sights, weapon sights
21	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
22	P	non-military detonators
23	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 10]
24	T	towed hydrophone arrays
25	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 11]
26	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
27	P	technology for NBC detection equipment [See footnote 12]
28	P	components for combat aircraft
29	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military

		software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
30	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 17]
31	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military

		vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
32	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
33	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
34	P	neutron generators [See footnote 13]
35	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 18]
36	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 14]
37	P	components for military support aircraft [See footnote 15]
38	P	components for electronic warfare equipment, electronic warfare equipment, military electronic equipment, software for electronic warfare equipment, technology for electronic warfare equipment
39	P	components for military helicopters
40	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components

		for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 16]
41	P	components for military helicopters
42	P	components for sporting guns
43	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment
44	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 19]
45	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	69	£4,429,847
Non-military	21	£522,360
Both Military and Non-military	1	£6,330
Total	91	£4,958,537

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	25	£1,412,648
ML2	26	£116,567
ML3	6	£14,046
ML4	6	£929,990
ML5	1	£2,440
ML6	2	£1,786,803
ML10	2	£40,020
ML13	3	£122,675
ML16	1	£2,757

PL5001	2	£1,208
PL5017	1	£693

	all-wheel drive vehicles with ballistic protection. anti-riot/ballistic shields (2 licences). assault rifles (3). assault rifles (4). body armour (2 licences). components for artillery (17 licences). components for assault rifles (3 licences). components for body armour (2 licences). components for combat aircraft (2 licences). components for gun mountings (3 licences). components for machine guns (2 licences). components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences). components for mortars. components for munitions/ordnance detection/disposal equipment (2 licences). components for pistols. components for small arms ammunition (2 licences).
T	components for small arms ammunition.
T	components for sporting guns (2 licences). components for sporting guns. components for weapon mountings (9 licences). decoying/countermeasure equipment (3 licences). gun silencers (2 licences). machine guns (2).
T	machine guns (2). machine guns (8). military combat vehicles. military helmets. military support vehicles. pistols (12). projectile launchers. small arms ammunition. sniper rifles (1). sporting guns (1) (2 licences). sporting guns (2) (2 licences). sporting guns (5). sporting guns (9). sporting guns (10). sporting shotgun ammunition. tear gas/irritant ammunition. unfinished products for sporting guns. wall/door breaching projectiles/ammunition. weapon cleaning equipment. weapon control equipment. weapon night sights (3 licences). weapon sights (5 licences).
T	weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£465
0C002	1	£0
1A004	2	£141,709
1C001	1	£560
1C210	2	£69
1C351	1	£228
1C353	1	£10
5A001	1	£80,000
PL9010	12	£299,319

civil NBC protection clothing.
 components for sporting shotguns.
 electromagnetic wave absorbing materials.
 enriched uranium.
 fibrous/filamentary materials (2 licences).
 NBC protective/defensive equipment.
 pathogenic genetic elements.
 sporting shotguns (1) (10 licences).
 sporting shotguns (2).
 sporting shotguns (4).
 T telecommunications interception equipment.
 thorium.
 toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£5,580
ML3	1	£550
PL9010	1	£200

components for small arms ammunition.
 gun silencers.
 small arms ammunition.
 sporting guns (4).
 sporting shotguns (1).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets [See footnote 3]
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval

		engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
5	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 5]
6	P	sporting shotgun ammunition [See footnote 6]
7	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 7]
8	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology

		for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 8]
9	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
10	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 9]
11	P	components for weapon sights, weapon sights [See footnote 10]
12	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 11]
13	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 12]
14	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
15	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
16	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 13]
17	P	components for sporting shotgun ammunition, sporting shotgun ammunition
18	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 14]
19	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 15]
20	P	technology for NBC detection equipment [See footnote 16]
21	T	towed hydrophone arrays [See footnote 17]
22	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
23	P	components for combat aircraft
24	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment,

		components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 21]

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£136,357
Non-military	8	£130,227
Total	12	£266,584

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£231
ML7	1	£8,000
ML11	2	£112,700
ML21	2	£15,427

- T components for sniper rifles [See footnote 1].
- T military communications equipment (2 licences) [See footnote 2].
- T NBC detection equipment.
- T software for military communications equipment (2 licences) [See footnote 2].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C210	1	£3,350
1C353	1	£5
2B350	1	£2,508
5A002	4	£103,150
5D002	2	£8,778
5E002	1	£12,436

- corrosion resistant chemical manufacturing equipment.
- fibre prepregs.
- information security equipment (4 licences) [See footnote 4].
- pathogenic genetic elements.
- software for information security equipment (2 licences) [See footnote 4].
- technology for information security equipment.

ML17	1	£100

- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- T civil unmanned air vehicles.
- T components for NBC protective/defensive equipment.
- T imaging cameras.
- T launching/ground support equipment for unmanned air vehicles.
- T military communications equipment.

T military laser protection equipment.
 T NBC protective/defensive equipment.
 T rebreathing swimming equipment.
 T technology for civil unmanned air vehicles.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	12	£480,143
Total	12	£480,143

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	4	£287,923
ML5	4	£129,366
ML10	1	£799
ML11	3	£62,055

components for combat aircraft.
 components for launching/handling/control equipment for missiles (2 licences).
 components for surface-to-surface missiles (2 licences).
 components for weapon control equipment (4 licences) [See footnote 12].
 equipment for the use of military electronic equipment (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Canada
 Chile
 Finland
 Germany
 Italy
 Kuwait
 Malaysia
 Netherlands
 Oman
 Poland
 Portugal
 Spain
 Sweden
 Switzerland
 Thailand
 United States of America

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	1	£190,198
Total	1	£190,198

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£190,198

artillery.

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£171
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£171

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£171

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 3]
3	P	goods treated for signature suppression for military use [See footnote 4]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military

		cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]
6	P	body armour, civil body armour, components for body armour, military helmets
7	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 6]
8	P	sporting shotgun ammunition [See footnote 7]
9	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
10	T	inertial equipment [See footnote 9]
11	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment

12	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
14	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 1]
15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 13]
17	P	components for weapon sights, weapon sights

18	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles
19	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 14]
20	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
21	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
22	T	towed hydrophone arrays
23	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 15]
24	P	components for sporting shotgun ammunition, sporting shotgun ammunition
25	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 16]
26	P	components for sporting guns, gun silencers, small arms ammunition, sporting guns, weapon sights
27	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 17]
28	P	technology for NBC detection equipment [See footnote 18]
29	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for

		equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
30	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 23]
31	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
32	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles,

		<p>components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
33	P	<p>components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights</p>
34	P	<p>components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 24]</p>
35	P	<p>neutron generators [See footnote 19]</p>
36	P	<p>aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 20]</p>
37	P	<p>components for military support aircraft [See footnote 21]</p>
38	P	<p>accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications</p>

		equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 22]
39	P	components for military helicopters
40	P	technology for space launch vehicles
41	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 25]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

% [as a % of all OITCLs cases processed] and number of OITCLs refused	29% (5)

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	134	£1,389,319,693
Non-military	31	£41,881,937
Both Military and Non-military	7	£2,940,735
Total	172	£1,434,142,365

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	11	£1,583,853
ML2	6	£202,281
ML3	6	£4,703,462
ML4	9	£469,473
ML5	5	£196,452
ML6	49	£1,091,204
ML8	1	£133,310
ML9	2	£49,911
ML10	14	£1,376,333,245
ML11	22	£410,374
ML13	1	£2,000
ML14	8	£3,535,589
ML15	10	£522,373
ML21	2	£665
ML22	1	£0
PL5017	1	£85,500

accessories for military image intensifier equipment.
 aircraft cannon ammunition.
 assault rifles (2).
 bomb suits.
 combat aircraft.
 components for aircraft cannons (3 licences).
 components for artillery (2 licences).
 components for assault rifles.
 components for combat aircraft (2 licences).
 components for combat naval vessels.
 components for ground vehicle military communications equipment.
 components for gun mountings.
 components for launching/handling/control equipment for missiles.
 components for machine guns (8 licences).
 components for military aircrew safety equipment.
 components for military combat vehicles (31 licences).
 components for military communications equipment (15 licences).
 components for military equipment for initiating explosives.
 components for military helicopters (2 licences).
 components for military image intensifier equipment (2 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
 components for military infrared/thermal imaging equipment (4 licences).
 components for military patrol/assault craft.
 components for military radars (2 licences).
 components for military support aircraft (2 licences).
 components for military training aircraft (2 licences).
 components for military training equipment.
 components for munitions/ordnance detection/disposal equipment.
 components for pistols.
 components for small arms training equipment (7 licences).
 components for tanks (15 licences).
 components for turrets (2 licences).
 components for weapon control equipment.
 components for weapon night sights.
 components for weapon sights.
 demolition charges/devices.
 equipment for the operation of military aircraft in confined areas (2 licences).
 equipment for the use of military aircraft ground equipment.

T

- T equipment for the use of small arms training equipment (2 licences).
- equipment for the use of weapon night sights.
- explosives.
- general military vehicle components.
- grenade launchers.
- inert devices containing military pyrotechnic materials.
- inert hand grenades.
- machine guns (500).
- military aircraft ground equipment (2 licences).
- military aircrew safety equipment.
- military communications equipment (2 licences).
- military electronic equipment.
- T military electronic equipment.
- military equipment for initiating explosives (4 licences).
- T military guidance/navigation equipment.
- military helmets.
- military image intensifier equipment.
- T military image intensifier equipment (2 licences).
- T military infrared/thermal imaging equipment.
- military scenario simulation equipment (2 licences).
- military training aircraft.
- periscopes.
- T rangefinding equipment.
- small arms ammunition (3 licences) [See footnotes 12, 9].
- small arms training equipment (2 licences).
- software for military helicopters.
- software for tanks.
- tear gas/irritant ammunition [See footnote 12].
- technology for machine guns.
- training small arms ammunition (2 licences).
- wall/door breaching projectiles/ammunition [See footnote 12].
- weapon control equipment.
- T weapon night sights.
- weapon sight mounts.
- weapon sights.
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£450,100
2B350	1	£13,286
3A101	6	£37,175,000
3E101	5	£450,000
5A001	6	£1,858,553
5A002	6	£689,660
5D001	3	£22,835
5D002	5	£75,320
5E001	1	£600
6A003	2	£457,000
6A008	1	£60,083
7A103	1	£625,000
PL8001	1	£3,500
PL9010	1	£1,000

- civil explosive detection/identification equipment (3 licences).
- components for radar equipment.
- components for telecommunications interception equipment [See footnote 21].
- T components for telecommunications interception equipment (2 licences) [See footnote 40].
- corrosion resistant chemical manufacturing equipment.
- T counter-improvised explosive device equipment.
- T devices for initiating explosives.
- imaging cameras.
- T imaging cameras.
- inertial equipment.

- information security equipment (6 licences).
- information security software (3 licences).
- software for information security equipment (2 licences).
- software for telecommunications interception equipment [See footnote 21].
- T software for telecommunications interception equipment (2 licences) [See footnote 40].
- sporting shotguns (1).
- technology for telecommunications interception equipment [See footnote 21].
- technology for X-ray accelerators.
- technology for X-ray generators (5 licences).
- telecommunications interception equipment [See footnote 21].
- T telecommunications interception equipment (3 licences) [See footnotes 17, 35].
- X-ray accelerators (3 licences).
- X-ray generators (5 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£3,490
6A002	5	£1,710,540
6A003	2	£91,040
9A012	1	£100,000
ML1	5	£547,465
ML5	1	£120,000
ML11	2	£334,450
ML15	1	£33,750
ML22	1	£0

- T civil unmanned air vehicles.
- components for sniper rifles.
- direct view imaging equipment.
- T direct view imaging equipment (4 licences) [See footnotes 20, 46].
- gun mountings.
- gun silencers.
- T imaging cameras (2 licences).
- information security equipment.
- military communications equipment.
- T military electronic equipment.
- T military infrared/thermal imaging equipment.
- sniper rifles (1).
- T targeting equipment.
- technology for sniper rifles.
- T weapon night sights (4 licences) [See footnotes 20, 46].
- weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	1	£324,968
Total	1	£324,968

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£712
ML11	1	£322,320
ML21	1	£1,936

components for equipment for the use of military communications equipment.
 components for military communications equipment.
 equipment for the use of military communications equipment.
 ground vehicle military communications equipment.
 military communications equipment.
 software for military communications equipment.

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Military	2	£11,549,380
Total	2	£11,549,380

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£11,178,405
ML4	1	£315,625
ML8	1	£55,350
ML22	1	£0
PL5017	1	£0

assault rifles (15000) [See footnote 13].
 components for assault rifles [See footnote 13].
 demolition charges/devices.
 explosive charges/devices.
 explosives.
 military equipment for initiating explosives.
 technology for assault rifles [See footnote 13].
 weapon cleaning equipment [See footnote 13].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security

		equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 3]
3	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier

		equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
4	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 4]
5	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 5]
6	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
7	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 7]

8	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 8]
9	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 10]
10	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
11	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 16]

12	P	equipment for the operation of military aircraft in confined areas, software for equipment for the operation of military aircraft in confined areas, technology for equipment for the operation of military aircraft in confined areas [See footnote 1]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
14	P	components for military combat vehicles, components for periscopes, components for tanks, components for turrets, periscopes
15	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 18]
16	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 19]
17	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 22]
18	P	components for military guidance/navigation equipment, components for military support aircraft, general military aircraft components, military aircrew safety equipment, military guidance/navigation equipment
19	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for military training aircraft, general military aircraft components, military communications equipment, military electronic equipment, military guidance/navigation equipment
20	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 23]
21	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne

		refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 24]
22	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 26]
23	T	towed hydrophone arrays [See footnote 27]
24	P	components for military support aircraft [See footnote 32]
25	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 44]
26	P	airborne refuelling equipment, aircraft military communications equipment, attack alerting/warning equipment, components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military radars, recognition/identification equipment, software for aircraft military communications equipment, software for attack alerting/warning equipment, software for combat aircraft, software for combat helicopters, software for electronic countermeasure equipment, software for military aircraft ground equipment, software for military cameras/photographic equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for military support aircraft, software for military training aircraft, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for aircraft military communications equipment, technology for attack alerting/warning equipment, technology for combat aircraft, technology for combat helicopters, technology for electronic countermeasure equipment, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging

		radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft, technology for military training aircraft, technology for targeting equipment, technology for weapon control equipment, weapon control equipment
27	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
28	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 36]
29	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 45]
30	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 37]
31	P	components for military support aircraft [See footnote 39]
32	P	airborne refuelling equipment, aircraft cannons, aircraft military communications equipment, components for airborne refuelling equipment, components for aircraft cannons, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for ground vehicle military communications equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircraft head-up/down displays, components for military aircrew life support equipment, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military parachutes and equipment, components for military radars, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, ground vehicle military communications equipment, launching/handling/control equipment for missiles, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military parachutes and equipment, military paragliders, military radars, military training equipment, small arms training equipment, surface-to-air missiles, technology for airborne refuelling equipment, technology for aircraft cannons, technology for aircraft military communications equipment, technology for combat aircraft, technology for combat helicopters, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military parachutes and equipment, technology for military paragliders, technology for military radars, technology for military support aircraft, technology for military training aircraft, technology for military training equipment, technology for small arms training equipment, technology for surface-to-air missiles, test equipment for combat aircraft, test equipment for combat helicopters, test

		equipment for military helicopters, test equipment for military support aircraft, test equipment for military training aircraft [See footnote 42]
33	P	components for military helicopters
34	P	accessories for attack alerting/warning equipment, accessories for electronic countermeasure equipment, accessories for fire location equipment, accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for targeting equipment, accessories for weapon control equipment, airborne refuelling equipment, attack alerting/warning equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for automatic piloting systems for parachuted loads, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military cameras/photographic equipment, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military parachutes, components for military scenario simulation equipment, components for military training aircraft, components for military training equipment, components for targeting equipment, components for weapon control equipment, countermeasure equipment for military cameras/photographic equipment, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, electronic countermeasure equipment, fire location equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parachutes, military parametric technical databases, military scenario simulation equipment, military training aircraft, military training equipment, software for attack alerting/warning equipment, software for countermeasure equipment for military cameras/photographic equipment, software for countermeasure equipment for military image intensifier equipment, software for countermeasure equipment for military image recording/processing equipment, software for countermeasure equipment for military imaging radar sensor equipment, software for countermeasure equipment for military infrared/thermal imaging equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military cameras/photographic equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military training aircraft, Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for countermeasure equipment for military imaging radar sensor equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for targeting equipment, technology for weapon control equipment, test models for military training aircraft,

		unfinished products for military training aircraft, weapon control equipment [See footnote 43]
35	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns
36	P	aircraft military communications equipment, body armour, bomb suits, components for body armour, components for combat aircraft, components for combat naval vessels, components for decoying/countermeasure equipment, components for ground vehicle military communications equipment, components for launching/handling/control equipment for missiles, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval engines, components for naval gun installations/mountings, components for periscopes, components for tanks, components for turrets, general military aircraft components, general military vehicle components, general naval vessel components, ground vehicle military communications equipment, military aero-engines, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military helmets, military parachutes and equipment, military paragliders, military radars, periscopes, rangefinding equipment, targeting equipment, turrets, weapon control equipment

accessories for military image intensifier equipment (3 licences) [See footnotes 30, 41].
accessories for military infrared/thermal imaging equipment (3 licences) [See footnotes 30, 41].
aircraft military communications equipment [See footnote 38].
assault rifles (5 licences) [See footnotes 15, 25, 30, 41].
attack alerting/warning equipment [See footnote 38].
blank/inert ammunition (3 licences) [See footnotes 30, 41].
body armour (5 licences) [See footnotes 15, 25, 30, 41].
combat aircraft.
combat shotguns [See footnote 25].
components for assault rifles (5 licences) [See footnotes 15, 25, 30, 41].
components for attack alerting/warning equipment [See footnote 38].
components for blank/inert ammunition (3 licences) [See footnotes 30, 41].
components for body armour (6 licences) [See footnotes 15, 25, 30, 31, 41].
components for combat aircraft (2 licences) [See footnote 38].
components for combat shotguns [See footnote 25].
components for crowd control ammunition (3 licences) [See footnotes 30, 41].
components for flash suppressers [See footnote 25].
components for flash suppressors (3 licences) [See footnotes 30, 41].
components for gun mountings (4 licences) [See footnotes 25, 30, 41].
components for gun silencers (4 licences) [See footnotes 25, 30, 41].
components for military aero-engines (2 licences) [See footnote 38].
components for military helicopters.
components for military helmets (4 licences) [See footnotes 25, 30, 41].
components for military image intensifier equipment (4 licences) [See footnotes 25, 30, 41].
components for military infrared/thermal imaging equipment (3 licences) [See footnotes 30, 41].
components for military radars [See footnote 38].
components for military shotguns (3 licences) [See footnotes 30, 41].
components for military support aircraft.
components for military training aircraft.
components for pistols (4 licences) [See footnotes 25, 30, 41].
components for rifles (5 licences) [See footnotes 25, 30, 31, 41].
components for small arms ammunition (4 licences) [See footnotes 25, 30, 41].
components for smoke/pyrotechnic ammunition (3 licences) [See footnotes 30, 41].
components for smooth-bore weapons (4 licences) [See footnotes 25, 30, 41].
components for sniper rifles (5 licences) [See footnotes 15, 25, 30, 41].
components for sporting guns (4 licences) [See footnotes 25, 30, 41].
components for sporting shotgun ammunition (4 licences) [See footnotes 25, 30, 41].
components for sporting shotguns (4 licences) [See footnotes 25, 30, 41].
components for tactical shotguns (3 licences) [See footnotes 30, 41].
components for tear gas/irritant ammunition (3 licences) [See footnotes 30, 41].
components for weapon night sights (4 licences) [See footnotes 25, 30, 41].
components for weapon sights (4 licences) [See footnotes 25, 30, 41].
crowd control ammunition (3 licences) [See footnotes 30, 41].
electronic warfare equipment [See footnote 38].
flash suppressers [See footnote 25].
flash suppressors (3 licences) [See footnotes 30, 41].
general military aircraft components (2 licences) [See footnote 38].
gun mountings (4 licences) [See footnotes 25, 30, 41].
gun silencers (4 licences) [See footnotes 25, 30, 41].
military aero-engines (2 licences) [See footnote 38].
military aircraft ground equipment.
military aircrew safety equipment.
military communications equipment [See footnote 38].
military electronic equipment [See footnote 38].
military guidance/navigation equipment [See footnote 38].
military helicopters.
military helmets (5 licences) [See footnotes 15, 25, 30, 41].
military image intensifier equipment (5 licences) [See footnotes 25, 30, 31, 41].
military imaging radar sensor equipment [See footnote 38].
military infrared/thermal imaging equipment (4 licences) [See footnotes 25, 30, 41].
military radars [See footnote 38].
military shotguns (3 licences) [See footnotes 30, 41].
military support aircraft.
military training aircraft.
pistols (4 licences) [See footnotes 25, 30, 41].
promoting the supply of acoustic devices for riot control [See footnote 28].

promoting the supply of assault rifles (2 licences) [See footnotes 28, 29].
promoting the supply of body armour [See footnote 28].
promoting the supply of combat aircraft [See footnote 38].
promoting the supply of components for assault rifles (2 licences) [See footnotes 28, 29].
promoting the supply of components for body armour [See footnote 28].
promoting the supply of components for flash suppressers (2 licences) [See footnotes 28, 29].
promoting the supply of components for ground vehicle military communications equipment [See footnote 28].
promoting the supply of components for gun mountings (2 licences) [See footnotes 28, 29].
promoting the supply of components for military communications equipment [See footnote 28].
promoting the supply of components for military image intensifier equipment [See footnote 28].
promoting the supply of components for military infrared/thermal imaging equipment [See footnote 28].
promoting the supply of components for military shotguns (2 licences) [See footnotes 28, 29].
promoting the supply of components for naval communications equipment [See footnote 28].
promoting the supply of components for pistols (2 licences) [See footnotes 28, 29].
promoting the supply of components for rifles (2 licences) [See footnotes 28, 29].
promoting the supply of components for small arms ammunition (2 licences) [See footnotes 28, 29].
promoting the supply of components for smooth-bore weapons (2 licences) [See footnotes 28, 29].
promoting the supply of components for sniper rifles (2 licences) [See footnotes 28, 29].
promoting the supply of components for sporting guns (2 licences) [See footnotes 28, 29].
promoting the supply of components for sporting shotguns (2 licences) [See footnotes 28, 29].
promoting the supply of components for tactical shotguns (2 licences) [See footnotes 28, 29].
promoting the supply of components for weapon night sights (2 licences) [See footnotes 28, 29].
promoting the supply of components for weapon sights (2 licences) [See footnotes 28, 29].
promoting the supply of flash suppressers (2 licences) [See footnotes 28, 29].
promoting the supply of ground vehicle military communications equipment [See footnote 28].
promoting the supply of gun mountings (2 licences) [See footnotes 28, 29].
promoting the supply of military communications equipment [See footnote 28].
promoting the supply of military helmets [See footnote 28].
promoting the supply of military image intensifier equipment [See footnote 28].
promoting the supply of military infrared/thermal imaging equipment [See footnote 28].
promoting the supply of military shotguns (2 licences) [See footnotes 28, 29].
promoting the supply of naval communications equipment [See footnote 28].
promoting the supply of pistols (2 licences) [See footnotes 28, 29].
promoting the supply of rifles (3 licences) [See footnotes 14, 28, 29].
promoting the supply of small arms ammunition (2 licences) [See footnotes 28, 29].
promoting the supply of smooth-bore weapons (2 licences) [See footnotes 28, 29].
promoting the supply of sniper rifles (2 licences) [See footnotes 28, 29].
promoting the supply of sporting guns (3 licences) [See footnotes 14, 28, 29].
promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 28, 29].
promoting the supply of sporting shotguns (2 licences) [See footnotes 28, 29].
promoting the supply of tactical shotguns (2 licences) [See footnotes 28, 29].
promoting the supply of weapon night sights (2 licences) [See footnotes 28, 29].
promoting the supply of weapon sights (2 licences) [See footnotes 28, 29].
rifles (5 licences) [See footnotes 25, 30, 31, 41].
small arms ammunition (6 licences) [See footnotes 15, 25, 30, 31, 41].
smoke/pyrotechnic ammunition (3 licences) [See footnotes 30, 41].
smooth-bore weapons (5 licences) [See footnotes 25, 30, 31, 41].
sniper rifles (5 licences) [See footnotes 15, 25, 30, 41].
sporting guns (4 licences) [See footnotes 25, 30, 41].
sporting shotgun ammunition (4 licences) [See footnotes 25, 30, 41].
sporting shotguns (4 licences) [See footnotes 25, 30, 41].
tactical shotguns (3 licences) [See footnotes 30, 41].
tear gas/irritant ammunition (3 licences) [See footnotes 30, 41].
weapon cleaning equipment [See footnote 15].
weapon night sights (4 licences) [See footnotes 25, 30, 41].
weapon sights (5 licences) [See footnotes 15, 25, 30, 41].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	147	£11,129,089
Non-military	64	£2,951,753
Both Military and Non-military	3	£315,730
Total	214	£14,396,573

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where

the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	40	£923,755
ML3	9	£854,586
ML4	11	£2,284,451
ML5	2	£683
ML6	1	£1,750,000
ML8	2	£41,040
ML9	10	£164,848
ML10	58	£3,285,267
ML11	12	£254,453
ML13	2	£5,500
ML14	2	£56,280
ML15	2	£1,297,090
ML17	1	£145,793
ML18	2	£23,287
ML21	2	£16,549
ML22	5	£21,853
PL5001	2	£2,425
PL5017	4	£1,230

- T aerial target equipment.
anti-riot/ballistic shields (2 licences).
assault rifles (1).
assault rifles (2).
body armour [See footnote 43].
bomb suits.
components for aerial target equipment.
- T components for aerial target equipment.
components for assault rifles.
components for body armour [See footnote 43].
components for combat aircraft (7 licences) [See footnotes 34, 35].
components for combat naval vessels.
- T components for electronic countermeasure equipment.
- T components for electronic warfare equipment.
components for military aero-engines (6 licences) [See footnote 37].
components for military aircraft head-up/down displays (3 licences).
components for military communications equipment.
components for military helicopters (13 licences) [See footnotes 32, 33].
components for military image recording/processing equipment.
components for military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences).
- T components for military scenario simulation equipment.
components for military support aircraft (13 licences) [See footnotes 22, 38].
components for military training aircraft.
- T components for military training aircraft.
components for mortar bombs.
components for munitions/ordnance detection/disposal equipment (2 licences).
components for naval engines.
components for small arms ammunition (3 licences).
components for sniper rifles (3 licences).
components for sporting guns (17 licences) [See footnotes 15, 17, 18, 21, 26, 29, 30].
components for tanks.

T decoying/countermeasure equipment (2 licences).
 T electronic countermeasure equipment.
 T electronic warfare equipment (2 licences).
 T electronic warfare equipment (2 licences).
 equipment for the operation of military aircraft in confined areas.
 equipment for the production of assault rifles [See footnote 8].
 equipment for the production of small arms ammunition.
 T equipment for the use of aerial target equipment.
 equipment for the use of military aero-engines.
 equipment for the use of military equipment for initiating explosives.
 flash suppressers.
 general military aircraft components (9 licences) [See footnotes 34, 39].
 general naval vessel components (8 licences) [See footnote 36].
 gun mountings (3 licences) [See footnotes 17, 18, 21].
 gun silencers.
 launching/handling/control equipment for missiles [See footnote 24].
 military aero-engines (2 licences) [See footnote 7].
 military aircraft head-up/down displays.
 military aircrew life support equipment (2 licences).
 military aircrew safety equipment.
 military communications equipment.
 military equipment for initiating explosives (2 licences).
 military guidance/navigation equipment (5 licences).
 military helmets (2 licences) [See footnote 43].
 military image intensifier equipment.
 military image recording/processing equipment.
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 T military scenario simulation equipment.
 T military training aircraft.
 munitions/ordnance detection/disposal equipment (2 licences).
 precursors for energetic materials.
 pyrotechnics/fuels and related substances.
 signature suppression fittings/coatings/treatments for military use.
 small arms ammunition (7 licences) [See footnotes 14, 42].
 sniper rifles (1) [See footnote 25].
 sniper rifles (50).
 sniper rifles (80).
 sniper rifles.
 software for equipment for the use of attack alerting/warning equipment.
 software for military image recording/processing equipment.
 sporting guns (1) (28 licences) [See footnotes 15, 17, 18, 20, 21, 26, 27, 28, 29, 30, 31, 44].
 targeting equipment.
 T technology for aerial target equipment.
 T technology for electronic countermeasure equipment.
 T technology for equipment for the use of aerial target equipment.
 technology for equipment for the use of attack alerting/warning equipment.
 technology for military aero-engines.
 technology for military image recording/processing equipment.
 T technology for military scenario simulation equipment.
 T technology for military training aircraft.
 technology for tanks.
 training small arms ammunition.
 weapon cleaning equipment [See footnote 21].
 weapon sight mounts [See footnote 18].
 weapon sights (13 licences) [See footnotes 15, 16, 19, 6].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£342
1A004	3	£83,200
1A007	1	£34,750
1C350	1	£21,420
2B350	5	£6,619
2B352	1	£145,492
2D351	1	£31

5A001	3	£722,559
5A002	3	£3,681
5D001	1	£300
5E001	1	£100
5E002	2	£3,030

6A002	2	£16,091
6A003	2	£9,400
End Use	38	£1,882,068
PL8001	1	£3,500
PL9010	1	£14,571

- accessories for machine tools (4 licences).
- biotechnology equipment.
- chemicals used for general laboratory work/scientific research.
- chemicals used for industrial/commercial processes (2 licences).
- chemicals used for pharmaceutical/healthcare production.
- civil explosive detection/identification equipment (3 licences).
- civil NBC protection equipment.
- components for corrosion resistant chemical manufacturing equipment.
- A components for electronic measurement/test equipment.
- components for general laboratory equipment.
- components for industrial generators (3 licences).
- components for materials processing equipment.
- components for pumps.
- components for submarines.
- components for telecommunications interception equipment.
- corrosion resistant chemical manufacturing equipment (5 licences) [See footnote 1].
- T counter-improvised explosive device equipment (2 licences).
- deuterium compounds.
- T devices for initiating explosives.
- direct view imaging equipment (2 licences).
- electrical switching equipment.
- A electronic measurement/test equipment (2 licences).
- ferrous metals.
- filtration equipment (2 licences).
- flow measurement equipment.
- gas detection equipment.
- A general laboratory equipment (4 licences).
- global positioning satellite receivers.
- imaging cameras (2 licences).
- A industrial generators (2 licences).
- information security equipment (3 licences).
- lubricants.
- marine acoustic projectors.
- materials testing equipment.
- non-military detonators [See footnote 9].
- power supplies (2 licences).
- pressure transducers.
- software for telecommunications interception equipment.
- software for toxic gas monitoring equipment.
- spectrophotometers.
- sporting shotguns (7).
- technology for information security equipment (2 licences).
- technology for telecommunications interception equipment.
- telecommunications interception equipment.
- temperature measurement equipment.
- transducers.
- valves (2 licences).
- workshop tools.

A - Some or all of which were issued on appeal.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	3	£225,320
ML1	1	£8,790
ML4	1	£11,620
ML5	1	£70,000

- T imaging cameras.
T imaging cameras (2 licences) [See footnote 5].
munitions/ordnance detection/disposal equipment.
T targeting equipment.
T weapon night sights [See footnote 5].

Refused

	Count
Military	2
Non-military	86
Total	88

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML1	2
ML22	2

- components for sniper rifles (2 licences).
gun silencers (2 licences).
sniper rifles (20).
sniper rifles (32).
technology for sniper rifles (2 licences).
weapon sights (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry
6A003	1
End Use	85

- accessories for electrical connectors.
accessories for electron microscopes (2 licences).
accessories for machine tools.
accessories for process control equipment.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	13	£2,900,589
Non-military	11	£24,304,478
Both Military and Non-military	2	£699,400
Total	26	£27,904,467

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£150,000
ML6	1	£100,000
ML11	6	£2,437,449
ML13	4	£71,890
ML15	1	£125,000
ML17	2	£16,030
ML22	2	£219

body armour (4 licences).
 components for body armour (3 licences).
 components for military communications equipment (3 licences).
 components for military guidance/navigation equipment.
 electronic warfare equipment.
 equipment for the use of military communications equipment (2 licences).
 goods treated for signature suppression for military use (2 licences).
 military combat vehicles.
 military communications equipment (3 licences).
 military helmets (2 licences).
 T military infrared/thermal imaging equipment.
 small arms ammunition.
 technology for military communications equipment.
 technology for military guidance/navigation equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£20,150
1C351	2	£600
5A002	7	£24,123,728
5D002	1	£60,000
6A003	1	£100,000

T bacteria (2 licences).
civil explosive detection/identification equipment.
imaging cameras.
information security equipment (7 licences).
software for information security equipment.

