I object strongly against the development of the site at Tilekin Green, Gt. Hallingbury!

I am absolutely disgusted that Wren have tried once again for permission to develop this site!!

Gt. Hallingbury is a village, NOT an industrial site! Our lanes are narrow & hardly any pavements. I already have to put up with traffic coming through from the motorway & a rat run at school times & rush hour. If this development is allowed to go through it will be an absolute disaster for our village.

This land is not suitable at all for this industry. The noise and air pollution will ruin the community around it.

The nearest M11 junction J8/a is already at capacity and this addition will cause even more chaos which is not acceptable.
