

## Evaluation & Trial Advice Panel (ETAP) members (2023)

Name	Role and Organisation	Bio
Aidan Mews	Statistician, Ministry of Justice	Aidan has provided an internal statistical methodology consultancy service within MoJ since 2012. This has included advising on trials and quasi experimental methods, and also putting the latter into action in studies such as ‘The impact evaluation of the prison-based Core Sex Offender Treatment Programme’ and ‘The impact of short custodial sentences, community orders and suspended sentence orders on reoffending’.
Dr Alex Sutherland	Independent researcher	Dr Alex Sutherland is an independent researcher with a wide variety of evaluation expertise, including experimental and quasi-experimental approaches, as well as process and implementation evaluation. He has previously worked at the Behavioural Insights Team, RAND and the University of Cambridge.
Dr Aoife Doyle	Associate Professor in Epidemiology, London School of Hygiene & Tropical Medicine	Dr Doyle is an epidemiologist at the London School of Hygiene & Tropical Medicine specialising in intervention and programme evaluation, and the improvement of adolescent health and wellbeing. She is passionate about evidence-based action and the importance of clearly understanding the impact of the interventions that we implement. She has 20 years of practical evaluation experience of complex evaluations in resource constrained and often politically complex settings. She is currently leading the evaluation of a comprehensive adolescent health and wellbeing check-up visit intervention which is being implemented in school and community settings.
Arnaud Vaganay	Head of Research, What Works for Children's Social Care (WWCSC)	Arnaud has over 15 years’ experience in research and meta-research. As a researcher, Arnaud is particularly interested in interventions that have the potential to improve the outcomes of disadvantaged children. He is specialised in the design, and management of large-scale, complex evaluations. Arnaud’s meta-research focuses on errors, biases and misreporting in evaluation. His published work and presentations provide concrete examples of how economists and social researchers can improve the readability, credibility and replicability of their analyses.

Name	Role and Organisation	Bio
Dr Andi Fugard	Deputy Director of Evaluation, National Centre for Social Research	Andi has over a decade of experience in social research, including designing and running randomised controlled trials and quasi-experiments. Before joining NatCen in 2021, they were Senior Lecturer at Birkbeck, University of London (2017–2020), and Lecturer at University College London (2013–2017), both in research methods. At the Anna Freud Centre (2011–2013), they led analyses of national mental health treatment outcomes. Prior to that, they were a postdoc at the University of Salzburg, Austria (2008–2011), where they investigated how people reason about probabilities. Their PhD was on individual differences in reasoning (University of Edinburgh, 2009).
Dr Angus Holford	Senior Research Fellow, University of Essex	Dr Angus Holford is a Senior Research Fellow in the Institute for Social and Economic Research (ISER) at the University of Essex. He is Principal Investigator of a Nuffield Foundation-funded project on the impacts of Universal Free School Meals, and researches inequalities in education, health, and labour market outcomes within the ESRC Research Centre on Micro-Social Change (MiSoC) at ISER. He was formerly a Research Fellow at the Cabinet Office’s Behavioural Insights Team, and lectures on policy evaluation methods for an MSc course at Essex, and the National Centre for Research Methods short course ‘Introduction to Impact Evaluation’.
Dr Anouk Rigterink	Associate Professor of Quantitative Comparative Politics, Durham University	Dr Anouk S. Rigterink is Associate Professor in Quantitative Comparative Politics at Durham University. She specialises in quantitative evaluation, using experimental and observational data. As such, she investigated the impact of killing terrorist leaders by drone, of increases in the price of natural resources on conflict and of community monitoring of the forest on deforestation. Dr Rigterink has experience running surveys, lab-in-the-field studies and Randomised Controlled Trials, often in challenging contexts. She obtained her Ph.D. from the London School of Economics, and previously held positions at the University of Oxford and Princeton University.
Professor Claudia Cooper	Lead for QMUL Centre for Psychiatry and Mental Health, Queen Mary University of London	Claudia leads the Centre for Psychiatry and Mental Health, Wolfson Institute of Population Health at Queen Mary University of London. She is a consultant old age psychiatrist in East London NHS Foundation Trust memory services. She leads the Alzheimer’s Society Centre of Excellence for Independence at home, in which they are developing interventions to support people living with dementia at home; and the NIHR/ESRC APPLE-Tree programme (Active Prevention in People at risk of dementia, lifestyle, behaviour