- components for sniper rifles (3 licences).
- T components for sniper rifles.
- components for sporting guns (3 licences).
- T components for unmanned air vehicles.
- T components for weapon sights.
- electronic warfare equipment.
- equipment for the use of aircraft military communications equipment (3 licences).
- T equipment for the use of weapon night sights.
- general military vehicle components (6 licences).
- gun mountings.
- gun silencers.
- inert CS hand grenades.
- inert hand grenades.
- military aero-engines.
- military guidance/navigation equipment.
- T military guidance/navigation equipment.
- military helmets (2 licences).
- military image intensifier equipment (2 licences).
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- military laser protection equipment.
- military support vehicles (3 licences).
- military trailers (2 licences).
- NBC protective/defensive equipment (2 licences).
- periscopes.
- pistols (1) (2 licences).
- projectile launchers.
- T rangefinding equipment.
- signature suppression fittings/coatings/treatments for military use (3 licences).
- small arms ammunition (8 licences).
- sniper rifles (1) (5 licences).
- T sniper rifles (3).
- sniper rifles (6).
- software for military guidance/navigation equipment (2 licences).
- sporting guns (1) (6 licences).
- sporting guns (2).
- sporting guns (3).
- sporting guns (5).
- technology for military guidance/navigation equipment.
- technology for sniper rifles.
- technology for weapon night sights.
- training small arms ammunition (7 licences).
- weapon night sights (4 licences).
- T weapon night sights.
- weapon sights (2 licences).
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	1	£0
1A007	1	£44,000
3A231	1	£778,438
6A001	1	£200,000
PL9010	3	£214,500

- T components for sporting shotguns.
 components for sporting shotguns (2 licences).
 neutron generators.
 non-military detonators.
 sporting shotguns (1).
 technology for nuclear reactors.
- T towed hydrophone arrays.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	20	£2,853,583
Total	20	£2,853,583

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£1,192
ML5	6	£114,095
ML10	12	£2,477,497
ML16	1	£260,800

aircraft military communications equipment.
 components for aircraft military communications equipment.
 components for launching/handling/control equipment for missiles.
 components for military aero-engines (5 licences).
 components for military helicopters.
 components for military support aircraft (2 licences).
 components for military training aircraft (2 licences).
 components for recognition/identification equipment (6 licences).
 unfinished products for military helicopters.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Australia
 Brazil
 Canada
 Czech Republic
 Greece
 Iraq

Israel
 Italy
 Mexico
 Morocco
 Netherlands
 New Zealand

 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology

		for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
3	P	goods treated for signature suppression for military use [See footnote 2]
4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]

6	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 4]
7	P	sporting shotgun ammunition [See footnote 5]
8	T	inertial equipment [See footnote 6]
9	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
10	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 7]
11	P	machine guns [See footnote 8]
12	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
13	P	components for weapon sights, weapon sights
14	P	components for sporting guns [See footnote 9]
15	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the

		use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
16	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 10]
17	T	towed hydrophone arrays
18	P	direct view imaging equipment, imaging cameras, targeting equipment
19	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 11]
20	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 12]
21	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
22	P	technology for NBC detection equipment [See footnote 13]
23	P	components for combat aircraft
24	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of

		software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
25	P	components for military support aircraft [See footnote 14]
26	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 17]
27	P	components for military support aircraft [See footnote 15]
28	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 16]

29	P	components for sporting guns
30	P	components for body armour, components for military aircrew safety equipment, equipment for the production of body armour, equipment for the production of goods treated for signature suppression for military use, equipment for the production of military aircrew safety equipment, goods treated for signature suppression for military use, technology for body armour, technology for goods treated for signature suppression for military use, technology for military aircrew safety equipment
31	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment
32	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 18]
33	T	towed hydrophone arrays

3	P	goods treated for signature suppression for military use [See footnote 2]
4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 3]
6	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 4]
7	P	sporting shotgun ammunition [See footnote 5]

8	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 6]
9	T	inertial equipment [See footnote 7]
10	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 8]
11	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
12	P	components for weapon sights, weapon sights
13	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of

		military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
14	T	towed hydrophone arrays
15	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 9]
16	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
17	P	technology for NBC detection equipment [See footnote 10]
18	P	technology for space launch vehicles
19	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
20	P	components for military support aircraft [See footnote 11]
21	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the

		operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 15]
22	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
23	P	components for military support aircraft [See footnote 12]
24	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 13]
25	P	components for sporting guns
26	P	components for military support aircraft, equipment for the production of military support aircraft, technology for military support aircraft, unfinished products for military support aircraft [See footnote 14]

Puerto Rico

Processing Statistics (excluding amendments)

Median processing time SIELs	6 days
% and number of SIELs completed in 20 working days	88% (7)
% and number of SIELs completed in 60 working days	100% (8)
% [as a % of all SIEL cases processed] and number of SIELs refused	0% (0)

Median processing time OIELs	79 days
% and number of OIELs completed in 20 working days	13% (1)
% and number of OIELs completed in 60 working days	38% (3)
% [as a % of all OIELs cases processed] and number of OIELs refused	0% (0)

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	5	£320,001
Total	5	£320,001

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£36,022
3A225	1	£612
5A002	2	£283,368

civil explosive detection/identification equipment (2 licences).
 frequency changers.
 information security equipment (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]
2	T	towed hydrophone arrays [See footnote 2]

3	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 3]
4	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 4]
5	P	magnetometers
6	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
7	P	information security equipment, information security software [See footnote 5]

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for sporting / hunting purposes. Personal end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	30	£8,636,652
Non-military	86	£8,240,071
Both Military and Non-military	5	£4,186,980
Total	121	£21,063,703

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	6	£175,806
ML3	3	£4,026
ML4	2	£97,700
ML5	2	£162,096
ML6	2	£63,783
ML7	2	£2,721
ML10	6	£132,287
ML11	9	£7,282,111
ML13	1	£11,500
ML15	1	£324,620
ML21	1	£1
ML22	1	£380,000

assault rifles (1).
 body armour.
 components for assault rifles.
 components for body armour.
 components for combat aircraft (2 licences).
 components for electronic warfare equipment.
 components for general military vehicle components.
 components for machine guns [See footnote 26].
 components for military electronic equipment (5 licences).
 components for military helicopters (3 licences).
 components for NBC detection equipment (2 licences).
 components for sniper rifles.
 components for sporting guns.

- components for turrets.
- components for weapon control equipment.
- electronic warfare equipment.
- equipment for the use of aircraft military communications equipment (2 licences).
- T equipment for the use of weapon night sights [See footnote 34].
- general military vehicle components.
- gun silencers.
- inert illuminators [See footnote 12].
- launching/handling/control equipment for missiles.
- military communications equipment.
- T military guidance/navigation equipment [See footnote 34].
- military helmets.
- T military image intensifier equipment [See footnote 34].
- T military infrared/thermal imaging equipment [See footnote 34].
- military parachutes and equipment.
- T rangefinding equipment [See footnote 34].
- small arms ammunition (2 licences).
- sniper rifles (2).
- T Software for modelling/simulating military operation scenarios.
- sporting guns (1).
- T sporting shotgun ammunition [See footnote 8].
- targeting equipment [See footnote 34].
- technology for electronic warfare equipment.
- technology for general military vehicle components.
- T weapon night sights [See footnote 34].
- weapon sights (2 licences).
- T weapon sights [See footnote 34].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	3	£841
1A004	2	£24,127
1C001	1	£1,766
1C011	1	£122
1C350	1	£29
1C450	1	£8
2B350	14	£41,264
2B351	1	£1,126
2B352	1	£1,519
5A002	49	£3,737,178
5D002	14	£783,737
5E002	4	£525,134
6A001	1	£1,520,000
6A003	2	£500,000
8A001	1	£566,284
8A002	2	£163,684
PL9010	1	£373,253

- biotechnology equipment.
- chemicals used for chemical/materials production.
- chemicals used for general laboratory work/scientific research.
- T civil explosive detection/identification equipment.
- civil NBC detection systems.
- constituents of propellants.
- corrosion resistant chemical manufacturing equipment (14 licences).
- deuterium compounds (3 licences).
- electromagnetic wave absorbing materials.
- T imaging cameras (2 licences) [See footnote 16].
- information security equipment (50 licences) [See footnotes 4, 7].
- information security software (10 licences) [See footnote 24].
- software for information security equipment (3 licences) [See footnote 4].
- sporting shotguns (6).
- submersible equipment (2 licences).
- submersible vehicles.

technology for information security equipment (4 licences).
 towed hydrophone arrays.
 toxic gas detectors [See footnote 3].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	3	£1,245,110
6A003	2	£91,040
6A008	1	£54,000
ML1	3	£417,990
ML4	1	£381,744
ML5	1	£120,000
ML8	1	£1,425,388
ML11	1	£31,864
ML21	1	£3,000
ML22	1	£100
PL5017	1	£17,760
PL9002	1	£398,983

- T components for military equipment for initiating explosives [See footnote 15].
- T components for radar equipment.
- T direct view imaging equipment (3 licences) [See footnotes 13, 18].
- T equipment for the use of military equipment for initiating explosives [See footnote 15].
- T equipment for the use of weapon sights [See footnote 13].
- T explosives [See footnote 15].
- T illuminators [See footnote 15].
- T imaging cameras (2 licences) [See footnote 13].
- T military equipment for initiating explosives [See footnote 15].
- T non-military energetic materials [See footnote 15].
- T software for military radars.
- T targeting equipment.
- T technology for military radars.
- T weapon night sights (3 licences) [See footnotes 13, 18].
- T weapon sight mounts [See footnote 13].

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£150
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£150

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
---------------	--	-------

HR AIII	1	£150
---------	---	------

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation

		equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
3	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 5]

1	T	towed hydrophone arrays

SITCLs

Source	Issued	Refused	Revoked
United States of America	1	0	0

Issued

military equipment for initiating explosives.

Country Footnotes

1. Restrictions currently in force with respect to Guinea (Conakry) are set out in Council Decision 2010/638/CFSP, as amended; these include an embargo on the provision of arms and related material, as well as of equipment that might be used for internal repression as specified in Annex I to Council Regulation (EU) No 1284/2009, as amended, with exemptions for certain humanitarian, protective and UN or EU end uses. Amendments to Council Decision 2010/638/CFSP in 2011 and 2012 introduces further exemptions for the supply of non-lethal equipment to be used for maintaining public order by the police and gendarmerie in Guinea, for the return of non-combat helicopters to Guinea, and for the provision of explosives and related equipment intended solely for civilian use in mining and infrastructure investments. In April 2014, Council Decision 2014/213/CFSP, as amended, lifted the arms embargo though measures against individuals remain in place.

All exports for this destination were approved in accordance with the sanctions in place.

T accessories for materials testing equipment.
acoustic seabed survey equipment [See footnote 24].
beryllium manufactures.
biotechnology equipment (3 licences).
chemicals.
chemicals used for pharmaceutical/healthcare production (4 licences).

- T civil explosive detection/identification equipment (2 licences).
- civil explosive detection/identification equipment.
- components for biotechnology equipment (8 licences).
- components for breathing apparatus.
- components for industrial handling equipment.
- components for information security equipment.
- components for materials testing equipment.
- components for semiconductor manufacturing equipment (2 licences) [See footnote 14].
- components for telecommunications equipment.
- corrosion resistant chemical manufacturing equipment (4 licences) [See footnotes 13, 22].
- devices containing enriched lithium compounds [See footnote 28].
- devices containing helium-3.
- dimensional inspection equipment.
- electronics cooling fluids (3 licences) [See footnote 30].
- graphite materials.
- imaging cameras (8 licences) [See footnotes 23, 5].
- inertial equipment (29 licences) [See footnotes 1, 10, 11, 16, 2, 21, 3, 7, 9].
- information security equipment (49 licences) [See footnotes 15, 17].
- T information security equipment.
- information security software (2 licences).
- instrumentation cameras (4 licences).
- machine tools.
- magnetometers [See footnote 20].
- marine position fixing equipment (2 licences) [See footnotes 29, 6].
- materials testing equipment.
- metalloid materials.
- microwave components [See footnote 4].
- natural uranium (2 licences) [See footnotes 26, 27].
- non-ferrous metals.
- oil and gas industry equipment/materials (125 licences).
- T oil and gas industry equipment/materials.
- pathogenic genetic elements.
- polymer materials.
- pressure transducers (2 licences) [See footnote 18].
- products containing enriched lithium [See footnote 28].
- radiation hardened TV camera lenses (2 licences).
- semiconductor manufacturing equipment.
- semiconductor wafers with epitaxial layers.
- software for information security equipment (4 licences).
- software for materials testing equipment.
- sporting shotguns (1).
- submersible equipment (2 licences) [See footnotes 12, 8].
- T submersible equipment.
- T submersible vehicles.
- technology for information security equipment (2 licences).
- technology for metal alloy tubes.
- tungsten materials.
- viruses (5 licences) [See footnote 25].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	1	£1,120
Total	1	£1,120

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
End Use	1	£1,120

electronic components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Canada

SIELs - Transshipment

Issued

Types of goods on licence	No. of licences	Value
Non-military	5	£17,102,824
Total	5	£17,102,824

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'). As the items covered by issued SITLs merely pass through the UK, it would be misleading to compare the 'value' for these licences with the value of items originating in the UK.:

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	5	£17,102,824

extended temperature range integrated circuits (3 licences).
radiation hardened integrated circuits (4 licences).

Country Footnotes

- Decision 2014/512/CFSP, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

2. Council Decision 2014/512/CFSP, as amended and Council Regulation (EU) No 833/2014, as amended, imposes a number of sectoral sanctions against Russian entities. These include restrictions on the supply of arms and military equipment, on dual use items for military use, ban on the supply of equipment and services to Russian deep water, Arctic and shale oil exploration and production projects, and a ban on Russian access to certain EU financial instruments and services.

All exports for this destination were approved in accordance with the sanctions in place.

3. The Russia (Sanctions) (EU Exit) Regulations 2019 which came fully into force on 31 December 2020, impose trade sanctions prohibitions and requirements, which apply to military goods and technology, dual use goods and technology and energy-related goods. It also imposes a prohibition on the provision of military-related services, as well as other prohibitions on the import of goods from Crimea or Sevastopol, the export of goods related to infrastructure to, or for use in, Crimea or Sevastopol, and the provision of services related to infrastructure and tourism. There are also measures that curtail Russian access to certain specified energy-related equipment and services.

The Regulations makes provision in respect of exceptions that apply and licences that may be available, in respect of prohibitions under this regime.

All licences for this destination were approved in accordance with the sanctions in place.

Issued

promoting the supply of airborne refuelling equipment [See footnote 2].
 promoting the supply of aircraft cannons [See footnote 2].
 promoting the supply of aircraft military communications equipment [See footnote 2].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 2].
 promoting the supply of anti-aircraft guns [See footnote 2].
 promoting the supply of anti-armour ammunition [See footnote 2].
 promoting the supply of anti-armour weapons [See footnote 2].
 promoting the supply of anti-riot/ballistic shields [See footnote 2].
 promoting the supply of artillery [See footnote 2].
 promoting the supply of assault rifles [See footnote 2].
 promoting the supply of attack alerting/warning equipment [See footnote 2].
 promoting the supply of body armour [See footnote 2].
 promoting the supply of caseless ammunition weapons [See footnote 2].
 promoting the supply of combat helicopters [See footnote 2].
 promoting the supply of combat shotguns [See footnote 2].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 2].
 promoting the supply of components for assault rifles [See footnote 2].
 promoting the supply of components for body armour [See footnote 2].
 promoting the supply of components for combat shotguns [See footnote 2].
 promoting the supply of components for machine guns [See footnote 2].
 promoting the supply of components for pistols [See footnote 2].
 promoting the supply of components for rifles [See footnote 2].
 promoting the supply of components for smooth-bore weapons [See footnote 2].
 promoting the supply of components for sniper rifles [See footnote 2].
 promoting the supply of components for sporting guns [See footnote 2].
 promoting the supply of components for sporting shotguns [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 2].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 2].
 promoting the supply of CS hand grenades [See footnote 2].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 2].
 promoting the supply of electronic countermeasure equipment [See footnote 2].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 2].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 2].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 2].
 promoting the supply of equipment for the use of anti-armour weapons [See footnote 2].

promoting the supply of equipment for the use of artillery [See footnote 2].
promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].
promoting the supply of equipment for the use of weapon night sights [See footnote 2].
promoting the supply of equipment for the use of weapon sights [See footnote 2].
promoting the supply of fire location equipment [See footnote 2].
promoting the supply of flash suppressers [See footnote 2].
promoting the supply of fuze setting devices [See footnote 2].
promoting the supply of general military aircraft components [See footnote 2].
promoting the supply of grenade launchers [See footnote 2].
promoting the supply of gun mountings [See footnote 2].
promoting the supply of gun silencers [See footnote 2].
promoting the supply of hand grenades [See footnote 2].
promoting the supply of heavy machine guns [See footnote 2].
promoting the supply of illuminators [See footnote 2].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].
promoting the supply of machine guns [See footnote 2].
promoting the supply of military aero-engines [See footnote 2].
promoting the supply of military aircraft ground equipment [See footnote 2].
promoting the supply of military aircraft head-up/down displays [See footnote 2].
promoting the supply of military aircraft pressure refuellers [See footnote 2].
promoting the supply of military aircrew life support equipment [See footnote 2].
promoting the supply of military aircrew safety equipment [See footnote 2].
promoting the supply of military cameras/photographic equipment [See footnote 2].
promoting the supply of military combat vehicles [See footnote 2].
promoting the supply of military helmets [See footnote 2].
promoting the supply of military image intensifier equipment [See footnote 2].
promoting the supply of military image recording/processing equipment [See footnote 2].
promoting the supply of military imaging radar sensor equipment [See footnote 2].
promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of military radars [See footnote 2].
promoting the supply of military support vehicles [See footnote 2].
promoting the supply of mortars [See footnote 2].
promoting the supply of periscopes [See footnote 2].
promoting the supply of pistols [See footnote 2].
promoting the supply of projectile launchers [See footnote 2].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
promoting the supply of rangefinding equipment [See footnote 2].
promoting the supply of recognition/identification equipment [See footnote 2].
promoting the supply of rifles [See footnote 2].
promoting the supply of sensor integration equipment [See footnote 2].
promoting the supply of signalling devices [See footnote 2].
promoting the supply of small arms ammunition [See footnote 2].

promoting the supply of smoke canisters [See footnote 2].
 promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Armed forces end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. End use by the Air Force.

air-to-air missiles [See footnote 25].
 anti-riot/ballistic shields (3 licences) [See footnote 39].
 attack alerting/warning equipment (2 licences).
 body armour (12 licences) [See footnotes 27, 39, 48, 7].
 bomb suits (2 licences).
 combat aircraft [See footnote 19].
 command communications control and intelligence software.
 components for ballistic test equipment.
 components for body armour (7 licences) [See footnotes 27, 39, 48, 7].
 components for bomb suits.
 components for bombs (2 licences) [See footnote 42].
 components for combat aircraft (8 licences) [See footnotes 13, 19, 6, 65, 67].
 components for combat naval vessels (7 licences) [See footnotes 40, 41, 83].
 components for constructions for ballistic protection of military systems.
 components for decoying/countermeasure equipment.
 components for launching/handling/control equipment for munitions (2 licences) [See footnotes 58, 84].
 components for military aero-engines (3 licences) [See footnote 55].
 components for military aircraft ground equipment (6 licences) [See footnotes 1, 89].
 components for military aircraft head-up/down displays (3 licences) [See footnote 43].
 components for military communications equipment (2 licences).
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 components for military infrared/thermal imaging equipment (2 licences).
 components for military support aircraft (2 licences) [See footnote 68].
 components for military training aircraft (3 licences) [See footnotes 13, 43, 66].
 components for military training equipment (2 licences).
 components for munitions/ordnance detection/disposal equipment (2 licences).
 T components for NBC detection equipment.
 components for projectile launchers [See footnote 44].
 components for sniper rifles (3 licences) [See footnotes 47, 49, 90].
 constructions for ballistic protection of military systems (2 licences).
 decoying/countermeasure equipment.
 demolition charges/devices [See footnote 63].
 T electronic warfare equipment.
 T equipment for the operation of military aircraft in confined areas [See footnote 37].
 equipment for the use of aircraft military communications equipment.
 T equipment for the use of aircraft missile protection systems (2 licences) [See footnote 79].
 T equipment for the use of attack alerting/warning equipment (2 licences) [See footnote 79].
 T equipment for the use of equipment for the operation of military aircraft in confined areas [See footnote 37].
 equipment for the use of military communications equipment.
 equipment for the use of sniper rifles [See footnote 47].
 general military aircraft components (5 licences) [See footnotes 69, 70].
 general military vehicle components.
 general naval vessel components (2 licences).
 goods treated for signature suppression for military use.
 gun mountings (2 licences) [See footnotes 47, 49].
 hand grenades (2 licences) [See footnotes 60, 86].

	military aircraft ground equipment (5 licences) [See footnotes 14, 32].
	military aircrew safety equipment.
	military communications equipment (4 licences).
	military diving apparatus.
	military equipment for initiating explosives.
	military guidance/navigation equipment (2 licences).
	military helmets (12 licences) [See footnotes 27, 39].
	military improvised explosive device decoying/detection/disposal/jamming equipment (4 licences).

	biotechnology equipment (2 licences).
	bismuth.
	calcium (2 licences).
	chemicals used for industrial/commercial processes (2 licences).
	civil explosive detection/identification equipment (13 licences).
	components for corrosion resistant chemical manufacturing equipment (5 licences).
	components for instrumentation cameras.
	compound semiconductor precursor chemicals.
	corrosion resistant chemical manufacturing equipment (65 licences).
	counter-improvised explosive device equipment.
T	counter-improvised explosive device equipment [See footnote 87].
T	deuterium compounds (9 licences) [See footnotes 28, 53, 57].
T	devices for initiating explosives [See footnote 87].
T	direct view imaging equipment (2 licences) [See footnote 85].
	direct view imaging equipment.
	electronics cooling fluids.
	explosives detection equipment.
	extended temperature range integrated circuits.
T	imaging cameras (3 licences) [See footnote 33].
	imaging cameras.
	inertial equipment.
T	information security equipment (33 licences).
	information security equipment (3 licences).
	information security software (15 licences).
	instrumentation cameras (2 licences).
	magnesium (2 licences).
	magnetometers.
	marine position fixing equipment.
	pressure transducers (2 licences).
T	signal analysers.
T	signal generators.
T	software for diver location sonars.
T	software for information security equipment (2 licences).
	software for information security equipment.
	software for RF direction finding equipment.
T	software for telecommunications interception equipment.
	software for telecommunications interception equipment.
	space qualified solar devices.
	submersible equipment.
	technology for corrosion resistant chemical manufacturing equipment (2 licences).
	technology for information security equipment (6 licences).
	technology for telecommunications interception equipment.
	telecommunications interception equipment.
T	telecommunications interception equipment (2 licences) [See footnote 88].
	telecommunications jamming equipment.
	toxins.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	5	£1,334,660
6A003	4	£177,440
ML1	2	£395,490
ML5	3	£240,000

ML15	1	£120,000
------	---	----------

- T direct view imaging equipment (5 licences) [See footnotes 23, 30].
- T imaging cameras (4 licences) [See footnote 23].
- T military infrared/thermal imaging equipment.
- T rangefinding equipment.
- T targeting equipment (2 licences).
- T weapon night sights (2 licences) [See footnotes 23, 30].

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£3,140,670
Total	2	£3,140,670

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	2	£3,140,670

- components for combat helicopters.
- components for military training aircraft.

The items being incorporated in this destination are ultimately destined for all or some of the following:

- United Kingdom
- United States of America

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£52
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£52

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£52

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military auxiliary/support vessels, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
2	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 3]
4	P	technology for imaging cameras, technology for information security equipment, technology for space qualified focal plane arrays, technology for spacecraft attitude and orbit control systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 4]
5	P	technology for focal plane arrays, technology for imaging cameras, technology for information security equipment, technology for software for spacecraft, technology for software for spacecraft attitude and orbit control systems, technology for software for spacecraft payload data handling systems, technology for spacecraft, technology for spacecraft attitude and orbit control systems, technology for spacecraft buses, technology for spacecraft command and telemetry data handling systems, technology for spacecraft payload data handling systems, technology for spacecraft payloads [See footnote 5]

6	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 8]
7	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 9]
8	P	airborne refuelling equipment, automatic piloting systems for parachuted loads, components for airborne refuelling equipment, components for automatic piloting systems for parachuted loads, components for launching/handling/control equipment for munitions, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew safety equipment, components for military parachutes, components for military training aircraft, countermeasure equipment for military infrared/thermal imaging equipment, electronic countermeasure equipment, electronic warfare equipment, environmental test facilities for military training aircraft, equipment for the production of military training aircraft, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for munitions, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military containers, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, military parachutes, military parametric technical databases, military radars, military training aircraft, software for attack alerting/warning equipment, software for electronic countermeasure equipment, software for fire location equipment, software for military communications equipment, software for military electronic equipment, software for military guidance/navigation equipment, software for military training aircraft, Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for targeting equipment, software for weapon control equipment, targeting equipment, technology for attack alerting/warning equipment, technology for countermeasure equipment for military cameras/photographic equipment, technology for countermeasure equipment for military image recording/processing equipment, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military image recording/processing equipment, technology for military scenario simulation equipment, technology for military training aircraft, technology for military training equipment, technology for production installations for military training aircraft, technology for targeting equipment, technology for weapon control equipment, test models for military training aircraft, unfinished products for military training aircraft, weapon control equipment [See footnote 36]
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support

		aircraft, technology for military training aircraft, technology for naval engines [See footnote 10]
10	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 11]
11	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 12]
12	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 15]
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 16]

14	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 18]
15	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
16	P	information security equipment [See footnote 20]
17	P	components for gun mountings, components for weapon sights, weapon sights [See footnote 21]
18	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 22]
19 (A)	P	components for launching/handling/control equipment for missiles, components for military aircraft ground equipment, components for military training equipment, equipment for the use of launching/handling/control equipment for missiles, launching/handling/control equipment for missiles, military aircraft ground equipment, military training equipment, software for air-to-air missiles, software for combat aircraft, software for launching/handling/control equipment for missiles, technology for air-to-air missiles, technology for combat aircraft, technology for launching/handling/control equipment for missiles, technology for military aircraft ground equipment, technology for military training equipment, technology for training air-to-air missiles [See footnote 62]
20	T	accessories for military image recording/processing equipment, aerial target equipment, components for accessories for military image recording/processing equipment, components for aerial target equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military guidance/navigation equipment, components for military image recording/processing equipment, components for military training aircraft, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of electronic countermeasure equipment, general military aircraft components, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military training aircraft, technology for aerial target equipment, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 24]
21	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 26]
22	P	attack alerting/warning equipment, components for military aero-engines, components for military training aircraft, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, recognition/identification equipment, software for military training aircraft, targeting equipment, technology for military training aircraft, weapon control equipment [See footnote 29]
23	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 31]

24	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 34]
25	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 35]
26	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 50]
27	P	airborne refuelling equipment, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for decoying/countermeasure equipment, components for electronic warfare equipment, components for environmental test facilities for combat aircraft, components for equipment for the production of combat aircraft, components for military aero-engines, components for military aircraft head-up/down displays, components for military cameras/photographic equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, electronic warfare equipment, environmental test facilities for combat aircraft, equipment for the production of combat aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military cameras/photographic equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military parametric technical databases, software for airborne refuelling equipment, software for attack alerting/warning equipment, software for combat aircraft, software for electronic countermeasure equipment, software for equipment for the production of combat aircraft, software for military aircraft ground equipment, software for military aircraft head-up/down displays, software for military image recording/processing equipment, software for military parametric technical databases, software for recognition/identification

		equipment, technology for airborne refuelling equipment, technology for attack alerting/warning equipment, technology for combat aircraft, technology for electronic countermeasure equipment, technology for equipment for the production of combat aircraft, technology for launching/handling/control equipment for munitions, technology for military aircraft ground equipment, technology for military aircraft head-up/down displays, technology for military image recording/processing equipment, technology for military parametric technical databases, technology for recognition/identification equipment [See footnote 51]
28	T	towed hydrophone arrays [See footnote 52]
29	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 54]
30	P	components for military support aircraft [See footnote 56]
31	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 81]
32	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy tubes, sonar log equipment, submersible equipment, syntactic foam [See footnote 61]
33	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 71]
34	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 72]
35	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic

		warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 73]
36	P	aerial target equipment, airborne refuelling equipment, aircraft cannon ammunition, aircraft cannons, aircraft military communications equipment, attack alerting/warning equipment, components for combat aircraft, components for military support aircraft, components for military training aircraft, countermeasure equipment for military image intensifier equipment, countermeasure equipment for military image recording/processing equipment, countermeasure equipment for military imaging radar sensor equipment, countermeasure equipment for military infrared/thermal imaging equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the operation of military aircraft in confined areas, equipment for the production of air launched rockets, equipment for the production of air-to-air missiles, equipment for the production of air-to-surface missiles, equipment for the production of attack alerting/warning equipment, equipment for the production of bombs, equipment for the production of combat aircraft, equipment for the production of developmental missile components, equipment for the production of electronic countermeasure equipment, equipment for the production of fire location equipment, equipment for the production of general military aircraft components, equipment for the production of launching/handling/control equipment for missiles, equipment for the production of military radars, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the production of multi-role missiles, equipment for the production of recognition/identification equipment, equipment for the production of surface launched rockets, equipment for the production of surface-to-air missiles, equipment for the production of targeting equipment, equipment for the production of torpedoes, equipment for the production of weapon control equipment, equipment for the use of air launched rockets, equipment for the use of air-to-air missiles, equipment for the use of air-to-surface missiles, equipment for the use of bombs, equipment for the use of developmental missile components, equipment for the use of fire location equipment, equipment for the use of military radars, equipment for the use of multi-role missiles, equipment for the use of surface launched rockets, equipment for the use of surface-to-air missiles, equipment for the use of torpedoes, fire location equipment, fuze setting devices, general military aircraft components, goods treated for signature suppression for military use, launching/handling/control equipment for missiles, military aero-engines, military aircraft ground equipment, military aircraft head-up/down displays, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military containers, military electronic equipment, military field generators, military guidance/navigation equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, military mobile repair shops and related equipment, military parachutes, military parachutist equipment, military parametric technical databases, military radars, military scenario simulation equipment, military training equipment, recognition/identification equipment, signature suppression fittings/coatings/treatments for military use, software for combat aircraft, software for determining the effects of weapons, software for general military aircraft components, software for military support aircraft, software for military training aircraft, software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, targeting equipment, technology for combat aircraft, technology for general military aircraft components, technology for military support aircraft, technology for military training aircraft, test models for combat aircraft, test models for general military aircraft components, test models for military support aircraft, test models for military training aircraft, unfinished products for combat aircraft, unfinished products for general military aircraft components, unfinished products for military support aircraft, unfinished products for military training aircraft, weapon control equipment, weapon mountings, weapon sights [See footnote 74]
37	P	civil explosive detection/identification equipment [See footnote 76]
38	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars [See footnote 78]
39	T	accessories for military image recording/processing equipment, aerial target equipment, components for accessories for military cameras/photographic equipment, components for aerial target equipment, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military electronic equipment,

		components for military guidance/navigation equipment, components for military training aircraft, components for military training equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the use of accessories for military cameras/photographic equipment, equipment for the use of aerial target equipment, equipment for the use of electronic countermeasure equipment, equipment for the use of electronic warfare equipment, equipment for the use of military aero-engines, equipment for the use of military cameras/photographic equipment, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military training aircraft, equipment for the use of military training equipment, military aero-engines, military electronic equipment, military guidance/navigation equipment, military image recording/processing equipment, military training aircraft, military training equipment, technology for accessories for military cameras/photographic equipment, technology for aerial target equipment, technology for electronic countermeasure equipment, technology for electronic warfare equipment, technology for military aero-engines, technology for military cameras/photographic equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military training aircraft, technology for military training equipment
40	P	accessories for military training equipment, components for military support aircraft, components for military training equipment, general military aircraft components, software for military training equipment, technology for military training equipment [See footnote 80]
41	P	information security equipment, information security software [See footnote 91]
42	P	components for military support aircraft, components for military training equipment, software for military support aircraft, software for military training equipment, technology for military support aircraft, technology for military training equipment
43	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 82]
44	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns
45	T	towed hydrophone arrays

A - Some or all of which were issued on appeal.

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights

Issued

aircraft military communications equipment [See footnote 75].
assault rifles [See footnote 17].
attack alerting/warning equipment [See footnote 75].
body armour [See footnote 17].
components for assault rifles [See footnote 17].
components for attack alerting/warning equipment [See footnote 75].
components for body armour [See footnote 17].
components for combat aircraft [See footnote 75].
components for military aero-engines [See footnote 75].
components for military radars [See footnote 75].
components for sniper rifles [See footnote 17].
electronic warfare equipment [See footnote 75].
general military aircraft components [See footnote 75].
military aero-engines [See footnote 75].
military communications equipment [See footnote 75].
military electronic equipment [See footnote 75].
military guidance/navigation equipment [See footnote 75].
military helmets [See footnote 17].
military imaging radar sensor equipment [See footnote 75].
military radars [See footnote 75].
promoting the supply of combat aircraft [See footnote 75].
small arms ammunition [See footnote 17].
sniper rifles [See footnote 17].
weapon cleaning equipment [See footnote 17].
weapon sights [See footnote 17].

Rejected

promoting the supply of assault rifles.
promoting the supply of pistols.
promoting the supply of rifles.
promoting the supply of small arms ammunition.
promoting the supply of sniper rifles.
promoting the supply of sporting shotgun ammunition.

