Subject: Planning Application: S62A/2023/0017 - Land at Tilekiln Green, Stansted, Great Hallingbury

There will be many more vehicles per hour at the junction between B1256 and Junction 8 as well as a large likely increase in vehicles per hour using Church Rd per se, and also the junction between TileKiln Green and B1256. This will add congestion-sourced timeloss, financial/fuel loss and more environmental damage due to exhaust fumes, tyre pollution, and more risk to regular semi-rural users such as walkers, cyclists, horse riders. And of course, noise pollution and road surface erosion.

Not a great idea,
sorry

peter Lemer