Name	Role and Organisation	Bio
		change/technology to reduce cognitive decline), investigating how lifestyle and behavioural change can prevent dementia in older people.
Dr Claudia Mollidor	Head of Research and Evaluation, Engineering UK	Claudia has over 15 years of experience in social research and evaluation; designing, directing and delivering robust, insightful research and evaluation projects for government and private sector institutions. She has held roles in academia, the Social Research Institute at Ipsos, including its ethics board, and is currently Head of Research and Evaluation at EngineeringUK. Claudia is committed to leading studies benefitting underrepresented and vulnerable children, as well as disadvantaged adults. Claudia holds a PhD in Social Psychology from the London School of Economics. She sits on the BBC Children in Need grants advisory committee for London and is a board member of TalentEd, an educational charity.
Cristina Rosemberg Montes	Managing Partner, Technopolis Ltd	An economist by training, Cristina has more than 15+ years of experience socio-economic impact assessments and evaluation across a wide range of policy areas, including research and innovation policy and economic development. She has worked with public organisations in the UK, Ireland, Norway and LATAM, and with international organisations such as the World Bank and the European Commission. Cristina has ample experience in designing and implementing studies that require a mixed-methods approach, including quasi-experimental design, Theory Based Evaluation Methods, and data science techniques.
Dr Ben Styles	Head of Classroom Practice and Workforce, National Foundation for Educational Research	Ben has spent the last ten years running large-scale experiments in the field of education. For most of this time he led NFER's Education Trials Unit. More recently, he has been involved in measuring pandemic recovery and evaluating the National Tutoring Programme using a quasi-experimental design. He co-wrote a book on RCTs in education research and sits on various trial steering committees, whilst recognising the limitations of experimentation in certain evaluation contexts. He is a Chartered Statistician and has a PhD in neuroscience.
Dr Billy Bryan	Evaluation and Research Leader, RAND Europe	Dr Billy Bryan is an experienced evaluator having led and worked on over 55 evaluations for UK and international public and third sector clients, including the UK Government, European Commission, Wellcome and UNICEF. He specialises in theory-based impact evaluation, using contribution analysis and process tracing, and has delivered training on this to four cohorts of BEIS analysts in 2022. He has led large evaluations of UKRI and BEIS investments including

Name	Role and Organisation	Bio
		UKRI's R&I response to COVID-19 and the Nuclear Innovation Programme. He has a PhD in medical education and is a Trustee at the University of Sussex Students' Union.
Dr Camille Aznar	Evaluation Manager, Health Innovation Network	Camille currently works at the Health Innovation Network, the Academic and Health Science Network for South London. She previously worked at Ipsos MORI and NatGen, leading the design and delivery of small and large scale qualitative and mixed-method research and evaluation projects. Her areas of expertise are in evaluating the implementation, spread and adoption of innovation in health and care. Camille has also an interest in developing methodological strategies that facilitate research participation for vulnerable and disadvantaged groups.
Dr Claudia Schneider	Research Associate, University of Cambridge	Dr Claudia R Schneider is a social psychologist and behavioural scientist. She has held positions at Columbia University, Princeton University, and the University of Cambridge. Her research into drivers of human behaviour is motivated by the goal of helping to tackle society-level social issues, such as climate change, public health challenges, and the transparent communication of scientific evidence and uncertainty. Her work aims to bridge between scientific insights and practice. She has consulted on development work, led intervention projects, and conducted field trials in Africa, Latin America, and India, in addition to survey-based research in Europe, Asia, America, and Oceania.
Professor David Parsons	Visiting Professor, Leeds Beckett University	David's career combines early academic posts (Sussex; Cranfield), policy research (Institute of Employment Studies; National Economic Development Office; P&A Research and Consulting) and independent advice to public bodies. An impact evaluation specialist he has directed numerous studies for government departments, NDPBs, regulators and international bodies and is lead tutor for the Social Research Association professional development programme in evaluation methods. A visiting Professor at Leeds Beckett University, he was elected a Fellow of the Academy of Social Science in 2018 for contributions to cross-conceptual evaluation.
David Westlake	Senior Research Fellow, Cardiff University	David's work is focussed on evaluations in Children's Social Care, and in recent years he's led several studies – from small feasibility pilots to large experimental and quasi-experimental studies. He is leading a large randomised controlled trial of school based social work, involving 280,000 school students in 21 local authorities across England. He is also co-leading the evaluation of the Welsh Basic Income Pilot for care leavers, which is the most generous basic