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	8	£115,983
Non-military	8	£69,178
Total	16	£185,161

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£17,250
ML3	1	£11,000
ML5	2	£10,130
ML6	1	£13,750
ML7	1	£19,194
ML9	1	£2,000
ML11	1	£700
ML13	1	£13,984
ML15	1	£23,550
ML21	1	£2,000
ML22	2	£500
PL5001	1	£1,925

T accessories for military image intensifier equipment.
anti-riot/ballistic shields.
components for body armour.
components for naval gun installations/mountings.
components for NBC detection equipment.
components for weapon control equipment.
equipment for the use of naval gun installations/mountings.
military image intensifier equipment.
military support vehicles.
NBC detection equipment.
small arms ammunition.
software for naval guns.
technology for naval guns (2 licences).
weapon control equipment.
weapon night sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£2,525
1A004	1	£4,055
5A002	3	£52,108
5D002	3	£5,489
6A001	2	£5,000

T civil explosive detection/identification equipment.
deuterium compounds.
hydrophones (2 licences).
information security equipment (3 licences).
information security software (3 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary

1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 2]
3	T	towed hydrophone arrays [See footnote 4]
4	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 5]
5	P	components for military support aircraft [See footnote 6]

6	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

Issued

- promoting the supply of airborne refuelling equipment [See footnote 3].
- promoting the supply of aircraft cannons [See footnote 3].
- promoting the supply of aircraft military communications equipment [See footnote 3].
- promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 3].
- promoting the supply of anti-aircraft guns [See footnote 3].
- promoting the supply of anti-armour ammunition [See footnote 3].
- promoting the supply of anti-armour weapons [See footnote 3].
- promoting the supply of anti-riot/ballistic shields [See footnote 3].
- promoting the supply of artillery [See footnote 3].
- promoting the supply of assault rifles [See footnote 3].
- promoting the supply of attack alerting/warning equipment [See footnote 3].
- promoting the supply of body armour [See footnote 3].
- promoting the supply of caseless ammunition weapons [See footnote 3].
- promoting the supply of combat helicopters [See footnote 3].
- promoting the supply of combat shotguns [See footnote 3].
- promoting the supply of command/control equipment for unmanned air vehicles [See footnote 3].
- promoting the supply of components for assault rifles [See footnote 3].
- promoting the supply of components for body armour [See footnote 3].
- promoting the supply of components for combat shotguns [See footnote 3].
- promoting the supply of components for machine guns [See footnote 3].
- promoting the supply of components for pistols [See footnote 3].
- promoting the supply of components for rifles [See footnote 3].
- promoting the supply of components for smooth-bore weapons [See footnote 3].
- promoting the supply of components for sniper rifles [See footnote 3].
- promoting the supply of components for sporting guns [See footnote 3].
- promoting the supply of components for sporting shotguns [See footnote 3].
- promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 3].
- promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 3].
- promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 3].
- promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 3].
- promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 3].

promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 3].

promoting the supply of CS hand grenades [See footnote 3].

promoting the supply of devices containing military pyrotechnic materials [See footnote 3].

promoting the supply of electronic countermeasure equipment [See footnote 3].

promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 3].

promoting the supply of equipment for the use of aircraft cannons [See footnote 3].

promoting the supply of equipment for the use of anti-aircraft guns [See footnote 3].

promoting the supply of equipment for the use of anti-armour weapons [See footnote 3].

promoting the supply of equipment for the use of artillery [See footnote 3].

promoting the supply of equipment for the use of assault rifles [See footnote 3].

promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 3].

promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 3].

promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 3].

promoting the supply of equipment for the use of fire location equipment [See footnote 3].

promoting the supply of equipment for the use of flash suppressers [See footnote 3].

promoting the supply of equipment for the use of grenade launchers [See footnote 3].

promoting the supply of equipment for the use of gun silencers [See footnote 3].

promoting the supply of equipment for the use of heavy machine guns [See footnote 3].

promoting the supply of equipment for the use of machine guns [See footnote 3].

promoting the supply of equipment for the use of military radars [See footnote 3].

promoting the supply of equipment for the use of mortars [See footnote 3].

promoting the supply of equipment for the use of periscopes [See footnote 3].

promoting the supply of equipment for the use of pistols [See footnote 3].

promoting the supply of equipment for the use of projectile launchers [See footnote 3].

promoting the supply of equipment for the use of rangefinding equipment [See footnote 3].

promoting the supply of equipment for the use of recognition/identification equipment [See footnote 3].

promoting the supply of equipment for the use of rifles [See footnote 3].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 3].

promoting the supply of equipment for the use of smooth-bore weapons [See footnote 3].

promoting the supply of equipment for the use of sniper rifles [See footnote 3].

promoting the supply of equipment for the use of sporting guns [See footnote 3].

promoting the supply of equipment for the use of sporting shotguns [See footnote 3].

promoting the supply of equipment for the use of targeting equipment [See footnote 3].

promoting the supply of equipment for the use of weapon control equipment [See footnote 3].

promoting the supply of equipment for the use of weapon mountings [See footnote 3].

promoting the supply of equipment for the use of weapon night sights [See footnote 3].

promoting the supply of equipment for the use of weapon sights [See footnote 3].

promoting the supply of fire location equipment [See footnote 3].

promoting the supply of flash suppressers [See footnote 3].

promoting the supply of fuze setting devices [See footnote 3].

promoting the supply of general military aircraft components [See footnote 3].

promoting the supply of grenade launchers [See footnote 3].

promoting the supply of gun mountings [See footnote 3].

promoting the supply of gun silencers [See footnote 3].

promoting the supply of hand grenades [See footnote 3].

promoting the supply of heavy machine guns [See footnote 3].

promoting the supply of illuminators [See footnote 3].

promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 3].

promoting the supply of machine guns [See footnote 3].

promoting the supply of military aero-engines [See footnote 3].

promoting the supply of military aircraft ground equipment [See footnote 3].

promoting the supply of military aircraft head-up/down displays [See footnote 3].

promoting the supply of military aircraft pressure refuellers [See footnote 3].

promoting the supply of military aircrew life support equipment [See footnote 3].

promoting the supply of military aircrew safety equipment [See footnote 3].

promoting the supply of military cameras/photographic equipment [See footnote 3].

promoting the supply of military combat vehicles [See footnote 3].

promoting the supply of military helmets [See footnote 3].

promoting the supply of military image intensifier equipment [See footnote 3].

promoting the supply of military image recording/processing equipment [See footnote 3].

promoting the supply of military imaging radar sensor equipment [See footnote 3].

promoting the supply of military infrared/thermal imaging equipment [See footnote 3].

promoting the supply of military radars [See footnote 3].

promoting the supply of military support vehicles [See footnote 3].

promoting the supply of mortars [See footnote 3].

promoting the supply of periscopes [See footnote 3].
 promoting the supply of pistols [See footnote 3].
 promoting the supply of projectile launchers [See footnote 3].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 3].
 promoting the supply of rangefinding equipment [See footnote 3].
 promoting the supply of recognition/identification equipment [See footnote 3].
 promoting the supply of rifles [See footnote 3].
 promoting the supply of sensor integration equipment [See footnote 3].
 promoting the supply of signalling devices [See footnote 3].
 promoting the supply of small arms ammunition [See footnote 3].
 promoting the supply of smoke canisters [See footnote 3].
 promoting the supply of smooth-bore weapons [See footnote 3].
 promoting the supply of sniper rifles [See footnote 3].
 promoting the supply of sporting guns [See footnote 3].
 promoting the supply of sporting shotguns [See footnote 3].
 promoting the supply of targeting equipment [See footnote 3].
 promoting the supply of unmanned air vehicles [See footnote 3].
 promoting the supply of water cannon [See footnote 3].
 promoting the supply of weapon cleaning equipment [See footnote 3].
 promoting the supply of weapon control equipment [See footnote 3].
 promoting the supply of weapon mountings [See footnote 3].
 promoting the supply of weapon night sights [See footnote 3].
 promoting the supply of weapon sight mounts [See footnote 3].
 promoting the supply of weapon sights [See footnote 3].

Non-military	2	£283,000
Total	3	£288,516

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,664
ML13	1	£3,852

body armour.
 components for assault rifles.
 components for body armour.
 military helmets.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	1	£33,000
7A103	1	£250,000

inertial equipment.
 information security equipment.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
3	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 7]

 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].
 small arms ammunition.
 smoke canisters.
 tear gas/irritant ammunition.

Country Footnotes

1. The United Nations imposed embargo on Sierra Leone was lifted on 29 September 2010 with the adoption of UN Security Council resolution 1940. The European Union also lifted EU-imposed sanctions in November 2010. The national implementing legislation on Sierra Leone is however still in force.

All licences for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Civilian / commercial end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. International Organisation end use.
5. Licence granted for marketing and promotional use. Armed forces end use.

- components for military patrol/assault craft (2 licences).
- components for military radars.
- components for military support aircraft (2 licences).
- components for military support vehicles (4 licences).
- components for military training aircraft.
- components for munitions/ordnance detection/disposal equipment (2 licences).
- components for naval communications equipment.
- components for NBC detection equipment (2 licences).
- components for submarines (14 licences).
- components for weapon night sights (2 licences).
- decoying/countermeasure equipment.
- T equipment for the operation of military aircraft in confined areas.
- equipment for the use of electronic countermeasure equipment.
- equipment for the use of munitions/ordnance detection/disposal equipment.
- equipment for the use of NBC detection equipment.
- general military aircraft components (5 licences).
- general military vehicle components.
- general naval vessel components (23 licences).
- ground vehicle military communications equipment.
- hand grenades.
- inert demolition charges/devices.
- military aero-engines (2 licences).
- military aircraft ground equipment (3 licences).
- military aircrew safety equipment.
- military communications equipment (2 licences).
- military electronic equipment.
- military field engineer equipment.
- military guidance/navigation equipment.

T	military guidance/navigation equipment (6 licences) [See footnotes 4, 45]. military helmets.
T	military image intensifier equipment (10 licences) [See footnotes 35, 4, 44, 45]. military improvised explosive device decoying/detection/disposal/jamming equipment.
T	military infrared/thermal imaging equipment (8 licences) [See footnotes 35, 4, 44, 45]. munitions/ordnance detection/disposal equipment. NBC detection equipment. projectile launchers.
T	projectile launchers.
T	rangefinding equipment (6 licences) [See footnotes 35, 4, 44, 45]. smoke canisters (2 licences). technology for decoying/countermeasure equipment. technology for equipment for the use of electronic countermeasure equipment. training small arms ammunition. training tear gas/irritant ammunition.
T	unmanned air vehicles. wall/door breaching projectiles/ammunition.
T	weapon night sights (8 licences) [See footnotes 35, 4, 44, 45]. weapon sight mounts.
T	weapon sights (8 licences) [See footnotes 35, 4, 44, 45].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£2,500
0D001	1	£93,031
1A003	2	£250,000

9E002	1	£0

- aero-engine assemblies (3 licences).
- alpha-emitting radionuclides.
- aromatic polyimide sheets (2 licences).
- bacteria.
- balancing machine equipment.
- biotechnology equipment (3 licences).
- chemicals used for pharmaceutical/healthcare production.
- civil explosive detection/identification equipment (7 licences).
- components for corrosion resistant chemical manufacturing equipment.
- components for submersible vehicles.
- components for telecommunications interception equipment (2 licences) [See footnote 21].
- components for toxic gas monitoring equipment (2 licences).
- constituents of propellants.
- corrosion resistant chemical manufacturing equipment (20 licences).
- direct view imaging equipment.
- T direct view imaging equipment.
- electromagnetic wave absorbing materials.
- extended temperature range integrated circuits.
- frequency changers (3 licences).
- global positioning satellite receivers.
- guidance/navigation equipment (2 licences).
- gyroscopes.
- high energy capacitors.
- T imaging cameras (14 licences).
- T imaging cameras (3 licences).
- T inertial equipment (6 licences).
- T inertial equipment.
- information security equipment (51 licences).
- T information security equipment (4 licences) [See footnotes 12, 19].
- T(P) information security equipment.
- information security software (8 licences).
- T information security software (2 licences) [See footnotes 12, 19].
- instrumentation cameras.
- marine position fixing equipment (3 licences).
- metal alloy cylindrical forms (5 licences).
- nickel powders.
- optical sensor materials.
- pathogenic genetic elements (2 licences).
- radar equipment (4 licences).
- semiconductor wafers with epitaxial layers (2 licences).
- software for frequency changers.
- software for information security equipment (7 licences).
- T software for information security equipment [See footnote 19].
- software for nuclear reactors.
- software for radar equipment (2 licences).
- software for spacecraft.
- software for telecommunications interception equipment.
- space qualified solar devices.
- spacecraft.
- spacecraft attitude and orbit control systems.
- spacecraft buses.
- spacecraft command and telemetry data handling systems.
- spacecraft payload data handling systems.
- spacecraft payloads.
- submersible equipment (6 licences).
- submersible vehicle control systems.
- submersible vehicles (4 licences).
- T technology for civil NBC detection systems.
- technology for composite structures (2 licences).

- T technology for information security equipment (2 licences).
- T technology for information security equipment.
- technology for metal alloy materials (4 licences).
- technology for metal alloys in powder form (2 licences).
- technology for spacecraft.
- telecommunications interception equipment (2 licences) [See footnote 21].
- T telecommunications interception equipment (4 licences) [See footnote 13].
- thorium.
- towed hydrophone arrays.
- toxic gas detectors.
- toxic gas monitoring equipment.
- toxins (3 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£60,800
6A002	4	£1,047,140
6A003	3	£159,290
ML1	4	£459,960
ML5	2	£640,000
ML7	1	£3,125

- T civil NBC protection equipment [See footnote 6].
- T direct view imaging equipment (4 licences).
- T imaging cameras (3 licences).
- NBC protective/defensive equipment [See footnote 6].
- T targeting equipment (2 licences).
- T weapon night sights (4 licences).
- T weapon sights.

Refused

	Count
Non-military	1
Total	1

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry
End Use	1

accelerometers.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	1

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£465,299
Non-military	9	£3,092,694
Both Military and Non-military	1	£352,400
Total	13	£3,910,393

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£21,069
ML6	1	£17,000
ML11	1	£427,230

components for military combat vehicles.
 components for weapon night sights.
 military guidance/navigation equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	2	£8,200
3A001	1	£11,371
5A002	4	£70,215
5E002	1	£1,188
6A002	1	£954,000
6A003	1	£847,720
6A008	1	£1,200,000

extended temperature range integrated circuits.
 focal plane arrays.
 imaging cameras.
 information security equipment (4 licences).
 metal alloy cylindrical forms (2 licences).
 radar equipment.
 technology for information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£112,000
6E101	1	£1,000
ML15	1	£239,400

focal plane arrays.
military infrared/thermal imaging equipment.
technology for focal plane arrays.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China
Indonesia
Thailand
United Kingdom
United States of America
Vietnam

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for electronic countermeasure equipment, components for electronic warfare equipment, components for fire location equipment, components for launching/handling/control/support equipment for unmanned air vehicles, components for military auxiliary/support vessels, components for military bridges/pontoons/ferries, components for military combat vehicles, components for military communications equipment, components for military construction equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military patrol/assault craft, components for military radars, components for military robotic equipment, components for military scenario simulation equipment, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military training equipment, components for naval communications equipment, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for small arms training equipment, components for submarines, components for tanks, components for targeting equipment, components for turrets, components for weapon control equipment, general military aircraft components [See footnote 1]
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
3	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military

		training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 3]
4	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets [See footnote 5]
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 7]
6	P	information security equipment, information security software
7	T	components for inertial equipment, inertial equipment, technology for inertial equipment
8	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 8]
9	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 9]
10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 11]
11	P	technology for information security equipment [See footnote 10]

12	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 14]
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 15]
14	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
15	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 17]

16	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft [See footnote 18]
17	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 20]
18	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 23]
19	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 25]
20	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 26]
21	P	technology for NBC detection equipment [See footnote 27]
22	T	towed hydrophone arrays [See footnote 28]
23	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 29]
24	P	components for combat aircraft
25	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 30]
26	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components

		for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 41]
27	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 34]
28	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 42]

29	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
30	P	components for military communications equipment, goods treated for signature suppression for military use, military communications equipment, software for military communications equipment
31	P	information security equipment, software for information security equipment, technology for information security equipment
32	P	toxins
33	P	components for military communications equipment, equipment for the production of military communications equipment, military communications equipment, technology for military communications equipment
34	P	components for military support aircraft [See footnote 36]
35	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 43]
36	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 37]
37	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 38]
38	P	marine position fixing equipment, underwater telecommunications systems
39	P	components for military improvised explosive device decoying/detection/disposal/jamming equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, military support vehicles, technology for military improvised explosive device decoying/detection/disposal/jamming equipment, technology for military support vehicles
40	P	components for launching/handling/control equipment for missiles, components for surface-to-air missiles, equipment for the use of surface-to-air missiles, unfinished products for launching/handling/control equipment for missiles, unfinished products for surface-to-air missiles [See footnote 40]
41	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 46]
42	P	components for submarines

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary

1	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
2	P	telecommunications interception equipment
3	P	information security equipment
4	T	components for telecommunications interception equipment, telecommunications interception equipment

Issued

accessories for demolition charges/devices [See footnote 22].
 accessories for military image intensifier equipment (3 licences) [See footnotes 33, 39].
 accessories for military infrared/thermal imaging equipment (3 licences) [See footnotes 33, 39].
 assault rifles (5 licences) [See footnotes 16, 24, 33, 39].
 blank/inert ammunition (3 licences) [See footnotes 33, 39].
 body armour (5 licences) [See footnotes 16, 24, 33, 39].
 combat shotguns [See footnote 24].
 components for assault rifles (5 licences) [See footnotes 16, 24, 33, 39].
 components for blank/inert ammunition (3 licences) [See footnotes 33, 39].
 components for body armour (5 licences) [See footnotes 16, 24, 33, 39].
 components for combat shotguns [See footnote 24].
 components for crowd control ammunition (3 licences) [See footnotes 33, 39].
 components for demolition charges/devices [See footnote 22].
 components for flash suppressors [See footnote 24].
 components for flash suppressors (3 licences) [See footnotes 33, 39].
 components for gun mountings (4 licences) [See footnotes 24, 33, 39].
 components for gun silencers (4 licences) [See footnotes 24, 33, 39].
 components for military helmets (4 licences) [See footnotes 24, 33, 39].
 components for military image intensifier equipment (4 licences) [See footnotes 24, 33, 39].
 components for military infrared/thermal imaging equipment (3 licences) [See footnotes 33, 39].
 components for military shotguns (3 licences) [See footnotes 33, 39].
 components for munitions/ordnance detection/disposal equipment [See footnote 22].
 components for pistols (4 licences) [See footnotes 24, 33, 39].
 components for rifles (4 licences) [See footnotes 24, 33, 39].
 components for small arms ammunition (4 licences) [See footnotes 24, 33, 39].
 components for smoke/pyrotechnic ammunition (3 licences) [See footnotes 33, 39].
 components for smooth-bore weapons (4 licences) [See footnotes 24, 33, 39].
 components for sniper rifles (5 licences) [See footnotes 16, 24, 33, 39].
 components for sporting guns (4 licences) [See footnotes 24, 33, 39].
 components for sporting shotgun ammunition (4 licences) [See footnotes 24, 33, 39].
 components for sporting shotguns (4 licences) [See footnotes 24, 33, 39].
 components for tactical shotguns (3 licences) [See footnotes 33, 39].
 components for tear gas/irritant ammunition (3 licences) [See footnotes 33, 39].

components for weapon night sights (4 licences) [See footnotes 24, 33, 39].
components for weapon sights (4 licences) [See footnotes 24, 33, 39].
crowd control ammunition (3 licences) [See footnotes 33, 39].
flash suppressers [See footnote 24].
flash suppressors (3 licences) [See footnotes 33, 39].
gun mountings (4 licences) [See footnotes 24, 33, 39].
gun silencers (4 licences) [See footnotes 24, 33, 39].
military helmets (5 licences) [See footnotes 16, 24, 33, 39].
military image intensifier equipment (4 licences) [See footnotes 24, 33, 39].
military infrared/thermal imaging equipment (4 licences) [See footnotes 24, 33, 39].
military shotguns (3 licences) [See footnotes 33, 39].
pistols (4 licences) [See footnotes 24, 33, 39].
promoting the supply of acoustic devices for riot control [See footnote 31].
promoting the supply of assault rifles (2 licences) [See footnotes 31, 32].
promoting the supply of body armour [See footnote 31].
promoting the supply of components for assault rifles (2 licences) [See footnotes 31, 32].
promoting the supply of components for body armour [See footnote 31].
promoting the supply of components for flash suppressers (2 licences) [See footnotes 31, 32].
promoting the supply of components for ground vehicle military communications equipment [See footnote 31].
promoting the supply of components for gun mountings (2 licences) [See footnotes 31, 32].
promoting the supply of components for military communications equipment [See footnote 31].
promoting the supply of components for military image intensifier equipment [See footnote 31].
promoting the supply of components for military infrared/thermal imaging equipment [See footnote 31].
promoting the supply of components for military shotguns (2 licences) [See footnotes 31, 32].
promoting the supply of components for naval communications equipment [See footnote 31].
promoting the supply of components for pistols (2 licences) [See footnotes 31, 32].
promoting the supply of components for rifles (2 licences) [See footnotes 31, 32].
promoting the supply of components for small arms ammunition (2 licences) [See footnotes 31, 32].
promoting the supply of components for smooth-bore weapons (2 licences) [See footnotes 31, 32].
promoting the supply of components for sniper rifles (2 licences) [See footnotes 31, 32].
promoting the supply of components for sporting guns (2 licences) [See footnotes 31, 32].
promoting the supply of components for sporting shotguns (2 licences) [See footnotes 31, 32].
promoting the supply of components for tactical shotguns (2 licences) [See footnotes 31, 32].
promoting the supply of components for weapon night sights (2 licences) [See footnotes 31, 32].
promoting the supply of components for weapon sights (2 licences) [See footnotes 31, 32].
promoting the supply of flash suppressers (2 licences) [See footnotes 31, 32].
promoting the supply of ground vehicle military communications equipment [See footnote 31].
promoting the supply of gun mountings (2 licences) [See footnotes 31, 32].
promoting the supply of military communications equipment [See footnote 31].
promoting the supply of military helmets [See footnote 31].
promoting the supply of military image intensifier equipment [See footnote 31].
promoting the supply of military infrared/thermal imaging equipment [See footnote 31].
promoting the supply of military shotguns (2 licences) [See footnotes 31, 32].
promoting the supply of naval communications equipment [See footnote 31].
promoting the supply of pistols (2 licences) [See footnotes 31, 32].
promoting the supply of rifles (2 licences) [See footnotes 31, 32].
promoting the supply of small arms ammunition (2 licences) [See footnotes 31, 32].
promoting the supply of smooth-bore weapons (2 licences) [See footnotes 31, 32].
promoting the supply of sniper rifles (2 licences) [See footnotes 31, 32].
promoting the supply of sporting guns (2 licences) [See footnotes 31, 32].
promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 31, 32].
promoting the supply of sporting shotguns (2 licences) [See footnotes 31, 32].
promoting the supply of tactical shotguns (2 licences) [See footnotes 31, 32].
promoting the supply of weapon night sights (2 licences) [See footnotes 31, 32].
promoting the supply of weapon sights (2 licences) [See footnotes 31, 32].
rifles (4 licences) [See footnotes 24, 33, 39].
small arms ammunition (5 licences) [See footnotes 16, 24, 33, 39].
smoke/pyrotechnic ammunition (3 licences) [See footnotes 33, 39].
smooth-bore weapons (4 licences) [See footnotes 24, 33, 39].
sniper rifles (5 licences) [See footnotes 16, 24, 33, 39].
sporting guns (4 licences) [See footnotes 24, 33, 39].
sporting shotgun ammunition (4 licences) [See footnotes 24, 33, 39].
sporting shotguns (4 licences) [See footnotes 24, 33, 39].
tactical shotguns (3 licences) [See footnotes 33, 39].
tear gas/irritant ammunition (3 licences) [See footnotes 33, 39].
weapon cleaning equipment [See footnote 16].
weapon night sights (4 licences) [See footnotes 24, 33, 39].
weapon sights (5 licences) [See footnotes 16, 24, 33, 39].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£163,783
Non-military	3	£6,145
Both Military and Non-military	2	£2,892
Total	9	£172,820

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£4,313
ML6	1	£115,000
ML7	1	£35,070
ML11	1	£9,400

components for military communications equipment.
components for NBC detection equipment.
general military vehicle components.
NBC detection equipment.
sporting guns (1).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£465
0C002	1	£0
PL9010	2	£5,680

components for sporting shotguns.
sporting shotguns (1).
sporting shotguns (2).
thorium.
uranium-233.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£773
PL9010	2	£2,119

pistols (3).

smooth-bore weapons (1).
sporting guns (1).
sporting shotguns (2).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
2	P	goods treated for signature suppression for military use [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
4	P	sporting shotgun ammunition [See footnote 3]
5	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military

		support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 4]
6	P	components for weapon sights, weapon sights
7	P	components for sporting guns [See footnote 5]
8	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 6]
9	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
10	T	towed hydrophone arrays
11	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 7]
12	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training

		equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
13	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 10]
14	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
15	P	components for military support aircraft [See footnote 8]
16	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 9]
17	P	components for sporting guns

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	3	£537,186
Non-military	10	£640,328
Both Military and Non-military	1	£207,000
Total	14	£1,384,515

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£37,700
ML3	1	£12,500
ML4	1	£450,000
ML13	2	£36,986

assault rifles (15).
body armour.
components for assault rifles.
components for body armour.
components for pistols.
military helmets (2 licences).
munitions/ordnance detection/disposal equipment.

pistols (15).
small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£52,802
5A002	9	£585,785
5D002	2	£58
5E002	1	£1,683

civil explosive detection/identification equipment.
information security equipment (9 licences).
information security software (2 licences).
technology for information security equipment.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£100,000
ML13	1	£105,000
PL8001	1	£2,000

body armour [See footnote 1].
components for body armour [See footnote 1].
devices for initiating explosives [See footnote 1].
military support vehicles [See footnote 1].

body armour [See footnote 3].
components for body armour [See footnote 3].
military helmets [See footnote 3].
promoting the supply of assault rifles (50) [See footnote 2].
promoting the supply of components for assault rifles [See footnote 2].
promoting the supply of components for machine guns [See footnote 2].
promoting the supply of hand grenades [See footnote 2].
promoting the supply of machine guns (12) [See footnote 2].
promoting the supply of pistols (9) [See footnote 2].
promoting the supply of portable incapacitating substance self-protection devices [See footnote 2].

promoting the supply of small arms ammunition [See footnote 2].

Country Footnotes

1. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

From 11 July 2014 the EU implements this UN sanction regime via Council Decision 2010/231/CFSP and Council Regulation (EU) No 356/2010, as amended.

All exports for this destination were approved in accordance with the sanctions in place.

2. UN Security Council Resolution 2142 (2014) continues the embargo on the supply of arms and related material. The embargo no longer applies to military equipment intended solely for the development of the Security Forces of the Federal Government of Somalia, providing the UN Sanctions Committee is notified in advance.

Exemptions to the embargo authorise supplies of non-lethal military equipment intended solely for humanitarian or protective use, weapons and military equipment for the support or use by UN personnel or strategic partners of AMISOM, supplies for use by UN member states to combat piracy and supplies intended for the development of Somali security sector institutions.

The EU implements this UN sanction regime via Council Decision 2010/231/CFSP, as amended, Council Regulation (EU) No 356/2010, as amended and Council Regulation (EC) No 147/2003, as amended

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	27	£3,706,197
Non-military	3	£313,495
Total	30	£4,019,692

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	4	£1,206,815
ML5	4	£1,529,415
ML6	3	£211,052
ML9	2	£20,743
ML10	8	£56,803
ML11	6	£681,369

components for bombs [See footnote 32].
 components for combat aircraft (2 licences).
 components for combat helicopters.
 components for decoying/countermeasure equipment (3 licences).
 components for electronic warfare equipment (3 licences).
 components for military combat vehicles (2 licences) [See footnote 67].
 components for military helicopters (4 licences).
 components for military training aircraft.
 components for submarines (2 licences).
 components for targeting equipment (3 licences) [See footnote 30].
 components for turrets.
 components for weapon sights.
 electronic warfare equipment (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A001	1	£140,000
5A002	1	£170,000
6A003	1	£3,495

imaging cameras.
 information security equipment.
 microwave components.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
 Angola
 Brazil
 Egypt
 France
 Germany
 Jordan
 Kenya
 Malaysia
 New Zealand
 Oman
 South Korea
 Switzerland
 United Arab Emirates
 United Kingdom
 Vietnam

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	1	£65
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0
Total	1	£65

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	1	£65

barbiturate anaesthetic agents for injection.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating

		spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	components for aircraft missile protection systems, components for electronic countermeasure equipment, components for electronic warfare equipment, components for military image recording/processing equipment [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 4]
4	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 5]
5	P	components for information security equipment, information security equipment, information security software, software for information security equipment, technology for information security equipment, technology for information security software [See footnote 7]
6	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control

		<p>equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
7	P	<p>components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 8]</p>
8	P	<p>components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 9]</p>
9	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for</p>

		the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 11]
10	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 12]
11	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 13]
12	P	sporting shotgun ammunition [See footnote 14]
13	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 15]
14	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 16]
15	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 18]
16	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military

		support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 20]
17	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 21]
18	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
19	P	components for weapon sights, weapon sights [See footnote 28]
20	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 35]
21	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 38]
22	P	components for corrosion resistant chemical manufacturing equipment, corrosion resistant chemical manufacturing equipment [See footnote 39]
23	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 45]
24	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 48]
25	P	components for combat aircraft
26	P	civil unmanned air vehicles, launch support equipment for civil unmanned air vehicles, technology for civil unmanned air vehicles [See footnote 70]
27	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military

		aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 71]
28	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
29	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 55]
30	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 57]
31	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 59]
32	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 60]
33	P	components for military support aircraft [See footnote 61]
34	P	marine position fixing equipment, underwater telecommunications systems
35	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, military guidance/navigation equipment [See footnote 66]
36	P	information security equipment, software for information security equipment, technology for information security equipment

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights
2	P	components for sporting guns

3	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights
4	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns

accessories for demolition charges/devices [See footnote 42].
 accessories for military image intensifier equipment (3 licences) [See footnotes 52, 64].
 accessories for military infrared/thermal imaging equipment (3 licences) [See footnotes 52, 64].
 assault rifles (6 licences) [See footnotes 23, 46, 52, 64].
 blank/inert ammunition (3 licences) [See footnotes 52, 64].
 body armour (5 licences) [See footnotes 23, 46, 52, 64].
 combat shotguns [See footnote 46].
 components for assault rifles (5 licences) [See footnotes 23, 46, 52, 64].
 components for blank/inert ammunition (3 licences) [See footnotes 52, 64].
 components for body armour (5 licences) [See footnotes 23, 46, 52, 64].
 components for combat shotguns [See footnote 46].
 components for crowd control ammunition (3 licences) [See footnotes 52, 64].
 components for demolition charges/devices [See footnote 42].
 components for flash suppressers [See footnote 46].
 components for flash suppressors (3 licences) [See footnotes 52, 64].
 components for gun mountings (4 licences) [See footnotes 46, 52, 64].
 components for gun silencers (4 licences) [See footnotes 46, 52, 64].
 components for military helmets (4 licences) [See footnotes 46, 52, 64].
 components for military image intensifier equipment (4 licences) [See footnotes 46, 52, 64].
 components for military infrared/thermal imaging equipment (3 licences) [See footnotes 52, 64].
 components for military shotguns (3 licences) [See footnotes 52, 64].
 components for munitions/ordnance detection/disposal equipment [See footnote 42].
 components for pistols (4 licences) [See footnotes 46, 52, 64].
 components for rifles (4 licences) [See footnotes 46, 52, 64].
 components for small arms ammunition (4 licences) [See footnotes 46, 52, 64].
 components for smoke/pyrotechnic ammunition (3 licences) [See footnotes 52, 64].
 components for smooth-bore weapons (4 licences) [See footnotes 46, 52, 64].
 components for sniper rifles (5 licences) [See footnotes 23, 46, 52, 64].
 components for sporting guns (4 licences) [See footnotes 46, 52, 64].
 components for sporting shotgun ammunition (4 licences) [See footnotes 46, 52, 64].
 components for sporting shotguns (4 licences) [See footnotes 46, 52, 64].
 components for tactical shotguns (3 licences) [See footnotes 52, 64].
 components for tear gas/irritant ammunition (3 licences) [See footnotes 52, 64].
 components for weapon night sights (4 licences) [See footnotes 46, 52, 64].
 components for weapon sights (4 licences) [See footnotes 46, 52, 64].
 crowd control ammunition (3 licences) [See footnotes 52, 64].
 flash suppressers [See footnote 46].
 flash suppressors (3 licences) [See footnotes 52, 64].
 grenade launchers.
 gun mountings (4 licences) [See footnotes 46, 52, 64].
 gun silencers (4 licences) [See footnotes 46, 52, 64].
 military helmets (5 licences) [See footnotes 23, 46, 52, 64].
 military image intensifier equipment (4 licences) [See footnotes 46, 52, 64].
 military infrared/thermal imaging equipment (4 licences) [See footnotes 46, 52, 64].
 military shotguns (3 licences) [See footnotes 52, 64].
 pistols (5 licences) [See footnotes 46, 52, 64].
 promoting the supply of acoustic devices for riot control [See footnote 50].
 promoting the supply of airborne refuelling equipment [See footnote 24].

promoting the supply of aircraft cannons [See footnote 24].
promoting the supply of aircraft military communications equipment [See footnote 24].
promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 24].
promoting the supply of anti-aircraft guns [See footnote 24].
promoting the supply of anti-armour ammunition [See footnote 24].
promoting the supply of anti-armour weapons [See footnote 24].
promoting the supply of anti-riot/ballistic shields [See footnote 24].
promoting the supply of artillery [See footnote 24].
promoting the supply of assault rifles (3 licences) [See footnotes 24, 50, 51].
promoting the supply of attack alerting/warning equipment [See footnote 24].
promoting the supply of body armour (2 licences) [See footnotes 24, 50].
promoting the supply of caseless ammunition weapons [See footnote 24].
promoting the supply of combat helicopters [See footnote 24].
promoting the supply of combat shotguns [See footnote 24].
promoting the supply of command/control equipment for unmanned air vehicles [See footnote 24].
promoting the supply of components for assault rifles (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for body armour (2 licences) [See footnotes 24, 50].
promoting the supply of components for combat shotguns [See footnote 24].
promoting the supply of components for flash suppressers (2 licences) [See footnotes 50, 51].
promoting the supply of components for ground vehicle military communications equipment [See footnote 50].
promoting the supply of components for gun mountings (2 licences) [See footnotes 50, 51].
promoting the supply of components for machine guns [See footnote 24].
promoting the supply of components for military communications equipment [See footnote 50].
promoting the supply of components for military image intensifier equipment [See footnote 50].
promoting the supply of components for military infrared/thermal imaging equipment [See footnote 50].
promoting the supply of components for military shotguns (2 licences) [See footnotes 50, 51].
promoting the supply of components for naval communications equipment [See footnote 50].
promoting the supply of components for pistols (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for rifles (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for small arms ammunition (2 licences) [See footnotes 50, 51].
promoting the supply of components for smooth-bore weapons (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for sniper rifles (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for sporting guns (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for sporting shotguns (3 licences) [See footnotes 24, 50, 51].
promoting the supply of components for tactical shotguns (2 licences) [See footnotes 50, 51].
promoting the supply of components for weapon night sights (2 licences) [See footnotes 50, 51].
promoting the supply of components for weapon sights (2 licences) [See footnotes 50, 51].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 24].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 24].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 24].
promoting the supply of CS hand grenades [See footnote 24].
promoting the supply of devices containing military pyrotechnic materials [See footnote 24].
promoting the supply of electronic countermeasure equipment [See footnote 24].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 24].
promoting the supply of equipment for the use of aircraft cannons [See footnote 24].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 24].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 24].
promoting the supply of equipment for the use of artillery [See footnote 24].
promoting the supply of equipment for the use of assault rifles [See footnote 24].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 24].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 24].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 24].
promoting the supply of equipment for the use of fire location equipment [See footnote 24].
promoting the supply of equipment for the use of flash suppressers [See footnote 24].
promoting the supply of equipment for the use of grenade launchers [See footnote 24].

