Re : section 62A/2023/0017

I Am objecting to this application on the grounds it does not belong here.
Wren fky. From day one they came on a bank holiday and cut all the trees. Destroyed.
Plus they intimidated us by parking their lorries outside are houses running and leaving them unattended.

At the hearing the senior representative said we are good neighbours to have and I promise you no lorries will be in the country lane watch the video hearing saying this again that was a lies. Watch are video parking his lorry outside and plus wrong side of the road on a bend what would have happened if a car / van turned in plus left unattended this is a hazard and very dangerous anyone can drive off and kill somebody. They shouldn't be down here. This B8 should not even be considered in a country protected zone. They have not even moved in and they have broken the laws with their lorries parking them outside are houses unattended and running. Broken promises by wren all lies just to get their license

Children use this country lanes waiting for school minibus. Dog walkers. Horse's riders. Joggers.

Cyclist. We have no pavement in this country lanes. So makes it even more dangerous

Surely there must be a more appropriate place for a B8 lorry park. We are going have lighting 150 thousand lumens in total that's what you have for a football pitch. Noise levels will be high loading and unloading engines running plus they want 24/7 access. When do you enjoy are houses or gardens

when they're only feet away.No fences are high enough to block lightning and noise levels.

You need to come down and have a look for yourself then you would know how crazy this application is and should not even be considered. Watch video please.

Thank you.

Regards