Name	Role and Organisation	Bio
		income scheme in the world. He is experienced in mixed methods and theory based approaches to evaluation, and has published widely in books, journal articles and research reports.
Dr Debbie Blair	Associate Director, Kantar Public	Debbie is an economist by training, with expertise in impact evaluation design and methods including experimental and non-experimental designs. She is currently an Associate Director in Evaluation at Kantar Public with experience both on the delivery of and the commissioning of evaluations, previously working at the Institute for Fiscal Studies and the Education Endowment Foundation. She has topic area expertise in early childhood development, education and skills, and inequality, but during her career has worked across a wide range of policy areas including housing, health, international development, and the labour market.
Dina Dimou	Joint Head of Strategic Evaluation Team, Department for Environment, Food & Rural Affairs	Dina co-leads Defra's central evaluation team, advising and supporting the evaluation community of practice, policy and project delivery teams. Dina has designed and managed research and evaluation projects for high-profile policies and programmes in DCMS, HMRC and DfE that employed a range of methods and approaches (theory of change, quasi-experimental methods, RCTs). Dina has developed guidance and training material for evaluators and other professions. She has expertise in the following sectors: infrastructure programmes, environment, food, digital, tax compliance, wellbeing, education and young people.
Dr Eliza Kozman	Deputy Director, Transforming Access and Student Outcomes in Higher Education (TASO)	Eliza Kozman is Deputy Director at the Centre for Transforming Access and Student Outcomes in Higher Education (TASO) where she leads a programme of research and evaluation focused on reducing inequality in higher education. Before joining TASO Eliza worked for the Behavioural Insights Team where she designed and implemented randomised controlled trials to test ways of improving education outcomes for disadvantaged students. Eliza has a strong interest in social mobility and a background in higher education policy. She previously led on policy areas covering access and admissions at the Russell Group of Universities.
Dr Eff Blank	Reducing Reoffending Analysis Team Leader, Ministry of Justice	Dr Eff Blank (formerly Taylor) leads the EIF evaluation team (Criminal Justice Analytical Priority Projects) in the Ministry of Justice, overseeing monitoring, process, impact and economic evaluations of interventions seeking to improve employability and reduce reoffending. Previously, as Head of Evaluation Development in the Evaluation Centre of Excellence, Department for Transport, she led on evaluating priority work streams including Net Zero and

Name	Role and Organisation	Bio
		<p>R&amp;D. She co-authored the evaluation module of the government's flagship Transport Analysis Guidance. At the What Works Centre for Education (EEF), she managed 40+ randomised controlled trials and other evaluations providing robust evidence of what works in raising attainment and reducing educational disadvantage.</p>
<p>Dr Emilie Courtin</p>	<p>Assistant Professor in Social Epidemiology and Public Policy, London School of Hygiene and Tropical Medicine</p>	<p>Emilie is Assistant Professor in Social Epidemiology and Public Policy at the London School of Hygiene and Tropical Medicine. Her expertise includes experimental and quasi-experimental approaches. She is interested in integrating laboratory, clinical, population and social sciences.</p>
<p>Dr Giulia Tagliaferri</p>	<p>Head of Quantitative Research, Behavioural Insights Ltd</p>	<p>Giulia is the Head of Quantitative Research at the Behavioural Insights Team. She is responsible for setting and maintaining research standards across the organisation. As expert in complex quantitative evaluations (observational data, quasi-experimental methods, thorny randomised controlled trials) she leads BIT's analytically most complex projects, with a particular focus in Health and Wellbeing. Prior to joining BIT, Giulia worked for the Centre for Vocational Education Research at the London School of Economics, conducting research in the field of education. She completed her PhD in Economics at Queen Mary University of London in 2018, where her research focused on the economics of identity. She holds an MSc and a BA in Economics and Social Sciences from Università Bocconi in Milan.</p>
<p>Guillermo Rodriguez</p>	<p>Head of Evidence and Data, Centre for Homelessness Impact</p>	<p>Guillermo Rodríguez-Guzmán is the Head of Evidence and Data at the Centre for Homelessness Impact. He oversees our research programme, spanning the development of our evidence tools, primary studies, syntheses, and other data projects. He joined CHI from the Education Endowment Foundation, where over two and a half years he commissioned and managed over 45 impact evaluations in education in England, mostly using randomised controlled trials but also quasi-experimental designs. Prior to this, Guillermo worked as an economist and quantitative researcher for CAF, the Latin American Development Bank, OECD, and Lambeth London Borough Council.</p>
<p>Professor Geoffrey Pugh</p>	<p>Professor of Applied Economics, Staffordshire University</p>	<p>Geoff has long experience of teaching quantitative methods to MSc and PhD students, and has published quantitative studies in economics, business/management, and public policy. These include local, national, and international evaluation studies: for example, the local economic impact of the M6 Toll Road for the Southern Staffordshire Partnership; the attainment effects of increased per</p>