promoting the supply of equipment for the use of gun silencers [See footnote 24].
promoting the supply of equipment for the use of heavy machine guns [See footnote 24].
promoting the supply of equipment for the use of machine guns [See footnote 24].
promoting the supply of equipment for the use of military radars [See footnote 24].
promoting the supply of equipment for the use of mortars [See footnote 24].
promoting the supply of equipment for the use of periscopes [See footnote 24].
promoting the supply of equipment for the use of pistols [See footnote 24].
promoting the supply of equipment for the use of projectile launchers [See footnote 24].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 24].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 24].
promoting the supply of equipment for the use of rifles [See footnote 24].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 24].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 24].
promoting the supply of equipment for the use of sniper rifles [See footnote 24].
promoting the supply of equipment for the use of sporting guns [See footnote 24].
promoting the supply of equipment for the use of sporting shotguns [See footnote 24].
promoting the supply of equipment for the use of targeting equipment [See footnote 24].
promoting the supply of equipment for the use of weapon control equipment [See footnote 24].
promoting the supply of equipment for the use of weapon mountings [See footnote 24].
promoting the supply of equipment for the use of weapon night sights [See footnote 24].
promoting the supply of equipment for the use of weapon sights [See footnote 24].
promoting the supply of fire location equipment [See footnote 24].
promoting the supply of flash suppressers (3 licences) [See footnotes 24, 50, 51].
promoting the supply of fuze setting devices [See footnote 24].
promoting the supply of general military aircraft components [See footnote 24].
promoting the supply of grenade launchers [See footnote 24].
promoting the supply of ground vehicle military communications equipment [See footnote 50].
promoting the supply of gun mountings (3 licences) [See footnotes 24, 50, 51].
promoting the supply of gun silencers [See footnote 24].
promoting the supply of hand grenades [See footnote 24].
promoting the supply of heavy machine guns [See footnote 24].
promoting the supply of illuminators [See footnote 24].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 24].
promoting the supply of machine guns [See footnote 24].
promoting the supply of military aero-engines [See footnote 24].
promoting the supply of military aircraft ground equipment [See footnote 24].
promoting the supply of military aircraft head-up/down displays [See footnote 24].
promoting the supply of military aircraft pressure refuellers [See footnote 24].
promoting the supply of military aircrew life support equipment [See footnote 24].
promoting the supply of military aircrew safety equipment [See footnote 24].
promoting the supply of military cameras/photographic equipment [See footnote 24].
promoting the supply of military combat vehicles [See footnote 24].
promoting the supply of military communications equipment [See footnote 50].
promoting the supply of military helmets (2 licences) [See footnotes 24, 50].
promoting the supply of military image intensifier equipment (2 licences) [See footnotes 24, 50].
promoting the supply of military image recording/processing equipment [See footnote 24].
promoting the supply of military imaging radar sensor equipment [See footnote 24].
promoting the supply of military infrared/thermal imaging equipment (2 licences) [See footnotes 24, 50].
promoting the supply of military radars [See footnote 24].
promoting the supply of military shotguns (2 licences) [See footnotes 50, 51].
promoting the supply of military support vehicles [See footnote 24].
promoting the supply of mortars [See footnote 24].
promoting the supply of naval communications equipment [See footnote 50].
promoting the supply of periscopes [See footnote 24].
promoting the supply of pistols (3 licences) [See footnotes 24, 50, 51].
promoting the supply of projectile launchers [See footnote 24].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 24].
promoting the supply of rangefinding equipment [See footnote 24].
promoting the supply of recognition/identification equipment [See footnote 24].
promoting the supply of rifles (4 licences) [See footnotes 22, 24, 50, 51].
promoting the supply of sensor integration equipment [See footnote 24].
promoting the supply of signalling devices [See footnote 24].
promoting the supply of small arms ammunition (3 licences) [See footnotes 24, 50, 51].
promoting the supply of smoke canisters [See footnote 24].
promoting the supply of smooth-bore weapons (3 licences) [See footnotes 24, 50, 51].
promoting the supply of sniper rifles (3 licences) [See footnotes 24, 50, 51].
promoting the supply of sporting guns (4 licences) [See footnotes 22, 24, 50, 51].

promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 50, 51].
promoting the supply of sporting shotguns (3 licences) [See footnotes 24, 50, 51].
promoting the supply of tactical shotguns (2 licences) [See footnotes 50, 51].
promoting the supply of targeting equipment [See footnote 24].
promoting the supply of unmanned air vehicles [See footnote 24].
promoting the supply of water cannon [See footnote 24].
promoting the supply of weapon cleaning equipment [See footnote 24].
promoting the supply of weapon control equipment [See footnote 24].
promoting the supply of weapon mountings [See footnote 24].
promoting the supply of weapon night sights (3 licences) [See footnotes 24, 50, 51].
promoting the supply of weapon sight mounts [See footnote 24].
promoting the supply of weapon sights (3 licences) [See footnotes 24, 50, 51].
rifles (4 licences) [See footnotes 46, 52, 64].
small arms ammunition (5 licences) [See footnotes 23, 46, 52, 64].
smoke/pyrotechnic ammunition (3 licences) [See footnotes 52, 64].
smooth-bore weapons (4 licences) [See footnotes 46, 52, 64].
sniper rifles (5 licences) [See footnotes 23, 46, 52, 64].
sporting guns (4 licences) [See footnotes 46, 52, 64].
sporting shotgun ammunition (4 licences) [See footnotes 46, 52, 64].
sporting shotguns (5 licences) [See footnotes 46, 52, 64].
tactical shotguns (3 licences) [See footnotes 52, 64].
tear gas/irritant ammunition (3 licences) [See footnotes 52, 64].
weapon cleaning equipment [See footnote 23].
weapon night sights (4 licences) [See footnotes 46, 52, 64].
weapon sights (5 licences) [See footnotes 23, 46, 52, 64].

Rejected

assault rifles.
gun silencers.
pistols.
promoting the supply of acoustic devices for riot control (4 licences).
promoting the supply of assault rifles (4 licences).
promoting the supply of body armour (4 licences).
promoting the supply of components for acoustic devices for riot control (4 licences).
promoting the supply of components for assault rifles (4 licences).
promoting the supply of components for body armour (4 licences).
promoting the supply of components for flash suppressers (2 licences).
promoting the supply of components for flash suppressors (2 licences).
promoting the supply of components for ground vehicle military communications equipment (4 licences).
promoting the supply of components for gun mountings (2 licences).
promoting the supply of components for military communications equipment (4 licences).
promoting the supply of components for military image intensifier equipment (4 licences).
promoting the supply of components for military infrared/thermal imaging equipment (4 licences).
promoting the supply of components for military shotguns (4 licences).
promoting the supply of components for naval communications equipment (4 licences).
promoting the supply of components for pistols (4 licences).
promoting the supply of components for rifles (2 licences).
promoting the supply of components for smooth-bore weapons (4 licences).
promoting the supply of components for sniper rifles (4 licences).
promoting the supply of components for sporting guns (4 licences).
promoting the supply of components for sporting shotguns (4 licences).
promoting the supply of components for tactical shotguns (4 licences).
promoting the supply of components for weapon night sights (4 licences).
promoting the supply of components for weapon sights (4 licences).
promoting the supply of flash suppressers (2 licences).
promoting the supply of flash suppressors (2 licences).
promoting the supply of ground vehicle military communications equipment (4 licences).
promoting the supply of gun mountings (2 licences).
promoting the supply of military communications equipment (4 licences).
promoting the supply of military helmets (4 licences).
promoting the supply of military image intensifier equipment (4 licences).
promoting the supply of military infrared/thermal imaging equipment (4 licences).
promoting the supply of military shotguns (4 licences).
promoting the supply of naval communications equipment (4 licences).
promoting the supply of pistols (4 licences).
promoting the supply of rifles (2 licences).
promoting the supply of small arms ammunition (4 licences).

promoting the supply of smooth-bore weapons (4 licences).
promoting the supply of sniper rifles (4 licences).
promoting the supply of sporting guns (2 licences).
promoting the supply of sporting shotguns (4 licences).
promoting the supply of tactical shotguns (4 licences).
promoting the supply of weapon night sights (4 licences).
promoting the supply of weapon sights (4 licences).

Country Footnotes

1. All applications for exports to this destination were assessed against the Consolidated Criteria. During this period there were no developments in this destination which required a change in our assessments from the previous quarter.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Government end use.
3. Licence granted for accessories / spare parts. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	297	£93,959,167
Non-military	210	£128,001,185
Both Military and Non-military	6	£1,645,145
Total	513	£223,605,497

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	10	£1,151,909
ML2	3	£281,706
ML3	2	£25,936
ML4	44	£11,461,575
ML5	15	£6,140,339
ML6	18	£256,797
ML7	12	£10,370,800
ML8	1	£1,845
ML9	39	£26,208,618
ML10	85	£7,578,705
ML11	49	£24,729,762
ML13	3	£33,116
ML14	2	£92,370
ML15	7	£1,162,520
ML16	3	£309,979
ML17	6	£2,430,090
ML18	1	£2,000
ML21	12	£1,079,899
ML22	27	£638,501
PL5001	1	£2,700

- aircraft military communications equipment.
- anti-riot/ballistic shields.
- T blank/inert ammunition.
- body armour.
- bomb suits.
- components for air-to-surface missiles (6 licences).
- components for aircraft military communications equipment (4 licences).
- T components for artillery ammunition.
- components for attack alerting/warning equipment.
- components for body armour.
- components for combat aircraft (10 licences).
- components for combat helicopters (3 licences).
- components for combat naval vessels (2 licences).
- T components for electronic countermeasure equipment.
- components for launching/ground support equipment for unmanned air vehicles (2 licences).
- components for launching/handling/control equipment for missiles (3 licences).
- components for launching/handling/control equipment for munitions (12 licences).
- components for launching/handling/control equipment for rockets.
- components for military aero-engines (5 licences).
- components for military aircraft head-up/down displays (4 licences).
- components for military auxiliary/support vessels (2 licences).
- components for military bridges/pontoons/ferries (2 licences).
- components for military combat vehicles (16 licences).
- components for military communications equipment (8 licences).
- components for military diving apparatus.
- components for military electronic equipment (2 licences).
- T components for military electronic equipment.
- components for military equipment for initiating explosives.
- components for military guidance/navigation equipment (11 licences).
- T components for military guidance/navigation equipment (2 licences).
- components for military helicopters (34 licences).
- components for military improvised explosive device decoying/detection/disposal/jamming equipment (3 licences).
- components for military infrared/thermal imaging equipment.
- components for military radars (2 licences).
- components for military spacecraft.

components for military support aircraft (8 licences).
 components for military training aircraft (12 licences).
 components for military training equipment.
 components for munitions/ordnance detection/disposal equipment (5 licences).
 T components for naval gun installations/mountings.
 components for NBC detection equipment (9 licences).
 components for periscopes.
 components for sniper rifles (3 licences).
 components for submarines (18 licences).
 components for surface-to-air missiles (3 licences).
 components for surface-to-surface missiles (3 licences).
 components for targeting equipment (2 licences).
 T components for targeting equipment.
 components for unmanned air vehicles (5 licences).
 components for weapon control equipment.
 T components for weapon control equipment.
 equipment for the production of unmanned air vehicles.
 equipment for the use of attack alerting/warning equipment (2 licences).
 equipment for the use of military communications equipment (2 licences).
 equipment for the use of submarines.
 T equipment for the use of weapon control equipment.
 general military aircraft components.
 general military vehicle components (2 licences).
 general naval vessel components (11 licences).
 goods treated for signature suppression for military use.
 gun mountings.
 launching/handling/control equipment for missiles.
 launching/handling/control equipment for munitions (4 licences).
 T launching/handling/control equipment for munitions.
 military auxiliary/support vessels (2 licences).
 military communications equipment (14 licences).
 T military communications equipment.
 military diving apparatus.
 military electronic equipment (2 licences).
 military equipment for initiating explosives.
 T military equipment for initiating explosives.
 military guidance/navigation equipment (5 licences).
 T military guidance/navigation equipment (5 licences) [See footnotes 2, 30].
 military helmets (2 licences).
 T military image intensifier equipment (6 licences) [See footnotes 17, 2, 29, 30].
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 T military improvised explosive device decoying/detection/disposal/jamming equipment.
 T military infrared/thermal imaging equipment (6 licences) [See footnotes 17, 2, 29, 30].
 military training equipment.
 military underwater remotely operated vehicles (2 licences).
 munitions/ordnance detection/disposal equipment (2 licences).
 naval communications equipment (4 licences).
 naval electrical/electronic equipment (3 licences).
 T naval gun installations/mountings.
 naval hull penetrators/connectors (2 licences).
 NBC detection equipment (5 licences).
 NBC protective/defensive equipment (2 licences).
 T projectile launchers (2 licences).
 pyrotechnics/fuels and related substances.
 T rangefinding equipment (4 licences) [See footnotes 17, 2, 29, 30].
 sniper rifles (1).
 sniper rifles (2).
 software enabling equipment to function as military communications equipment.
 T software enabling equipment to function as military guidance/navigation equipment.
 software for attack alerting/warning equipment.
 software for military communications equipment (5 licences).
 software for military guidance/navigation equipment.
 software for military radars.
 software for NBC detection equipment.
 T software for weapon control equipment.
 submarines.
 targeting equipment.
 technology for combat aircraft (3 licences).
 technology for combat helicopters.
 technology for combat naval vessels.

- technology for equipment for the use of submarines.
 technology for launching/handling/control equipment for missiles.
 technology for launching/handling/control equipment for munitions.
 technology for military communications equipment (5 licences).
 technology for military diving apparatus.
 technology for military equipment for initiating explosives.
 technology for military guidance/navigation equipment (2 licences).
 technology for military radars.
 technology for multi-role missiles.
 technology for naval communications equipment.
 technology for NBC detection equipment (2 licences).
 technology for NBC protective/defensive equipment.
 technology for software enabling equipment to function as military communications equipment.
 technology for software for military guidance/navigation equipment.
 technology for targeting equipment.
 technology for test models for combat aircraft.
 technology for unmanned air vehicles.
 test models for combat aircraft (2 licences).
 training small arms ammunition.
 unfinished products for launching/handling/control equipment for munitions.
 unfinished products for military aero-engines.
 unfinished products for submarines.
 T weapon night sights (6 licences) [See footnotes 17, 2, 29, 30].
 weapon sights (3 licences).
 T weapon sights (6 licences) [See footnotes 17, 2, 29, 30].

analogue-to-digital equipment.
 bacteria (4 licences).
 beryllium.
 biotechnology equipment.
 civil explosive detection/identification equipment (4 licences).
 components for biotechnology equipment.
 components for corrosion resistant chemical manufacturing equipment (2 licences).
 components for radar equipment.
 components for submersible equipment.
 components for toxic gas detectors (2 licences).
 constituents of propellants (2 licences).
 corrosion resistant chemical manufacturing equipment (5 licences).
 deuterium compounds (3 licences).
 deuterium solutions (2 licences).
 devices containing enriched lithium.
 dimensional inspection equipment.
 dimensional measuring equipment (2 licences).
 explosives detection equipment (2 licences).
 fibrous/filamentary materials (4 licences).
 focal plane arrays.
 frequency changers.
 global positioning satellite receivers.
 hafnium.
 hafnium compounds.
 helium-3.
 high energy capacitors (2 licences).
 high speed pulse generators.
 imaging cameras (45 licences).
 T imaging cameras.
 inertial equipment (19 licences) [See footnote 10].
 information security equipment (17 licences).
 T information security equipment.
 information security software.
 instrumentation cameras (5 licences).
 lasers (20 licences).
 magnesium.
 magnetic gradiometers.
 magnetometers (5 licences).
 marine position fixing equipment (2 licences).
 mass spectrometers (2 licences).
 metal alloy cylindrical forms (4 licences).
 natural uranium.
 nickel powders.
 optics finishing machines.
 pressure transducers (2 licences).
 products containing enriched lithium.
 products containing natural uranium.
 radar equipment (2 licences).
 T radar equipment.
 radiation hardened integrated circuits.
 radiation hardened TV cameras.

T rebreathing swimming equipment.
 rebreathing swimming equipment.
 semiconductor wafers with epitaxial layers.
 software for information security equipment (4 licences).
 software for optics finishing machines.
 software for radar equipment.
 software for spacecraft payloads (2 licences).
 sonar log equipment.
 spacecraft payloads.
 submersible equipment.
 technology for information security equipment.
 technology for information security software (3 licences).
 technology for lasers.
 technology for nuclear reactor fuel element fabrication equipment.
 technology for spacecraft payloads.
 technology for uranium conversion equipment.
 test equipment for global positioning satellite receivers.
 thorium.
 thyristors.
 toxic gas detectors (3 licences).
 toxic gas monitoring equipment (3 licences).
 toxins (3 licences).
 viruses (3 licences).
 zirconium compounds (6 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	4	£197,090

corrosion resistant chemical manufacturing equipment (7 licences).
 information security equipment (2 licences).
 information security software.
 metal alloy cylindrical forms (2 licences).
 radiation hardened TV cameras.

The items being incorporated in this destination are ultimately destined for all or some of the following:

China
 Finland
 France
 Germany
 Kazakhstan
 New Zealand
 Norway
 Philippines
 Poland

Rwanda
 Senegal
 Thailand
 United Arab Emirates
 United Kingdom
 United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft missile protection systems, armoured plate, attack alerting/warning equipment, components for air-to-surface missiles, components for aircraft missile protection systems, components for constructions for ballistic protection of military systems, components for cryogenic equipment, components for gun mountings, components for launching/handling/control equipment for missiles, components for machine guns, components for military aero-engines, components for military electronic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military radars, components for military sonars, components for small arms ammunition, components for superconductive electrical equipment, components for targeting equipment, components for training air-to-surface missiles, components for weapon control equipment, constructions for ballistic protection of military systems, cryogenic equipment, devices containing military pyrotechnic materials, electronic countermeasure equipment, equipment for the operation of military aircraft in confined areas, equipment for the production of military helicopters, equipment for the use of military electronic equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military helicopters, equipment for the use of military radars, equipment for the use of military sonars, equipment for the use of weapon control equipment, general military aircraft components, gun mountings, launching/handling/control equipment for missiles, machine guns, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military containers, military electronic equipment, military guidance/navigation equipment, military parachutes and equipment, military radars, military sonars, military training equipment, signalling devices, signature suppression fittings/coatings/treatments for military use, software for military helicopters, Software for modelling/simulating/evaluating weapon systems, superconductive electrical equipment, targeting equipment, technology for military helicopters, technology for production installations for military helicopters, training air-to-surface missiles, training launching/handling/control equipment for missiles, weapon control equipment
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
3	P	goods treated for signature suppression for military use [See footnote 3]
4	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights,

		<p>aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>
5	P	<p>components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military</p>

		aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
6	P	information security equipment, information security software
7	T	components for inertial equipment, inertial equipment, technology for inertial equipment
8	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 5]
9	P	technology for information security equipment [See footnote 6]
10	P	components for military aircraft head-up/down displays, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, software for military training aircraft
11	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 8]
12	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for

		military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 9]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
14	P	components for submarines
15	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 11]
16	P	components for military aero-engines, components for naval engines
17	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 12]
18	P	components for combat naval vessels, components for military patrol/assault craft, equipment for the production of combat naval vessels, equipment for the production of military patrol/assault craft, equipment for the use of combat naval vessels, equipment for the use of military patrol/assault craft, technology for combat naval vessels, technology for equipment for the production of combat naval vessels, technology for equipment for the production of military patrol/assault craft, technology for equipment for the use of combat naval vessels, technology for equipment for the use of military patrol/assault craft, technology for military patrol/assault craft, unfinished products for combat naval vessels, unfinished products for military patrol/assault craft
19	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 13]
20	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 14]
21	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 26]
22	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 15]
23	P	technology for combat aircraft, technology for general military aircraft components
24	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental

		test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 27]
25	P	civil unmanned air vehicles, launch support equipment for civil unmanned air vehicles, technology for civil unmanned air vehicles [See footnote 25]
26	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 16]
27	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 28]

28	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
29	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 18]
30	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 19]
31	P	components for radar equipment, radar equipment, software for radar equipment
32	P	toxins
33	P	components for military support aircraft [See footnote 20]
34	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 21]
35	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 22]
36	P	components for semiconductor manufacturing equipment
37	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 23]
38	P	marine position fixing equipment, underwater telecommunications systems
39	P	components for air-to-surface missiles, components for launching/handling/control equipment for missiles, components for surface-to-surface missiles, equipment for the use of air-to-surface missiles, equipment for the use of surface-to-surface missiles, unfinished products for air-to-surface missiles, unfinished products for launching/handling/control equipment for missiles, unfinished products for surface-to-surface missiles [See footnote 24]
40	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 31]
41	P	components for submarines

42	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns
43	P	information security equipment, software for information security equipment, technology for information security equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	11	£378,992
Non-military	3	£227,678
Total	14	£606,670

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	1	£513
ML6	5	£236,454
ML13	5	£142,025

body armour (5 licences) [See footnote 6].
 components for body armour (5 licences) [See footnote 6].
 components for military equipment for initiating explosives.
 components for military support vehicles (2 licences).
 military helmets (4 licences) [See footnote 6].
 military support vehicles (3 licences) [See footnote 1].
 military trailers [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£81,442
5D002	1	£146,236

information security equipment (3 licences).
information security software.

promoting the supply of components for assault rifles [See footnote 4].
promoting the supply of components for body armour [See footnote 4].
promoting the supply of components for combat shotguns [See footnote 4].
promoting the supply of components for machine guns [See footnote 4].
promoting the supply of components for pistols (2 licences) [See footnotes 3, 4].
promoting the supply of components for rifles [See footnote 4].
promoting the supply of components for smooth-bore weapons [See footnote 4].
promoting the supply of components for sniper rifles [See footnote 4].
promoting the supply of components for sporting guns [See footnote 4].
promoting the supply of components for sporting shotguns [See footnote 4].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 4].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of CS hand grenades [See footnote 4].
promoting the supply of demolition charges/devices [See footnote 3].
promoting the supply of devices containing military pyrotechnic materials [See footnote 4].
promoting the supply of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 4].
promoting the supply of equipment for the use of aircraft cannons [See footnote 4].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 4].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 4].
promoting the supply of equipment for the use of artillery [See footnote 4].
promoting the supply of equipment for the use of assault rifles [See footnote 4].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 4].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 4].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the use of fire location equipment [See footnote 4].
promoting the supply of equipment for the use of flash suppressers [See footnote 4].
promoting the supply of equipment for the use of grenade launchers [See footnote 4].
promoting the supply of equipment for the use of gun silencers [See footnote 4].
promoting the supply of equipment for the use of heavy machine guns [See footnote 4].
promoting the supply of equipment for the use of machine guns [See footnote 4].
promoting the supply of equipment for the use of military radars [See footnote 4].
promoting the supply of equipment for the use of mortars [See footnote 4].
promoting the supply of equipment for the use of periscopes [See footnote 4].
promoting the supply of equipment for the use of pistols [See footnote 4].
promoting the supply of equipment for the use of projectile launchers [See footnote 4].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 4].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 4].
promoting the supply of equipment for the use of rifles [See footnote 4].

promoting the supply of equipment for the use of sensor integration equipment [See footnote 4].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 4].
promoting the supply of equipment for the use of sniper rifles [See footnote 4].
promoting the supply of equipment for the use of sporting guns [See footnote 4].
promoting the supply of equipment for the use of sporting shotguns [See footnote 4].
promoting the supply of equipment for the use of targeting equipment [See footnote 4].
promoting the supply of equipment for the use of weapon control equipment [See footnote 4].
promoting the supply of equipment for the use of weapon mountings [See footnote 4].
promoting the supply of equipment for the use of weapon night sights [See footnote 4].
promoting the supply of equipment for the use of weapon sights [See footnote 4].
promoting the supply of explosives [See footnote 3].
promoting the supply of fire location equipment [See footnote 4].
promoting the supply of flash suppressers [See footnote 4].
promoting the supply of fuze setting devices [See footnote 4].
promoting the supply of general military aircraft components [See footnote 4].
promoting the supply of grenade launchers [See footnote 4].
promoting the supply of gun mountings [See footnote 4].
promoting the supply of gun silencers [See footnote 4].
promoting the supply of hand grenades (2 licences) [See footnotes 3, 4].
promoting the supply of heavy machine guns [See footnote 4].
promoting the supply of illuminators [See footnote 4].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 4].
promoting the supply of machine guns [See footnote 4].
promoting the supply of military aero-engines [See footnote 4].
promoting the supply of military aircraft ground equipment [See footnote 4].
promoting the supply of military aircraft head-up/down displays [See footnote 4].
promoting the supply of military aircraft pressure refuellers [See footnote 4].
promoting the supply of military aircrew life support equipment [See footnote 4].
promoting the supply of military aircrew safety equipment [See footnote 4].
promoting the supply of military cameras/photographic equipment [See footnote 4].
promoting the supply of military combat vehicles [See footnote 4].
promoting the supply of military equipment for initiating explosives [See footnote 3].
promoting the supply of military helmets [See footnote 4].
promoting the supply of military image intensifier equipment [See footnote 4].
promoting the supply of military image recording/processing equipment [See footnote 4].
promoting the supply of military imaging radar sensor equipment [See footnote 4].
promoting the supply of military infrared/thermal imaging equipment [See footnote 4].
promoting the supply of military radars [See footnote 4].
promoting the supply of military support vehicles [See footnote 4].
promoting the supply of mortars [See footnote 4].
promoting the supply of periscopes [See footnote 4].
promoting the supply of pistols (2 licences) [See footnotes 3, 4].
promoting the supply of projectile launchers [See footnote 4].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 4].
promoting the supply of rangefinding equipment [See footnote 4].
promoting the supply of recognition/identification equipment [See footnote 4].
promoting the supply of rifles [See footnote 4].
promoting the supply of sensor integration equipment [See footnote 4].
promoting the supply of signalling devices (2 licences) [See footnotes 3, 4].
promoting the supply of small arms ammunition (2 licences) [See footnotes 3, 4].
promoting the supply of smoke canisters [See footnote 4].
promoting the supply of smooth-bore weapons [See footnote 4].
promoting the supply of sniper rifles [See footnote 4].
promoting the supply of sporting guns [See footnote 4].
promoting the supply of sporting shotgun ammunition [See footnote 3].
promoting the supply of sporting shotguns [See footnote 4].
promoting the supply of surface launched rockets [See footnote 3].
promoting the supply of targeting equipment [See footnote 4].
promoting the supply of training explosive charges/devices [See footnote 3].
promoting the supply of unmanned air vehicles [See footnote 4].
promoting the supply of wall/door breaching projectiles/ammunition [See footnote 3].
promoting the supply of water cannon [See footnote 4].
promoting the supply of weapon cleaning equipment [See footnote 4].
promoting the supply of weapon control equipment [See footnote 4].
promoting the supply of weapon mountings [See footnote 4].
promoting the supply of weapon night sights [See footnote 4].
promoting the supply of weapon sight mounts [See footnote 4].
promoting the supply of weapon sights [See footnote 4].

Country Footnotes

1. EU Council Decision 2015/740/CFSP replaced Council Decision 2014/449/CFSP.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. EU Council Decision (CFSP) 2015/740, as amended and Council Regulation (EU) 2015/735, as amended, transpose UNSCR 2206 (2015). This provide for restrictive measures in the form of travel restrictions and asset freezes that may be applied in relation to persons and entities designated by the Security Council Committee.

The measures embargo the provision of arms and related materiel to South Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU, EU or IGAD personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, AU or IGAD personnel, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	120	£6,017,725
Non-military	12	£159,193
Both Military and Non-military	3	£19,505
Total	135	£6,196,422

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	24	£685,509
ML2	4	£58,667
ML3	4	£25,519
ML4	9	£2,577,539
ML5	2	£54,436
ML7	2	£15,072
ML8	1	£16
ML9	1	£1,071
ML10	43	£937,657
ML11	20	£795,853
ML13	5	£262,550
ML15	1	£165,020
ML16	11	£438,592
ML17	1	£100
ML22	3	£124

	airborne refuelling equipment.
	aircraft military communications equipment.
	anti-armour ammunition.
	armoured plate (2 licences).
	body armour.
	components for airborne refuelling equipment (10 licences).
	components for artillery (4 licences).
	components for body armour (3 licences).
	components for combat aircraft.
	components for decoying/countermeasure equipment (4 licences).
	components for electronic countermeasure equipment.
	components for electronic warfare equipment (12 licences).
T	components for gun mountings.
	components for military communications equipment (2 licences).
	components for military guidance/navigation equipment.
	components for military support aircraft (29 licences) [See footnote 17].
	components for military training aircraft (2 licences).
T	components for NBC detection equipment.
T	components for NBC protective/defensive equipment.
	components for pistols.
	components for sniper rifles.
T	components for sniper rifles.
	components for sporting guns (3 licences).
	crowd control ammunition.
	decoying/countermeasure equipment (4 licences).
	equipment for the use of military radars.
T	equipment for the use of NBC detection equipment.

- T equipment for the use of weapon night sights.
general naval vessel components.
gun mountings.
gun silencers.
hand grenades.
- T military communications equipment.
military guidance/navigation equipment.
- T military guidance/navigation equipment.
military helmets (3 licences).
- T military image intensifier equipment.
- T military infrared/thermal imaging equipment.
- T military laser protection equipment.
- T NBC detection equipment.
- T NBC protective/defensive equipment.
pistols (12).
precursors for energetic materials.
- T rangefinding equipment.
rifles (1).
small arms ammunition (2 licences).
sniper rifles (1).
sniper rifles (7).
sporting guns (1) (10 licences).
sporting guns (2).
sporting guns (3) (2 licences).
technology for decoying/countermeasure equipment (2 licences).
technology for military guidance/navigation equipment.
training small arms ammunition (2 licences).
unfinished products for combat aircraft (2 licences).
unfinished products for military combat vehicles (8 licences).
unfinished products for military training aircraft.
wall/door breaching projectiles/ammunition (2 licences).
weapon night sights (2 licences).
- T weapon night sights.
weapon sights (2 licences).
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0E001	2	£101
1A007	4	£113,210
1C233	2	£9,647
2B350	1	£9,045
6A001	1	£3,789
PL9010	2	£23,400

- T components for marine position fixing equipment.
corrosion resistant chemical manufacturing equipment.
devices containing enriched lithium.
non-military detonators (2 licences).
non-military firing sets.
- T non-military firing sets.
products containing enriched lithium.
sporting shotguns (2).
sporting shotguns (5).
technology for nuclear reactors (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	3	£14,603

PL9010	3	£4,902
--------	---	--------

sporting guns (1).
sporting guns (3).
sporting shotguns (2).
sporting shotguns (4) (2 licences).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	72	£6,121,805
Non-military	4	£377,777
Total	76	£6,499,581

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML5	2	£258,492
ML6	2	£81,004
ML7	1	£37,370
ML9	3	£82,626
ML10	30	£3,785,271
ML11	24	£1,242,582
ML15	1	£77,520
ML16	10	£556,940
ML22	3	£0

aircraft military communications equipment.
components for airborne refuelling equipment (9 licences).
components for aircraft military communications equipment (2 licences).
components for attack alerting/warning equipment.
components for combat aircraft (5 licences).
components for electronic warfare equipment (14 licences).
components for military aero-engines (2 licences) [See footnote 21].
components for military auxiliary/support vessels (2 licences).
components for military combat vehicles.
components for military communications equipment (5 licences).
components for military infrared/thermal imaging equipment.
components for military support aircraft (12 licences).
components for naval communications equipment.
components for NBC protective/defensive equipment.
components for targeting equipment.
electronic warfare equipment (3 licences).
equipment for the use of military communications equipment (2 licences).
general military vehicle components.
military communications equipment (3 licences).
military guidance/navigation equipment.
NBC protective/defensive equipment.
technology for electronic warfare equipment (3 licences).
unfinished products for military aero-engines.

unfinished products for military combat vehicles (9 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A225	1	£846
5A001	1	£56,075
5A002	1	£40,000
IRN	1	£280,856

frequency changers.
information security equipment.
pumps.
underwater telecommunications systems.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Argentina

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
3	P	goods treated for signature suppression for military use [See footnote 3]
4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
5	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the

		use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
6	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 5]
8	P	sporting shotgun ammunition [See footnote 6]
9	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 7]
10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 8]
11	T	inertial equipment [See footnote 9]
12	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military

		support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 10]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
14	P	components for weapon sights, weapon sights
15	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
16	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 11]
17	T	towed hydrophone arrays
18	P	direct view imaging equipment, imaging cameras, targeting equipment
19	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 12]
20	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment

21	P	components for military aero-engines, military aero-engines, technology for military aero-engines
22	P	technology for NBC detection equipment [See footnote 13]
23	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 14]
24	P	components for military combat vehicles
25	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
26	P	components for military support aircraft [See footnote 15]
27	P	Software for modelling/simulating military operation scenarios, Software for modelling/simulating/evaluating weapon systems, software for multi-role missiles, technology for multi-role missiles, technology for Software for modelling/simulating military operation scenarios, technology for Software for modelling/simulating/evaluating weapon systems
28	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 22]

29	P	<p>aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights</p>
30	P	<p>components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights</p>

31	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 23]
32	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 16]
33	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
34	P	components for military support aircraft [See footnote 19]
35	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 20]
36	P	components for military helicopters
37	P	components for sporting guns
38	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment
39	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 24]
40	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	23	£2,155,027
Non-military	6	£414,695
Total	29	£2,569,722

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£1,158
ML4	4	£328,010
ML7	3	£1,550
ML9	1	£9,608
ML10	8	£1,662,500
ML11	2	£25,200
ML13	1	£0
ML15	1	£125,000
ML22	2	£2,001

accessories for bomb suits [See footnote 9].
 bomb suits [See footnote 9].
 components for bomb suits [See footnote 9].
 components for military aero-engines.
 components for military guidance/navigation equipment.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 components for military patrol/assault craft.
 components for military support aircraft (7 licences) [See footnote 23].
 components for munitions/ordnance detection/disposal equipment.
 components for NBC protective/defensive equipment (2 licences) [See footnote 22].
 military communications equipment [See footnote 9].
 military equipment for initiating explosives [See footnote 8].
 military helmets [See footnote 9].
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnote 8].

