Subject: Wren kitchens

Dear Sir,

I have lived in Woodside Green which is close to Great Hallingbury for thirty years. I feel part of a thriving village which has a strong community feel. It has houses and a school nearby and lovely gardens. Its a residential area not an industrial area. We are close to Stansted airport that has a huge industrial area that Wren kitchens are currently operating out of. It makes no sense for them to relocate to our village and ruin a perfectly nice residential area when they are already in a perfectly suitable location.

Apparently the site is within a Countryside Protection Zone so if that is worth anything other than empty words then I hope this application is soundly rejected.

I hope and trust you will come to the correct decision.

Sara Palombo