Name	Role and Organisation	Bio
		<p>pupil spending for the Department for Education; the effects on incoming primary school children of an innovative reading scheme for the London Borough of Newham; and an EU Framework project to evaluate the impact of innovation support programmes on SMEs in traditional manufacturing industries.</p>
<p>Professor Ivo Vlaev</p>	<p>Professor of Behavioural Science, University of Warwick</p>	<p>Ivo Vlaev is a Professor of Behavioural Science, Warwick Business School, University of Warwick. Ivo received a DPhil (PhD) in Experimental Psychology from the University of Oxford (and St. John's College). Before coming to Warwick, Ivo worked as a research fellow at University College London and senior lecturer at Imperial College London. He has a track record of research in decision science (behavioural economics) and behaviour change, which is published in peer-reviewed academic journals, book chapters and government reports. In behaviour change, Ivo's research focuses on developing an integrated theory of behaviour change which combines principles from psychology, neuroscience, and economics.</p>
<p>Dr Jack Blumenau</p>	<p>Associate Professor in Political Science and Quantitative Research Methods, University College London (UCL)</p>	<p>Jack Blumenau is an Associate Professor of Political Science and Research Methods at University College London. His work is primarily located in the fields of legislative politics, public opinion, electoral politics, and quantitative methods. Methodologically, Jack is particularly interested in survey-experimental design, causal inference, machine learning, and text-as-data methods.</p>
<p>Dr Jake Anders</p>	<p>Associate Professor, University College London (UCL)</p>	<p>Jake is Associate Professor and Deputy Director of UCL Centre for Education Policy &amp; Equalising Opportunities (CEPEO). His research focuses on better understanding the causes and consequences of educational inequalities, evaluating policies and programmes aiming to reduce these inequalities, and how best to do this evaluation. He is also Principal Investigator of the COVID Social Mobility &amp; Opportunities study (COSMO), a major cohort study of young people across England building our understanding of the unequal implications of the COVID-19 pandemic on the life chances of a generation. Jake has published widely across economics, psychology and sociology journals on these issues.</p>
<p>James Phipps</p>	<p>Deputy Director, Nesta</p>	<p>James is Deputy Director of the Innovation Growth Lab (IGL), based at Nesta and the Barcelona School of Economics. James leads IGL's work with policymakers wanting to apply experimental methods to increase innovation, entrepreneurship and business. Notable projects include two "Experimentation Funds" - Business Basics in the UK and another with the European Commission. IGL guided over forty policy pilots and trials testing new interventions to boost</p>

Name	Role and Organisation	Bio
		<p>innovation and productivity amongst SMEs. Before joining IGL, James was Head of Enterprise Policy Development and Evaluation at the UK Business Department where he introduced more robust approaches to evaluation including the application of RCTs.</p>
Dr Jeremy Segrott	Senior Lecturer, Cardiff University	<p>Jeremy Segrott is a Senior Lecturer in the Centre for Trials Research and the DECIPHer Centre at Cardiff University. His research focuses on the evaluation of complex interventions, with a particular focus on school and family-based approaches to health improvement. He has expertise in using qualitative research within mixed methods approaches, process evaluations and evaluating intervention implementation. His work also has a strong emphasis on public involvement and engagement.</p>
Jonathan Cook	Director, SQW	<p>Jonathan Cook is a Director at SQW with over 20 years' experience evaluating economic and social development policy. This has covered policy areas such as business support, research and innovation, regional and local economic development, regeneration, and employment and skills. He has led numerous evaluation studies for clients that include UK government departments and their agencies, regional development agencies, charities, and the European Commission. These include evaluations of policies and programmes, advice on evaluation methods and frameworks, preparation of evaluation guidance, and supporting capacity development. Jonathan has expertise in counterfactual and theory-based impact evaluation methods, economic evaluation and process evaluation.</p>
Dr Jane Colechin	Head of Evidence and Evaluation, Youth Futures Foundation	<p>Jane Colechin is Head of Evidence and Evaluation at Youth Futures Foundation; the What Works Centre for Youth Employment. Jane leads evidence generation at Youth Futures. This includes the design and delivery of impact evaluations of youth employment interventions and development of guidance and methods for evaluators. Jane has two decades of experience of leading research and evaluation projects across welfare state, labour market and employment policy and has advised national and local policy makers on the design and delivery of effective employment, skills, and welfare benefit programmes. Jane is particularly interested in developing robust evaluation methods for simple and complex interventions.</p>
Professor John Connolly	Professor of Public Policy and Head of Department of Social Sciences,	<p>John Connolly is Professor of Public Policy and Head of Department of Social Sciences at Glasgow Caledonian University and Chief Editorial Adviser for Routledge Open Research. Before entering</p>