T military infrared/thermal imaging equipment.
munitions/ordnance detection/disposal equipment.
NBC protective/defensive equipment (3 licences) [See footnote 22].
technology for general military aircraft components.
technology for military aircrew life support equipment.
technology for military helicopters.
technology for military parachutes.
weapon sights (2 licences) [See footnote 11].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£32,000
1C351	1	£25
6A001	2	£352,800
6A003	1	£16,120
7A103	1	£13,750

acoustic seabed survey equipment (2 licences).
bacteria.
civil NBC detection systems.
imaging cameras.
inertial equipment.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	3	£7,230,874
Total	3	£7,230,874

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML10	3	£7,230,874

components for military support aircraft (3 licences).

The items being incorporated in this destination are ultimately destined for all or some of the following:

United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 2]
3	P	military equipment for initiating explosives [See footnote 3]
4	P	body armour, components for body armour, components for munitions/ordnance detection/disposal equipment, devices for initiating explosives, munitions/ordnance detection/disposal equipment, non-military firing sets [See footnote 16]
5	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
6	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 25]

promoting the supply of fuze setting devices [See footnote 7].
promoting the supply of general military aircraft components [See footnote 7].
promoting the supply of grenade launchers [See footnote 7].
promoting the supply of ground vehicle military communications equipment [See footnote 17].
promoting the supply of gun mountings (3 licences) [See footnotes 17, 18, 7].
promoting the supply of gun silencers [See footnote 7].
promoting the supply of hand grenades [See footnote 7].
promoting the supply of heavy machine guns [See footnote 7].
promoting the supply of illuminators [See footnote 7].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 7].
promoting the supply of machine guns [See footnote 7].

promoting the supply of military aero-engines [See footnote 7].
 promoting the supply of military aircraft ground equipment [See footnote 7].
 promoting the supply of military aircraft head-up/down displays [See footnote 7].
 promoting the supply of military aircraft pressure refuellers [See footnote 7].
 promoting the supply of military aircrew life support equipment [See footnote 7].
 promoting the supply of military aircrew safety equipment [See footnote 7].
 promoting the supply of military cameras/photographic equipment [See footnote 7].
 promoting the supply of military combat vehicles [See footnote 7].
 promoting the supply of military communications equipment [See footnote 17].
 promoting the supply of military helmets (2 licences) [See footnotes 17, 7].
 promoting the supply of military image intensifier equipment (2 licences) [See footnotes 17, 7].
 promoting the supply of military image recording/processing equipment [See footnote 7].
 promoting the supply of military imaging radar sensor equipment [See footnote 7].
 promoting the supply of military infrared/thermal imaging equipment (2 licences) [See footnotes 17, 7].
 promoting the supply of military radars [See footnote 7].
 promoting the supply of military shotguns (2 licences) [See footnotes 17, 18].
 promoting the supply of military support vehicles [See footnote 7].
 promoting the supply of mortars [See footnote 7].
 promoting the supply of naval communications equipment [See footnote 17].
 promoting the supply of periscopes [See footnote 7].
 promoting the supply of pistols (3 licences) [See footnotes 17, 18, 7].
 promoting the supply of projectile launchers [See footnote 7].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 7].
 promoting the supply of rangefinding equipment [See footnote 7].
 promoting the supply of recognition/identification equipment [See footnote 7].
 promoting the supply of rifles (4 licences) [See footnotes 17, 18, 4, 7].
 promoting the supply of sensor integration equipment [See footnote 7].
 promoting the supply of signalling devices [See footnote 7].
 promoting the supply of small arms ammunition (3 licences) [See footnotes 17, 18, 7].
 promoting the supply of smoke canisters [See footnote 7].
 promoting the supply of smooth-bore weapons (3 licences) [See footnotes 17, 18, 7].
 promoting the supply of sniper rifles (3 licences) [See footnotes 17, 18, 7].
 promoting the supply of sporting guns (4 licences) [See footnotes 17, 18, 4, 7].
 promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 17, 18].
 promoting the supply of sporting shotguns (3 licences) [See footnotes 17, 18, 7].
 promoting the supply of tactical shotguns (2 licences) [See footnotes 17, 18].
 promoting the supply of targeting equipment [See footnote 7].
 promoting the supply of unmanned air vehicles [See footnote 7].
 promoting the supply of water cannon [See footnote 7].
 promoting the supply of weapon cleaning equipment [See footnote 7].
 promoting the supply of weapon control equipment [See footnote 7].
 promoting the supply of weapon mountings [See footnote 7].
 promoting the supply of weapon night sights (3 licences) [See footnotes 17, 18, 7].
 promoting the supply of weapon sight mounts [See footnote 7].
 promoting the supply of weapon sights (3 licences) [See footnotes 17, 18, 7].
 rifles (4 licences) [See footnotes 12, 19, 24].
 small arms ammunition (5 licences) [See footnotes 12, 19, 24, 5].
 smoke/pyrotechnic ammunition (3 licences) [See footnotes 19, 24].
 smooth-bore weapons (4 licences) [See footnotes 12, 19, 24].
 sniper rifles (5 licences) [See footnotes 12, 19, 24, 5].
 sporting guns (4 licences) [See footnotes 12, 19, 24].
 sporting shotgun ammunition (4 licences) [See footnotes 12, 19, 24].
 sporting shotguns (4 licences) [See footnotes 12, 19, 24].
 tactical shotguns (3 licences) [See footnotes 19, 24].
 tear gas/irritant ammunition (3 licences) [See footnotes 19, 24].
 weapon cleaning equipment [See footnote 5].
 weapon night sights (4 licences) [See footnotes 12, 19, 24].
 weapon sights (5 licences) [See footnotes 12, 19, 24, 5].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£10,377
Non-military	1	£40,000
Total	5	£50,377

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£1,852
ML3	1	£1,325
ML13	1	£7,200
ML22	1	£0

body armour.
small arms ammunition.
sporting guns (2).
technology for command communications control and intelligence software.
technology for military communications equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£40,000

imaging cameras.

promoting the supply of rifles [See footnote 2].
promoting the supply of sensor integration equipment [See footnote 2].
promoting the supply of signalling devices [See footnote 2].

promoting the supply of small arms ammunition [See footnote 2].
 promoting the supply of smoke canisters [See footnote 2].
 promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

Country Footnotes

1. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

2. UN Security Council resolution 1556 (2004) established an embargo on the supply of arms and related material to non-governmental entities in the Darfur region of Sudan; this was extended to include all individuals and entities in Darfur through Resolution 1591 (2005).

EU Council Decision 2011/423/CFSP, as amended, embargoed the provision of arms and related material to Sudan and South Sudan. EU Council Decision 2014/450/CFSP repealed Decision 2011/423/CFSP and separated the restrictive measures imposed on Sudan into a distinct legal instrument. The enforcement of the arms embargo was further strengthened by resolution 1945 (2010) of 14 October 2010. This is implemented by Council Regulation (EC) No 747/2014, as amended.

The measures embargo the provision of arms and related materiel to Sudan, as well as assistance and services related to those items or to the provision, manufacture, maintenance and use of those items. Exemptions exist for equipment intended for humanitarian, human rights monitoring or protective use, non-lethal equipment and protective clothing for use by UN, AU or EU personnel in crisis management and institution building programmes, non-combat vehicles intended for protective use by EU, UN, or AU, and demining equipment.

All exports for this destination were approved in accordance with the sanctions in place.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	101	£5,870,886
Non-military	11	£333,815
Both Military and Non-military	1	£151,000
Total	113	£6,355,701

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	12	£562,846
ML2	10	£94,144
ML3	3	£20,552
ML4	18	£1,545,700
ML5	22	£554,425
ML6	9	£62,788
ML7	5	£11,533
ML8	1	£4,000
ML9	3	£124,151
ML10	6	£296,789
ML11	9	£401,743
ML13	3	£890,511
ML15	1	£223,020
ML16	2	£1,058,668
ML17	1	£100
ML18	1	£16,707
ML22	5	£3,210

components for anti-aircraft guns (4 licences).
 components for artillery.
 components for artillery ammunition.
 components for combat aircraft.
 components for decoying/countermeasure equipment.
 components for electronic warfare equipment.
 components for equipment for the production of launching/handling/control equipment for man portable air defence system missiles.
 components for launching/handling/control equipment for man portable air defence system missiles (3 licences).
 components for launching/handling/control equipment for missiles (2 licences).
 components for launching/handling/control equipment for munitions.
 components for man portable air defence systems.
 components for military aero-engines (3 licences).
 components for military combat vehicles (2 licences).
 components for military electronic equipment.
 components for military equipment for initiating explosives.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military radars (18 licences).
 components for military support vehicles (2 licences).
 components for naval communications equipment.
 components for naval guns (5 licences).
 components for NBC protective/defensive equipment (2 licences).

- T components for NBC protective/defensive equipment.
- components for sniper rifles.
- components for sporting guns.
- components for surface-to-surface missiles (3 licences).
- components for tanks.
- components for torpedoes.
- decoying/countermeasure equipment (2 licences).
- electronic warfare equipment.
- T electronic warfare equipment (2 licences).
- equipment for the use of air-to-air missiles.
- T equipment for the use of weapon night sights.
- explosives.
- general military aircraft components.
- general military vehicle components (3 licences).
- general naval vessel components (2 licences).
- gun mountings (2 licences).
- gun silencers.
- military aircraft ground equipment (2 licences).
- military electronic equipment.
- T military electronic equipment.
- military equipment for initiating explosives.
- T military guidance/navigation equipment.
- military helmets (3 licences).
- T military image intensifier equipment.
- military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment.
- T military laser protection equipment.
- military radars.
- military support vehicles.
- munitions/ordnance detection/disposal equipment.
- naval communications equipment.
- NBC protective/defensive equipment (2 licences).
- T NBC protective/defensive equipment.
- rangefinding equipment.
- T rangefinding equipment.
- sniper rifles (1) (4 licences).
- sniper rifles (2).
- sporting guns (1) (2 licences).
- surface-to-surface missiles.
- technology for decoying/countermeasure equipment.
- technology for launching/handling/control equipment for man portable air defence system missiles.
- technology for man portable air defence system missiles.
- technology for sniper rifles.
- technology for unfinished products for anti-armour weapons.
- training small arms ammunition (2 licences).
- unfinished products for anti-armour weapons.
- unfinished products for launching/handling/control equipment for missiles.
- weapon night sights (2 licences).
- T weapon night sights.
- weapon sights.
- T weapon sights.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0D001	2	£120,000
0E001	2	£6
1C233	2	£6,761
8A001	1	£170,000
8A002	1	£20,000
PL9010	4	£17,048

- devices containing enriched lithium.
- products containing enriched lithium.
- software for nuclear reactors (2 licences).

sporting shotguns (1) (3 licences).
 sporting shotguns (2).
 T submersible equipment.
 T submersible vehicles.
 technology for materials controlled by entry 0C of the Dual-Use Regulation.
 technology for nuclear fuel reprocessing equipment.
 technology for nuclear grade graphite.
 technology for nuclear reactor fuel element fabrication equipment.
 technology for nuclear reactors (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A003	1	£16,000
ML1	1	£135,000

imaging cameras.
 weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	75	£185,801,290
Total	75	£185,801,290

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML4	6	£804,223
ML5	17	£149,089,416
ML6	3	£1,967
ML9	3	£20,711
ML10	38	£32,691,271
ML11	6	£584,899
ML14	1	£4,556
ML15	1	£2,599,900
ML21	1	£5
ML22	2	£4,344

components for air-to-surface missiles.
 components for aircraft military communications equipment.
 components for combat aircraft (20 licences) [See footnote 13].
 components for electronic warfare equipment (3 licences).
 components for launching/handling/control equipment for missiles [See footnote 20].
 components for man portable air defence system missiles (2 licences).
 components for military electronic equipment.

components for military radars (14 licences) [See footnote 14].
 components for military support aircraft (14 licences).
 components for rangefinding equipment (3 licences).
 components for surface-to-surface missiles [See footnote 15].
 decoying/countermeasure equipment.
 electronic warfare equipment (2 licences).
 general military aircraft components (4 licences) [See footnote 3].
 general military vehicle components (3 licences).
 general naval vessel components (2 licences).
 military infrared/thermal imaging equipment [See footnote 4].
 military training equipment.
 naval electrical/electronic equipment.
 software for military radars.
 technology for aircraft military communications equipment.
 technology for military radars.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Brazil
 Czech Republic
 Egypt
 Finland
 India
 Ireland
 Kenya
 Lithuania
 Netherlands
 Pakistan
 Qatar
 Saudi Arabia
 Singapore
 South Africa
 South Korea
 Thailand
 Turkey
 United Arab Emirates
 United Kingdom

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components

		for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
2	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 1]
3	P	goods treated for signature suppression for military use [See footnote 2]

4	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment
5	P	components for combat aircraft, components for military guidance/navigation equipment, general military aircraft components [See footnote 5]
6	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 7]
8	P	sporting shotgun ammunition [See footnote 8]
9	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 9]
10	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 10]
11	T	inertial equipment [See footnote 11]
12	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment
13	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment,

		<p>components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 12]</p>
14	P	<p>components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment</p>
15	P	<p>components for weapon sights, weapon sights</p>
16	P	<p>aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft</p>

17	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 16]
18	T	towed hydrophone arrays
19	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 17]
20	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
21	P	components for military aero-engines, military aero-engines, technology for military aero-engines
22	P	technology for NBC detection equipment [See footnote 18]
23	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 19]
24	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
25	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays,

		<p>unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 23]</p>

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	117	£11,746,849
Non-military	46	£3,171,837
Both Military and Non-military	3	£11,235
Total	166	£14,929,921

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	28	£1,689,406
ML2	1	£45,000
ML3	5	£23,562
ML4	3	£2,784,881
ML5	14	£1,773,895
ML6	10	£1,738,749
ML7	6	£200,000
ML9	1	£508
ML10	36	£1,684,568
ML11	13	£196,703
ML13	5	£124,780

ML14	1	£2,573
ML15	7	£1,241,800
ML21	6	£65,423
ML22	2	£175,000

- anti-armour ammunition.
- armoured plate.
- blank/inert ammunition.
- body armour (2 licences).
- components for assault rifles (2 licences).
- components for body armour (4 licences).
- components for combat aircraft (2 licences).
- T components for combat aircraft.
- components for decoying/countermeasure equipment.
- components for military aero-engines.
- components for military combat vehicles.
- components for military electronic equipment (5 licences).
- components for military guidance/navigation equipment (3 licences).
- components for military radars (3 licences).
- components for military training aircraft (13 licences).
- components for military training equipment.
- components for NBC detection equipment (3 licences).
- components for NBC protective/defensive equipment.
- components for pistols (5 licences).
- components for rifles.
- components for small arms ammunition.
- components for sniper rifles (5 licences).
- components for sporting guns (2 licences).
- T components for sporting guns.
- components for unmanned air vehicles.
- components for weapon control equipment (6 licences).
- decoying/countermeasure equipment (3 licences).
- general military aircraft components (10 licences).
- general military vehicle components (6 licences).
- general naval vessel components.
- gun silencers (5 licences).
- military aircraft ground equipment (2 licences).
- T military aircrew life support equipment (2 licences).
- military aircrew safety equipment (4 licences).
- T military aircrew safety equipment (2 licences).
- military combat vehicles (2 licences).
- military communications equipment (2 licences).
- T military electronic equipment.
- military guidance/navigation equipment.
- T military guidance/navigation equipment (7 licences).
- military helmets (2 licences).
- T military image intensifier equipment (7 licences).
- T military infrared/thermal imaging equipment (7 licences).
- T military software.
- military support vehicles.
- NBC detection equipment (4 licences).
- NBC protective/defensive equipment.
- T projectile launchers.
- rangefinding equipment.
- T rangefinding equipment.
- small arms ammunition (2 licences).
- sniper rifles (1) (2 licences).
- sniper rifles (2).
- sniper rifles (17).
- software for military guidance/navigation equipment (2 licences).
- software for military training aircraft.
- software for Software for modelling/simulating military operation scenarios.
- software for targeting equipment.
- sporting guns (1) (3 licences).
- sporting guns.
- targeting equipment.
- T targeting equipment (2 licences).
- technology for targeting equipment.

- technology for unmanned air vehicles.
- training small arms ammunition (2 licences).
- weapon night sights.
- T weapon night sights (7 licences).
- weapon sights.
- T weapon sights (7 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	2	£608
0E001	1	£50
1A004	1	£87
1C001	1	£1,950
1C229	1	£353
1C231	1	£1,054
1C233	2	£3,823
1C234	4	£4,570
1C235	2	£608
1C351	12	£1,507,605
1C353	2	£7
2B351	1	£50
3A001	1	£4,098
3A225	1	£1,650
5A001	1	£80,000
5A002	4	£623,907
5D002	1	£175
6A003	2	£56,980
OC001	1	£0
PL9003	3	£3,000
PL9010	9	£881,262

- anthrax vaccines.
- T anthrax vaccines (2 licences).
- bacteria.
- bismuth.
- civil NBC detection systems.
- components for sporting shotguns.
- devices containing enriched lithium.
- devices containing enriched lithium compounds.
- electromagnetic wave absorbing materials.
- frequency changers.
- hafnium manufactures.
- imaging cameras.
- T imaging cameras.
- information security equipment (3 licences).
- T information security equipment.
- information security software.
- pathogenic genetic elements (2 licences).
- products containing depleted uranium (2 licences).
- sporting shotguns (1) (2 licences).
- sporting shotguns (2) (5 licences).
- sporting shotguns (3).
- technology for uranium isotope separation equipment.
- telecommunications interception equipment.
- thyristors.
- toxic gas monitoring equipment.
- toxins (9 licences).
- tritium (2 licences).
- viruses (2 licences).
- zirconium compounds (4 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£4,260
5D002	1	£1,000
ML1	1	£600
ML7	1	£1,375
ML21	1	£0
PL9010	1	£4,000

- T civil NBC protection clothing.
information security software.
NBC protective/defensive equipment.
- T software enabling equipment to function as military communications equipment.
sporting guns (1).
sporting shotguns (2).

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	36	£4,602,895
Total	36	£4,602,895

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	1	£85,300
ML5	6	£680,535
ML6	4	£3,461
ML10	22	£2,996,299
ML11	1	£744,800
ML13	1	£40,000
ML21	1	£50,000
ML22	1	£2,500

- armoured plate.
components for combat aircraft (4 licences).
components for machine guns.
components for military aero-engines.
components for military aircraft ground equipment.
components for military radars (4 licences) [See footnote 12].
components for military training aircraft (11 licences).
components for weapon control equipment (2 licences).
general military aircraft components (3 licences).
general military vehicle components (4 licences).
machine guns (10).
military aircraft ground equipment (2 licences).
military electronic equipment.
software for military training equipment.
technology for machine guns.

Australia
 Austria
 Bangladesh
 Botswana
 Brazil
 Brunei
 Bulgaria
 Canada
 Chile
 China
 Croatia
 Czech Republic
 Denmark
 Egypt
 France
 Germany
 India
 Indonesia
 Ireland
 Jordan
 Malaysia
 Mexico
 Netherlands
 Norway
 Oman
 Poland
 Portugal
 Qatar
 Romania
 Saudi Arabia
 Singapore
 Slovenia
 South Africa
 Spain
 Thailand
 Turkey
 United Arab Emirates
 United Kingdom
 United States of America
 Uruguay

SIELs for goods covered by the torture regulation

Issued

Types of goods on licence	No. of licences	Value
Goods covered by the torture regulation	3	£107
Goods covered by the torture regulation and Military	0	£0
Goods covered by the torture regulation and Non-military	0	£0
Goods covered by the torture regulation and Both Military and Non-military	0	£0

Total	3	£107
-------	---	------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Goods covered by the torture regulation

Control Entry	No. of licences with goods rated using Control Entry	Value
HR AIII	3	£107

barbiturate anaesthetic agents for injection (3 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for combat aircraft, components for military aero-engines, components for military radars, components for military training aircraft, components for targeting equipment, general military aircraft components
2	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 1]
3	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 2]
4	P	goods treated for signature suppression for military use [See footnote 3]
5	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights,

		<p>aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for targeting equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights</p>

14	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the

		development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 11]
15	P	components for weapon sights, weapon sights
16	P	components for sporting guns [See footnote 13]
17	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 14]
18	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
19	P	aircraft gaskets, aircraft military communications equipment, aircraft seals, components for aircraft military communications equipment, components for equipment for the use of aircraft military communications equipment, components for equipment for the use of general military aircraft components, components for equipment for the use of military aero-engines, components for equipment for the use of military communications equipment, components for equipment for the use of military guidance/navigation equipment, components for equipment for the use of military radars, components for equipment for the use of military support aircraft, components for military aero-engines, components for military communications equipment, components for military electronic equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military communications equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military communications equipment, military electronic equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, military radars, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military communications equipment, technology for military electronic equipment, technology for military guidance/navigation equipment, technology for military radars, technology for military support aircraft
20	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 15]
21	P	components for sporting shotgun ammunition, sporting shotgun ammunition
22	P	targeting equipment
23	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 17]
24	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 18]
25	P	technology for NBC detection equipment [See footnote 19]

26	P	components for combat aircraft
27	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 20]
28	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment
29	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 25]
30	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
31	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for

		developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment, unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
32	P	components for military image intensifier equipment, components for rangefinding equipment, components for targeting equipment, components for weapon sights, military image intensifier equipment, rangefinding equipment, software for military image intensifier equipment, software for rangefinding equipment, software for targeting equipment, targeting equipment, technology for military image intensifier equipment, technology for rangefinding equipment, technology for targeting equipment, technology for weapon sights, weapon sight mounts, weapon sights
33	P	toxins
34	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 26]
35	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military

		communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 21]
36	P	unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for military training aircraft
37	P	components for military support aircraft [See footnote 22]
38	P	accessories for military cameras/photographic equipment, aircraft military communications equipment, components for aircraft military communications equipment, components for military cameras/photographic equipment, components for military communications equipment, components for military electronic equipment, components for military helmets, components for military image intensifier equipment, components for military laser protection equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helmets, equipment for the use of military parachutist equipment, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military helmets, military laser protection equipment, technology for aircraft military communications equipment, technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment [See footnote 23]
39	P	components for military training aircraft
40	P	components for launching/handling/control equipment for missiles, components for surface-to-air missiles, equipment for the use of surface-to-air missiles, unfinished products for launching/handling/control equipment for missiles, unfinished products for surface-to-air missiles [See footnote 24]
41	P	components for military training aircraft [See footnote 27]

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£51,847
Non-military	2	£3,446
Total	4	£55,293

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML13	2	£51,847

body armour (2 licences) [See footnotes 2, 4].
 components for body armour (2 licences) [See footnotes 2, 4].
 military helmets (2 licences) [See footnotes 2, 4].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C003	1	£874
5A002	1	£2,572

deuterium compounds [See footnote 3].
 information security equipment.

promoting the supply of components for smooth-bore weapons [See footnote 1].
promoting the supply of components for sniper rifles [See footnote 1].
promoting the supply of components for sporting guns [See footnote 1].
promoting the supply of components for sporting shotguns [See footnote 1].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 1].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 1].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 1].
promoting the supply of CS hand grenades [See footnote 1].
promoting the supply of devices containing military pyrotechnic materials [See footnote 1].
promoting the supply of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 1].
promoting the supply of equipment for the use of aircraft cannons [See footnote 1].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 1].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 1].
promoting the supply of equipment for the use of artillery [See footnote 1].
promoting the supply of equipment for the use of assault rifles [See footnote 1].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 1].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 1].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 1].
promoting the supply of equipment for the use of fire location equipment [See footnote 1].
promoting the supply of equipment for the use of flash suppressers [See footnote 1].
promoting the supply of equipment for the use of grenade launchers [See footnote 1].
promoting the supply of equipment for the use of gun silencers [See footnote 1].
promoting the supply of equipment for the use of heavy machine guns [See footnote 1].
promoting the supply of equipment for the use of machine guns [See footnote 1].
promoting the supply of equipment for the use of military radars [See footnote 1].
promoting the supply of equipment for the use of mortars [See footnote 1].
promoting the supply of equipment for the use of periscopes [See footnote 1].
promoting the supply of equipment for the use of pistols [See footnote 1].
promoting the supply of equipment for the use of projectile launchers [See footnote 1].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 1].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 1].
promoting the supply of equipment for the use of rifles [See footnote 1].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 1].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 1].
promoting the supply of equipment for the use of sniper rifles [See footnote 1].

promoting the supply of equipment for the use of sporting guns [See footnote 1].
promoting the supply of equipment for the use of sporting shotguns [See footnote 1].
promoting the supply of equipment for the use of targeting equipment [See footnote 1].
promoting the supply of equipment for the use of weapon control equipment [See footnote 1].
promoting the supply of equipment for the use of weapon mountings [See footnote 1].
promoting the supply of equipment for the use of weapon night sights [See footnote 1].
promoting the supply of equipment for the use of weapon sights [See footnote 1].
promoting the supply of fire location equipment [See footnote 1].
promoting the supply of flash suppressers [See footnote 1].
promoting the supply of fuze setting devices [See footnote 1].
promoting the supply of general military aircraft components [See footnote 1].
promoting the supply of grenade launchers [See footnote 1].
promoting the supply of gun mountings [See footnote 1].
promoting the supply of gun silencers [See footnote 1].
promoting the supply of hand grenades [See footnote 1].
promoting the supply of heavy machine guns [See footnote 1].
promoting the supply of illuminators [See footnote 1].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 1].
promoting the supply of machine guns [See footnote 1].
promoting the supply of military aero-engines [See footnote 1].
promoting the supply of military aircraft ground equipment [See footnote 1].
promoting the supply of military aircraft head-up/down displays [See footnote 1].
promoting the supply of military aircraft pressure refuellers [See footnote 1].
promoting the supply of military aircrew life support equipment [See footnote 1].
promoting the supply of military aircrew safety equipment [See footnote 1].
promoting the supply of military cameras/photographic equipment [See footnote 1].
promoting the supply of military combat vehicles [See footnote 1].
promoting the supply of military helmets [See footnote 1].
promoting the supply of military image intensifier equipment [See footnote 1].
promoting the supply of military image recording/processing equipment [See footnote 1].
promoting the supply of military imaging radar sensor equipment [See footnote 1].
promoting the supply of military infrared/thermal imaging equipment [See footnote 1].
promoting the supply of military radars [See footnote 1].
promoting the supply of military support vehicles [See footnote 1].
promoting the supply of mortars [See footnote 1].
promoting the supply of periscopes [See footnote 1].
promoting the supply of pistols [See footnote 1].
promoting the supply of projectile launchers [See footnote 1].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 1].
promoting the supply of rangefinding equipment [See footnote 1].
promoting the supply of recognition/identification equipment [See footnote 1].
promoting the supply of rifles [See footnote 1].
promoting the supply of sensor integration equipment [See footnote 1].
promoting the supply of signalling devices [See footnote 1].
promoting the supply of small arms ammunition [See footnote 1].
promoting the supply of smoke canisters [See footnote 1].
promoting the supply of smooth-bore weapons [See footnote 1].
promoting the supply of sniper rifles [See footnote 1].
promoting the supply of sporting guns [See footnote 1].
promoting the supply of sporting shotguns [See footnote 1].
promoting the supply of targeting equipment [See footnote 1].
promoting the supply of unmanned air vehicles [See footnote 1].
promoting the supply of water cannon [See footnote 1].
promoting the supply of weapon cleaning equipment [See footnote 1].
promoting the supply of weapon control equipment [See footnote 1].
promoting the supply of weapon mountings [See footnote 1].
promoting the supply of weapon night sights [See footnote 1].
promoting the supply of weapon sight mounts [See footnote 1].
promoting the supply of weapon sights [See footnote 1].

Country Footnotes

1. On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

All exports for this destination were approved in accordance with the sanctions in place.

2. On 31 May 2013, the EU adopted Council Decision 2013/255/CFSP, as amended, and Council Regulation (EU) No 36/2012, as amended, which lifted the embargoes on arms and related material, as well as on equipment which might be used for internal repression.

This Decision also renewed the remaining measures set out in repealed Decision 2012/739/CFSP, which include embargoes on further equipment that might be used for internal repression (chemical warfare precursors and related equipment), monitoring and interception equipment, key equipment and technology for certain sectors of the oil and natural gas industry in Syria, luxury goods, and Syrian denominated banknotes and coinage.

Common Position 2005/888/CFSP, as amended, and Council Regulation (EC) No 305/2006, as amended, are also in place.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for end use by a international organisation.
3. Licence granted for medical research purposes. Academic end users.
4. Licence granted for accessories / spare parts. International Organisation end use.

- T acoustic seabed survey equipment.
civil explosive detection/identification equipment (2 licences).
components for biotechnology equipment.
components for civil NBC detection systems.
components for corrosion resistant chemical manufacturing equipment (3 licences).
components for semiconductor manufacturing equipment.
corrosion resistant chemical manufacturing equipment (15 licences).
dimensional inspection equipment.
dimensional measuring equipment.
- T direct view imaging equipment.
extended temperature range integrated circuits.
fibrous/filamentary materials.
focal plane arrays.
frequency changers (16 licences).
guidance/navigation equipment (2 licences).
imaging cameras (17 licences).
- T imaging cameras (4 licences).
inertial equipment (4 licences).
- T inertial equipment.
information security equipment (14 licences).
information security software (2 licences).
instrumentation cameras.
lasers (10 licences).
machine tools (2 licences).
marine position fixing equipment.
metal alloys in powder form (4 licences).
nickel powders (2 licences).
optical sensor materials.
pressure transducers (4 licences).
products containing enriched lithium.
radar equipment.
radar equipment.
- T semiconductor manufacturing equipment.
semiconductor wafers with epitaxial layers (8 licences).
software for frequency changers.
software for information security equipment.
spacecraft attitude and orbit control systems.
submersible equipment (2 licences).
syntactic foam.
technology for electronic devices.
technology for focal plane arrays.
technology for frequency changers.
technology for information security equipment (2 licences).
technology for information security software.
technology for microwave components.
test equipment for composite materials.
toxic gas detectors.
toxins.
triggered spark gaps [See footnote 9].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

Refused

	Count
Military	4
Total	4

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML22	4

technology for military communications equipment.
technology for military patrol/assault craft.
technology for military sonars (2 licences).
technology for naval electrical/electronic equipment.

