

Civil Service

A modern
Civil Service 

Our values

We serve with **integrity, honesty, objectivity** and **impartiality**.

Our vision

A **skilled, innovative** and **ambitious** Civil Service equipped for the future. We will renew the Civil Service together to deliver on our purpose of providing high quality advice to the Government, outstanding services to the public and safeguarding the UK's prosperity and security at home and overseas.

Building on the actions from the Declaration on Government Reform we're focusing on five key missions for reform. These are areas where we can work together to unlock improvements across the Civil Service.

Our five reform missions

- **Capability:** a skilled Civil Service that is able to adapt to the needs of the public we serve.
- **Place:** representative of the communities we serve and that provides a thriving presence across the country.
- **Delivery:** collaborative, routinely working across organisational barriers, with a culture of excellence in service delivery.
- **Digital and data:** able to harness the power of digital and data to make better decisions, improve service delivery and enhance user experience.
- **Innovation:** rewards and encourages our staff to find innovative solutions to problems in order to deliver better outcomes for the public.