Name	Role and Organisation	Bio
	Glasgow Caledonian University	academia, he was an in-house Evaluation Specialist for the NHS in Scotland. He undertakes interdisciplinary evaluation research into public sector reform, policy analysis, multi-level governance, crisis management and health security governance. He is currently a co-Investigator on the Advanced Metagenomics, Sensors and Photocatalysis for Antimicrobial Resistance Elimination study funded by the Natural Environment Research Council. His PhD won the Sir Walter Bagehot prize for its contribution to British public administration research.
Dr Julie Harris	Director of Research, Dartington Service Design Lab	Julie took up a position as Director of Research in May 2022, leading the UK research programme including innovation in research methods and design, quality assurance and ethics. Prior to this she led the evaluation and contextual safeguarding programmes at the Safer Young Lives Research Centre, University of Bedfordshire. Julie specialises in theory-driven, mixed-methods evaluation research, recognising the importance of individual agency, capturing complexity and emergence in systems change, and prioritising partnership and iterative learning. She has extensive experience of children's services, child protection and safeguarding systems and the role that the third sector brings to social welfare intervention and support.
Khalid Khan	Deputy Director Science, Technology and Innovation Analysis, Department for Business, Energy and Industrial Strategy (BEIS)	Khalid Khan is the Deputy Director Science, Technology and Innovation Analysis at the Department for Business, Energy and Industrial Strategy (BEIS). He has expertise in experimental, quasi-experimental and economical evaluation approaches.
Kimberly Bohling	Head of Evaluation, Education Endowment Foundation	Kim has worked in the education and research sectors in a variety of capacities over the last 15 years. Her work has largely focused on developing and evaluating interventions that aim to improve outcomes for young people. She is currently Head of Evaluation at the Education Endowment Foundation and previously held the same title at the Behavioural Insights Team. Prior to moving to the UK, she led a research and development lab at the Harvard Kennedy School.
Dr Laura Hayward	Deputy Head of Evaluation, Ipsos UK	Laura has 13 years working professionally in evaluation. During this time she has designed, managed and directed evaluations for BEIS, Defra, FCDO, DCMS, World Bank, and the EU. She is a former council member of the UK Evaluation Society and she is currently project or

Name	Role and Organisation	Bio
		<p>quality directing evaluations of five major government projects. She has also delivered training on evaluation to DfT, DiT, and international organisations, and - within Ipsos - she heads up the evaluation training programme.</p>
Liz Gilfillan	<p>Head of Official Development Assistance (ODA) Analysis, Department for Business, Energy &amp; Industrial Strategy</p>	<p>Liz has worked in evaluation for over 20 years, including 15 years as an independent evaluator, primarily of economic development, regeneration, employment and education interventions delivered by local authorities, national charities, or government agencies. She currently heads up monitoring, evaluation and learning for global research &amp; innovation funds managed by the Department for Science Innovation and Technology (previously the Department for Business, Energy and Industrial Strategy) where she leads the design, commissioning and management of large-scale complex policy evaluations. Her interest in the challenges and methods for evaluating effectiveness and impacts continues to grow, as does her strong commitment to ensuring that equalities considerations are embedded in evaluation design, delivery and learning.</p>
Louise Jane Schmidt	<p>Senior Research &amp; Evaluation Manager, NHS England</p>	<p>Louise has a background in health services research and has worked in academia, consultancy and health care systems in the UK and internationally. She specialises in conducting evaluations, health economic analyses and systematic reviews and has more recently led a team in NHS England conducting process and impact assessments, developing logic models and designing outcomes frameworks for policy initiatives. Louise joined the Youth Endowment Fund as Director of Evidence and Understanding in January 2023. This is a 6-month secondment from NHS England, supporting YEF's mission to prevent children and young people becoming involved in violence.</p>
Lyndon Clews	<p>Evaluation Lead, Ministry of Justice</p>	<p>Lyndon is a Civil Servant who has worked in evaluation roles across a range of areas including benefit fraud, work and health and the justice system. He has a particular interest in designing and delivering experimental and quasi-experimental evaluations in social policy contexts. He currently works in the Evaluation &amp; Prototyping Hub in the Ministry of Justice, where he is responsible for building evaluation capability and delivering the Ministry's first Evaluation and Prototyping strategy.</p>
Dr Martin Foureaux Koppensteiner	<p>Associate Professor, University of Surrey</p>	<p>Martin is Associate Professor in Economics at the School of Economics at the University of Surrey and a research fellow at IZA. He is an expert in programme evaluation with an interest in crime, education, health and development. His research focuses on the</p>