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	7	£209,973
Non-military	4	£17,532,430
Total	11	£17,742,404

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML16	7	£209,973

unfinished products for military aero-engines (7 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C202	1	£11,396
3C001	1	£15,000,000
6A005	1	£804,840
9A004	1	£1,716,194

components for spacecraft [See footnote 6].
lasers.
metal alloy cylindrical forms.
semiconductor wafers with epitaxial layers.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Japan
Philippines
South Korea
United Kingdom
United States of America

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 4]
2	P	information security equipment, information security software
3	T	components for inertial equipment, inertial equipment, technology for inertial equipment
4	P	technology for information security equipment [See footnote 5]
5	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew

		life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 7]

promoting the supply of components for military image intensifier equipment [See footnote 8].
promoting the supply of components for military infrared/thermal imaging equipment [See footnote 8].
promoting the supply of components for military shotguns (2 licences) [See footnotes 8, 9].
promoting the supply of components for naval communications equipment [See footnote 8].
promoting the supply of components for pistols (3 licences) [See footnotes 4, 8, 9].
promoting the supply of components for rifles (3 licences) [See footnotes 4, 8, 9].
promoting the supply of components for small arms ammunition (2 licences) [See footnotes 8, 9].
promoting the supply of components for smooth-bore weapons (3 licences) [See footnotes 4, 8, 9].
promoting the supply of components for sniper rifles (3 licences) [See footnotes 4, 8, 9].
promoting the supply of components for sporting guns (3 licences) [See footnotes 4, 8, 9].
promoting the supply of components for sporting shotguns (3 licences) [See footnotes 4, 8, 9].
promoting the supply of components for tactical shotguns (2 licences) [See footnotes 8, 9].
promoting the supply of components for weapon night sights (2 licences) [See footnotes 8, 9].
promoting the supply of components for weapon sights (2 licences) [See footnotes 8, 9].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 4].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of CS hand grenades [See footnote 4].

promoting the supply of devices containing military pyrotechnic materials [See footnote 4].
promoting the supply of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 4].
promoting the supply of equipment for the use of aircraft cannons [See footnote 4].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 4].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 4].
promoting the supply of equipment for the use of artillery [See footnote 4].
promoting the supply of equipment for the use of assault rifles [See footnote 4].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 4].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 4].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the use of fire location equipment [See footnote 4].
promoting the supply of equipment for the use of flash suppressers [See footnote 4].
promoting the supply of equipment for the use of grenade launchers [See footnote 4].
promoting the supply of equipment for the use of gun silencers [See footnote 4].
promoting the supply of equipment for the use of heavy machine guns [See footnote 4].
promoting the supply of equipment for the use of machine guns [See footnote 4].
promoting the supply of equipment for the use of military radars [See footnote 4].
promoting the supply of equipment for the use of mortars [See footnote 4].
promoting the supply of equipment for the use of periscopes [See footnote 4].
promoting the supply of equipment for the use of pistols [See footnote 4].
promoting the supply of equipment for the use of projectile launchers [See footnote 4].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 4].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 4].
promoting the supply of equipment for the use of rifles [See footnote 4].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 4].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 4].
promoting the supply of equipment for the use of sniper rifles [See footnote 4].
promoting the supply of equipment for the use of sporting guns [See footnote 4].
promoting the supply of equipment for the use of sporting shotguns [See footnote 4].
promoting the supply of equipment for the use of targeting equipment [See footnote 4].
promoting the supply of equipment for the use of weapon control equipment [See footnote 4].
promoting the supply of equipment for the use of weapon mountings [See footnote 4].
promoting the supply of equipment for the use of weapon night sights [See footnote 4].
promoting the supply of equipment for the use of weapon sights [See footnote 4].
promoting the supply of fire location equipment [See footnote 4].
promoting the supply of flash suppressers (3 licences) [See footnotes 4, 8, 9].
promoting the supply of fuze setting devices [See footnote 4].
promoting the supply of general military aircraft components [See footnote 4].
promoting the supply of grenade launchers [See footnote 4].
promoting the supply of ground vehicle military communications equipment [See footnote 8].
promoting the supply of gun mountings (3 licences) [See footnotes 4, 8, 9].
promoting the supply of gun silencers [See footnote 4].
promoting the supply of hand grenades [See footnote 4].
promoting the supply of heavy machine guns [See footnote 4].
promoting the supply of illuminators [See footnote 4].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 4].
promoting the supply of machine guns [See footnote 4].
promoting the supply of military aero-engines [See footnote 4].
promoting the supply of military aircraft ground equipment [See footnote 4].
promoting the supply of military aircraft head-up/down displays [See footnote 4].
promoting the supply of military aircraft pressure refuellers [See footnote 4].
promoting the supply of military aircrew life support equipment [See footnote 4].
promoting the supply of military aircrew safety equipment [See footnote 4].
promoting the supply of military cameras/photographic equipment [See footnote 4].
promoting the supply of military combat vehicles [See footnote 4].
promoting the supply of military communications equipment [See footnote 8].
promoting the supply of military helmets (2 licences) [See footnotes 4, 8].
promoting the supply of military image intensifier equipment (2 licences) [See footnotes 4, 8].
promoting the supply of military image recording/processing equipment [See footnote 4].
promoting the supply of military imaging radar sensor equipment [See footnote 4].
promoting the supply of military infrared/thermal imaging equipment (2 licences) [See footnotes 4, 8].
promoting the supply of military radars [See footnote 4].
promoting the supply of military shotguns (2 licences) [See footnotes 8, 9].
promoting the supply of military support vehicles [See footnote 4].
promoting the supply of mortars [See footnote 4].

promoting the supply of naval communications equipment [See footnote 8].
 promoting the supply of periscopes [See footnote 4].
 promoting the supply of pistols (3 licences) [See footnotes 4, 8, 9].
 promoting the supply of projectile launchers [See footnote 4].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 4].
 promoting the supply of rangefinding equipment [See footnote 4].
 promoting the supply of recognition/identification equipment [See footnote 4].
 promoting the supply of rifles (4 licences) [See footnotes 3, 4, 8, 9].
 promoting the supply of sensor integration equipment [See footnote 4].
 promoting the supply of signalling devices [See footnote 4].
 promoting the supply of small arms ammunition (3 licences) [See footnotes 4, 8, 9].
 promoting the supply of smoke canisters [See footnote 4].
 promoting the supply of smooth-bore weapons (3 licences) [See footnotes 4, 8, 9].
 promoting the supply of sniper rifles (3 licences) [See footnotes 4, 8, 9].
 promoting the supply of sporting guns (4 licences) [See footnotes 3, 4, 8, 9].
 promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 8, 9].
 promoting the supply of sporting shotguns (3 licences) [See footnotes 4, 8, 9].
 promoting the supply of tactical shotguns (2 licences) [See footnotes 8, 9].
 promoting the supply of targeting equipment [See footnote 4].
 promoting the supply of unmanned air vehicles [See footnote 4].
 promoting the supply of water cannon [See footnote 4].
 promoting the supply of weapon cleaning equipment [See footnote 4].
 promoting the supply of weapon control equipment [See footnote 4].
 promoting the supply of weapon mountings [See footnote 4].
 promoting the supply of weapon night sights (3 licences) [See footnotes 4, 8, 9].
 promoting the supply of weapon sight mounts [See footnote 4].
 promoting the supply of weapon sights (3 licences) [See footnotes 4, 8, 9].
 rifles (4 licences) [See footnotes 10, 13, 6].
 small arms ammunition (4 licences) [See footnotes 10, 13, 6].
 smoke/pyrotechnic ammunition (3 licences) [See footnotes 10, 13].
 smooth-bore weapons (4 licences) [See footnotes 10, 13, 6].
 sniper rifles (4 licences) [See footnotes 10, 13, 6].
 sporting guns (4 licences) [See footnotes 10, 13, 6].
 sporting shotgun ammunition (4 licences) [See footnotes 10, 13, 6].
 sporting shotguns (4 licences) [See footnotes 10, 13, 6].
 tactical shotguns (3 licences) [See footnotes 10, 13].
 tear gas/irritant ammunition (3 licences) [See footnotes 10, 13].
 weapon night sights (4 licences) [See footnotes 10, 13, 6].
 weapon sights (4 licences) [See footnotes 10, 13, 6].

Rejected

promoting the supply of acoustic devices for riot control (4 licences).
 promoting the supply of assault rifles (4 licences).
 promoting the supply of body armour (4 licences).
 promoting the supply of components for acoustic devices for riot control (4 licences).
 promoting the supply of components for assault rifles (4 licences).
 promoting the supply of components for body armour (4 licences).
 promoting the supply of components for flash suppressers (2 licences).
 promoting the supply of components for flash suppressors (2 licences).
 promoting the supply of components for ground vehicle military communications equipment (4 licences).
 promoting the supply of components for gun mountings (2 licences).
 promoting the supply of components for military communications equipment (4 licences).
 promoting the supply of components for military image intensifier equipment (4 licences).
 promoting the supply of components for military infrared/thermal imaging equipment (4 licences).
 promoting the supply of components for military shotguns (4 licences).
 promoting the supply of components for naval communications equipment (4 licences).
 promoting the supply of components for pistols (4 licences).
 promoting the supply of components for rifles (2 licences).
 promoting the supply of components for smooth-bore weapons (4 licences).
 promoting the supply of components for sniper rifles (4 licences).
 promoting the supply of components for sporting guns (4 licences).
 promoting the supply of components for sporting shotguns (4 licences).
 promoting the supply of components for tactical shotguns (4 licences).
 promoting the supply of components for weapon night sights (4 licences).
 promoting the supply of components for weapon sights (4 licences).
 promoting the supply of flash suppressers (2 licences).
 promoting the supply of flash suppressors (2 licences).

promoting the supply of ground vehicle military communications equipment (4 licences).
 promoting the supply of gun mountings (2 licences).
 promoting the supply of military communications equipment (4 licences).
 promoting the supply of military helmets (4 licences).
 promoting the supply of military image intensifier equipment (4 licences).
 promoting the supply of military infrared/thermal imaging equipment (4 licences).
 promoting the supply of military shotguns (4 licences).
 promoting the supply of naval communications equipment (4 licences).
 promoting the supply of pistols (4 licences).
 promoting the supply of rifles (2 licences).
 promoting the supply of small arms ammunition (4 licences).
 promoting the supply of smooth-bore weapons (4 licences).
 promoting the supply of sniper rifles (4 licences).
 promoting the supply of sporting guns (2 licences).
 promoting the supply of sporting shotguns (4 licences).
 promoting the supply of tactical shotguns (4 licences).
 promoting the supply of weapon night sights (4 licences).
 promoting the supply of weapon sights (4 licences).

Case & goods Footnotes

1. Licence granted for accessories / spare parts. Civilian / commercial end use.
2. Licence granted for accessories / spare parts. Armed forces end use.
3. Licence granted for anti-piracy operations. Civilian / commercial end use.
4. Licence granted for accessories / spare parts. Civilian / commercial end use.
5. Licence granted for accessories / spare parts. Civilian / commercial end use.
6. Licence granted for anti-piracy operations. Civilian / commercial end use.
7. Licence granted for accessories / spare parts. Civilian / commercial end use.
8. Licence granted for anti-piracy operations. Civilian / commercial end use.
9. Licence granted for anti-piracy operations. Civilian / commercial end use.
10. Licence granted for anti-piracy operations. Civilian / commercial end use.
11. Licence granted for accessories / spare parts. End use by the Air Force.
12. Licence granted for accessories / spare parts. End use by the Air Force.
13. Licence granted for anti-piracy operations. Civilian / commercial end use.

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	79	£34,902,294
Non-military	89	£8,843,908
Both Military and Non-military	5	£1,606,383
Total	173	£45,352,584

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	15	£10,419,087
ML2	7	£1,300,375
ML3	9	£2,448,601
ML4	8	£10,171,130
ML5	11	£5,538,692
ML7	3	£22,720
ML9	11	£1,452,530
ML10	11	£184,422
ML11	17	£746,711
ML13	1	£1,800
ML14	1	£358,335
ML15	8	£1,345,080
ML17	1	£135,004
ML18	1	£11,500
ML21	1	£50
ML22	6	£644,801
PL5001	1	£10,800
PL5017	2	£110,657

aircraft military communications equipment.
anti-riot/ballistic shields.
ballistic test equipment.
body armour.
components for aircraft cannons.
components for assault rifles.
components for ballistic test equipment.
components for combat aircraft (2 licences).
components for combat naval vessels (2 licences).
components for decoying/countermeasure equipment (3 licences).
components for electronic warfare equipment.
components for fire location equipment.
T components for fire location equipment [See footnote 14].
components for flash suppressors.
components for machine guns.

components for man portable air defence system missiles [See footnote 15].
 components for military aero-engines [See footnote 16].
 components for military auxiliary/support vessels (2 licences).
 components for military communications equipment.
 components for military guidance/navigation equipment.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).

T components for military infrared/thermal imaging equipment [See footnote 14].
 components for military patrol/assault craft (4 licences).
 components for military radars.
 components for military support aircraft (5 licences).
 components for military training aircraft (2 licences).
 components for naval engines.
 components for naval gun installations/mountings (2 licences).
 components for naval guns (5 licences) [See footnote 21].
 components for NBC detection equipment.
 components for NBC protective/defensive equipment (2 licences).
 components for sniper rifles (2 licences).

T components for targeting equipment [See footnote 14].
 components for weapon control equipment.

T components for weapon control equipment [See footnote 14].
 decoying/countermeasure equipment (2 licences).
 electronic warfare equipment (3 licences).

T electronic warfare equipment.
 equipment for the production of combat naval vessels.
 equipment for the use of man portable air defence system missiles [See footnote 15].
 equipment for the use of naval guns.
 equipment for the use of targeting equipment.

T equipment for the use of targeting equipment [See footnote 14].
 flash suppressors.
 gun mountings.
 gun silencers (3 licences) [See footnote 6].
 machine guns (1359).
 man portable air defence system missiles [See footnote 15].
 man portable air defence systems [See footnote 15].
 man portable air defence systems training equipment [See footnote 15].
 military aero-engines [See footnote 16].
 military communications equipment.
 military electronic equipment (2 licences).

T military equipment for initiating explosives.
 military field engineer equipment.
 military guidance/navigation equipment.

T military guidance/navigation equipment (5 licences) [See footnotes 1, 36].
 military helmets.

T military image intensifier equipment (7 licences) [See footnotes 1, 26, 35, 36].
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).

T military improvised explosive device decoying/detection/disposal/jamming equipment.

T military infrared/thermal imaging equipment (7 licences) [See footnotes 1, 26, 35, 36].
 mortar bombs.

T mortars.

T munitions/ordnance detection/disposal equipment.
 naval gun installations/mountings.
 naval guns.
 NBC protective/defensive equipment (2 licences).
 rangefinding equipment.

T rangefinding equipment (4 licences) [See footnotes 1, 26, 35, 36].
 small arms ammunition (7 licences) [See footnote 10].
 smoke/pyrotechnic ammunition.
 sniper rifles (4) (2 licences) [See footnote 6].
 sniper rifles (8).
 software for electronic warfare equipment.
 sporting shotgun ammunition.
 targeting equipment [See footnote 11].

T targeting equipment [See footnote 14].
 technology for electronic warfare equipment.
 technology for machine guns.
 technology for man portable air defence systems [See footnote 15].
 technology for naval gun installations/mountings.
 technology for naval guns.
 technology for sniper rifles (2 licences).

- T weapon cleaning equipment [See footnote 6].
 weapon night sights (7 licences) [See footnotes 1, 26, 35, 36].
 weapon sight mounts [See footnote 6].
 weapon sights (6 licences) [See footnotes 12, 6].
- T weapon sights (8 licences) [See footnotes 1, 26, 35, 36].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
0C001	1	£1,025
1A004	8	£995,540
1C111	1	£435
1C202	2	£362,180

2E003	1	£0
3A225	2	£1,610
3D225	8	£2,451
5A001	2	£49,273
5A002	12	£2,817,492
5D002	2	£715,577
5E002	1	£0
6A001	6	£365,145
6A002	4	£144,763
6A003	6	£69,259
6A005	3	£226,080
6A008	1	£13,172
6A203	1	£18,000
7A003	3	£186,435
7A005	1	£32,500
7A103	1	£140,865
9E003	1	£0

- bacteria.
 biotechnology equipment (2 licences).
 chemicals used for agriculture or food/drink production.
 chemicals used for chemical/materials production (3 licences).
 chemicals used for industrial/commercial processes (3 licences).
 civil explosive detection/identification equipment (7 licences).
 civil NBC detection systems.
 components for global positioning satellite receivers.
 components for marine position fixing equipment.
 constituents of propellants.
 corrosion resistant chemical manufacturing equipment (15 licences) [See footnotes 20, 31].
 counter-improvised explosive device equipment (2 licences).
 direct view imaging equipment (3 licences).
- T direct view imaging equipment.
 frequency changers (2 licences).
 hafnium compounds.
 imaging cameras (6 licences).
 inertial equipment (3 licences).
- T inertial equipment.
- T information security equipment (12 licences).
- T instrumentation cameras.
 lasers (3 licences).
 machine tools.
 metal alloy cylindrical forms.

- metal alloy tubes.
- products containing thorium.
- radar equipment.
- software for frequency changers (8 licences).
- software for information security equipment (2 licences).
- sonar log equipment (4 licences).
- T sonar log equipment.
- technology for composite laminates.
- technology for composite structures.
- technology for fibre preforms.
- technology for fibre prepregs.
- technology for gas turbine engines [See footnote 3].
- technology for information security equipment.
- technology for metal alloy materials [See footnote 3].
- technology for the application of surface coatings [See footnote 3].

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	2	£4,593
6A002	3	£932,590
6A003	3	£104,040
ML1	3	£422,460
ML5	1	£120,000
ML7	2	£11,600
ML11	1	£6,000
ML17	1	£5,100

- T civil NBC protection equipment.
- T civil NBC protection equipment.
- T civil riot control agent protection equipment.
- components for civil NBC protection equipment.
- T components for civil riot control agent protection equipment.
- components for NBC protective/defensive equipment.
- T components for NBC protective/defensive equipment.
- T direct view imaging equipment (3 licences).
- T imaging cameras (3 licences).
- T military communications equipment.
- T military diving apparatus.
- T military laser protection equipment.
- T NBC protective/defensive equipment.
- T targeting equipment.
- T weapon night sights (3 licences).
- T weapon sights.

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Non-military	2	£198,841
Total	2	£198,841

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2B350	2	£198,841

corrosion resistant chemical manufacturing equipment (2 licences) [See footnote 22].

The items being incorporated in this destination are ultimately destined for all or some of the following:

Bahrain

Brazil

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 2]
2	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft

		military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights
3	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 4]
4	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 5]
5	P	information security equipment, information security software
6	T	components for inertial equipment, inertial equipment, technology for inertial equipment
7	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 7]

8	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 8]
9	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 9]
10	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 13]
11	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 18]
12	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 19]

13	P	components for combat aircraft
14	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 23]
15	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 32]
16	P	components for military support aircraft [See footnote 24]
17	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 25]
18	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military

		aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 33]
19	P	assault rifles, body armour, components for body armour, components for rifles, components for sporting guns, military helmets, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns
20	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 27]
21	P	components for military guidance/navigation equipment, equipment for the use of military guidance/navigation equipment, military guidance/navigation equipment, software for military guidance/navigation equipment, technology for military guidance/navigation equipment [See footnote 28]
22	P	components for military support aircraft [See footnote 29]
23	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 30]
24	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 34]
25	P	components for military support aircraft
26	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	anti-riot/ballistic shields, body armour, bomb suits, civil body armour, components for all-wheel drive vehicles with ballistic protection, components for anti-riot/ballistic shields, components for body armour, components for bomb suits, components for civil body armour, components for military combat vehicles, components for military helmets, components for military support vehicles, components for military trailers, components for tanks, components for turrets, general military vehicle components, military helmets, technology for all-wheel drive vehicles with ballistic protection, technology for anti-riot/ballistic shields, technology for body armour, technology for bomb suits, technology for general military vehicle components, technology for military combat vehicles, technology for military helmets, technology for military support vehicles, technology for military trailers, technology for tanks, technology for turrets
2	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	2	£175,731
Non-military	1	£36,150
Total	3	£211,881

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£175,731

components for military combat vehicles (2 licences).
general military vehicle components.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	1	£36,150

civil explosive detection/identification equipment.

OIELs (excluding Other OIELs)

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	8	£106,808
Non-military	3	£221,990
Total	11	£328,798

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML2	1	£10,400
ML5	1	£11,800
ML7	1	£15,869

ML11	1	£2,663
ML13	4	£61,976
PL5001	1	£2,500
PL5017	1	£1,600

anti-riot/ballistic shields.
body armour (4 licences) [See footnote 1].
components for body armour (3 licences).
components for military electronic equipment.
components for naval guns.
components for NBC protective/defensive equipment.
equipment for the use of naval guns.
military helmets (2 licences).
NBC protective/defensive equipment.
rangefinding equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	3	£221,990

information security equipment (3 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	7	£195,874
Non-military	9	£2,809,835
Total	16	£3,005,709

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£30,429
ML4	2	£36,549
ML10	1	£110,659
ML11	2	£1,864
ML13	1	£16,372
ML22	1	£0

body armour [See footnote 2].
 components for body armour [See footnote 2].
 components for military electronic equipment.
 components for military guidance/navigation equipment.
 components for military improvised explosive device decoying/detection/disposal/jamming equipment.
 components for military parachutes.
 military helmets [See footnote 2].
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 military parachutes.
 technology for military parachutes.
 training small arms ammunition.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1C353	1	£5
3A225	1	£736
3A231	1	£220,000
5A001	1	£77,843
5A002	3	£426,551
5D001	1	£0
5D002	2	£4,200
5E002	1	£4,000
6A008	1	£526,500
7A103	1	£1,550,000

T components for radar equipment [See footnote 3].
 components for telecommunications interception equipment [See footnote 9].
 frequency changers.
 inertial equipment.
 information security equipment (3 licences) [See footnote 10].
 neutron generators.
 pathogenic genetic elements.
 radar equipment [See footnote 3].
 software for information security equipment (2 licences) [See footnote 10].
 T software for telecommunications interception equipment [See footnote 9].
 technology for information security equipment.
 T telecommunications interception equipment [See footnote 9].

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable

		systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 1]
2	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
3	P	sporting shotgun ammunition [See footnote 4]
4	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 5]
5	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 6]
6	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 7]

7	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 8]

- T accessories for military cameras/photographic equipment.
aircraft military communications equipment.
anti-armour ammunition (2 licences).
anti-riot/ballistic shields [See footnote 19].
armoured plate (7 licences).
- T armoured plate.
ballistic test equipment (4 licences).
- T bomb suits.
components for air launched rockets (2 licences).
components for air-to-air missiles (2 licences) [See footnote 27].
components for air-to-surface missiles (8 licences).
components for aircraft military communications equipment (3 licences).
components for attack alerting/warning equipment.
- T components for attack alerting/warning equipment.
components for ballistic test equipment (9 licences).
- T components for body armour.
components for bombs (2 licences) [See footnote 28].
- T components for bombs.
components for combat aircraft (3 licences) [See footnote 35].
- T components for combat aircraft.
components for combat helicopters (25 licences).
- T components for combat helicopters.
components for combat naval vessels.
components for command/control equipment for unmanned air vehicles.
components for decoying/countermeasure equipment (4 licences).
- T components for electronic countermeasure equipment.
components for electronic warfare equipment (4 licences).
- T components for electronic warfare equipment.
components for equipment for the use of attack alerting/warning equipment.
components for equipment for the use of electronic warfare equipment.
components for laser weapon systems.

- components for launching/handling/control equipment for missiles (15 licences) [See footnotes 21, 25].
- T components for launching/handling/control equipment for munitions (3 licences).
- components for launching/handling/control equipment for munitions.
- T components for military aero-engines (8 licences).
- components for military aero-engines.
- T components for military aircraft head-up/down displays.
- components for military aircraft head-up/down displays.
- T components for military combat vehicles (12 licences).
- components for military combat vehicles.
- T components for military communications equipment (6 licences).
- components for military communications equipment.
- T components for military guidance/navigation equipment (7 licences).
- components for military helicopters (16 licences).
- T components for military helicopters.
- components for military infrared/thermal imaging equipment (9 licences).
- components for military patrol/assault craft.
- components for military radars (23 licences).
- components for military support aircraft (8 licences).
- T components for military support aircraft.
- components for military support vehicles.
- components for military training aircraft (4 licences).
- T components for military training aircraft.
- components for military training equipment (2 licences).
- components for multi-role missiles.
- T components for multi-role missiles (2 licences).
- components for munitions/ordnance detection/disposal equipment.
- T components for munitions/ordnance detection/disposal equipment.
- components for naval communications equipment.
- components for naval electrical/electronic equipment (3 licences).
- components for sniper rifles.
- components for surface-to-air missiles (3 licences).
- T components for surface-to-air missiles (2 licences).
- components for surface-to-surface missiles [See footnote 33].
- components for tanks.
- components for targeting equipment (9 licences).
- T components for targeting equipment.
- components for test models for laser weapon systems.
- T components for torpedoes.
- components for turrets.
- components for unmanned air vehicles (7 licences).
- components for weapon control equipment (3 licences).
- components for weapon night sights (3 licences).
- components for weapon sights.
- decoying/countermeasure equipment (4 licences).
- developmental missile components (2 licences).
- electronic warfare equipment (3 licences).
- equipment for the operation of military aircraft in confined areas.
- equipment for the production of body armour.
- equipment for the production of launching/handling/control equipment for missiles.
- equipment for the production of small arms ammunition.
- equipment for the production of surface-to-air missiles.
- equipment for the use of attack alerting/warning equipment (2 licences).
- equipment for the use of ballistic test equipment.
- equipment for the use of electronic warfare equipment.
- equipment for the use of naval electrical/electronic equipment.
- T equipment for the use of weapon control equipment.
- general military aircraft components (4 licences).
- general military vehicle components (6 licences).
- T general military vehicle components (2 licences).
- general naval vessel components (8 licences).
- gun silencers.
- high power RF weapon systems.
- T launching/handling/control equipment for man portable air defence system missiles.
- launching/handling/control equipment for missiles (3 licences).
- T launching/handling/control equipment for missiles.
- launching/handling/control equipment for munitions.
- military aircraft head-up/down displays (2 licences).
- T military cameras/photographic equipment (2 licences).
- military communications equipment (4 licences).

- T military communications equipment.
- military electronic equipment (3 licences).
- T military electronic equipment (3 licences) [See footnote 42].
- military guidance/navigation equipment (11 licences).
- T military guidance/navigation equipment.
- T military helmets.
- T military image intensifier equipment [See footnote 42].
- military infrared/thermal imaging equipment (2 licences).
- T military infrared/thermal imaging equipment.
- military parachutes.
- military parametric technical databases [See footnote 46].
- military scenario simulation equipment.
- military training equipment.
- munitions/ordnance detection/disposal equipment (3 licences).
- naval electrical/electronic equipment.
- NBC detection equipment.
- NBC protective/defensive equipment (2 licences).
- signalling devices (2 licences).
- small arms ammunition (2 licences).
- small arms training equipment.
- smoke/pyrotechnic ammunition (2 licences).
- sniper rifles (1).
- T software enabling equipment to function as military guidance/navigation equipment.
- software for air-to-surface missiles.
- software for ballistic test equipment (2 licences).
- software for general military vehicle components.
- T software for launching/handling/control equipment for missiles.
- T software for military aero-engines [See footnote 46].
- software for military aircraft ground equipment [See footnote 46].
- software for military training aircraft.
- software for military training equipment.
- T Software for modelling/simulating/evaluating weapon systems (2 licences).
- T software for targeting equipment.
- targeting equipment (2 licences).
- T targeting equipment (2 licences).
- technology for air-to-surface missiles.
- technology for aircraft military communications equipment.
- technology for decoying/countermeasure equipment (5 licences).
- technology for military aero-engines [See footnote 46].
- technology for military aircraft ground equipment [See footnote 46].
- technology for military aircraft head-up/down displays.
- technology for military combat vehicles.
- technology for military communications equipment.
- technology for military guidance/navigation equipment (3 licences).
- technology for military helicopters.
- technology for military radars (3 licences).
- technology for military training equipment.
- technology for sniper rifles.
- technology for surface-to-air missiles (2 licences).
- technology for unmanned air vehicles.
- unfinished products for combat aircraft (6 licences).
- unfinished products for military aero-engines.
- unfinished products for military training aircraft.
- weapon night sights.
- T weapon night sights (2 licences) [See footnote 42].
- weapon sights (4 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Non-military	12	£11,853,455
Total	12	£11,853,455

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once

per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	5	£546,245
2B350	1	£5,926
3A101	2	£8,975,000
3E101	1	£250,000
5A002	2	£88,848
6D003	2	£502,656
7A103	1	£1,250,000
PL8001	1	£234,780

- civil explosive detection/identification equipment (2 licences).
- civil NBC detection systems.
- civil NBC protection clothing [See footnote 7].
- components for corrosion resistant chemical manufacturing equipment.
- explosives detection equipment [See footnote 3].
- high performance air traffic control software (2 licences).
- inertial equipment [See footnote 4].
- information security equipment (2 licences).
- NBC protective/defensive equipment [See footnote 2].
- technology for X-ray accelerators.
- X-ray accelerators (2 licences).

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	4	£590,452
Non-military	7	£35,727
Total	11	£626,179

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value

ML6	3	£422,452
ML10	1	£168,000

components for all-wheel drive vehicles with ballistic protection.
 components for combat helicopters.
 military support vehicles (2 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
5A002	7	£29,335
5D002	1	£6,392

information security equipment (7 licences).
 information security software.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 1]
2	T	towed hydrophone arrays [See footnote 3]
3	P	components for information security equipment, information security equipment, information security software, software for information security equipment
4	P	components for military support aircraft [See footnote 4]

SITCLs

Issued

promoting the supply of airborne refuelling equipment [See footnote 2].
 promoting the supply of aircraft cannons [See footnote 2].
 promoting the supply of aircraft military communications equipment [See footnote 2].
 promoting the supply of all-wheel drive vehicles with ballistic protection [See footnote 2].
 promoting the supply of anti-aircraft guns [See footnote 2].
 promoting the supply of anti-armour ammunition [See footnote 2].
 promoting the supply of anti-armour weapons [See footnote 2].
 promoting the supply of anti-riot/ballistic shields [See footnote 2].
 promoting the supply of artillery [See footnote 2].
 promoting the supply of assault rifles [See footnote 2].
 promoting the supply of attack alerting/warning equipment [See footnote 2].
 promoting the supply of body armour [See footnote 2].
 promoting the supply of caseless ammunition weapons [See footnote 2].
 promoting the supply of combat helicopters [See footnote 2].
 promoting the supply of combat shotguns [See footnote 2].
 promoting the supply of command/control equipment for unmanned air vehicles [See footnote 2].
 promoting the supply of components for assault rifles [See footnote 2].
 promoting the supply of components for body armour [See footnote 2].
 promoting the supply of components for combat shotguns [See footnote 2].
 promoting the supply of components for machine guns [See footnote 2].
 promoting the supply of components for pistols [See footnote 2].
 promoting the supply of components for rifles [See footnote 2].
 promoting the supply of components for smooth-bore weapons [See footnote 2].
 promoting the supply of components for sniper rifles [See footnote 2].
 promoting the supply of components for sporting guns [See footnote 2].
 promoting the supply of components for sporting shotguns [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 2].
 promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 2].
 promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 2].
 promoting the supply of CS hand grenades [See footnote 2].
 promoting the supply of devices containing military pyrotechnic materials [See footnote 2].
 promoting the supply of electronic countermeasure equipment [See footnote 2].
 promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 2].
 promoting the supply of equipment for the use of aircraft cannons [See footnote 2].
 promoting the supply of equipment for the use of anti-aircraft guns [See footnote 2].
 promoting the supply of equipment for the use of anti-armour weapons [See footnote 2].
 promoting the supply of equipment for the use of artillery [See footnote 2].

promoting the supply of equipment for the use of assault rifles [See footnote 2].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 2].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 2].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 2].
promoting the supply of equipment for the use of fire location equipment [See footnote 2].
promoting the supply of equipment for the use of flash suppressers [See footnote 2].
promoting the supply of equipment for the use of grenade launchers [See footnote 2].
promoting the supply of equipment for the use of gun silencers [See footnote 2].
promoting the supply of equipment for the use of heavy machine guns [See footnote 2].
promoting the supply of equipment for the use of machine guns [See footnote 2].
promoting the supply of equipment for the use of military radars [See footnote 2].
promoting the supply of equipment for the use of mortars [See footnote 2].
promoting the supply of equipment for the use of periscopes [See footnote 2].
promoting the supply of equipment for the use of pistols [See footnote 2].
promoting the supply of equipment for the use of projectile launchers [See footnote 2].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 2].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 2].
promoting the supply of equipment for the use of rifles [See footnote 2].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 2].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 2].
promoting the supply of equipment for the use of sniper rifles [See footnote 2].
promoting the supply of equipment for the use of sporting guns [See footnote 2].
promoting the supply of equipment for the use of sporting shotguns [See footnote 2].
promoting the supply of equipment for the use of targeting equipment [See footnote 2].
promoting the supply of equipment for the use of weapon control equipment [See footnote 2].
promoting the supply of equipment for the use of weapon mountings [See footnote 2].
promoting the supply of equipment for the use of weapon night sights [See footnote 2].
promoting the supply of equipment for the use of weapon sights [See footnote 2].
promoting the supply of fire location equipment [See footnote 2].
promoting the supply of flash suppressers [See footnote 2].
promoting the supply of fuze setting devices [See footnote 2].
promoting the supply of general military aircraft components [See footnote 2].
promoting the supply of grenade launchers [See footnote 2].
promoting the supply of gun mountings [See footnote 2].
promoting the supply of gun silencers [See footnote 2].
promoting the supply of hand grenades [See footnote 2].
promoting the supply of heavy machine guns [See footnote 2].
promoting the supply of illuminators [See footnote 2].
promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 2].
promoting the supply of machine guns [See footnote 2].
promoting the supply of military aero-engines [See footnote 2].
promoting the supply of military aircraft ground equipment [See footnote 2].
promoting the supply of military aircraft head-up/down displays [See footnote 2].
promoting the supply of military aircraft pressure refuellers [See footnote 2].
promoting the supply of military aircrew life support equipment [See footnote 2].
promoting the supply of military aircrew safety equipment [See footnote 2].
promoting the supply of military cameras/photographic equipment [See footnote 2].
promoting the supply of military combat vehicles [See footnote 2].
promoting the supply of military helmets [See footnote 2].
promoting the supply of military image intensifier equipment [See footnote 2].
promoting the supply of military image recording/processing equipment [See footnote 2].
promoting the supply of military imaging radar sensor equipment [See footnote 2].
promoting the supply of military infrared/thermal imaging equipment [See footnote 2].
promoting the supply of military radars [See footnote 2].
promoting the supply of military support vehicles [See footnote 2].
promoting the supply of mortars [See footnote 2].
promoting the supply of periscopes [See footnote 2].
promoting the supply of pistols [See footnote 2].
promoting the supply of projectile launchers [See footnote 2].
promoting the supply of pyrotechnics/fuels and related substances [See footnote 2].
promoting the supply of rangefinding equipment [See footnote 2].
promoting the supply of recognition/identification equipment [See footnote 2].
promoting the supply of rifles [See footnote 2].
promoting the supply of sensor integration equipment [See footnote 2].
promoting the supply of signalling devices [See footnote 2].
promoting the supply of small arms ammunition [See footnote 2].
promoting the supply of smoke canisters [See footnote 2].

promoting the supply of smooth-bore weapons [See footnote 2].
 promoting the supply of sniper rifles [See footnote 2].
 promoting the supply of sporting guns [See footnote 2].
 promoting the supply of sporting shotguns [See footnote 2].
 promoting the supply of targeting equipment [See footnote 2].
 promoting the supply of unmanned air vehicles [See footnote 2].
 promoting the supply of water cannon [See footnote 2].
 promoting the supply of weapon cleaning equipment [See footnote 2].
 promoting the supply of weapon control equipment [See footnote 2].
 promoting the supply of weapon mountings [See footnote 2].
 promoting the supply of weapon night sights [See footnote 2].
 promoting the supply of weapon sight mounts [See footnote 2].
 promoting the supply of weapon sights [See footnote 2].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	24	£1,050,076
Non-military	37	£9,169,394
Both Military and Non-military	1	£275,400

Total	62	£10,494,871
-------	----	-------------

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	9	£533,485
ML4	7	£82,081
ML5	1	£200,000
ML7	1	£14,685
ML11	1	£11,954
ML13	5	£127,871
ML22	1	£80,000

- T body armour (4 licences) [See footnote 21].
T bomb suits.
T components for body armour (3 licences).
T components for bomb suits.
T components for military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences) [See footnote 15].
T components for NBC detection equipment [See footnote 5].
T components for sporting guns (2 licences) [See footnote 10].
T gun silencers.
T military communications equipment.
T military helmets.
T military helmets.
T military improvised explosive device decoying/detection/disposal/jamming equipment (5 licences) [See footnotes 11, 17].
T NBC detection equipment [See footnote 5].
T rangefinding equipment.
T sporting guns (1) (4 licences) [See footnotes 1, 18].
T sporting guns (2) [See footnote 10].
T sporting guns.
T technology for military guidance/navigation equipment [See footnote 13].
T weapon sights (2 licences) [See footnotes 6, 9].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	5	£640,845
1A007	1	£2,547
1B001	1	£206,500

7A103	2	£245,000
PL9010	1	£4,896

- bacteria.
civil explosive detection/identification equipment (3 licences) [See footnotes 20, 3].
civil NBC detection software.
civil NBC detection systems.
civil NBC protection equipment.
composite materials production equipment.
T diver location sonars.
imaging cameras (3 licences) [See footnotes 14, 19].
inertial equipment (2 licences).
information security equipment (16 licences).
information security software (2 licences).
neutron generators (2 licences).
nickel powders.
non-military firing sets [See footnote 7].
T software for diver location sonars.
sporting shotguns (2) [See footnote 12].
technology for information security software.
technology for space qualified focal plane arrays [See footnote 8].
technology for the application of surface coatings.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£87,450
6A003	1	£45,450
ML1	1	£22,500
ML5	1	£120,000

- T direct view imaging equipment [See footnote 23].
T imaging cameras [See footnote 23].
T targeting equipment [See footnote 23].
T weapon night sights [See footnote 23].

 equipment for the use of decoying/countermeasure equipment.
 equipment for the use of military electronic equipment [See footnote 89].
 equipment for the use of NBC protective/defensive equipment.
 equipment for the use of sniper rifles.
 equipment for the use of targeting equipment.
 T equipment for the use of targeting equipment.
 T equipment for the use of weapon night sights (2 licences) [See footnote 108].
 flash suppressors [See footnote 87].
 general military aircraft components (3 licences).
 general military vehicle components (18 licences) [See footnotes 22, 23, 39, 49, 50, 75, 79, 84, 85].
 T general military vehicle components (3 licences) [See footnote 34].
 goods treated for signature suppression for military use (2 licences).
 ground vehicle military communications equipment.
 gun mountings (2 licences) [See footnote 80].
 T gun mountings [See footnote 119].
 gun silencers (13 licences) [See footnotes 107, 118, 68, 87].
 T gun silencers (2 licences) [See footnotes 119, 3].
 inert signalling devices.
 machine guns (1) [See footnote 87].
 military aircrew safety equipment (2 licences) [See footnote 6].
 military communications equipment (9 licences) [See footnotes 100, 21, 99].
 T military communications equipment [See footnote 46].
 military containers (2 licences).
 military electronic equipment.
 T military electronic equipment (2 licences).
 military equipment for initiating explosives (2 licences).

