Subject: S62A/2023/0017

Objection

to the planned Open Logistics Facility at Land at Tilekiln Green Start Hill Great Hallingbury

Reasons for my Rejection are as follows

Given this is a residential are and therefore not suited for industrial purpose. Also the current infra structure could not accommodate more traffic. With no pavement this is already very very dangerous for non vehicle user. Speeding has been dramatically increased. Given this site is within a Countryside Protection Zone the damage to the Wildlife,Flora and Fauna irreparable and will also lead to increased noise,air and light pollution.

Kind Regards for considering these Points

Joerg Stuebler