Name	Role and Organisation	Bio
		<p>evaluation of public policies contributing to the understanding of the intended and unintended consequences of these policies. For his research, he uses randomised-controlled trials and natural experiments using large linked administrative datasets from the UK and Brazil.</p>
Martina Vojtkova	<p>Director of Policy Research Centre, National Centre for Social Research</p>	<p>Martina leads NatCen’s Policy Research Centre, a team of around 80 researchers with expertise across a wide range of policy areas and research methods, including NatCen’s evaluation work. In her previous role as Director of Evaluation and Analysis, Martina led a team of evaluation experts and analysts, setting strategic direction and leading on NatCen’s evaluation portfolio. She designed and oversaw numerous randomised controlled trials, quasi-experimental studies, feasibility studies, and evidence reviews. Prior to NatCen, Martina worked at the International Initiative for Impact Evaluation and the Campbell Collaboration. Martina is also a trustee of the Social Research Association.</p>
Matthew Bell	<p>Director, Frontier Economics</p>	<p>Matthew Bell is a Director and jointly leads Frontier’s Public Policy Practice. He has expertise in experimental, quasi-experimental and theory-based evaluation approaches. He has worked extensively on healthcare, climate change and environmental issues; as well as on industrial policy, education, housing and criminal justice. His work has focused on the UK but he has offered expert advice to Governments in over 20 countries on all continents.</p>
Mike Obi-Wheeler	<p>Head of Business Evaluation, Analysis and Research, HM Revenue and Customs</p>	<p>Mike is the Head of Business Evaluation, Analysis and Research for HM Revenue &amp; Customs. He has evaluation expertise in experimental, quasi-experimental, theory-based and economic evaluation approaches.</p>
Nick Spyropoulos	<p>Managing Director, Alma Economics</p>	<p>Nick Spyropoulos is the Managing Director at Alma Economics. He has led major projects for almost all UK government departments, for the Welsh Government, the Scottish Government, and councils across the country. Overseas, Nick has advised national governments in Europe, the Middle East and Africa, as well as international organisations such as the World Bank, the European Commission, UNICEF, OECD and the WHO. Prior to Alma, Nick worked as an economic adviser in HM Treasury, HM Revenue and Customs, and the Cabinet Office, including in the Prime Minister’s Delivery Unit and the Prime Minister’s Strategy Unit.</p>
Patricia Pinakova	<p>Benefits, Performance and Evaluation Lead,</p>	<p>Patricia is a social researcher with over 10 years of experience in research and evaluation across both the public and private sectors.</p>

Name	Role and Organisation	Bio
	Cabinet Office	Prior to joining the Cabinet Office, she worked at the Social Research Institute at Ipsos. She is a mixed methods researcher specialising in leading large and complex evaluations across several areas including employment, welfare and skills; youth crime; trade, innovation and enterprise, working with a wide range of audiences including businesses and senior stakeholders, general public as well as vulnerable and hard to reach children, young people and adults. She currently works as Benefits, Performance and Evaluation lead within the Government Commercial and Grants Directorate at the Cabinet Office.
Patrick Ward	Technical Director, Evidence and Evaluation, Oxford Policy Management (OPM) Ltd	Patrick Ward is Technical Director of Evidence and Evaluation at Oxford Policy Management (OPM) Ltd, a leading consultancy undertaking research and evaluation in overseas development. He provides technical leadership and supports capacity development in evidence and evaluation and their interface with policy and programming in OPM's work. He also provides overall direction, leadership and quality assurance of large mixed methods evaluations in a number of sectors, including health, education and social protection. Patrick was OPM's Director in the e-Pact consortium, one of the largest suppliers of evaluation services to the UK FCDO and is Technical Director in the successor OPM consortium.
Professor Peter John	Professor of Public Policy, King's College London (KCL)	Peter John is Professor of Public Policy at King's College London. He is interested in how to involve citizens in public policy and in randomised controlled trials. His books include Field Experiments in Political Science and Public Policy (Routledge 2017), How Far to Nudge (Edward Elgar 2018), and his co authored Nudge, Nudge, Think, Think Experimenting with Ways to Change Citizen Behaviour (Manchester University Press 2019, 2nd ed.).
Professor Paul Montgomery	Professor of Social Intervention, University of Birmingham	Paul's work is methodologically based in three main areas: Systematic Reviews, Trials (many of them RCTs) and Methods Advances in Complex Interventions. Topically, his work is wide ranging and includes Sleep (the subject of my doctorate), Education Interventions for Children, Empowerment Interventions for Women, as well as broader policy advice for policymakers. Paul is an Affiliate Professor, in the Dept of Psychology, University of Malta and on the Advisory Panel of two "What Works Centres" -Wellbeing and Children's Social Care.
Professor Richard Lilford	Professor of Public Health, University of	Richard J Lilford CBE, FMedSci, DSc (hon), PhD, FRCOG, FRCP, FFPH, FRCGP (hon) is Professor of Public Health at the University of