- T military guidance/navigation equipment (8 licences) [See footnotes 116, 6, 89].
- T military guidance/navigation equipment (3 licences) [See footnote 46].
- military helmets (5 licences) [See footnotes 110, 112].
- T military image intensifier equipment (3 licences) [See footnotes 6, 89].
- T military image intensifier equipment.
- T military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
- T military improvised explosive device decoying/detection/disposal/jamming equipment.
- T military infrared/thermal imaging equipment.
- T military infrared/thermal imaging equipment (2 licences) [See footnote 108].
- military scenario simulation equipment.
- military support aircraft.
- military training equipment.
- T military training equipment [See footnote 27].
- mortars (2 licences) [See footnotes 77, 83].
- munitions/ordnance detection/disposal equipment (2 licences).
- naval communications equipment.
- naval electrical/electronic equipment.
- T NBC protective/defensive equipment [See footnote 78].
- T rangefinding equipment (3 licences) [See footnote 119].
- rifles (3).
- small arms ammunition (5 licences) [See footnote 20].
- T small arms ammunition [See footnote 119].
- T sniper rifles (1) [See footnote 119].
- sniper rifles (2).
- T sniper rifles (4) [See footnote 3].
- sniper rifles (10).
- software enabling equipment to function as equipment for the use of military communications equipment.
- T software enabling equipment to function as military guidance/navigation equipment.
- T software for equipment for the development of combat helicopters.
- software for equipment for the use of NBC protective/defensive equipment.
- software for military combat vehicles [See footnote 58].
- software for military communications equipment (2 licences) [See footnote 99].
- software for NBC detection equipment.
- sporting guns (1) (3 licences) [See footnote 107].
- sporting guns (2).
- sporting guns (3).
- sporting guns (6) [See footnote 68].
- sporting guns (7).
- sporting guns (11).
- sporting guns (14).
- sporting guns (47).
- sporting shotguns (2) (2 licences).
- sporting shotguns (15).
- targeting equipment (3 licences) [See footnotes 6, 89].
- T targeting equipment.
- technology for assault rifles [See footnote 87].
- T technology for combat helicopters.
- technology for machine guns [See footnote 87].
- technology for military communications equipment [See footnote 99].
- technology for NBC detection equipment.
- T technology for sniper rifles [See footnote 119].
- turrets [See footnote 76].
- unfinished products for military support aircraft.
- weapon cleaning equipment.
- weapon control equipment (2 licences) [See footnote 6].
- weapon night sights.
- T weapon night sights (2 licences) [See footnote 108].
- weapon sight mounts.
- T weapon sight mounts [See footnote 3].
- weapon sights (11 licences).
- T weapon sights (4 licences) [See footnotes 108, 119, 3].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

0C003	1	£67
1A004	17	£2,293,278
1C006	1	£8,000

End Use	5	£58,879
MEND	1	£220
PL8001	3	£77,879
PL9010	2	£36,250

- T aero-engine assemblies.
bacteria (3 licences).
chemicals.
chemicals used for chemical/materials production.
chemicals used for general laboratory work/scientific research.
chemicals used for pharmaceutical/healthcare production (2 licences).
civil explosive detection/identification equipment (10 licences).
- T civil explosive detection/identification equipment.
civil NBC detection systems.
civil NBC protection equipment (2 licences).
civil riot control agent protection equipment (3 licences).
components for civil aircraft.
components for corrosion resistant chemical manufacturing equipment (3 licences).
components for radar equipment [See footnote 101].
- T components for telecommunications interception equipment.
corrosion resistant chemical manufacturing equipment (15 licences).
- T counter-improvised explosive device equipment (4 licences) [See footnote 1].
deuterium compounds.
devices containing enriched lithium compounds (2 licences).
- T devices for initiating explosives (2 licences).
dimensional inspection equipment.
- T direct view imaging equipment.
diver location sonars (2 licences).
- T diver location sonars (2 licences).
electrical switching equipment.
electronics cooling fluids.
explosives detection equipment.
fibrous/filamentary materials.
guidance/navigation equipment (3 licences).
imaging cameras (2 licences).
- T imaging cameras (6 licences) [See footnotes 14, 42].
inertial equipment (10 licences).

- T inertial equipment (4 licences).
- information security equipment (84 licences) [See footnotes 40, 71].
- T information security equipment (6 licences) [See footnotes 35, 62].
- information security software (21 licences) [See footnote 40].
- T information security software.
- instrumentation cameras.
- laser optical components.
- machine tools (2 licences).
- T non-certified aero-engines.
- pathogenic genetic elements (2 licences).
- pressure monitoring equipment.
- T radar equipment (2 licences) [See footnotes 16, 30].
- rebreathing swimming equipment.
- smooth-bore weapons (1).
- software for diver location sonars (2 licences).
- software for inertial equipment (2 licences).
- software for information security equipment (14 licences) [See footnote 71].
- T software for information security equipment (2 licences) [See footnotes 35, 62].
- T software for telecommunications interception equipment.
- software for toxic gas monitoring equipment.
- T sonar log equipment.
- sporting shotguns (14) [See footnote 117].
- submersible equipment (5 licences).
- submersible vehicles (2 licences).
- technology for information security equipment (9 licences).
- T telecommunications interception equipment (2 licences) [See footnote 5].
- T test equipment for inertial equipment.
- towed hydrophone arrays.
- toxins (2 licences) [See footnote 113].
- viruses.

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	4	£150,340
1A006	1	£72,240
5A002	3	£202,002
5D002	1	£11,000
6A002	5	£1,341,062
6A003	7	£331,100
8A002	2	£10,000
ML1	8	£921,981
ML4	1	£67,534
ML5	1	£120,000

ML21	2	£84,000
ML22	2	£2,450
PL5017	2	£16,040
PL9010	2	£1,149,430

- bomb suits.
- civil explosive detection/identification equipment.
- T civil explosive detection/identification equipment.
- civil NBC detection systems.
- T civil NBC detection systems.
- T civil NBC protection equipment (2 licences).
- T civil riot control agent protection equipment (2 licences).
- components for munitions/ordnance detection/disposal equipment.
- components for naval communications equipment.
- T components for NBC detection equipment.

- T components for NBC protective/defensive equipment (2 licences).
- components for sporting guns.
- direct view imaging equipment.
- T direct view imaging equipment (4 licences) [See footnotes 41, 51, 8].
- equipment for the use of military communications equipment.
- equipment for the use of naval communications equipment.
- T equipment for the use of weapon sights [See footnote 8].
- imaging cameras (2 licences).
- T imaging cameras (5 licences) [See footnotes 41, 8].
- improvised explosive device disruptors.
- information security equipment.
- T information security equipment (2 licences) [See footnotes 56, 7].
- T information security software.
- military communications equipment.
- T military communications equipment (2 licences).
- T military electronic equipment (2 licences) [See footnotes 56, 7].
- military helmets.
- T military image intensifier equipment [See footnote 8].
- T military laser protection equipment (2 licences).
- naval communications equipment.
- NBC detection equipment.
- T NBC detection equipment.
- T NBC protective/defensive equipment (2 licences).
- T rebreathing swimming equipment (2 licences).
- T software enabling equipment to function as military communications equipment.
- T Software for modelling/simulating military operation scenarios.
- software for naval communications equipment.
- sporting guns (2).
- sporting shotguns (1).
- sporting shotguns (8).
- T targeting equipment.
- T technology for equipment for the use of weapon sights [See footnote 8].
- technology for naval communications equipment.
- weapon night sights (2 licences).
- T weapon night sights (4 licences) [See footnotes 41, 51, 8].
- T weapon sight mounts [See footnote 8].
- weapon sights (2 licences).
- T weapon sights [See footnote 8].

Refused

	Count
Military	1
Non-military	12
Total	13

The SIELs refused were not granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry
ML11	1

military communications equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry
1C350	1
End Use	11

accessories for gas detection equipment (2 licences).
 chemicals used for general laboratory work/scientific research.
 components for gas detection equipment (2 licences).
 components for materials testing equipment.
 gas detection equipment (7 licences).
 materials analysis equipment.
 materials testing equipment (2 licences).

Information on the Criteria used (from the Consolidated EU and National Arms Export Licensing Criteria) for the above refusals (refusals under WMD are covered by Criterion 1).

Criteria	Number of times the Criteria were used
1	11
7	2

SIELs - Incorporation

Issued

Types of goods on licence	No. of licences	Value
Military	2	£511,400
Non-military	14	£297,690
Total	16	£809,090

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	2	£511,400

components for all-wheel drive vehicles with ballistic protection.
 general military vehicle components.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
2A226	1	£45,530
2B350	11	£150,436
5A002	1	£624
7A003	2	£101,100

bellows sealed valves.
 components for corrosion resistant chemical manufacturing equipment (6 licences) [See footnotes 37, 70].
 corrosion resistant chemical manufacturing equipment (5 licences).
 inertial equipment (2 licences).
 information security equipment.

The items being incorporated in this destination are ultimately destined for all or some of the following:

Algeria
 Bahrain
 Jordan
 Kuwait
 Saudi Arabia
 South Africa
 Thailand

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 2]
2	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 9]
3	P	components for aircraft cannons, equipment for the use of aircraft cannons, software for aircraft cannons, technology for aircraft cannons, weapon cleaning equipment [See footnote 11]
4	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military

		aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 12]
5	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 13]
6	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 15]
7	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 18]
8	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training

		aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 19]
9	P	civil NBC protection clothing, civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment [See footnote 24]
10	P	components for gun mountings, components for weapon sights, weapon sights [See footnote 28]
11 (Rv)	P	components for military combat vehicles, general military vehicle components [See footnotes 121, 36]
12	P	components for combat aircraft, components for military support aircraft, components for military training aircraft [See footnote 47]
13	P	components for military support aircraft [See footnote 48]
14	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 54]
15	P	airborne refuelling equipment, aircraft cannons, attack alerting/warning equipment, components for airborne refuelling equipment, components for attack alerting/warning equipment, components for combat aircraft, components for military aero-engines, components for military infrared/thermal imaging equipment, components for weapon control equipment, countermeasure equipment for military infrared/thermal imaging equipment, decoying/countermeasure equipment, equipment for the operation of military aircraft in confined areas, military aero-engines, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military aircrew safety equipment, military communications equipment, military electronic equipment, military infrared/thermal imaging equipment, military parachutes, software for airborne refuelling equipment, software for aircraft cannons, software for attack alerting/warning equipment, software for combat aircraft, software for decoying/countermeasure equipment, software for equipment for the operation of military aircraft in confined areas, software for military aero-engines, software for military aircraft ground equipment, software for military aircraft pressure refuellers, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military communications equipment, software for military electronic equipment, software for military infrared/thermal imaging equipment, software for military parachutes, software for weapon control equipment, technology for airborne refuelling equipment, technology for aircraft cannons, technology for attack alerting/warning equipment, technology for combat aircraft, technology for decoying/countermeasure equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military communications equipment, technology for military electronic equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for weapon control equipment, weapon control equipment [See footnote 55]
16	P	components for inertial equipment, inertial equipment, software for inertial equipment, software for test equipment for inertial equipment, technology for inertial equipment, test equipment for inertial equipment [See footnote 57]
17	T	towed hydrophone arrays [See footnote 59]

18	T	acoustic seabed survey equipment, components for inertial equipment, inertial equipment, magnetometers, marine position fixing equipment, sonar log equipment, submersible equipment [See footnote 104]
19	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 60]
20	P	aircraft military communications equipment, attack alerting/warning equipment, components for aircraft military communications equipment, components for equipment for the operation of military aircraft in confined areas, components for military communications equipment, components for military electronic equipment, components for military support aircraft, counter-countermeasure equipment for military cameras/photographic equipment, counter-countermeasure equipment for military image intensifier equipment, counter-countermeasure equipment for military image recording/processing equipment, counter-countermeasure equipment for military imaging radar sensor equipment, decoying/countermeasure equipment, electronic countermeasure equipment, electronic warfare equipment, equipment for the production of military support aircraft, general military aircraft components, information security equipment, military aircraft ground equipment, military cameras/photographic equipment, military communications equipment, military electronic equipment, military image intensifier equipment, military image recording/processing equipment, military imaging radar sensor equipment, military infrared/thermal imaging equipment, recognition/identification equipment, software for aircraft military communications equipment, software for counter-countermeasure equipment for military cameras/photographic equipment, software for counter-countermeasure equipment for military image intensifier equipment, software for counter-countermeasure equipment for military image recording/processing equipment, software for counter-countermeasure equipment for military imaging radar sensor equipment, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for electronic warfare equipment, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for military aircraft ground equipment, software for military cameras/photographic equipment, software for military communications equipment, software for military electronic equipment, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military support aircraft, technology for aircraft military communications equipment, technology for counter-countermeasure equipment for military cameras/photographic equipment, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military image recording/processing equipment, technology for counter-countermeasure equipment for military imaging radar sensor equipment, technology for decoying/countermeasure equipment, technology for electronic warfare equipment, technology for equipment for the operation of military aircraft in confined areas, technology for general military aircraft components, technology for military aircraft ground equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military support aircraft [See footnote 61]
21	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 64]
22	P	airframe structures, civil aero-engines, components for civil aero-engines, components for civil aircraft [See footnote 103]
23	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined

		areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 105]
24	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 69]
25	P	components for submersible vehicles, frequency generators, high energy capacitors, imaging cameras, inertial equipment, metal alloy tubes, sonar log equipment, submersible equipment, syntactic foam [See footnote 72]
26	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 106]
27	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 90]
28	P	civil explosive detection/identification equipment [See footnote 91]
29	P	components for military radars, equipment for the use of military radars, software for military radars, software for software for military radars, technology for military radars [See footnote 92]
30	P	components for military support aircraft [See footnote 93]
31	P	marine position fixing equipment, underwater telecommunications systems
32	P	information security equipment, information security software [See footnote 120]
33	P	civil NBC protection equipment, components for civil NBC protection equipment, components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, imaging cameras, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for civil NBC protection equipment, technology for NBC protective/defensive equipment

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	406	£150,345,384
Non-military	298	£905,832,713
Both Military and Non-military	29	£11,940,451
Total	733	£1,068,118,548

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	52	£66,636,145

ML2	12	£1,035,033
ML3	10	£570,010
ML4	33	£18,183,326
ML5	12	£1,342,955
ML6	22	£2,078,670
ML7	19	£3,521,808
ML8	1	£110,000
ML9	9	£420,515
ML10	147	£17,090,819
ML11	37	£29,253,831
ML13	13	£474,154
ML14	3	£9,873
ML15	6	£1,003,459

 military communications equipment (2 licences).
 military electronic equipment.
 T military electronic equipment (5 licences).
 military equipment for initiating explosives.
 military guidance/navigation equipment (5 licences).
 T military guidance/navigation equipment.
 military helicopters.
 military helmets (5 licences).
 T military helmets (5 licences).
 military image intensifier equipment.
 T military image intensifier equipment (2 licences).
 military improvised explosive device decoying/detection/disposal/jamming equipment.
 military infrared/thermal imaging equipment.

T military infrared/thermal imaging equipment (3 licences).

T military scenario simulation equipment.

T military software.

military support vehicles (2 licences).

naval communications equipment (2 licences).

NBC detection equipment (2 licences).

NBC protective/defensive equipment (3 licences).

T NBC protective/defensive equipment.

pistols (1) (2 licences).

pistols (3).

pistols (4).

T projectile launchers (6 licences).

propellants.

T rangefinding equipment.

rifles (1) (2 licences).

rifles (4).

small arms ammunition (4 licences).

small arms training equipment.

T small arms training equipment.

sniper rifles (3).

sniper rifles (9).

sniper rifles (16850).

T software enabling equipment to function as equipment for the use of military communications equipment.

software enabling equipment to function as equipment for the use of military guidance/navigation equipment (2 licences).

software enabling equipment to function as military communications equipment.

T software enabling equipment to function as military communications equipment.

software for determining the effects of weapons.

software for equipment for the use of attack alerting/warning equipment (2 licences).

software for equipment for the use of electronic countermeasure equipment.

software for equipment for the use of military guidance/navigation equipment.

software for launching/handling/control equipment for missiles.

software for launching/handling/control equipment for munitions (2 licences).

Software for modelling/simulating military operation scenarios (2 licences).

software for NBC detection equipment (3 licences).

software for Software for modelling/simulating military operation scenarios.

software for unmanned air vehicles.

T sporting guns (1) (10 licences).

sporting guns (1) (3 licences).

sporting guns (2) (2 licences).

sporting guns (3).

sporting guns (24).

sporting guns (5000).

sporting shotguns (1).

tanks (3 licences).

T targeting equipment.

technology for aircraft military communications equipment.

technology for avalanche control projectiles (2 licences).

technology for body armour (2 licences).

technology for command communications control and intelligence software (4 licences).

technology for command/control equipment for unmanned air vehicles (3 licences).

technology for decoying/countermeasure equipment.

technology for equipment for the use of attack alerting/warning equipment.

technology for equipment for the use of electronic countermeasure equipment.

technology for launching/handling/control equipment for missiles (2 licences).

technology for launching/handling/control equipment for munitions (2 licences).

technology for launching/handling/control/support equipment for unmanned air vehicles.

technology for military aero-engines.

technology for military communications equipment.

technology for NBC detection equipment (4 licences).

technology for NBC protective/defensive equipment.

T technology for production installations for unmanned air vehicles.

technology for sniper rifles.

technology for software for determining the effects of weapons.

technology for software for equipment for the use of attack alerting/warning equipment.

technology for software for equipment for the use of electronic countermeasure equipment.

technology for Software for modelling/simulating military operation scenarios.

technology for submarines (3 licences).

technology for surface-to-surface missiles (2 licences).

	technology for unfinished products for military aero-engines (2 licences).
	technology for unfinished products for military patrol/assault craft.
	technology for unmanned air vehicles (6 licences).
T	technology for unmanned air vehicles (2 licences).
	unfinished products for artillery (4 licences).
	unfinished products for assault rifles.
	unfinished products for combat aircraft (2 licences).
	unfinished products for military aero-engines (9 licences).
	unfinished products for military patrol/assault craft.
	unfinished products for surface-to-surface missiles.
T	unmanned air vehicles (4 licences).
	weapon night sights (3 licences).
T	weapon night sights (2 licences).
	weapon sight mounts.
T	weapon sight mounts.
	weapon sights (10 licences).
T	weapon sights (3 licences).

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

chemicals used for industrial/commercial processes.
civil explosive detection/identification equipment.
civil NBC protection clothing.
components for gyro-astro compasses.
components for nuclear reactors (3 licences).
components for sporting shotguns (1).
components for sporting shotguns (12 licences).

T components for sporting shotguns.
 composite materials production equipment.
 depleted uranium.
 devices containing enriched lithium (2 licences).
 devices containing enriched lithium compounds (2 licences).

T direct view imaging equipment.
 electromagnetic wave absorbing materials (8 licences).
 enriched uranium (2 licences).

T explosives detection equipment (3 licences) [See footnote 14].
 frequency changers.
 high speed pulse generators.

T imaging cameras.
 inertial equipment (3 licences).
 information security equipment (17 licences).
 information security software.
 lasers.

T lasers.
 machine tools.
 marine position fixing equipment (3 licences).

T marine position fixing equipment (2 licences).
 materials containing depleted uranium.

T materials containing depleted uranium.
 materials containing natural uranium.

T materials containing natural uranium.
 metal alloy cylindrical forms (4 licences).
 natural uranium (6 licences).
 NBC protective/defensive equipment.
 neutron generators.
 plant pathogens.
 products containing depleted uranium (5 licences).
 products containing enriched lithium (9 licences).
 products containing thorium (4 licences).
 rebreathing swimming equipment.
 sporting guns (1).
 sporting guns (2).
 sporting shotguns (1) (81 licences).

aircraft military communications equipment (3 licences).
 components for air-to-air missiles.
 components for air-to-surface missiles (2 licences) [See footnotes 34, 35].
 components for airborne refuelling equipment.
 components for aircraft military communications equipment (2 licences).
 components for artillery (2 licences).
 components for bombs (2 licences) [See footnotes 34, 67].
 components for combat aircraft (4 licences).
 components for combat helicopters (12 licences).
 components for decoying/countermeasure equipment (2 licences).
 components for electronic warfare equipment.
 components for launching/handling/control equipment for missiles.
 components for launching/handling/control equipment for munitions (2 licences).
 components for military aero-engines (16 licences) [See footnotes 1, 28, 30, 45, 55].
 components for military aircraft head-up/down displays (4 licences).
 components for military combat vehicles (2 licences).
 components for military communications equipment (4 licences).
 components for military guidance/navigation equipment (5 licences) [See footnotes 25, 59, 60].
 components for military helicopters (13 licences).
 components for military infrared/thermal imaging equipment [See footnote 54].
 components for military parachutes.
 components for military patrol/assault craft.
 components for military radars (5 licences) [See footnote 41].
 components for military support aircraft (8 licences) [See footnote 66].
 components for military training aircraft (15 licences) [See footnotes 21, 38, 39, 40].
 components for military training equipment.
 components for naval engines.
 components for NBC protective/defensive equipment.
 components for surface launched rockets.
 components for surface-to-air missiles.
 components for surface-to-surface missiles [See footnote 24].
 components for targeting equipment (4 licences) [See footnote 36].
 components for test models for combat aircraft.
 components for torpedoes (2 licences).
 components for turrets.
 components for unmanned air vehicles.
 components for weapon night sights (3 licences).
 Rv general military aircraft components (2 licences) [See footnotes 52, 58].
 Rv general military vehicle components [See footnotes 52, 58].
 general naval vessel components.
 ground vehicle military communications equipment.
 military aero-engines.
 military aircrew safety equipment [See footnote 39].
 military communications equipment (4 licences) [See footnote 32].
 military electronic equipment.
 military guidance/navigation equipment (7 licences) [See footnotes 20, 68].
 military helicopters.
 military image recording/processing equipment.
 software enabling equipment to function as military communications equipment.
 software for military aero-engines (2 licences) [See footnote 45].
 targeting equipment (2 licences) [See footnotes 48, 57].
 technology for command communications control and intelligence software.
 technology for decoying/countermeasure equipment.
 technology for test models for combat aircraft.
 unfinished products for artillery (3 licences).
 unfinished products for military aero-engines.
 weapon sights.

Rv - Some or all of which have subsequently been revoked.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value

shackles.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	components for military auxiliary/support vessels, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
2	P	components for combat aircraft, components for military aero-engines, components for military radars, components for military training aircraft, components for targeting equipment, general military aircraft components
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 2]
4	P	components for aircraft carriers, components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for command/control equipment for unmanned air vehicles, components for general military vehicle components, components for general naval vessel components, components for ground vehicle military communications equipment, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military communications equipment, components for military electronic equipment, components for military helicopters, components

		for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military trailers, components for military training aircraft, components for naval communications equipment, components for naval electrical/electronic equipment, components for submarines, components for tanks, components for turrets, components for unmanned air vehicles, general military aircraft components [See footnote 3]
5	P	goods treated for signature suppression for military use [See footnote 4]
6	P	accessories for military cameras/photographic equipment, accessories for military image intensifier equipment, accessories for military image recording/processing equipment, accessories for military imaging radar sensor equipment, accessories for military infrared/thermal imaging equipment, accessories for military radars, accessories for rangefinding equipment, accessories for recognition/identification equipment, accessories for targeting equipment, accessories for weapon control equipment, accessories for weapon night sights, accessories for weapon sights, aircraft military communications equipment, aircraft missile protection systems, attack alerting/warning equipment, components for aircraft military communications equipment, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for combat helicopters, components for decoying/countermeasure equipment, components for electronic countermeasure equipment, components for military aero-engines, components for military cameras/photographic equipment, components for military guidance/navigation equipment, components for military helicopters, components for military image intensifier equipment, components for military image recording/processing equipment, components for military imaging radar sensor equipment, components for military infrared/thermal imaging equipment, components for military radars, components for rangefinding equipment, components for recognition/identification equipment, components for targeting equipment, components for weapon control equipment, components for weapon night sights, components for weapon sights, constructions for ballistic protection of military systems, decoying/countermeasure equipment, electronic countermeasure equipment, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the use of combat helicopters, equipment for the use of military helicopters, explosive charges/devices, general military aircraft components, military aero-engines, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military guidance/navigation equipment, military parachutes, military radars, rangefinding equipment, recognition/identification equipment, signalling devices, software for aircraft military communications equipment, software for aircraft missile protection systems, software for attack alerting/warning equipment, software for combat helicopters, software for decoying/countermeasure equipment, software for electronic countermeasure equipment, software for military aero-engines, software for military aircraft ground equipment, software for military aircrew life support equipment, software for military aircrew safety equipment, software for military cameras/photographic equipment, software for military guidance/navigation equipment, software for military helicopters, software for military image intensifier equipment, software for military image recording/processing equipment, software for military imaging radar sensor equipment, software for military infrared/thermal imaging equipment, software for military radars, software for rangefinding equipment, software for recognition/identification equipment, software for targeting equipment, software for weapon control equipment, software for weapon night sights, software for weapon sights, targeting equipment, technology for aircraft military communications equipment, technology for aircraft missile protection systems, technology for attack alerting/warning equipment, technology for combat helicopters, technology for constructions for ballistic protection of military systems, technology for decoying/countermeasure equipment, technology for electronic countermeasure equipment, technology for explosive charges/devices, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military cameras/photographic equipment, technology for military guidance/navigation equipment, technology for military helicopters, technology for military image intensifier equipment, technology for military image recording/processing equipment, technology for military imaging radar sensor equipment, technology for military infrared/thermal imaging equipment, technology for military parachutes, technology for military radars, technology for rangefinding equipment, technology for recognition/identification equipment, technology for signalling devices, technology for targeting equipment, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for combat helicopters, unfinished products for military aero-engines, unfinished products for military helicopters, weapon control equipment, weapon night sights, weapon sights

7	P	components for airborne refuelling equipment, components for aircraft cannons, components for military aero-engines, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military training aircraft, general military aircraft components [See footnote 5]
8	P	toxins
9	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for naval engines, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of general naval vessel components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircrew life support equipment, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, equipment for the use of naval engines, general military aircraft components, general naval vessel components, military aircraft ground equipment, military aircrew life support equipment, technology for combat aircraft, technology for combat helicopters, technology for equipment for the use of combat aircraft, technology for equipment for the use of combat helicopters, technology for equipment for the use of military aero-engines, technology for equipment for the use of military aircraft ground equipment, technology for equipment for the use of military aircrew life support equipment, technology for equipment for the use of military helicopters, technology for equipment for the use of military support aircraft, technology for equipment for the use of military training aircraft, technology for equipment for the use of naval engines, technology for general military aircraft components, technology for general naval vessel components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for naval engines [See footnote 6]
10	P	accessories for munitions/ordnance detection/disposal equipment, components for munitions/ordnance detection/disposal equipment, equipment for the use of munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, software for munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment [See footnote 7]
11	P	technology for nuclear reactors
12	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, military aircraft ground equipment, military aircraft pressure refuellers [See footnote 8]
13	P	components for aircraft military communications equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military helicopters, components for military support aircraft, components for military training aircraft, components for military training equipment, general military aircraft components [See footnote 9]
14	P	components for military aero-engines, components for military aircrew safety equipment, components for military guidance/navigation equipment, components for military training aircraft, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircrew safety equipment, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew safety equipment, military guidance/navigation equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircrew safety equipment, technology for military guidance/navigation equipment, technology for military training aircraft [See footnote 10]
15	P	equipment for the use of general military aircraft components, equipment for the use of general military vehicle components, general military aircraft components, general military vehicle components, general naval vessel components [See footnote 11]
16	P	components for military aircraft head-up/down displays, components for military training aircraft, military aircraft ground equipment, military aircraft head-up/down displays, software for military training aircraft
17	P	components for NBC protective/defensive equipment, NBC protective/defensive equipment

18	P	components for military combat vehicles
19	P	components for aircraft military communications equipment, components for military communications equipment, components for military helmets, equipment for the production of aircraft military communications equipment, equipment for the production of military communications equipment, equipment for the use of aircraft military communications equipment, equipment for the use of military communications equipment, military communications equipment, military helmets, software for aircraft military communications equipment, software for military communications equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military helmets [See footnote 12]
20	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 13]
21	P	software for uranium isotope separation equipment, technology for uranium isotope separation equipment [See footnote 15]
22	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced

		electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 16]
23	P	machine guns [See footnote 17]
24	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment
25	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights [See footnote 19]
26	P	components for combat aircraft, components for combat helicopters, components for military aero-engines, components for military helicopters, components for military support aircraft, components for military training aircraft, components for surface-to-air missiles, technology for combat aircraft, technology for combat helicopters, technology for military aero-engines, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for surface-to-air missiles
27	P	components for weapon sights, weapon sights
28	P	command/control equipment for unmanned air vehicles, components for launching/ground support equipment for unmanned air vehicles, components for unmanned air vehicles, launching/ground support equipment for unmanned air vehicles, software for command/control equipment for unmanned air vehicles, technology for launching/ground support equipment for unmanned air vehicles, test models for launching/ground support equipment for unmanned air vehicles
29	P	components for rifles, components for sniper rifles, components for sporting guns, gun mountings, rifles, small arms ammunition, sniper rifles, sporting guns, technology for rifles, technology for sniper rifles, technology for sporting guns, weapon sights
30	P	components for rifles, components for small arms ammunition, components for sporting guns, components for sporting shotguns, components for training small arms ammunition, components for weapon sights, rifles, small arms ammunition, sporting guns, sporting shotguns, training small arms ammunition, weapon sights [See footnote 22]
31	P	components for military support aircraft, equipment for the production of military support aircraft, equipment for the use of military support aircraft, military aircraft ground equipment, technology for equipment for the production of military support aircraft, technology for equipment for the use of military support aircraft, technology for military support aircraft [See footnote 23]
32	P	components for sporting guns, small arms ammunition, sporting guns, sporting shotgun ammunition, weapon sights
33	P	components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon night sights, weapon sights
34	P	components for military support aircraft [See footnote 26]
35	P	components for combat helicopters
36	P	components for military electronic equipment, general military aircraft components, military electronic equipment, software for general military aircraft components, software for military electronic equipment, technology for general military aircraft components, technology for military electronic equipment [See footnote 29]
37	P	toxins
38	P	technology for surface-to-surface missiles
39	P	components for sporting shotgun ammunition, sporting shotgun ammunition

