*Reducing demand, restricting  
supply, building recovery.*

## Drugs and Alcohol from an IOM perspective

Paul Chandwani  
July 2012

- Increase the ambition for recovery, whilst recognising each recovery journey will be unique.
- Give everyone the opportunity to a life free of drugs.
- Rapid response to emerging threats; evidence based.
- Review demand reduction approaches, encourage and enable personal responsibility
- Tough enforcement action to restrict drug supply, decrease profits and increase risks to drug traffickers.