Name	Role and Organisation	Bio
	Birmingham	Birmingham. He is also Director of the NIHR Applied Research Collaboration West Midlands (ARC WM), the NIHR Midlands Patient Safety Research Collaboration and the NIHR Research and Innovation for Global Health Transformation (RIGHT) Programme for the treatment of Leprosy and Buruli Ulcers. He has pursued a successful career in medicine for over 40 years, has published over 400 original research papers and is an investigator on over £35 million worth of government, industry and charity sponsored research grants.
Rob Fuller	Evaluation Manager, Nesta	Rob Fuller is the Evaluation Manager at the Innovation Growth Lab, responsible for working with project teams, funders and researchers to deliver high-quality evaluations that can be used to inform policy decisions. He has more than 12 years' experience in designing, leading and analysing the results of programme evaluations, including RCTs, quasi-experimental evaluations and qualitative studies. Before joining IGL, he worked mostly in the international development field, evaluating the impact of rural development programmes around the world. He also has experience in using statistical meta-analysis to synthesise evidence from across portfolios of evaluations.
Robert Wishart	Director, Wishart Research Consulting Limited	Robert is a specialist in counterfactual impact evaluation and is passionate about transparency and replicability in social research. He has significant experience in evaluating educational interventions, including designing, managing and analysing several randomised controlled trials, such as Texting Students and Study Supporters and Family Skills. Robert has also evaluated programmes tackling labour market, criminal justice and public health issues. These evaluations have typically drawn on quasi-experimental evaluation methods. For example, Robert implemented propensity-score matching in the evaluation of the Innovation Fund for Young People. He also has expertise in conducting interrupted time series, difference-in-differences and synthetic control methods.
Rosie Gloster	Associate Director, Ipsos UK	Rosie Gloster is an Associate Director in the Employment, Welfare and Skills team at Ipsos. Rosie designs and leads evaluations, with specific expertise in theory-based evaluation, process, and implementation evaluation. She has used methods designed to account for the complexity in evaluating social policy, including qualitative comparative analysis. Rosie has designed and implemented mixed-methods evaluations for government

Name	Role and Organisation	Bio
		<p>departments, regional government, and sector-bodies to provide high quality evidence to inform the design and delivery of employment policies and programmes. Rosie is author of over sixty research and evaluation publications.</p>
<p>Dr Rik Van de Kerckhove</p>	<p>Head of Defence People, Ministry of Justice</p>	<p>Rik Van de Kerckhove is currently heading People Research and Evidence in the Ministry of Defence and has over 14 years' experience of research within government – seven of those years within the Ministry of Justice (and Her Majesty's Prison and Probation Service), five at Defra and two at Ministry for Housing, Communities, and Local Government. He has held both statistical and social research posts focussing on research methodology and advanced statistics among other things. Most recently at the MoJ, Rik set up an experimentation and evaluation hub to innovate the way evidence is being generated and used, and led on the evaluation of the £1bn HMCTS court reform.</p>
<p>Dr Sarah Fullick</p>	<p>Head of Programmes, Youth Endowment Fund</p>	<p>Sarah has worked for the Youth Endowment Fund as the Head of Programmes for the past two-years. She has spent the last ten years focusing on improving the outcomes and life chances of children and young people, with a particular focus on leading evaluations and managing projects designed to build our understanding of what works. Her previous role at Ipsos MORI provided an opportunity to lead on youth crime and violence where she was involved in the Violence Reduction Unit Evaluations and a number of Youth Endowment Fund evaluations.</p>
<p>Dr Sarah Taylor</p>	<p>Deputy Director of Research, Children's Commissioner for England</p>	<p>Sarah leads research for the Children's Commissioner for England. She coordinates a research programme to promote and protect the rights of children, especially the most vulnerable. Sarah joined the OCC in 2023 from the children's charity Coram, where she led the evaluation team and acted as PI on three RCTs of children's social care interventions. She previously worked in parenting and children's charities and for the National Audit Office where she led studies on public spending for parliament, and delivered training on evidence and evaluation. She holds social science degrees from the LSE and a DPhil from the University of Oxford on child poverty in the UK</p>
<p>Dr Seyi Soremekun</p>	<p>Assistant Professor, London School of Hygiene and Tropical Medicine</p>	<p>Seyi evaluates large scale observational and randomised trials of public health interventions and programmes with a focus on infectious diseases and child health. Seyi has worked in collaboration with social scientists, participant groups, government policy-makers, and international bodies in a range of low and middle</p>

