I Strongly object to the application for a logistics operation in this village location. This is clearly not in keeping with the rural and residential nature of this area.

The planned operation will operate 24 hours causing disturbance to local residents, wildlife and cause pollution in an all ready over polluted area.

The proposed lorry park also backs onto the flitchway, a rural path of great importance to local residents and wildlife.

We are guardians of the countryside and owe a duty to our children and grandchildren to protect the environment Should we allow these big companies to expand and grow bigger with such a high cost to the environment?

The M11 junction roundabout is always very congested, extra lorries will add further blockages and delays.

Please turn down this application and think about the ENVIRONMENT!
