Authorized Amendment
Summary / Overview of the amendment to explain/ensure that the reader understands: the rationale for the amendment; the major changes; and, importantly, the full context (including desired outcome) of the amendment.
The Regulated Community is reminded to check this amendment against any applicable AAMC, Waivers or Exemptions to ensure their ongoing validity.
Requirement for a new regulation to capture the possible use of unassured Aircraft surveillance data by Controllers to provide situational awareness to Aircrew, especially in areas of high glider activity. RA 3208 has required two rounds of iNPA/NPA as a result of the comments received during NPA22/23 which subsequently required a notable amount of change to address the issues raised. The changes mainly affected who authorised the use of unassured data, who is required to carry out the requisite safety work and the additional requirement to add phraseology.