Name	Role and Organisation	Bio
		income settings. The majority of her outputs are based on evidence from randomised trials in sub-Saharan Africa which bears a disproportionate burden of disease and poor development; however she has led UK population-wide observational studies on chronic conditions (asthma and COPD), and observational research in other low income settings (South America, Papua New Guinea).
Professor Sarah Miller	Professor of Education, Queen's University Belfast	Sarah's research focuses on early childhood education and methods in the field of 'what works' in education, specifically social emotional development, academic attainment and programme evaluation. She has conducted over 25 large-scale studies, which have included: randomised controlled trials, systematic reviews and meta-analyses, quasi-experimental studies and surveys.
Simon Marlow	Lead Analyst, Department for Work and Pensions	Simon is a Lead Analyst at the Department for Work and Pensions (DWP). He has expertise in experimental, quasi-experimental, theory-based and economic evaluation approaches.
Stacy Sharman	Head of Policy Analysis & Research, Department for International Trade	Stacy is a Government Social Researcher with over 18 years experience working in a variety of social research roles across government. She has designed, commissioned and managed evaluation projects in policy areas including Further Education and skills, water quality, flood risk management, and the marine environment. She has a particular interest in new and innovative evaluation methods and how these can be best deployed in the public policy context.
Professor Stephen Morris	Professor of Evaluation, Manchester Metropolitan University	Stephen is a Professor of Evaluation at Manchester Metropolitan University. He specialises in impact evaluation including RCTs and quasi-experimental designs; he also uses theory-based approaches in his work. He is responsible for the design, delivery and execution of evaluation studies in a range of different areas, such as, work, education, employment and skills, welfare, crime and justice, business support, innovation, youth transitions and health. For over 20 years he has designed and delivered studies for a range of different central government departments, local government and not-for-profit clients.
Susannah Hume	Director of Evaluation, King's College London (KCL)	Susannah is the Director of Evaluation in the Policy Institute at King's College London. In this capacity, she also served from January 2019 to June 2020 as Establishing Director of TASO. Prior to joining the Policy Institute, she was the inaugural Associate Director of the King's What Works Department, and before that was Principal Advisor and Head of Skills at the Behavioural Insights Team.

Name	Role and Organisation	Bio
Tarran Macmillan	Head of Irregular Migration Research and Evaluation, Home Office	Tarran is Head of Irregular Migration Research and Evaluation for the Home Office. He has expertise in experimental, theory-based and economic evaluation approaches.
Dr Thanos Alifantis	Associate Director, Head of Data Science, Atkins	Thanos is an Economist & Data Scientist with 21 years of experience in modelling & analytics roles. In his current role at Atkins, he advises NetZero and the Nuclear Industry on the use of Machine Learning & AI. In the past, he worked for HM Government where amongst other roles he served as Head of Evaluation and Econometrics in HMRC's policy analysis directorate (KAI) supporting HM Treasury with the quantification of fiscal policy impacts and policy costings. He holds a degree in Economics & Operational Research from Lancaster and PhD in Simulation & Machine Learning from Warwick.
Dr Victoria Menzies	Assistant Professor, Durham University	Vic is an Assistant Professor at the School of Education at Durham University. Her research focuses on evaluation of school and early years educational programmes with a specific interest in evaluation methodology. She has extensive experience of leading, designing and delivering impact and implementation evaluations across a range of ages and settings. She has also developed existing programmes for delivery at scale, ready for evaluation. Vic has strong expertise in RCT methodology and has a particular interest in pilot RCTs. Her research focus has recently moved into how theory-based evaluation can be conducted rigorously when RCT design is not appropriate.