40	P	components for aircraft carriers, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for military aero-engines, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for NBC protective/defensive equipment, components for submarines, components for tanks, general military aircraft components, general military vehicle components, general naval vessel components, NBC protective/defensive equipment [See footnote 33]
41	P	rifles, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns [See footnote 37]
42	P	components for military aero-engines, military aero-engines, technology for military aero-engines
43	P	devices for initiating explosives, explosives, linear cutting explosive charges, linear shaped cutting charges, non-military detonators, non-military firing sets
44	P	technology for NBC detection equipment [See footnote 42]
45	P	components for military support aircraft
46	P	components for combat aircraft
47	P	information security equipment [See footnote 43]
48	P	airborne refuelling equipment, components for airborne refuelling equipment, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, military aircraft ground equipment [See footnote 44]
49	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of military training equipment, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 61]
50	P	components for airborne refuelling equipment, components for combat aircraft, components for combat helicopters, components for military aircraft head-up/down displays, components for military containers, components for military guidance/navigation equipment, components for military helicopters, components for military support aircraft, components for unmanned air vehicles, equipment for the operation of military aircraft in confined areas, equipment for the use of general military aircraft components, equipment for the use of military aircraft head-up/down displays, general military aircraft components, general military vehicle components, general naval vessel components, software for combat aircraft, software for combat helicopters, software for equipment for the operation of military aircraft in confined areas, software for general military aircraft components, software for general military vehicle components, software for general naval vessel components, software for military aircraft head-up/down displays, software for military helicopters, software for military support aircraft, software for submarines, technology for general military aircraft components, technology for military aircraft head-up/down displays, unfinished products for airborne refuelling equipment, unfinished products for

		combat aircraft, unfinished products for combat helicopters, unfinished products for equipment for the operation of military aircraft in confined areas, unfinished products for equipment for the use of general military aircraft components, unfinished products for general military aircraft components, unfinished products for general military vehicle components, unfinished products for general naval vessel components, unfinished products for military aircraft head-up/down displays, unfinished products for military containers, unfinished products for military guidance/navigation equipment, unfinished products for military helicopters, unfinished products for military support aircraft, unfinished products for unmanned air vehicles [See footnote 62]
51	P	components for sporting guns, components for sporting shotguns, small arms ammunition, sporting guns, sporting shotgun ammunition, sporting shotguns, weapon sights
52	P	aircraft missile protection systems, components for air launched rockets, components for air-to-air missiles, components for air-to-surface missiles, components for aircraft carriers, components for aircraft missile protection systems, components for attack alerting/warning equipment, components for bombs, components for combat aircraft, components for combat helicopters, components for combat naval vessels, components for counter-countermeasure equipment for military image intensifier equipment, components for counter-countermeasure equipment for military infrared/thermal imaging equipment, components for countermeasure equipment for military image intensifier equipment, components for countermeasure equipment for military infrared/thermal imaging equipment, components for decoying/countermeasure equipment, components for developmental missile components, components for electronic countermeasure equipment, components for fire location equipment, components for launching/handling/control equipment for missiles, components for launching/handling/control equipment for munitions, components for launching/handling/control equipment for rockets, components for military aircraft head-up/down displays, components for military auxiliary/support vessels, components for military combat vehicles, components for military helicopters, components for military infrared/thermal imaging equipment, components for military patrol/assault craft, components for military support aircraft, components for military support vehicles, components for military training aircraft, components for military underwater remotely operated vehicles, components for multi-role missiles, components for naval electrical/electronic equipment, components for naval gun installations/mountings, components for periscopes, components for rangefinding equipment, components for submarines, components for surface launched rockets, components for surface-to-air missiles, components for tanks, components for targeting equipment, components for torpedoes, components for turrets, components for weapon control equipment, components for weapon night sights, components for weapon sights, general military aircraft components, general military vehicle components, general naval vessel components, technology for air launched rockets, technology for air-to-air missiles, technology for air-to-surface missiles, technology for aircraft carriers, technology for attack alerting/warning equipment, technology for bombs, technology for combat aircraft, technology for combat helicopters, technology for combat naval vessels, technology for counter-countermeasure equipment for military image intensifier equipment, technology for counter-countermeasure equipment for military infrared/thermal imaging equipment, technology for countermeasure equipment for military image intensifier equipment, technology for countermeasure equipment for military infrared/thermal imaging equipment, technology for decoying/countermeasure equipment, technology for developmental missile components, technology for electronic countermeasure equipment, technology for fire location equipment, technology for launching/handling/control equipment for missiles, technology for launching/handling/control equipment for munitions, technology for launching/handling/control equipment for rockets, technology for military aircraft head-up/down displays, technology for military auxiliary/support vessels, technology for military combat vehicles, technology for military helicopters, technology for military infrared/thermal imaging equipment, technology for military patrol/assault craft, technology for military support aircraft, technology for military support vehicles, technology for military training aircraft, technology for military underwater remotely operated vehicles, technology for multi-role missiles, technology for naval electrical/electronic equipment, technology for naval gun installations/mountings, technology for periscopes, technology for rangefinding equipment, technology for submarines, technology for surface launched rockets, technology for surface-to-air missiles, technology for tanks, technology for targeting equipment, technology for torpedoes, technology for turrets, technology for weapon control equipment, technology for weapon night sights, technology for weapon sights, unfinished products for fire location equipment, unfinished products for military aircraft head-up/down displays, unfinished products for military image intensifier equipment,

		unfinished products for military infrared/thermal imaging equipment, unfinished products for periscopes, unfinished products for rangefinding equipment, unfinished products for targeting equipment, unfinished products for weapon night sights, unfinished products for weapon sights
53	P	sporting guns [See footnote 46]
54	P	information security equipment, information security software, software for information security equipment, technology for information security equipment [See footnote 47]
55	P	pistols, sporting guns, sporting shotguns
56	P	technology for space launch vehicles
57	P	components for NBC protective/defensive equipment, equipment for the use of NBC protective/defensive equipment, NBC protective/defensive equipment, software for equipment for the use of NBC protective/defensive equipment, technology for NBC protective/defensive equipment [See footnote 64]
58	P	components for military support aircraft, equipment for the production of military support aircraft, military aircraft ground equipment, technology for military support aircraft, unfinished products for military support aircraft
59	P	neutron generators [See footnote 49]
60	P	components for sporting shotguns, sporting shotguns
61	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 63]
62	P	components for equipment for the use of electronic countermeasure equipment, components for launching/handling/control equipment for rockets, components for military electronic equipment, components for rangefinding equipment, equipment for the use of electronic countermeasure equipment, launching/handling/control equipment for rockets, military electronic equipment, rangefinding equipment, software for electronic countermeasure equipment, software for launching/handling/control equipment for rockets, software for military electronic equipment, software for rangefinding equipment, technology for electronic countermeasure equipment, technology for launching/handling/control equipment for rockets, technology for military electronic equipment, technology for rangefinding equipment [See footnote 50]
63	P	aircraft military communications equipment, components for aircraft military communications equipment, components for electronic warfare equipment, components for ground vehicle military communications equipment, components for military communications equipment, components for military guidance/navigation equipment, components for military radars, electronic warfare equipment, equipment for the use of military communications equipment, general military aircraft components, ground vehicle military communications equipment, military communications equipment, military guidance/navigation equipment, military improvised explosive device decoying/detection/disposal/jamming equipment, technology for aircraft military communications equipment, technology for electronic warfare equipment, technology for ground vehicle military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment, technology for military improvised explosive device decoying/detection/disposal/jamming equipment [See footnote 51]
64	P	components for military support aircraft [See footnote 53]
65	T	towed hydrophone arrays
66	P	components for munitions/ordnance detection/disposal equipment, munitions/ordnance detection/disposal equipment, technology for munitions/ordnance detection/disposal equipment
67	P	components for military support aircraft, equipment for the production of military support aircraft, technology for military support aircraft, unfinished products for military support aircraft [See footnote 56]
68	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military guidance/navigation equipment, military communications equipment, military guidance/navigation equipment, software for aircraft military communications equipment, software for military guidance/navigation equipment, technology for aircraft military communications equipment, technology for military communications equipment, technology for military guidance/navigation equipment [See footnote 65]
69	P	components for submarines

70	P	artillery, components for artillery, components for naval gun installations/mountings, components for naval guns, naval gun installations/mountings, naval guns, software for artillery, software for naval gun installations/mountings, software for naval guns, technology for artillery, technology for naval gun installations/mountings, technology for naval guns
----	---	---

Rejected

Applications to this destination refused in full.		
No.	Type	Goods Summary
1	P	assault rifles, blank/inert ammunition, combat shotguns, components for assault rifles, components for combat shotguns, components for machine guns, components for pistols, components for rifles, components for smooth-bore weapons, components for sniper rifles, components for sporting guns, components for sporting shotguns, crowd control ammunition, gun mountings, machine guns, pistols, rifles, small arms ammunition, smoke/pyrotechnic ammunition, smooth-bore weapons, sniper rifles, sporting guns, sporting shotguns, training blank/inert ammunition, training crowd control ammunition, training small arms ammunition, training smoke/pyrotechnic ammunition, weapon mountings, weapon night sights, weapon sights

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	5	£351,283
Both Military and Non-military	2	£337,000
Total	7	£688,283

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML1	2	£94,766
ML3	1	£180,000
ML10	2	£76,517

general military aircraft components (2 licences).
small arms ammunition.
weapon night sights (2 licences).

Both Military and Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
6A002	1	£37,200
6A003	1	£120,400
ML1	2	£179,400

direct view imaging equipment.
 imaging cameras.
 weapon night sights (2 licences).

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment [See footnote 1]
2	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 2]
3	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced

		electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment, technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 3]
4	P	components for military support aircraft [See footnote 5]

promoting the supply of components for body armour [See footnote 4].
promoting the supply of components for combat shotguns [See footnote 4].
promoting the supply of components for machine guns [See footnote 4].
promoting the supply of components for pistols [See footnote 4].
promoting the supply of components for rifles [See footnote 4].
promoting the supply of components for smooth-bore weapons [See footnote 4].
promoting the supply of components for sniper rifles [See footnote 4].
promoting the supply of components for sporting guns [See footnote 4].
promoting the supply of components for sporting shotguns [See footnote 4].
promoting the supply of counter-countermeasure equipment for military cameras/photographic equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image intensifier equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military imaging radar sensor equipment [See footnote 4].
promoting the supply of counter-countermeasure equipment for military infrared/thermal imaging equipment [See footnote 4].
promoting the supply of countermeasure equipment for military image recording/processing equipment [See footnote 4].
promoting the supply of CS hand grenades [See footnote 4].
promoting the supply of devices containing military pyrotechnic materials [See footnote 4].
promoting the supply of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the operation of military aircraft in confined areas [See footnote 4].
promoting the supply of equipment for the use of aircraft cannons [See footnote 4].
promoting the supply of equipment for the use of anti-aircraft guns [See footnote 4].
promoting the supply of equipment for the use of anti-armour weapons [See footnote 4].
promoting the supply of equipment for the use of artillery [See footnote 4].
promoting the supply of equipment for the use of assault rifles [See footnote 4].
promoting the supply of equipment for the use of attack alerting/warning equipment [See footnote 4].
promoting the supply of equipment for the use of caseless ammunition weapons [See footnote 4].
promoting the supply of equipment for the use of electronic countermeasure equipment [See footnote 4].
promoting the supply of equipment for the use of fire location equipment [See footnote 4].
promoting the supply of equipment for the use of flash suppressers [See footnote 4].
promoting the supply of equipment for the use of grenade launchers [See footnote 4].
promoting the supply of equipment for the use of gun silencers [See footnote 4].
promoting the supply of equipment for the use of heavy machine guns [See footnote 4].
promoting the supply of equipment for the use of machine guns [See footnote 4].
promoting the supply of equipment for the use of military radars [See footnote 4].
promoting the supply of equipment for the use of mortars [See footnote 4].
promoting the supply of equipment for the use of periscopes [See footnote 4].
promoting the supply of equipment for the use of pistols [See footnote 4].
promoting the supply of equipment for the use of projectile launchers [See footnote 4].
promoting the supply of equipment for the use of rangefinding equipment [See footnote 4].
promoting the supply of equipment for the use of recognition/identification equipment [See footnote 4].
promoting the supply of equipment for the use of rifles [See footnote 4].
promoting the supply of equipment for the use of sensor integration equipment [See footnote 4].
promoting the supply of equipment for the use of smooth-bore weapons [See footnote 4].
promoting the supply of equipment for the use of sniper rifles [See footnote 4].
promoting the supply of equipment for the use of sporting guns [See footnote 4].
promoting the supply of equipment for the use of sporting shotguns [See footnote 4].
promoting the supply of equipment for the use of targeting equipment [See footnote 4].
promoting the supply of equipment for the use of weapon control equipment [See footnote 4].
promoting the supply of equipment for the use of weapon mountings [See footnote 4].
promoting the supply of equipment for the use of weapon night sights [See footnote 4].
promoting the supply of equipment for the use of weapon sights [See footnote 4].
promoting the supply of fire location equipment [See footnote 4].
promoting the supply of flash suppressers [See footnote 4].
promoting the supply of fuze setting devices [See footnote 4].

promoting the supply of general military aircraft components [See footnote 4].
 promoting the supply of grenade launchers [See footnote 4].
 promoting the supply of gun mountings [See footnote 4].
 promoting the supply of gun silencers [See footnote 4].
 promoting the supply of hand grenades [See footnote 4].
 promoting the supply of heavy machine guns [See footnote 4].
 promoting the supply of illuminators [See footnote 4].
 promoting the supply of launching/ground support equipment for unmanned air vehicles [See footnote 4].
 promoting the supply of machine guns [See footnote 4].
 promoting the supply of military aero-engines [See footnote 4].
 promoting the supply of military aircraft ground equipment [See footnote 4].
 promoting the supply of military aircraft head-up/down displays [See footnote 4].
 promoting the supply of military aircraft pressure refuellers [See footnote 4].
 promoting the supply of military aircrew life support equipment [See footnote 4].
 promoting the supply of military aircrew safety equipment [See footnote 4].
 promoting the supply of military cameras/photographic equipment [See footnote 4].
 promoting the supply of military combat vehicles [See footnote 4].
 promoting the supply of military helmets [See footnote 4].
 promoting the supply of military image intensifier equipment [See footnote 4].
 promoting the supply of military image recording/processing equipment [See footnote 4].
 promoting the supply of military imaging radar sensor equipment [See footnote 4].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 4].
 promoting the supply of military radars [See footnote 4].
 promoting the supply of military support vehicles [See footnote 4].
 promoting the supply of mortars [See footnote 4].
 promoting the supply of periscopes [See footnote 4].
 promoting the supply of pistols [See footnote 4].
 promoting the supply of projectile launchers [See footnote 4].
 promoting the supply of pyrotechnics/fuels and related substances [See footnote 4].
 promoting the supply of rangefinding equipment [See footnote 4].
 promoting the supply of recognition/identification equipment [See footnote 4].
 promoting the supply of rifles [See footnote 4].
 promoting the supply of sensor integration equipment [See footnote 4].
 promoting the supply of signalling devices [See footnote 4].
 promoting the supply of small arms ammunition [See footnote 4].
 promoting the supply of smoke canisters [See footnote 4].
 promoting the supply of smooth-bore weapons [See footnote 4].
 promoting the supply of sniper rifles [See footnote 4].
 promoting the supply of sporting guns [See footnote 4].
 promoting the supply of sporting shotguns [See footnote 4].
 promoting the supply of targeting equipment [See footnote 4].
 promoting the supply of unmanned air vehicles [See footnote 4].
 promoting the supply of water cannon [See footnote 4].
 promoting the supply of weapon cleaning equipment [See footnote 4].
 promoting the supply of weapon control equipment [See footnote 4].
 promoting the supply of weapon mountings [See footnote 4].
 promoting the supply of weapon night sights [See footnote 4].
 promoting the supply of weapon sight mounts [See footnote 4].
 promoting the supply of weapon sights [See footnote 4].

SIELs - Permanent and Temporary (excluding Incorporation and Transshipment)

Issued

Types of goods on licence	No. of licences	Value
Military	1	£127,030
Non-military	3	£3,649,324
Total	4	£3,776,354

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML6	1	£127,030

general military vehicle components [See footnote 1].

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
3A101	1	£3,550,000
3E101	1	£90,000
5A002	2	£9,324

information security equipment (2 licences).
technology for X-ray accelerators.
X-ray accelerators.

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	T	components for inertial equipment, inertial equipment, technology for inertial equipment

2	P	components for military support aircraft [See footnote 2]
3	P	aircraft military communications equipment, components for aircraft military communications equipment, components for military aero-engines, components for military aircrew life support equipment, components for military guidance/navigation equipment, components for military infrared/thermal imaging equipment, components for military radars, components for military support aircraft, equipment for the use of aircraft military communications equipment, equipment for the use of general military aircraft components, equipment for the use of military aero-engines, equipment for the use of military aircraft ground equipment, equipment for the use of military aircraft pressure refuellers, equipment for the use of military aircrew life support equipment, equipment for the use of military guidance/navigation equipment, equipment for the use of military infrared/thermal imaging equipment, equipment for the use of military radars, equipment for the use of military support aircraft, general military aircraft components, military aircraft ground equipment, military aircraft pressure refuellers, military aircrew life support equipment, military guidance/navigation equipment, military infrared/thermal imaging equipment, technology for aircraft military communications equipment, technology for general military aircraft components, technology for military aero-engines, technology for military aircraft ground equipment, technology for military aircraft pressure refuellers, technology for military aircrew life support equipment, technology for military guidance/navigation equipment, technology for military infrared/thermal imaging equipment, technology for military radars, technology for military support aircraft [See footnote 3]

		technology for military aircrew life support equipment, technology for military cameras/photographic equipment, technology for military communications equipment, technology for military electronic equipment, technology for military helmets, technology for military image intensifier equipment, technology for military laser protection equipment, technology for military parachutist equipment
10	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 1]
11	P	components for combat aircraft, components for combat helicopters, components for equipment for the operation of military aircraft in confined areas, components for equipment for the production of combat aircraft, components for equipment for the production of combat helicopters, components for equipment for the production of military helicopters, components for equipment for the production of military support aircraft, components for equipment for the production of military training aircraft, components for military aircraft ground equipment, components for military aircrew life support equipment, components for military aircrew safety equipment, components for military helicopters, components for military parachutes and equipment, components for military support aircraft, components for military training aircraft, devices containing military pyrotechnic materials, equipment for the development of combat aircraft, equipment for the development of combat helicopters, equipment for the development of military helicopters, equipment for the development of military support aircraft, equipment for the development of military training aircraft, equipment for the operation of military aircraft in confined areas, equipment for the production of combat aircraft, equipment for the production of combat helicopters, equipment for the production of military helicopters, equipment for the production of military support aircraft, equipment for the production of military training aircraft, equipment for the use of combat aircraft, equipment for the use of combat helicopters, equipment for the use of military helicopters, equipment for the use of military support aircraft, equipment for the use of military training aircraft, general military aircraft components, military aircraft ground equipment, military aircrew life support equipment, military aircrew safety equipment, military electronic equipment, military parachutes and equipment, signalling devices, software for combat aircraft, software for military electronic equipment, software for military support aircraft, software for military training aircraft, technology for combat aircraft, technology for devices containing military pyrotechnic materials, technology for equipment for the development of combat aircraft, technology for equipment for the development of combat helicopters, technology for equipment for the development of military helicopters, technology for equipment for the development of military support aircraft, technology for equipment for the development of military training aircraft, technology for equipment for the production of combat aircraft, technology for equipment for the production of combat helicopters, technology for equipment for the production of military support aircraft, technology for equipment for the production of military training aircraft, technology for military aircraft ground equipment, technology for military aircrew life support equipment, technology for military aircrew safety equipment, technology for military electronic equipment, technology for military helicopters, technology for military support aircraft, technology for military training aircraft, technology for signalling devices, test models for combat aircraft, test models for combat helicopters, test models for military helicopters, test models for military support aircraft, test models for military training aircraft [See footnote 3]
12	P	cable systems sensitive to eavesdropping, components for information security equipment, equipment for generating spreading codes, equipment with reduced electromagnetic emanations, impulse radio equipment, information security equipment, non-cryptographic information security equipment, software for cable systems sensitive to eavesdropping, software for equipment for generating spreading codes, software for equipment with reduced electromagnetic emanations, software for impulse radio equipment, software for information security software, software for non-cryptographic information security equipment, technology for cable systems sensitive to eavesdropping, technology for equipment for generating spreading codes, technology for equipment with reduced electromagnetic emanations, technology for impulse radio equipment, technology for information security equipment, technology for information security software, technology for non-cryptographic information security equipment, technology for software for cable systems sensitive to eavesdropping, technology for software for equipment for generating spreading codes, technology for software for equipment with reduced electromagnetic emanations, technology for software for impulse radio equipment,

		technology for software for information security equipment, technology for software for information security software, technology for software for non-cryptographic information security equipment [See footnote 4]
13	P	components for equipment for the operation of military aircraft in confined areas, components for equipment for the use of artillery, equipment for the operation of military aircraft in confined areas, equipment for the use of artillery, general naval vessel components, military electronic equipment, software for equipment for the operation of military aircraft in confined areas, software for equipment for the use of artillery, software for general naval vessel components, software for military electronic equipment, technology for equipment for the operation of military aircraft in confined areas, technology for equipment for the use of artillery, technology for general naval vessel components, technology for military electronic equipment

Country Footnotes

1. EU Council Decision (CSFP) 2017/2074 and Council Regulation (EU) 2017/2063 were introduced in November 2017. It includes an asset freeze, travel ban and arms embargo, embargo on equipment that could be used for repression, and restrictions on monitoring equipment. Targeted restrictions should be imposed against those responsible for serious human rights violations or abuses or the repression of civil society and democratic opposition; or those whose actions, policies or activities otherwise undermine democracy or the rule of law in Venezuela.

All exports for this destination were approved in accordance with the sanctions in place.

Case & goods Footnotes

Issued

accessories for military image intensifier equipment (6 licences) [See footnotes 26, 27, 32, 33].
 accessories for military infrared/thermal imaging equipment (6 licences) [See footnotes 26, 27, 32, 33].
 anti-armour ammunition (4 licences) [See footnotes 22, 23, 34, 35].
 assault rifles (14 licences) [See footnotes 10, 11, 22, 23, 26, 27, 3, 32, 33, 34, 35, 4].
 blank/inert ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 body armour (14 licences) [See footnotes 10, 11, 22, 23, 26, 27, 3, 32, 33, 34, 35, 4].
 bomb suits (4 licences) [See footnotes 22, 23, 34, 35].
 combat shotguns (6 licences) [See footnotes 10, 11, 22, 23, 34, 35].
 components for assault rifles (14 licences) [See footnotes 10, 11, 22, 23, 26, 27, 3, 32, 33, 34, 35, 4].
 components for blank/inert ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 components for body armour (15 licences) [See footnotes 10, 11, 22, 23, 26, 27, 28, 3, 32, 33, 34, 35, 4].
 components for bomb suits (4 licences) [See footnotes 22, 23, 34, 35].
 components for combat shotguns (6 licences) [See footnotes 10, 11, 22, 23, 34, 35].
 components for crowd control ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 components for flash suppressers (2 licences) [See footnotes 10, 11].
 components for flash suppressors (6 licences) [See footnotes 26, 27, 32, 33].
 components for gun mountings (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for gun silencers (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for military helmets (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for military image intensifier equipment (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 components for military infrared/thermal imaging equipment (10 licences) [See footnotes 22, 23, 26, 27, 32, 33, 34, 35].
 components for military shotguns (6 licences) [See footnotes 26, 27, 32, 33].
 components for pistols (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 components for rifles (13 licences) [See footnotes 10, 11, 22, 23, 26, 27, 28, 32, 33, 34, 35].
 components for small arms ammunition (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for smoke/pyrotechnic ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 components for smooth-bore weapons (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 components for sniper rifles (14 licences) [See footnotes 10, 11, 22, 23, 26, 27, 3, 32, 33, 34, 35, 4].
 components for sporting guns (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for sporting shotgun ammunition (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for sporting shotguns (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 components for tactical shotguns (6 licences) [See footnotes 26, 27, 32, 33].
 components for tear gas/irritant ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 components for weapon night sights (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 components for weapon sights (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 crowd control ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 flash suppressers (2 licences) [See footnotes 10, 11].
 flash suppressors (10 licences) [See footnotes 22, 23, 26, 27, 32, 33, 34, 35].
 gun mountings (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 gun silencers (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].

 military image intensifier equipment (13 licences) [See footnotes 10, 11, 22, 23, 26, 27, 28, 32, 33, 34, 35].
 military infrared/thermal imaging equipment (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 military shotguns (6 licences) [See footnotes 26, 27, 32, 33].
 pistols (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 promoting the supply of acoustic devices for riot control [See footnote 24].
 promoting the supply of assault rifles (3 licences) [See footnotes 24, 25].
 promoting the supply of body armour (2 licences) [See footnote 24].
 promoting the supply of components for assault rifles (3 licences) [See footnotes 24, 25].
 promoting the supply of components for body armour (2 licences) [See footnote 24].
 promoting the supply of components for flash suppressers (2 licences) [See footnotes 24, 25].
 promoting the supply of components for ground vehicle military communications equipment [See footnote 24].

promoting the supply of components for gun mountings (2 licences) [See footnotes 24, 25].
 promoting the supply of components for military communications equipment [See footnote 24].
 promoting the supply of components for military image intensifier equipment [See footnote 24].
 promoting the supply of components for military infrared/thermal imaging equipment [See footnote 24].
 promoting the supply of components for military shotguns (2 licences) [See footnotes 24, 25].
 promoting the supply of components for naval communications equipment [See footnote 24].
 promoting the supply of components for pistols (2 licences) [See footnotes 24, 25].
 promoting the supply of components for rifles (2 licences) [See footnotes 24, 25].
 promoting the supply of components for small arms ammunition (2 licences) [See footnotes 24, 25].
 promoting the supply of components for smooth-bore weapons (2 licences) [See footnotes 24, 25].
 promoting the supply of components for sniper rifles (2 licences) [See footnotes 24, 25].
 promoting the supply of components for sporting guns (3 licences) [See footnotes 24, 25].
 promoting the supply of components for sporting shotguns (2 licences) [See footnotes 24, 25].
 promoting the supply of components for tactical shotguns (2 licences) [See footnotes 24, 25].
 promoting the supply of components for weapon night sights (2 licences) [See footnotes 24, 25].
 promoting the supply of components for weapon sights (2 licences) [See footnotes 24, 25].
 promoting the supply of equipment for the use of assault rifles.
 promoting the supply of flash suppressers (2 licences) [See footnotes 24, 25].
 promoting the supply of ground vehicle military communications equipment [See footnote 24].
 promoting the supply of gun mountings (2 licences) [See footnotes 24, 25].
 promoting the supply of military communications equipment [See footnote 24].
 promoting the supply of military helmets (2 licences) [See footnote 24].
 promoting the supply of military image intensifier equipment (2 licences) [See footnote 24].
 promoting the supply of military infrared/thermal imaging equipment [See footnote 24].
 promoting the supply of military shotguns (2 licences) [See footnotes 24, 25].
 promoting the supply of naval communications equipment [See footnote 24].
 promoting the supply of pistols (2 licences) [See footnotes 24, 25].
 promoting the supply of rifles (3 licences) [See footnotes 2, 24, 25].
 promoting the supply of small arms ammunition (3 licences) [See footnotes 24, 25].
 promoting the supply of smooth-bore weapons (2 licences) [See footnotes 24, 25].
 promoting the supply of sniper rifles (2 licences) [See footnotes 24, 25].
 promoting the supply of sporting guns (4 licences) [See footnotes 2, 24, 25].
 promoting the supply of sporting shotgun ammunition (2 licences) [See footnotes 24, 25].
 promoting the supply of sporting shotguns (2 licences) [See footnotes 24, 25].
 promoting the supply of tactical shotguns (2 licences) [See footnotes 24, 25].
 promoting the supply of weapon night sights (2 licences) [See footnotes 24, 25].
 promoting the supply of weapon sight mounts.
 promoting the supply of weapon sights (3 licences) [See footnotes 24, 25].
 rifles (13 licences) [See footnotes 10, 11, 22, 23, 26, 27, 28, 32, 33, 34, 35].
 small arms ammunition (15 licences) [See footnotes 10, 11, 22, 23, 26, 27, 28, 3, 32, 33, 34, 35, 4].
 smoke/pyrotechnic ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 smooth-bore weapons (13 licences) [See footnotes 10, 11, 22, 23, 26, 27, 28, 32, 33, 34, 35].
 sniper rifles (14 licences) [See footnotes 10, 11, 22, 23, 26, 27, 3, 32, 33, 34, 35, 4].
 sporting guns (8 licences) [See footnotes 10, 11, 26, 27, 32, 33].
 sporting shotgun ammunition (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 sporting shotguns (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 tactical shotguns (6 licences) [See footnotes 26, 27, 32, 33].
 tear gas/irritant ammunition (6 licences) [See footnotes 26, 27, 32, 33].
 weapon cleaning equipment (2 licences) [See footnotes 3, 4].
 weapon night sights (12 licences) [See footnotes 10, 11, 22, 23, 26, 27, 32, 33, 34, 35].
 weapon sights (14 licences) [See footnotes 10, 11, 22, 23, 26, 27, 3, 32, 33, 34, 35, 4].

SIELs - Permanent and Temporary (excluding Incorporation and Transhipment)

Issued

Types of goods on licence	No. of licences	Value
Military	19	£6,796,588
Non-military	28	£30,627,983
Both Military and Non-military	4	£1,643,060
Total	51	£39,067,630

The SIELs issued were granted for goods with the following 'Control Entries' (for permanent export except where the case summary description is preceded by a T, which indicates a Temporary Export). Please note that more than one 'Control Entry' can apply to goods on an individual licence and each 'Control Entry' is counted only once per individual licence (regardless of the number of goods that have been rated with that 'Control Entry'):

Military

Control Entry	No. of licences with goods rated using Control Entry	Value
ML3	1	£30,000
ML4	2	£8,974
ML5	5	£2,031,920
ML9	1	£4,306,579
ML10	2	£144,686
ML11	5	£38,824
ML13	1	£36,530
ML17	1	£40,300
ML21	4	£20,530

ML22	5	£96,250
PL5017	1	£41,995

bomb suits.
 command communications control and intelligence software.
 components for military electronic equipment (3 licences).
 components for military guidance/navigation equipment (3 licences).
 components for military radars (2 licences) [See footnote 8].
 components for naval gun installations/mountings.
 components for unmanned air vehicles.
 components for weapon control equipment.
 equipment for the operation of military aircraft in confined areas.
 equipment for the use of naval gun installations/mountings.
 equipment for the use of targeting equipment (2 licences).
 military diving apparatus.
 military helmets.
 military improvised explosive device decoying/detection/disposal/jamming equipment (2 licences).
 naval gun installations/mountings.
 rangefinding equipment.
 small arms ammunition [See footnote 4].
 software for naval gun installations/mountings (3 licences).
 software for weapon control equipment.
 targeting equipment (2 licences).
 technology for command communications control and intelligence software.
 technology for naval gun installations/mountings (3 licences).
 technology for unmanned air vehicles.
 technology for weapon control equipment.

Non-military

Control Entry	No. of licences with goods rated using Control Entry	Value
1A004	3	£211,800
1C351	1	£25
2B350	3	£850
5A001	3	£2,538,185

Taiwan

OIELs (excluding Other OIELs)

Issued

Licences issued or where coverage was amended during the period by the inclusion or reinstatement of this destination.		
No.	Type	Goods Summary
1	P	goods treated for signature suppression for military use [See footnote 1]
2	P	components for military communications equipment, equipment for the operation of military aircraft in confined areas, equipment for the use of equipment for the operation of military aircraft in confined areas, military communications equipment, software for equipment for the operation of military aircraft in confined areas, software for military communications equipment, technology for equipment for the operation of military aircraft in confined areas, technology for military communications equipment [See footnote 2]
3	P	information security equipment, information security software
4	P	military equipment for initiating explosives [See footnote 5]
5	P	components for military diving apparatus, military diving apparatus, rebreathing swimming equipment [See footnote 7]
6	T	towed hydrophone arrays [See footnote 9]
7	P	accelerometers, components for accelerometers, components for guidance/navigation equipment, components for gyroscopes, components for inertial equipment, guidance/navigation equipment, gyroscopes, inertial equipment [See footnote 10]
8	P	accessories for military training equipment, components for equipment for the development of military software, components for equipment for the development of military training equipment, components for equipment for the development of software enabling equipment to function as military training equipment, components for equipment for the production of military software, components for equipment for the production of software enabling equipment to function as military training equipment, components for equipment for the use of military software, components for equipment for the use of military training equipment, components for equipment for the use of software enabling equipment to function as military training equipment, components for military training equipment, environmental test facilities for military software, environmental test facilities for military training equipment, environmental test facilities for software enabling equipment to function as military training equipment, equipment for the development of military software, equipment for the

		development of military training equipment, equipment for the development of software enabling equipment to function as military training equipment, equipment for the production of military software, equipment for the production of military training equipment, equipment for the production of software enabling equipment to function as military training equipment, equipment for the use of military software, equipment for the use of military training equipment, equipment for the use of software enabling equipment to function as military training equipment, information security equipment, military software, military training equipment, software enabling equipment to function as military training equipment, software for military software, software for military training equipment, software for software enabling equipment to function as military training equipment, technology for military software, technology for military training equipment, technology for software enabling equipment to function as military training equipment [See footnote 12]
9	P	components for military support aircraft [See footnote 11]
10	P	information security equipment, software for information security equipment, technology for information security equipment
11	P	components for military auxiliary/support vessels, components for military patrol/assault craft, general naval vessel components [See footnote 13]

Country Footnotes

1. UN Security Council Resolution 2216 (2015) established a targeted arms embargo to prevent the direct or indirect supply, sale or transfer to, or for the benefit of designated individuals and entities and those acting on their behalf or at their direction in Yemen, of arms and related material of all types, and of technical assistance, training, financial assistance or other assistance related to military activities or the provision, maintenance or use of any arms and related material. This adds to earlier resolution 2140 (2014) establishing asset freezes and travel bans of designated individuals and entities. The EU implements these measures through Council Decision (CFSP) 2015/882, as amended; as well as Council Regulation (EU) 2015/878, as amended.

All exports for this destination were approved in accordance with the sanctions in place.
