Subject: Reference: Section 62A Planning Application: S62A/2023/0017 - Land at Tilekiln Green, Start Hill, Great Hallingbury

I strongly object to Wrens 3rd application to build a logistics park on this site.

My family live on the road and the park will be directly opposite their house causing noise and pollution for this young family 24 hours a day.  
The family will not be safe to walk or cycle out of their property with the heavy goods traffic that the logistics park will bring.

The area will be spoilt forever. It is wholly inappropriate for a country lane/village. This cannot go ahead with residents living so near with intense traffic in the lane all hours of the day and night.

It is also an assault on our green spaces and habitats which will be gone forever.

King regards
